1 ADMINISTRATIVE OFFICERS

)ONALD O. HEBB, B.A. (Dal.), Ph.D. (Harv.), D.Sc. (Chic., Wat., York, McM.), D.H.L. (Northeastern), LL.D. (Dal., Queen's, U.W.O.), M.A., F.R.S., F.R.S.C. *Chancellor*

TUART M. FINLAYSON, B.Sc. *Chairman of the Board of Governors*

:OBERT E. BELL, C.C., B.A., M.A. (U.B.C.), D.Sc. (U.N.B.), LL.D. (Tor.), Ph.D., F.R.S., F.R.S.C. *Principal and Vice-Chancellor*

:IGIL PEDERSEN, B.A. (S.G.W.U.), Ed.D. (Harv.), M.A. *Vice-Principal (Academic)*

TANLEY B. FROST, B.D., M.Th. (Lond.), Dr.Phil. (Marburg), D.D. (Vic., Tor.), D.Litt. (Mem.) *Vice-Principal (Administration and Professional Faculties)*

MAURICE McGREGOR, M.B.B.Ch., M.D. (Rand), F.R.C.P. (Lond.), F.R.C.P. (C) *Vice-Principal (Health Care)*

\. C. BLACKWOOD, B.Sc., M.Sc. (Alta.), Ph. D. (Wis.) *Vice-Principal (Macdonald College)*

\LLAN C. McCOLL, D.F.C., B.Com., C.A. *Director of Finance*

)OHN H. HOLTON, B.Com. (Tor.), *Secretary of the Board of Governors*

:OLIN M. McDOUGALL, D.S.O., B.A. *Registrar and Secretary of Senate*

N. DOUGLAS JOHNSTON, B.Com. *University Treasurer*

'EGGY SHEPPARD, B.A. (S.G.W.U.), B.Ed. *Admissions Office, Director*

HARRY E. GRIFFITHS, M.A. (Middlebury), B.Com. *Athletics, Physical Education and Recreation, Director*

:HARLES E. NOEL, B.Com., C.A. *Business Operations, Director*

RONALD G. KURANOFF *Chief Accountant*

)OHN ARMOUR, AACCA *Comptroller*

M. SAEED MIRZA, B.Eng. (Karachi), M.Eng., Ph.D. *Dean of Students*

)EAN DAVID, L.S.A. (U. of M.), Ph.D. (Calif.) *Macdonald College, Registrar*

WILLIAM C. SHIPLEY, B.Sc., M.A. *Macdonald College, Secretary and Co-ordinator of Administrative Services*

D. LORNE GALES, B.A., B.C.L. *McGill Fund Council, Executive Director*

ROBIN STRACHAN, B.A., M.A. (Cantab.) *McGill-Queen's University Press, Director*

JOHN E. BATES, B.Sc. (Lond.), B.Com. (S.G.W.U.) *Management Systems, Director*

PAUL M. MATTHEWS, B.A. (Ott.), M.Sc. (Fordham) *Personnel Services, Director*

G. S. KINGDON, B.A.Sc. (Tor.) *Physical Planning Office, Director*

A. DOUGLAS ELLIOTT, M.M., B.Eng. *Physical Plant, Director*

ANDREW ALLEN *Public Relations and Information Office, Director*

EDWARD K. DESROSIERS, B.A., M.A. *Research for Planning and Development Office, Director*

J. STANLEY KENNEDY, B.A., B.D. *Student Aid and Student Counselling, Director*

JOHN G. LOHRENZ, M.D. (Man.) *University Health Service, Director*

R. A. FARLEY, B.A. (Ashland), B.L.S. (Wis.), M.S., Ph.D. (Ill.) *University Libraries, Director*

1.2 DEANS AND DIRECTORS

A. C. BLACKWOOD, B.Sc., M.Sc. (Alta.), Ph.D. (Wis.) *Vice-Principal of Macdonald College and Dean, Faculty of Agriculture*

ROBERT VOGEL, B.A. (S.G.W.U.), M.A., Ph.D. *Arts*

ERNEST R. AMBROSE, D.D.S., F.I.C.D. *Dentistry*

C. WAYNE HALL, M.A. (Bishop's) *Educatio*
G. L. d'OMBRAIN, B.Sc. (Eng.), Ph.D. (Lond.), D.I.C., A.G.C.I., M.I.E.E., M.A.I.E.E. *Engineerin*
WALTER F. HITSCHFELD, B.A.Sc. (Tor.), Ph.D. *Graduate Studies and Researc*
JOHN W. DURNFORD, B.A., B.C.L. *La*
HOWARD I. ROSS, O.B.E., C.A., M.A. (Oxon.), LL.D. (Queen's, S.G.W.U.), D.Sc. Comm. (Sher.), B.A. *Managemer*
R. F. PATRICK CRONIN, M.D.,C.M., M.Sc., M.R.C.P. (Lond.), F.R.C.P.(C) *Medicin*
HELMUT BLUME, (Graduate, Staatliche Akademische Hochschule für Musik, Berlin) *Musi*
GEORGE JOHNSTON, M.A., B.D. (Glasgow), Ph.D. (Cantab.) *Religious Studie*
E. J. STANSBURY, M.A., Ph.D. (Tor.) *Scienc*
NORBERT SCHOENAUER, B.Arch. (Royal Hungarian Univ.), M.Arch. *Architectur*
GEORGE MARSAGLIA, B.Sc. (Colorado), Ph.D. (Ohio State) *Computer Scienc*
HELEN R. NEILSON, M.B.E., B.H.S., M.Sc. *Food Scienc*
EFFIE C. ASTBURY, M.L.S. (Tor.), B.A., B.L.S. *Library Scienc*
JOAN M. GILCHRIST, B.N., M.Sc. (Appl.), R.N. *Nursin*
GUY H. FISK, B.A., M.D.,C.M., D.T.M. and H. (Eng.), F.R.C.P.(C) *Physical and Occupational Therap*
DAVID E. WOODSWORTH, B.A. (Tor.), M.A. (Mich.), Ph.D. (Brandeis) *Social Wor*

1.3 HISTORY

In 1813 the Hon. James McGill, a leading merchant and prominent citizen of Montrea died and left in his will a property of forty-six acres and a sum of 10,000 pounds t the already existing Royal Institution for the Advancement of Learning upon conditio that the latter erected "upon the said tract or parcel of land, an University or College for the purpose of education and the advancement of learning in this Province"; an further upon condition that "one of the Colleges to be comprised in the said Universit shall be named and perpetually be known and distinguished by the appellation of 'McGil College'."

Owing to a lack of funds and persistent opposition the complete University which ha been planned by the Royal Institution was not built, but after years of litigation an effort a Royal Charter was granted in 1821 and the University of McGill College wa opened in 1829 with what remained of James McGill's legacy as its endowment, an teaching then started in the Faculties of Medicine and Arts. The Medical Faculty grew steadily, and after an amended Charter was secured in 1852 a new era of progress began for the Faculty of Arts with the appointment in 1855 of Sir William Dawson a Principal, a position which he held for thirty-eight years.

Since 1855 the University has grown vigorously, dividing itself into further faculties. In 1899 the Royal Victoria College was opened, a gift of Baron Strathcona, to provide separate teaching and residential facilities for women students. Gradually, however, classes for men and women were merged, and now the University is wholly coeducational. In 1907 Macdonald College was established at Ste. Anne de Bellevue, as a residential college for Agriculture, Household Science, and the School for Teachers. This general development was greatly facilitated by the generosity of Sir William Macdonald, whose gifts to the University included a Physics Building, a Chemistry and Mining Building, and an Engineering Building, in addition to the college named after him.

At present more than sixteen thousand students are taking regular university courses. New buildings have been erected or acquired to provide the undergraduate and research facilities needed by the increased student body, including Douglas Hall, now a coeducational residence, and large extensions of the Royal Victoria College for women. In 1959 the McConnell Engineering Building, the gift of Mr. J. W. McConnell, was opened. The Sir Arthur Currie Memorial Gymnasium, built in 1939, has been extended to include

swimming pool opened in 1950 and a Winter Stadium which was added in 1956. In 962 His Royal Highness Prince Philip, Duke of Edinburgh, opened three new resiences for men, Gardner, McConnell and Molson Halls, made possible by generous gifts rom Mr. J. W. McConnell and the Molson family. These residences are now co-educaonal. The Leacock Humanities Building and the Roscoe Wing of the Royal Victoria Colege were in use during the 1964-65 session. The Roscoe Wing and the West Wing now omprise the Royal Victoria College and provide residence facilities for 224 women. The ast Wing and central section is now named the Strathcona Music Building and houses he Faculty of Music which moved to the new location in January 1972. The University entre, the McIntyre Medical Sciences Building, and the Stewart Biology Building were pen for the 1965-66 session. An extension to Chancellor Day Hall, housing the Faculty f Law and including a Moot Court Room, was opened for the 1966-67 session and the IcLennan Library was in use for the 1968-69 session. Burnside Hall, housing the School f Computer Science and the departments of Geography, Meteorology and Mathematics nd the building providing facilities for the Faculty of Education, now established on the IcGill campus, were in use for the 1970-71 session and the Samuel Bronfman Building or Management and Business Administration opened in September 1972.

.4 INCORPORATED AND AFFILIATED COLLEGES

.4.1 INCORPORATED COLLEGES

Iacdonald College

Iacdonald College is situated at Ste. Anne de Bellevue, about twenty-five miles from Iontreal. It consists of the Faculty of Agriculture and the School of Food Science. All legree courses are under the control of the Senate of McGill University and all the hort term courses in agriculture are under the direction of the Faculty of Agriculture.

Vice-Principal — A. C. Blackwood, B.Sc., M.Sc. (Alta.), Ph.D. (Wis.)

he Royal Victoria College

3425 University Street

he Royal Victoria College is a college of McGill University and provides residential ccommodation for women students.

Warden — Donna R. Runnalls, B.A. (U.B.C.), Ph.D. (Tor.), B.D.

.4.2 AFFILIATED THEOLOGICAL COLLEGES

he Montreal Diocesan Theological College

3473 University Street

Principal — The Rev. Monroe Peaston, M.A., B.D., Th.D.

he United Theological College of Montreal

3473 University Street

Principal — J. A. Boorman, B.A., M.A., Ph.D.

he Presbyterian College of Montreal

3495 University Street

Acting Principal — The Very Rev. C. Ritchie Bell, B.A., B.D., D.D.

NOTE: The above three colleges train students for the Ministry and grant certificates for ordination but they have remitted their degree-granting powers to the University.

1.5 GOVERNMENT

McGill University is a Corporation created by a Royal Charter granted by the Crown of the United Kingdom, a general supervisory power being retained by the Crown and exercised through the Governor-General as *Visitor*.

The *Governors* of the University constitute the Royal Institution for the Advancement of Learning, a corporation existing under the laws of the Province of Quebec. In them is vested the management of finances, the appointment, in consultation with Senate, of Professors, and other duties. Twenty-five of the Governors are elected by the Board

from amongst those nominated by its Nominating Committee; five are elected by th Graduates' Society; five are elected by Senate from amongst its members, and thr elected by the students of McGill University from amongst the student body. The Boa elects the Chancellor of the University and also, from among its members, a Chairma to preside at its meetings, who may also be the Chancellor. The Chancellor and th Principal are *ex officio* members.

The *Chancellor* is Presiding Officer of Convocation and of Joint Sessions of the Boar of Governors and the Senate.

The *Chairman of the Board of Governors* is President of the Royal Institution for th Advancement of Learning.

The *Principal* is the academic head and chief administrative officer. He is appointe by the Board of Governors after consultation with Senate. He also holds the office Vice-Chancellor of the University and is, *ex officio,* Chairman of Senate.

Senate consists of eighty-two voting members: The Chancellor, the Principal, th Chairman of the Board of Governors, the Vice-Principals, the Deans of the Faculties the Dean of Students, the Director of Libraries, the Director of the Centre for Contin uing Education, the President of the Students' Society, forty-one members elected b their Faculties, four Governors elected by the Board, and fourteen students elected b the students. The Senate is the highest academic authority of the University and ha control over admission, courses of study, discipline, and degrees.

The carrying out of the regulations of Senate along with primary responsibility fo the conduct of the educational work of the University is entrusted to the variou Faculties and Schools.

1.5.1 STUDENT GOVERNMEN

All students registered in the University are members of the Students' Society excep for students governed by the constitution of the Macdonald College Students' Societ and students registered in the Faculty of Graduate Studies and Research who ar non-resident students or full-time members of the teaching staff.

The executive and legislative authority of the Society is vested in the Executiv Committee and Students' Council respectively. The Council, as the governing body, i responsible for the proper functioning of all activities of the Society. All undergraduat societies, major activities, clubs, societies, publications and other campus organization of the Students' Society are under its jurisdiction. It is the only recognized medium apart from the Students' Athletics Council, between the student body and the Universit authorities.

The Council is responsible to the students through open meetings and referendum of the Students' Society, and operates according to the constitution of the Student Society.

Full details of the operations, constitution, officers and committees of the Student Society are given in the *Student Handbook*, obtainable from the Students' Society upo request.

1.6 RESEARCH INSTITUTES, CENTRES AND PROGRAMS

The Institutes and similar groups listed below carry out research and teaching in a number of specialized fields. In most of them facilities are available for qualifie students who wish to take higher degrees.

1.6.1 INSTITUTE OF AIR AND SPACE LAW

The Institute provides a program and facilities for advanced study and fundamental research in air and space law and related problems of international law for highly qualified law graduates or others with appropriate qualifications, and also provides an academic organization for fundamental research in these fields. Students may proceed towards the Diploma in Air and Space Law, the degree of Master of Laws or the Doctor of Civil Law.

Director — PROFESSOR I. A. VLASIC.

1.6.2 ALLAN MEMORIAL INSTITUTE OF PSYCHIATRY

Psychiatric Institute for teaching, research, and treatment. McGill University undertakes responsibility for the training and teaching facilities, and the Royal Victoria Hospital for the clinical work. Teaching covers both undergraduate instruction and advanced postgraduate training. Research facilities are provided for clinical and laboratory studies of clinical conditions and biochemical, physiological and psychological study of various aspects of behavioural disorders in animal and man.

Director — DR. M. DONGIER.

1.6.3 ANAESTHESIA RESEARCH DEPARTMENT

Electrophysiological and neurochemical studies on synaptic transmission in the brain: the aim is to identify the naturally occurring chemical transmitter and receptor substances and to analyse their modes of action.

Director — PROFESSOR K. KRNJEVIC.

1.6.4 ANTHROPOLOGY OF DEVELOPMENT PROGRAM

The program coordinates and furthers research and teaching on the process of socio-economic development as it affects small communities in the Canadian north and in low-income countries.

Director — PROFESSOR R. F. SALISBURY.

1.6.5 AVIATION MEDICAL RESEARCH UNIT

The Unit deals with physiology of orientation, vision and postural control.

Director — PROFESSOR G. MELVILL JONES.

1.6.6 BELLAIRS RESEARCH INSTITUTE

At this Institute, located in Barbados, research is conducted in marine biology, geology, geography and tropical climatology.

Director — PROFESSOR FINN SANDER.

1.6.7 BIOMEDICAL ENGINEERING UNIT

The BioMedical Engineering Unit operates both in the Faculties of Engineering and Medicine to carry out research and to train graduate students. Its work concentrates especially on neuromuscular control systems, sensory and neural communication theory, eye movements and electronystagmography, auditory system, hospital information, health systems, and technological applications in the clinical environment.

Acting Director — PROFESSOR C. A. LASZLO.

1.6.8 BRACE RESEARCH INSTITUTE

The Institute is concerned with the utilization of solar and wind energy as a means of improving the living conditions of peoples in arid areas. Simple solar desalination systems have been developed in addition to the combination of these systems with greenhouses for the production of food and water in arid areas. Investigations have been undertaken for developing windmills for the production of electricity and the pumping of water.

Director, Field Operations — T. A. LAWAND.

1.6.9 McGILL CANCER RESEARCH UNIT

McGill University Cancer Research Unit is supported by the National Cancer Institute of Canada. Principal field of research is the study of a control of cell division using chemo- and radio-therapeutic agents.

Director — To be appointed.

1.6.10 INSTITUTE OF COMPARATIVE LAW

The Institute of Comparative Law is established within the Faculty of Law of McGill University as a centre for comparative legal studies providing facilities for graduate work, advanced studies and field research in Private and Public Law. In private law the main emphasis is placed upon the concepts of the civil law systems of continental Europe and Quebec and of the Anglo-American-Canadian common law. In public law special attention is given to comparative constitutional law.

Director — DR. H. R. HAHLO.

1.6.11 COMPUTING CENTR

The Computing Centre provides computer service for instructional, research ar administrative purposes. Current equipment includes two large IBM systems, a 36 Model 75 and a 370 Model 155. The latter is dedicated to timesharing, permittir direct access from any location on campus equipped with a low cost terminal. Facilitie for card input and high volume printed output are available at several locations o the main campus and at Macdonald College.

Director — PROFESSOR W. D. THORPE.

1.6.12 DAIRY HERD ANALYSIS SERVIC (Livestock Population Genetics

Research in the dynamics of domesticated livestock populations with particular em phasis on the physiological and environmental factors that affect the estimation of th relative genetic merit of individual and groups of animals.

Director — PROFESSOR J. E. MOXLEY.

1.6.13 McGILL UNIVERSITY PROJECT FOR DEAF CHILDRE

This research project, begun in 1966, tries to determine methods of identifying deaf ness in early infancy and evaluating training procedures which can be used in th rehabilitation of young deaf children. The type of research undertaken includes researc on prosthetic devices such as frequency transposing hearing aids.

Director — PROFESSOR DANIEL LING.

1.6.14 CENTRE FOR DEVELOPING AREA STUDIE

The Centre attempts to coordinate research and graduate studies on development topic in both the social sciences and the applied sciences. It organizes workshops an seminars and operates a publications program and a library which contains self-instruc tional development modules.

Director — PROFESSOR T. L. HILLS.

1.6.15 CENTRE FOR EAST ASIAN STUDIE

Since 1968, the Centre for East Asian Studies has been acting as a coordinating entit in the stimulation of courses, acquisition of library and promoter of the Department o East Asian Languages and Literatures. The framework within which all of these activitie are pursued is the humanistic tradition of scholarship with primary emphasis on th modern period in both China and Japan.

Director — PROFESSOR P. T. K. LIN.

1.6.16 FOSTER RADIATION LABORATOR

Research activities are centred around the 100 MeV proton synchrocyclotron. The research program includes the study of nuclear structure by means of beta, gamma, delayed proton and delayed alpha decays, and of the properties of nuclei lying far off the beta stability line.

Director — PROFESSOR S. K. MARK.

1.6.17 FRENCH CANADA STUDIES PROGRAM

This program was established in 1963 for the study of French Canada at the under graduate and graduate levels, by research, and extension and public education pro grams. It has included in its program the award of fellowships, a large number of research projects, and the improvement of the collection of French Canadiana in the McLennan Library.

Director — PROFESSOR JEAN-LOUIS ROY.

1.6.18 GASTROINTESTINAL RESEARCH INSTITUTE

The Institute was established in 1959 to provide interdisciplinary research facility and graduate education in enterology. The research program correlates different fields, such as botany, zoology, bacteriology, physics, chemistry and clinical investigation, in problems concerning alimentary canal and nutrition. The policy of the Institute since its inception is to encourage interdepartmental activity, as well as integrate interdisci plinary research in relation to the digestive system.

Graduate students take courses in different departments which are considered cessary for the training in the particular field of research. Consideration will be given the particular interests and previous experience of the candidate in the selection the project, by arrangement with various departments, if these can be integrated o the research program. The special research interests of the Institute include: Comparative intestinal absorption of metal ions in simple forms of life and higher ammals; 2) Preparation of synthetic and naturally occurring polymers for prevention radiostrontium contamination; 3) Structure and physical function of gastrointestinal ucin from different species.

Director — PROFESSOR STANLEY C. SKORYNA.

6.19 GAULT ESTATE:
422 rue des Moulins
Mont St. Hilaire

ne Estate, a legacy from the late Brigadier A. Hamilton Gault, consists of 2200 acres forested mountain 20 miles east of Montreal, including Lac Hertel and its complete ainage basin. The entire property is protected as a Federal Bird Sanctuary.

The twelve-hundred acre western sector, with four summits linked by a 12 mile etwork of trails, is open daily throughout the year to members of the University and e visiting public. Seasonal recreational activities include hiking, skiing, snowshoeing, cnics, photography and other pursuits which do not alter or change the environment. o motorized vehicles are permitted beyond the parking area except on official business. o camping is permitted at any time. One thousand acres on the eastern shore of e lake form a Biological Reserve, to which access is restricted by permit for approved ld research in the natural sciences.

Comfortable dormitory facilities are available for up to 32 persons, for classes and r individuals involved in ecological studies. A Day-Conference Centre is provided Manoir Gault on Lac Hertel for groups of up to 50 persons. This can be used in njunction with the Dormitories. Limited accommodation is also available in the ttage. All arrangements must be made by written application to the Acting Warden.

The Estate is also headquarters for the Mont St. Hilaire Nature Conservation Centre, hich conducts a year round bilingual nature interpretation program for all ages. The ntre is supported entirely by outside funds, including grants from industry and fees r services rendered, and cooperates with educational institutions and community ganizations to provide teacher training and counselling services in outdoor education.

Acting Warden and Director of the Nature Centre — ALICE E. JOHANNSEN.

6.20 SCHOOL OF HUMAN COMMUNICATION DISORDERS
1266 Pine Ave. West

ne School of Human Communication Disorders offers both professional and research aining in speech and hearing disorders at the graduate level. Emphasis is placed on understanding of fundamental principles and critical evaluation of current ethods rather than upon the teaching of specific techniques for diagnosis and therapy.

Director — PROFESSOR D. LING.

6.21 INDUSTRIAL RELATIONS CENTRE

ne Centre provides information, evening seminars, research on industrial relations; ffers fellowships and research training; publishes newsletters surveying developments industrial relations in Canada, as well as research reports; maintains a computerized nalysis of more than 800 Canadian collective agreements. Membership from the mmunity includes crown corporations and Government agencies, industrial firms, spitals and labour unions.

Director — PROFESSOR FRANCES BAIRSTOW.

6.22 INSTITUTE OF ISLAMIC STUDIES

cGill University's Institute of Islamic Studies is concerned with the disciplined study f Islamic civilization throughout the scope of its history and its geographical spread. gives attention to the origins of Islam, to the rise of the civilization in which Islamic ith was the vivifying factor, to the forces which shaped the civilization and the

changes it has undergone. It is also concerned with the contemporary dynamics
the Islamic world as Muslims seek to relate their heritage from the past to the radic
situation of modernity.

Director — PROFESSOR C. J. ADAMS.

1.6.23 **JEWISH STUDIES PROGRA**

This Program was established in 1968 on an interdisciplinary basis. The aims of t
program include making Jewish culture and thought available to students throu
courses within several departments as well as to those students who seek a measu
of specialization. The Program courses fall under two categories — those which a
primarily devoted to Jewish material, and those which are secondarily so concerne
An Honours B.A. and a B.A. with Major in Jewish Studies are available.

Chairman. — PROFESSOR E. V. ORENSTEIN.

1.6.24 **CENTRE FOR LEARNING AND DEVELOPMEN**

The Centre for Learning and Development was established in 1969 to help improv
the learning environment, teaching practices and learning methods at all levels
education. At present its activities focus on university education and include dissem
nation of relevant information, consultation, workshops, and research.

Director — PROFESSOR M. L. GOLDSCHMID.

1.6.25 **McGILL MAGNET LABORATOR**
Longueuil, Qu

This laboratory contains facilities for the production of intense magnetic fields, bo
continuous and pulsed, for the use of research workers whose scientific programs ca
benefit from their use.

Director — PROFESSOR D. R. STEVENSON.

1.6.26 **MANAGEMENT INSTITUT**

The Management Institute, an ancillary operation of the Faculty of Management, in
plements the Faculty's policies regarding continuing education for business. It offe
courses and seminars designed to help middle and senior management people kee
abreast of current developments in analytical and decision-making techniques, and
provide executives with a better appreciation of the integrative problems of gener
management.

Director — PROFESSOR R. N. MORRISON.

1.6.27 **MARINE SCIENCES CENTR**

The Centre is interdepartmental in scope, emphasizing the interdisciplinary nature
the science of oceanography. Excellent laboratory and library facilities are availabl
and opportunities for field work exist in the Arctic, the Gulf of St. Lawrence, the Can
dian eastern seaboard, and at the Bellairs Research Institute in Barbados. Speci
research interests include the physics of sea ice, the energy exchange between atm
sphere and hydrosphere, marine climatology, the dynamics of sea water, marin
bacteria, growth and life cycles of marine organisms, marine productivity, marin
biogeography and sedimentation.

Chairman — PROFESSOR B. F. d'ANGLEJAN.

1.6.28 **INSTITUTE FOR MINERAL INDUSTRY RESEARCH**

Research at this Institute consists of rock penetration studies, studies in frozen ground
and all aspects of the mining environment, including dust, ventilation, noise an
underground illumination.

Director — To be appointed.

1.6.29 **MONTREAL NEUROLOGICAL HOSPITAL AND INSTITUTE**

The Montreal Neurological Institute and Montreal Neurological Hospital are concerned
with undergraduate and graduate teaching in neurology, neurosurgery and the neuro
sciences, reasearch in basic and clinical sciences related to the nervous system, and
clinical care for patients with disorders of the brain and nerves.

Director — PROFESSOR WILLIAM H. FEINDEL.

1.30 MORGAN ARBORETUM: Macdonald College

tablished in 1947 and located at Macdonald College, the Arboretum has 600 acres woodland devoted to the study of woodlot management and the place of private restry in the eastern Canadian economy; the study of forest values and their con-rvation; teaching, research, demonstration, and conservation education. About 100 res have been planted in reforestation projects involving many coniferous and oad-leaved species. In addition, the Arboretum has an excellent collection of speci-ens of Canadian and foreign trees and shrubs.

Curator — PROFESSOR J. D. MacARTHUR.

1.6.31 INSTITUTE OF PARASITOLOGY

cooperative venture of the National Research Council and the University for the udy of parasitology in man and animals. It also cooperates with public authorities the practical applications of parasitology. It accepts qualified students who wish proceed to the M.Sc. or the Ph.D. degree. The Institute is housed at Macdonald ollege, Ste. Anne de Bellevue, near Montreal.

Director — PROFESSOR K. G. DAVEY.

1.6.32 INSTITUTE OF PATHOLOGY

he Institute is active in a broad research program into the biology of disease. The taff are individual investigators in their field of choice which includes the nature of onnective tissue in health and disease, respiratory disease, cardiovascular diseases, ver disease, haematologic disease and cancer.

Director — PROFESSOR R. H. MORE.

1.6.33 PHONETICS RESEARCH LABORATORY

esearch in acoustic phonetics and speech perception. Spectrographic analysis of peech, production of synthesized speech by means of an Electronic Vocal Analog. anguages investigated include English, French, Cree, Mohawk, Czech, Hungarian.

Director — PROFESSOR ANDRE RIGAULT.

1.6.34 PULP AND PAPER RESEARCH INSTITUTE OF CANADA

eparately incorporated non-profit research organization affiliated with McGill Univer-ty and also with Canadian Pulp and Paper Association and Canadian Department of orestry but with its own board of control. Supported by Canadian pulp and paper ndustry. Principal field of research: pulp and paper technology, including woodlands esearch, mechanical and chemical pulping, paper making, process control, product uality and environmental pollution. Also provides facilities to graduate students work-ng in various departments of McGill University on research projects of interest to the ulp and paper industry.

Director — DR. PIERRE R. GENDRON.

1.6.35 SHASTRI INDO-CANADIAN INSTITUTE

McGill University is a founding member of the Shastri Indo-Canadian Institute, a co-perative, voluntary organization, incorporated in Ottawa, whose members are the National Library and Canadian colleges and universities with an interest in Indian tudies. Its objectives are to enhance the mutual understanding between India and Canada by supporting and promoting development of Indian Studies at Canadian in-titutions of higher learning. This is presently being done mainly by the provision of ellowships for persons residing in Canada to conduct scholarly research in the human-ties and social sciences, and by the acquisition of Indian publications for scholarly se in Canada, and by summer programs to introduce undergraduates and school eachers to the field.

Executive Director — PROFESSOR R. W. STEVENSON.

1.6.36 SOCIAL SCIENCES STATISTICS LABORATORY

The Laboratory is intended to promote quantitative teaching and research in the Social Sciences. The laboratory's facilities include a programmer and a terminal.

Director — PROFESSOR J. DANIEL KHAZZOOM.

1.6.37 **SOIL MECHANICS LABORATOR**

Research interests include fundamental soil mechanics, soil-water interaction, therm soil properties and mechanics, soil dynamics and soil-structure interaction, soil stab ity and constitutive behaviour, mobility and trafficability, and other related problem in soil engineering.

Director — PROFESSOR RAYMOND N. YONG.

1.6.38 **McGILL SUB-ARCTIC RESEARCH LABORATOR Schefferville, Queb**

This Laboratory at Schefferville in the centre of Labrador-Ungava provides facilities f research in most aspects of the environment. There is a resident director and pe manent staff, plus a research group of faculty and graduate students.

Director — PROFESSOR F. H. NICHOLSON.

1.7 UNIVERSITY LIBRARIES

The University libraries include the McLennan Library, the Redpath Library and variou Faculty and Departmental libraries in other buildings and the library at Macdona College in Ste. Anne de Bellevue. The McLennan Library houses the main researc collections for humanities and the social sciences, while the Redpath Library provide expanded facilities for the undergraduate library, the Blacker-Wood collection and th Blackader-Lauterman collection. The libraries of McGill now contain more tha 2,700,000 items and receive 16,000 serial titles, many Government publications an transactions of various literary and scientific societies. The McLennan Library is ric in early printed books, in Canadiana, including the Lande Collection, and in ra pamphlets of the sixteenth to eighteenth centuries. It has special collections of Davi Hume, Rousseau, Rilke, Blake, Napoleon, Stephen Leacock and Rudyard Kipling, th Stearn Library of books and puppets, illustrating the history of the marionette theat of all nations, and the William Colgate collection devoted to typography.

The McLennan Library

1) THE MAIN LOAN AND RESEARCH COLLECTION, concentrated on the social science and humanities as well as other subjects — monographs, journals, document microfilms.
2) THE REFERENCE COLLECTION of encyclopaedias, dictionaries, bibliographical aids indexing and abstracting services, etc., is located on the main floor.
3) A CURRENT PERIODICALS READING ROOM housing approximately 2,400 titles i on the second floor.
4) A GOVERNMENT DOCUMENTS COLLECTION AND READING AREA is located o the second floor.
5) A RARE BOOKS AND SPECIAL COLLECTIONS DEPARTMENT including a readin room is on the street floor. The Lande Collection of Canadiana is on the fourth floo

The Redpath Library

1) THE UNDERGRADUATE LIBRARY. This is an open access circulating collection o approximately 100,000 items. Services of the U.L. include Reference, Reserves Circulation and a Periodicals Reading Room. The Undergraduate Library occupie the basement, street and main floor levels.
2) THE BLACKER-WOOD LIBRARY OF ZOOLOGY AND ORNITHOLOGY is on the second floor. This is an internationally known collection of some 68,000 items.
3) THE BLACKADER-LAUTERMAN LIBRARY OF ARCHITECTURE AND FINE ARTS occupies the entire third floor and houses approximately 34,000 items, numerous periodicals and architectural drawings.
4) THE AUDIO-VISUAL ROOM AND DROP-IN CENTRE are located on the second floor. The Audio-Visual Room is furnished with 225 carrels equipped with audio-visual devices such as slide projector, tape recorder, filmstrip and super-8-loop projectors and television screens.

epartmental and Other Libraries

THE BOTANY AND GENETICS LIBRARY in the Stewart Biological Sciences Building rves some of the needs of the Biology and Psychology Departments. It contains more an 13,000 books, periodicals, government publications and pamphlets.

THE FACULTY OF DENTISTRY LIBRARY is located in the Strathcona Anatomy and ntistry Building and provides 8,400 books and periodicals for faculty and student use.

THE EDUCATION LIBRARY, housed in the Education Building, contains approximate- 84,000 items together with a Curriculum Laboratory, housing tapes, films and other aching aids and a collection of children's books.

THE ENGINEERING LIBRARY of 28,000 items contains an extensive collection of oks, reference material and periodicals in the fields of civil, electrical and chemical gineering for the use of undergraduates, graduate students and faculty in Engineer- g. It is housed in the Macdonald Engineering Building.

THE SCHOOL OF NURSING LIBRARY contains approximately 20,000 volumes and 2 periodical titles. Although the emphasis is on nursing literature, the collection flects the entire curriculum, including economics, education and the social sciences. e Library is located in Wilson Hall.

THE INSTITUTE OF ISLAMIC STUDIES LIBRARY contains approximately 66,000 items d a good collection of journals dealing with many aspects of the Muslim world past d present, with particular emphasis on the Humanities. About one half of the works e in English and other Western languages, and there is a good collection in Arabic, rsian, Turkish, Indonesian, and Urdu. It is located in the Leacock Building.

THE LAW LIBRARY contains over 142,000 items, including virtually all Canadian orks, and the principal law reports of the United Kingdom, France and the United ates, as well as a selection of reports from elsewhere. It is located in Chancellor y Hall.

THE GRADUATE SCHOOL OF LIBRARY SCIENCE LIBRARY, on the street floor of e McLennan Library, contains over 74,000 volumes of books and journals in the fields publishing and library science.

THE MANAGEMENT LIBRARY on the second floor of the Samuel Bronfman Building ntains more than 165,000 items in the fields of management, economics, industrial lations and business.

THE MATHEMATICS LIBRARY in Burnside Hall contains some 190 journals as well as me books devoted to advanced theoretical mathematics.

THE MEDICAL LIBRARY in the McIntyre Medical Sciences Building contains over 2,000 items and receives approximately 2,000 current journals. This library is ted for its collection in the field of Ophthalmology and its retrospective collection of ropean medical publications. It is open to all who have need to use its collections.

THE FACULTY OF MUSIC LIBRARY contains some 24,000 items, including reference oks and periodicals, scores, tapes and records with listening facilities for records d tapes. The Library is located in the Strathcona Music Building.

THE OSLER LIBRARY OF THE HISTORY OF MEDICINE contains a collection of about ,000 items in the history of medicine and allied science, and has, as a nucleus, the 000 volumes, bequeathed to McGill by one of its most famous pupils and teachers, r William Osler. It is especially this portion which is rich in 15th, 16th, 17th, and 18th ntury medical books. The Library is constantly adding to the collection, especially w books on the history of all aspects of medicine and medical people. It is located the third floor of the McIntyre Medical Sciences Building. Undergraduates and all erested persons may use the Library.

THE PHYSICAL SCIENCES LIBRARY houses the Baillie Library of Chemistry, the N. Shaw Library of Physics, the Mining, Metallurgy, Geology and Chemical Engineer- g collections and contains the greater part of the University's collection in the physical iences. It is located on the main floor of the Frank Dawson Adams Building, and uses in excess of 81,000 volumes of books, periodicals and government publications.

THE RELIGIOUS STUDIES LIBRARY, located in the William and Henry Birks Building, ntains 55,000 items in the fields of theology, philosophy, church history, and lated subjects.

THE SCHOOL OF SOCIAL WORK LIBRARY contains nearly 27,000 items in the fields

of social work, community organization, social sciences, and psychology. While t collection is mainly for the use of students of the School other students may read the Library. It is located on the main floor of Wilson Hall.

THE MACDONALD COLLEGE LIBRARY at Ste. Anne de Bellevue contains sor 196,000 volumes in the fields of agricultural and environmental sciences includi food science.

1.8 UNIVERSITY MUSEUMS

1.8.1 THE PETER REDPATH MUSEUM OF NATURAL HISTOR

Built in 1882, this was the first specially designed museum building in Canada. extensive collections, begun in the 1850's by the founder, Sir William Dawson, ha been augmented over the years by gifts and bequests and are constantly expandi through curatorial field research. They are used for basic reference in graduate a undergraduate teaching.

The Museum's holdings, which now include over a million scientific specimens, a especially rich in invertebrate palaeontology, specific areas of vertebrate palaeontolog palaeobotany, malacology, and ornithology. Particularly notable are the Carpent Collection of Mollusca, the Dawson Collections of Palaeontology, and the Ferri Collection of Minerals.

The Museum has close ties with professional scientific societies in many relat disciplines and is also active in national and international museum associations.

1.8.2 THE McCORD MUSEU

This museum with one of the leading collections of Canadiana in the country, ster from the bequest of David Ross McCord in 1919. Notable accessions, including t Notman Photographic Archives, have been added over the years illustrating the histo of Canada in general and Quebec and Montreal in particular. Since 1936 the collectio have been in storage and available only for research, but they are now in the Museun new quarters at 690 Sherbrooke Street West and open to the public on Fridays, Sat days and Sundays from 11 a.m. to 6 p.m. Research is by appointment only, fr Monday through Thursday.

1.8.3 THE LYMAN ENTOMOLOGICAL MUSEUM AND RESEARCH LABORATOR

Located on the Macdonald College campus, this institution has the largest inse collection of any Canadian University, and is second in both numbers of species a specimens only to the Canadian National Collection of insects, Ottawa. The collecti is world-wide in scope. A relatively small part is used directly in teaching since th museum is primarily engaged in research, particularly on the important Order Ortho tera (grasshoppers and related groups), as well as on soil microarthropods and fres water insects. Other groups are also well represented. The museum has an extensi entomological library and the equipment necessary for the modern techniques n employed in taxonomic research. It is not generally open to the public but interest parties may visit by appointment. Very little space is available for display purposes.

1.8.4 THE McGILL UNIVERSITY HERBARIU

Established in 1820 and formerly housed in the Stewart Biology Building, the McG Herbarium was combined with the Macdonald College Herbarium during the summ of 1972 to establish the 100,000 specimen McGill University Herbarium, Macdona Campus of McGill University. It contains some of the earliest collections made Canada. The collection is devoted to Quebec and eastern Canadian flora but specime from the Arctic and sub-Arctic of Canada, Greenland, Sweden, Lappland and Siber are well represented. Research facilities are available, on request of the Curator, t any student or botanist working on northern plants.

1.8.5 OTHER COLLECTIONS

In addition to the above there are other collections and exhibits of a specialized nature ordinarily open only to students but to which access may be gained by application t the department concerned. These include the Anatomical, Medical, Pathological an Zoological Museums. Appointments for conducted tours may be made to see th Rutherford Collection of Experimental Physics by telephoning 392-5130.

McGILL STUDENTS' GUIDE

2 RESIDENTIAL FACILITIES

2.1 TYPES OF RESIDENCES

McGill offers three types of residence accommodation:

1. Royal Victoria College houses graduate and undergraduate women.
2. Douglas Hall houses both men and women, and is exclusively a graduate residence.
3. Gardner, McConnell and Molson Halls each house both men and women, most of whom are undergraduates, although some graduate students also choose to live there.

2.2.2 LOCATI

The Co-educational Residences are located on the wooded slopes of Mount Roy adjacent to the University playing fields. They are approximately two blocks away fr the main campus, and a ten-minute walk from the centre of downtown Montreal.

Royal Victoria College is on campus close to the major shopping and cultural are of the city. Bus and subway stops are nearby.

2.2.3 ACADEMIC STA

The academic staff of each hall consists of a Residence Director or Warden, Assista Directors, and Residence Fellows or Dons. One of the main functions of the academ staff is to get to know students individually and, if a student requests it, to give advi on personal or academic matters.

2.2.4 ROOMS AND FACILITIE

Except for a few rooms at Royal Victoria College all rooms are for single occupan and in each, besides a bed and bed-linen, there is a desk, chair, chest of drawers a closet. Linen and towels are changed weekly. The co-ed residences have maids w clean the rooms, but in all halls residents are expected to make their own beds a tidy up. Each hall has coin-operated automatic washers and dryers, as well as ironi facilities; an outside dry cleaning firm also calls regularly at the residences. Telephon located on each floor are operated through hall switchboards; in addition, each roo is wired for a private telephone. There is plenty of storage space for ski equipmen trunks, and suitcases in every hall. Limited parking space is available in the co-e complex only.

The halls have TV, music, sewing, and stereo rooms, and a well-stocked libra of magazines, books and newspapers. The co-ed residences have a calculating a typing room, and R.V.C. has the use of a swimming pool located within the building.

2.2.5 MEAL SERVIC

Residents at Molson, McConnell and Gardner halls take their meals together in a larg centrally located dining hall. Douglas Hall and the Royal Victoria College have the own dining rooms. Students may choose either a seven or five day meal plan. Ba lunches are available. There are kitchenettes on every wing of the co-ed residence where residents may keep food and prepare hot or cold snacks at any time. In additio vending machines in every hall dispense soft drinks, sweets and pastries. Student in the co-ed residences can rent small refrigerators for their rooms.

2.2.6 DIET

Limitations of facilities do not permit catering for special religious diets in the dinin halls, although the kitchens will seek to meet special needs whenever possible. Temporary diets because of sickness may be prepared on doctors' orders.

2.2.7 HEALTH

In case of illness residents are usually referred to the University Health Service nearby. However, there is a nurse on duty every day in the residence dispensary or infirmary, and live-in nurses who keep evening office hours and who are also available for emergency treatment any time.

2.2.8 GOVERNMENT

Each hall has a Residents Council, elected yearly by the residents at a designated time during the academic year. It is the job of Council to gather hall opinions, set policy, supervise financial affairs, and organize sporting and recreational activities within the residences.

2.2.8.1 GUIDELINES

McGill's residences are run for the convenience and advantage of the students living in them. What "rules and regulations" do exist are decided upon and administered by the students themselves. Basically, living together in any community requires just a single rule: respect for the rights of others. In each hall there is a House Committee which is elected from the student body at the beginning of each year to deal with any problems that may arise.

2.2.9 APPLICATION AND ADMISSIONS

Please note that the procedure governing residence admissions is entirely separate from that of University admissions. Application forms for both the Royal Victoria College and the Co-ed Residences are mailed out with all academic application forms. Residence application forms should be returned to the appropriate address below:

Residence Manager
Royal Victoria College
3425 University Street
Montreal 112, Québec

The Secretary
Co-ed Residences, McGill University
3935 University Street
Montreal 112, Québec

Owing to a shortage of housing, the University cannot guarantee every student a place in residence. There is a Housing Service to assist those seeking suitable off-campus housing.

Residence applications should be returned as soon as possible, preferably before April first.

McGill residence admission policy extends to all students — Montreal area students as well as out of town students, on a first-come, first-served basis.

2.3 ROOM AND BOARD CHARGES IN UNIVERSITY RESIDENCES

The fees for room and board in University Residences for the 1973-74 session are as quoted below and are subject to the conditions prescribed.

The University reserves the right to make changes without notice in the published scale of fees if circumstances so require.

2.3.1 DOUBLE ROOMS

Sessional fees for a limited number of double rooms in Royal Victoria College are $50.00 lower than the rates indicated below.

2.3.2 EXCLUSIONS

1) The sessional fees quoted below for Room and Weekday Meals do not include meals on the following holidays: September 3, Labour Day; October 8, Thanksgiving; March 1, Mid-Term; April 12 & 15, Easter; May 20, Victoria Day.

2) The sessional fees quoted below do not include meals during the Christmas recess (dates to be announced) and some dining facilities will be closed during this period.

2.3.3 MEAL PRICES

Residents may obtain meals, in addition to those covered by sessional fees, at the following student rates:

Breakfast	$ .85
Lunch	1.35
Dinner	1.65

Guests will be required to pay the full posted meal prices at all times

2.3.4 GRADUATING STUDENTS

Graduating students wishing to remain in residence until the morning following their Convocation will be permitted to occupy a room without additional charge. Due to other residence commitments, such extended stays may require a move to another room, possibly to another residence building. Any meals taken during these extended stays will be charged on an individual basis.

2.3.5 EXTENDED STAYS

Because of registration, examinations or other special circumstances, residents may be permitted to occupy their rooms for a limited time before or after the period covered by their sessional fees. The charges for such extended stays are $2.85 per day, excluding meals and $5.40 per day, including meals. One of these options must apply for the full period of the extended stay. Payment for extended stays must be made in advance for the duration of the stay or a period of one week, whichever is less.

2.3.6 SESSIONAL FEES FOR SINGLE ROOMS IN UNIVERSITY RESIDENCE

***(Room and board charges, key deposit and residence activities fee**

The following sessional fees may be paid in two instalments:

Faculty	*From Lunch*	*To Breakfast*	*Room and All Meals*	*Room and Weekday Meal*
Medicine				
1st year	Sept. 3	June 8	$1,435.	$1,265.
2nd year	Sept. 3	June 29	1,530.	1,350.
3rd year	Sept. 3	May 31	1,395.	1,230.
4th year	Rates on request			
Dentistry				
1st year	Aug. 28	May 25	1,395.	1,230.
2nd year	Sept. 3	June 15	1,475.	1,300.
3rd year	Sept. 3	May 11	1,290.	1,140.
4th year	Sept. 3	May 11	1,290.	1,140.
Standard academic year	Sept. 10	May 2	1,205.	1,065.

Subject to prior approval, students writing regular examinations during the week of May 2–May 8 will be accommodated, on the same conditions as those of their sessional contract, without additional charge up to and including breakfast on the day following their last examination.

*A limited number of students whose academic programs make it difficult for them to dine in the residences, may be accommodated on a room only basis at lower sessional fees which are available on request.

2.3.7 OTHER REGULATIONS

Students accepted for residence must pay a deposit of $50.00 which will be deducted from their residence fees for the second term. It will be refunded only if written notification is received before July 1, or if the examination results prevent registration.

2.3.8 PAYMENT OF FEES

Entering or transfer students: Fees may be paid in two instalments — the first within ten days after registration, and the second before January 15.

Returning students: First instalment must be paid August 23 and the second before January 15.

The sessional fees include a house fee of $10.00 collected by the University on behalf of the Residents' Council of each hall, and a $5.00 key deposit which is refunded at the end of the session.

2.4 UNIVERSITY HOUSING FOR MARRIED STUDENTS

The University maintains a limited number of apartment units in several nearby locations for married students. As the demand for these apartments greatly exceeds the number of vacancies occurring each year, applications are restricted to married, full-time undergraduate students and graduate students who have not yet attained the Ph.D. or M.D. degree or equivalent. Further information and application forms may be obtained from the Real Estate Manager, McGill University, P.O. Box 6070, Montreal 101, Que.

2.5 SCHOLARSHIPS AND FINANCIAL AID

2.5.1 ENTRANCE SCHOLARSHIPS

In general, the University's system of entrance scholarships is designed to enable good students from all parts of Canada to attend McGill. Students who have obtained a high first class academic standing, or who expect to obtain such standing in their examination results, should apply for an entrance scholarship by completing the Application for Entrance Scholarship form. These forms may be obtained from the Admissions Office and must be submitted before March 1.

The policy of the University is to recognize and honour scholarship. When a student has been selected for an award and is in financial need, it is the further policy of the University to meet that need as far as resources permit. In order to be considered for a scholarship of major financial value, the applicant must complete the Application for Financial Aid. The amount and nature of financial aid are determined by the Student Aid Office.

Although there are some funds available in certain disciplines which enable the University to award scholarships of major value, in general a student is expected to apply first to his own province and to accept the maximum loan and bursary aid offered by this province before receiving any augmentation of his McGill Scholarship.

2.5.2 PROVINCIAL AND FEDERAL AID

In all cases, a basic qualification is that the applicant must be a Canadian citizen or a Landed Immigrant with one year's residence and domicile in the province to which he applies.

In all provinces, except Quebec, the provincial authority listed below administers the Canada Student Loan Plan (Federal) as well as their own programs. The addresses are as follows:

Quebec: Apply for a Quebec registration card, after May 15, at the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec.

Ontario: As the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec, is a recognized Ontario Student Awards Office, it is recommended that all Ontario students make their applications through this facility.

New Brunswick: Department of Youth & Welfare, Fredericton, N.B.

Yukon Territory: The Students Financial Assistance Awards Committee, c/o Superintendent of Schools, Box 2703, Whitehorse, Yukon.

Northwest Territories: c/o Education Division, Department of Northern Affairs & Resources, 150 Kent Street, Ottawa, Ontario.

For the Provinces of Newfoundland, Prince Edward Island, Nova Scotia, Manitoba, Saskatchewan, Alberta, British Columbia: write to the Provincial Department of Education.

2.5.3 BURSARIES AND LOANS

These may also be available to non-scholarship students through the Student Aid Office if other sources of aid are genuinely inadequate.

2.5.4 STUDENTS FROM SCHOOLS OUTSIDE CANADA

Students from schools outside Canada are ineligible for entrance scholarships. They are expected to present evidence to immigration authorities that they have adequate funds for their studies in Canada. All who wish to study in Canada should consult the Ministry of Education in their home country for financial assistance.

SUMMER WORK AND PART-TIME WORK. Non-Canadian students must apply to the Canadian Immigration authorities for permission to obtain employment.

2.5.5 **UNITED STATES CITIZEN**

The National Defence Loan is not tenable in Canada, but several states have long te loan plans which are tenable here. Students should inquire at the Department Education in their state capital and also at local banks which may operate a High Education Loan Plan.

2.5.6 **GRADUATE FELLOWSHIP**

Inquiries about graduate fellowships, assistantships, etc. which are open to graduate of other universities as well as of Canadian universities should be addressed to th Faculty of Graduate Studies and Research.

2.6 STUDENT SERVICES

2.6.1 **COUNSELLING IN THE FACULTIES OF ARTS AND OF SCIENCE**

2.6.1.1 **Freshman Orientation Servic**

The Freshman Orientation Service is available to all beginning undergraduate students entering the first year of the university in the Faculties of Arts, Education, Management, Science, and the School of Physical and Occupational Therapy. Events for the one day session include group meetings, campus tours and a social hour.

The service operates five days a week, Monday to Friday, 9:00 a.m. to 5:00 p.m., from mid-August until registration. The Director, Mrs. Willis, is located in Dawson Hall, Room 109.

2.6.1.2 **Pre-Registration Counselling and General Course Counselling**

Students are urged to make full use of the advice and counselling offered by the Faculties of Arts and Science. Prospective students who are undecided as to a choice of program or orientation should consult an adviser in the Student Affairs Office, Dawson Hall. These advisers are ready to provide information and advice on courses and programs of study. Incoming students are asked to contact the office as early as the month of March.

Students who have decided on their program of studies, and who wish to proceed directly to an Academic Adviser for completion of a Study Plan Form may do so. (Consult the Calendar of Faculties of Arts and Science.)

The advisers in the Student Affairs Office are available to undergraduates for consultation throughout the academic year. Experienced personnel answer questions and offer guidance each weekday from 9:00 a.m. to 5:00 p.m.

2.6.2 **COUNSELLING IN THE FACULTY OF ENGINEERING**

An academic counselling service is available for students in the Faculty of Engineering (including the School of Architecture). Members of staff and selected students working together provide assistance in academic matters and can give helpful advice in dealing with other problems. All students seeking assistance and advice in coping with personal problems should consult the Associate Dean (Student Affairs), Faculty of Engineering, Macdonald Engineering Building.

2.6.3 **COUNSELLING IN OTHER FACULTIES**

The other smaller Faculties have arrangements for providing advice and guidance to their own students. Further information should be obtained through the office of the Dean of the Faculty in which they are registered.

2.6.4 **BOOKSTORE**

The McGill University Bookstore, located in the Bronfman Building at 1001 Sherbrooke Street, West, performs an essential service for the academic community. It provides a comprehensive stock of current textbooks, reference material and academic supplies as well as items of general interest. Although all sales are at normal retail prices, the cost of maintaining adequate stocks of required material is high and the Bookstore is a non-profit operation.

2.6.5 EXTRA-CURRICULAR ACTIVITIES

Complete details of all extra-curricular activities may be found in the *Student Handbook*, published yearly by the Students' Society.

The *Student Handbook* lists over 250 activities and clubs which students may join. These include international clubs, religious groups, political clubs, fraternities, communications (Radio McGill) and some 50 miscellaneous groups (such as science clubs, literary, theatrical and musical societies, chess and bridge clubs, and the Voyageurs' Society).

ATHLETICS. McGill's facilities for athletics, physical education, and recreation are centred in the Sir Arthur Currie Memorial Gymnasium, the Percival Molson Memorial Stadium and the McGill Winter Stadium. Sports facilities in the gymnasium include basketball, squash, badminton, and volleyball courts; swimming pool; facilities for gymnastics, wrestling, fencing, judo, and track. For the use of all women students of the University, staff and graduates, the Garfield Weston Swimming Pool at Royal Victoria College is available.

The physical education programs for men and women provide instruction for students in various sports.

Numerous intramural and recreational sports clubs provide opportunities for students to participate in sports for relaxation and to represent their faculty or residence on intramural teams of their choice.

On the intercollegiate level McGill participates in sports sponsored by the Quebec Universities Athletics Association and the Ontario Women's Intercollegiate Athletics Association.

For a complete description of the McGill athletics facilities and intercollegiate, intramural, and recreational sports programs, see the *Student Handbook*.

See also "Health Service" below.

STUDENT ORCHESTRA, CHOIR, AND WIND ENSEMBLE. The Student Orchestra and Choir of the Faculty of Music as well as the McGill Wind Ensemble have some vacancies for amateur musicians. Advanced instrumentalists (strings, winds, harp, percussion), or experienced choir singers who would like to become regular members of the Orchestra, the Choir, or the Wind Ensemble, should contact the office of the Faculty of Music for further information (Telephone 392-4501).

Students interested in joining the McGill Choral Society should contact the McGill Students' Society.

2.6.6 FRESHMAN RECEPTION

A Freshman Reception Committee, formed by the students in order to welcome freshmen to McGill, organizes a program of activities to introduce new students to campus life. A detailed schedule of events is mailed to all incoming students.

2.6.7 HEALTH SERVICE

When students enrol at McGill University they have available to them a full range of medical service provided by the McGill University Health Service. Medical clinics operate daily, five days of the week from 9:00 a.m. - 5:00 p.m. A physician is always on call at night and on weekends and he can be contacted by dialing the Health Service number. There are both male and female physicians on staff as well as a competent staff of college health nurses.

This service is available to all full-time students, undergraduate and postgraduate. Post-doctoral students, and diploma course students and part-time students are welcome to consult us if a health problem arises but the full range of services may not be available to them. Students are asked to bring their Medicare cards or equivalent. *All information is completely confidential and forms no part of any "University record".*

Many students are seen for discussion about sexual life, contraception, drug problems and venereal disease. We urge students who suspect that they have V.D. to consult us because to neglect this condition can be most damaging. We invite students who are concerned about a drug problem to contact the Health Service and most particularly the Mental Health Section.

Part of the Health Service consists of a *Mental Health Service* which makes availa to students psychiatric and psychological help. Students who wish to come are advi to make an appointment. If a psychological emergency arises the student should co directly to the Mental Health Service or phone immediately. All contacts by stude with their service are kept completely confidential.

PARTICIPATION IN ATHLETICS: A student in any academic year wishing to particip in heavy contact athletics, e.g. football, will be required by the Athletics Department undergo a physical examination at the University Health Service. A student who h received medical attention for an illness or accident must be declared fit by the Hea Service before he may again participate in athletics.

In order to ensure medical coverage while a student at McGill, Canadian stude from provinces other than Quebec are advised to consult with the medicare and hospi insurance offices of their own province before coming to McGill. This is particula important since residents of other provinces are not covered by Quebec Medicare a Hospitalization while studying at McGill.

Non-Canadian students, whether undergraduate or postgraduate, are obliged enrol in a medical and hospital insurance program. Consequently, the student and h dependents are covered to a large extent for medical and hospital expenses during th academic year. Information concerning this program can also be obtained at th general office of the Health Service.

Location: **517 Pine Avenue West**

Appointment and General Office	392-5441
Director: Dr. J. G. Lohrenz	392-5444

Location: **Macdonald College**

Appointment and General Office	453-6851

2.6.8 PARKING ON UNIVERSITY GROUNDS

The University does not permit students to park automobiles or motorcycles on the Montreal campus. Limited parking at monthly rates is available for students living in residences.

Parking at Macdonald College is subject to restrictions. Further information may be obtained from the office of the Vice-Principal of the College.

2.6.9 STUDENT PLACEMENT

The Canada Manpower Centre, located at 3574 University Street, provides a comprehensive placement service to McGill students in the areas of part-time, summer and permanent employment. The principal aims of the service are to encourage employers to make available a wide variety of job opportunities to McGill students; to assist students in finding suitable employment, by providing information on the labour market and arranging interviews with prospective employers; to encourage students to prepare for a career by doing their own research into the labour market, through library facilities, films, seminars, plant visits, summer and part-time jobs.

2.6.10 HOUSING SERVICE

Information concerning housing outside the University may be obtained from the office of the Dean of Students.

2.6.11 STUDENT COUNSELLING AND STUDENT AID

This office was established to provide a place where students of all faculties could discuss any problem confidentially. Referral to more specialized counselling is made where necessary.

Students from distant parts of Canada, and from distant lands, are especially invited to consult the office for help with their problems.

The Student Aid Office also handles all inquiries concerning financial assistance (see "Scholarships and Financial Aid", section 2.5).

.12 GUIDANCE SERVICE
522 Pine Avenue West

e Guidance Service is an open environment developed to complement the many her services the University provides for its members and to prepare them well in lvance for continuing their careers.

Guidance offers a psychological perspective on your personal, family, social and cational growth. Counselling is essentially an exploration in self knowledge, com- unication and discipline. It can help you respond to the combined stresses of personal d social change.

Psychological services are offered to help you critically evaluate the complex situa- ons facing you, decide upon a course of action, carry it into operation and learn om the consequences.

Such activities as self-review, counselling, psychotherapy, group encounter, psy- ological assessment and effective reading can add to your university experience and crease your personal flexibility.

The Career Information Library will provide you with information on personal justment, academic life, sociology of work and alternatives for further education in e collection of university calendars.

You may choose to browse around on your own, arrange one or two meetings, about n hour each, or spend many hours throughout your entire stay at University.

We invite you to evaluate us and make suggestions whether or not you participate. he services are free for members of the University and are also available to the public n payment of necessary fees. Full descriptive literature is available by request in erson, by phone or mail.

Location: 522 Pine Avenue West
General Information: 392-5119

3 ADMISSION

irector — PEGGY SHEPPARD, B.A. (S.G.W.U.), B.Ed.
dmissions Office
cGill University
.O. Box 6070
ontreal 101, Quebec

.1 GENERAL

he academic year at McGill runs from mid-September until early May, with approxi- nately two weeks' vacation at Christmas. The normal period of admission is in Septem- er; however, the University is considering a January admission for future years and nterested students should seek further information from the Admissions Office in September 1973.

The deadline for submission of applications is March 1 of the year for which the student wishes to apply. All applications must be accompanied by a non-refundable ee of $15.00 in Canadian funds payable by certified cheque or money order to McGill niversity.

Admission is selective, and students are reminded that fulfilment of the minimum equirements by no means guarantees acceptance.

Although our Admissions Officers are always pleased to meet prospective students, personal interview is not required for admission.

3.2 COLLEGE EQUIVALENT PROGRAM

McGill University is now phasing out its college equivalent program and 1972-73 wa the last session in which the first year of the program was offered; 1973-74 will be th final session for admission to the second year of the college equivalent program.

Students who have completed one year beyond Secondary V in an approved progra of study will be considered for admission to the second year of the college equivale program in 1973.

3.3 UNIVERSITY PROGRAM

Quebec students who have completed a CEGEP or college equivalent program an who have obtained the Diploma of Collegial Studies are eligible to apply for entranc to the first year of a three-year University program (90 credits) leading to one of th following degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Commerce Bachelor of Science (Physical Therapy), Bachelor of Science (Occupational Therapy) Bachelor of Science in Nursing, Bachelor of Science in Agriculture, Bachelor o Science in Food Science, Bachelor of Education, Bachelor of Music, Bachelor of Civi Law (95 credits), Bachelor of Theology, Bachelor of Social Work; or to a three or four year program leading to the degree of Bachelor of Engineering, Bachelor o Science (Architecture), or Bachelor of Architecture. A university degree is required for admission to the Bachelor of Laws program.

Students who have completed an appropriate level of education outside the provinc of Quebec may be considered for entrance to a university program requiring three o four years of study (90 to 120 credits).

3.4 ENTRANCE QUALIFICATIONS

Quebec

Students who have completed high school at the Secondary V (Secondaire V) level in Quebec can no longer apply for admission to McGill University. All such students must seek entrance to a CEGEP and obtain the Diploma of Collegial Studies before applying for admission. Students who have completed an approved program of one year beyond the level of Secondary V are considered for admission to the second year of the collegial program.

Holders of the Diploma of Collegial Studies are considered for admission to the first year of an appropriate university program (90 credits).

Provinces of Canada other than Quebec

Entrance to the Faculties of Arts, Education and Management:

Ontario Grade 13 students may be admitted directly to a 90 credit university program if they have completed five subjects with an average of 70%. English should be included in the student's program; the four elective courses should be appropriate to the program which the student wishes to enter at McGill. Students wishing to enter the Faculty of Management must include mathematics as part of their Grade 13 program.

Students having only four subjects will be required to make up an additional six credits at McGill.

Students from provinces of Canada other than Quebec, Ontario* and Newfoundland who have completed Grade 12 with an average of 70% in appropriate subjects are considered for admission to a program requiring the completion of 120 credits.

Entrance to the Faculty of Science, the School of Nursing and the School of Physical and Occupational Therapy:

The programs in the Faculty of Science have been designed on the assumption that the student has a background in science equivalent to that provided by the Quebec Diploma of Collegial Studies in science; that is, that he has completed, or will complete at McGill, the equivalent of introductory college-level courses in biology, chemistry, physics, and mathematics. These courses are referred to as prerequisite courses, 3 credits being assigned to each full-year course. Mathematics A and B (Ontario) each count as 3 prerequisite credits. A maximum of 6 credits will be allowed for non-science academic courses.

Ontario Grade 13 graduates and students who have completed First year Science at Memorial University, Newfoundland, are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. Thus, a student who has completed biology, chemistry, physics, mathematics and one additional non-science academic course enters a university program requiring the completion of 90 credits (usually three years are required to complete the program).

Students from provinces of Canada other than Quebec, Ontario*, and Newfoundland who have completed Grade 12 with adequate standing in appropriate subjects are considered for admission to a university program requiring the completion of 120 credits.

*Exceptions are sometimes made in the case of Grade 12 students with an average of over 80% in appropriate subjects. Such students may be considered for admission to a program requiring the completion of 120 credits. This exception does not apply in the Faculty of Engineering where all Ontario students seeking entry must have completed Grade 13.

Entrance to the Faculty of Engineering:

Students with the appropriate qualifications may apply for entrance to the second year of the college equivalent program in the Faculty of Engineering. Upon successful completion of one year of study, they may proceed directly into the three-year university program in Engineering or apply for entrance to the School of Architecture. To determine eligibility for admission, the chart which follows should be consulted:

	Minimum Qualifications for Entrance to an Undergraduate Program (except Engineering)	*Minimum Qualifications for Entrance to Second Year of College Equivalent Program in Engineering*
Alberta	Grade 12	Grade 12
British Columbia	Grade 12	1st year University
Manitoba	Grade 12	1st year University
New Brunswick	Grade 12	1st year University
Newfoundland	1st year Memorial University	1st year University
Nova Scotia	Grade 12	Grade 12
Ontario	Grade 13	Grade 13
Prince Edward Island	Grade 12	1st year University
Saskatchewan	Grade 12	1st year University

Non-Canadian Applicants

Entrance to the Faculties of Arts, Education and Management:

High school graduates from the United States are admitted to an undergraduate program requiring the completion of 120 credits. All applicants should have followed academic programs designed for university entrance. Applicants to the Bachelor of Commerce program should present a strong background in mathematics. Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of "3" or better will be granted some advanced standing. (In the Faculty of Arts, students with two or three suitable Advanced Placements may be admitted to a program requiring the completion of 90 credits).

GENERAL ANNOUNCEMENT

Students from the United Kingdom and Commonwealth countries may be admitted directly into a university program requiring the completion of 90 credits (three years) with five General Certificate of Education papers, at least two of which must be at the Advanced Level or with four G.C.E. papers, at least three of which must be at the Advanced Level. No subject may be written at both levels; an average grade of C or better is required. One of the five (or four) G.C.E. papers must be English Language. Applicants to the Faculty of Management should have Advanced Level results in mathematics.

Students with better than average results in five appropriate Ordinary Level papers PLUS one full year of formal schooling beyond Ordinary Level will be considered for entrance to an undergraduate program requiring the completion of 120 credits.

Entrance to the Faculty of Science, the School of Nursing and the School of Physical and Occupational Therapy:

The programs in the Faculty of Science have been designed on the assumption that the student has completed, or will complete at McGill, the equivalent of introductory college-level courses in biology, chemistry, physics, and mathematics. These courses are referred to as prerequisite courses.

Graduates from Grade 12 in the United States are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. An Advanced Placement science course is considered the equivalent of 6 prerequisite credits; a grade of 3 or better is required for Advanced Placement credit to be granted.

Students from the United Kingdom and Commonwealth countries are normally required to have completed examinations in five different G.C.E. subjects including English, chemistry, physics, and mathematics, at least two of which must be at the Advanced Level. Such students are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. Each G.C.E. Advanced Level paper in Science with a grade of C or better is considered the equivalent of ten prerequisite credits.

Students with better than average results in five appropriate Ordinary Level papers PLUS one full year of formal schooling beyond Ordinary Level will be considered for entrance to an undergraduate program requiring the completion of 120 credits. The five Ordinary Levels should include English, a second language, mathematics, and one of biology, chemistry or physics.

Entrance to the Faculty of Engineering:

Graduates from Grade 12 in the United States who have a strong academic program PLUS Advanced Placement results in mathematics and physics or one year of college may apply for entrance to the second year of the college equivalent program. A combined CEEB score of 3000 is also required. It is not possible to enter the Faculty of Engineering solely on the basis of high school results.

Students from the United Kingdom and Commonwealth may apply for admission to the second year of the college equivalent program in Engineering if they have passes in five G.C.E. papers at the Ordinary Level including English, a second language, mathematics, and physics or chemistry PLUS one full year of formal schooling beyond Ordinary Level, with preferably one or more papers at the Advanced Level with grades of "D" or better. Students with similar qualifications from other countries will be considered also for admission to the second year of the college equivalent program.

Students from the United Kingdom and Commonwealth may apply for admission to the university programs in Engineering and Architecture if they have passes in G.C.E. Ordinary Level papers as above and Advanced Level papers in mathematics, physics and chemistry with an average of "C" and no paper below "D".

National Certificates Accepted for Admission.

Some of the national certificates accepted for admission to McGill are listed below. Students should contact the Admissions Office for more specific information as to entrance requirements. Better than average grades are required for admission.

COUNTRY	CERTIFICATE
Argentina	Bachillerato Universitario
Australia	Higher School Certificate University Matriculation Certificate
Belgium	Certificat d'Humanités
Czechoslovakia	Vysvedceni o Maturitni Zkousce
France	Baccalauréat (2ième partie)
Germany	Zeugnis der Reife
Greece	Akadimaiko
Hong Kong	Advanced Level results
India	Bachelor's degree (with First Division standing)
International Baccalaureat	Certificate of Baccalaureat
Iran	Sixth Year Secondary Education Certificate
Israel	Matriculation Certificate
Italy	Diploma di Maturita Classica Diploma di Maturita Scientifica
Lebanon	Lebanese Baccalauréat (2ième partie)
The Netherlands	Getuigschrift (Gymnasium or Lyceum)
Norway	Examen Artium
Pakistan	Bachelor's degree (with First Division standing)
Poland	Swiadlectwo Dojrzalosci
United Arab Republic	General Secondary School Certificate
United Kingdom	Advanced Level results
Vietnam	Vietnamese Baccalauréat (2ième partie)
Yugoslavia	Chegoranctbo or Svedocanstvo

3.5 ADDITIONAL ENTRANCE REQUIREMENTS

1) Application for admission to the second year of the college equivalent or undergraduate programs (except Music) must be made on forms supplied by the Admissions Office BEFORE MARCH 1. Supporting documents should be sent as soon as they are available if they cannot be sent with the application.

2) STUDENTS IN CANADIAN HIGH SCHOOLS must write the tests of the Service for Admission to College and University (SACU). Application forms and information concerning these tests may be obtained through the schools or from:

SACU Test Administration
151 Slater Street
Ottawa, Ontario K1P 5N1.

3) STUDENTS FROM THE UNITED STATES must write College Entrance Examination Board tests; the two scholastic aptitude tests, the English Composition test, and two other achievement tests appropriate to the program which they wish to enter at McGill. Students from the Eastern United States may obtain information about the tests by writing to:

The College Entrance Examination Board
Box 592
Princeton, New Jersey 08540

Students from the West should write to:

The College Entrance Examination Board
Box 1025
Berkeley, California 94701

4) STUDENTS FROM OVERSEAS are advised to write CEEB or SACU tests to support their application.

5) APPLICANTS WHOSE MOTHER TONGUE IS NOT ENGLISH must submit acceptable evidence of facility in English. The following evidence is acceptable: The Test of English as a Foreign Language (TOEFL); The University of Michigan English Language test; the Certificate of Proficiency in English issued by the Universities of Cambridge and Michigan.

TOEFL is preferred by the University; it is administered by the College Entrance Examination Board and is easily available throughout the world.

Students who cannot obtain a TOEFL bulletin and registration form locally should write well in advance for them to: Test of English as a Foreign Language, Box 899, Princeton, New Jersey 08540, U.S.A.

3.6 TRANSFER STUDENTS

McGill University welcomes applications from students wishing to transfer from other institutions.

3.7 HEALTH REQUIREMENTS FOR NEW STUDENTS

All students after having been accepted by the University will receive a Medical Questionnaire complete with a return envelope addressed to the Health Service. The student is requested to complete this questionnaire and to return it in the envelope at the earliest possible date. There may be additional requirements in certain faculties and schools.

An appointment will be made for all new students to be seen by a physician at the University Health Service as early as possible during their first academic year. At this interview the health of the student will be reviewed and if it is thought necessary, the student will be medically examined. The examination may include X-ray and other appropriate laboratory or diagnostic tests. Re-examination may also be required in the interest of the student or of others attending the university.

3.7.1 Compulsory health insurance for non-Canadian students

All full-time foreign students (including landed immigrants during their first year at McGill) must take out a Health Insurance policy, which is available on a group basis. In general, the policy provides for payment towards hospital, surgical, medical, diagnostic, and other medical expenses.

Full details and application forms will be sent to all foreign students when they are notified that there is a place for them at the University.

3.8 GENERAL INFORMATION FOR NON-CANADIAN STUDENTS

Students who do not wish to live permanently in Canada, enter the country as temporary residents (non-immigrants) and require some or all of the following documents:

1) PASSPORT. Required of all foreign students except citizens of the United States. A student must leave Canada at least three months before the expiry date on his passport.

Students from the United States must bring with them evidence of their American citizenship such as their birth certificate, baptismal certificate, or passport. Students coming from the United States who are not citizens of that country should carry evidence that they are in the United States legally, and prior to their return should obtain a re-entry permit from the American Immigration Department.

) VISA. Required of all students except British subjects, citizens of Commonwealth ountries, citizens of Ireland and France, and permanent legal residents of the U.S.A. sas are issued at Canadian Embassies, consular offices, and in many countries at anadian immigration offices.

) NON-IMMIGRANT STUDENT DECLARATION. Statement of conditions under which udent is admitted to Canada.

) VACCINATION CERTIFICATE. This is not required by the University but evidence f having had the disease of smallpox or of having been vaccinated within three years f arrival is necessary for entry to Canada for students from some countries (except he U.S.A., Western Europe and the United Kingdom) and this requirement should be hecked with the appropriate Canadian authorities in the area.

) MEDICAL CLEARANCE. Students staying longer than 12 months in Canada require complete medical examination, including chest X-ray. A doctor's certificate of good ealth is not enough. The student pays for his own examination and X-ray.

) LETTER OF ACCEPTANCE FROM A CANADIAN UNIVERSITY.

) PROOF OF AVAILABILITY OF SUFFICIENT FUNDS for the duration of his studies.

) LETTER OF SPONSORSHIP. If a student is financed by an organization, he will equire written authority from the sponsoring organization.

) CANADIAN ENTRY CERTIFICATE. Issued to all students by immigration officer on dmission to Canada.

A pamphlet describing immigration regulations in detail and containing notes and guidance to students from other countries is available from Canadian immigration offices, Canadian Embassies and British Consular offices, or from the Immigration Branch, Department of Citizenship and Immigration, Ottawa, Canada. Local immigration officers will be ready to give advice and help.

A useful handbook entitled *University Study in Canada* can be obtained from Canadian Embassies, Consulates, and the office of High Commissioners and Trade Commissioners. A leaflet entitled *Notes for Foreign Students Who Wish to Attend a Canadian University* may be obtained from The Association of Universities and Colleges of Canada, 151 Slater St., Ottawa Ontario K1P 5N1.

Students may wish to bring their wives to Canada with them. If a student does so, he must show evidence of sufficient funds for her support. Wives of students from other countries may be given permission to work in Canada, if the authorities are satisfied that they would not be depriving residents of a job. A student should notify the immigration officer if his wife wishes to work or take a training program in Canada.

3.9 REGISTRATION

Registration takes place early in September and lectures begin shortly thereafter. Complete information for the use of accepted candidates is sent with the letter of admission, and Faculty counsellors are available in the weeks preceding the commencement of lectures to assist in the planning of schedules.

3.10 LANGUAGE POLICY

The normal language of instruction at McGill is English. Students may if they wish write term papers and examinations in French, but reasonable competence in English is essential to success in the college equivalent and university programs. A summer course, English 120-E15C, is offered and it is recommended that students who lack fluency in English take this summer course *before* embarking on a program of study at McGill.

4 FACULTIES AND SCHOOLS

4.1 CREDIT SYSTEM

McGill University is now operating on a credit system which varies between faculties. All courses carry a credit rating. In the Faculty of Arts and the Faculty of Science a total of 90 credits must be accumulated for a degree, but some Honours programs may require a higher total. For details of the system as it applies to each faculty, see the individual faculty announcements.

The Faculty of Dentistry and the Faculty of Medicine have adopted a Pass-Fail system of grading. The Faculty of Graduate Studies and Research maintains the course system.

4.2 ACADEMIC CREDIT TRANSFER AGREEMENT

Regular full-time and limited undergraduate students (first cycle*) and regular graduate students (second and third cycles) registered at McGill may, with the written permission of the Dean of their Faculty, register for up to 40% of a full course load in each academic year at one or more of the following Montreal universities: Sir George Williams University, Université de Montréal, and Université du Québec à Montréal. These courses, weighted, graded, and successfully completed according to the standards of the university giving the courses, will be fully recognized by McGill for the purpose of the degree for which the student is registered.

Students wishing to take advantage of this agreement should consult their Dean for details, and are informed that this agreement is subject to the following conditions:

i) that the other universities concerned may, at their discretion, refuse the registration of a student for any of its courses or program;

ii) that the obligation of the student to follow the curriculum laid down by McGill is not affected;

iii) that the student is responsible for ensuring his timetable at McGill permits him to take courses at any of the other universities concerned;

iv) that the universities concerned are not responsible for special arrangements in cases of examination timetable conflicts.

Any student taking advantage of these provisions will not pay extra fees to the university, other than McGill, from which he takes a course. The Director of Finance will, upon receiving the Dean's authorization, provide a student with a letter accepting McGill's obligation to make a fee transfer to the university where the course is being taken.

*(i.e. Bachelor degrees in architecture, arts, law, commerce, education, engineering, music, nursing, occupational and physical therapy, science, agriculture, food science, and theology).

4.3 FACULTY OF AGRICULTURE

See Macdonald College, section 4.11.

FACULTY OF ARTS

ean — R. VOGEL, B.A. (S.G.W.U.), M.A., Ph.D.

4.1 DEGREES OFFERED

achelor of Arts (B.A.)
achelor of Social Work (B.S.W.)
he undergraduate work of the University in Humanities and Social Sciences is done the Faculty of Arts.

4.2 DEGREE PROGRAMS IN ARTS

he three-year post-CEGEP program started in the Fall of 1971. A student may take n Honours degree in any department, a degree of high concentration within one discipline and restricted to students who maintain a high level. All other students will hoose an area of concentration (usually but not in every case known as a Major). his Major program can be in a single discipline or in one of several interdisciplinary elds. Full details of these programs will be available either in departments or from cademic advisers and general descriptions are available in the *Announcement of the aculties of Arts and of Science.*

Listed below are the various programs leading to the B.A. degree.

Honours programs are offered in the following subjects:

nthropology
rt History
lassics
conomics
nglish
rench
eography
German
History
Italian
Latin
Linguistics
Mathematics
Philosophy
Political Science
Psychology
Russian
Sociology
Spanish

At least one Major Program is offered in all these subjects, and in some cases there re several to choose from in a single subject. In addition there are the following majors nd concentrations:

frican Studies
anadian Studies
lassics and Linguistics
rench Canada Studies
umanistic Studies
ndustrial Relations
ewish Studies
atin American Studies
Modern Languages
Modern Literature
North American Studies
Religious Studies
Program in Mathematics and Philosophy
Psychology and Mathematics
Psychology, General

Social Work: The undergraduate program of professional studies begins in the first ear of the three-year program. For further information see the *Announcement of the aculties of Arts and of Science.*

5.4.3 ENTRANCE REQUIREMENTS

Entrance requirements for the three-year University program are a Diploma of Collegial Studies or the equivalent.

5.4.4 TRANSFER STUDENTS

All students from other universities who wish to transfer credits to the Faculty of Arts must apply in writing to:

The Admissions Office
McGill University
P.O. Box 6070
Montreal 101, Quebec

4.5 FACULTY OF DENTISTRY

Dean — E. R. AMBROSE, D.D.S., F.I.C.D., F.A.C.D.

4.5.1 DEGREES AND DIPLOMA OFFERED

Doctor of Dental Surgery (D.D.S.)
Period of study in the Faculty for the degree is four years.

Granted under the Faculty of Graduate Studies and Research:
Diploma in Restorative Dentistry and Prosthodontics
One additional year after the D.D.S.

Master of Science in Restorative Dentistry and Prosthodontics (M.Sc.)
Two additional years after the D.D.S.

Master of Science in Oral Surgery (M.Sc.)
Three additional years after the D.D.S.

4.5.2 ENTRANCE REQUIREMENTS

The minimum requirement for admission to the study of dentistry is the satisfactory completion of EITHER the Collegial program in the Province of Quebec OR two full years in a four-year program leading to the B.A. or B.Sc. degree (or the equivalent thereof). In each instance the program must include one full year course in each of the following subjects: English; mathematics; physics, with laboratory; physiology; inorganic or general chemistry, with laboratory; organic chemistry, with laboratory; general biology or zoology, with laboratory (one half year of botany and one half year of zoology will be accepted but not one year of botany alone).

Canadian applicants are requested to write the Canadian Dental Association Aptitude Test and have the results sent to the Faculty. Detailed information may be obtained from the Administrator, Dental Aptitude Test Program, The Canadian Dental Association, 234 St. George Street, Toronto 180, Ontario.

Candidates applying from the United States should write the American Dental Association Aptitude Test and have the results sent to the Faculty.

4.5.3 APPLICATIONS

Application forms for admission to the Faculty may be obtained from the Secretary of the Faculty. The deadline date for receipt of applications is March 1 of the year in which the candidate is seeking admission.

Entering students are advised to make themselves familiar with the specific regulations of the province or state in which they intend to practise upon graduation and to take the necessary steps to become registered.

For details see the *Announcement of the Faculty of Dentistry.*

4.6 FACULTY OF EDUCATION

Dean — C. WAYNE HALL, M.A. (Bishop's)

The Faculty of Education is responsible for the professional education of teachers. It offers a variety of programs by which candidates are prepared for a teaching career in the elementary and secondary schools and colleges of Quebec. Successful completion of any of these programs qualifies the candidate for a Teaching Permit issued by the Quebec Department of Education. For details see the *Faculty of Education Announcement.*

Graduate work leading to the Master of Arts in Education, Master of Education, and Doctor of Education degrees is offered under the authority of the Faculty of Graduate Studies and Research of McGill University. For details see the *Announcement of the Faculty of Graduate Studies and Research, Section "G"*, and the Faculty of Education booklet — *Graduate Degrees in Education.*

4.6.1 **DEGREE OFFERED**

Bachelor of Education (B.Ed.)

4.6.2 **DEGREE PROGRAM**

The three-year program leading to the B.Ed. degree is available with the following options:

Elementary — Early Childhood.

Elementary — Later Childhood.

Secondary — One Subject Option.

Secondary — Two Subject Option.

Special Areas — Art, French, Physical Education, Religion, Home Economics.

The B.Ed. (Elementary Option) is available also on a part-time basis to those who:

(a) hold a teaching certificate valid in Quebec or its equivalent; and

(b) have Quebec Diploma of Collegial Studies standing or its equivalent (i.e. a minimum of 13 years of attested studies).

4.6.3 **ENTRANCE REQUIREMENTS**

Successful completion of a Diploma of Collegial Studies program or equivalent. (See Section 3.4. Entrance Qualifications).

4.6.4 **DIPLOMA PROGRAM**

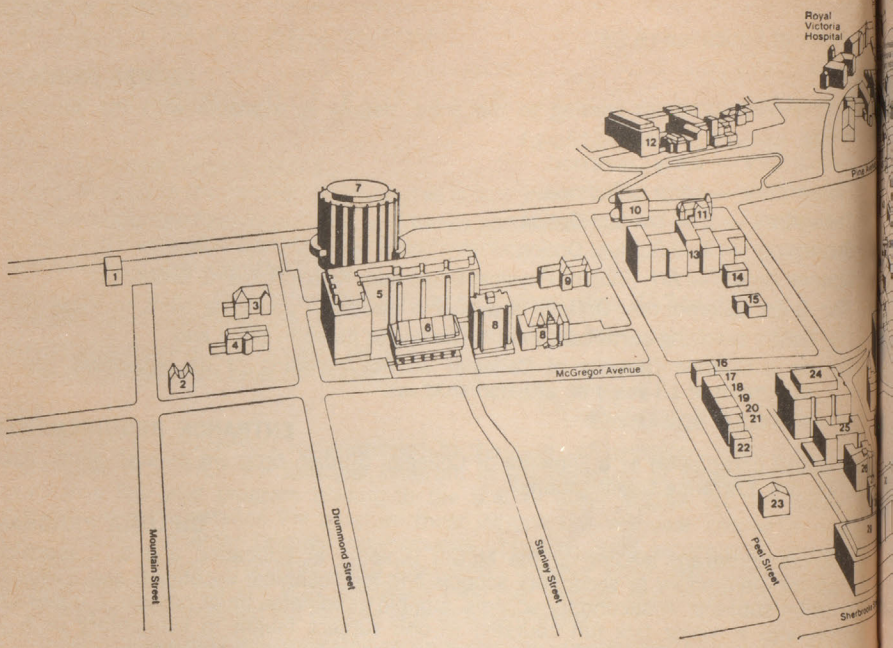
A one-year program leading to the McGill Diploma in Education and to a teaching permit for elementary or secondary schools and for Technical-Vocational and Business Education subjects in secondary schools. Eligible candidates must possess a university degree with a major (six full courses) in one subject taught in elementary or high schools or a minimum of three full courses in each of two such subjects.

4.6.5 **CERTIFICATE PROGRAMS**

One-year programs leading to a Quebec Teaching Permit for elementary schools or for Technical-Vocational and Business Education subjects in the secondary schools. Collegial level certificates from a CEGEP or studies and/or work experience equivalent are required for admission into these programs.

NOTE: It should be emphasized that possession of a bare passing standard in any of the above programs will not automatically guarantee acceptance into the Faculty of Education. Preference will be given to candidates having a second-class standing or better. Satisfactory letters of reference are also required and candidates for certain options may be required to attend an interview. All candidates for a Quebec Teaching Permit must also demonstrate fluency in the language of instruction (English or French).

4.6.6 **APPLICATION FORMS**



Application forms and further information concerning admission requirements may be obtained from:

Admissions Office
McGill University
P.O. Box 6070
Montreal 101, Quebec

4.7 FACULTY OF ENGINEERING (Including the School of Architecture and the School of Computer Science)

Dean — G. L. d'OMBRAIN, B.Sc. (Eng.), Ph.D. (Lond.), D.I.C., A.C.G.I., M.I.E.E., M.A.I.E.E.

4.7.1 **ARCHITECTURE**

Director — NORBERT SCHOENAUER, B.Arch. (Royal Hungarian Univ.), M.Arch.

4.7.1.2 **Degrees Offered**

1) Bachelor of Science (Architecture), (B.Sc.(Arch.)).
2) Bachelor of Architecture (B.Arch.).

4.7.1.3 **Period of Study**

B.Sc. (Arch.): a minimum of three years.

B.Arch.: a minimum of one year after the McGill B.Sc. (Arch.) degree.

4.7.1.4 **Entrance Requirements**

Entrance requirements include successful completion of a Diploma of Collegial Studies in the Physical Sciences, or equivalent. Applicants are also required to write the Princeton Aptitude Test for Architecture which is offered twice yearly by the School. Enrolment in the School is limited and admission is based on academic standing and aptitude.

4.7.1.5 **Privileges of Holders of the Degree of Bachelor of Architecture**

The Province of Quebec Association of Architects admits Canadian holders of the degree of Bachelor of Architecture to membership, and thereby to practice in the province, after completing two years' apprenticeship under conditions specified by the Association and after passing an examination in professional practice.

The School of Architecture is recognized by the Royal Institute of British Architects and the instruction given meets the requirements of the Board of Architectural Education of that body.

For complete details of program, courses, rules governing attendance and promotion, etc., see the *Announcement of the Faculty of Engineering.*

4.7.2 **ENGINEERING**

4.7.2.1 **Degrees Offered**

1) Bachelor of Engineering (B.Eng.), in the departments of Chemical, Civil, Electrical, Mechanical and Metallurgical and Mining Engineering and Applied Geophysics.
2) Bachelor of Engineering (B.Eng.) (Honours), in the departments of Electrical and Mechanical Engineering.

4.7.2.2 **Period of Study**

A minimum of three years is required.

Students who take the Bachelor of Engineering degree in one program may graduate in another program by attending two or more subsequent terms and passing the prescribed additional examinations.

4.7.2.3 **Programs**

1) The Regular Program is designed to prepare candidates for a wide variety of careers in engineering. Graduates with high standing and an interest in university careers or other research activities are encouraged to continue their studies at the graduate level.

2) An Honours Program, available in the departments of Electrical and Mechanical Engineering, is designed particularly for students who intend to pursue research careers in these fields. Admission is at the discretion of the departments and is normally granted only to students who have demonstrated high ability in mathematics and physics at the collegial level.

Students who fail to maintain honours standing are required to transfer to the Regular Program.

4.7.2.4 **Entrance Requirements**

Entrance requirements are based on successful completion of a Diploma of Collegial Studies in the Physical Sciences or equivalent. Candidates are strongly advised to

include courses in Calculus in their pre-university studies or they will be required to take a special course in mathematics during the first semester.

For complete details of programs, courses, rules governing attendance and grading, etc., see the *Announcement of the Faculty of Engineering.*

4.7.2.5 Privileges of Holders of the Bachelor of Engineering Degrees

Holders of these degrees are eligible for membership in numerous organizations in Canada and abroad. More detailed information can be obtained from the chairmen of the departments concerned.

4.7.3 SCHOOL OF COMPUTER SCIENCE

Director — G. MARSAGLIA, B.Sc. (Colorado), Ph.D. (Ohio State).

4.7.3.1 Degrees Offered

1) Master of Science (M.Sc.)
2) Master of Science (Applied), (M.Sc. (Applied))
3) Doctor of Philosophy (Ph.D.)

4.7.3.2 Undergraduate Courses

The School of Computer Science offers a number of undergraduate courses. Further information can be obtained from the Announcements of the Faculty of Engineering and the Faculty of Science.

4.7.3.3 Postgraduate Programs

The requirements for entrance into and for successful completion of the Master's and Doctor's programs offered by the School of Computer Science may be found in the *Announcement of the Faculty of Graduate Studies and Research, Section "E", Physical Sciences and Engineering.* A list of the postgraduate courses offered by the School is published in the same Announcement.

4.8 FACULTY OF GRADUATE STUDIES AND RESEARCH

Dean — W. F. HITSCHFELD, B.A.Sc. (Tor.), Ph. D.

The Faculty of Graduate Studies and Research offers programs leading to diplomas and degrees as follows:

4.8.1 DIPLOMAS

See the *Announcement of the Faculty of Graduate Studies and Research.*

4.8.2 MASTER'S DEGREES

For complete information on all programs see the *Announcement of the Faculty of Graduate Studies and Research.*

The Degree of Master of Architecture may be obtained in the following fields:

Architectural Design — Community Planning — Housing

The Degree of Master of Arts may be obtained in the following subjects:

Anthropology	Geography	Philosophy
Art History	German	Political Science
Classics	History	Psychology
Economics	Islamic Studies	Religious Studies
Education	Italian	Russian
English	Linguistics	Sociology and Anthropology
French	Mathematics	Spanish

The Master's Degree in Business Administration

The Master's Degree in Commerce

The Master's Degree in Education

The Degree of Master of Engineering may be obtained in the following fields of Engineering:

Chemical
Civil
Electrical
Mechanical
Metallurgical and Mining Engineering and Applied Geophysics

The Master's Degree in Engineering (Mining)

Master's Degrees in Law:

1) **The Degree of Master of Civil Law** may be obtained in the following aspects:

Roman Law
Civil Law
Commercial and Maritime Law
Public Law, including International Law
Legal problems of government control of business
Law and Constitution of International Organizations

2) **The Degree of Master of Laws** is offered in the Institute of Air and Space Law and in the Institute of Comparative Law.

The Master's Degree in Library Science

The Master's Degree in Musical Arts

The Master's Degree in Nursing (Teaching)

The Degree of Master of Science may be obtained in the following subjects:

Agricultural Chemistry
Agricultural Engineering
Agronomy
Anatomy
Animal Science
Biochemistry
Biology
Chemistry
Computer Science
Crystallography
Electrical Communications
Entomology
Epidemiology and Health
Experimental Medicine
Experimental Surgery
Fluid Mechanics
Geography
Geological Sciences
Geophysics
Glaciology
Horticulture
Human Communication Disorders
Marine Sciences
Mathematics
Metallurgy, Metallurgical and Mining Engineering and Applied Geophysics
Meteorology
Microbiology and Immunology
Microbiology (Macdonald College)
Neurology and Neurosurgery
Oral Surgery
Otolaryngology
Parasitology
Pathology
Pharmacology
Physics
Physiology
Plant Pathology
Psychiatry
Psychology
Radiology
Restorative Dentistry and Prosthodontics
Soil Science
Wildlife Biology
Woodlot Management

The Degree of Master of Science (Applied) may be obtained in the following subjects:

Computer Science
Geological Sciences (Engineering Geology, Mineral Exploration)
Human Communication Disorders
Nursing
Physical Therapy
Psychology

The Master's Degree in Social Work

4.8.3 DOCTOR'S DEGREES

The Doctor's Degree in Civil Law

The Doctor's Degree in Education

The Degree of Doctor of Philosophy (Ph.D.) may be obtained in the following subjects:

Agricultural Chemistry
Agricultural Engineering
Agronomy
Anatomy
Animal Science
Anthropology
Art History
Biochemistry
Biology
Chemical Engineering
Chemistry
Civil Engineering
Classics
Computer Science
Economics
Electrical Engineering
English
Entomology
Epidemiology and Health
Experimental Medicine
Experimental Surgery
French
Geography
Geological Sciences
German
History
Human Communication Disorders
Islamic Studies
Linguistics
Marine Sciences
Mathematics
Mechanical Engineering
Metallurgy, Metallurgical and Mining Engineering and Applied Geophysics
Meteorology
Microbiology and Immunology
Microbiology (Macdonald College)
Neurology and Neurosurgery
Parasitology
Pathology
Pharmacology
Philosophy
Physics
Physiology
Plant Pathology
Political Science
Psychology
Religious Studies
Russian
Sociology
Soil Science

For further information see the *Announcement of the Faculty of Graduate Studies and Research.*

4.9 FACULTY OF LAW

Dean — JOHN W. DURNFORD, B.A., B.C.L.

Chancellor Day Hall
3644 Peel Street
Montreal 112, Quebec

4.9.1 DEGREES OFFERED

Bachelor of Civil Law (B.C.L.), and Bachelor of Laws (LL.B.).

Under the authority of the Faculty of Graduate Studies and Research the degree of Master of Civil Law (M.C.L.) is granted for advanced study in law, the degree of Master of Laws (LL.M.) for studies in the field of international air law and comparative law, and the degree of Doctor of Civil Law for higher studies in law.

4.9.2 PERIOD OF STUDY

Period of study for the B.C.L. or LL.B. degree: Generally three to four years.

Students proceeding to the Quebec Bar and notarial profession are required to take additional training after graduation from the Faculty.

Students studying for the Bachelor of Laws degree (LL.B.) may proceed thereafter to the Bar Admission program of one of the Common Law provinces.

4.9.3 **ENTRANCE REQUIREMENTS**

To be qualified for admission to the Faculty a student must have obtained with a second class standing a B.A. or equivalent degree from a university or college which is recognized by McGill University, or a diploma with a high standing from a Quebec General and Vocational College (CEGEP), or a Diploma of Collegial Studies from a Quebec university, and have substantial fluency in both the French and English languages. In exceptional cases students who do not intend to practise either the legal or notarial profession may be admitted to the Faculty with lesser academic qualifications if they are qualified to pursue with advantage the study of law. In all cases, admission is at the discretion of the Faculty. Between applicants who apply for admission to the LL.B. program, preference is given to those intending to proceed to both the LL.B. and B.C.L. degrees. Students entering the Faculty with a CEGEP diploma must take the B.C.L. degree before they are permitted to proceed to the LL.B. degree.

Candidates for admission to the Quebec Bar must be Canadian citizens and must hold a diploma from a Quebec General and Vocational College (CEGEP), or a Diploma of Collegial Studies from a Quebec university, or a B.A. degree or its equivalent from a university or college of which the degree is recognized jointly by Laval, McGill, Montreal, Ottawa and Sherbrooke Universities and, in addition, by the Bar.

Candidates for admission to the Quebec notarial profession must be Canadian citizens and hold a diploma from a Quebec General and Vocational College (CEGEP), or a Diploma of Collegial Studies from a Quebec university, or a B.A. of a university or college whose degree is recognized jointly by Laval, Montreal, McGill, Sherbrooke and Ottawa Universities for admission to their law courses, and also by the Board.

Candidates for the Bachelor of Laws degree (LL.B.) and seeking entrance to the Bar Admission program of any of the Common Law provinces must satisfy the regulations of the particular Common Law province to the Bar admission course or program of which entrance is sought.

For details concerning staff, curriculum and also higher studies in the Institutes of Air and Space Law and Comparative Law see the *Announcement of the Faculty of Law*.

4.9.4 **APPLICATIONS**

The deadline for receipt of applications is March 1 of the year in which the candidate is seeking admission. Application forms may be obtained from the Faculty Office. All inquiries should be addressed to the Faculty.

4.10 GRADUATE SCHOOL OF LIBRARY SCIENCE (in the Faculty of Graduate Studies and Research)

Director — EFFIE C. ASTBURY, M.L.S. (Tor.), B.A., B.L.S.

4.10.1 **DEGREE OFFERED**

Master of Library Science (M.L.S).
Period of Study: Two years.

ENTRANCE REQUIREMENTS

A B.A. or B.Sc. from a recognized university. Applicants are expected to have a knowledge of at least one language other than English, and their academic grades should have been not less than an average of 65% or "B". For details see the *Announcement of the Graduate School of Library Science*.

4.11 MACDONALD COLLEGE

Macdonald College, Quebec.

Macdonald College, which was founded and endowed by the late Sir William C. Macdonald, is incorporated with McGill University. It is situated twenty miles west of

ontreal, at Ste. Anne de Bellevue, Quebec. It consists of the Faculty of Agriculture, hich includes the School of Food Science.

All programs leading to the Bachelor's, Master's and Doctoral degrees are under e control of the Senate of McGill University; the Diploma program in Agriculture is der the direction of the Faculty of Agriculture.

1.1

FACULTY OF AGRICULTURE
(Including the School of Food Science)

ean — A. C. BLACKWOOD, B.Sc., M.S. (Alta.), Ph.D. (Wis.)

e work of the agricultural departments of the College falls into three main divisions: aching, research, and extension. Teaching and research form the major part of their ork. Extension work is undertaken by departments as the need or opportunity may ise.

The School of Food Science is an integral part of the Faculty of Agriculture. The ain function of the School is to provide professional education in Food and Consumer iences, including Home Economics.

1.2

DEGREES OFFERED

achelor of Science in Agriculture (B.Sc. (Agr.)).
achelor of Science in Agricultural Engineering (B.Sc. (Agr.Eng.)).
achelor of Science in Food Science (B.Sc. (F.Sc.)).

1.3

DIPLOMA OFFERED

ploma in Agriculture.

1.4

ENTRANCE REQUIREMENTS

e Diploma of Collegial Studies in science or its equivalent is required for entrance.

By special agreement, the Nova Scotia Agricultural College, Truro, N.S., has ranged to provide their students with a program of studies permitting transfer to the culty of Agriculture at Macdonald College. Students who have completed such a ogram of study with satisfactory standing in courses equivalent to the Diploma of llegial Studies will be admitted to the appropriate years in the Faculty provided that eir overall averages and their grades in individual courses are considered satisfac- y by the Committee on Admissions.

In addition, students who have completed Senior Matriculation and one additional ar of studies will be considered for admission provided that their program includes ology, physics, chemistry and mathematics (including one year of Calculus) at an ceptable level and that their overall averages and their grades in individual courses eet the requirements for admission.

Students transferring from other faculties or universities will be granted credits wards their degree for courses which they have passed at a satisfactory level and e considered equivalent to courses offered by the Faculty.

Qualified Secondary V applicants will be admitted to the two-year **Diploma in riculture** program as in the past. It is anticipated that this program will continue be offered as an alternative to the CEGEP because it meets a need which is not to found in any existing CEGEP.

APPLICATION DATE

plications for admission to the Faculty of Agriculture and the School of Food Science ay be submitted until August 15 for fall admission and December 15 for January mission and may be obtained from The Registrar, Macdonald College, Que.

1.5

PROGRAMS OF STUDIES

e three-year program involves a total of at least 90 credits depending on the major osen. Each major requires: (1) a certain number of required "core" credits, (2) edits elected in consultation with the Department in which the major is to be taken, d (3) free credits elected by the students.

The following programs of study are offered by the Faculty of Agriculture and the hool of Food Science.

4.11.5.1 Bachelor of Science in Agriculture, B.Sc. (Agr.)

A three-year program from the Diploma of Collegial Studies leading to professional qualification in Agricultural Science (Agricultural Economics, Animal Science, General Agricultural Science, Plant Science, Soil Science) or in one of its related specialized branches in the Biological Sciences (Botanical Sciences, Environmental Biology, Microbiology, Zoological Sciences) and Renewable Resources Development (Environmental Conservation, Regional Resource Planning, Wildlife Resources).

4.11.5.2 Bachelor of Science in Agricultural Engineering, B.Sc. (Agr.Eng.)

A three-year program from the Diploma of Collegial Studies leading to professional qualification in Agricultural Engineering. Holders of this degree are eligible for membership in professional engineering societies.

4.11.5.3 Bachelor of Science in Food Science, B.Sc. (F.Sc.)

A three-year program from the Diploma of Collegial Studies leading to the professional qualifications necessary for dietetics, home economics or food technology as well as the following majors in the Food and Consumer Sciences Area: Food Chemistry, Food Management, Nutrition, and Consumer Education.

4.11.5.4 Diploma in Agriculture

A two-year practical program in Agriculture from junior matriculation with emphasis on providing young people from rural areas with a sound training in modern agricultural practice.

4.11.5.5 Postgraduate Programs in Agricultural Science

These lead to the degrees of Master of Science and Doctor of Philosophy, with study and research in one or more of the Departments of the Faculty. The program of studies and examinations are controlled by the Faculty of Graduate Studies and Research.

4.12 FACULTY OF MANAGEMENT

Dean — HOWARD I. ROSS, O.B.E., C.A., M.A. (Oxon.), LL.D. (Queen's, S.G.W.U.), D.Sc.Com. (Sher.), B.A.

Samuel Bronfman Building
1001 Sherbrooke Street, West
Montreal 101, Quebec

4.12.1 DEGREES OFFERED

Bachelor of Commerce (B.Com.).

Master of Business Administration (M.B.A.), under the authority of the Faculty of Graduate Studies and Research.

4.12.1.1 Aims of the Undergraduate Program

Management means getting things accomplished as effectively as possible. The ideal manager is a well-rounded man, with strong character, good judgment, breadth of vision and thorough competence in the management skills — behavioural and quantitative — which are being developed in this age of rapid technological change.

When everything is changing at such a fantastic pace, it is no longer possible to train good managers by simply passing on to them wisdom developed in a past age. Experience can still be a great teacher, but only if intelligently interpreted and applied. Concepts must not be static; managers must be developed who can meet new challenges as they arise.

The different qualities required in a competent manager are teachable in varying degrees. The aim of the program is to give students an opportunity to master new management techniques, and also to broaden their outlook by optional courses in a wide variety of disciplines. There are certain management skills which constitute "core

ubjects which every manager should have — but beyond these, students are encouraged to follow lines of interest through which they will emerge broadly educated. A ood manager must be able to understand and to work with both the generalists and pecialists that are required in our complex society.

.12.1.2 Degree Programs and Requirements

ENERAL PROGRAM

he three-year program involves a total of 90 credits of which (1) 42 credits are in core" subjects, required of all students, (2) 18 credits are chosen for deeper study n a particular management area, (3) 18 credits are chosen outside the Faculty and 4) 12 credits are chosen without restriction. The "core" in (1) above includes Accounting, Behavioural Science, Computers, Economics, Finance, Marketing, Mathematics, perations Research, and Statistics. The Management Elective Groups in (2) above re Accounting, Computers and Systems, Finance, International Business, Marketing, rganizational Behaviour and Personnel, and Quantitative Methods.

AJOR AND HONOURS PROGRAMS

Major programs are available within the Faculty in Economics, Economics and Political cience, Industrial Relations, Mathematics and Psychology.

Honours programs are available within the Faculty in Economics, and Economics nd Accounting.

NTRANCE REQUIREMENTS

ntrance to the first year of the three-year post-CEGEP Program leading to the Bachelor f Commerce is in accordance with the requirements for CEGEP studies. To provide the ntering student with the greatest degree of flexibility possible in his pre-University rogram, the specific course requirements for entry to the Faculty have been kept o one-term courses in each of Differential and Integral Calculus.

Students wishing to enter the Bachelor of Commerce program must apply in writing, efore March 1, to:

Admissions Office
McGill University
P.O. Box 6070
Montreal 101, Quebec

RANSFER STUDENTS

tudents presently enrolled in another Faculty of this University wishing to transfer o the Bachelor of Commerce program must apply in writing not later than July 1 to:

The Secretary of Admissions
Bachelor of Commerce Program
Faculty of Management
McGill University
P.O. Box 6070
Montreal 101, Quebec

.12.2 GRADUATE PROGRAM MASTER OF BUSINESS ADMINISTRATION FACULTY OF GRADUATE STUDIES AND RESEARCH

eriod of Study: Two years.

Entrance Requirements

A Bachelor's degree with first or high second class standing from a recognized university, a satisfactory performance on the Princeton Admission Test for Graduate Studies n Business, letters of recommendation from two university teachers, and a basic knowledge of calculus and statistics. Preference will be given to applicants who also have some knowledge of matrix algebra and economics.

For details see the *Announcement of the Faculty of Graduate Studies and Research,* Section "G".

4.13 FACULTY OF MEDICINE

Dean — R. F. PATRICK CRONIN, M.D.,C.M., M.Sc. M.R.C.P. (Lond.), F.R.C.P.(C)

McIntyre Medical Sciences Building
3655 Drummond Street
Montreal 109, Quebec

4.13.1 DEGREES AND DIPLOMAS OFFERED

Doctor of Medicine and Master of Surgery (M.D.,C.M.).

The degrees of M.Sc. and Ph.D. in Medical and Allied Sciences are granted under the authority of the Faculty of Graduate Studies and Research. For information see the *Announcement of the Faculty of Graduate Studies and Research.*

Diplomas for advanced study in several clinical departments of the Faculty.

Period of Study in the Faculty for the Degree of M.D.,C.M.: Four years.

Licence to Practise: The provincial Colleges of Physicians and Surgeons define the requirements of fully licensed medical practitioners in each province. Final-year medical students wishing to apply for the examination of the Medical Council of Canada must do so before March 15. Details of the requirements of registration must be obtained from the College of Physicians and Surgeons in the province where the student intends to practise.

4.13.2 ENTRANCE REQUIREMENTS

A. The Four-Year Course in Medicine

The normal requirement is a B.A. or B.Sc. degree, although students of exceptionally high standing may apply for admission at the end of the Third year of undergraduate study.

The pre-medical work must include:

Physics — One year of general college physics with laboratory work.

Biology — One year of biology with laboratory work including studies at the cellular and the sub-cellular level.

Chemistry — Two years.

a) One full year's course of general chemistry with laboratory work.
b) One full year's course of organic chemistry with laboratory work.

Recommended: In addition to the above requirements a full year's course in the mammalian physiology is highly recommended.

In selecting courses, in addition to the specific requirements listed above, an intending medical student should plan his pre-medical program as a whole, and in accordance with a definite educational objective. Emphasis should be laid on the broad educational value and the intellectual training afforded, rather than on the factual content of such pre-medical curricula; the student is therefore advised to plan his program in such a way as to provide more than elementary training in some definite field of learning which appeals to him; this major field may be selected from the natural or the social sciences or the humanities. Certain subjects which though not essential have been found valuable in medical study, and which may be included as electives if the curriculum in the major field permits, are psychology, sociology, and genetics.

Students with a strong interest in science and with aptitude for scientific studies should consider pursuing physiology, histology, or biochemistry at the B.Sc. level to a high standard, and all of these subjects provide an excellent background for entry to medical school. Other students may prefer to acquire a broader educational background during their pre-medical training, and the Admissions Committee will consider admission into Medicine from students of high standing independently of the scientific background they may have acquired during their pre-medical program.

Application Forms may be obtained from the Associate Dean of the Faculty of Medicine. These forms must be completed and returned with a fee of $15.00 as early

as possible and definitely *before March 1* of the year in which the applicant hopes to gain admission to the Faculty.

Candidates are reminded that the Faculty can accept only a small percentage of those who apply. Preference must of necessity be given to Quebec students.

B. The Five-Year Course in Medicine

Students of the Province of Quebec completing the two-year program in Quebec Colleges of General and Professional Education are eligible to submit an application. Successful applicants in this category will enter a five-year program, the first year will supplement the undergraduate pre-medical training provided by the CEGEPs, following which the student proceeds into the present four-year medical curriculum.

Applications

Applications for this program are made through the Admissions Office (see entry on Admission, Section 3).

4.14 FACULTY OF MUSIC

Dean — HELMUT BLUME, Mus.B. (Graduate, Staatliche Akademische Hochschule für Musik, Berlin)

Strathcona Music Building
555 Sherbrooke St. West
Montreal 111, Quebec

4.14.1 DEGREES AND DIPLOMAS OFFERED

Bachelor of Music (B.Mus.)
Master of Musical Arts (M.M.A.)
Licentiate of Music (L.Mus.)
Concert Diploma

4.14.2 PERIOD OF STUDY

B.Mus. degree — normally three years after the completion of the Diploma of Collegial Studies or its equivalent.
M.M.A. degree — two years after B.Mus. (Faculty of Graduate Studies and Research).
Licentiate — normally three years.
Concert Diploma — two years after the Licentiate.

4.14.3 PROGRAM OF STUDY

4.14.3.1 Bachelor of Music

The degree of Bachelor of Music can be obtained in any one of the following five major fields of concentration:

COMPOSITION

The curriculum in Composition is designed for those students whose interest and talent lie in the field of creative music.

HISTORY OF MUSIC

The curriculum in Music History is intended for those interested in the scholarly disciplines of music and as a preparation for subsequent concentration in musicology.

SCHOOL MUSIC

This program provides the practical and theoretical training required by those who are planning a career as music teachers at the elementary or secondary school levels.

PERFORMANCE

The degree program in Performance is available to those wishing to combine their practical concentration (all instruments or voice) with substantial studies in theoretical and academic subjects.

THEORY

An honours program is offered to those who wish to specialize in music theory. Interdisciplinary programs between Theory and one of English, linguistics, mathematics, philosophy or psychology are available.

4.14.3.2 **Master of Musical Arts**

The degree of Master of Musical Arts, which the Faculty of Music offers in conjunction with the Faculty of Graduate Studies and Research, can be obtained in one of the following three fields of concentration:

COMPOSITION

This program is designed for those planning on a career as professional composers and/or teachers of composition and allied subjects. It also prepares the student for doctoral studies in the field of concentration.

MUSICOLOGY

This program provides training in the techniques of musicological research and prepares the student for doctoral studies in musicology.

THEORY

This program is designed for those who wish to do research in some specialized area of music theory. Interdisciplinary studies relating music with other arts and the sciences are encouraged.

For details of these graduate programs, please consult the *Announcement of the Faculty of Graduate Studies and Research.*

4.14.3.3 **Licentiate of Music Diploma**

The Licentiate of Music diploma program is specially designed for those instrumentalists and singers who wish to concentrate on the practical subject of their choice while limiting their theoretical studies to basic areas in History, Theory and Ear Training.

4.14.3.4 **The Concert Diploma**

This is a post-Licentiate diploma available only to specially gifted instrumentalists and singers who have the proven talent and capacity for a professional career as performers. The Concert Diploma is offered in Piano, Organ, Harpsichord, Violin, Viola, Cello, Flute, Clarinet, Saxophone, and Voice.

4.14.4 **GENERAL INFORMATION**

The McGill Faculty of Music is located in the Strathcona Music Building on the campus. The Faculty's facilities include classrooms; teaching studios; practice rooms; a library of books, scores and recordings; reading rooms; listening booths; an electronic music studio; and two concert halls.

Montreal, the largest metropolis in Canada, is not only a most stimulating city because of its bilingual, bicultural character, but it is also a music centre of the first order. The many concerts by the world's celebrated artists and ensembles at the Place des Arts; the annual concert series by the Montreal Symphony Orchestra, the McGill Chamber Orchestra, Ladies' Morning Musical Club, Les Amis de l'Art, Pro Musica (to name only a few); opera and ballet presentations; the T.V. and radio concerts of the CBC's French and English production centres in Montreal; the presence of the Canadian headquarters of the Jeunesses Musicales with its beautiful concert hall and music camp at nearby Mont Orford; international music competitions; summer concerts — all these and many other events and attractions offer a unique opportunity of first-hand experience and study to the young music student.

Music Credit Options in the Faculty of Arts and of Science

The Faculty of Music offers two series of courses that may be taken for credit by students in the Faculty of Arts and the Faculty of Science. One series is a sequence of professional courses that deal with music theory and the history of music and are part of the undergraduate music curriculum. These courses may be taken only by those who have offered Music as a matriculation subject or have the theoretical and practical equivalent.

The courses in the other series are designed to meet the needs of those Arts and Science students who are interested in the cultural (non-professional) approach to music. The first course is introductory; the other courses cover the music of different periods from the Middle Ages to the present day.

4.14.5

ADMISSION

Inquiries concerning admission to all degree and diploma programs should be directed to the Dean of the Faculty of Music, Strathcona Music Building, 555 Sherbrooke St. West, Montreal 111.

Application forms may be obtained from the Faculty of Music. Completed applications *must be returned to the Faculty of Music* before March 1 of the year in which the candidate hopes to gain admission. Late applications will be considered if space still remains for admission.

4.14.6

ENTRANCE REQUIREMENTS

Because the following requirements are written for Canadian students, applicants from the United States and Overseas should refer to section 3.

4.14.6.1

Bachelor of Music Program

For the 1973-74 session, candidates will be admitted to the Bachelor of Music program if they have completed the first year of studies towards the Diploma of Collegial Studies or its equivalent. A limited number of students will be admitted who have satisfactorily completed Quebec Secondary V and who can demonstrate advanced standing in music.

4.14.6.2

Music Requirements

FOR COMPOSITION, MUSIC HISTORY, SCHOOL MUSIC, AND THEORY:

McGill Collegial I (Instrument or Voice) or equivalent
McGill Collegial II (Theory, Analysis, and Ear Training) or equivalent

FOR PERFORMANCE:

McGill Collegial II (Instrument or Voice) or equivalent
McGill Collegial I (Theory, Analysis, and Ear Training) or equivalent

4.14.6.2.1

Piano Proficiency

All candidates admitted to the degree programs of the Faculty of Music should be prepared to demonstrate piano proficiency equivalent to that of McGill Secondary Level I (Grade 7) when they register for their first term.

For a description of this level in piano, please consult the syllabus of the *Preparatory School of Music of McGill University.*

NOTE: The Faculty requires an entrance audition of all students.

NOTE: High School students who wish to take music at the Secondary V level, please note that completion of the McGill Secondary Levels in instrument or voice, along with Theory and Ear Training, is recognized as a Secondary V credit by the Quebec Department of Education.

4.14.6.3

Advanced Standing

Credit will be given for advanced standing in all academic and music subjects on the basis of high school, college, and university transcripts as well as placement tests and special auditions.

4.14.6.4

Licentiate Program

A candidate must present a Secondary V certificate (eight academic subjects). His music qualifications must be McGill Preparatory Grade 11 (instrument or voice) and McGill Theory and Ear Training 9, or equivalent. An entrance audition may also be required.

The College Entrance Examination Board Tests are not required for this program.

4.14.6.5

Concert Diploma Program

In order to qualify for admission to the Concert Diploma program, the candidate must have the Licentiate diploma of the McGill Faculty of Music or its equivalent and must pass an audition in his chosen subject to satisfy the panel that he has the talent for a professional career as a concert performer.

4.15 SCHOOL OF NURSING (in the Faculty of Medicine)

Director — JOAN M. GILCHRIST, B.N., M.Sc.(Appl.), R.N.

Wilson Hall,
3506 University St.,
Montreal 112, Quebec.

4.15.1 DEGREES OFFERED

1) Bachelor of Nursing (B.N.) for graduate nurses. A two-year program from senior matriculation, preparing nurses for careers in Nursing Education or in supervision of nursing services in hospitals and public health agencies.
2) Bachelor of Science in Nursing (B.Sc. (N)). A three-year program, combining general and professional education, is based on two pre-university years in the biological sciences. Clinical experience in Nursing is obtained in the McGill Teaching Hospitals and other community agencies.
3) Master of Science (Applied) (M.Sc. (Applied)). A two-year program under the Faculty of Graduate Studies and Research with opportunity to specialize in nursing. Students undertake a research project related to a significant nursing problem and focus on either the administration of nursing services or curriculum development and the teaching of nursing.
4) Master of Nursing (Teaching) (M.N. (Teaching)). A one calendar year program under the Faculty of Graduate Studies and Research to prepare teachers for the new educational programs across Canada.

4.15.2 ENTRANCE REQUIREMENTS AND APPLICATIONS

1) **Bachelor of Science in Nursing.** Entrance requirements and application procedures are the same as those for the regular B.Sc. program. See entries on Admissions Sections. Introductory courses in psychology and sociology are added to the curriculum if these have not been taken as options in CEGEP.

2) **Bachelor of Nursing.** Candidates are required to have senior matriculation standing in five subjects as follows: English, Biology or Chemistry and three of the following: History, Mathematics, Physics, German, French, Latin, Spanish. An average of at least 65% is required.

Applications may be obtained from the Admissions Office or the School of Nursing, and returned to:

The Admissions Office,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec.

Acceptances will be made in January and April.

3) **Master's Degrees.** For details please see the *Announcement of the School of Nursing* or the *Announcement of the Faculty of Graduate Studies and Research.*

4.16 SCHOOL OF PHYSICAL AND OCCUPATIONAL THERAPY (in the Faculty of Medicine)

Director — GUY H. FISK, B.A., M.D.,C.M., D.T.M. and H. (Eng.), F.R.C.P.(C)

3654 Drummond Street
Montreal 112, Quebec

Physical Therapy is the assessment and treatment of injury and disease through the specific application of therapeutic exercise, heat, light, water and electricity.

Occupational Therapy is the specific application of purposeful activities and work processes in the treatment of injury or disease with emphasis on prevocational assessment and rehabilitation training.

16.1 DEGREES OFFERED

achelor of Science in Physical Therapy, B.Sc. (Phys. Ther.).

The full curriculum consists of three years after the Diploma of Collegial Studies or quivalent in the biological sciences stream. Included in the program are further ourses in science together with professional training in Physical Therapy.

Bachelor of Science in Occupational Therapy, B.Sc. (Occ. Ther.).

The full curriculum consists of three years after the Diploma of Collegial Studies or quivalent in the biological sciences stream. Included are courses in science together ith professional training in Occupational Therapy.

Master of Science (Applied) M.Sc.(Appl.).

Available in Physical Therapy. A two-year program under the Faculty of Graduate tudies and Research.

16.2 PHYSICAL REQUIREMENTS

order to qualify for admission candidates must satisfactorily pass a complete hysical examination.

16.3 ENTRANCE REQUIREMENTS

ompletion of a Diploma of Collegial Studies in biological sciences or equivalent is quired for admission to the Bachelor of Science in Physical Therapy or Bachelor Science in Occupational Therapy programs.

17 FACULTY OF RELIGIOUS STUDIES

ean — GEORGE JOHNSTON, M.A., B.D. (Glasgow), Ph.D. (Cantab.), D.D. (Glasgow)

William and Henry Birks Building
3520 University Street
Montreal 112, Quebec

17.1 DEGREES OFFERED

achelor of Theology (B.Th.)

The Faculty also prepares graduate students for the degrees of M.A. and Ph.D. in eligious Studies in conjunction with the Faculty of Graduate Studies and Research.

17.2 PERIOD OF STUDY FOR BACHELOR'S DEGREE

hree years, or two years following a B.A. or equivalent degree.

17.3 ENTRANCE REQUIREMENTS

or the B.Th., an academic diploma from a Quebec CEGEP or the equivalent. Advanced anding is granted to those who possess an approved B.A.

For the M.A., a B.A. with a major in religion or theology and at least second class anding; or an approved B.Th. or B.D. See the *Announcement of the Faculty of Graduate Studies* and the calendar of the Faculty of Religious Studies for degree regulations nd other necessary information.

It should be noted that three theological colleges affiliated to McGill are associated ith the Faculty. Intending ordinands can meet the requirements of their churches for cademic theology by taking selected degree courses in the Faculty upon the advice their college principal. After they have completed a University degree they may roceed to theological college for a year of professional training.

18 FACULTY OF SCIENCE

ean — E. J. STANSBURY, M.A., Ph.D. (Tor.)

18.1 DEGREE OFFERED

achelor of Science (B.Sc.)

PERIOD OF STUDY

4.18.2

The degree program normally requires three years of study after the Diploma of Collegial Studies. Acceleration may be possible in some cases as student progress is determined on a credit system.

ADMISSION

4.18.3

Admission to the Faculty's degree program requires completion of a Diploma of Collegial Studies in science or equivalent (see section 3).

STUDY PLANS

4.18.4

Three types of study plan are available: Faculty Programs, Major Programs and Honours Programs.

A Faculty Program is an approved coherent selection of courses giving the student a useful concentration in a recognized area. Three fifths of the student's course load in a Faculty Program is specified, the remaining courses being freely elected from those offered in the Faculties of Science and Arts. A student may thus choose a pattern of study within a Faculty program which can range from one yielding a broad education to one specializing in particular interests.

Major programs are more specialized than Faculty programs, and are usually centred around a specific discipline or department. Between three fifths and four fifths of the course load is specified in the program and the student is free to elect the remaining courses from among the offerings in the Faculties of Science and Arts.

Honours Programs require the student to maintain academic performance at a high standard in addition to involving a very high degree of specialization.

Faculty Programs are available in:

Anatomical Sciences
Biochemistry
Biogeography
Biology
Chemistry
Chemistry and Biological Sciences
Climatology
Dynamics of the Oceans and Atmosphere
Earth Physics
Geomorphology
Hydrology
Marine Geology
Mathematics and Biology
Mathematics and Chemistry
Mathematics, Chemistry and Physics
Mathematics and Physics
Mathematics and Psychology
Microbiology and Immunology
Paleobiology
Psychology
Quaternary Studies

Major sequences are available in:

Major Anatomical Sciences
Major Biology
Major Chemistry
Major Crystallography
Major Geography
Major Geological Sciences
Major Mathematics
Major Meteorology
Major Microbiology and Immunology
Major Physics
Major Physiology
Major Psychology

Honours sequences are available in:

Honours in Anatomical Sciences
Honours Biochemistry
Honours Biology
Honours Chemistry
Honours Crystallography
Honours Geography
Honours Geological Sciences
Honours Mathematics
Honours Meteorology
Honours Physics
Honours Psychology
Honours Solid Earth Geophysics

TRANSFER STUDENTS

4.18.5

All students from other universities who wish to transfer credits to the Faculty of Science must apply in writing to:

The Admissions Office
McGill University
P.O. Box 6070
Montreal 101, Quebec

4.19 SCHOOL OF SOCIAL WORK
(in the Faculty of Graduate Studies and Research)

Director — D. E. WOODSWORTH, B.A. (Tor.), M.A. (Mich.), Ph.D. (Brandeis)

3506 University Street
Montreal 110, Quebec

4.19.1 DEGREES AND DIPLOMA OFFERED

In the Faculty of Arts:
Bachelor of Social Work (B.S.W.)

In the Faculty of Graduate Studies and Research:
Master of Social Work (M.S.W.)
Diploma in Advanced Social Work Practice

4.19.2 ENTRANCE REQUIREMENTS

4.19.2.1 The B.S.W.

Students are admitted to the three-year program in the Faculty of Arts after completion of a Diploma of Collegial Studies or equivalent on a competitive basis. Students with a B.A. with little social and behavioural science content may be admitted at the second year level.

4.19.2.2 The M.S.W.

Students are admitted to a one-year M.S.W. program upon completion of the B.S.W. with B standing. Students with a B.A. with strong preparation in social and behavioural sciences may be admitted to a qualifying year, and upon completion of this year with B standing, may be admitted to the M.S.W. year.

4.19.2.3 The Diploma in Advanced Social Work Practice

This program is available to persons who hold a M.S.W. degree with high standing, and three years' experience in practice.

For details see the *Announcement of the School of Social Work.*

5 SUMMER SESSION AND SUMMER SCHOOLS

5.1 SUMMER SESSION

The McGill University Summer Session allows students to take regular credit courses. The 1973 Summer Session will consist of two parts. The Pre-Summer Session will be held from May 16 to June 27; the Summer Session from July 3 to August 10. The curriculum will include a wide range of undergraduate and graduate studies, particularly in the Faculties of Arts, Education, Engineering, Management, Religious Studies, and Science.

Generally, a student will have to obtain a total of 90 credits at the university level to qualify for an undergraduate degree; thus, it is possible, by accredited Pre-Summer and Summer Session study, to complete the requirements in a shorter period of time.

Six-credit courses will be spread over 30 2-hour periods, 3-credit courses over 15 hour periods or 30 1-hour periods.

Pre-Summer Session and Summer Session are designed to meet the needs of various categories of participants including: students who wish to accelerate their studies; students from other universities who wish to transfer McGill credits to their own institutions; students who wish to obtain higher qualifications; students required to repeat courses failed during the winter session; students who wish to enrich their education; teachers who wish to upgrade their certificates or specialize in various areas.

French courses and Management courses will be offered through the McGill University Summer Session; however, the French Summer School, the Accountancy Summer School, and the Centre for Continuing Education will offer additional courses which are not administered by the Summer Session Office. Individuals interested in these specific programs, briefly described below, should contact the respective offices concerned.

Admission to the Summer Session program does not guarantee that students will be admitted to the regular winter program. Students who wish to apply to the winter session must do so before March 1; students who wish to apply for the Pre-Summer Session must do so by April 2, and those wishing to apply for the Summer Session must do so by May 15.

Pre-Summer Session and Summer Session students who are admitted into the winter session will be granted credit by the various departments concerned for courses taken in the summer, should these courses fit into the structured winter program that they plan to follow.

Full information concerning course offerings, applications, and requirements may be obtained from:

Miss Jeanne G. Marsolais,
Assistant Director,
McGill University Summer Session,
McGill University,
P.O. Box 6070, Montreal 101, Quebec.

5.2 SUMMER SCHOOLS

5.2.1 Accountancy

The Faculty of Management (Accountancy) invites applications from students both from Montreal and elsewhere for the summer school. The full curriculum of 90 hours will be spread over three weeks with six hours of courses per day per five-day week.

Montreal students are not required to live on campus though they are encouraged to do so. Students may take individual courses instead of registering for the whole school.

The following courses will be taught by professors and professional accountants under the direction of Professor Ronald G. Laybourn of the Faculty of Management:

	Hours
Financial Accounting, Theory	5
Theory applied in Problems	15
Cost and Management Accounting, Theory and Problems	10
Modern Auditing and Analysis of Accounting Systems	10
Investigations and Reports	10
Principles of Management:	
Planning and Control	5
Computer Concepts*	10
Planning and Development of Computer Information Systems	15
Federal Income	

*An *extra* Saturday session introducing Computer Concepts and Programming will be availabl for those who have had no previous instruction.

Full information may be obtained from:

The Accountancy Summer School
Faculty of Management, McGill University
Samuel Bronfman Building,
1001 Sherbrooke Street, West,
Montreal 101, Quebec.

5.2.2 French (in the Faculty of

The French Summer School, a residential school with an entirely French-speaking was established in 1904 and held its fifty-sixth session in 1972. Courses are off at two levels (undergraduate and graduate) in three divisions: advanced undergrad graduate and M.A.

The program is designed for:

1) Undergraduates who have completed two years towards the B.A. degree (at the CEGEP or College or University level) with a major in French; students whose knowledge of French is considered satisfactory but who are not majoring in French may be admitted in exceptional cases (Division B).

2) Those having obtained a B.A. degree or its equivalent with sufficient background in the French Language who wish to take courses at the graduate level, especially in Language and Civilization. (Division C)

3) Graduates who are presently working towards an M.A. or a Ph.D. at Universities other than McGill (Division C)

4) Teachers of French, at the Elementary or Secondary School, College or University level, who desire an effective "refresher" (Division B or C)

5) Graduates who wish to work towards an M.A. at McGill University by attending sessions at the French Summer School (M.A. with or without thesis). (Division D)

6) Graduates who wish to work towards the M.Ed. (Teaching French as a Second Language) at McGill University, and taking the program organized jointly by the French Summer School and the Faculty of Education of McGill University (Division D).

The courses carry credits towards McGill undergraduate and graduate degrees and these credits are also transferable to other North American universities and colleges.

Extracurricular cultural and social activities play a major role in the program. These activities are supplemented by the rich and varied resources of French-speaking Montreal. The teaching staff lives in the same residences as the students and mingles freely with them. The exclusive use of French at all times, in and out of class, is absolutely compulsory.

For complete information concerning applications, admission requirements and detailed booklet, please write to:

The Secretary
French Summer School
McGill University
Peterson Hall
P.O. Box 6070
Montreal 101, Quebec

6 CENTRE FOR CONTINUING EDUCATION

Strathcona Hall
772 Sherbrooke St. W.
Montreal 110, Quebec
392-5244

McGill University offers more than 250 evening courses through its Centre for Continuing Education in Montreal. These include courses in languages, social sciences, and music appreciation, engineering, business and management, and many other disciplines.

A course leading to a graduate diploma is offered in Management. A bachelor's degree is prerequisite for this.

Courses are offered leading to the following degrees, diplomas and certificates:

Bachelor of Education
Bachelor of Nursing
The Diploma in French-English, English-French Translation
The Certificate of Proficiency in French-English, English-French Translation
Certificate of Proficiency in English, French, German, Italian, Russian and Spanish

Certificate in Management
Diploma of the Canadian Bankers Association
Certificate of the Canadian Institute of Management
Diploma of the Certified General Accountants of the Province of Quebec
Diploma of the Chartered Institute of Secretaries
Diploma of the Institute of Chartered Accountants of Quebec
Diploma of the Society of Industrial and Cost Accountants

For details of courses offered, fees and registration, please contact the Centre at the above address.

7 FEES

The University reserves the right to make changes without notice in the published scale of fees.

Fees are not refundable, except under special conditions. See "Regulations Concerning Withdrawal from the University" below.

A student who transfers to a higher year from one faculty or degree course to another where higher tuition fees prevail shall be required to pay an amount equal to the difference in fees which existed between the two faculties or courses during the preceding session.

7.1 UNIVERSITY FEES

The fees for full time students include all the regular charges of the University for the full academic year for registration, tuition, laboratories, libraries, graduation, student services and Students' Society Fees.

7.1.1 FULL TIME COLLEGE EQUIVALENT STUDENTS

	Bona fide Quebec Students	*Non-Quebec Students*
Architecture	$460.	$746.
Arts	460.	638.
Commerce	465.	643.
Education:		
B.Ed.	460.	638.
B.Ed. (P.E. Major)	460.	658.
Engineering	460.	740.
Music	460.	638.
Nursing B.Sc. (N)	460.	615.
Physical and Occupational Therapy	460.	610.
Science	460.	703.

7.1.2 FULL TIME REGULAR STUDENTS

Agriculture	$525.
Architecture	
B.Sc. (Arch.)	746.
B.Arch.	746.
Arts	638.
Commerce	643.
Dentistry (laboratory equipment not included	690.
Education:	
B.Ed.	638.
B.Ed. (P.E. Major)	658.

B.Ed. (H. Ec. Major)	
1st and 2nd year (Macdonald College)	560.
3rd year (McGill)	638.
Diploma Programs	500.
Engineering	740.

Music	638.
Nursing	
B.Sc. (N)	615.
B.N.	615.
Physical and Occupational Therapy	610.
Religious Studies (except regular candidates for ordination)	585.
Science	703.
Social Work B.S.W.	638.
Graduate Studies (except M.B.A., M.S.W., and 2nd year M.L.S.)	652.
M.B.A.	717.
2nd year M.L.S.	312.
M.S.W.	654.

7.1.3 PARTIAL AND LIMITED STUDENTS

Per course	$150.
Per half course	$75.

The maximum fee charged for courses taken by partial students will not exceed the published fee for full time regular students, but in all other cases, partial students are subject to the following additional fees:

a)	If taking three or more courses —		
	Student Services	$27.	
	Students' Society (Average fee Actual varies by Faculty.)	28.	$55.
b)	If taking less than three courses —		
	Students' Society	$10.	
	or, if desiring full Student Services	37.	

7.1.4 SPECIAL FEES AND PENALTIES

*Application for Admission	$15.00
Late registration	25.00
Late payment fee (after specified date):	
1st 30 days	10.00
After 30 days	25.00
Graduation *in absentia*	5.00
Duplicate Student Identity Card	5.00
Duplicate diploma	10.00
Certified transcript of student's record:	
First two copies each	1.00
Additional copies made at the same time, each (up to 10 copies)	.10
Re-reading examination paper	10.00
Supplemental examinations, each paper	10.00
Changes in course (Arts, Science, Commerce), each change after specified change of course period	5.00

***Students already at McGill who are making application to a professional faculty or to the Faculty of Graduate Studies and Research (with the exception of the M.B.A. program) are not required to pay this fee.**

7.2 REGULATIONS FOR PAYMENT OF FEES

1. Students entering the University for the first time are required to pay their fees either by mail or in person at the Accounting Office.

The first instalment is due within 10 days after registration, the second instalment before January 15, 1974.

2. Students who have completed one or more years and intend to register in the succeeding year must pay one half of the total sessional fee by mail or in person to the Accounting Office before August 23, 1973, otherwise they will not be permitted to register. Instructions for paying fees in advance will be mailed to all returning students, either with their Sessional Reports of Standing or a short time later. Students who have been notified by the University of the award of a scholarship, bursary or student loan, and who require this award for payment of the first instalment of fees, must obtain from the Student Aid Office, McGill University, a *Permit to Delay Payment of Fees.*

The second instalment is due by January 15, 1974. A late payment fee as stated above is charged for payment after the specified dates.

3. Students registering late must pay their fees at the time of registration, failing which they become subject to the late payment fee and the provisions of the following paragraph:

As soon as possible after the prescribed dates for the payment of fees the Chief Accountant will send to the Dean of each Faculty a list of the registered students who have not paid their fees. The Deans will thereupon suspend them from attendance until such time as the fees are paid or a satisfactory arrangement is made with the Chief Accountant.

7.3 REGULATIONS CONCERNING WITHDRAWAL FROM THE UNIVERSITY

A student who wishes to leave the University during the academic year must, *whether or not he wishes to apply for remission of fees,* secure the permission of the Dean or Associate Dean of his Faculty. The Office of the Associate Dean will supply the necessary form which must be completed and submitted together with the Student Identity Card. A student considering withdrawal is strongly advised to consult his Dean before making a final decision. Fees for the term in which the student withdraws are not refundable, except under special conditions. A student wishing to apply for remission of fees must consult the Chief Accountant.

8 CALENDAR OF DATES 1973-74

1973

April 2, Monday	Deadline for receipt of applications for Pre-Summer Session.
May 15, Tuesday	Deadline for receipt of applications for Summer Session.
May 16, Wednesday, to June 27, Wednesday	Pre-Summer Session.
May 21, Monday	Victoria Day. Administrative Offices will be closed.
May 21, Monday to June 29, Friday	Special B.S.W. program Summer Session.
June 1, Friday	Convocation in Medicine and Dentistry.
June 2, Saturday	Convocation in Agriculture at Macdonald Clolege.
June 8, Friday	Convocations in all other faculties and schools.
June 25, Monday	St. Jean Baptiste Day. Administrative Offices will be closed.
June 25, Monday to August 12, Sunday	French Summer School.
June 28, Thursday to June 29, Friday	Pre-Summer Session examinations.
July 2, Monday	Dominion Day. Administrative Offices will be closed.
July 3, Tuesday	Last day for submitting completed applications for admission to most departments in the Faculty of Graduate Studies and Research.
July 3, Tuesday to August 10, Friday	Summer Session.
August 11, Saturday and August 13, Monday	Summer Session examinations.
August 13, Monday to August 24, Friday	Supplemental examinations in all College Equivalent programs and in degree programs in Arts, Science, Management, Engineering, Architecture, B.Sc.(Arch.), Physical Therapy, Occupational Therapy, Religious Studies, Nursing and degree and Diploma programs in Education.
August 20, Monday	Freshman Orientation Service and pre-registration counselling begin in Arts, Education, Management, Science, and Physical and Occupational Therapy.
	Last day for submitting Doctoral theses for Fall Convocation.
August 21, Tuesday	Supplemental examinations begin in Faculty of Agriculture, School of Food Science and Diploma in Agriculture.
August 25, Saturday to September 5, Wednesday	Architecture Sketching School.
August 27, Monday	Last day for submitting Master's theses for Fall Convocation.
August 29, Wednesday	Students registering for Agronomy 340-350A report for class at 8:00 a.m. and for Soil Science 372-420A at 9:00 a.m. (Macdonald College).
	Orientation program for First year Dentistry students.

GENERAL ANNOUNCEMENT

September 3, Monday	Labour Day. Administrative Offices will be closed.
September 4, Tuesday	Students registering for Renewable Resources Development 375-400A and Zoology 349-418A report for class at 9:00 a.m. (Macdonald College).
September 4, Tuesday to September 13, Thursday	Enrolment placement tests, auditions, and interviews in Music. Practical examinations in Music (graduands only).
September 4, Tuesday to September 19, Wednesday	Registration period:

Sep. 4, Tues. Registration in all years Medicine Dentistry, and Law (9:00 a.m. to 7:00 p.m.)

Sep. 5, Wed. Registration in diploma programs in Education (10:00 a.m. to 4:00 p.m.)

Sep. 6, Thurs. and Sep. 7, Fri. Registration in University Level Engineering, Architecture and B.Sc.(Arch.) (10:00 a.m. to 4:00 p.m.)

Sep. 10, Mon. Registration in University Level Arts, Arts Partials, B.Ed. U1, Religious Studies and B.S.W. (9:00 a.m. to 5:00 p.m.); and all students at Macdonald College (See Sep. 10 below).

Sep. 11 Tues. Registration in University Level Arts, Arts Partials, and B.Ed. U2 (9:00 a.m. to 5:00 p.m.)

Sep. 12, Wed. Registration in University Level Arts, Arts Partials, Management, and B.Ed. U3 (9:00 a.m. to 5:00 p.m.)

Sep. 13, Thurs. Registration in University Level Science, Science Partials, Physical and Occupational Therapy, and B.Sc.(N) (9:00 a.m. to 5:00 p.m.)

Sep. 14, Fri. Registration in University Level Science, Science Partials, and all years Music. (9:00 a.m. to 5:00 p.m.)

Sep. 17, Mon. Registration in University Level Science, Science Partials, and B.N. 1 (9:00 a.m. to 5:00 p.m.)

Sep. 18, Tues. Registration in all E2 Engineering, and in E2 Arts, Science, Education, Management, Nursing and Physical and Occupational Therapy, and B.N. 2. (9:00 a.m. to 5:00 p.m.)

Sep. 19, Wed. Registration in E2 Arts, Science, Education, Management, Nursing, and Physical and Occupational Therapy (9:00 a.m. to 5:00 p.m.)

eptember 5, Wednesday	Lectures begin in First, Second and Third years Medicine, in all years Dentistry and in all years Law.
	Enrolment in School of Nursing for B.N. 1 students.
eptember 5, Wednesday to September 7, Friday	Pre-registration counselling in University Level Education programs.
	Advance registration Faculty of Agriculture, School of Food Science and Diploma in Agriculture.
eptember 6, Thursday	Enrolment of M.S.W. and Advanced Social Work Practice Diploma students.
eptember 7, Friday	Enrolment of First year students in the Graduate School of Library Science.
eptember 7, Friday to September 21, Friday	Registration in the Faculty of Graduate Studies and Research in individual departments.
eptember 10, Monday	Lectures begin in University Level programs in Engineering, Architecture, and B.Sc.(Arch.).
	Fall registration of all new students at Macdonald College (9:00 a.m. to 12 noon). Afternoon Orientation Program required of all new students at Macdonald College. Registration of all returning students in all years at Macdonald College (1:30 to 4:00 p.m.).
	Lectures begin in M.S.W. and Advanced Social Work Practice Diploma programs and in First year Graduate School of Library Science.
	Diploma programs in Education begin.
eptember 11, Tuesday	Lectures begin for all years in Faculty of Agriculture, School of Food Science and Diploma in Agriculture.
eptember 12, Wednesday	Lectures begin in Second year Graduate School of Library Science.
eptember 17, Monday	Instruction begins in Music.
eptember 17, Monday to October 5, Friday	Course change period in Music.
eptember 20, Thursday	Lectures begin in all College Equivalent programs and in University Level programs in Arts, Science, Education, Management, B.S.W., Religious Studies, Graduate Studies and Research, Nursing, Physical and Occupational Therapy.
eptember 21, Friday	Last day for registration in the Faculty of Graduate Studies and Research.
eptember 24, Monday	Last day for submitting reports on Doctoral theses.
eptember 28, Friday	Last day for first term course changes in University Level programs in Faculty of Engineering.
ctober 1, Monday	Last day for submitting reports on Master's theses.
	Late registration in all faculties.
ctober 4, Thursday to October 12, Friday	Change of course period in Faculties of Arts and Science.
ctober 5, Friday	Last day for course changes for first term courses in Faculty of Agriculture, School of Food Science and Diploma in Agriculture.
ctober 8, Monday	Thanksgiving. Lectures cancelled. Administrative Offices will be closed.

GENERAL ANNOUNCEMENT

October 12, Friday	Last day for change of courses in B.S.W. program.
October 24, Wednesday to October 27, Saturday	Fall Fair and College Royal at Macdonald College.
October 26, Friday	Deadline for withdrawing (W) from 'A' courses in Faculties of Arts, Science and Education.
November 1, Thursday	Last day for dropping first term courses at Macdonald College, in the Faculty of Music and in most Departments in the Faculty of Graduate Studies and Research.
November 6, Tuesday	Fall Convocation.
November 11, Sunday	Remembrance Day.
November 19, Monday to November 23, Friday	Practical examinations in Music.
November 30, Friday	Deadline for withdrawing (W) from 'D' courses in Faculties of Arts, Science and Education.
December 5, Wednesday	Last day of lectures in first term Agriculture, Food Science and Diploma in Agriculture programs.
December 7, Friday	Last day of first term lectures in University Level programs in Engineering, Architecture and B.Sc.(Arch.).
December 10, Monday to December 14, Friday	Examinations in first term courses in Graduate School of Library Science.
December 10, Monday to December 19, Wednesday	First term examinations in Agriculture, Food Science and Diploma in Agriculture programs.
December 11, Tuesday	Last day of first term lectures in Law.
December 12, Wednesday to December 21, Friday	Examinations in first term courses in University Level programs in Engineering, Architecture and B.Sc.(Arch.).
December 13, Thursday to December 22, Saturday	Examinations in first term courses in Law.
December 14, Friday	Last day of first term lectures in diploma programs in Education, and in First year Dentistry.
December 17, Monday to December 19, Wednesday	Examinations and mid-year evaluations in diploma programs in Education.
December 17, Monday to December 21, Friday	Examinations in first term Department of Music Theory courses.
December 19, Wednesday	Last day of first term lectures in all other programs except Music.
December 21, Friday	End of first term in Music.
December 25, Tuesday	Christmas Day. Administrative Offices will be closed from 5:00 p.m. Friday, Dec. 21, 1973, until 9:00 a.m. Wednesday, Jan. 2, 1974.
	1974
January 1, Tuesday	New Year's Day. Administrative Offices will be closed until Wednesday, Jan. 2, at 9:00 a.m.
January 2, Wednesday	Second term begins in Medicine and in First year Dentistry.

2 GENERAL INFORMATION

2.1 ENTRANCE SCHOLARSHIPS

The policy of the University is to recognize and honour scholarship, and the University Scholarships Committee selects scholarship winners from among those students who have obtained a high first class academic standing.

When a student has been selected for an award and is in financial need, it is the further policy of the University to meet that need as far as resources permit. However, in order to be considered for a scholarship of major financial value, a student must complete the Application for Financial Aid.

All students who wish to be considered for Entrance Scholarships must complete the Application for Entrance Scholarship by March 1. These forms may be obtained from the Admissions Office, McGill University, P.O. Box 6070, Montreal 101, Quebec. By submitting this application students will be considered automatically for every entrance scholarship for which they are eligible.

Entrance Scholarships are open to Canadian citizens, landed immigrants of twelve months residence, or graduates of Canadian high schools, colleges and other institutions. Entrance Scholarships are awarded only to students taking a regular course leading to an undergraduate degree, and applicants must be entering the First year of a university program.

2.2 AWARDS TO McGILL STUDENTS IN COURSE

Once a student is in course at McGill all scholarships, prizes and medals are awarded automatically based on the year-end examination results. No applications are required. During undergraduate studies most scholarships are renewable annually provided the student maintains a sufficiently high standard in his university work.

Inquiries concerning scholarships should be referred to the Registrar's Office.

Students whose scholarships have been renewed and who need financial assistance should apply directly to the Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec.

2.3 BURSARIES AND LOANS

Applications for McGill bursaries and loans should be directed to the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec. These awards are made on the basis of financial need.

All applicants for aid are also expected to apply for maximum government grants or other assistance for which they may be eligible (see section 2.4). The Student Aid Office may be able to estimate the amount of such assistance and should be consulted.

2.4 PROVINCIAL BURSARIES AND LOANS

In all cases, a basic qualification is that the applicant must be a Canadian citizen or a landed immigrant with one year's residence and domicile in the province to which he applies.

When a student applies for financial assistance from government, Canadian or non-Canadian, and when certification of the student's status is required on such an application form such certification must be obtained from the McGill Student Counselling-Student Aid Office.

In all provinces, except Quebec and Ontario, the provincial authority listed below administers the Canada Student Loan Plan (Federal) as well as their own programs. The addresses are as follows:

Quebec: Apply for a Quebec registration card, after May 1, at the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, P.Q.

Ontario: Application forms for Ontario aid may be obtained after May 15 from the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, P.Q.

New Brunswick: Department of Youth & Welfare, Fredericton, N.B.

Yukon Territory: The Students Financial Assistance Awards Committee, c/o Superintendent of Schools, Box 2703, Whitehorse, Yukon.

Northwest Territories: c/o Education Division, Department of Northern Affairs & Resources, 150 Kent Street, Ottawa, Ontario.

For the Provinces of Newfoundland, Prince Edward Island, Nova Scotia, Manitoba, Saskatchewan, Alberta, British Columbia: write to the Provincial Department of Education.

2.5 GENERAL REGULATIONS

(1) Scholarships are awarded and bursaries and loans are granted only to full-time students taking a regular course leading to a degree.

(2) Scholarships are awarded or renewed only if an adequate academic standing is attained.

Information concerning Postgraduate Awards, Fellowships and Bursaries is contained in a separate booklet, which may be obtained from the Fellowships Office, Faculty of Graduate Studies and Research, or the Registrar's Office.

3 ENTRANCE SCHOLARSHIPS AND BURSARIES

3.1 ENTRANCE REQUIREMENTS

In general, the University's system of entrance scholarships is designed to enable good students from all parts of Canada to attend McGill. Students who have obtained a high first class academic standing or who expect to obtain such standing in their examination results will be considered for these scholarships.

Students are advised by the Admissions Office as to the supporting documents which are required to support their Application for Admission and for Entrance Scholarship.

All Canadian students who apply directly from a secondary school for admission to the First or Second year of the undergraduate programs must take the Canadian SACU (Service for Admission to College and University) tests. These consist of a Scholastic Aptitude Test (Verbal and Mathematical) and a mother-tongue Achievement Test. Information about these tests and directions for applying may be obtained from the High School Guidance Officer or from SACU Test Administration, 151 Slater Street, Ottawa, Ont.

Applications for Entrance Scholarships must be made to the Admissions Office on or before March 1.

3.2 SCHOLARSHIPS

SIR EDWARD BEATTY MEMORIAL SCHOLARSHIPS. — Six scholarships in Mathematics or in Classics (Greek and Latin) of an annual value of $250. Renewable until completion of first degree and open to students entering the Faculty of Arts or of Science. Founded by the late Sir Edward Beatty, former Chancellor of the University. Open only to students who are Canadian citizens or landed immigrants, and awarded primarily for ability in either Classics or Mathematics, but ability in other subjects may be taken into account. The winners on entering the University need not necessarily take courses leading to honours in Classics or in Mathematics, but may enter any course for which they are qualified in the Faculties.

CANADIAN PACIFIC SCHOLARSHIPS. — Two scholarships covering tuition fees, tenable in the Faculties of Engineering, Arts, Science, Management and Agriculture, and renewable if the student is in good standing until completion of first undergraduate degree. Open for competition to employees of the permanent staff of Canadian Pacific and to sons, daughters and legal wards of employees, who have not reached their twenty-third birthday prior to June 1.

Application for statements of eligibility to enter the competition should be made to Mr. G. R. Phare, Manager, Management Development Planning, Canadian Pacific, Windsor Station, Montreal. Candidates must complete the McGill Application for Entrance Scholarship, as well as the Application for Admission, to be considered for these scholarships. The forms, accompanied by the Statement of Eligibility, must reach the Admissions Office before March 1.

CHRISTIE-STORER SCHOLARSHIP. — Value $500, endowed by the above-named Chapter of the I.O.D.E. in memory of the men of St. Lambert who fell in the Great War, 1914-18. Awarded to a former graduate student of Chambly County High School residing in St. Lambert who obtains the highest marks for admission to the University entering any full-time undergraduate degree course. Tenable for one year only.

CONSUMERS GLASS COMPANY LIMITED UNIVERSITY EDUCATION AWARDS PLAN. — Open to children or wards of employees and retired employees of Consumers Glass Company Limited for a full-time course of study in any Canadian university or college recognized by the Association of Universities and Colleges of Canada. Value $750 per year until completion of first degree. Awards are automatically renewed provided the students establish continuing eligibility and successfully complete the preceding academic year. Further information and application forms which must be submitted by June 30 may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont.

GEORGE HERRICK DUGGAN MEMORIAL SCHOLARSHIP (DOMINION BRIDGE COMPANY, LIMITED). — Offered by Dominion Bridge Company, Limited, open to all employees of the Company (who have been in continuous service of the Company for at least one year) and its wholly owned subsidiary companies, and to their sons and daughters. Certificates of eligibility for the scholarship must be obtained from the Personnel Department of the Company.

This scholarship will cover tuition fees. In the case of winners from outside Montreal who must meet their own living expenses the amount necessary to cover tuition fees could be augmented somewhat at the discretion of the University Scholarships Committee.

Intended to provide an incentive to eligible candidates to qualify for a university education and to afford them financial assistance while pursuing university studies. The scholarship is tenable in any undergraduate degree course at McGill University and is awarded on the intellectual attainment and academic record of the winner. It may be granted until completion of first undergraduate degree.

In exceptional cases qualified students already in course at McGill may be considered for this scholarship.

GEORGE HERRICK DUGGAN MEMORIAL SCHOLARSHIP (DOMINION ENGINEERING WORKS, LIMITED). — Offered by Dominion Engineering Works, Limited, open to all its employees and those of its wholly owned subsidiary companies, and to their sons and daughters. Certificates of eligibility for the scholarship must be obtained from the Personnel Department of the Company.

The value of this scholarship will not exceed $750 if the winner comes from outside Montreal, or if the Committee judges it is desirable for the winner to reside away from home in the interests of his academic work. If the winner can live at home, however, the value will be equivalent to full tuition fees, and the Awarding Committee may in this case make an additional grant where there is financial need.

Intended to provide an incentive to eligible candidates to qualify themselves for a university education in engineering or scientific work or allied subjects, and to afford them financial assistance while pursuing university studies, the scholarship is awarded on the intellectual attainment and academic record of the winner. It may be granted until completion of first undergraduate degree.

In exceptional cases qualified students in the Faculty of Science and the Faculty of Engineering may be considered for this scholarship.

GRACE FAIRLEY TRAFALGAR SCHOLARSHIP. — $200, founded in 1913 by friends and former pupils of the late Miss Grace Fairley, to signalize her long and faithful service to education as head of the Trafalgar Institute. Tenable for one year only and awarded annually to a former graduate pupil of Trafalgar School who obtains the highest marks for admission to the University entering any full-time undergraduate degree course.

NARCISSA FARRAND (MRS. N. PETTES) SCHOLARSHIP. — Founded and endowed by Mr. and Mrs. H. V. Truell, of Sweet Acre, Knowlton, Quebec. Value $600, and renewable until completion of first degree provided the holder maintains a standing satisfactory to the University Scholarships Committee. Awarded annually to the candidate from the Eastern Townships who obtains the highest marks for admission to the University entering any full-time degree course and who has had his domicile in the Eastern Townships for at least five years.

GENERAL MOTORS SCHOLARSHIP. — Entrance scholarship at McGill, established by the General Motors Corporation of Canada and open to an outstanding young Canadian man or woman. Preference will be shown for those students who look forward to careers in industry and to students entering Mechanical Engineering, Commerce and Finance, and Economics. Renewable until completion of first degree provided the holder maintains a satisfactory academic standing. Should a holder withdraw or fail to maintain a satisfactory standing the scholarship may be awarded to another qualified candidate of the same class. Value, $1,000.

SCHOLARSHIPS

SCHOLARSHIP GRANTED BY THE GRADUATES' SOCIETY OF THE DISTRICT OF BEDFORD. — $450, awarded to a student who has taken his or her Grades IX, X, and XI in one of the High Schools of the District of Bedford and who obtains the highest marks for admission to the University to take any full-time undergraduate degree course. May be divided between two students, and is awarded by the Society upon the recommendation of the University Scholarships Committee.

SIDNEY J. HODGSON SCHOLARSHIPS. — Two scholarships of $400 each, founded by Arthur J. Hodgson, Esq., in memory of his son, Sidney James Hodgson, a student of the First year in Arts, who was killed in action on September 27, 1918, while serving in the 66th Battery of the Canadian Field Artillery. Awarded to former graduate pupils of Westmount High School who obtain the highest marks for admission to the University entering any full-time undergraduate degree course.

I. M. LADDON SCHOLARSHIP. — Established by General Dynamics Corporation in tribute to I. M. Laddon, B.Sc. 1915, D.Sc. (Hon.) 1957. Open to U.S. residents entering the Faculty of Engineering. Value $3,500 plus transportation costs. A new award is made on the graduation of the former scholar. Awarded by the University Scholarships Committee in consultation with the Corporation. Application forms may be obtained from General Dynamics Corporation.

HARRY LEIBOVITCH SCHOLARSHIP. — Established by a bequest from the late Harry Leibovitch and awarded under the same conditions as the David Wolfson Scholarships described below.

SIR WILLIAM MACDONALD ENTRANCE SCHOLARSHIPS. — Value $800 each, tenable for one year only, endowed by Sir William Macdonald and open to all students. Three of these scholarships are open to students entering the Faculty of Arts or of Science and one is available for a student entering the Faculty of Management.

JAMES DAVIDSON McCALL SCHOLARSHIP. — Value $1,000. Founded by his family in memory of James Davidson McCall, B.Eng., who was accidentally killed in September 1953, the year of his graduation. Awarded to a student of Canadian citizenship entering the Faculty of Engineering, is renewable until graduation provided the holder maintains satisfactory academic standing. Awarded on academic merit and financial need.

DUNCAN McCASKILL SCHOLARSHIP. — Restricted to students from Nova Scotia. Value $600, renewable until the holder obtains his or her first degree provided the holder maintains an academic average satisfactory to the University Scholarships Committee.

J. W. McCONNELL MEMORIAL SCHOLARSHIPS. — Created and endowed by the late Mr. J. W. McConnell of the Board of Governors as a memorial to the men and women of the University who gave their lives in the war of 1939-45. Open on equal terms to men and women from any part of Canada and tenable in the Faculty of Arts, the Faculty of Science, the Faculty of Management, or the Faculty of Engineering. Each scholarship covers full tuition fees plus cost of board, residence and books and is renewable until completion of first degree. Awards are based on character, financial need and academic record of the applicant. The holder will normally forfeit the scholarship if he fails to maintain satisfactory academic standing.

J. W. McCONNELL SCHOLARSHIPS IN SCIENCE AND ENGINEERING. — Made possible through the generous donation of the late Mr. J. W. McConnell, awarded to students proceeding to degrees in any field of Science or Engineering and renewable each year provided academic standing satisfactory to the University Scholarships Committee is maintained. Candidates must be Canadian citizens or landed immigrants, must show that without this scholarship they would be unable to attend the University, and, on proof of need, may receive up to full tuition fees plus the cost of board, residence and books.

T. H. McGLADE SCHOLARSHIP. — $1,000 annually, established in 1967 by T. H. McGlade, B.A. 1947, for an entrance scholarship. Tenable for one year only by a male student entering any faculty who is a graduate of either Smiths Falls Collegiate Institute or St. Francis High School in Smiths Falls, Ontario. If there is no qualified applicant from these two institutions, the scholarship shall be open to graduates of other secondary schools of the County of Lanark in Ontario or to candidates from the Upper St. Lawrence Valley, particularly from the Brockville and Prescott areas. Awarded by the University Scholarships Committee on the basis of academic merit, character and financial need.

JESSIE NORRIS MEMORIAL AWARD. — $250 awarded annually to a Quebec CEGEP student entering the First year of the University program in the Faculty of Arts or of Science who obtains excellent standing in English Composition and Literature before coming to McGill.

SEBA ABBOTT SMITH MEMORIAL SCHOLARSHIP. — Value $600 renewable annually until completion of first degree provided the holder maintains an academic standing satisfactory to the University Scholarships Committee.

UNIVERSITY ENTRANCE SCHOLARSHIPS. — Awarded on the basis of academic record and open to men and women from any part of Canada. Tenable in any undergraduate degree course and renewable annually until graduation provided sufficiently high academic standing is maintained. University Entrance Scholarships carry a nominal recognition ($100) of their outstanding achievement. Where there is financial need, however, winners may receive further assistance.

MORRIS W. WILSON MEMORIAL SCHOLARSHIPS. — Established by contributions from a large number of intimate friends and business associates of the late Morris W. Wilson as a memorial to a distinguished citizen who, among many public activities, rendered distinguished service to the cause of education, and who, at the time of his death, was Chancellor of McGill University. The fund marks the culmination of a hope long cherished by Mr. Wilson, that young Canadian boys and girls of outstanding ability and promise, but in poor financial circumstances, might obtain a university education. It is hoped that this fund may assist many deserving young Canadians, particularly those from rural areas, to become better equipped to perform the duties of citizenship and so more effectively to aid in the general development and welfare of their country.

Open on equal terms to men and women of Canadian parentage, now resident in Canada, and open only to students who wish to enter the Faculty of Arts, the Faculty of Science, the Faculty of Management, the Faculty of Engineering, or the degree course in Agriculture at Macdonald College. Each scholarship covers the full tuition fee, as well as the cost of board and residence and is renewable until completion of first degree. The holder will normally forfeit the scholarship if he fails to maintain satisfactory academic standing.

DAVID WOLFSON SCHOLARSHIPS. — Two scholarships endowed by Mr. David Wolfson to enable outstanding men and women from all parts of Canada who would not otherwise be able to do so to attend the University. Awarded both to students entering undergraduate degree courses and to students entering any professional faculty of the University except Graduate Studies and Research. The undergraduate work of students entering such professional faculties as Medicine, Dentistry, Law, Religious Studies, etc., must have been completed at some other university. Renewable until completion of first degree, or for the period required for the degree in a professional faculty, provided academic standing satisfactory to the University Scholarships Committee is maintained. The amount awarded depends upon need but may extend to the full costs of tuition, residence and board.

Normally, David Wolfson Scholarships are awarded only to students who reside outside the Montreal area.

Applicants in the professional faculties must apply in the first instance to the Dean of the Faculty or School concerned whose deadline for admissions may be as much as six months earlier.

3.3 BURSARIES

BECHTEL FOUNDATION OF CANADA BURSARY.

CHILDREN OF WAR DEAD (EDUCATION ASSISTANCE) ACT.

ENGINEERS WIVES ASSOCIATION OF MONTREAL BURSARY. — Established in 1961 by a donation from the Professional Engineers Wives Association and awarded in alternate years to a needy and deserving student who is entering either First or Second year in the Faculty of Engineering.*

FEDERAL-PROVINCIAL LOANS AND BURSARIES.

KHAKI UNIVERSITY AND Y.M.C.A. MEMORIAL SCHOLARSHIP FUND.

ISABELLA C. MacRAE SCHOLARSHIP. — Open to residents of Ontario.*

GEORGE J. McMANUS MEMORIAL SCHOLARSHIPS.

EDGAR R. PARKINS MEMORIAL SCHOLARSHIPS AND BURSARIES. — For entering students or for students already in course. The entrance scholarships will be awarded by the University Scholarships Committee and the bursaries by the Student Aid Office without restriction as to faculty. Maximum scholarship value, according to need, up to tuition fees for Montreal residents, up to the amount of tuition fees plus room and board for non-residents.*

QUEEN ESTHER CHAPTER No. 30 ORDER OF THE EASTERN STAR BURSARY. — $100, established in 1951 and awarded to a deserving student entering the University.*

Apply to Student Aid Office.

ST. FRANCIS DISTRICT GRADUATES' SOCIETY BURSARY. — $400, restricted to residents of the area covered by the St. Francis District Branch of the Graduates' Society and open to pupils of any high school or private school entering any faculty or school of McGill University, including Macdonald College. May be renewed for a second year. $250 of the Bursary is to be repaid by the holder at a minimum of $50 per year after graduation. Awarded by the Society on the recommendation of the University Scholarships Committee.

STEEL COMPANY OF CANADA LIMITED BURSARY. — $500 for a maximum of four years to any one student. Open to permanent residents of Canada. Awarded to a capable student who might not otherwise go to University because of lack of funds. Should the student withdraw or perform below the standards set for him, the Bursary may be awarded to another student who has the same number of years to complete before graduation.*

UNIVERSITY BURSARIES.

EDGAR WILSON AND MARGARET WILSON SCHOLARSHIPS.

WOMEN ASSOCIATES OF McGILL BURSARY.

4 SCHOLARSHIPS, BURSARIES, PRIZES AND LOAN FUNDS IN THE VARIOUS FACULTIES AND SCHOOLS OF THE UNIVERSITY

4.1 OPEN TO STUDENTS IN ALL FACULTIES

4.1.1 SCHOLARSHIPS AND BURSARIES

AID TO THE PHYSICALLY HANDICAPPED (QUEBEC). — Students in any faculty who are Canadian citizens or landed immigrants and have been resident and domiciled in Quebec for two years may apply for an outright grant if they have suffered from poliomyelitis, tuberculosis, certain forms of cardiac trouble, or some other physical disability. Apply through the Student Counsellor, Student Counselling-Student Aid Office, McGill University.

ALPHA OMICRON PI BURSARY.

ANONYMOUS DONATION FOR BURSARIES. — Established by an anonymous donor through the Graduates' Society in 1959. Awarded to students entering the University or to undergraduates already enrolled of at least Second Class standing whose records show demonstrated qualities of leadership and character.*

BANK OF NOVA SCOTIA BILINGUAL EXCHANGE SCHOLARSHIPS. — Six annual one-year undergraduate and graduate awards are available, three to French-speaking candidates and three to English-speaking candidates. Undergraduate awards are for $1,500 tenable in the second to last year of a first university degree program. Graduate awards are for $3,000 and graduate students will be expected to outline their proposed programs of study. English-speaking winners may attend any Canadian French-speaking university or college and French-speaking winners may attend any Canadian English-speaking university or college provided it is a member, or federated with, or affiliated to, a member of the Association of Universities and Colleges of Canada. Apply to Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St. Ottawa, Ont. Completed applications must be sent to the above address to arrive not later than March 1.

MARY H. BEATTY SCHOLARSHIPS & BURSARIES. — For men and women in any faculty or year.*

GORDON BENNETT MEMORIAL BURSARIES. — Established in 1969 to provide bursaries for men and women to assist them in obtaining higher education in any faculty. Awarded by the Student Aid Office on the basis of academic merit and financial need.

BIRKS FAMILY FOUNDATION STUDENT AID FUND. — Established in 1963 to be used for bursaries to worthy students in any faculty or year.*

B'NAI B'RITH HILLEL FOUNDATION BURSARY. — Established by the B'nai B'rith Hillel Foundation of McGill University, awarded to a deserving student in any faculty.*

B'NAI B'RITH MOUNT ROYAL LODGE No. 729 BURSARIES. — Three bursaries, open to men and women students in any faculty. Need and scholarship will determine the award.*

**Apply to Student Aid Office.*

B'NAI B'RITH ST. LAURENT LODGE No. 2102 BURSARY. — Awarded from time to time to a deserving student in any faculty.*

MURRAY BROOKS MEMORIAL BURSARIES. — Established in 1962 by Mrs. John E. Gilbert in memory of her father to assist students in good standing, preferably students from India, Pakistan, or Ceylon.*

REVEREND G. O. BRUCE BURSARIES. — Established by the Reverend Guy Oliver Theodore Bruce in memory of his mother, Louisa Howard Bruce and of his brother, John C. Bruce. Awarded to one or two students who have financial need.*

KENNETH M. BURKE BURSARIES. — Established in 1946 by Dr. Hugh E. Burke in memory of his brother, the late Kenneth M. Burke. Open to men and women in any faculty, preference being given to sons and daughters of ministers of religion.*

MR. AND MRS. SAMUEL CAMPBELL BURSARY. — Established in 1972 by Mr. Barry Robert Campbell, B.A. 1971, in memory of his Grandparents, Mr. & Mrs. Samuel Campbell. Awarded annually to a student, preferably studying in Honours English Literature or Political Science, on the basis of financial need.*

CANADIAN ARMY UNVERSITY COURSE MEMORIAL BURSARY. — Established by the Canadian Army University Course Association of McGill University as a memorial to their comrades, Richard F. Gyles, Robert J. Lockhart, and James C. Wheeler, who lost their lives in World War II. Awarded by the Student Aid Office. Preference given to men who volunteered for active service, and their children.*

JOSEPH LAWRENCE CAPLAN MEMORIAL BURSARIES. — Awarded by the Principal on the recommendation of the Student Aid Office to First year students in any faculty who may be thereby helped to obtain a university education.*

CHILDREN OF WAR DEAD (EDUCATION ASSISTANCE) ACT. — Under this Act fees up to $500 and monthly allowances are provided for children of Canadian veterans whose death was attributable to military service in World War I or II. Apply to the nearest District Office of the Department of Veterans Affairs or to the Student Counsellor, Student Counselling-Student Aid Office, McGill University.

WILLIAM JOHN DEY BURSARIES. — Bequeathed in 1950 by the late Mary Helena Dey in memory of her father, the Reverend William John Dey, M.A., D.D., (B.A.), Class of 1867, McGill University. Open to full-time undergraduates, both men and women, in all faculties and schools.*

STUART DUNN MEMORIAL SCHOLARSHIP. — Founded by the late Major Charles Gwyllym Dunn of Quebec City in memory of his son, Sergeant (Wireless Air Gunner) Stuart Dunn, R.C.A.F., a student at McGill University who died on active service in July, 1941. Preference given to a male student of the Protestant Christian faith whose home is outside the Island of Montreal. Consideration is given to: (a) the candidate's scholarship, character, personality, and quality of leadership, (b) his need of financial assistance, and (c) the general usefulness to the community of the special branch of study he proposes to follow.*

HENRY H. EKES BURSARY. — Established in 1971 by Mr. Peter B. G. Easton in memory of his late father, Mr. Henry H. Ekes, to provide an annual bursary to an academically deserving student with financial need.*

FAERMAN GRANT. — Established in 1964-65, awarded annually to a deserving student in any faculty or year.*

FEDERAL-PROVINCIAL LOANS AND BURSARIES. — Most Provinces join with the Federal Government in offering bursaries, loans, or bursary-loans to degree students in many faculties and schools, open to men and women on equal terms. Students who have been resident and domiciled in the Province of Quebec for one year should apply to the Student Aid Office, McGill University, for Registration cards, but not before May 1. Completed application forms must be received at the Service des Prêts et Bourses aux Etudiants in Quebec by September 30. For further particulars apply to the Student Counsellor, Student Counselling-Student Aid Office. Ontario bursaries and loans are tenable in all faculties except Religious Studies. Students coming from other provinces should inquire from the Provincial Departments of Education whether they are eligible to participate in any comparable scheme. See Section 2, for addresses.

BOB FINEBERG BURSARY. — Established in 1967 by the family and friends in memory of the late Bob Fineberg and Barbara Greenspoon to assist a needy and deserving student. Awarded annually by the Student Aid Office with the approval of the National Council of Jewish Women on the basis of financial need and academic standing.*

FROTHINGHAM BURSARIES. — Bequeathed in 1951 by the late Mrs. Harriet F. Miller, to provide bursaries for outstanding women students in any faculty.*

AARON AND MARY GOODMAN BURSARIES. — Established in 1963 to assist deserving students in any faculty.*

*Apply to Student Aid Office.

SCHOLARSHIPS

DR. WILLEM GRAFF BURSARY. — Established by Dr. R. W. Brockway of Brandon College to commemorate Professor Willem Graff's long service to the University. Awarded by the Student Aid Office on the recommendation of the Department of German to a worthy and deserving undergraduate or graduate student on the basis of scholarship and financial need.

BARBARA GREENSPOON BURSARY. — Awarded annually by the Student Aid Office to any student with preference given to a student with a penchant for Mathematics.*

H. E. HERSCHORN BURSARY. — Established under the will of the late H. E. Herschorn, N.P., B.A. 1911, B.C.L. 1914, for a deserving student, man or woman, studying for the B.Sc., B.A., M.D.,C.M., LL.B., or B.C.L. degree in the intermediate or any subsequent year of his or her course.*

HEWITT MEMORIAL BURSARY FUND. — A bequest from the late Frederick T. O'Reilly-Hewitt in memory of his parents, the late Frederick Daniel Hewitt and the late Maria Stenson Hewitt for bursaries. Open to students in the Faculty of Arts or to students in the Humanities and Social Sciences in the Faculty of Graduate Studies and Research. Awarded by the Student Aid Office on the basis of financial need and academic promise.*

M.A.U.T. — F. S. HOWES AWARD. — Established in 1964 by the McGill Association of University Teachers to mark the great contribution of Dr. F. S. Howes to the life of the University. Awarded by the Student Aid Office to assist a student of energy and promise who is in financial need to complete his studies. Preference is given to students in the Faculty of Graduate Studies and Research.*

CELIA AMDUR ISAACS MEMORIAL BURSARY. — Established in 1953 by the Montreal Section of the National Council of Jewish Women and Mr. I. Sydney Isaacs. Awarded by the Council upon the recommendation of the Student Aid Office.*

JOSEPH ALFRED JACOBSON MEMORIAL SCHOLARSHIP. — Established by the late Mr. Percy N. Jacobson and by Mrs. Jacobson in memory of their son, Flight-Sergeant Joseph Alfred Jacobson, of the Royal Canadian Air Force, who was killed in action on January 28, 1942. Open to men and women in any faculty on equal terms. Awarded on the basis of academic strength, interest in university sports, and financial need.*

KHAKI UNIVERSITY AND Y.M.C.A. MEMORIAL SCHOLARSHIP FUND. — The interest of this fund is awarded in scholarships subject to the following two conditions: (i) that the scholarships may be held only by undergraduates; (ii) that the preference is given to sons and daughters of soldiers: (a) who served in the war of 1914-18; (b) who served in the war of 1939-45.*

EMERY AND ERWIN KLINEMAN BURSARY. — Established by Mr. Myer Herschorn to provide bursaries for students in any faculty needing financial assistance to continue their studies.*

SARAH AND JOSEPH LAZARUS BURSARY. — Awarded to a student in financial need with satisfactory academic standing, preference being given to a student in the Program of Jewish Studies.*

FELIX LEOPOLD BURSARY. — Established in 1953 by Mr. Felix Leopold of Montreal and awarded to one or more needy students in any faculty, who must have a satisfactory academic record and be of good character.*

BELLA LIPKIN-COHEN MEMORIAL BURSARY. — Established in 1972 by Mr. Sydney Brown, and awarded annually to a needy student, preferably in the Faculty of Arts.*

NOURALLA LUTFY MEMORIAL BURSARIES. — Two bursaries, the bequest in 1958 of the late Mr. Nouralla Lutfy and a further donation from his son, Mr. John Lutfy. Awarded to deserving students in any faculty or school.*

CHARLES MARTIN BURSARY FUND. — Bequeathed in 1935 by the late Mrs. Lillie F. Martin in accordance with the wishes of her late husband, Alfred W. Martin, in memory of his father, Charles Martin. Awarded to students in any faculty on the basis of financial need.*

McGILL PHARMACY ALUMNI SOCIETY DR. WILLIAM H. HATCHER BURSARY. — Established in honour of Dr. William H. Hatcher. Open to deserving students. Preference given to initial or intermediate year B.A. or B.Sc. degree students who intend to study pharmacy after graduation and to students in the Department of Chemistry.*

McGILL STUDENT ENTREPRENEURIAL AGENCIES INC. BURSARY. — Established in 1970 to provide a bursary of at least $100 annually to a student who has financial need.*

McGILL U.N.T.D. BURSARY. — With the unification of the three branches of the armed services, the U.N.T.D. has ceased to exist. The income from this Fund is now used to supplement university bursary funds.*

J. R. S. McLERNON BURSARY FUND. — Endowed by the late Mr. J. R. S. McLernon to assist students with financial need and good academic standing. Open to students in any faculty or year who are Canadian citizens. The minimum amount of each award is $100.*

**Apply to Student Aid Office.*

GEORGE J. McMANUS MEMORIAL SCHOLARSHIPS. — Each has a minimum value of $100 and may be held by students who hold other scholarships and who have real financial need. Open to men or women in any year of any faculty who have high academic records and need financial help. The actual amount depends on the need of the student.*

NATHAN MENDELSSOHN BURSARIES. — A bequest of $10,000 from the estate of the late Nathan Mendelssohn, the annual income of which is to be used by the Student Aid Office for bursaries for students in need of financial assistance.*

DR. FREDERICK WILLIAM CHARLES MOHR SCHOLARSHIPS. — The income from a fund established under the will of the late Dr. F. W. C. Mohr is used for scholarships for needy students from communities within the Ottawa Valley District, the amount of each scholarship not exceeding $500 to any one student in any year.*

MONTREAL WOMEN'S CLUB ELIZA REID MEMORIAL BURSARY.

NATIONAL COUNCIL OF JEWISH WOMEN OF CANADA, MONTREAL SECTION, BURSARIES. — A limited number of bursaries valued normally at $100 each. Awarded by the Council after consultation with the Student Aid Office. Academic standing and financial need are considered in making the award. Although there is no legal obligation, the Council hopes that holders will, if possible, return the money at some future time so that other students may in their turn be helped through college.*

EDGAR R. PARKINS MEMORIAL SCHOLARSHIPS AND BURSARIES.

SAMUEL AND BESSIE PESNER BURSARY. — Established in 1967 to honour Mr. and Mrs. Pesner. Awarded annually by the Student Aid Office with the approval of the National Council of Jewish Women to a student in any faculty or year on the basis of financial need and academic standing.*

PROCTER & GAMBLE STUDENT BURSARY FUND. — The Procter & Gamble Company of Canada Limited has established a fund of $1,500 to assist needy students in any faculty or year who are of good academic standing. Recipients will normally be Canadian residents who expect to maintain permanent residence in Canada. The minimum award is $100 and may be held concurrently with other awards. The Company hopes that any student who benefits from the fund will later contribute to the general bursary funds of the University when financially able to do so.*

HELEN REYNOLDS BURSARY.

MURIEL V. ROSCOE BURSARY.

ST. ANDREW'S SOCIETY BURSARY. — Established by the St. Andrew's Society of Montreal, for a needy student, preferably of Scottish blood, proceeding to a degree.*

RAY AND BEN SCHECTER MEMORIAL BURSARY. — Established by Mr. Samuel H. Schecter in memory of his mother and father. While open to any needy student in any faculty preference shall be given to students from Africa or Asia.*

SERAINE GROUP IDA SEGAL MEMORIAL BURSARY. — Established in 1968 to assist needy men students in any faculty.*

SERAINE GROUP ESTHER WARD MEMORIAL BURSARY. — Established in 1956 to assist needy men students in any faculty.*

FREDERICK SOUTHAM KER BURSARY. — Established in 1941 by the late F. N. Southam in memory of his grandson, Frederick Southam Ker, who was killed in action on September 6, 1940. Open on equal terms to men and women of all faculties. Awarded to a student who gives promise of becoming a good citizen but is handicapped by lack of funds. Financial need, character, and academic record are all considered in making the award.*

TEMPLE EMANU-EL SISTERHOOD BURSARY. — Established in 1946 in memory of the men who lost their lives in the war of 1939-45. Open to men undergraduates in all faculties.*

UNIVERSITY BURSARIES. — Open to full-time degree course students in all faculties and schools. See general regulations in Section 2.

UNIVERSITY CHALLENGE BURSARY FUND. — Established in 1971 by $10,000 which was won by a McGill team comprised of Julius H. Grey, B.C.L. 3, William W. Kredentser, B.Sc. 3, Brian M. Schecter, B.A. 4, and Mrs. Faith E. Wallis, B.A. 4, who participated in the CTV Television Program "University Challenge". The annual income is to provide bursaries to academically deserving students with financial need.*

UNIVERSITY SCHOLARSHIPS. — After one year at McGill, University Scholarships may be awarded by the University Scholarships Committee to students in any year of any undergraduate faculty for exceptionally distinguished work in the regular University examinations. No application is required.

University Scholarships carry a nominal recognition ($100) of their outstanding achievement. Where there is financial need, however, winners should apply as soon as possible to the Student Aid Office for information and consideration.

Apply to Student Aid Office.

SCHOLARSHIPS

Two University Scholarships have special names, the James Eccles Scholarship, tenable in any year of any faculty, and the Frederick Smith Memorial Scholarship, tenable only in the Faculty of Medicine.

All University Scholarships are renewable if in the opinion of the University Scholarships Committee, the holders maintain a sufficiently high academic standing.

IBM — THOMAS J. WATSON MEMORIAL BURSARIES. — $1,000 annually, established by the International Business Machines Company Limited for financial assistance to needy undergraduates in any year of any faculty who are of good academic standing. May be held concurrently with other awards provided need exists.*

EDGAR WILSON AND MARGARET WILSON SCHOLARSHIPS. — Bequeathed in 1956 by the late Edgar Moles Wilson to provide the Edgar Wilson Scholarships for men and the Margaret Wilson Scholarships for women to assist them in obtaining higher education in any faculty. Awarded on the basis of academic merit and financial need. Awards will not exceed the annual tuition fees.*

ROY M. WOLVIN MEMORIAL BURSARIES.

WOMEN ASSOCIATES OF McGILL BURSARY. — Available each year to men and women students in any faculty. Scholarship and need determine the award. The winner is chosen by the Executive of the Women Associates of McGill from candidates recommended by the Student Aid Office and selected from the applicants for University bursaries.*

RICHARD WOOD MEMORIAL BURSARY. — An annual fund established in 1964 by the Laurentian Lanes Sportsman's Bowling League for deserving students in any faculty.*

4.1.2 PRIZES

DR. W. B. LEWIS PRIZE. — A prize of $300 is offered annually in a competition for an essay, written with a view to publication to produce an informative review of some topic of his choice involving more than a single scientific discipline and having relevance to a subject of potentially general concern, e.g. water pollution, growing amount of carbon dioxide in the atmosphere, etc. Open to undergraduates and graduate students of the University. Material should be carefully selected and properly presented. The judges will not read untidy manuscripts or newspaper clippings. Essays that have appeared in print are not ineligible if they have been published since October 15, 1972. No candidate may submit more than one entry, which must be typed and must reach the Secretary, University Scholarships Committee, Registrar's Office, before October 15, 1973. Winning entries will be retained by the University and filed in the McLennan Library. The competition is restricted to students who have not previously won this Prize. Awarded by the University Scholarships Committee.

CHESTER MACNAGHTEN PRIZES. — Two prizes, $125 and $50, offered annually in a competition for the best piece of creative writing in English submitted by an undergraduate student of the University, i.e., a story, a play, a poem, an essay, etc. Material should be carefully selected and properly presented. The judges will not read untidy manuscripts or a large number of newspaper clippings. Printed compositions are not ineligible if they have been published since March 1, 1973. No candidate may submit more than two entries, which must be typed and must reach the Secretary, University Scholarships Committee, Registrar's Office, before March 1, 1974. Winning entries will be retained and filed in the McLennan Library. The competition is restricted to students who have not previously won the First Prize. Awarded by the University Scholarships Committee.

McCHARLES PRIZE.

NEWCOMEN AWARD.

4.1.3 LOAN FUNDS
Open to Students in all Faculties

CANADA STUDENT LOAN PLAN. — Canadian students from provinces other than Quebec may apply for federal loans. Addresses for the nine provincial authorities administering this plan are listed in Section 2.

CANADIAN CLUB OF MONTREAL FIFTIETH ANNIVERSARY STUDENT AID FUND. — Established in November 1955 to commemorate the Club's Fiftieth Anniversary. The purpose is to foster patriotism by encouraging the study of the institutions, arts, literature, and resources of Canada, and the appreciation of matters of interest and concern to Canadians.*

McGill University no longer accepts endowments for awards which are restrictive in certain respects. However, there are some such funds endowed in the past which are still available.

Students who complete in detail the application form for financial aid, obtainable from the Student Counselling-Student Aid Office, will be considered automatically. The funds which are restrictive are the following:

GREEK STUDENTS BURSARY AND LOAN FUND. — Established in 1952 by a group of Greek merchants to assist Greek students attending McGill.

SIMON AND ROSALIE HALPERN MEMORIAL SCHOLARSHIP. — Value $400, and established by the late Dr. Fanny G. Halpern in memory of her parents. Open to students of Roman Catholic or Jewish faith, on the basis of distinguished academic standing and financial need. The holder in any one session may re-apply for the following year.*

ANNETTE S. HILL MEMORIAL BURSARIES. — Established in 1962 to assist young men of the Protestant faith and of good character from the Maritime Provinces or the Province of Ontario to obtain a college education.

HUNGARIAN CANADIAN ENGINEERS' ASSOCIATION BURSARY. — Students of Hungarian origin, who have had at least one year of successful study at a recognized university in Canada, may apply to the Hungarian Canadian Engineers' Association for financial aid.

McGILL HELLENIC CLUB BURSARIES. — One or more bursaries of $300 each for students of Greek descent (up to and including the third generation) in any faculty or year. Open to full-time students who have obtained second class standing and have financial need, and renewable upon application.

Apply to Faculty of Medicine

ANGUS McCOY SMITH SCHOLARSHIP. — $150, founded by the late Mr. Allan L. Smith and Mrs. Smith in memory of their son, Angus McCoy Smith, a McGill graduate, who was killed in World War II. Awarded to a Protestant male student of the Faculty of Arts or Science entering the Fourth year. Academic record, character, financial need, and general promise are considered.

CHARLES WILLIAM SNYDER MEMORIAL SCHOLARSHIPS. — Two scholarships of $200 each, founded by the late L. P. Snyder, Esq., in memory of his son, Charles William Snyder, a student of First year Arts who was killed in the Battle of Sanctuary Wood on June 2, 1916, awarded on the results of the sessional examinations. One is awarded on the recommendation of the Department of English to a student entering the Fourth year and taking full Honours in English and the other is awarded on the recommendation of the Departments concerned in the student's combined Honours program to a student entering the Fourth year and taking Honours in English and another subject. Open to Christian male students in the Faculty of Arts or Science.

SYRIAN CANADIAN ASSOCIATION BURSARIES. — A bursary fund available to any student of Syrian-Lebanese descent residing in (a) the Greater Montreal area; (b) the Province of Quebec; (c) Canada; with preference given to students in the above order. No restriction as to choice of faculty or year but preference is given to students entering the University. Awarded on the basis of good academic standing and financial need. The maximum amount granted to any one student is the equivalent of the student's tuition fees and the amount granted varies with the financial need of the student.

UNIVERSITY LODGE LOAN FUND. — A loan fund for Masons and the children of Masons attending McGill established by University Lodge No. 84 Q.R., A.F. and A.M. Loans will not exceed annual tuition fees. Open to qualified students in all faculties and years and awarded on need and academic merit.

4.2 OPEN TO STUDENTS IN THE FACULTY OF ARTS

For Entrance Scholarships, see Section 3. For scholarships and bursaries, open to undergraduates in all Faculties, see Section 4.1.

4.2.1 GENERAL REGULATIONS IN ARTS

1. No applications are required. The awards are made by the Arts Scholarships Committee on the basis of examination standings.

2. Unless restricted by the deed of gift or faculty regulations the awards are open to all students studying for the B.A. degree.

3. Normally only those students who have completed at least 30 credits in the year preceding the award will be eligible for scholarships.

4. Scholarships will be awarded only if an adequate standard is attained.

5. If in any university year there is not a sufficient number of candidates showing adequate merit, any one or more of the scholarships offered for competition may be given to more deserving candidates in another year.

6. In order to retain a scholarship a successful candidate must proceed regularly with a university course to the satisfaction of the Faculty.

4.2.2 SCHOLARSHIPS

CHARLES ALEXANDER SCHOLARSHIP. — Value $245, established in 1870 "for the encouragement of the study of Classics and other subjects."

MARGARET JANE ALLAN SCHOLARSHIP. — Bequeathed in 1929 to the Royal Victoria College by Mrs. Agnes W. Allan. Value $250, awarded annually to the woman student with the highest standing in the sessional examinations of the initial year of the B.A. course.

DR. BARCLAY SCHOLARSHIP. — Awarded in the Classics Department, value $140.

ROBERT BRUCE SCHOLARSHIP. — $100, tenable for two years, bequeathed by the late Robert Bruce, of Quebec City. Open to students in the Faculty of Arts, the Faculty of Science or the Faculty of Management and awarded for high standing in the examinations at the end of the initial year. Awarded by the University Scholarships Committee upon recommendations of the faculties concerned.

DOW-HICKSON SCHOLARSHIPS. — Annual value, not less than $1,000 each. Established in 1957 by a bequest from the late Dr. J. William A. Hickson and awarded to intermediate or graduating year Honours students in English Literature, Philosophy, or Psychology. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of the departments concerned.

MAURICE GOLDENBERG MEMORIAL SCHOLARSHIP. —Value $225, in Government, Constitutional Law, or Public Administration, established by Senator H. Carl Goldenberg, Q.C. in memory of his father, the late Maurice Goldenberg. Awarded annually by the University Scholarships Committee to the best candidate amongst those nominated by the Faculty of Arts and the Faculty of Law.

GREENBLATT SCHOLARSHIP. — $500 from a bequest of the late Mrs. Greenblatt, for a student proceeding from the intermediate year(s) to the graduating year, preference given to a student in Modern Languages (other than English) or in History. Awarded on recommendation by a committee selected from the Departments of History and of the Modern Languages.

KNIGHTS OF PYTHIAS SCHOLARSHIP. — $300, awarded annually to a male or female student in the Social Sciences who must be a resident of the Island of Montreal, and entering the intermediate year of the B.A. course. May be renewed for a further year if the holder proves worthy.

HANNAH WILLARD LYMAN MEMORIAL SCHOLARSHIP. — $240, awarded annually to a woman student of the intermediate or graduating year of the B.A. course.

SIR WILLIAM MACDONALD SCHOLARSHIPS. — Two scholarships of $500 each, open to all students in the intermediate and graduating years.

ALEXANDER MACKENZIE SCHOLARSHIPS. — Two scholarships of $250 each, awarded on the results of the Honours examinations in Political Science. One award will be held by a student entering the graduating year and one for a student entering the intermediate year. Students must take the Honours work in Political Science.

JAMES DARLING McCALL SCHOLARSHIP. — $750 founded by the late J. T. McCall, Esq., in memory of his son, James D. McCall, B.Sc., who was drowned shortly after the war of 1914-18, in which he served with distinction. Awarded to a male graduating student who is taking Honours in English and/or Philosophy.

McGILL ALUMNAE SCHOLARSHIPS. See Section 4.16.4.

PETERSON MEMORIAL SCHOLARSHIPS IN CLASSICS. — Two scholarships of $550 each, founded in memory of Sir William Peterson, Principal of McGill 1895-1918, by his son, W. G. Peterson, M.A. Open to students in any year.

PRINCE OF WALES SCHOLARSHIP. — $150, open to students proceeding from the intermediate year(s) into the graduating year. Awarded for general distinction by the Faculty of Arts on the student's complete academic record and on recommendations from departments in which they have taken their courses.

JANE REDPATH EXHIBITION. — Value $170, founded by the late Mrs. Redpath, to maintain an exhibition in Arts or Science. Awarded on the results of the sessional examination of the initial year to the student with the highest average on the year's work. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of each faculty.

REFORD SCHOLARSHIP. — The interest on this fund, about $400 per annum, is equally divided and placed at the disposal of the Departments of English and Philosophy.

BARBARA SCOTT SCHOLARSHIP. — Value $275, bequeathed by the late Barbara Scott for the student "excelling in Classics in the initial year."

SHAKESPEARE SCHOLARSHIP. — $100, for a student advancing to the graduating year with special distinction in English Honours courses. Awarded by the Faculty of Arts on the recommendation of the Department of English.

UNIVERSITY SCHOLARSHIPS. See Section 4.1.1.

ROY M. WOLVIN MEMORIAL SCHOLARSHIPS AND BURSARIES. — Two scholarships of $375 each and a number of bursaries are given by Mrs. Roy M. Wolvin in memory of her husband. One scholarship is restricted to men undergraduates in the Faculty of Engineering, which is awarded by the Faculty Scholarships Committee. The other scholarship is restricted to women undergraduates in the Faculty of Arts, the Faculty of Science, or the Faculty of Management, and is awarded by the University Scholarships Committee upon recommendations of the faculties concerned. The bursaries are open to students in any undergraduate faculty who have a good academic record and need financial assistance. Apply for bursaries to the Student Aid Office.

4.2.3 BURSARIES

ROBERT BRUCE BURSARIES. — Several bursaries of $100 each are open each year to "young men and women of promising abiilties but of straitened circumstances in Arts, Science, or Engineering."*

MR. AND MRS. SAMUEL CAMPBELL BURSARY.— See Section 4.1.1.

**Apply to Student Aid Office.*

DELTA PHI EPSILON SORORITY BURSARY. — Value $100, founded in memory of Edith Silver. Open to a deserving woman student entering the penultimate year of the Faculty of Arts or of Science.*

ROSE AND HARRY ENGELS BURSARY. — $100 to be awarded annually by the Student Aid Office to any undergraduate B.A. student in the Faculty of Arts.*

HEWITT MEMORIAL BURSARY FUND. — See Section 4.1.1.

HOUSTON BURSARY. — See Section 4.13.

HON. ROBERT JONES BURSARY. — One or more bursaries not exceeding $250 each in any one year are granted to needy students in the Faculty of Arts, Science or Engineering.*

BELLA LIPKIN-COHEN MEMORIAL BURSARY. — See Section 4.1.1.

4.2.4 PRIZES

E. R. ADAIR HISTORY PRIZE. — $25 in books, established by the Montreal Historical Association and awarded to the student achieving the highest standing in History in the initial year.

AUSTRIAN GOVERNMENT PRIZE. — A book prize for a student who has excelled in German.

HARRY BARKER MEMORIAL PRIZE IN ENGLISH. — Value $150, bequeathed by the late Miss Dinah Lee in memory of the late Mr. Harry Barker, awarded to the student with the highest standing in English in an initial year. Awarded on the recommendation of the Department of English, to whichever Faculty Scholarships Committee is appropriate.

HENRY CHAPMAN PRIZE. — A book prize of the value of $65 is given in Modern Languages (excluding English), or in Hebrew.

CHERRY PRIZES. — Two prizes in books of $100 each, founded by Wilbur H. Cherry, Arts 1907, and Anna Cherry, Arts 1918, in memory of their father, William Cherry, Med. 1869, and of their brother, William McFie Cherry, Arts 1911, awarded on the recommendation of the Departments of Economics or of Political Science to deserving students.

CORPORATION OF PSYCHOLOGISTS OF THE PROVINCE OF QUEBEC PRIZE. — A prize of $10 offered annually by the Corporation to a student in the final year who has done the most distinguished work in Psychology throughout the course. Awarded on the recommendation of the Department of Psychology, to whichever Faculty Scholarships Committee is appropriate.

MARION McCALL DALY PRIZE. — See Section 4.16.3.

OSCAR EKES MEMORIAL PRIZE. — Value $100, established in 1972 by Mr. Peter B. G. Easton, B.A. 1971, in memory of his uncle, Mr. Oscar Ekes. Awarded by the Scholarships Committee of the Faculty of Arts on the recommendation of the Department of Economics to an outstanding economics student.

ISIDORE FINKELSTEIN PRIZE. — Value $100, established in 1973 for a five-year period by Mrs. I. Finkelstein in memory of her late husband, Isidore Finkelstein. Awarded annually by the Scholarships Committee of the Faculty of Arts on the recommendation of the Department of History to the full honours history student graduating with the highest mark.

DORA FORSYTH PRIZE. — $125, bequeathed by the late Miss Jeanie Forsyth for English Literature. Open to women students only and awarded to a candidate recommended by the Department of English and approved by the Faculty of Arts.

THE FRENCH GOVERNMENT'S BOOK PRIZES. — Three book prizes to be awarded to three students of the Department of French Language and Literature in their graduating year for excellence in the study of French Language and Literature.

GERMAN EMBASSY PRIZE. — A book prize for excellence in German.

HISTORICAL SOCIETY'S PRIZE. — A book prize of $50, awarded jointly by the Executive of the Historical Society and the Chairman of the Department of History to the undergraduate in the initial year showing the greatest promise in History and intending to read for Honours in this subject.

MADELENE HODGSON PRIZE IN HISTORY. — Value $40, endowed by the I.O.D.E. in recognition of the work done by the late Mrs. W. C. Hodgson as President of the Provincial Chapter of Quebec. Awarded to the intermediate year Honours student in History by the Department of History for the most outstanding work in this subject.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2.

CHESTER MACNAGHTEN PRIZES. — See Section 4.1.2.

McGILL HELLENIC CLUB PRIZE IN MODERN GREEK. — An annual prize of $150 to the student obtaining the highest overall first class standing in the first years of study of Modern Greek.

NEWCOMEN AWARD. — The Newcomen Society in North America offers a prize of $200 known as the Newcomen Award for a student at McGill who writes an outstanding paper on some facet of Industrial History. Entries must be submitted to the Chairman of the Department of Economics on or before April 1.

Apply to Student Aid Office.

BORIS MUSKATOV PRIZE IN PSYCHOLOGY. — An annual prize of $85 in books has been endowed by Miss Serafina Muskatov in memory of her brother, Boris Muskatov, who died on January 9, 1948, while a student. This prize is offered to a student who has completed the penultimate year in the Faculty of Arts or of Science and has done the best work in the subject of Psychology. Awarded on the recommendation of the Department of Psychology, to whichever faculty scholarships committee is appropriate.

PETERSON MEMORIAL PRIZE IN ENGLISH LITERATURE. — Value $50, founded by W. G. Peterson, M.A. in memory of his father, Sir William Peterson, Principal of McGill, 1895-1918, awarded to the undergraduate, or graduate student with distinction in English Literature who has also shown creative literary ability.

NORMAN A. PRENTICE MEMORIAL PRIZE. — Value $300, established by Mrs. Norman A. Prentice in memory of her late husband, Norman A. Prentice, Arts '10. Awarded to a student of high standing proceeding from the intermediate to graduating year in the General or Major B.A. program. Preference is given to students who have included French and/or History among their subjects.

PRIZE OF THE AMBASSADOR OF SWITZERLAND IN CANADA FOR FRENCH. — A book prize for excellence in the graduating year in French Language and Literature.

PRIZE OF THE AMBASSADOR OF SWITZERLAND IN CANADA FOR GERMAN. — A book prize for excellence in German for the graduating year, awarded by the Faculty of Arts on the recommendation of the Department of German to an undergraduate whose mother tongue is not German.

PRIZE OF THE AMBASSADOR OF SWITZERLAND IN CANADA FOR ITALIAN. A book prize for excellence in the graduating year in Italian.

PRIZE OF THE AMBASSADOR OF YUGOSLAVIA IN CANADA. — A book prize for the best student in the language, literature or civilization of one of the peoples of Yugoslavia (principally Serbo-Croatian). Open to undergraduate or graduate students and awarded on the recommendation of the Department of Russian and Slavic Studies.

PRIZE IN ANCIENT GREEK. — One or more prizes with a minimum value of $100 each may be awarded annually for proficiency in Ancient Greek to students entering any year of the Faculty of Arts.

PRIZE IN LATIN. — One or more prizes with a minimum value of $50 each may be awarded annually for proficiency in Latin to a student or students in any year of the Faculty of Arts. Awarded by the Faculty of Arts on the recommendation of the Chairman of the Department of Classics.

JAMES D. ROSS PRIZE. — $25 Book Prize, established by the former colleagues and friends of the late Professor James D. Ross. To be awarded by the Department of Philosophy to the outstanding student in the penultimate year of the Honours Philosophy Program.

LIONEL SHAPIRO AWARD IN ENGLISH. — $1,000 is awarded by the Scholarships Committee of the Faculty of Arts on the recommendation of the Department of English to one or more students in the B.A. course who are completing their graduating year and have demonstrated outstanding literary talent. The total awarded will not exceed $1,000.

CORINNE FAY TABAC MEMORIAL PRIZE IN ENGLISH LITERATURE. — An annual prize of $50 donated by Mr. Steven T. Tabac in memory of his wife Corinne Fay Tabac, a former student at Macdonald College. Awarded to the winner of the Shakespeare Gold Medal.

WOMEN'S PERSONNEL GROUP OF MONTREAL BOOK PRIZE. — A book prize of $25 made available in alternate years to McGill and to the University of Montreal. At McGill the selection is made by the Director of the Industrial Relations Centre in consultation with the appropriate departments in the Social Sciences and awarded to the woman student in any year of the Faculty of Arts or the Faculty of Management who shows the most promise and intends to continue, either at the University or in industry, in the general field of Personnel and/or human relations. The award will be available at McGill in 1968 and thereafter biennially.

WOODHEAD MEMORIAL PRIZE IN GREEK AND LATIN. — $100, presented by the Wiegand Memorial Foundation Inc., in honour of the late William Dudley Woodhead, Hiram Mills Professor of Classics and Chairman of the Department from 1925-1950, awarded to the student in Honours Greek and Latin of the intermediate or gaduating years, who, in the opinion of the Department, has done the best work in this field.

4.2.5 MEDALS

The following medals are awarded to the graduating students who stand highest in the First Class Honours List of the subjects named, provided the Faculty so recommends to Senate:

THE HENRY CHAPMAN GOLD MEDAL, for Classical Languages and Literature.

THE FRENCH GOVERNMENT'S BRONZE MEDAL, for excellence in French in the general or Honours course.

In addition to the above, certain medals are offered annually by L'Alliance Française, at the discretion of the Department of French.

If there is no candidate for any medal, or if none of the candidates fulfils the required conditions, the medal is withheld, and the proceeds of its endowment for the year may be devoted to prizes in the subject for which it was intended.

THE GOVERNOR-GENERAL'S GOLD MEDAL, for Modern Language and Literature.

THE GOVERNOR-GENERAL'S SILVER MEDAL, awarded to the student standing highest among those graduating "with great distinction" in a major or faculty program of the Faculty of Arts or of Science. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of the faculties concerned.

THE ALLEN OLIVER GOLD MEDAL, for Economics and Political Science (founded by Mrs. Frank Oliver, in memory of her son, the late Allen Oliver, M.C., B.A., Lieutenant, 26th Battery, C.F.A., who was killed in action at the Somme, on November 18, 1916).

THE PRINCE OF WALES GOLD MEDAL, for Mental and Moral Philosophy.

THE SHAKESPEARE GOLD MEDAL, for English Language and Literature.

4.2.6 LOAN FUNDS

McGILL SOCIETY OF ONTARIO LOAN FUND. — Established in 1938 by the Ontario Branch of the Graduates' Society of McGill.*

4.3 OPEN TO STUDENTS IN THE FACULTY OF DENTISTRY

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.3.1 SCHOLARSHIPS

INTERNATIONAL COLLEGE OF DENTISTS (CANADIAN SECTION) SCHOLARSHIP. — $100, awarded by the Faculty of Dentistry to a student who is proceeding to the Fourth year. Awarded on scholastic record in the Third year, general character, and participation in extra-curricular activities. No application required. (1973-74 award is not definite.)

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.3.2 PRIZES AND MEDALS

First year:

Prizes will be awarded for first and second place overall standing.

Second year:

Prizes will be awarded for first and second place overall standing; and for highest standing in the Basic Sciences and in Dental Anatomy and Applied Sciences over the two year period.

Third year:

Prizes will be awarded for first and second place overall standing.

Fourth year:

Medals will be awarded for first, second and third place overall standing in the four years of the course.

Prizes will be awarded for highest standing in the Basic Sciences and Oral Medicine; and, in Preventive and Restorative Dentistry.

The details of these awards are presently under review and further information will be available in the 1974-75 announcement.

4.3.3 LOANS FUNDS

W. R. AIRD LOAN FUND. — Established in 1952 for students in Dentistry.*

COLLEGE OF DENTAL SURGEONS OF QUEBEC LOAN FUND. — Established in 1958 by the College of Dental Surgeons of the Province of Quebec to aid students in the Second and upper years in the Faculty of Dentistry. Such students must be registered with the College of Dental Surgeons of the Province of Quebec and loans shall not exceed the tuition fees for the year.*

KELLOGG LOAN FUND. — A sum of money has been placed at the disposal of the Faculty of Dentistry by the Kellogg Foundation to assist dental students who have real financial need and are not eligible for assistance under other bursary and loan schemes.*

OTHER LOAN FUNDS. — See Section 4.1.

Apply to Student Aid Office.

4.4 OPEN TO STUDENTS IN THE FACULTY OF EDUCATION

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.4.1 SCHOLARSHIPS

For Entrance Scholarships, see Section 3.

RONALD BRIGDEN MEMORIAL SCHOLARSHIP. — Awarded annually to graduates from schools on the South Shore whose staff members are represented by the St.Lawrence Richelieu Teachers' Association. Candidates must be in the Faculty of Education. Value $200. Apply to President, Ronald Brigden Memorial Scholarships S.R.T.A., Box 175, St. Lambert, P.Q.

ELLA BRYSON SCHOLARSHIP. — Offered to a student entering the Faculty of Education from Fort Coulonge Protestant School. Apply to Secretary, Women's Institute, Fort Coulonge, P.Q., before May 1.

SARAH EMMA HILL SCHOLARSHIP. — Endowed by the late Mrs. Sarah Emma Hill, of Stanstead, Que., and awarded each year to a student in the Faculty of Education "where assistance is required." Scholarship and indication of professional ability will be considered. Applications must be submitted by August 15.*

ESTELLA HOLMES SCHOLARSHIP. — $100 offered by the Women's Institute of Stanstead County to a student from Stanstead County who is entering the Faculty of Education. Apply, not later than July 1, to the Convenor of Education of the Stanstead County Women's Institute whose name may be obtained from the Principal of the applicant's school.

A. S. LAMB SCHOLARSHIPS. — Three scholarships of $300 each, endowed by friends of Dr. Arthur S. Lamb, formerly Director of the School of Physical Education and of the University Department of Athletics, Physical Education and Recreation, as a tribute to his work in these fields. Awarded to students entering the intermediate or final year of the Bachelor of Education (Physical Education) course. One scholarship is awarded on academic record and personal qualities. Financial need is also considered in awarding the other two scholarships. No application necessary.

MACDONALD TEACHERS' ALUMNI ASSOCIATION SCHOLARSHIP. — Value $100, awarded to the best all round student by the Dean of the Faculty of Education and the President of the Alumni Association. The Scholarship must be used to further the winner's educational studies. When circumstances permit, two scholarships are offered in the same year.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.4.2 BURSARIES

PHYLLIS A. AITKEN BURSARY. — Value $700, awarded annually for a five-year period to a student or students in the Bachelor of Education program entering the intermediate or final year. Preference will be given to applicants who are planning to teach in one of the sciences or a language other than their natural language. Awarded by the I.O.D.E. on the recommendation of the Faculty of Education on the basis of financial need. May be renewable.

ELIZABETH MILLAR COSENS BURSARY. — To be awarded annually to a woman in the intermediate or final year of the degree course in Physical Education. The award will be made on the recommendation of the Faculty of Education without restriction as to race, creed, colour or nationality on the basis of academic record, motivation and financial need with primary concern being given to academic proficiency.

DELTA KAPPA GAMMA SOCIETY ALPHA CHAPTER GRANT-IN-AID. — A $250 grant-in-aid to a woman candidate for the 1st class diploma who has evidenced academic ability and who shows promise of making a contribution to the teaching profession. Applications must be submitted by August 15.*

FRUEHAUF TRAILER BURSARY FUND. — The Fruehauf Trailer Company has established a bursary fund for the purpose of aiding Physical Education students in the intermediate and final year of the Faculty of Education to complete their courses. No applications necessary.

I.O.D.E. BURSARIES. — The Municipal Chapter I.O.D.E. offers two bursaries $350 and $200, tenable in the Faculty of Education. Awarded by a committee of the Chapter on scholarship and need. Apply to the Educational Secretary, The Municipal Chapter of Montreal, I.O.D.E., 5475 Côte St. Antoine, Montreal 260, P.Q.

KAY KERRY CHAPTER I.O.D.E. BURSARY. — A bursary of $300 offered to a student resident in Pointe Claire or Beaconsfield, with preference given to students in the Faculty of Education. Apply to Chairman, Bursary Committee, Kay Kerry Chapter, I.O.D.E., 233 Allancroft Crescent, Beaconsfield, Que., not later than March 1.

**Apply to Student Aid Office.*

KIWANIS CLUB OF LAKE OF TWO MOUNTAINS BURSARY. — $150, tenable by a student in the Faculty of Education residing in the counties of Vaudreuil-Soulanges including Ste. Anne de Bellevue and Senneville. Apply to the Secretary, Kiwanis Club of Lake of Two Mountains, P.O. Box 96, Dorion, Quebec, before September 30.

MONTREAL WOMEN'S CLUB ELIZA REID MEMORIAL BURSARY. — Founded in 1927 by the Montreal Women's Club in memory of its First President, Mrs. Robert Reid, to provide a Bursary for a student needing financial assistance to continue his studies. Preference will be given to students in the Faculty of Education.*

PROVINCIAL ASSOCIATION OF PROTESTANT TEACHERS BURSARIES. — A number of bursaries offered on the basis of scholarship and need. Apply to the Executive Director, Provincial Association of Protestant Teachers, 245 Hymus Blvd., Pointe Claire 730, P.Q.

JANET MORISON ROBB BURSARY FOR WOMEN. — The income for one year from an endowment of $2,000, established by the late Hon. James A. Robb, formerly M.P. for Chateauguay-Huntingdon and Minister of Finance, Canada, in memory of his daughter, Janet Morison Robb, wife of Hugh Harvie Donald. Preference is given to women students resident in either of the counties of Chateauguay-Huntingdon, or Beauharnois, who are daughters of widows or widowers of limited or moderate means, or daughters of disabled Canadian soldiers who have seen active service. Open to students in the Faculty of Agriculture, the School of Food Science, or the Faculty of Education and awarded by the Faculty of Agriculture Scholarships Committee. Students in the Faculty of Education should apply to the Student Aid Office before August 15.

VERDUN WOMEN'S CLUB HARRIET MORRIS MEMORIAL BURSARY. — Value $100, tenable for one year. Awarded in memory of the co-founder of the Club, Harriet Morris, on the basis of academic record, character, and financial need, to a woman student entering the Faculty of Education who is a graduate of Verdun Protestant High School.

4.4.3 MEDALS

GOLD MEDAL. — Awarded to the student demonstrating the highest general proficiency throughout the B.Ed. (P.E.) course.

GOVERNOR-GENERAL'S MEDAL. — Presented by His Excellency the Governor-General of Canada. Awarded to the teacher-in-training with the highest standing in the Art of Teaching.

STRATHCONA TRUST MEDALS. — Awarded to the man and the woman standing highest in the initial year and to the man and the woman standing highest in the intermediate year of the Physical Education course.

4.4.4 LOAN FUNDS

NATIONAL COUNCIL OF JEWISH WOMEN LOAN FUND. — Established for the purpose of aiding students in the Faculty of Education to complete their courses.*

PROVINCIAL ASSOCIATION OF PROTESTANT TEACHERS LOAN FUND. — Loans of not more than $300 per annum with priority to students applying for the first time and to those not eligible for other bursaries. Loans repayable when the student begins teaching. Apply to the P.A.P.T., Professional Loans Committee, 245 Hymus Blvd., Pointe Claire 730, P.Q.

ST. GEORGE'S LOAN FUND. — Established in 1955 by a donation of $500 to assist students registered in the Faculty of Education.*

STUDENT TEACHERS' SOCIETY LOAN FUND. — Established in 1954 by a donation from the Student Teachers' Society to assist students registered in the Faculty of Education. Additional donations supporting this fund have been received from the following sources: I.O.D.E. Ethel Walkem Joseph Fund, Gardner Kneeland Fund, Milton Hersey Fund, Dr. S. P. Robins Fund, and J. C. Wilson Fund.*

4.5 OPEN TO STUDENTS IN THE FACULTY OF ENGINEERING (Including Architecture)

For Entrance Scholarships, see Section 3.
For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.5.1 GENERAL REGULATIONS IN ENGINEERING

1. Only full-time students are eligible for scholarships.
2. Scholarships will be awarded only if an adequate standard is attained.

**Apply to Student Aid Office.*

4.5.2 SCHOLARSHIPS

AMERICAN SOCIETY FOR METALS SCHOLARSHIP. — $600 offered by the Montreal Chapter of the American Society for Metals to a student in any year of the Metallurgical Engineering course. Awarded by the Scholarships Committee of the Faculty of Engineering on the recommendation of the Department of Metallurgical Engineering on the basis of academic standing, engineering promise, and financial need.

BAYLIS SCHOLARSHIP. — Value $290, founded in memory of Mr. and Mrs. James Baylis of Montreal. Awarded to a student entering the Second year who is in need of financial assistance and will be renewed if the student maintains satisfactory standing. Apply through the Dean of the Faculty.

CANADIAN PITTSBURGH INDUSTRIES SCHOLARSHIP. — $250, awarded to a student of the School of Architecture submitting the best solution of a design problem in Design and Construction IV in which glass is a major item. The judges are a committee of staff of the School of Architecture.

E. G. M. CAPE AND COMPANY (1956) LTD. AWARD. — $250, for a student who has completed the First year of the Civil Engineering course and is entering the Second year. Awarded by the Scholarships Committee of the Faculty of Engineering on the basis of high scholastic standing, activity in extra-curricular work and student engineering society affairs, and construction engineering promise. All other factors being equal financial need will be considered.

CENTRAL MORTGAGE AND HOUSING CORPORATION TRAVELLING SCHOLARSHIPS. — Awarded annually to an undergraduate planning to enter the B.Arch. program. One student in each Canadian School of Architecture is chosen on the basis of scholastic achievement and marked interest in housing as shown by his work. The group travels to selected locations in Canada, the U.K. or the U.S.A. for a period of four to five weeks to study examples of residential environment and housing design. The tour is conducted by a member of staff of one of the Schools. Travelling expenses are paid by the scholarship fund. Following the tour, each student will be employed at the Head Office of C.M.H.C. for the balance of the summer at normal rates of pay. A paper upon the summer's tour and work must be submitted. On receipt of the paper by C.M.H.C., the student will receive $500. These awards are available only to Canadian citizens or landed immigrants in Canada. Applications must be received by the Director of the School by March 1. Selection is made by a Committee of Staff of the School of Architecture.

COMINCO SCHOLARSHIPS. — To assist in ensuring a continuing supply of qualified graduates in fields vital to industry in Canada, Cominco Ltd. has established a program of twenty-four scholarships at specified Universities in Canada to assist students in financing the final two years of their undergraduate course. Two of these scholarships are awarded annually in the form of two-year awards of $800 each per year at McGill University by the University Scholarships Committee upon the recommendations of the Departments concerned. Open to students who in the fall will enter the penultimate undergraduate year of a course leading to a degree in Honours Geology, Chemical Engineering, Geological Engineering, Mining, Mineral Engineering, Mechanical Engineering, Metallurgy, Metallurgical Engineering, Soil Science, or Agronomy. Renewals for the second year will be subject to attainment of academic standards satisfactory to the University Scholarships Committee.

CYANAMID OF CANADA LIMITED SCHOLARSHIP. — Value $600, established by Cyanamid of Canada Limited for a student whose scholastic standing and attendant attributes make him worthy of financial assistance. Awarded by the Scholarships Committee of the Faculty of Engineering, with preference being given to students in Chemical Engineering.

SIR WILLIAM DAWSON SCHOLARSHIPS IN METALLURGY. — A research and teaching graduate award of $1,800, or one or more undergraduate awards totalling $1,800, in the Department of Metallurgical Engineering, endowed in memory of the late Sir William Dawson, Principal of McGill University from 1855 to 1893. If, in any particular year, the Department has no candidate and for that same year the Department of Mining Engineering and Applied Geophysics has a suitable candidate for whom no fellowship is available this fellowship shall become available to the Department of Mining Engineering and Applied Geophysics.

DOW CHEMICAL OF CANADA SCHOLARSHIP. — $500 for a student in the final year of Chemical Engineering, awarded by the Scholarships Committee of the Faculty of Engineering on the recommendation of the Chairman of the Department of Chemical Engineering, subject to the following conditions: the student (1) must have a sincere interest in the Chemical Industry; (2) must be in the upper half of the class; (3) must demonstrate some leadership in extra-curricular activities; (4) must be "personable"; (5) must not hold another scholarship.

GEORGE HERRICK DUGGAN MEMORIAL SCHOLARSHIPS. — (See Section 3.2.)

NEVIL NORTON EVANS SCHOLARSHIP. — Value $200, established in 1937 by graduates of the Faculty of Applied Science (Engineering) to commemorate the work of Professor Nevil Norton Evans, formerly Professor of Chemistry. Open to students in Engineering who show outstanding ability in Chemistry. Awarded by the Faculty of Engineering and the Department of Chemistry.

R. P. D. GRAHAM SCHOLARSHIPS AND MEDAL. — Endowed by former students of Dr. R. P. D. Graham, Professor Emeritus of Mineralogy, and available to students entering an intermediate year or the Final year of the B.Sc. course and to students entering the Second or Third year of the Mining Engineering course. Awarded by the University Scholarships Committee upon recommendations of the chairmen of the Departments of Geological Sciences and Mining Engineering and Applied Geophysics. A bronze medal bearing a likeness of Professor Graham is given to the most highly qualified student receiving one of these awards.

THOMAS LEEMING HARRISON AWARD. — $250, for a student who has completed the Second year of the Civil Engineering course with high scholastic standing and who is entering the final year. Awarded by the Scholarships Committee of the Faculty of Engineering on the recommendation of the Chairman of the Department of Civil Engineering and Applied Mechanics.

WILLIAM HENRY HOWARD SCHOLARSHIPS. — Three scholarships of $900 each bequeathed in 1955 by the late Mrs. Florence P. Howard in memory of her husband. Open to undergraduate and graduate students in Metallurgy, Chemical Engineering and Geology. Awarded and renewable by the University Scholarships Committee upon the recommendations of the Departments concerned for scholastic ability and general promise.

INCO PARTICIPATING SCHOLARSHIPS. — The International Nickel Company of Canada, Limited, provides annually fifty awards at Canadian universities to students who in the fall will enter the penultimate undergraduate year of a course leading to a degree in Chemistry, Geology (including Geophysics and Geochemistry), and Chemical, Civil, Electrical, Mechanical, Metallurgical and Mining Engineering. Each award covers tuition fees plus a grant of $300 for miscellaneous expenses and a grant-in-aid of $500 to the department. Recipients may also request to undertake a summer orientation program with the Company in operations allied to their field of study. Renewed for one additional year provided student satisfies the requirements for the award. Students must be recommended by the department, and no more than two applications will be considered from each department of any university. Further information may be obtained from the Registrar's Office. Applications must be submitted by January 15.

IRON ORE COMPANY OF CANADA SCHOLARSHIPS. — Two scholarships of $500 each, open to students entering the Second or Third year in Mining, Metallurgical, Electrical, Mechanical, Civil, Chemical or Geological Engineering. Awarded by the Scholarships Committee of the Faculty of Engineering on the basis of academic ability, personality, need, and general promise.

JENKINS BROS., LTD., SCHOLARSHIP. — $200, open to all Engineering students entering the Third year in September and awarded on the basis of academic standing and personality.

JOHNSON WAX SCHOLARSHIP. — Total value of $2,400 ($800 a year for three years), awarded each year to a student who is entering the First year course in Chemical Engineering. Awarded by the Faculty of Engineering and is renewable until the holder graduates provided his or her academic standing is sufficiently high. Awarded mainly on the basis of academic standing but general qualifications for the engineering profession and need for financial help are also considered. No applications necessary.

HARRY KRASHINSKY SCHOLARSHIP. — Value $1,000, established by the Corporation of Engineers of Quebec for Québec students finishing their penultimate year in Engineering. Applicants must submit a curriculum vitae, which should emphasize past and present activities in university and community affairs, and an essay not exceeding 500 words on the theme "The Role of the Engineer in the Community". Applications must be submitted by February 1. For further information apply to Registrar's Office.

FREDERIC J. LE MAISTRE AWARD. — Value $200, awarded annually to a worthy student in the penultimate year of the undergraduate program in Chemical Engineering. Awarded by the Faculty Scholarships Committee on the recommendation of the Department of Chemical Engineering.

H. M. MACKAY MEMORIAL SCHOLARSHIP. — Value $300, established in 1932 as a memorial to the late Henry M. Mackay, formerly Dean of the Faculty of Engineering. Awarded by the Faculty Scholarships Committee to a Canadian citizen or landed immigrant entering the First year in Engineering on the results of the D.E.C. examinations or equivalent.

MR. AND MRS. T. R. McLAGAN SCHOLARSHIPS. — Two awards covering tuition fees for outstanding students entering the final year of Electrical Engineering and Mechanical Engineering (one in each department) who are judged to be the best in terms of academic performance, leadership and citizenship. In cases where two or more students are judged equal on this basis, the financial needs of the candidates shall be considered and preference given to the student whose need is greatest.

MONTREAL WOMEN'S AUXILIARY OF THE CANADIAN INSTITUTE OF MINING AND METALLURGY SCHOLARSHIP. — Value $600, open to undergraduate or graduate students in Geology, Metallurgical Engineering, Mining Engineering, or allied subjects.

SCHOLARSHIPS

QUEBEC IRON AND TITANIUM CORPORATION SCHOLARSHIPS. — Two scholarships of $500 each open to students who have completed their First and Second years in Metallurgical Engineering at McGill University. Further information may be obtained from the Chairman of the Department of Metallurgical Engineering.

PROVINCE OF QUEBEC DEPARTMENT OF NATURAL RESOURCES SCHOLARSHIPS. — The Department of Natural Resources of the Province of Quebec offers bursaries to enable students to take a university course in mining engineering or metallurgical engineering. Their maximum annual value is $650 for a student who lives away from home in order to attend the university, and $400 for a student who lives at home. Candidates must be Canadian who have lived for at least five years in the Province of Quebec. Further information may be obtained from the Secretary, Scholarships Committee, Quebec Department of Natural Resources, Parliament Buildings, Quebec, Que. Also open to graduate students in Metallurgy, Mining, Engineering, and Geology.

GORDON SPROULE MEMORIAL SCHOLARSHIP. — $600, offered by the Montreal Chapter of the American Society for Metals to a student in the penultimate year of the Metallurgical Engineering course. Established in memory of Gordon Sproule, a member of the staff of the Department of Metallurgical Engineering from 1918 to 1953, in appreciation of his ability and his many services to the Society. Awarded by the Scholarships Committee of the Faculty of Engineering on the recommendation of the Department of Metallurgical Engineering on the basis of academic standing, engineering promise, and financial need.

UNIVERSITY SCHOLARSHIPS (see Section 4.1).

WELDON AWARD. — Value $500, established by a bequest from the late Richard Laurence Weldon. Awarded by the Faculty Scholarships Committee on the recommendation of the Department of Mechanical Engineering.

STUART ALBERT WISDOM MEMORIAL SCHOLARSHIP. — Value $400, established in 1953 by Mrs. Stuart Albert Wisdom as a memorial to her late husband (B.Sc. (Mining and Metallurgy), McGill '09), and to commemorate his outstanding contributions to the field of metallurgy and, in particular, his invention of the process for the manufacture of acetylene black. Awarded by the Faculty Scholarships Committee on the recommendation of the Department of Metallurgical Engineering to a student entering the Third year of Metallurgical Engineering who has shown high scholastic ability and engineering promise.

ROY M. WOLVIN MEMORIAL SCHOLARSHIPS AND BURSARIES. — Two scholarships of $375 each, and a number of bursaries are given by Mrs. Roy M. Wolvin in memory of her husband. One scholarship is restricted to men undergraduates in the Faculty of Enginering, which is awarded by the Faculty Scholarships Committee. The other scholarship is restricted to women undergraduates in the Faculty of Arts, the Faculty of Science or the Faculty of Management, and is awarded by the University Scholarships Committee upon recommendations of the faculties concerned. The bursaries are open to students in any undergraduate faculty who have a good academic record and need financial assistance. Apply for bursaries to the Student Aid Office.

4.5.3 BURSARIES

BECHTEL FOUNDATION OF CANADA BURSARIES. — Bursaries of not less than $300 each for students in the Faculty of Engineering. The $1,200 annual gift may be divided between two or four students, two of whom must be entering the First year.*

ROBERT BRUCE BURSARIES. — Several bursaries of $100 each are open each year to "young men and women of promising abilities but of straitened circumstances in Arts, Science, or Engineering."*

A. F. BYERS BURSARY. — $300, awarded to a student in Engineering with a good academic record who needs financial assistance. Renewable annually until the holder graduates if he maintains a satisfactory academic standard and still needs financial help. Apply to the office of the Dean.

CANADIAN TITANIUM PIGMENTS LIMITED BURSARIES. — Open to Canadian students in any year of the Faculty of Engineering or the Faculty of Science and awarded on the basis of academic merit and financial need.*

BURSARY OF THE CORPORATION OF QUEBEC ENGINEERS. — $500, tenable by a student in the Second or Third year of the Faculty of Engineering, and awarded by the Faculty.

DOMCO INDUSTRIES LIMITED BURSARY. — $250, for a student in Architecture who is in financial need and whose work shows talent.*

DOMTAR BURSARY. — $100, established by Domtar Construction Materials Limited, and awarded to a needy student in the School of Architecture.*

**Apply to Student Aid Office.*

DOUGLAS TUTORIAL BURSARIES. — The late Dr. James Douglas, who was a member of the Board of Governors, provided for ten or more tutorial bursaries of approximately $100 per annum in the Faculty of Engineering. These bursaries carry the obligation of giving tutorial instruction equivalent to one evening a week and the circumstances of the applicants as well as their academic standing are considered. Students in the Second and Third years of Engineering are eligible. Apply in writing to the Dean's Office on or before October 15.

HON. ROBERT JONES BURSARY. — One or more bursaries not exceeding $250 each in any one year are granted to needy students in the Faculties of Arts, Science, or Engineering.*

RICHARD S. LEA TUTORIAL BURSARIES. — The late Mrs. Wanda Lea, widow of the late Richard S. Lea, Consulting Engineer and graduate in Applied Science of McGill University, provided a fund of $5,000, the revenue of which provides two bursaries of $100 per annum given to suitable students in their last two years of Engineering, with the obligation of giving tutorial instruction equivalent to one evening a week. Apply in writing to the Dean's Office on or before October 15.

CHARLES MICHAEL MORSSEN BURSARY FUND. — Established by Mrs. C. Michael Morssen in memory of her husband, Charles Michael Morssen. The revenue from the fund to be used in assisting worthy students in any year of the Faculty of Engineering. Awarded by the Scholarships Committee of the Faculty of Engineering on the basis of academic record and financial need of the recipients.

SEPARATOR ENGINEERING LIMITED BURSARY. — A bursary of $200, open to undergraduate students enrolled in Chemical, Mechanical or Metallurgical Engineering. Awarded by the Scholarships Committee of the Faculty of Engineering on the basis of financial need and academic standing.

STANDARD CHEMICAL BURSARY. — An annual bursary of $250 awarded to a Canadian student, without restriction as to national background, language, colour or religion, preferably in an upper year of Chemical Engineering, who requires financial assistance. The award will be made by the Student Aid Office.*

EDWARD VOLCKMAR BURSARY FUND. — Established in 1972 by Miss Grace H. Prescott in memory of Edward Volckmar. Awarded annually to a student in need in the Faculty of Engineering. The bursary may be renewed until graduation.*

GORDON WEBBER BURSARIES. — Established by a bequest of the late Professor Gordon Webber, together with a number of donations from his former students, for needy students in the School of Architecture.*

For bursaries open to undergraduates in all Faculties, see Section 4.1.

4.5.4 PRIZES

BRITISH ASSOCIATION PRIZES. — Two book prizes of $40 and $20, awarded to the students obtaining the highest, and the second highest aggregate marks in the First year sessional examinations in Calculus and Mechanics.

CANADIAN CONSTRUCTION ASSOCIATION PRIZE. — Each year the Dean of the Faculty of Engineering selects the best technical paper dealing with some phase of construction work for submission to the national Robert Leggett Award competition. The competition is open to all senior undergraduate students of civil, mechanical or electrical engineering. The University's submission automatically receives a $50 prize and an engineer's handbook. The national competition prizes are $250, $150 and $75 plus handbooks.

CANADIAN INSTITUTE OF MINING AND METALLURGY PRIZES. — Two prizes, $200 and $100, for the best and second best technical paper prepared by undergraduates before receiving a Bachelor's degree on a subject appropriate to any one of the Institute's Technical Divisions, namely Coal, Geology, Industrial Minerals, Metallurgy, Metal Mining, and Petroleum and Natural Gas. Papers should be submitted to the Canadian Institute of Mining & Metallurgy, 1117 St. Catherine St. W., Montreal, Quebec, before January 15.

CORPORATION OF QUEBEC LAND SURVEYORS PRIZE. — $25, open to students in Civil Engineering and awarded at the end of the Second year by the Corporation to the student obtaining the highest standing in the subjects of the undergraduate courses in engineering comprising Surveying, up to the end of the Second year.

VICTOR E. DAWSON MEMORIAL BOOK PRIZE. — $85 to the best student entering the final year in the program of Mining Engineering and Applied Geophysics.

ENGINEERING INSTITUTE OF CANADA PRIZE. — $100, awarded to the student member of the Institute in the penultimate year whose standing, together with his activities in student engineering organizations, or in the local branch of a recognized engineering society, is, in the opinion of the Faculty, most meritorious.

Apply to Student Aid Office.

SCHOLARSHIPS

ASSOCIATE SECTION, MONTREAL BRANCH, ENGINEERING INSTITUTE OF CANADA PRIZES. — Two prizes, $50 and $25, for the best and second best papers in any branch of engineering presented at the Annual Students' Night sponsored by the Student Guidance Committee. Details may be obtained from the Faculty representative of the Engineering Institute of Canada.

H. L. FETHERSTONHAUGH BOOK PRIZE. — Established in memory of the late H. L. Fetherstonhaugh, M.C., F.R.A.I.C., F.R.I.B.A., R.C.A., a former member of staff in the School of Architecture. Awarded annually by the School of Architecture to the student with the highest standing in the course Professional Practice.

ROBERT FORSYTH PRIZE IN CIVIL ENGINEERING. — $100, bequeathed by the late Miss Jeanie Forsyth, and awarded, if the examiners so recommend, to a "worthy and needy" student of the graduating class who secures high standing in the subjects of Theory of Structures and Structural Design.

JAMES DICKIE HALL PRIZES. — Two prizes of $250 each, one in Mining and one in Metallurgy, established by Oliver Hall in memory of his son, James Dickie Hall, lost near Cannes in June 1944, in an air battle between four R.C.A.F. and more than ninety enemy planes. Open to students entering the Second or Third year of the above courses and awarded for the best technical paper in each department. Not awarded unless the papers are of high quality.

INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS PRIZE. — Two prizes of $25 and $15, offered to students of McGill by the Montreal Section of the Institute of Electrical and Electronics Engineers to outstanding students in the Second or Third year in Electrical Engineering upon recommendation by the Department.

MURDOCH LAING PRIZE. — $625, for the design of a medium cost city house, established by the late Mrs. Florence B. Laing in memory of her son (formerly a student in the School of Architecture) who was killed at Courcellette in 1916 while serving with the 24th Canadian Infantry Batallion. Awarded in a competition held during the summer prior to entering the B.Arch. program.

DR. W. B. LEWIS PRIZE (see Section 4.1.2).

CHESTER MACNAGHTEN PRIZES (see Section 4.1.2).

McCHARLES PRIZE. — $1,000, gift of the late Aeneas McCharles, for the discovery of improved methods of treating Canadian ores or minerals, for the development of new life-saving devices in the power and light industry, or for notable achievement in scientific research in any useful practical line. Open to any Canadian. For further information apply to the Registrar's Office.

R. G. K. MORRISON PRIZE. — An annual prize of $50 awarded to the student obtaining the highest marks in "Behaviour of Rock Structures" in the final year of Mining Engineering and Applied Geophysics.

JOHN BONSALL PORTER PRIZE. — $40, awarded annually by the Department of Mining Engineering and Applied Geophysics for outstanding performance.

QUEBEC ROAD BUILDERS ASSOCIATION PRIZE. — A prize, or prizes, totalling $150, offered to the student or students submitting technical papers, as part of their regular assignments, on a topic related to the soil engineering aspects of road building.

LOUIS ROBERTSON PRIZE. — Founded by Mr. and Mrs. John A. Robertson, in memory of their son, John Louis Armour Robertson, who was killed in World War I on July 18, 1916. A book prize for the student obtaining the highest standing in History of Architectural Theory II in the School of Architecture.

SCOTT EXHIBITION. — Book prize of $75, founded by the Caledonian Society of Montreal, to commemorate the centenary of Sir Walter Scott, and a British Association book prize of $50, awarded to the students obtaining the highest, and the second highest aggregate marks in the Second year College Equivalent Program sessional examinations in Mathematics, Mechanics, Descriptive Geometry, and Physics.

SOCIETY OF CHEMICAL INDUSTRY MERIT AWARDS. — Three Merit Awards consisting of a gold key and a year's subscription to "Chemistry and Industry" awarded to the three graduating students who achieve the best results in: (a) the B.Sc. course with Honours in Chemistry, or Joint Honours in Chemistry and some related science; (b) the B.Eng. course in Chemical Engineering; (c) the Honours course in Biochemistry. Awarded by the Scholarships Committees of the Faculty of Science and the Faculty of Engineering on the recommendations of the Chairmen of the Departments concerned.

PHILIP J. TURNER PRIZE. — $175, presented by A. B. Darbyson, B.Arch. '15, to the student in the School of Architecture obtaining the highest standing in Design and Construction II.

4.5.5 MEDALS

ERNEST BROWN GOLD MEDAL. — Founded by the late Mrs. Ernest Brown in 1952 in memory of her husband the late Ernest Brown, M.Sc., M.Eng., D.Eng., Dean of the Faculty of Engineering from 1930 to 1942. Awarded to the student in the graduating class in any of the Departments of Engineering showing the highest ability throughout his undergraduate course. While academic standing is of primary importance, account is also taken of qualities of leadership and ability to work with others.

BIRKS GOLD MEDAL. — Awarded by Henry Birks & Sons (Montreal) for the best graduating student in Metallurgical Engineering.

BRITISH ASSOCIATION MEDAL. — Founded by the British Association for the Advancement of Science in commemoration of its meeting held in Montreal in 1884. Open for competition to students of the graduating calss in each of the Engineering courses, and, if the examiners so recommend, is awarded to the student taking the highest position in the final examinations.

CHARLES MICHAEL MORSSEN GOLD MEDAL. — Established by Mrs. C. Michael Morssen in memory of her husband, Charles Michael Morssen, a benefactor of the Faculty of Engineering for many years. Awarded to a student of high academic standing and exceptional engineering promise in the graduating class in any of the Departments of Engineering.

ROYAL ARCHITECTURAL INSTITUTE OF CANADA MEDAL. — Offered to a student who has completed the B.Arch. program, has obtained high standing throughout his course, and who gives promise of being an architect of distinction after graduation. Selection is made by a committee of staff of the School of Architecture.

4.5.6 LOAN FUNDS

BENNETT EDUCATIONAL FUND. — The Engineering Institute of Canada makes loans from the fund to Engineering students (normally only in upper years).*

CANADIAN INSTITUTE OF MINING AND METALLURGY MONTREAL BRANCH LOAN FUND. — Established in 1958 by the Montreal Branch of the Institute to provide loans to undergraduate or graduate students in Geological Sciences, Metallurgical Engineering and Mining Engineering.*

J. M. FAIRBAIRN LOAN FUND. — Bequeathed in 1967 by the late Mrs. J. M. Fairbairn for loans for students in the Faculty of Engineering.*

GEORGE HENRY FROST FUND. — Founded by the late G. H. Frost, B.Sc. '60, to aid students in the Faculty of Engineering who require financial assistance. When making loans the applicants' academic standing is considered.*

BERNARD LEVITON LOAN FUND. — Established by Mr. Sidney Ender in memory of the late Bernard Leviton for students in the Faculty of Engineering with preference given to students in Electrical Engineering.*

ISABELLA McLENNAN BURSARY AND LOAN FUND. — A rotating fund for students in Architecture to assist in financial emergencies.*

MONTREAL WOMEN'S AUXILIARY OF THE CANADIAN INSTITUTE OF MINING AND METALLURGY LOAN FUND. — Founded for the assistance of Engineering students in Mining, Metallurgy, Geology, and allied subjects.*

SCIENCE '25 MEMORIAL LOAN FUND. — Established in 1955 by the Class of Science '25 for Engineering undergraduates.*

WADDELL LOAN FUND. — Founded by the late J. B. Waddell. Loans are made under the same conditions as apply to the George Henry Frost Fund, but are available also to graduate students.*

WICKENDEN LOAN FUND. — Established in 1958 by Mr. John Wickenden to aid students in Engineering with better than average standing in previous year.*

OTHER LOAN FUNDS (see Section 4.1).

4.6 OPEN TO STUDENTS IN THE FACULTY OF LAW

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.6.1 SCHOLARSHIPS

ALEXANDER SCHOLARSHIP. — $100 bequeathed in 1950 by the late Maurice Alexander, C.M.G., K.C., of London, England, as a token of esteem for the late Sir Charles Peers Davidson, former Professor of Criminal Law at McGill. Awarded by the Faculty.

**Apply to Student Aid Office.*

SCHOLARSHIPS

EDWIN BOTSFORD BUSTEED SCHOLARSHIP. — Value $1,200 and can be used to supplement funds for graduate studies already received from other sources. Bequeathed by the late Mrs. Edwin Botsford Busteed in memory of her husband, Edwin Botsford Busteed, K.C., B.A., B.C.L. Awarded by the Faculty to an applicant, for graduate research on some subject connected with the law of Quebec and approved by the Faculty.

JOSEPH COHEN, Q.C., AWARD. — This award of $315 is made to a deserving student selected by the Faculty.

MAURICE GOLDENBERG MEMORIAL SCHOLARSHIP. — Value $225, in Government, Constitutional Law, or Public Administration, established by Senator H. Carl Goldenberg, Q.C. in memory of his father, the late Maurice Goldenberg. Awarded by the University Scholarships Committee to the best candidate amongst those nominated by the Faculty of Arts and the Faculty of Law.

CHIEF JUSTICE R. A. E. GREENSHIELDS MEMORIAL SCHOLARSHIPS. — Three scholarships covering tuition fees bequeathed by the late Mrs. R. A. E. Greenshields in memory of her husband, the late Chief Justice Greenshields, D.C.L., LL.D., for many years professor of Criminal Law and Dean of the Faculty of Law. Awarded to students entering the Faculty of Law and renewable in each of the two upper years leading to the Bachelor of Civil Law degree, if satisfactory conduct, and at least a high Second Class standing are maintained, or at the discretion of the Faculty may be renewed for other reasons. Candidates must satisfy the regular requirements for admission to the Faculty, must have a standing of at least high Second Class, and preferably First Class at the University or Institution which they previously attended, and must furnish evidence of the need for financial assistance to enable them to study law. Fluency in both English and French is not essential, but preference is normally given to applicants with a good working knowledge of both languages. Apply to the Faculty.

LYON WILLIAM JACOBS, Q.C., AWARD. — Value $100 a year. Originally established in 1957 by donations totalling $500, and increased in 1962 to $2,000 by Mr. and Mrs. Alvin B. Jacobs, Mrs. Sybil Jacobs Phillips, Dr. and Mrs. Morris Lieff, and Mr. and Mrs. Newman Biller, in honour of Mr. Lyon W. Jacobs, Q.C. Awarded to a Second or Third year Law student who, in the opinion of the Faculty, shows the most progress in his studies and is also in financial need.

EUGENE LAFLEUR SCHOLARSHIP. — Value $1,000, presented by the law firm of Messrs. Laing, Weldon, Courtois, Clarkson, Parsons, Gonthier & Tétrault in memory of its founder. Awarded annually to a student entering the year in which he expects to obtain the B.C.L. degree (whether pursuing a purely B.C.L. program or taking the National Program). Selection by the Faculty on the principal ground of academic excellence.

MACDONALD TRAVELLING SCHOLARSHIP. — Value $4,000. Founded by a bequest of the late Sir William Macdonald "for the purpose of enabling English-speaking Law students to take a course of studies in France," the testator "deeming it of great importance that the English-speaking members of the legal profession should be proficient in the French language." The holder is required to pursue a year's study in th Law Faculty of a French university approved by the McGill Faculty of Law. Awarded by the Faculty to a student of the graduating class, proceeding to the Bar, with first or second class honours in the final examination and who would be unable without financial help to spend a year in France. The Faculty interprets the bequest as intending that the scholarship be awarded only to students preparing for practice as advocates in the Province of Quebec. At present the scholarship must be used in the year in which it is awarded.

McGILL LAW GRADUATES ASSOCIATION SCHOLARSHIPS. — The McGill Law Graduates Association offers two scholarships, one covering tuition fees for a student entering Second year and the other for a student entering Third year. Selection is made by the Faculty of Law in conjunction with a representative of the McGill Law Graduates Association, with broad discretion on the basis of need as well as academic and other merit.

THOMAS ALEXANDER ROWAT SCHOLARSHIP. — Value $250, founded by Mr. Donald McKenzie Rowat, N.P., in memory of his brother, Lieutenant Thomas Alexander Rowat, B.C.L., who was killed in action at Lens, France, on June 28 1917. Awarded for proficiency in French and in the old French law, on conditions set by the Faculty.

THOMAS SHEARER STEWART TRAVELLING FELLOWSHIP. — Value $2,700, established in memory of the late Thomas Shearer Stewart, Q.C., B.A. 1905, B.C.L. 1908, by his widow and family. Awarded annually by the Dean to a recent graduate of the Faculty of Law for studies in Law at a University in Europe or the United Kingdom approved by the Dean. Preference is given to Canadian citizens intending to reside in Canada. Apply to the Dean of the Faculty of Law.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

WAINWRIGHT SCHOLARSHIPS AND BURSARIES. — Established by a bequest from the estate of the late Arnold Wainwright, Q.C., for many years a lecturer in the Faculty of Law and a distinguished lawyer of the Montreal Bar. Two entrance scholarships of $1,500 each for three years and $2,000 each for the fourth year. Awarded to undergraduates of promise having distinguished scholastic records registered for the B.C.L. or LL.B. degree and proceeding to the National Program. Tenable for four years if candidates maintain distinguished academic standing. In addition, two scholarships of $2,000 each are available for students who have obtained their first law degree and are entering the last year of the National Program. Wainwright scholars who show no financial need will be awarded the nominal sum of $100, the balance of moneys to be allocated as Wainwright Bursaries to meritorious students with need.

4.6.2 BURSARIES

HAROLD G. FOX EDUCATION FUND BURSARIES. — Two awards of $250 each, established for a four-year period by donations from the Harold G. Fox Education Fund. $1,000 was donated in 1972 and another $1,000 in 1973. Awarded as a bursary or bursaries to needy Law students in good standing.*

H. E. HERSCHORN BURSARY. — The Student Aid Office may award a bursary from the interest of the H. E. Herschorn Fund to a deserving student in the Third or any subsequent year of his program leading to the B.Sc., B.A., M.D.,C.M., LL.B., or B.C.L. degree.

CHARLES ALBERT NUTTING BURSARY. — Value $250. Founded in 1930 by Miss Adelaide Nutting, M.A., R.N., in memory of her brother, Charles Albert Nutting, K.C., B.C.L. 1872. Awarded to needy Law students in good standing.*

4.6.3 PRIZES

HYMAN BAKER, Q.C. PRIZE. — $100, established by the family of Hyman Baker, Q.C. to commemorate his seventieth birthday. Awarded to the student obtaining the highest standing in Bankruptcy.

CANADA PERMANENT PRIZE. — An annual prize of $100 established in 1966 by Canada Permanent, awarded to the student who receives the highest standing in the group of courses comprising Wills, Successions, Marriage Covenants and Gifts.

CARSWELL PRIZES. — A book prize of $100 for a graduating student and a book prize of $50 for a lower year student have been established by the Carswell Company of Toronto. Both prizes are awarded annually at the discretion of the Faculty.

JOHN W. COOK, K.C., PRIZE. — $575 awarded annually to an outstanding member of the graduating class in Law as determined by the Dean and Faculty on the basis of high academic standing throughout the course, participation in Faculty activities and possible postgraduate intentions.

JOHN E. CRANKSHAW PRIZE. — Established by friends of the late John E. Crankshaw, Q.C., formerly lecturer in Criminal Law at McGill, the prize consists of $300 to be applied to Bar fees, advocate's gown and any other needs. Awarded to the student who has the highest standing in Criminal Law subjects at McGill and has passed his final examination for admission to the Bar of the Province of Quebec.

MAX CRESTOHL PRIZE. — $65, established in 1959 under the Will of the late Max Nathan Zion Crestohl, Q.C. Awarded to the student who, in the opinion of the Faculty, has submitted the best written contribution to the McGill Law Journal.

JOSEPH DAINOW PRIZE. — $100, esablished by Professor Dainow, for writing in the area of Civil Law.

HAROLD G. FOX EDUCATION FUND PRIZE. — $100 annually, established in 1971 for a five year period by a donation from the Harold G. Fox Education Fund. Awarded to the student who obtains the highest standing in the course on Intellectual Property.

CHIEF JUSTICE GREENSHIELDS PRIZE IN CRIMINAL LAW. — Value $95, endowed by the late Mrs. Greenshields in 1943 in memory of her husband, the late Chief Justice Robert Alfred Ernest Greenshields, D.C.L., LL.D., for many years professor of Criminal Law and Dean of the Faculty of Law, and awarded to the member of the graduating class in Law having the highest standing in Criminal Law throughout the law program.

H. E. HERSCHORN PRIZE. — $150 established by the late Mr. H. E. Herschorn, N.P., B.A. 1911, B.C.L. 1914, to the highest ranking graduating student who intends to enter the Notarial profession.

"I.M.E." PRIZE IN COMMERCIAL LAW. — $200 to enable a student to purchase law books, established by Mr. George S. McFadden, Q.C., awarded to the member of the graduating class having the highest standing in Commercial Law throughout the program.

Apply to Student Aid Office.

SCHOLARSHIPS

JUNIOR BAR ASSOCIATION PRIZE. — A prize of $50 for the student who obtains the highest standing in Civil Procedure in the First year.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2.

DEAN IRA A. MacKAY PRIZE. — $100, established by Mr. R. deWolfe MacKay, Q.C., in memory of his father, formerly Dean of the Faculty of Arts and Science at McGill, and awarded at the discretion of the Faculty to the student obtaining the highest standing in the field of Torts throughout the program.

CHESTER MACNAGHTEN PRIZES. — See Section 4.1.2.

ADOLPHE MAILHIOT MEMORIAL PRIZE. — A prize of $25 established by Mr. and Mrs. J. N. Mailhiot, of Victoriaville, P.Q., in 1927, to be used for the purchase of law books.

PHILIP MEYEROVITCH, Q.C. PRIZE. — $100, established in 1972 by his wife and children, to commemorate his fifty years of practice before the Bar of the Province of Quebec. Awarded to the graduating student attaining the highest standing in Evidence.

MONTREAL BAR ASSOCIATION PRIZES. — A prize of $100 for the student who obtains the highest standing in Civil Law throughout the law program and $100 for the student who obtains the highest standing in Civil Procedure throughout the law program.

ALEXANDER MORRIS EXHIBITION. — Value $120, founded in memory of the late Hon. Alexander Morris, M.A., D.C.L., of Toronto, and awarded to the student who obtains the highest standing in the Second year.

LAZARUS PHILLIPS PRIZE. — $200, established by the wife and family of Senator Lazarus Phillips to commemorate his seventieth birthday. Awarded to the student obtaining the highest standing in the combined examinations in Company Law and Taxation.

QUEBEC BAR PRIZE. — $100 awarded to the winning team in the Moot Court Competition.

READING SOCIETY OF MONTREAL PRIZE. — $150, established in 1952, awarded to the student who obtains the highest standing in the First year.

BENJAMIN ROBINSON MEMORIAL PRIZE. — An annual prize of $150, established by the relatives and friends of the late Honourable Mr. Justice Benjamin Robinson, in his memory, to be awarded to the student who obtains the highest standing in the final year of the National Program leading to the degree of Bachelor of Laws (LL.B.).

LOUIS H. ROHRLICK MEMORIAL PRIZE. — An annual prize of $100, established by the associates of the late Louis H. Rohrlick, Q.C., in his memory, to be awarded to the member of the graduating class having the highest standing in Public International Law throughout the program.

MR. & MRS. SAUL TARNOFSKY AWARD. — $100 annually, established in 1971 by Mr. and Mrs. Saul Tarnofsky, and awarded by the Faculty to a First year student who has financial need.

GERALD S. TRITT, Q.C. PRIZE. — $100, established in 1961 by the family and friends of Mr. and Mrs. Tritt and awarded to the student with the highest standing in the Special Contracts course.

WAINWRIGHT RESEARCH ESSAY PRIZE. — A prize of $500, awarded for the best written contribution by an undergraduate, whether an essay or other paper and whether written as an elective or as part of a course requirement, or voluntarily. It will be awarded only if a high standard is achieved.

WILSON AND LAFLEUR (LIMITEE) AWARD. — This award of $100 is made every alternate year to a deserving First year student selected by the Faculty.

4.6.4 MEDALS

I. BALLON MEMORIAL MEDAL. — Established in 1955 by Mrs. I. Ballon in memory of her husband, the late Isidore Ballon, B.A. 1907, B.C.L. 1908, and awarded to the most outstanding student on the Board of Editors of the McGill Law Journal.

ELIZABETH TORRANCE GOLD MEDAL. — Founded in 1864 by Professor John Torrance in memory of his wife, and awarded to the student who obtains, with the highest standing throughout the B.C.L. program, his B.C.L. degree as his first Law degree at a spring convocation.

No medals, prizes or scholarships will be awarded if, in the opinion of the Faculty, there is no candidate of sufficient merit.

4.6.5 LOAN FUNDS

A. FLEMING LOAN FUND. — Established in 1954 to aid students in the Faculty of Law.*

LOUIS DE ZWIREK, Q.C., LOAN FUND. — Established in 1969 by Mrs. De Zwirek in honour of her late husband to aid students in the Faculty of Law.*

OTHER LOAN FUNDS. — For loan funds open to students in all faculties see Section 4.1.

Apply to Student Aid Office.

4.7 OPEN TO STUDENTS IN MACDONALD COLLEGE In the Faculty of Agriculture (Including School of Food Science)

For Entrance Scholarships, see Section 3.

For scholarships, bursaries and loans open to undergraduates in all Faculties, see Section 4.1.

For details of bursaries, scholarships and prizes in Agriculture and Food Science, see the Macdonald College Announcement for the Faculty of Agriculture and School of Food Science.

4.8 OPEN TO STUDENTS IN THE FACULTY OF MANAGEMENT

For Entrance Scholarships, see Section 3.

For scholarships and bursaries, open to undergraduates in all Faculties, see Section 4.1.

4.8.1 SCHOLARSHIPS

ROBERT BRUCE SCHOLARSHIP. — $100, tenable for two years, bequeathed by the late Robert Bruce, of Quebec City. Open to students in the Faculty of Arts, the Faculty of Science or the Faculty of Management and awarded for high standing in the examinations at the end of the First year. Awarded by the University Scholarships Committee upon recommendations of the faculties concerned.

ISAAC BRUCK MEMORIAL SCHOLARSHIPS. — $500, presented by the Bruck Silk Mills to provide two scholarships in the Faculty of Management. They may be held by students in the Second or Third year of the B.Com. program, and are awarded by the Scholarships Committee of the Faculty of Management upon the results of the sessional examinations.

COMMERCE 1925 AWARD. — $300, awarded by the Scholarships Committee of the Faculty of Management on the recommendation of the Dean to the student obtaining the highest marks in Accountancy at the end of the Third year of the Commerce course.

SIR WILLIAM MACDONALD SCHOLARSHIPS. — Two scholarships of $500 each, open to all students in the Second and Third years.

LADDIE MILLEN MEMORIAL SCHOLARSHIP. — Value $250, established by Mr. J. Ernest Millen in memory of his son, Laddie Millen, who was killed in action in World War I. Awarded to the student in any year in Commerce who presents the best essay on a topic in the field of Industrial Relations. The topic for the competition may be ascertained from the Dean of the Faculty of Management or the director of the Industrial Relations Centre to whom essays must be submitted on or before May 1.

PRICE WATERHOUSE & CO. AWARD. — Value $250, awarded by the Scholarships Committee of the Faculty of Management to a student in the B.Com. program completing his Second year and proceeding to his final year and planning to continue his studies with a practising firm of chartered accountants. The winner must have high standing in the Second year examinations and outstanding academic record, ability, and other qualifications. Second year Commerce students who wish to be considered should apply to the Dean of the Faculty of Management not later than May 1.

HYMAN HERBERT STEIN AWARD. — Approximately $250, in memory of the late Hyman Herbert Stein, B.Com. 1925, for an award for a student entering the Second year of the three-year Commerce Program. Awarded at the discretion of the Dean of the Faculty, and ability and financial need will be taken into consideration when making the award.

TOUCHE ROSS & CO. AWARD. — An award of $250 to a student who has completed the Second year, will be entering the final year in the B.Com. program, and who intends on graduation to qualify as a Chartered Accountant. Awarded on high standing in the Second year and on academic record, ability and personality and other characteristics considered to be suitable. Apply to the Dean of the Faculty of Management not later than May 1.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

ROY M. WOLVIN MEMORIAL SCHOLARSHIP. — See Section 4.2.2.

4.8.2 BURSARIES

AFFILIATED FACTORS CORPORATION BURSARY. — Open to deserving students in any year of Commerce.*

BESSIE PARSONS BENTLEY STUDENT AID FUND. — Established in 1959 by Mr. William Bentley in memory of the late Mrs. Bessie Parsons Bentley, for scholarships or student aid for students in the B.Com. program. Awards are made by the Student Aid Office, with the approval of the Dean of the Faculty of Management, to students whose general standing entitles them to special consideration and assistance.*

SYDNEY S. PAPPELBAUM BURSARY. — Approximately $180, in memory of the late Captain Sydney S. Pappelbaum, B.Com., 1952, open to students in Commerce who have completed Second year and are entering Third year.*

CHARLES S. C. WISDOM BURSARY. — $175, established in 1956 by the late Mrs. Stuart Albert Wisdom in memory of her late son, Charles S. C. Wisdom, a graduate of the Royal Military College, Kingston, and of the McGill School of Commerce. Awarded by the Student Aid Office in consultation with the Dean of the Faculty of Management to a deserving student in any of the last two years of the B. Com. program.*

4.8.3 PRIZES

CHERRY PRIZES. — See Section 4.2.4.

CLARKSON, GORDON & CO. PRIZE. — $100, awarded at the end of the Final year to the student who obtains the highest standing in Accounting and Auditing.

JOSEPH H. JACOBS PRIZE. — Value $90, established under the will of the late Joseph H. Jacobs, is awarded as a prize for Second year Accountacy.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2.

CHESTER MACNAGHTEN PRIZES. — See Section 4.1.2.

MONTREAL STOCK EXCHANGE AND CANADIAN STOCK EXCHANGE PRIZE. — $100, offered for an essay written by a student in the Final year of the B.Com program who is enrolled in the Investment Management course. The subject is chosen annually by the Department of Economics in consultation with the Dean of the Faculty of Management. An award is made only if the best essay is considered to be First Class. Final selection is made by the course lecturer, the Chairman of the Department of Economics, and the Dean of the Faculty of Management. Further information may be obtained from the course lecturer.

THORNE-GUNN PRIZE. — $150, awarded by Thorne, Gunn, Helliwell & Christenson to the student obtaining the highest marks in Auditing at the end of the Third year of the Commerce course.

WOMEN'S PERSONNEL GROUP OF MONTREAL BOOK PRIZE. — See Section 4.2.4.

4.8.4 MEDALS

SIR EDWARD BEATTY GOLD MEDAL. — A gold medal endowed by the late Sir Edward Beatty, former Chancellor of the University, awarded to the student in the B.Com. program with the highest distinction in Economics. Awarded, at present, on the aggregate marks for the three full year courses, Principles of Economics (or Honours alternatives), Money and Banking, and Economic Analysis (or Honours alternatives).

4.8.5 LOAN FUNDS

COMMERCIAL SOCIETY LOAN FUND. — To aid one or more students who are entering their Final year in the B.Com. program to complete their course. Loans are repayable within two years after graduation.*

MORTON J. WHITE LOAN FUND. — Established inn 1957 by a bequest from the late Morton J. White, to assist deserving students in the B.Com. program.*

OTHER LOAN FUNDS (see Section 4.1).

4.9 OPEN TO STUDENTS IN THE FACULTY OF MEDICINE

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

Academic standing and the year in which a student is enrolled are not factors influencing the eligibility for financial aid of students in the Faculty of Medicine. Financial need is the only criterion considered by the Scholarships Committee of the Faculty of Medicine.

Information concerning financial aid may be obtained from the Faculty of Medicine.

**Apply to Student Aid Office.*

4.9.1

SCHOLARSHIPS

DR. MAUDE E. SEYMOUR ABBOTT SCHOLARSHIPS. — A fund of $10,000, established in 1938 by an anonymous donation, in honour of the late Maude E. Seymour Abbott, B.A., M.D., F.R.C.P.(C), LL.D. (McGill), to commemorate her distinguished work in connection with the history of Canadian medicine, the Sir William Osler Pathological Collection, and her outstanding research in congenital cardiac disease.

The revenue of this fund provides scholarships awarded by the University to undergraduates of either sex in the Faculty of Medicine, but women are given the preference. Awards vary according to the needs of the winners. Further information may be obtained from the Dean's Office, Faculty of Medicine.

J. H. B. ALLAN SCHOLARSHIP. — $650, available to undergraduate students in any year. Awarded by the Scholarships Committee of the Faculty of Medicine on scholarship and financial need. No application required.

SIR EDWARD W. BEATTY MEMORIAL SCHOLARSHIPS FOR MEDICAL STUDENTS. — A fund of $100,000 was bequeathed by the late Dr. Henry Albert Beatty, the income from which provides two scholarships, not necessarily of equal value, awarded annually to students of either sex and of any nationality. Open to (i) students registered in the McGill Faculty of Medicine as candidates for the M.D.,C.M. degree, (ii) graduates of an accredited Faculty of Medicine registered for postgraduate degrees, (iii) graduates of an accredited Faculty of Medicine registered for a postgraduate diploma in a clinical specialty, (iv) graduates of an accredited Faculty of Medicine who are employed in a year of research as part of their residency training program. For students who hold or are working towards the McGill M.D.,C.M. the award may be held at any approved institution in Canada or abroad. For other qualified students the award must be held at McGill. The holder is expected to devote his year of tenure either to research or to some form of special training excluding the normal training towards the M.D.,C.M. and excluding any of the years of residency training required in the Diploma courses. Awarded by the Faculty of Medicine but not unless suitable candidates present themselves. Apply to the Dean's Office on the forms provided for this purpose on or before February 1 of the year in which the scholarship is to commence.

MORRIS BINZ SCHOLARSHIP. — From the bequest of the late Morris Binz, $1,000 is set aside annually for scholarships in the Faculty of Medicine.

JAMES H. CUMMINGS SCHOLARSHIPS. — Two or more entrance scholarships of at least $500 each in the Faculty of Medicine bequeathed by the late James H. Cummings. Awarded at the discretion of the Faculty of Medicine.

DR. E. M. FISHER MEMORIAL SCHOLARSHIP. — Available to undergraduate students in any year. Awarded by the Scholarships Committee of the Faculty of Medicine on scholarship and financial need. No application required.

CHARLES E. FROSST MEDICAL AWARD AND BRONZE MEDAL. — An annual award valued at $500 to be awarded to a Third year medical student who has shown the most promise in the field of Pharmacology. A bronze medal will also be presented to the winner.

SIMON AND ROSALIE HALPERN MEMORIAL SCHOLARSHIP. See page 14.

WALTER J. HOARE MEMORIAL SCHOLARSHIP. — Endowed by the late Dr. Charles W. Hoare, a graduate of McGill University, in memory of his son, Walter J. Hoare, who was killed in World War I. Open to pupils of the Collegiate Institutes of the counties of Essex, Kent and Lambton entering the Faculty of Medicine. If there are no qualified candidates in this preferred class, the scholarship may be awarded to a nominee of the Faculty of Medicine.

KEITH HUTCHISON MEMORIAL SCHOLARSHIPS. — Two or more scholarships, in memory of the late Dr. Keith Hutchison, established in the Faculty of Medicine, with a total value of $1,450 per annum, subject to adjustment at the Faculty's discretion in the light of the holder's financial needs. Tenable in any year of the course and awarded on the basis of distinguished academic standing and financial need. The holder in any one session may re-apply for the following year.

IVES SCHOLARSHIP. — Established in 1967 by a bequest of the late David Fraser Murray, M.D.,C.M., 1924. Awarded by the Scholarships Committee of the Faculty of Medicine on the basis of financial need with preference given to students from Nova Scotia, New Brunswick or Prince Edward Island.

CAMPBELL KEENAN MEMORIAL SCHOLARSHIP. — Normal value, $200 a year, established by Miss Charlotte Mildred Hagar in memory of the late Dr. Campbell B. Keenan. Tenable in the Second, Third, or Fourth year of the course in Medicine and awarded on the basis of distinguished academic standing and financial need to an applicant who intends eventually to enter surgical practice. The holder in any one session may re-apply for a subsequent session.

JAMES GRAHAME KER AND FREDERICK K. PETRIE MEMORIAL SCHOLARSHIP. — $600, awarded to the student from Eastern Ontario (Counties of Dundas, Stormont, Glengarry, Grenville, Carleton, Russell, and Prescott) or from Montreal, who in the examinations of the First year of the medical course secures the highest academic standing. The Faculty of Medicine may, however, award this scholarship to the same student during the Third and Fourth years.

JAMES O. MEADOWS AND MARIA MEADOWS AWARDS. — A bequest of $200,000 from the late Dame Maria Cowan Meadows to establish awards for undergraduates or graduates in the Faculty of Medicine for the purpose of supporting research. Preference will be given to candidates working in the field of Cancer Research, but worthy candidates working in other areas of medical or surgical research will also be considered. Apply to the Dean of the Faculty of Medicine.

ROBERT SHARWOOD MEMORIAL SCHOLARSHIP. — Normal value $500 per annum, subject to adjustment depending on the holder's financial needs. Tenable in any year of the undergraduate course in Medicine and awarded on the basis of distinguished academic standing and financial need. The holder in any one session may re-apply for the following year.

FREDERICK SMITH MEMORIAL SCHOLARSHIP. — This name is given to one University Scholarship awarded only to a student in the Faculty of Medicine.

CORINNE FAY TABAC MEMORIAL AWARD IN MEDICINE. — Established by the family and friends of the late Corinne Fay Tabac, in her memory, for the support of established investigators doing research closely allied to the study of Hodgkins Disease. Awarded annually by the Postgraduate Awards Committee of the Faculty of Medicine.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.9.2 BURSARIES

BELLAM MEMORIAL BURSARIES. — A bequest of $20,000 from the estate of the late C. F. Bellam. Awarded by the Scholarships Committee of the Faculty of Medicine on the basis of financial need. Candidates must be from Stanstead County of Quebec.

DR. BEN BENJAMIN MEMORIAL BURSARY. — Value $300, established by his sisters in memory of the late Ben Benjamin, B.A., M.D.,C.M., lecturer in the Department of Paediatrics. Awarded by the Scholarships Committee of the Faculty of Medicine on high academic standing and financial need.

JOSEPH ISRAEL BENNETT BURSARY. — A bequest by the late Joseph Israel Bennett, the interest on which is to provide a bursary to be awarded annually to a deserving student by the Scholarships Committee of the Faculty of Medicine.

BEVERLY COONER BURSARY. — $100, established by the family and friends of the late Beverly Cooner to assist a deserving student. Awarded annually by the Scholarships Committee of the Faculty of Medicine with the approval of the National Council of Jewish Women on the basis of financial need and academic standing.

CO-OPERATIVE MEDICAL SERVICES FEDERATION OF ONTARIO BURSARY. — Value, $500 for four years. To be awarded on the basis of academic standing and financial need, to a student who has completed the pre-medical years and is entering the first medical year in university, and who has been a member or whose parents have been members of a medical co-operative for at least two years. In the event of no First year student qualifying, a Second, Third, or Fourth year student may be chosen. Apply to the Dean of the Faculty of Medicine.

ANNIE DIAMOND BURSARIES. — Established in 1969 for medical students with financial need. To be awarded by the Scholarships Committee of the Faculty of Medicine. No application is required, and the awards will vary according to the needs of the recipients.

SAMUEL EIDLOW MEMORIAL BURSARY FUND. — Established for worthy medical undergraduate students with financial need. Awarded by the Scholarships Committee of the Faculty of Medicine.

CHANCELLOR FERRIER MEMORIAL BURSARY. — $250, established by Mrs. Herbert V. Lacey in memory of her great-grandfather, Senator James Ferrier, Chancellor of McGill from 1884 to 1889. Awarded by the Scholarships Committee of the Faculty of Medicine on academic standing and financial need, with preference to students from the state of Wyoming.

KINCH MEMORIAL BURSARY. — Established by Miss Dia Joyce in memory of Mr. and Mrs. C. H. Kinch to assist medical undergraduate students. Awarded by the Scholarships Committee of the Faculty of Medicine on the basis of financial need and academic standing.

G. J. PICKLEMAN BURSARY. — $100, established in 1956 and available to undergraduate students in any year. Awarded by the Scholarships Committee of the Faculty of Medicine on distinguished academic standing and financial need.

ROCHE BURSARY. — A bursary to the amount of $1,500 annually, donated by Hoffmann-La Roche Limited. Awarded by the Scholarships Committee of the Faculty of Medicine to a student (or students) in the undergraduate medical course who require financial assistance to complete their education.

SAMUEL ROSENFELD BURSARY. — Established by Mrs. Ida Rosenfeld Letovsky in memory of her late husband, Mr. Samuel Rosenfeld, for worthy medical undergraduate students with financial need. Awarded by the Scholarships Committee of the Faculty of Medicine.

REUBEN ROSS AWARD. — A bequest from the late Reuben Ross, the annual income to provide an annual award available to students in the Faculty of Medicine and awarded by the Scholarships Committee of the Faculty of Medicine on the basis of financial need.

ROSE SCHWARZ — HELEN MARCUS BURSARY. — $100, established by the family and friends of the late Rose Schwarz and the late Helen Marcus to assist a needy and deserving student who intends to devote his summer employment to Cancer Research. Awarded annually by the Scholarships Committee of the Faculty of Medicine with the approval of the National Council of Jewish Women.

BRUCE SMITH BURSARY FUND. — A bequest by the late Dr. Bruce Stewart Smith "to assist poor but worthy medical students to complete medical training at McGill University."

DR. MILTON C. AND NINA E. WILSON AWARD. — Established in 1970 by a bequest from the late Dr. Milton C. Wilson, the annual income to be available for the support of undergraduate or postgraduate students in the Faculty of Medicine who are in need of financial assistance. Awarded by the Dean of Medicine.

4.9.3 PRIZES

MR. AND MRS. J. A. BESNER PRIZE. — Approximately $250, awarded to the student obtaining the highest aggregate standing in the Third year of the medical undergraduate course.

H. S. BIRKETT MEMORIAL PRIZE IN OTOLARYNGOLOGY. — $100, established by Miss Winifred Birkett in memory of her father, the late Dr. H. S. Birkett, former Professor of Otolaryngology, for the student who in the final year has shown the best performance in Otolaryngology. In addition, a specially bound volume containing an address by Dr. Birkett on the history of medicine in the Province of Quebec and a photograph and brief biographical sketch of Dr. Birkett will be presented to the winner.

BRISTOL LABORATORIES OF CANADA BOOK PRIZE. — An annual prize of $125 in books, awarded to a Third year medical student on the basis of academic standing and financial need.

JOSEPH MORLEY DRAKE PRIZE. — (Founded by the late Joseph Morley Drake, M.D.). — Value $75 in books, awarded to the student with the highest marks in the final examination in Pathology.

ROBERT FORSYTH PRIZE. — $60, bequeathed by the late Miss Jeanie Forsyth, awarded each year to a student who, upon graduation, has shown particular ability in all branches of Surgery.

HARRY S. GROSS MEMORIAL PRIZE. — $50, bequeathed by the late Mrs. Esther B. Gross in memory of her late husband, Harry S. Gross, D.D.S. 1913, M.D.,C.M. 1921. Awarded to the student with the highest standing in Surgery in the Third year of the medical course.

JOSEPH HILS PRIZE. — (Founded by the late Dr. Joseph Hils, of Woonsocket, R.I.). — A prize of $50 in books, awarded to the student who obtains the highest marks in Pharmacology.

CAMPBELL HOWARD PRIZE IN CLINICAL MEDICINE. — $50, founded by Mrs. Campbell Howard, in memory of the late Dr. Campbell P. Howard, Professor of Medicine at McGill. Awarded to the student of the final year who has shown the most consistent excellence in his written case reports in Clinical Medicine in the Third year of the course.

F. SLATER JACKSON PRIZE. — Value $50, founded by Mr. and Mrs. H. F. Jackson in memory of their son, the late F. Slater Jackson, M.D. Awarded to the student with the highest standing in the final examinations in Histology.

CAMPBELL KEENAN MEMORIAL PRIZE IN CLINICAL SURGERY. — $50, established by Miss Charlotte Mildred Hagar in memory of the late Dr. Campbell B. Keenan. Awarded to the student in the graduating class who has shown the highest proficiency in Clinical Surgery as determined by the Chairman of the Department of Surgery. The winner of the Robert Forsyth Prize in Surgery is ineligible.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2.

CHESTER MACNAGHTEN PRIZES. — Section 4.1.2.

MONTREAL CHILDREN'S HOSPITAL CUSHING MEMORIAL PRIZE. — $100, awarded to the student with the highest standing in Paediatrics in the final year.

PRIMARY PRIZE. — A prize in books for the best aggregate standing in the subjects of the first two years.

PRIZE IN MEDICAL JURISPRUDENCE. — $100, awarded to the student who obtains the highest standing in Medical Jurisprudence.

PSYCHIATRY BOOK PRIZE. — Value $75 in books, awarded to the Third year medical student who, in the opinion of the Awards Committee of the Department of Psychiatry, submits the best essay upon a subject to be set each year.

SAMUEL ROSENFELD PRIZE. — $50, awarded to the student with the highest standing in Medical Microbiology in the Second year of the medical course.

MONA BRONFMAN SHECKMAN PRIZE. — Awarded for the highest standing in Psychiatry in the final year.

ALEXANDER D. STEWART PRIZE. — A book prize, founded by the late W. Grant Stewart (Arts 1885, Med. 1888) in memory of his brother, the late Alexander D. Stewart (Med. 1888), to be awarded to the member of the graduating class who, in the opinion of the Faculty, presents in every respect the highest qualifications to practise his profession.

J. FRANCIS WILLIAMS PRIZE IN MEDICINE AND CLINICAL MEDICINE. — $500, founded by the late J. Francis Williams, M.D., awarded to the student obtaining the highest standing in Medicine in the final year of the medical undergraduate course.

WOMEN'S PAVILION PRIZE. — A book prize awarded for the highest standing in Obstetrics and Gynaecology in the final year of the medical course. The winner of the Chipman Medal is not eligible for this prize.

4.9.4 MEDALS

WALTER CHIPMAN GOLD MEDAL. — Founded by the late Max Strean in honour of Dr. W. W. Chipman. Awarded to the student obtaining the highest aggregate standing in Obstetrics and Gynaecology throughout the medical course.

CHARLES E. FROSST BRONZE MEDAL. — See Section 4.9.1.

HOLMES GOLD MEDAL. — Founded by the Medical Faculty in 1865, in memory of the late Andrew Holmes, M.D., LL.D., sometime Dean of the Faculty. Awarded to the student graduating with the highest total of marks in the different branches of the medical curriculum. The winner has the option of exchanging this medal for a bronze and the money equivalent of the gold medal.

SUTHERLAND GOLD MEDAL. — Founded in 1878 by the late Mrs. Sutherland in memory of her husband, William Sutherland, M.D., formerly Professor of Chemistry in this Faculty. Awarded for the best examination in Biochemistry, together with a creditable examination in the primary branches.

WOOD GOLD MEDAL. — Founded by Casey A. Wood, M.D., LL.D. Awarded to the student graduating with the highest aggregate number of marks in the oral and practical examinations in the clinical subjects of the Final year. The winner of the Holmes Medal is not eligible.

4.9.5 LOAN FUNDS

MAUDE ABBOTT MEMORIAL LOAN FUND. — Established by the Federation of Medical Women of Canada and available to any woman medical student, First year interne or graduate student. Apply to the Convenor, Maude Abbott Memorial Loan Fund Committee, Federation of Medical Women of Canada, C.M.A. House, 1867 Alta Vista Drive, Ottawa 8, Ontario.

BORIGHT LOAN FUND. — Established in 1963 by a bequest from the late George H. Boright for loans to deserving medical students.*

BOSWELL JAMES LOAN FUND. — Established in 1943 by Dr. A. Boswell James and available to undergraduates and graduates.*

ALEC AND SYLVIA DOLLIN LOAN FUND. — Established in 1965 by Mr. Alec Dollin for loans for medical students.*

KELLOGG LOAN FUND. — Given by the Kellogg Foundation to provide loans up to a maximum of tuition fees in any year to students in good standing who require such assistance. The regulations and application forms are the same as for other loan funds controlled by the University.*

LACEY LOAN FUND. — Established in 1962 by a donation from Mrs. Herbert Van Devanter Lacey, Cheyenne, Wyoming, primarily for aid to medical students from the state of Wyoming but may be extended to others in accordance with the following priorities: Medical students from the state of Wyoming; Dental students from the state of Wyoming; Medical students from other states of the U.S.A.; Medical students from other countries. Loans not to exceed $700 per year each.*

OTHER LOAN FUNDS. — See Section 4.1.

Apply to Student Aid Office.

4.10 OPEN TO STUDENTS IN THE FACULTY OF MUSIC

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.10.1 SCHOLARSHIPS

ELLEN BALLON PIANO SCHOLARSHIP. — Provided by the interest on two gifts of $1,500 each made, in 1928 and subsequently, by Miss Ellen Ballon, a graduate of the Conservatorium and by the Julius Block Scholarship Fund and the Cummings Foundation Scholarship Fund. In making this award the Faculty takes into account the need as well as the ability of candidates.

MARGUERITE E. CHOQUETTE AWARD. — Established by a bequest of $5,000 from the estate of the late Miss Marguerite E. Choquette the income of which is to be awarded to a piano student who appears to have more than ordinary talent and requires financial assistance to continue his or her studies.

MADAME PAULINE DONALDA AWARD. — $666 annually, established in 1971 for a three-year period by a donation from the Opera Guild Incorporated in memory of the late Pauline Donalda. Awarded at the discretion of the Dean and the Faculty Scholarships Committee to a deserving student, or students, majoring in Voice in the Faculty of Music.

DR. D. M. HERBERT AWARD. — An annual award established in 1967 by the Baron Byng High School Graduates' Choir for a promising student enrolled in the Bachelor of Music course who is preparing to become a Choral Specialist.

ETHEL JAMIESON IVEY AWARD. — An award of $500 established in 1973 for a five-year period by the Charles H. Ivey Foundation, to be awarded to a suitable student chosen at the discretion of the Dean and Council of the Faculty of Music.

SIR WILLIAM MACDONALD MEMORIAL SCHOLARSHIPS. — Established in 1922 by the University. The interest upon the original endowment of $6,000 provides scholarships in Music. Apply to the Dean of the Faculty.

MARION MAGOR SCHOLARSHIP. — Founded in 1953 by the family of the late Mrs. R. J. Magor for students entering the upper years of the Bachelor of Music course.

MARTLET MUSIC AWARDS. — Made possible through the generosity of patrons of the Martlet Concert and Ball which took place in April 1960. Awards, ranging in value from one-third to full tuition fees, are offered to students qualifying for admission to the first or any subsequent year of either degree or diploma course in music. All awards to be granted on the basis of musical talent, academic standing and financial need. Apply to the Dean of the Faculty.

SIR WILLIAM PETERSON MEMORIAL SCHOLARSHIPS. — Established in 1921 by the University and by friends, graduates and pupils of the Faculty of Music. The interest upon the original endowment of $6,055 provides scholarships in Music. Apply to the Dean of the Faculty.

RESSLER MEMORIAL SCHOLARSHIP. — Founded in 1950 by the late Mr. H. R. Ressler for violinists.

LAURIE ROBIN SLAPCOFF MEMORIAL AWARD. — Established in June 1971 by the family and friends of the late Laurie Robin Slapcoff and awarded at the discretion of the Dean and the Faculty Scholarships Committee. The award is to be applied towards the tuition of a deserving Voice student, preferably a member of the McGill Opera Workshop and a full-time student in the Faculty of Music.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.10.2 BURSARIES

NATHALIE CLAIRE-FELDMAN MEMORIAL BURSARY. — Awarded to a student of marked ability on the double bass to be auditioned and chosen by the Faculty of Music.

FONDATION LES AMIS DE L'ART BURSARY. — $300 established as a contribution towards the costs of a complete course in music, renewable each year of the course for a student under 25 and of limited financial means.

BERNARD L. ISSENMAN MEMORIAL BURSARY. — Established by Mrs. Benjamin Shulman in memory of her late husband, Mr. Bernard L. Issenman. Awarded by the Faculty of Music to a full-time student requiring financial assistance to further his musical education.

LAKESHORE ORGANISTS BURSARY. — To assist financially a serious student or students of the organ who might otherwise have difficulty pursuing their organ studies. Preference will be given to a student from the Lakeshore area. Apply to the Dean of the Faculty.

RAYMOND LALIBERTE BURSARY. — $125, established by Mr. Raymond Laliberté, B.Mus. (Comp.) 1970, for an academically worthy student with financial need who is majoring in Composition. Awarded by the Faculty of Music.

LILY LAUTERMAN MEMORIAL BURSARIES. — Established by a bequest of approximately $8,000 from the estate of the late Miss Rose Annie Lauterman, the income of which is to provide bursaries to deserving students with financial need in the Faculty of Music.

ROMANO BURSARY. — An annual bursary of $100 in memory of Arthur Romano, formerly a teacher in the Faculty of Music at McGill, to be awarded by the Faculty of Music to a deserving student in the Woodwind Section.

UNIVERSITY BURSARIES. — Full time students studying for the Licentiate in Music or for the Bachelor of Music degree are eligible for University bursaries. See Section 4.1.

WILLIAM ARTHUR WEIR MEMORIAL BURSARY. — Established by Mr. Donald Weir in memory of his late father, Mr. William Arthur Weir, for a deserving student in the Faculty of Music. Awarded at the discretion of the Dean in consultation with the Faculty Scholarships Committee.

4.10.3 PRIZES

HECTOR BERLIOZ PRIZE. — An annual prize of $100 offered by Mr. Robert Ryker to a deserving student of orchestral instruments in the Faculty of Music.

BROTT PRIZE. — $100, established by Professor Alexander Brott for the best integrated Chamber Music Group.

DONALDA PRIZE. — Founded by a gift of $2,500 by Madame Pauline Donalda.

CONSTANCE HAMILTON MEMORIAL PRIZE. — $100, established by Professor Helmut Blume for senior students, preferably in the branch of School Music.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2.

SIR CHARLES W. LINDSAY PRIZE. — An annual prize of $25 established by the Provincial Chapter of the Quebec I.O.D.E. for a deserving student in the Faculty of Music.

CHESTER MACNAGHTEN PRIZES. — See Section 4.1.2.

CONSTANCE WILLEY PRIZE. — Established by a bequest of $1,000 by the late Mrs. Constance Willey, the annual income of which will be awarded to a piano student.

4.10.4 LOAN FUNDS

GLADYS GLASSCO MEMORIAL LOAN FUND. — For students in the Faculty of Music, established in 1954 by Mr. Gordon B. Glassco in memory of his wife. Apply to the Dean of the Faculty.

4.11 OPEN TO STUDENTS IN THE SCHOOL OF NURSING

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.11.1 SCHOLARSHIPS

ALUMNAE ASSOCIATION OF THE SCHOOL OF NURSING SCHOLARSHIP. — In memory of Dr. Marion Lindeburgh, the Alumnae Association has established a scholarship of $700, open to graduate, registered nurses who wish to study at the School of Nursing, and who meet the entrance requirements. Scholarships are also available for students in B.Sc.(N) and M.Sc.(N) programs. Applications should be submitted by June 1 to the Chairman of the Scholarship Committee, Alumnae Association, 3506 University St., Montreal.

ENTRANCE SCHOLARSHIPS (see Section 3).

ROYAL VICTORIA HOSPITAL NURSING SCHOLARSHIPS:

(a) The Mabel F. Hersey Scholarship for postgraduate study.
(b) The Emma Thomas Scholarship for postgraduate study.
(c) The Ida McGregor Scholarship for postgraduate study.
(d) The Women's Auxiliary offers bursaries for senior staff members for postgraduate study.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.11.2 BURSARIES

ALUMNAE ASSOCIATION, ROYAL VICTORIA HOSPITAL SCHOOL OF NURSING BURSARY. — Bursary of $1,000 open to graduates of the Royal Victoria Hospital School of Nursing, accepted in an approved University program. Apply before March 31 to Alumnae Office, Nurses' Home, Royal Victoria Hospital, Montreal.

ASSOCIATION OF NURSES OF THE PROVINCE OF QUEBEC BURSARIES. — A limited number of bursaries are awarded each year for post-basic study in nursing. For programs leading to the Baccalaureate degree, the amount is $1,500 and for study leading to the Master's degree, the award is $3,000. Applications should be submitted by May 15 to The Association of Nurses of the Province of Quebec, 4200 Dorchester West, Montreal 215, Quebec.

GOVERNMENT BURSARIES. — A limited number of bursaries are given by the Province of Quebec to nurses who wish to remain in the province, and who have been accepted for admission to the School.

MONTREAL GENERAL HOSPITAL BURSARIES. — The Montreal General Hospital has a limited number of bursaries available for nurses studying in the Baccalaureate and Master's programs. For further information apply to: The Director of Nursing, Montreal General Hospital, 1650 Cedar Avenue, Montreal 109, Quebec.

ST. JOHN AMBULANCE ASSOCIATION OF CANADA BURSARIES. — One or more bursaries of $1,000 from the Margaret MacLaren Memorial Fund will be awarded annually to experienced Registered Nurses for study at the Masters' level. This fund may also be used to serve the needs of student nurse applicants with preference given to those with St. John Ambulance affiliation. Applications must reach National Headquarters not later than May 1 addressed to the Chairman of Bursary Funds, 321 Chapel Street, Ottawa, Ontario. K1N 7Z2.

UNIVERSITY BURSARIES.

VICTORIAN ORDER OF NURSES FOR CANADA BURSARIES. — The Victorian Order of Nurses for Canada offers bursaries of $1,800 to nurses enrolling at a Canadian university in a diploma course or in the final year of a basic or post-basic degree program which includes preparation in public health nursing. Bursary recipients agree to work one year for the Victorian Order in any branch where their services are required. Inquiries to Victorian Order of Nurses for Canada, 5 Blackburn Ave., Ottawa K1N 8A2, Ontario.

4.11.3 PRIZES

LEXY L. FELLOWES MEMORIAL PRIZE. — An annual prize of $50 to be awarded to a student of high academic and professional achievement, in the Bachelor of Nursing Course, on the recommendation of the School.

4.11.4 LOAN FUNDS

KELLOGG FOUNDATION LOAN FUND. — Established through the generosity of the Foundation to assist graduate nurses who have unexpected expenses while registered in courses at the school. Consult the Director of the School of Nursing.

4.12 OPEN TO STUDENTS IN THE SCHOOL OF PHYSICAL AND OCCUPATIONAL THERAPY

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

ENTRANCE SCHOLARSHIPS (see Section 3).

UNIVERSITY SCHOLARSHIPS. — (see Section 4.1.1).

4.12.1 PRIZES

CANADIAN PHYSIOTHERAPY ASSOCIATION BOOK PRIZE. — Awarded to the student with the highest standing throughout the B.Sc.(Phys.Ther.) course.

THE CANADIAN ASSOCIATION OF OCCUPATIONAL THERAPISTS' AWARD. — Presented to the student with the highest standing in theory in the final year of the B.Occ.Ther. course.

QUEBEC SOCIETY OF OCCUPATIONAL THERAPISTS BOOK PRIZE. — Awarded to the student with the highest standing in practical application of Occupational Therapy throughout the B.Occ.Ther. course.

CAROL RUTENBERG-SILVER MEMORIAL AWARD. — Presented to the student with the highest standing in the final year of the B.Sc.(Phys.Ther.) course.

LOAN FUNDS. — See Section 4.1.

4.13 OPEN TO STUDENTS IN THE FACULTY OF RELIGIOUS STUDIES

For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

W. M. BIRKS AWARDS. — Three awards of $100 each to the students graduating with the best records in the B.Th., S.T.M. and M.A. (Religious Studies).

SCHOLARSHIPS

SAMUEL FINLEY MEMORIAL BURSARY. — Usually $150, available to a student enrolled in the Faculty of Graduate Studies and Research who is pursuing advanced studies in religion or theology, awarded at the discretion of the Dean of Religious Studies.

HOUSTON BURSARY. — Value $400, the bequest of Thomas Houston, for students studying for the ministry of the Presbyterian Church in Canada or The United Church of Canada, and preference is given to candidates whose mother tongue is French. Awarded by the Faculty of Religious Studies and open to students in the Faculty of Arts and the Faculty of Religious Studies.

DR. W. B. LEWIS PRIZE. — (See Section 4.1.2)

CHESTER MACNAGHTEN PRIZES. — (See Section 4.1.2)

GORDON R. STEPHEN JR. MEMORIAL BURSARY. — Established in 1968 to provide bursary assistance for students in the Faculty of Religious Studies for purposes of assisting any student who might not otherwise be able to obtain a university degree and who preferably had attended Weredale House. Awards are made by the Student Aid Office on the recommendation of the Faculty of Religious Studies.

NEIL STEWART PRIZE. — A $200 prize, established by Mr. Neil Stewart of Vankleek Hill in 1878. Awarded on the recommendation of the Faculty of Religious Studies to a student or students studying biblical Hebrew and registered in that Faculty.

UNIVERSITY SCHOLARSHIPS. — (See Section 4.1.1)

LOAN FUNDS (see Section 4.1).

Students of the Faculty of Religious Studies who are registered also in the Montreal Diocesan Theological College, in the United Theological College, or in the Presbyterian College, will be eligible for prizes, scholarships, and bursaries as announced in calendars of these institutions.

4.14 OPEN TO STUDENTS IN THE FACULTY OF SCIENCE

For Entrance Scholarships, see Section 3.
For scholarships and bursaries open to undergraduates in all Faculties, see Section 4.1.

4.14.1 GENERAL REGULATIONS IN SCIENCE

1. No applications are required. The awards are made by the Science Scholarships Committee on the basis of examination standings.

2. Unless restricted by the deed of gift or faculty regulations the awards are open to all students studying for the B.Sc. degree.

3. Normally only those students who have completed at least 30 credits in the year preceding the award will be eligible for awards.

4. Scholarships will be awarded only if an adequate standard is attained.

5. If in any university year there is not a sufficient number of candidates showing adequate merit, any one or more of the scholarships offered for competition may be given to more deserving candidates in another year.

6. In order to retain a scholarship a successful candidate must proceed regularly with a university course to the satisfaction of the Faculty.

4.14.2 SCHOLARSHIPS

MARGARET JANE ALLAN SCHOLARSHIP. — Bequeathed in 1929 to the Royal Victoria College by Mrs. Agnes W. Allan. Value $250, awarded annually to the woman student with the highest standing in the initial year of the B.Sc. course.

ROBERT BRUCE SCHOLARSHIP. — $100, tenable for two years, bequeathed by the late Robert Bruce, of Quebec City. Open to students in the Faculty of Arts, the Faculty of Science or the Faculty of Management and awarded for high standing at the end of the initial year. Awarded by the University Scholarships Committee upon recommendations of the faculties concerned.

CANADIAN ASSOCIATION OF TEXTILE COLOURISTS AND CHEMISTS (QUEBEC SECTION) SCHOLARSHIP. — $300, for the student entering the Final year with the highest aggregate standing in the penultimate year of the Honours Chemistry course. Awarded by the Scholarships Committee of the Faculty of Science upon the recommendation of the Department of Chemistry irrespective of colour, race, sex, creed, or financial need.

CHEVRON STANDARD LIMITED GEOLOGICAL SCHOLARSHIP. — $500 awarded by the Scholarships Committee of the Faculty of Science to aid an outstanding student to complete his final year in Geology or Solid Earth Geophysics. Preference given to students interested in oil exploration and production.

COMINCO SCHOLARSHIPS. — To assist in ensuring a continuing supply of qualified graduates in fields vital to industry in Canada, Cominco Ltd. has established a program of twenty-four scholarships at specified Universities in Canada to assist students in financing the final two years of their undergraduate course. Two of these scholarships are awarded annually in the form of two-year awards of $800 each per year at McGill University by the University Scholarships Committee upon the recommendations of the departments concerned. Open to students who in the fall will enter the penultimate undergraduate year of a course leading to a degree in Honours Geology, Chemical Engineering, Geological Engineering, Mining, Mineral Engineering, Mechanical Engineering, Metallurgy, Metallurgical Engineering, Soil Science, or Agronomy. Renewals for the second year will be subject to attainment of academic standards satisfactory to the University Scholarships Committee.

DOW-HICKSON SCHOLARSHIPS. — Annual value, not less than $1,000 each. Established in 1957 by a bequest from the late Dr. J. William A. Hickson and awarded to students entering the penultimate or the Final year of the Honours courses in English Literature, Philosophy or Psychology. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of the departments concerned.

GEORGE HERRICK DUGGAN MEMORIAL SCHOLARSHIPS. — See Section 3.2.

R. P. D. GRAHAM SCHOLARSHIPS AND MEDAL. — Endowed by former students of Dr. R. P. D. Graham, Professor Emeritus of Mineralogy, for students entering an intermediate year or the Final year of the B.Sc. course and the Second or Third year of the Mining Engineering course. Awarded by the University Scholarships Committee upon the recommendations of the Chairmen of the Departments of Geological Sciences and Mining Engineering & Applied Geophysics. A bronze medal bearing a likeness of Professor Graham is given to the most highly qualified student receiving one of these awards.

WILLIAM HENRY HOWARD SCHOLARSHIPS. — Three scholarships of $900 each bequeathed in 1955 by the late Mrs. Florence P. Howard in memory of her husband. Open to undergraduate and graduate students in Metallurgy, Chemical Engineering and Geology. Awarded and renewable by the University Scholarships Committee upon the recommendations of the departments concerned for scholastic ability and general promise.

INCO PARTICIPATING SCHOLARSHIPS. — The International Nickel Company of Canada, Limited, provides annually fifty awards at Canadian universities to students who in the fall will enter the penultimate undergraduate year of a course leading to a degree in Chemistry, Geology (including Geophysics and Geochemistry), and Chemical, Civil, Electrical, Mechanical, Metallurgical and Mining Engineering. Each award covers tuition fees plus a grant of $300 for miscellaneous expenses and a grant-in-aid of $500 to the department. Recipients may also request to undertake a summer orientation program with the Company in operations allied to their field of study. Renewed for one additional year provided student satisfies the requirements for the award. Students must be recommended by the department, and no more than two applications will be considered from each department of any university. Further information may be obtained from the Registrar's Office. Applications must be submitted by January 15.

FREDERIC J. LE MAISTRE AWARD. — Value $200, awarded annually to the student obtaining the highest standing in the penultimate year of the Honours Chemistry course. Awarded by the Faculty of Science Scholarships Committee on the recommendation of the Department of Chemistry.

LOGAN SCHOLARSHIPS. — Two scholarships of $200 each, one for work in Geological Sciences and the other for work in Botany or Zoology, open to men and women entering an intermediate year or the Final year of the undergraduate course. Awarded by the Faculty of Science on the recommendations of the Departments of Geological Sciences and of Biology.

SIR WILLIAM MACDONALD SCHOLARSHIPS. — Two scholarships of $500 each, open to all students entering an intermediate year or the Final year.

McGILL ALUMNAE SCHOLARSHIPS. — See Section 4.16.4.

MAJOR HIRAM MILLS SCHOLARSHIP. — $100, open to students of both sexes in any of the biological sciences including Anatomy, Biochemistry, Botany, Genetics, Physiology, Microbiology and Zoology.

ANNE MOLSON SCHOLARSHIP. — $200, open only to men and women students in the Physical Sciences proceeding from the penultimate year into the Final year. Awarded by the Faculty of Science on the recommendation of the Departments of Physics, Chemistry, and Mathematics.

PENHALLOW SCHOLARSHIP IN BOTANY. — $250, open to men and women entering an intermediate year or the Final year of the undergraduate course. Awarded by the Faculty of Science on the recommendation of the Department of Biology.

PRINCE OF WALES SCHOLARSHIP. — $150, open to students proceeding from the penultimate year into the Final year. Awarded for general distinction by the Faculty of Science on the student's complete academic record.

JANE REDPATH EXHIBITION. — Value $170, founded by the late Mrs. Redpath, to maintain an exhibition in Arts or Science. Awarded on the results of the initial year to the student with the highest average on the year's work. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of each faculty.

CARL REINHARDT SCHOLARSHIPS AND BURSARIES. — Established from the estate of the late Carl Reinhardt. To be used for scholarships or bursaries for undergraduate students in the Departments of Physics and Geological Sciences, and for scholarships or bursaries or in the support of their research for graduate students. Awards are made by the University Scholarships Committee on the recommendations of the Chairmen of the departments concerned. Any amount not used by one of the departments in any year may be taken up by awards in the other department if suitable candidates are available.

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1

ROY M. WOLVIN MEMORIAL SCHOLARSHIPS AND BURSARIES. — Two scholarships of $375 each and a number of bursaries are given by Mrs. Roy M. Wolvin in memory of her husband. One scholarship is restricted to men undergraduates in the Faculty of Engineering, which is awarded by the Faculty Scholarships Committee. The other scholarship is restricted to women undergraduates in the Faculty of Arts, the Faculty of Science, or the Faculty of Management, and is awarded by the University Scholarships Committee upon recommendations of the faculties concerned. The bursaries are open to students in any undergraduate faculty who have a good academic record and need financial assistance. Apply for bursaries to the Student Aid Office.

4.14.3 BURSARIES

ROBERT BRUCE BURSARIES. — Several bursaries of $100 each are open each year to "young men and women of promising abilities but of straitened circumstances in Arts, Science, or Engineering."*

CANADIAN TITANIUM PIGMENTS LIMITED BURSARIES. — Open to Canadian students in any year of the Faculty of Engineering or the Faculty of Science. Awarded on academic merit and financial need.*

DELTA PHI EPSILON SORORITY BURSARY. — Value $100, founded in memory of Edith Silver. — Open to a deserving woman student entering the penultimate year of the Faculty of Arts or of Science.*

HON. ROBERT JONES BURSARY. — One or more bursaries not exceeding $250 each in any one year are granted to needy students in the Faculty of Arts, Science or Engineering.*

4.14.4 PRIZES

HARRY BARKER MEMORIAL PRIZE IN ENGLISH. — Value $150, bequeathed by the late Miss Dinah Lee in memory of the late Mr. Harry Barker, awarded to the student with the highest standing in English in an initial year. Awarded on the recommendation of the Department of English, to whichever Faculty Scholarships Committee is appropriate.

CHEMICAL INSTITUTE OF CANADA SILVER MEDAL AND BOOK PRIZE. — Awarded to the student having the highest standing in the penultimate year of the Honours Course in Chemistry.

CORPORATION OF PROFESSIONAL CHEMISTS OF QUEBEC PRIZE. — A plaque will be awarded annually to the student with the highest standing in the final year in the Major course in Chemistry.

CORPORATION OF PSYCHOLOGISTS OF THE PROVINCE OF QUEBEC PRIZE. — A prize of $10 offered annually by the Corporation to a student in the Final year who has done the most distinguished work in Psychology throughout the course. Awarded on the recommendation of the Department of Psychology, to whichever Faculty Scholarships Committee is appropriate.

MARION McCALL DALY PRIZE. — See Section 4.16.3.

FANTHAM MEMORIAL PRIZE IN ZOOLOGY. — $180, established by a bequest from the late Dr. Annie Fantham in memory of Professor H. B. Fantham, her late husband. Awarded annually to the graduating student ranking highest in a Zoologically oriented Biology program.

DR. WILLIAM H. HATCHER PRIZE IN CHEMISTRY. — $25, established by the Department of Chemistry and awarded to the student with highest standing in Elementary Organic Chemistry, in which Dr. Hatcher lectured for so many years.

DR. W. B. LEWIS PRIZE. — See Section 4.1.2

**Apply to Student Aid Office.*

LOGAN PRIZES IN BOTANY AND ZOOLOGY. — $50, awarded as a prize or prizes on the recommendation of the Department of Biology for original summer collections. Candidates should consult the Department concerning the collections to be made.

ANNIE MACINTOSH PRIZE. — Present value $150. Endowed by friends and pupils of the late Annie Macintosh and by a special gift of the late Miss I. G. Macintosh. Offered as a prize or prizes to women students in such subject or for such work as the Faculty may determine.

CHESTER MACNAGHTEN PRIZES. — See Section 4.1.2.

ANNE MOLSON PRIZE IN CHEMISTRY. — $150, awarded to the student with the highest record among those graduating with First Class Honours in Chemistry.

E. G. D. MURRAY PRIZE IN MICROBIOLOGY. — $100, established by a number of friends, ex-students and ex-colleagues of the late Professor E. G. D. Murray to perpetuate his name at McGill. Awarded annually to the graduating student with the highest aggregate standing in a program in Microbiology and Immunology.

BORIS MUSKATOV PRIZE IN PSYCHOLOGY. — An annual prize of $85 in books has been endowed by Miss Serafina Muskatov in memory of her brother, Boris Muskatov, who died on January 9, 1948, while a student. This prize is offered to a student who has completed the penultimate year in the Faculty of Arts or of Science and has done the best work in the subject of Psychology. Awarded on the recommendation of the Department of Psychology, to whichever Faculty Scholarships Committee is appropriate.

PENHALLOW PRIZE IN BOTANY. — $85, endowed by the Arts Undergraduate Society in 1911, and awarded to the graduating student whose complete record shows the highest first class standing in Botany. At least 24 credits in the subject must have been taken and Honours students in Biology will receive preference. Awarded by the Scholarships Committee of the Faculty of Science on the recommendation of the Department of Biology.

CLIFFORD B. PURVES PRIZE IN CHEMISTRY. — $250, established by the McGill Student Chapter of the Chemical Institute of Canada in memory of the late Professor Clifford B. Purves. Awarded by the Scholarships Committee of the Faculty of Science on the recommendation of the Department of Chemistry, to the student with the highest average mark in the penultimate year of the Chemistry Major Program.

SOCIETY OF CHEMICAL INDUSTRY MERIT AWARDS. — Three Merit Awards consisting of a gold key and a year's subscription to "Chemistry and Industry" awarded to the three graduating students who achieve the best results in: (a) the B.Sc. course with Honours in Chemistry, or joint Honours in Chemistry and some related science; (b) the B.Eng. course in Chemical Engineering; (c) the Honours course in Biochemistry. Awarded by the Scholarships Committees of the Faculties of Science and Engineering, on the recommendation of the Chairmen of the departments concerned.

4.14.5 MEDALS

The following medals are awarded to the graduating students who stand highest in the First Class Honours List of the subjects named, provided the Faculty so recommends to Senate:

THE GOVERNOR-GENERAL'S SILVER MEDAL, awarded to the student standing highest among those graduating "with great distinction" in a major or faculty program of the Faculty of Arts or of Science. Awarded by a joint committee of the scholarships committees of the Faculties of Arts and of Science upon the recommendations of the faculties concerned.

THE LOGAN GOLD MEDAL, for Geology or Solid Earth Geophysics.

THE MAJOR HIRAM MILLS GOLD MEDAL, for Biology.

THE ANNE MOLSON GOLD MEDAL, for Mathematics and Natural Philosophy.

THE HORACE WATSON GOLD MEDAL, for Physics, awarded to the student graduating with the highest First Class standing in the Honours Physics Course.

4.14.6 LOAN FUNDS

McGILL SOCIETY OF ONTARIO LOAN FUND. — Established in 1938 by the Ontario Branch of the Graduates' Society of McGill.*

4.15 OPEN TO STUDENTS IN THE SCHOOL OF SOCIAL WORK

UNIVERSITY SCHOLARSHIPS. — See Section 4.1.1.

4.15.1 BURSARIES AND LOANS

General information on bursaries and/or loans may be obtained from the Student Aid Office.

Apply to Student Aid Office.

Some sources exist for both loans and bursaries through the School. Inquiries may be made at the time of application for admission to the School. Since the School does not receive all the resources for bursary and/or loan purposes until late during the first term, students should endeavour to make other arrangements for their financial needs, whenever possible, prior to entering the School.

Usual funds available from the School include:

(1) General Bursary Fund
(2) Frances Anderson Memorial Bursary
(3) J. A. Klein Memorial Bursary
(4) Alumni Bursary

4.15.2 FEDERAL SCHOLARSHIPS AND BURSARIES

Under the Federal Welfare Grants program, a limited number of bursaries are available each year to students who commit themselves to enter employment in approved welfare programs. These bursaries are administered and partly financed by the various provinces (with the exception of Quebec which has not been participating in the plan). Application should be made to the Deputy Minister, Department of Public Welfare (or Department of Social Welfare) in the capital of the province where the applicant has legal residence.

The Federal Welfare Grants program also awards a number of scholarships based upon academic achievement. Application should be made to the Welfare Grants Division, Department of Health and Welfare, Ottawa, Ontario.

Overseas students should inquire of their governments concerning the availability of United Nations, Colombo Plan, or their country's own study grants.

4.15.3 PROVINCIAL

Students registered in the Bachelor of Social Work program are eligible for provincial assistance from their Departments of Education as outlined in Section 2.4.

4.15.4 VOLUNTARY AGENCIES

Local or national voluntary agencies often offer bursaries similar to those of the Provinces. Information may be obtained from the School.

4.16 OPEN TO WOMEN STUDENTS AT McGILL

4.16.1 SCHOLARSHIPS

MARGARET JANE ALLAN SCHOLARSHIP. — See Section 4.2.2.

McLENNAN-ETHEL HURLBATT SCHOLARSHIP. — Established in memory of the late Miss Ethel Hurlbatt by a legacy from the late Miss Isabella McLennan to the Royal Victoria College. Awarded by the University Scholarships Committee with the approval of the Warden of the Royal Victoria College or her delegate to a woman student on the basis of academic record and financial need.

MARGARET WILSON SCHOLARSHIPS. — See Section 4.1.1.

ROY M. WOLVIN MEMORIAL SCHOLARSHIP. — See Section 4.2.2.

4.16.2 BURSARIES

ALPHA OMICRON PI BURSARY. — A bursary of $100 is given by the Alpha Omicron Pi Mothers' Club for a woman student, resident in Royal Victoria College or non-resident. The award is made by the Student Aid Office on the recommendation of the Warden of the Royal Victoria College to a candidate with good academic standing and financial need.

DELTA PHI EPSILON SORORITY BURSARY. — See Section 4.2.3.

FROTHINGHAM BURSARIES. — See Section 4.1.1.

HELEN REYNOLDS BURSARY. — Awarded annually by the Student Aid Office in consultation with the Warden of the Royal Victoria College to a woman undergraduate in any degree course who has completed at least one year's study on this campus. The award is made to a student in financial need who has satisfactory academic standing.

MURIEL V. ROSCOE BURSARY. — Awarded annually by the Student Aid Office in consultation with the Warden of the Royal Victoria College to a woman undergraduate in any degree course who has completed at least one year's study on this campus. The award is made to a student in financial need who has satisfactory academic standing.

4.16.3 PRIZES

EDMUND HENRY BOTTERELL PRIZE. — A prize of $450, bequeathed by the late Mrs. Florence A. Redpath. Awarded by the University Scholarships Committee to a woman student who has completed the initial year and is entering the intermediate year(s) in the faculties of Engineering, Management, Music, Education, Arts, Science and the Schools of Nursing and Physical and Occupational Therapy. At present the award is made to a student whose academic interests and record combined with personal qualities indicate marked promise.

DORA FORSYTH PRIZE. — $125, bequeathed by the late Miss Jeanie Forsyth for English Literature. Open to women only and awarded to a candidate recommended by the Department of English and approved by the Faculty of Arts.

ANNIE MACINTOSH PRIZE. — Present value $150, endowed by friends and pupils of the late Miss Annie Macintosh. Offered as a prize or prizes to women students in such subject or for such work as the Faculty of Science may determine.

MARION McCALL DALY PRIZE. — $400, awarded each year to a woman student who has completed two years at McGill and is continuing in a third year in the Faculty of Arts, the Faculty of Science, the Faculty of Management, or the Faculty of Engineering (including Architecture) at the University. Awarded by the University Scholarships Committee upon the recommendations of the faculties concerned. In making the award the following is taken into account: (a) the candidate's promise of making a definite contribution to Canadian life, (b) financial need, and (c) academic record.

WOMEN'S PERSONNEL GROUP OF MONTREAL BOOK PRIZE. — See Section 4.2.4.

LOAN FUNDS (see Section 4.1).

4.16.4 SPECIAL AWARDS ADMINISTERED BY A COMMITTEE OF THE ALUMNAE SOCIETY

4.16.4.1 McGill Alumnae Scholarships

The following scholarships have been established by the McGill Alumnae Society and are awarded annually to distinguished women students, based on recommendations from the Faculties concerned.

Arts

GEORGINA HUNTER SCHOLARSHIP. — Established in memory of the late Georgina Hunter, a member of the first graduating class of women at McGill University, the first President of the Alumnae Society, and a former Principal of the High School for Girls, Montreal.

ETHEL HURLBATT SCHOLARSHIP. — Established in memory of the late Miss Ethel Hurlbatt, a former Warden of the Royal Victoria College.

CATHERINE I. MACKENZIE SCHOLARSHIP. — Established in memory of the late Miss Catherine I. Mackenzie, B.A. 1904, former Principal of the High School for Girls, Montreal.

ISABELLA McLENNAN SCHOLARSHIP. — Established in memory of the late Miss Isabella McLennan.

SUSAN CAMERON VAUGHAN SCHOLARSHIP. — Established in honour of the late Mrs. Walter Vaughan, a former Warden of the Royal Victoria College.

Science

CARRIE DERICK SCHOLARSHIP. — Established in honour of the late Professor Carrie M. Derick, B.A. 1890, M.A. 1890, first woman professor at McGill.

75th ANNIVERSARY SCHOLARSHIP. — Established in honour of the Alumnae Society's 75th anniversary.

In Faculties other than Arts or Science

HELEN R. Y. REID SCHOLARSHIP. — Made possible by a legacy from the estate of the late Dr. Helen R. Y. Reid, B.A. 1889, LL.D. 1921, and awarded by the University Scholarships Committee to a distinguished woman student in faculties other than Arts or Science.

Each scholarship has a maximum value usually not exceeding $500 and a minimum value of $100. The winners are interviewed by the Alumnae Scholarship Committee who determine the value of each award. The scholarships are awarded on academic merit, the amount of the award is based on financial need.

4.16.4.2 **McGill Alumnae Bursaries**

Eight bursaries, of which five are named to honour distinguished women scholars, are awarded annually by the McGill Alumnae Society. The awards are made to women students in financial need who have satisfactory academic standing. The amount of these bursaries is determined by the Alumnae Scholarship Committee. Applications should be made to the Student Aid Office.

ISABEL BRITTAIN BURSARY. — Named in honour of Miss Isabel Brittain, B.A. 1894, M.A. 1911, twice President of the Alumnae Society and former English teacher at the High School for Girls, Montreal.

VIRGINIA CAMERON BURSARY. — Established in 1967 in memory of Miss Alice Virginia Cameron, B.A. 1925, Deputy Registrar of McGill, a former President of the Alumnae Society, Honorary Life Member of the Graduates' Society and a former President of the University Women's Club. Open to women students entering the penultimate year in the Faculty of Arts or of Science at McGill.

EUNICE PATTON HOOVER BURSARY. — Established in memory of the late Mrs. Hoover by her husband and friends.

GLADYS MURRAY BURSARY. — Established by the Alumnae Society in memory of the late Mrs. Gladys Murray, for thirty-five years Secretary to the Warden of the Royal Victoria College.

LUCIE TOUREN-FURNESS BURSARY. — Named in honour of Madame A. W. Furness, retired Associate Professor of French at McGill.

5 INDEX OF AWARDS

Abbott (Maude) Memorial Loan Fund — **14, 36**
Abbott (Dr. Maude E. S.) Scholarships — **33**
Adair (E. R.) History Prize — **17**
Affiliated Factors Corporation Bursary — **32**
Aid to the Physically Handicapped (Quebec) — **8**
Aird (W. R.) Loan Fund — **13, 19**
Aitken (Phyllis A.) Bursary — **20**
Alexander (Charles) Scholarship — **15**
Alexander Scholarship — **27**
Allan (J. H. B.) Scholarship — **33**
Allan (Margaret Jane) Scholarship — **15, 40, 44**
Alliance Française Medals — **19**
Alpha Omicron Pi Bursary — **8, 44**
Alumnae Association, Royal Victoria Hospital School of Nursing Bursary — **38**
Alumnae Association of the School of Nursing Scholarship — **38**
Alumnae Society Bursaries — **46**
American Society for Metals Scholarship — **22**
Anderson (Frances) Memorial Bursary — **44**
Anniversary (75th McGill Alumnae Society) Scholarship — **45**
Anonymous Donation for Bursaries — **8**
Association of Nurses of the Province of Quebec Bursaries — **38**
Austrian Government Prize — **17**

Baker (Hyman, Q.C.) Prize — **29**
Ballon (Ellen) Piano Scholarship — **37**
Ballon (I.) Memorial Medal — **30**
Barclay Scholarship — **15**
Bank of Nova Scotia Bilingual Exchange Scholarships — **8**
Barker (Harry) Memorial Prize in English — **17, 42**
Baylis Scholarship — **22**
Beatty (Sir Edward) Gold Medal — **32**
Beatty (Sir Edward) Memorial Scholarships — **4**
Beatty (Sir Edward W.) Memorial Scholarships for Medical Students — **33**
Beatty (Mary H.) Scholarships and Bursaries — **8**
Bechtel Foundation of Canada Bursaries — **7, 24**
Bedford (District of) Graduates' Society Scholarship — **6**
Bellam Memorial Bursaries — **34**

Benjamin (Dr. Ben) Memorial Bursary — **34**
Bennett Educational Fund — **14, 27**
Bennett (Gordon) Memorial Bursaries — **8**
Bennett (Joseph Israel) Bursary — **34**
Bentley (Bessie Parsons) Student Aid Fund — **32**
Berliner Student Loan Fund — **14**
Berlioz (Hector) Prize — **38**
Besner (Mr. and Mrs. J. A.) Prize — **35**
Binz (Morris) Scholarships — **33**
Birkett (H. S.) Memorial Prize in Otolaryngology — **35**
Birks Family Foundation Student Aid Fund — **8**
Birks Gold Medal — **27**
Birks (W. M.) Awards — **39**
B'nai B'rith Hillel Foundation Bursary — **8**
B'nai B'rith Mount Royal Lodge No. 729 Bursaries — **8**
B'nai B'rith St. Laurent Lodge No. 2102 Bursary — **9**
Boright Loan Fund — **14, 36**
Botterell (Edmund Henry) Prize — **45**
Brigden (Ronald) Memorial Scholarship — **20**
Bristol Laboratories of Canada Book Prize — **35**
British Association Prizes — **25**
British Association Medal — **27**
Brittain (Isabel) Bursary — **46**
Brooks (Murray) Memorial Bursaries — **9**
Brott Prize — **38**
Brown (Ernest) Gold Medal — **27**
Bruce (Rev. G. O.) Bursaries — **9**
Bruce (Robert) Bursaries — **16, 24, 42**
Bruce (Robert) Scholarships — **15, 31, 40**
Bruck (Isaac) Memorial Scholarships — **31**
Bryson (Ella) Scholarship — **20**
Burke (Kenneth M.) Bursaries — **9**
Bursaries — **3**
Busteed (Edwin Botsford) Scholarship) — **28**
Byers (A. F.) Bursary — **24**

Cameron (Virginia) Bursary — **46**
Campbell (Mr. and Mrs. Samuel) Bursary — **9**
Canada Permanent Prize — **29**
Canada Student Loan Plan — **12**
Canadian Army University Course Memorial Bursary — **9**
Canadian Association of Occupational Therapists' Award — **39**
Canadian Association of Textile Colourists and Chemists (Quebec Section) Scholarship — **40**
Canadian Club of Montreal Fiftieth Anniversary Student Aid Fund — **12**
Canadian Construction Association Prize — **25**
Canadian Institute of Mining and Metallurgy Loan Fund — **14, 27**
Canadian Pacific Scholarships — **4**
Canadian Physiotherapy Association Book Prize — **39**
Canadian Pittsburgh Industries Scholarship — **22**
Canadian Stock Exchange Prize — **32**
Canadian Titanium Pigments Limited Bursaries — **24, 42**
Cape (E.G.M.) and Company (1956) Ltd. Award — **22**
Caplan (Joseph Lawrence) Memorial Bursaries — **9**
Carswell Prizes — **29**
Central Mortgage and Housing Corporation Travelling Scholarships — **22**
Chapman (Henry) Gold Medal — **18**
Chapman (Henry) Prize — **17**
Chemical Industry Society's Merit Awards — **26, 43**
Chemical Institute of Canada Prize — **42**
Chemical Institute of Canada Silver Medal — **42**
Cherry Prizes — **17, 32**
Chevron Standard Limited Geological Scholarship — **41**
Children of War Dead (Education Assistance) Act — **7, 9**
Chipman (Walter) Gold Medal — **36**
Choquette (Marguerite E.) Award — **37**
Christie-Storer Scholarship — **5**

SCHOLARSHIPS

Claire-Feldman (Nathalie) Memorial Bursary — **37**
Clarkson, Gordon & Co. Prize — **32**
Cohen (Bertha) Revolving Loan Fund — **12**
Cohen (Mr. and Mrs. Henry) Revolving Loan Fund — **13**
Cohen (Joseph, Q.C.) Award — **28**
College of Dental Surgeons of Quebec Loan Fund — **13, 19**
Cominco Scholarships — **22, 41**
Commerce 1925 Award — **31**
Commercial Society Loan Fund — **14, 32**
Consumers Glass Company Limited University Education Awards Plan — **5**
Cook (John W., K.C.) Prize — **29**
Cooner (Beverly) Bursary — **34**
Co-operative Medical Services Federation of Ontario Bursary — **34**
Corporation of Professional Chemists of Quebec Prize — **42**
Corporation of Psychologists of the Province of Quebec Prize — **17, 42**
Corporation of Quebec Engineers, Bursary of — **24**
Corporation of Quebec Land Surveyors Prize — **25**
Cosens (Elizabeth Millar) Bursary — **20**
Crankshaw (John E.) Prize — **29**
Crestohl (Max) Prize — **29**
Cummings (James H.) Scholarships — **33**
Cyanamid of Canada Limited Scholarship — **22**

Dainow (Joseph) Prize — **29**
Daly (Marion McCall) Prize — **17, 42. 45**
Dawson (Victor E.) Memorial Book Prize — **25**
Dawson (Sir William) Scholarships in Metallurgy — **22**
Delta Kappa Gamma Society Alpha Chapter Grant-in-Aid — **20**
Delta Phi Epsilon Sorority Bursary — **17, 42, 44**
Dental Surgeons of the Province of Quebec (College of) Loan Fund — **13, 19**
Derick (Carrie) Scholarship — **45**
Dey (William John) Bursaries — **9**
De Zwirek (Louis, Q.C.) Loan Fund — **14, 30**
Diamond (Annie) Bursaries — **34**
Dollin (Alec and Sylvia) Loan Fund — **14, 36**
Domco Industries Limited Bursary — **24**
Domtar Bursary — **24**
Donalda (Madame Pauline) Award — **37**
Donalda Prize — **38**
Douglas (Dr. James) Tutorial Bursaries — **25**
Dow Chemical of Canada Scholarship — **22**
Dow-Hickson Scholarships — **15, 41**
Drake (Joseph Morley) Prize — **35**
Duggan (George Herrick) Memorial Scholarships — **5, 41**
Dunn (Stuart) Memorial Scholarship — **9**

Eccles (James) Scholarship — **12**
Eidlow (Samuel) Memorial Bursary Fund — **34**
Ekes (Henry H.) Bursary — **9**
Ekes (Oscar) Memorial Prize — **17**
Engels (Rose and Harry) Bursary — **17**
Engineering Institute of Canada Prize — **25**
Engineers Wives Association of Montreal Bursary — **7**
Evans (Nevil Norton) Scholarship — **22**

Faerman Grant — **9**
Fairbairn (J. M.) Loan Fund — **14, 27**
Fairley (Grace) Trafalgar Scholarship — **5**
Fantham Memorial Prize in Zoology — **42**
Farrand (Narcissa) Scholarship — **5**
Federal and Provincial Loans and Bursaries — **3, 7, 9, 44**
Fellowes (Lexy L.) Memorial Prize — **39**
Ferrier (Chancellor) Memorial Bursary — **34**
Fetherstonhaugh (H. L.) Book Prize — **26**
Fineberg (Bob) Bursary — **9**
Finkelstein (Isidore) Prize — **17**
Finley (Samuel) Memorial Bursary — **40**

Fisher (Dr. E. M.) Memorial Scholarship — **33**
Fleming (A.) Loan Fund — **14, 30**
Fondation Les Amis de l'Art Bursary — **37**
Forsyth (Dora) Prize — **17, 45**
Forsyth (Robert) Prizes — **26, 35**
Fox (Harold G.) Education Fund Bursaries — **29**
Fox (Harold G.) Education Fund Prize — **29**
Freedman (Amy) Memorial Loan Fund — **13**
French Government's Book Prizes — **17**
French Government's Bronze Medal — **18**
Frosst (Charles E.) Medical Award and Bronze Medal — **33, 36**
Frost (George Henry) Loan Fund — **14, 27**
Frothingham Bursaries — **9, 44**
Fruehauf Trailer Company of Canada Limited Bursary Fund — **20**

General Motors Scholarship — **5**
German Embassy Prize — **17**
Glassco (Gladys) Memorial Loan Fund — **14, 38**
Gold Medal — **21**
Goldenberg (Maurice) Memorial Scholarship — **16, 28**
Goodman (Aaron and Mary) Bursaries — **9**
Governor-General's Gold Medal — **19**
Governor-General's Medal — **21**
Governors-General's Silver Medal — **19, 43**
Graduates' Society of the District of Bedford Scholarship — **6**
Graff (Dr. Willem) Bursary — **10**
Graham (R. P. D.) Scholarships and Medal — **23, 41**
Greek, Prize in Ancient — **18**
Greek Students Bursary and Loan Fund — **14**
Greenblatt Scholarship — **16**
Greenshields (Chief Justice) Prize — **29**
Greenshields (Chief Justice R. A. E.) Memorial Scholarships — **28**
Greenspoon (Barbara) Bursary — **10**
Gross (Harry S.) Memorial Prize — **35**

Hall (James Dickie) Prizes — **26**
Halpern (Simon and Rosalie) Memorial Scholarship — **14, 33**
Hamilton (Constance) Memorial Prize — **38**
Harrison (Thomas Leeming) Award — **23**
Hatcher (Dr. William H.) Bursary — **10**
Hatcher (Dr. William H.) Prize — **42**
Hellenic Club Bursaries — **14**
Herbert (Dr. D. M.) Award — **37**
Herschorn (H. E.) Bursary — **10, 29**
Herschorn Loan Fund — **13**
Herschorn (H. E.) Prize — **29**
Hersey (Mabel F.) Scholarship — **38**
Hewitt Memorial Bursary Fund — **10, 17**
Hill (Annette S.) Memorial Bursaries — **14**
Hill (Sarah Emma) Scholarship — **20**
Hils (Joseph) Prize — **35**
Historical Society's Prize — **17**
Hoare (Walter J.) Scholarship — **33**
Hodgson (Madelene) Prize in History — **17**
Hodgson (Sidney J.) Scholarships — **6**
Holmes Gold Medal — **36**
Holmes (Estella) Scholarship — **20**
Hoover (Eunice Patton) Bursary — **46**
Houston Bursary — **17, 40**
Howard (Campbell) Prize — **35**
Howard (William Henry) Scholarships — **23, 41**
Howes (F. S.) Award — **10**
Hungarian Canadian Engineers' Association Bursary — **14**
Hunter (Georgina) Scholarship — **45**
Hurlbatt (Ethel) Scholarship — **45**
Hutchison (Keith) Memorial Scholarships — **33**

IBM — Thomas J. Watson Memorial Bursaries — **12**
I. M. E. Prize — **29**
Inco Participating Scholarships — **23, 41**
Institute of Electrical and Electronics Engineers Prizes — **26**
International College of Dentists (Canadian Section) Scholarship — **19**
I.O.D.E. Bursaries in Education — **20**
Iron Ore Company of Canada Scholarships — **23**
Isaacs (Celia Amdur) Memorial Bursary — **10**
Issenman (Bernard L.) Memorial Bursary — **37**
Ives Scholarship — **33**
Ivey (Ethel Jamieson) Award — **37**

Jackson (F. Slater) Prize — **35**
Jacobs (Joseph H.) Prize — **32**
Jacobs (Lyon William, Q.C.) Award — **28**
Jacobson (Joseph Alfred) Memorial Scholarship — **10**
James (Boswell) Loan Fund — **14, 36**
Jenkins Bros. Ltd., Scholarship — **23**
Johnson Wax Scholarship — **23**
Jones (Hon. Robert) Bursary — **17, 25, 42**
Junior Bar Association Prize — **30**

Kay Kerry Chapter I.O.D.E. Bursary — **20**
Keenan (Campbell) Memorial Prize — **35**
Keenan (Campbell) Memorial Scholarship — **33**
Kellogg Foundation Loan Fund — **14, 19, 36, 39**
Ker (Frederick Southam) Bursary — **11**
Ker (James Grahame) and Frederick K. Petrie Memorial Scholarship — **34**
Kerry (Kay) Chapter I.O.D.E. Bursary — **20**
Khaki University and Y.M.C.A. Memorial Scholarship Fund — **7, 10**
Kidd (Bertram) and Marjorie Sharp Memorial Loan Fund — **13**
Kinch Memorial Bursary — **34**
Kiwanis Club of Lake of Two Mountains Bursary — **21**
Klein (J. A.) Memorial Bursary — **44**
Klineman (Emery and Erwin) Bursary — **10**
Knights of Pythias Scholarship — **16**
Krashinsky (Harry) Scholarship — **23**

Lacey Loan Fund — **14, 36**
Laddon (I. M.) Scholarship — **6**
Lafleur (Eugene) Scholarship — **28**
Laing (Murdoch) Prize — **26**
Lakeshore Organists' Bursary — **37**
Laliberté (Raymond) Bursary — **37**
Lamb (A. S.) Scholarships — **20**
Latin, Prize in — **18**
Lauterman (Lily) Memorial Bursaries — **38**
Law Graduates Association Scholarships — **28**
Lazarus (Sarah and Joseph) Bursary — **10**
Lea (Richard S.) Tutorial Bursaries — **25**
Leibovitch (Harry) Scholarship — **6**
LeMaistre (Frederic J.) Award in Chemical Engineering — **23**
LeMaistre (Frederic J.) Award in Chemistry — **41**
Leopold (Felix) Bursary — **10**
Les Amis de l'Art Bursary — **37**
Leviton (Bernard) Loan Fund — **14, 27**
Lewis (Dr. W. B.) Prize — **12**
Lindsay (Sir Charles W.) Prize — **38**
Lipkin-Cohen (Bella) Memorial Bursary — **10**
Loan Funds — **12**
Loans — **3**
Logan Gold Medal — **43**
Logan Prizes in Botany and Zoology — **43**
Logan Scholarships — **41**
Lutfy (Nouralla) Memorial Bursaries — **10**
Lyman (Hannah Willard) Scholarship — **16**
Lynch (J. B.) Loan and Bursary Fund — **13**

Macdonald College Students Loan Fund — **13**
Macdonald (Sir William) Entrance Scholarships — **6**
Macdonald (Sir William) Scholarships — **16, 31, 41**
Macdonald (Sir William) Memorial Scholarships in Music — **37**
Macdonald (Sir William) Travelling Scholarship in Law — **28**
Macdonald Teachers' Alumni Association Scholarship — **20**
Macintosh (Annie) Prize — **43, 45**
Mackay (H. M.) Memorial Scholarship — **23**
MacKay (Dean Ira A.) Prize — **30**
Mackenzie (Alexander) Scholarships — **16**
Mackenzie (Catherine I.) Scholarship — **45**
MacLaren (John Harold) Student Loan Fund — **13**
Macnaghten (Chester) Prizes — **12**
MacRae (Isabella C.) Scholarship — **7**
McCall (James Darling) Scholarship — **16**
McCall (James Davidson) Scholarship — **6**
McCaskill (Duncan) Scholarship — **6**
McCharles Prize — **12, 26**
McConnell (J. W.) Memorial Scholarships — **6**
McConnell (J. W.) Scholarships in Science and Engineering — **6**
McGill Alumnae Scholarships — **16, 45**
McGill Hellenic Club Bursaries — **14**
McGill Hellenic Club Prize in Modern Greek — **17**
McGill Law Graduates Association Scholarships — **28**
McGill Pharmacy Alumni Society Bursary — **10**
McGill Society of Ontario Loan Fund — **13, 19, 43**
McGill Student Entrepreneurial Agencies Inc. Bursary — **10**
McGill U.N.T.D. Bursary — **10**
McGill (Women Associates of) Bursary — **12**
McGlade (T. H.) Scholarship — **6**
McGregor (Ida) Scholarship — **38**
McLagan (Mr. & Mrs. T. R.) Scholarships — **23**
McLennan-Ethel Hurlbatt Scholarship — **44**
McLennan (Isabella) Bursary and Loan Fund — **13, 27**
McLennan (Isabella) Scholarship — **45**
McLernon (J. R. S.) Bursary Fund — **10**
McManus (George J.) Memorial Scholarships — **7, 11**
Magor (Marion) Scholarship — **37**
Mailhiot (Adolphe) Memorial Prize — **30**
Marcus (Helen)-Rose Schwarz Bursary — **35**
Martin (Charles) Bursary Fund — **10**
Martlet Foundation Loan Fund — **13**
Martlet Music Awards — **37**
M.A.U.T.-F.S. Howes Award — **10**
Meadows (James O. and Maria) Awards — **34**
Medical Jurisprudence Prize — **35**
Mendelssohn (Nathan) Bursaries — **11**
Meyerovitch (Philip, Q.C.) Prize — **30**
Millar (Mrs. M. Dorothea) Loan Fund — **13**
Millen (Laddie) Memorial Scholarship — **31**
Mills (Major Hiram) Gold Medal — **43**
Mills (Major Hiram) Scholarship — **41**
Mohr (Dr. Frederick William Charles) Scholarships — **11**
Molson (Anne) Gold Medal — **43**
Molson (Anne) Prize — **43**
Molson (Anne) Scholarship — **41**
Montreal Bar Association Prizes — **30**
Montreal Children's Hospital Cushing Memorial Prize — **35**
Montreal General Hospital Bursaries — **39**
Montreal Stock Exchange and Canadian Stock Exchange Prize — **32**
Montreal Women's Auxiliary of the Canadian Institute of Mining and Metallurgy Loan Fund — **14 27**
Montreal Women's Auxiliary of the Canadian Institute of Mining and Metallurgy Scholarship — **23**
Montreal Women's Club Eliza Reid Memorial Bursary — **11, 21**
Morris (Alexander) Exhibition — **30**
Morrison (R. G. K.) Prize — **26**

Morssen (Charles Michael) Bursary Fund — **25**
Morssen (Charles Michael) Gold Medal — **27**
Mudge (Gertrude) Memorial Student Aid Fund — **14, 36**
Murray (E. G. D.) Prize in Microbiology — **43**
Murray (Gladys) Bursary — **46**
Muskatov (Boris) Prize in Psychology — **18, 43**

National Council of Jewish Women Loan Fund — **13, 21**
National Council of Jewish Women of Canada Bursaries — **11**
Newcomen Award — **12, 17**
Norris (Jessie) Memorial Award — **6**
Nurses' Alumnae Association Scholarship — **38**
Nutting (Charles Albert) Bursary — **29**

Oliver (Allen) Gold Medal — **19**
Ontario Bursaries and Loans — **3**

Pappelbaum (Sydney S.) Bursary — **32**
Parkins (Edgar R.) Memorial Scholarships and Bursaries — **7, 11**
Penhallow Prize — **43**
Penhallow Scholarship in Botany — **42**
Pesner (Samuel and Bessie) Bursary — **11**
Peterson Memorial Prize in English Literature — **18**
Peterson Memorial Scholarships in Classics — **16**
Peterson Memorial Scholarships in Music — **37**
Petrie (Frederick K.) and James Grahame Ker Memorial Scholarship — **34**
Pettes, Mrs. N. (Narcissa Farrand) Scholarship — **5**
Pharmacy Alumni Society Bursary — **10**
Phillips (Lazarus) Prize — **30**
Physically Handicapped (Aid to the) — **8**

Psychiatry Book Prize — **35**
Purves (Clifford B.) Prize — **43**

Quebec Bar Prize — **30**
Quebec Iron and Titanium Corporation Scholarships — **24**
Quebec (Province of) Bursaries in Nursing — **39**
Quebec (Province of) Department of Natural Resources Scholarships — **24**
Quebec (Province of) Corporation of Psychologists Prize — **17, 42**
Quebec Provincial Bursaries — **3**
Quebec Road Builders Association Prize — **26**
Quebec Society of Occupational Therapists Book Prize — **39**
Queen Esther Chapter No. 30 Order of the Eastern Star Bursary — **7**

R.C.A.F. Benevolent Fund — **13**
Reading Society of Montreal Prize — **30**
Redpath (Jane) Exhibition — **16, 42**
Reford Scholarship — **16**
Reid (Helen R. Y.) Scholarship — **45**
Reinhardt (Carl) Scholarships and Bursaries — **42**
Ressler Memorial Scholarship — **37**
Reynolds (Helen) Bursary — **11, 44**
Robb (Janet Morison) Bursary for Women — **21**
Robertson (Louis) Prize — **26**

Robinson (Benjamin) Memorial Prize in Law — **30**
Roche Bursary — **34**
Rohrlick (Louis H.) Memorial Prize in Law — **30**
Romano Bursary — **38**
Roscoe (Muriel V.) Bursary — **11, 45**
Rosenfeld (Samuel) Bursary — **35**
Rosenfeld (Samuel) Prize — **36**
Ross (James D.) Prize — **18**
Ross (Reuben) Award — **35**
Rotary Club of Ottawa Student Loan Fund — **13**
Rowat (Thomas Alexander) Scholarship — **28**
Royal Architectural Institute of Canada Medal — **27**
Royal Victoria Hospital Scholarships and Bursaries — **38**

St. Andrew's Society Bursary — **11**
St. Francis District Graduates' Society Bursary — **8**
St. George's Loan Fund — **21**
St. John Ambulance Association of Canada Bursaries — **39**
Schecter (Ray and Ben) Memorial Bursary — **11**
Schwarz (Rose)-Helen Marcus Bursary — **35**
Science '25 Memorial Loan Fund — **14, 27**
Scott (Barbara) Scholarship — **16**
Scott Exhibition — **26**
Segall (Harold N.) Loan Fund — **13**
Separator Engineering Limited Bursary — **25**
Seraine Group Esther Ward Memorial Bursary — **11**
Seraine Group Ida Segal Memorial Bursary — **11**
Seventy-Fifth Anniversary Scholarship — **45**
Shakespeare Gold Medal — **19**
Shakespeare Scholarship — **16**
Shapiro (Lionel) Award — **18**
Sharp (Marjorie) and Bertram Kidd Memorial Loan Fund — **13**
Sharwood (Robert) Memorial Scholarship — **34**
Sheckman (Mona Bronfman) Prize — **36**
Silver (Carol Rutenberg) Memorial Award — **39**
Slapcoff (Laurie Robin) Memorial Award — **37**
Smith (Angus McCoy) Scholarship — **15**
Smith (Bruce) Bursary Fund — **35**
Smith (Frederick) Memorial Scholarship — **12, 34**
Smith (Seba Abbott) Memorial Scholarship — **6**
Snyder (Charles William) Memorial Scholarships — **15**
Social Work Alumni Loan Fund — **14**
Society of Chemical Industry Merit Awards — **26, 43**
Southam Student Loan Fund — **14**
Sproule (Gordon) Memorial Scholarship — **24**
Standard Chemical Bursary — **25**
Steel Company of Canada Limited Bursary — **8**
Stein (Hyman Herbert) Award — **31**
Stephen (Gordon R. Jr.) Memorial Bursary — **40**
Stewart (Alexander D.) Prize — **36**
Stewart (Neil) Prize — **40**
Stewart (Thomas Shearer) Travelling Fellowship — **28**
Strathcona Trust Medals — **21**
Student Teachers' Society Loan Fund — **13, 21**
Students' Society Loan Fund — **13**
Sutherland Gold Medal — **36**
Switzerland, Prizes of Ambassador in Canada — **18**
Syrian Canadian Association Bursaries — **15**

Tabac (Corinne Fay) Memorial Award in Medicine — **34**
Tabac (Corinne Fay) Memorial Prize in English Literature — **18**
Tarnofsky (Mr. & Mrs. Saul) Award — **30**
Temple Emanu-El Sisterhood Bursary — **11**
Thomas (Emma) Scholarship — **38**
Thorne-Gunn Prize — **32**
Tillson (George E.) Loan Fund — **13**
Torrance (Elizabeth) Gold Medal — **30**

SCHOLARSHIPS

Touche Ross & Co. Award — **31**
Touren-Furness (Lucie) Bursary — **46**
Trafalgar (Grace Fairley) Scholarship — **5**
Tritt (Gerald S., Q.C.) Prize — **30**
Turner (Philip J.) Prize — **26**

University Bursaries — **11**

4.2 Open to students in the School of Nursing 27
4.3 Open to students in the Faculty of Religious Studies 27
4.4 Open to students in the School of Social Work 27
4.4.1 Bursaries and Loans 28
4.4.2 Federal Scholarships and Bursaries 28
4.4.3 Provincial 28
4.4.4 Voluntary Agencies

5 Index of Awards 29

2 GRADUATE FELLOWSHIPS, SCHOLARSHIPS, BURSARIES, PRIZES AND LOAN FUNDS

2.1 DEMONSTRATORSHIPS AND ASSISTANTSHIPS

Most of the departments which offer laboratory courses require the services of some graduate students as Demonstrators. These may be employed up to 12 hours weekly during the session without losing status as full-time graduate students, and salaries vary from approximately $1,200 to $2,000, though shorter hours and smaller salaries are preferred in some departments.

Some of these departments are also able to pay graduate students as Research Assistants from special research funds, and in most though not all cases the research in question can be used by the student for his thesis. Some of the departments in the humanities and social sciences are able to employ graduate students as Teaching Assistants. In all cases the appointment is recommended by the Chairman of the department concerned on the basis of the documents supplied along with the applications for admission.

It is not the policy of the University to waive tuition or other fees for Demonstrators, Assistants, or Fellows, though in some cases a fellowship may consist of a basic stipend plus the amount of the fees, while certain graduate scholarships cover the cost of fees only. Generally speaking, demonstratorships and fellowships provide subsistence throughout the academic session only, while research assistantships may run throughout the calendar year (though some are available in the summer months only); in no case are the funds adequate to defray any part of the cost of coming from or returning to a distant country.

2.2 FELLOWSHIPS AND SCHOLARSHIPS

Fellowships open to graduate students fall into three groups. Some are awarded by institutions or bodies other than McGill, which have their own regulations and their own application forms obtainable from them. Secondly, there are those for which application should be made to the Fellowships Office of the Graduate Faculty. Application forms should be obtained from this Office, and all of these applications should be completed by February 1. Thirdly, there are those for which application should be made to some other designated professor or official at McGill University; in most of these cases no form is required and a brief letter of application is sufficient.

The probability of foreign students obtaining financial aid from the Graduate Faculty in the first year of enrolment is small.

Application *by Canadian students* for a fellowship and financial aid in general should be made on forms obtainable from the Fellowships Office and accompanied by the usual supporting documents such as transcripts and letters of recommendation. Unless the candidate is already a student in the Graduate Faculty, a fellowship application should be preceded by an application for admission to the Faculty. (It should be noted that *separate sets of transcripts and letters of recommendation* are required for scholarship as opposed to admission applications, and that this requirement extends to students *already registered in the Graduate Faculty* as well as to applicants for admission.) The awarding committees will base their nominations upon these documents, and will announce their awards on or before April 1. As far as possible each applicant will be considered for every award for which he is eligible. It is perfectly in

order for a student to apply for admission to the Faculty with the proviso that admission cannot be accepted unless financial aid can also be made available. Such a proviso does not obligate the University in any way.

Applicants for fellowships and scholarships should note that these are awarded on a competitive basis, in the light of established academic merit.

Application by *non-Canadian students* for a fellowship and financial aid should be made directly to the departments in which they plan to study.

2.3 PROVINCIAL BURSARIES AND LOANS

In all cases, a basic qualification is that the applicant must be a Canadian citizen or a landed immigrant with one year's residence and domicile in the province to which he applies.

In all provinces, except Quebec, the provincial authority listed below administers the Canada Student Loan Plan (Federal) as well as their own programs. The addresses are as follows:

Quebec: Apply for a Quebec registration card, after June 1, at the Student Counselling-Student Aid Office, 3465 Peel St., McGill University, P.O. Box 6070, Montreal 101, P.Q.

Alberta: Student Assistance Board, Department of Education, Edmonton, Alberta.

British Columbia: The British Columbia Student Aid Loan Committee, c/o Department of Education, Victoria, B.C.

Manitoba: Student Aid Officer, Department of Education, Legislative Buildings, Winnipeg, Manitoba.

New Brunswick: Deputy Minister, Department of Youth and Welfare, Fredericton, New Brunswick.

Newfoundland: Canada Student Loans Authority, Department of Education, Confederation Building, St. John's, Newfoundland.

Northwest Territories: c/o Education Division, Department of Northern Affairs and Resources, 150 Kent St., Ottawa, Ontario.

Nova Scotia: Nova Scotia Canada Student Loans Committee, Department of Education, Box 578, Halifax, Nova Scotia.

Ontario: Department of Colleges and Universities, Parliament Buildings, Queen's Park, Toronto 182, Ontario.

Prince Edward Island: Department of Education, Charlottetown, P.E.I.

Saskatchewan: Department of Education, Legislative Buildings, Regina, Saskatchewan.

Yukon Territory: The Students Financial Assistance Awards Committee, c/o Superintendent of Schools, Box 2703, Whitehorse, Yukon Territory.

2.4 AWARDS FROM FEDERAL AGENCIES

Many government departments (e.g. the Department of the Solicitor General and the Department of Labour) offer financial assistance to graduates pursuing studies relating to the department's work. Government agencies, such as the Central Mortgage and Housing Corporation also offer scholarship aid.

The three most important sources of federal aid to graduate students are the Canada Council, the National Research Council of Canada, and the Medical Research Council.

Canada Council. The Canada Council offers fellowships and grants in the social sciences and humanities at the master's and doctoral level. These categories extend to undertakings of an interdisciplinary nature, but not to those closely identified with the physical and biological sciences, or with professional training.

Informative leaflets and application forms are obtainable from departmental offices in the social sciences, humanities and related disciplines, from the Fellowships Office of the Graduate Faculty, or from: The Canada Council, P.O. Box 1047, Ottawa, Ontario, K1P 5V8.

National Research Council. The National Research Council offers a number of postgraduate awards to assist students in undertaking graduate study and research, and a limited number of postdoctorate fellowships for those wishing to add to their experience by specialized training. These scholarships and fellowships are open to men and women on equal terms and are awarded on the basis of high scholastic achievement and evidence of capacity to do research. The types of awards available are postgraduate scholarships, bursaries, and postdoctorate fellowships. These may be granted for study and research in the fields of agriculture, biology, chemistry, physics, geology, physical geography, mathematics, engineering and experimental psychology. At the time of application for a Scholarship, an applicant must be either a Canadian citizen or if he is a landed immigrant, he must have completed one full year of study and/or research at a Canadian University.

Medical Research Council. A limited number of awards are offered by the Medical Research Council to highly qualified graduate students who are undertaking full-time training and research leading to an M.Sc. or Ph.D. degree under the supervision of members of departments within the Faculties of Medicine and Dentistry. These awards are designated primarily for Canadian citizens or landed immigrants. Awards may also be made to applicants who are neither Canadian citizens nor landed immigrants but such students must be highly recommended by their prospective supervisor. The awards available are of two types: studentships and fellowships. Studentships are open to applicants holding an Honours B.Sc. degree (or its equivalent) who have a high academic standing. Fellowships are offered to graduates in Medicine, Dentistry or Veterinary Medicine for full-time training in research in the health sciences. Fellowships are also available to holders of a Ph.D. degree in a suitable field who wish to undertake postdoctoral training in the biomedical field.

2.5 INTERNATIONAL AND PRIVATE AWARDS

Commonwealth Scholarship and Fellowship Plan. At the request of the Government of Canada, the Association of Universities and Colleges of Canada provides a secretariat for academic administration of the Commonwealth Fellowship plan. This plan makes it possible for Canadians to undertake graduate study or research in many parts of the Commonwealth as part of a Canadian graduate degree program, in addition to bringing graduate students from other Commonwealth countries to Canada.

Students from other Commonwealth countries, in Canada on *student visas,* may apply to their home country for these fellowships. Students with *landed immigrant status* may apply to any other Commonwealth country for these awards, with the understanding that they will return to Canada when their graduate work is completed.

Association of Universities and Colleges of Canada. The Awards Service of the Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ontario, does not itself offer any awards but it does administer several national and international programs on behalf of Canadian and foreign donors, both private and governmental. Inquiries from students regarding financial aid can be addressed directly to the Association.

There are several other programs which enable foreign students to come to Canada to study, sponsored by the Canadian International Development Agency, under the

Department of External Affairs. These include the Colombo Plan, Economic Assistance to French-Speaking West Africa, Special Commonwealth Africa Assistance, Caribbean Assistance Program. Interested students can apply through the Ministry of Education or through the appropriate government department in their own country.

Foundations and Private Agencies. Thousands of professional associations, foundations and companies offer financial support for the graduate student. Details about these can be found in the following publications which are available in large public libraries, university reference libraries and consulate or embassy offices.

Awards for Graduate Study and Research: perhaps the most useful to Canadian students, it lists several thousand awards available to Canadians and to those studying in Canada. Prepared by the Bureau of Statistics, it is available from Information Canada (Catalog no. 81-541).

Study Abroad: A UNESCO publication lists awards tenable in Canada, as well as in other countries.

Fellowships and Scholarships Offered by Private Donors and Foreign Governments for Canadian Students: available from the Association of the Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ontario.

Fellowships in the Arts and Sciences: published by the American Council on Education.

Annual Register of Grant Support: lists the major awards distributed by American agencies.

Grants Register: lists postgraduate awards in the English-speaking world.

3 GRADUATE FELLOWSHIPS AND SCHOLARSHIPS

The following graduate awards are divided into four sections. In sections 3.1, 3.2, and 3.3 the awards are listed in alphabetical order of the undergraduate faculties from which applicants may have proceeded. Section 3.5 contains the names of awards for which graduates of other universities who wish to pursue advanced studies at McGill may be eligible. Not all awards listed are open for competition each year; further, awards open for competition may not be granted if none of the applications is considered meritorious. As changes of deadline dates for such fellowships are frequent, applicants are urged to check with the Fellowships Office of the Graduate Faculty.

Applications for fellowships and scholarships should be made by letter, except in the cases where they are to be directed to the Fellowships Office of the Graduate Faculty. In such cases the Fellowships Office will supply application forms. Applicants should simultaneously also ask for application forms for admission to the Faculty, unless this has been previously granted.

3.1 FELLOWSHIPS AND SCHOLARSHIPS TENABLE AT McGILL UNIVERSITY ONLY

(See also Secion 3.2).

3.1.1 OPEN TO GRADUATES IN TWO OR MORE FACULTIES

ALCAN FELLOWSHIP. — Value $3,500, plus a grant to the Department for research expenses. Open to graduates of any university admitted to McGll as resident candidates for a Master's or Doctor's degree in Metallurgy and related subjects, and is renewable. Apply to the Dean of the Graduate Faculty through the Department of Mining and Metallurgical Engineering before February 1.

MAX BINZ BURSARIES FOR FOREIGN STUDENTS. — Established by the estate of the late Mr. Max Binz. These Bursaries are valued at $1,000 per annum and are renewable, but are not normally tenable concurrently with a major scholarship or fellowship. The Binnz Bursaries are intended to help defray the expenses of graduate students coming to McGill from overseas countries (including South and Central America and Mexico). One of the purposes of the award program is to encourage the continued attendance at McGill of students of a wide variety of cultural backgrounds. According to the conditions of the award, foreign nationals who are Canadian landed immigrants (and therefore eligible for several categories of Canadian financial assistance) are not eligible for the Bursaries. Application forms can be obtained from the Graduate Faculty Fellowships Office (Dawson Hall) and must be submitted by April 1.

BRONFMAN FELLOWSHIPS IN COMMERCE AND ECONOMICS. — The Graduate Faculty offers two fellowships of $2,000 each plus tuition fees to men and women, preferably with research experience, who are graduates in Commerce or Economics from accredited universities. The holders are entitled to apply again in a subsequent year, will be expected to be in residence at McGill throughout the academic session, and to be candidates for a higher degree at McGill. A little teaching work may be required. Apply to the Dean of the Graduate Faculty, through the Department of Economics, before February 1.

J. B. COLLIP FELLOWSHIPS IN MEDICAL RESEARCH. — Up to three fellowships of $3,000 each are awarded for study at McGill in Anatomy, Bacteriology, Biochemistry, Histology, Pathology, Pharmacology, or Physiology. Candidates must hold the M.Sc. or Ph.D. in one of these subjects, or a degree in medicine, from a recognized university. Graduates of the McGill medical faculty may be permitted to hold the fellowship at an approved institution elsewhere. Apply before February 1 to the Secretary of the Faculty of Medicine, from whom application forms and further particulars may be obtained.

GLASGOW EXCHANGE SCHOLARSHIP. — Established to enable a McGill graduate to spend two sessions of postgraduate work at the University of Glasgow and for a graduate of the University of Glasgow to spend two sessions of postgraduate work at McGill. The awards are available for two years and are awarded only every second year. Open to degree and non-degree candidates. Glasgow will waive fees for the student from McGill and provide accommodation in a hall of residence plus a small cash award. The value of the award at McGill for the student from Glasgow is $3,000 per annum. Vacancies in the program arise in odd-numbered years and interested Glasgow students should seek further information from the Clerk of Senate, University of Glasgow, Glasgow, W.2, Scotland.

GOTTESMAN SCHOLARSHIP. — The D. S. and R. H. Gottesman Foundation offers $3,000 per year (supplemented by $500 per year), for research in any field of science or engineering on a topic of interest to the pulp and paper industry, to an American, a Canadian, or a citizen of the British Commonwealth, who is a graduate of a recognized university. He is expected to register at McGill as a candidate for a higher degree. Awarded by the Education Committee of the Pulp and Paper Research Institute. Apply to the Chairman of that Committee by May 1.

GRADUATE FACULTY SUMMER RESEARCH FELLOWSHIPS. — A limited number of fellowships of up to $1,000 each, are available through the generosity of the McConnell Foundation. These are intended to enable graduate students in the Humanities and Social Sciences to undertake summer research towards the M.A. or Ph.D. degree. Apply in writing to the Fellowships Office of the Graduate Faculty before April 1. Applications must be supported by a letter of recommendation from the candidate's research adviser.

WILLIAM HENRY HOWARD SCHOLARSHIPS. — Three scholarships of $900 each bequeathed in 1955 by the late Mrs. Florence P. Howard in memory of her husband. Open to undergraduate and graduate students in Metallurgy, Chemical Engineering and Geological Sciences. Awarded and renewable by the Graduate Faculty Scholarships Committee upon the recommendations of the Departments concerned for scholastic ability and general promise.

T. STERRY HUNT AWARDS IN CHEMISTRY. — Four $200 awards for best demonstrating. Awarded by the Department of Chemistry. No application necessary.

INTERNATIONAL BUSINESS MACHINES FELLOWSHIPS. — A stipend of up to $4,000 per year to support graduate research and study in Computer Science. Renewable. Apply to the Director of the School of Computer Science before April 1.

LeROY MEMORIAL FELLOWSHIP IN GEOLOGICAL SCIENCES. — Value $1,500 established by friends of Captain O. E. LeRoy (Arts, 1895), who was killed at Passchendaele, in October, 1917. May be awarded annually to a student who desires to proceed with postgraduate studies in Geology at McGill. The recipient may be asked to assist in teaching in the Department. Awarded by the Chairman of the Department of Geological Sciences in consultation with the Principal.

J. B. LYNCH FELLOWSHIP IN GEOLOGICAL SCIENCES. — $3,000 for an outstanding student commencing or continuing postgraduate studies in Geological Sciences. Apply to the Dean of the Faculty of Graduate Studies and Research through the Department of Geological Sciences before February 1.

POST-GRADUATE FELLOWSHIPS

LYNDEN LAIRD LYSTER AWARD IN PARASITOLOGY. — Value approximately $3,500. Open to graduates of any university admitted as candidates for a Master's or Doctor's degree in Parasitology at McGill Apply by May 1 to the Dean of the Graduate Faculty through the Director of the Institute of Parasitology.

OTTO MAASS MEMORIAL FELLOWSHIP. — Value $4,300 per annum for graduate students in Chemistry, Chemical Engineering or Mechanical Engineering at McGill who are conducting their thesis research in the Pulp and Paper Research Institute of Canada. The fellowship is renewable and may be supplemented by nominal amounts of demonstrating in the University. Apply to the Chairman, Education Committee, Pulp and Paper Research Institute of Canada before February 1.

J. W. McCONNELL MEMORIAL FELLOWSHIPS. — These fellowships were established by the J. W. McConnell Foundation to support postgraduate studies and research at McGill University, and so to strengthen, in quality and in numbers, the academic staffs of Canadian universities and schools. The fellowships may be held by students registering in any postgraduate research program at McGill, but only those whose homes are in Canada or who intend to make their homes in Canada, are eligible to apply. The fellowships are intended to cover full fees, living expenses, the cost of books and such travelling as a Fellow's studies may require. The normal value of a first-year award is $3,600 plus fees, and further allowances are payable for dependents and for progression to upper years of study. The initial award is normally for a period of two years, but the fellowships are intended to carry a student through to a doctoral degree, and may normally be held up to the fifth year of a doctoral program (and for not more than five years). Fellows will be expected to spend the full calendar year (with the exception of a month's summer holiday) on their studies, and may not accept any remunerative appointment during the tenure of the fellowship without permission. Application forms may be obtained from the Fellowships Office of the Faculty of Graduate Studies and Research and completed forms must be returned to this office before February 1.

ALEXANDER McFEE FELLOWSHIP. — Value $3,500, open to graduates of any approved university who are resident full-time candidates for higher degrees or diplomas at McGill. The award will be made on a rotational basis in Physics, Chemistry, and Medical Sciences (with preference for Cancer research).

COLL McFEE MEMORIAL SCHOLARSHIP. — Established in 1968 from a bequest of the late Miss Julia Beatrice Anderson McFee in honour of her father Coll McFee and her brother Malcolm Charles Coll McFee, B.A. (1905), B.Sc. (1908), M.Sc. to a graduate student proceeding to the Master of Education (Chemistry) degree, or if a meritorious candidate does not apply, to a graduate of the McGill Chemistry course who is proceeding to an M.Sc. or Ph.D. degree in the Department of Chemistry. Send applications to the Chairman, Department of Chemistry, before June 1.

ISABELLA C. McLENNAN FELLOWSHIP. — $750. Awarded by the Graduate Faculty Scholarships Committee to a woman student in the Faculty of Graduate Studies and Research on the basis of academic merit and financial need. Apply to the Fellowships Office of the Graduate Faculty before February 1.

SIR VINCENT MEREDITH FELLOWSHIP IN AGRICULTURAL ECONOMICS. — $2,500 per year, tenable for a two-year period. Candidates must qualify for graduate work in Economics at the Ph.D. level and must pursue research or thesis work on an approved subject in the area of Agricultural Economics. Limited teaching or other duties are required. Apply to the Department of Agricultural Economics, Macdonald College, St. Anne de Bellevue, Quebec, before February 1.

MIRON FELLOWSHIP IN CONCRETE STUDIES. — Established by Miron Company Limited for advanced studies in some phase of the concrete industry in the Department of Civil Engineering. Value $900, plus an additional $300 to the University to be used in the best interests of the investigation. Applicants must be Canadian citizens, normally resident in Canada or those who have taken steps to become Canadian citizens, and graduates in science or engineering of a recognized university. Apply to the Dean of the Graduate Faculty through the Department of Civil Engineering before February 1.

FRANK L. MITCHELL FELLOWSHIP. — Value $4,300 per annum for graduate students in Chemistry, Chemical Engineering or Mechanical Engineering at McGill who are conducting their thesis research in the Pulp and Paper Research Institute of Canada. The fellowship is renewable and may be supplemented by nominal amounts of demonstrating in the University. Apply to the Chairman, Education Committee, Pulp and Paper Research Institute of Canada, before February 1.

THE RICHARD T. MOHAN SCHOLARSHIP. — Established in 1971 to honour the memory of the late Richard T. Mohan. To be awarded to a postgraduate student in the Department of Chemistry proceeding to the Ph.D. degree. Applications to the Chairman, Dept. of Chemistry, before June 1.

PULP AND PAPER RESEARCH INSTITUTE OF CANADA GRADUATE STUDENTSHIPS. — At least two studentships, value $3,500 per annum for graduate students in Chemistry, Chemical Engineering or Mechanical Engineering at McGill who are conducting their thesis research in the Pulp and Paper Research Institute of Canada. Renewable and may be supplemented by nominal amounts of demonstrating in the University. Apply to the Chairman, Education Committee, Pulp and Paper Research Institute of Canada, before February 1.

CLIFFORD B. PURVES FELLOWSHIP. — Value $4,300 per annum for graduate students in Chemistry, Chemical Engineering or Mechanical Engineering at McGill who are conducting their thesis research in the Pulp and Paper Research Institute of Canada. The fellowship is renewable and may be supplemented by nominal amounts of demonstrating in the University. Apply to the Chairman, Education Committee, Pulp and Paper Research Institute of Canada, before February 1.

QUEBEC IRON AND TITANIUM CORPORATION FELLOWSHIP IN METALLURGY. — Value $2,000 plus fees, plus a grant to the Department for research expenses. Open to graduates of any university admitted to McGill as candidates for a Master's or Doctor's degree in Metallurgy and related subjects, and is renewable. Apply to the Dean of the Graduate Faculty through the Department of Mining and Metallurgical Engineering before February 1.

CARL REINHARDT SCHOLARSHIPS AND BURSARIES IN PHYSICS AND GEOLOGICAL SCIENCES. — Established from the estate of the late Carl Reinhardt. To be used for scholarships or bursaries for undergraduate students in the Department of Physics and Geological Sciences, and for scholarships or bursaries or in the support of their research for graduate students. Awards are made by Fellowships Office, Faculty of Graduate Studies and Research on the recommendations of the Chairmen of the Departments concerned.

SOLVAY FELLOWSHIP. — Value $3,500 plus tuition fees, offered for the first year of study in the Faculty of Graduate Studies and Research. Tenable in any Department of the Faculty, and open to men and women equally. The holder must have graduated in any undergraduate Faculty of McGill in the session prior to that for which the award is given, and must obtain permission to proceed to graduate study. No teaching duties are required of the holder, who may not hold any other fellowship or bursary, nor receive a salary for teaching or other duties, during his tenure. Apply to the Fellowships Office of the Graduate Faculty before February 1.

STEINBERG GRADUATE FELLOWSHIPS. — Established by Mr. Sam Steinberg of Steinberg's Limited. Five fellowships of $3,000 each plus tuition fees for M.A. or Ph.D. students of outstanding merit in the Humanities and Social Sciences without restriction as to sex, race, creed or colour. Preference will be given to Canadian residents or to students likely to make a continuing contribution to Canadian life. Apply to the Fellowships Office of the Graduate Faculty before February 1.

IRVING ORRIN VINCENT BURSARY. — Established by Mrs. J. B. Owen in memory of her father, the late Irving Orrin Vincent, B.A. 1907, M.A. 1908, a noted teacher and Principal of Edward VII School in Montreal from 1912 until his death in 1920. Awarded annually by the Student Aid Office on the basis of academic merit and financial need to a graduate student in the Faculty of Arts proceeding towards an M.A. degree in Classics or Education, or M.Ed., or Doctorate in Classics or Education.

HARRISON WATSON SCHOLARSHIP. — Established in 1953 by a bequest from the late Harrison Watson and Ruth Appleton Watson in memory of their only son, Captain Aubrey Wentworth Harrison Watson, D.S.O., M.C. Value not less than $1,500, open to men and women graduates of an approved Faculty of Medicine or holders of M.Sc. or Ph.D. degrees or approved candidates for Ph.D. degrees at McGill who have completed one year of research and study towards their degree and also to candidates who have spent at least one year in postgraduate training. Awards of higher value may be made to candidates with higher qualifications. Renewable for two additional years. Preference is given to McGill graduates. The purpose of the scholarship is the encouragement of research into the causes and cure of tuberculosis and other diseases of an allied character. Tenable only at McGill unless the scholar is a graduate in Medicine of McGill in which case it is also tenable at an approved institution elsewhere. The holder must devote his full time for at least ten consecutive months to the object of the award. Application forms obtained from the Secretary of the Faculty of Medicine must be submitted before February 1.

ARTHUR WILLEY MEMORIAL BURSARY. — $540. To be awarded on the recommendation of the Biology Department. Apply to the Dean of the Graduate Faculty through the Department of Biology before February 1.

3.1.2 OPEN TO GRADUATES IN AGRICULTURE ONLY

WALTER M. STEWART POSTGRADUATE SCHOLARSHIP IN AGRICULTURE. — Value $1,000, established to permit promising students from the Faculty of Agriculture of Laval University to

undertake postgraduate studies at Macdonald College. Apply to the Dean of the Faculty at Laval before May 1 each year. Not awarded to students who would, including this scholarship, be in receipt of scholarships, fellowships, assistantships, etc. to a value of $2,000 or more per annum.

3.1.3 OPEN TO GRADUATES IN ARTS OR SCIENCE

PHILIP CARPENTER FELLOWSHIP IN BIOLOGY. — Value $1200, established in 1892 by Mrs. Philip P. Carpenter to provide "a postgraduate teaching fellowship or scholarship in Natural Science or some branch thereof in the Faculty of Arts of McGill College." Awarded to a graduate who has been in residence for at least one academic session and may be held in conjunction with a departmental demonstratorship. No application necessary. The Department makes the appointment from its current cadre of Demonstrators.

HEWITT MEMORIAL BURSARY FUND. — A bequest from the late Frederick T. O'Reilly-Hewitt in memory of his parents, the late Frederick Daniel Hewitt and the late Maria Stenson Hewitt for bursaries. Open to students in the Faculty of Arts or to students in the Humanities and Social Sciences in the Faculty of Graduate Studies and Research. Awarded by the Student Aid Office on the basis of financial need and academic promise without restriction as to sex, race, creed, or colour.

MARY KEENAN SCHOLARSHIP IN ENGLISH. — $200, awarded by the Department of English to a student proceeding at McGill from the B.A. to the M.A. in English. The need and ability of the student are considered.

KIMBERLY-CLARK OF CANADA FELLOWSHIP. — Value $3,000 (supplemented by $500 per year), open to graduate students in the Department of Chemistry who are conducting thesis research in the Physical Chemistry Division of the Pulp and Paper Research Institute of Canada. Apply to the Dean of the Graduate Faculty through the Department of Chemistry before February 1.

SAMUEL LAPITSKY SCHOLARSHIP. — $652. To be awarded on the joint recommendation of the Departments of Sociology and Anthropology. Apply to the Dean of the Graduate Faculty through the Departments of Sociology and Anthropology before February 1.

ALEXANDER MACKENZIE FELLOWSHIP IN POLITICAL SCIENCE. — Value $2,000, plus tuition fees. Tenable by a graduate of any accredited university, conditional upon his acceptance by the Faculty of Graduate Studies and Research in the field of Political Science. A certain amount of tutorial and teaching work is required. Under certain conditions, after consultation with the Department of Political Science, this fellowship may be held for a second or third year. Each candidate should send (i) a letter of application, (ii) a certified copy of his academic record, (iii) not more than three testimonials, to the Department of Political Science before February 1.

DAVID STEWART MEMORIAL FELLOWSHIPS. — Two fellowships, one in the Physical Sciences and one in the Biological Sciences, have been established by a bequest of the late Miss Agnes Stewart in memory of her father, the late David Stewart. Awarded to candidates who demonstrate ability of a high order and who are likely to enter a career of university teaching. For students in the first year of graduate study the value is $1,400 plus tuition fees, and $3,500 plus tuition fees for students in the upper years. Awarded for one year only but holders may apply for renewal. Apply to the Fellowships Office of the Graduate Faculty before February 1.

ARTHUR C. TAGGE FELLOWSHIP IN THE HUMANITIES AND SOCIAL SCIENCES. — Value $3,500, plus tuition fees. Tenable by a graduate of any approved university proceeding to a higher degree in any Department of the Humanities or the Social Sciences. Normally awarded for the first year of graduate study and not renewable, but exceptions may be made. Outstanding students in the last year of the undergraduate course, at McGill or elsewhere, should apply to the Fellowships Office of the Graduate Faculty before February 1.

XEROX FELLOWSHIP. — A fellowship of $4,500 established by Xerox Corporation for graduate research in Polymer Physical Chemistry and not normally renewable. Apply to the Dean of the Faculty of Graduate Studies and Research before February 1 through the Department of Chemistry.

3.1.4 OPEN TO GRADUATES IN ENGINEERING ONLY

SIR WILLIAM DAWSON FELLOWSHIP IN METALLURGY. — A research and teaching graduate award of $1,800, or one or more undergraduate awards totalling $1,800, in the Department of Mining and Metallurgical Engineering, endowed in memory of the late Sir William Dawson, principal of McGill University from 1855 to 1893. If, in any particular year, the Department has no candidate and for that same year the Department of Mining Engineering and Applied Geophysics has a suitable candidate for whom no fellowship is available this fellowship shall become available to the Department of Mining Engineering and Applied Geophysics.

JAMES DOUGLAS FELLOWSHIP IN MINING ENGINEERING. — A research and teaching fellowship of approximately $1,200 in the Department of Mining and Metallurgical Engineering endowed by the late Dr. James Douglas and open to qualified university graduates.

B. J. HARRINGTON BURSARY IN MINING ENGINEERING. — Approximately $600 supported by graduates in Mining Engineering in memory of the late Professor B. J. Harrington, awarded annually if a suitable candidate offers, and open to qualified university graduates.

MAJOR JAMES H. BRACE RESEARCH SCHOLARSHIPS. — A number of research scholarships, each $2,000 per annum, awarded from time to time to assist candidates for M.Sc. and Ph.D. degrees in engineering who wish to specialize in problems in thermodynamics, heat and mass transfer, hydraulics or aerodynamics, with particular relation to the development of equipment for the conversion of salt water to fresh water or for water pumping using solar or wind energy. Apply to the Director, Brace Research Institute, Macdonald College, Quebec.

IRON ORE COMPANY OF CANADA SCHOLARSHIPS. — Open to graduate students in Mining Engineering.

JOHN BONSALL PORTER SCHOLARSHIP. — Value $1,000, founded by Dr. W. W. Colpitts (B.Sc., 1899). Open to graduate students proceeding to the degree of M.Eng. in Civil, Mechanical, or Electrical Engineering, preferably in Civil Engineering. Apply to the Dean of the Faculty of Engineering not later than July 30. Applications from graduates of other universities must be accompanied by certified statements of academic standing and letters of recommendation.

HORACE G. YOUNG FELLOWSHIPS. — Awarded to graduates of McGill University who are conducting advanced research in mining or metallurgy. Two awards of $750 each are made annually, one tenable in the Department of Mining Engineering and Geophysics and the other in the Department of Metallurgical Engineering. In the event that there is no eligible student in one of the departments the two awards may be made in the other department. Awarded by the Faculty of Graduate Studies and Research on the recommendation of the Chairmen of the Departments of Mining and Metallurgical Engineering, to whom applications should be made before February 1.

WADDELL LOAN FUND. — Loans from this fund, founded by J. B. Waddell, may be made to graduates and undergraduates in any Department of Engineering. Apply to the Student Aid Office.

3.1.5 OPEN TO GRADUATES IN LAW ONLY

INSTITUTE OF AIR AND SPACE LAW SCHOLARSHIPS AND FELLOWSHIPS. — These may be available at a value of $1,750 to $2,500. Candidates must hold a law degree of high standing from an approved law school or must have equivalent professional standing. Apply to the Institute of Air & Space Law for further information before February 1.

3.1.6 OPEN TO GRADUATE STUDENTS IN MANAGEMENT ONLY

GOVERNMENT OF QUEBEC GRADUATE SCHOLARSHIPS. Competition is open only to Canadian citizens and to those who may certify that they are landed immigrants and that they have been residing in Quebec for one year at the time of their application. Type 2B — M.B.A. Scholarships (Jeunes Administrateurs). 50 scholarships available, valued at up to $6,000 for single students and up to $8,000 for married students, tenable for a period of 12 months. Applicant must hold a first university degree with two years of full-time experience in Quebec in some executive capacity in the field of industry, commerce or business or possess training or experience recognized as equivalent. Apply to the Student Aid Office, F. Cyril James (Administration) Building, McGill University, before January 15. Completed application forms must be returned to the Student Aid Office no later than January 31.

H. E. HERSCHORN GRADUATE SCHOLARSHIP. — Established in 1965, covering the amount of the current tuition fees and tenable by a student entering either the First or the Second year of the M.B.A. program. Apply to the Dean of the Faculty of Management.

McGILL ASSOCIATES GRADUATE FELLOWSHIPS IN MANAGEMENT. — Established by the McGill Associates, a group of Montreal business and professional men interested in the University, to ensure that the graduate degree program of the McGill Faculty of Management continues to attract students of a high academic and professional calibre. A number of fellowships are available, each with an annual value of up to $3,600, for students at the Master's level. This amount may be increased in the case of students proceeding to a doctoral degree. These fellowships are open to students registered in any postgraduate degree program of the Faculty of Management. Apply to the Dean of the Faculty of Management before May 1.

RODGIE McLAGAN FELLOWSHIPS IN MANAGEMENT. — Two fellowships of $1,500 each have been established by Canada Steamship Lines for graduate study in management. Apply by letter to the Dean of the Faculty of Management before May 1.

SEAGRAM BUSINESS FELLOWSHIPS OF THE SAMUEL BRONFMAN FOUNDATION. — Eight Type A awards of $1,000 are given annually by this foundation to first or qualifying year students enrolled in a Master's degree program. Eligibility is limited to Canadian citizens. Applicants for first year fellowships may apply directly to: Professor Jean-Paul Sallenave,

Awards Chairman, Canadian Association of Administrative Sciences, Faculty of Administration, Sherbrooke University, Sherbrooke, Quebec. Completed applications must be received before May 18.

Four Type B fellowships of $1,600 are given annually by this foundation to students in their final year of a Master's program or in any year of a Doctoral program. Eligibility is limited to Canadian citizens. Applications are submitted on behalf of candidates by the Dean of the Faculty of Management and interested students should contact him before March 1.

SOCIETY OF INDUSTRIAL ACCOUNTANTS OF CANADA BUSINESS FELLOWSHIPS. — Five fellowships of $1,200 each are available annually to students enrolled in a graduate business program at Canadian universities. Awards are to be granted to students whose program indicates an interest in Management Accounting and Accounting Research. Apply before April 1 to: Administrative Secretary, Fellowships Selection Committee, Society of Industrial Accountants of Canada, P.O. Box 176, 154 Main Street East, Hamilton, Ontario.

XEROX OF CANADA LIMITED FELLOWSHIP IN MANAGEMENT. — Value $2,000, established as a centennial project by Xerox of Canada Limited to encourage management studies at the graduate level. Open to students in the M.B.A. program and awarded by the Scholarships Committee of the Faculty of Management. Apply to the Dean of the Faculty of Management before May 1.

3.1.7 OPEN TO GRADUATES IN MEDICINE ONLY

A. A. BROWNE MEMORIAL FUND. — This fund of $10,000 is used either for a fellowship to be known as the "A. A. Browne Memorial Fellowship," or for a grant to a department to provide technical assistance, equipment, and supplies for medical research. The fellowship is open to graduates of any recognized medical school and is for the advancement of medical science, especially in Obstetrics and Gynaecology. Apply to the Secretary of the Faculty of Medicine.

JAMES COOPER ENDOWMENT FOR THE STUDY AND TEACHING OF INTERNAL MEDICINE. — The income from a bequest by the late James Cooper is used for fellowships or for grants to departments to provide technical assistance, equipment, and supplies for medical research.

JAMES DOUGLAS FELLOWSHIP IN PATHOLOGY. — The income from a donation of $25,000 by the late Dr. James Douglas, is devoted to co-ordinated research in the laboratories of pathology in or associated with the University.

BLANCHE HUTCHINSON RESEARCH FUND. — The income from a bequest from the late Mrs. Frank L. Hutchinson is used for fellowships or for grants to departments to provide technical assistance, equipment, and supplies for medical research.

RICHARD COLLIER FitzGERALD FUND. — The income from a bequest by the late Mr. Frederick D. FitzGerald is used for fellowships or for grants to departments to provide technical assistance, equipment and supplies for medical research, especially on the subject of cancer.

PERCY HERMANT FELLOWSHIPS IN OPHTHALMOLOGY. — These fellowships of $2,000 each have been established by Mr. Percy Hermant. Normally two are awarded each year. Candidates must be graduates in Medicine of McGill or other approved medical schools, must be commencing the study of Ophthalmology at McGill and must be planning to practise this specialty in Canada. Apply to the Chairman, Department of Ophthalmology, McGill University.

JAMES O. MEADOWS AND MARIA MEADOWS AWARDS. — A bequest of $200,000 from the late Dame Maria Cowan Meadows to establish awards for undergraduates or graduates in the Faculty of Medicine for the purpose of supporting research. Preference will be given to candidates working in the field of Cancer Research, but worthy candidates working in other areas of medical or surgical research will also be considered. Apply to the Dean of the Faculty of Medicine.

GEORGE W. MERCK MEMORIAL LOAN FUND. — Established in 1960 to provide loans up to $600 to graduates of any approved medical school who are internes or residents in one of the McGill teaching hospitals. Apply to the Director of the hospital who will submit applications to the Dean of the Faculty of Medicine.

H. W. MOLSON FELLOWSHIP IN CANCER RESEARCH. — Value not less than $1,000, renewable for not more than four years, and open to graduates of any recognized medical school. The course of training and research will be decided by the Strathcona Professor of Pathology and the Professor of Obstetrics and Gynaecology, and will ordinarily comprise one or more years of study in the Pathological Institute followed by clinical research in the Royal Victoria Hospital. Apply to the Dean of the Faculty of Medicine.

FELLOWSHIPS IN NEUROLOGY, NEUROPATHOLOGY, AND NEUROSURGERY. — A limited number of fellowships may be available in the Montreal Neurological Institute, to which inquiries should be directed.

IZAAK WALTON KILLAM SCHOLARSHIPS. — Established in 1966 by a generous bequest to the Montreal Neurological Institute by the will of the late Mrs. Dorothy Killam, for advanced study

in the fields of Neurology, Neurosurgery and the related basic disciplines. Open to all, but preference given to Canadians and scientists planning to immigrate to Canada. Value $4,000-$8,000 depending on the candidate's qualifications. Apply in writing to the Director of the Montreal Neurological Institute by March 1.

SIR EDWARD W. BEATTY MEMORIAL SCHOLARSHIPS FOR MEDICAL STUDENTS. — A fund of $100,000 was bequeathed by the late Dr. Henry Albert Beatty, the income from which provides two scholarships, not necessarily of equal value, awarded annually to students of either sex and of any nationality. Open to (i) students registered in the McGill Faculty of Medicine as candidates for the M.D.,C.M. degree, (ii) graduates of an accredited Faculty of Medicine registered for postgraduate degrees, (iii) graduates of an accredited Faculty of Medicine registered for a postgraduate diploma in a clinical specialty, (iv) graduates of an accredited Faculty of Medicine who are employed in a year of research as part of their residency training program. For students who hold or are working towards the McGill M.D.,C.M. the award may be held at any approved institution in Canada or abroad. For other qualified students the award must be held at McGill. The holder is expected to devote his year of tenure either to research or to some form of special training excluding the normal training towards the M.D.,C.M. and excluding any of the years of residency training required in the Diploma courses. Awarded by the Faculty of Medicine but not unless suitable candidates present themselves. Apply to the Dean's Office on the forms provided for this purpose on or before February 1 of the year in which the scholarship is to commence.

JEANNETTE AND ABRAM VICTOR MEMORIAL SCHOLARSHIP. — Of the approximate value of $550, open to graduates of any approved medical school and who are principally engaged in research upon the physiology of the heart, or its diseases. The scholar may hold another award or position. Apply to the Secretary of the Faculty of Medicine by February 1.

JOSEPH SCHUBERT MEMORIAL SCHOLARSHIP. — The terms of this award of the approximate value of $450 are similar to those of the Jeannette and Abram Victor Memorial Scholarship.

SAMUEL LUPOVICH MEMORIAL SCHOLARSHIP. — Of the approximate value of $400, open to graduates of any approved medical school and who are principally engaged in research upon the physiology of the blood, or its diseases. Apply to the Secretary of the Faculty of Medicine by February 1.

JOSEPH McABBIE SCHOLARSHIP. — $1,000, established by a bequest from the late Joseph McAbbie for research on asthma and asthmatic bronchitis. Apply to the Secretary of the Faculty of Medicine by February 1.

CORINNE FAY TABAC MEMORIAL AWARD IN MEDICINE. — Established by the family and friends of the late Corinne Fay Tabac, in her memory, for the support of established investigators doing research closely allied to the study of Hodgkins Disease. Awarded annually by the Postgraduate Awards Committee of the Faculty of Medicine.

DR. MILTON C. AND NINA E. WILSON AWARD. — Established in 1970 by bequest from the late Dr. Milton C. Wilson, the annual income to be available for the support of undergraduate or postgraduate students in the Faculty of Medicine who are in need of financial assistance. Awarded by the Dean of Medicine.

HIRAM N. VINEBERG RESEARCH FUND. — The income from a bequest by the late Dr. Hiram N. Vineberg to be used for fellowships or for grants to departments to provide technical assistance, equipment and supplies for medical research.

IRMA H. BAUER RESEARCH FUND. — The income from a bequest by the late Irma H. Bauer to be used for research in the field of epilepsy.

3.1.8 OPEN TO GRADUATES IN RELIGIOUS STUDIES ONLY

SAMUEL FINLEY MEMORIAL BURSARY. — Usually $150, available to a student enrolled in the Faculty of Graduate Studies and Research who is pursuing advanced studies in religion or theology, awarded at the discretion of the Dean of Religious Studies.

3.2 FELLOWSHIPS AND SCHOLARSHIPS TENABLE AT McGILL UNIVERSITY OR ELSEWHERE

3.2.1 OPEN TO GRADUATES IN TWO OR MORE FACULTIES

GULF OIL CANADA LIMITED GRADUATE FELLOWSHIPS. — Nine fellowships of $3,500 each, plus $1,000 for research expenses. Candidates must be Canadian citizens or landed immigrants who are graduates of institutions which are members of the Association of Universities and Colleges of Canada, and are tenable at any such university. Awarded to candidates in engineering, chemistry, physics, mathematics, computer sciences, geology, geophysics, and

any related sciences, business and management studies, and ecologically-oriented studies. Apply to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont. Completed applications must reach the Director before March 1.

DEPARTMENT OF AGRICULTURE AND COLONIZATION SCHOLARSHIPS. — Through the Agricultural Research Council, scholarships leading to a postgraduate degree in various disciplines in agricultural science are offered to Quebec residents. Application forms can be obtained from the Registrar, Macdonald College, or from the Secretary, Quebec Agricultural Research Council, Department of Agriculture and Colonization, Quebec, Que.

BELL CANADA CENTENNIAL FELLOWSHIPS. — Up to a total of eight graduate fellowships in the amount of $3,500 to Fellow and $1,500 to University (Fellow's tuition fees will be paid out of the $1,500) will be given annually: four of which will be new awards. Candidates must be Canadian citizens or must have held landed immigrant status for one year prior to submitting an application. Applicants must be graduates of a university or college with standards accepted by the A.U.C.C. The field of study is unrestricted, but preference will be given to subject areas relevant to the scientific, political, social or economic needs of Canada. On completion of the fellowship, three copies of a thesis or reasonably detailed account of the work done should be sent to the Director of Awards, A.U.C.C., who in turn will forward two copies to Bell Canada. Apply before March 1 to Director of Awards, A.U.C.C., 151 Slater Street, Ottawa 4, Ont.

GEORGE A. CALLBECK SCHOLARSHIP. — $3.000 offered by the Canadian National Silver Fox Breeders' Association for research and preparation of a thesis on the History of the Silver Fox Industry in Canada. Open to graduate students with a degree in Agriculture or Economics from Canadian universities. Apply to Chairmen of Departments of Agriculture or Economics. For further information apply to Mr. L. K. Lockerby, Canadian National Silver Fox Breeders Association, Summerside, P.E.I.

CENTRAL MORTGAGE AND HOUSING CORPORATION GRADUATE FELLOWSHIPS. — Fellowship stipends are $3,000 plus tuition fees for students proceeding to a master's degree and $4,000 plus tuition fees for post-master's candidates proceeding to a doctoral degree. Tenable in a broad range of fields involved in understanding and dealing with urban regional environment. Candidates must be recommended by the University and must be Canadian citizens or landed immigrants in Canada. Application forms and information are available from: Administrator, Advisory Group, Central Mortgage and Housing Corporation, Ottawa. Deadline dates: March 1 for study at Canadian universities and April 1 for study at universities outside Canada.

CHEVRON STANDARD LIMITED GRADUATE FELLOWSHIPS. — Five fellowships of $1,000 each tenable at Canadian universities for one year in the fields of Geological Sciences or Geophysics by male Canadian students. Apply to the Fellowships Office of the Faculty of Graduate Studies and Research. Completed forms should be returned to Chevron Ltd. before March 31.

COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN. — Provides opportunities for Commonwealth students to pursue advanced courses in other Commonwealth countries. Intended for men and women of high intellectual promise who may be expected to make a significant contribution to their own countries on their return from study abroad. At present, graduate scholarships are available for study in the United Kingdom, Australia, New Zealand, Hong Kong, Malaysia, Malta, India, Ceylon, Tanzania, Nigeria, Pakistan, Ghana, Jamaica and Sierra Leone, and the Canadian Government offers scholarships for other Commonwealth students to study in Canada. Awards are normally made for two academic years and cover return transportation, tuition fees, personal maintenance allowance, and a grant for incidental expenses. Deadline dates for receipt of applications vary according to each country. Full information and application forms may be obtained from the Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont.

McGILL DELTA UPSILON MEMORIAL SCHOLARSHIP. — Present value $3,000. Founded by the McGill Chapter of the Delta Upsilon Fraternity in memory of its members who gave their lives in the Boer War, the Great War of 1914-18, and the Second World War of 1939-45. Open to graduates of McGill University in all faculties and tenable for graduate study at any recognized university. Applications should be made by letter to the Secretary, University Scholarships Committee, Registrar's Office by April 1. Letter must include details of qualifications; plans for graduate study; financial need; intended future career; and the names of two professors to whom the Selection Committee members may refer for recommendations. The usefulness to the community of the proposed studies, and the likelihood that the candidate will reflect credit on the University, will be taken into consideration.

HAROLD H. HELM FELLOWSHIPS. — Tenable during 1973-74 by men who hold a Bachelor's degree from McGill and are registered in any Department of the Graduate Faculty of Princeton University. In alternate years tenable at McGill by a Princeton graduate. Non-renewable. Value $1,400 plus fees. McGill students apply in writing to the Dean of the Graduate School at Princeton; Princeton students apply similarly to the Dean of the Graduate Faculty at McGill, in each case before February 1.

HENNESSY FELLOWSHIP. — A fellowship of $3,000 to be awarded annually for a period of five years for first year graduate study in any field at any university. This award is tenable for one year only. Applicants should apply to the Fellowships Office of the Faculty of Graduate Studies and Research before February 1, giving a curriculum vitae, the names of three referees, details of the proposed study and academic transcripts.

IMPERIAL OIL GRADUATE RESEARCH FELLOWSHIPS. — Five fellowships of $3,000, renewable up to three years, offered by Imperial Oil Limited to graduates of approved Canadian universities for research leading towards a Doctor's degree at any approved university in the following fields:

Pure and Applied Natural and/or Exact Sciences, including Mathematics:
Three fellowships.

Social Sciences and Humanities:
Two fellowships.

Applications are forwarded by the University at which the undergraduate course was followed, and application forms can be obtained from the Fellowships Office, Faculty of Graduate Studies and Research. Completed applications must be submitted to the Secretary, Committee on Higher Education, Imperial Oil Limited, 111 St. Clair Avenue West, Toronto 7, Ontario, not later than February 1.

INTERNATIONAL NICKEL OF CANADA FELLOWSHIPS. — Awards of $3,800 (plus $700 for research expenses) renewable up to three years, and open in the fields of Metallurgy, Mining, Geology, and the Chemistry and Physics of Metals. Applications are made by the professor directing the research, and should reach the Dean of the Graduate Faculty by January 1.

NATIONAL CANCER INSTITUTE RESEARCH FELLOWSHIPS. — Fellowships from $3,500 to $8,000, plus allowance for dependent children, normally tenable in Canada, are offered in the field of cancer research to men or women graduates of approved universities. Apply on official forms to the National Cancer Institute of Canada, 25 Adelaide St. E., Toronto 1, Ont., by December 15.

NATIONAL RESEARCH COUNCIL SCHOLARSHIPS. — Scholarships of the value of $4,050 are awarded by the National Research Council to highly qualified honours graduates and graduate students for study and research in the Natural Sciences (Biological & Physical), Mathematics, Engineering, Experimental Psychology and the basic sciences in Agriculture. Available for Canadian citizens and landed immigrants who have completed one year of study at a Canadian university at the time of application. Application forms available from departments and the Graduate Faculty, to be sent to the Faculty of Graduate Studies and Research. Applications must be made before December 1. These awards are normally tenable in Canada only but under special circumstances may be used in other countries. The awards are renewable for a second year and subsequent years. For further information apply to the Fellowships Office of the Faculty of Graduate Studies and Research.

NORANDA GRADUATE RESEARCH FELLOWSHIPS. — Awards of $4,000 (plus $1,000 for equipment and other expenses) renewable up to three years, and open in the fields of Mining, Mineral Engineering, Extractive Metallurgy, Chemical Engineering, Electrochemistry, Inorganic Chemistry, Physical Metallurgy, and Materials Science. Application should be made through the appropriate university department to the Director of Research and Development, Noranda Research Centre, 240 Hymus Boulevard, Pointe Claire, Quebec, not later than April 1. Recipients of Fellowships will be notified by May 1. Preference will be given to Canadian citizens.

BANK OF NOVA SCOTIA BILINGUAL EXCHANGE SCHOLARSHIPS. — Six annual one-year undergraduate and graduate awards are available, three to French-speaking candidates and three to English-speaking candidates. Undergraduate awards are for $1,500 tenable in the second to last year of a first university degree program. Graduate awards are for $3,000 and graduate students will be expected to outline their proposed programs of study. English-speaking winners may attend any Canadian French-speaking university or college and French-speaking winners may attend any Canadian English-speaking university or college provided it is a member, or federated with, or affiliated to, a member of the Association of Universities and Colleges of Canada. Apply to Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont. Completed applications must be sent to the above address to arrive not later than March 1.

PROVINCE OF QUEBEC DEPARTMENT OF NATURAL RESOURCES SCHOLARSHIPS. — Open to Canadian citizens, resident in Quebec for the five preceding years, pursuing postgraduate courses in hydraulics, hydro-electricity, hydrology or meteorology. Candidates must submit proof of admission to the institution at which they wish to study. Value $1,500. Renewable. Apply before May 1 to the Secretary, Scholarships Committee, Quebec Department of Natural Resources, Parliament Buildings, Quebec, Que.

PROVINCE OF QUEBEC, DEPARTMENT OF NATURAL RESOURCES, MINERAL INDUSTRY BURSARIES. — Open to Canadian citizens resident in Quebec during the 5 preceding years, and

following postgraduate courses in Geological Sciences, Mining, or Metallurgy. Amount awarded varies from year to year. Application forms and instructions available from Scholarships Committee, 1620, Boulevard de l'Entente, Quebec City. Deadline variable, about February 1.

PROVINCE OF QUEBEC POSTGRADUATE SCHOLARSHIPS. — Value varies from an honorary award of $100 to a maximum of $3,500, available for students pursuing graduate work in the arts, sciences, or technology, in Canada or elsewhere. Open to men and women who have resided in the Province of Quebec for at least one year. Completed new application forms must reach the Department of Education, Postgraduate Scholarships Service, Parliament Buildings, Quebec 4, Que., before December 31 and renewal applications by February 15.

SEAGRAM BUSINESS FELLOWSHIPS OF THE SAMUEL BRONFMAN FOUNDATION. — Eight Type A awards of $1,000 are given annually by this foundation to first or qualifying year students enrolled in a Master's degree program. Eligibility is limited to Canadian citizens. Applicants for first year fellowships may apply directly to: Professor Jean-Paul Sallenave, Awards Chairman, Canadian Association of Administrative Sciences, Faculty of Administration, Sherbrooke University, Sherbrooke, Quebec. Completed applications must be received before May 18.

Four Type B fellowships of $1,600 are given annually by this foundation to students in their final year of a Master's program or in any year of a Doctoral program. Eligibility is limited to Canadian citizens. Applications are submitted on behalf of candidates by the Dean of the Faculty of Management and interested students should contact him before March 1.

SOCIETY OF INDUSTRIAL ACCOUNTANTS OF CANADA BUSINESS FELLOWSHIPS. — Five fellowships of $1,200 each are available annually to students enrolled in a graduate business program at Canadian universities. Awards are to be granted to students whose program indicates an interest in Management Accounting and Accounting Research. Apply before April 1 to: Administrative Secretary, Fellowships Selection Committee, Society of Industrial Accountants of Canada, P.O. Box 176, 154 Main Street East, Hamilton, Ontario.

WALTER C. SUMNER MEMORIAL FELLOWSHIPS. — Awards of $4,000 to $5,000 are available to doctoral candidates in the fields of Chemistry, Physics, or Electronics, who are in full time attendance at Dalhousie University, University of Toronto, McGill University, University of Saskatchewan, University of British Columbia, or Queens University. May be held for up to two years. An applicant must hold a degree from a recognized Canadian university other than the university where doctoral studies and research will be carried on, must be a Canadian citizen, and must be domiciled in one of the provinces of Canada. Applications to be made to the Walter C. Sumner Foundation through the university at which doctoral studies and research will be carried on. Further details and application forms may be obtained from the Faculty of Graduate Studies and Research.

3.2.2 OPEN TO GRADUATES IN ARTS OR SCIENCE

CANADA COUNCIL SCHOLARSHIPS AND FELLOWSHIPS. — The Canada Council offers (a) fellowships of $3,500 plus travel allowance, for study leading to a Doctor's degree, in Canada or elsewhere, (b) senior fellowships of $4,500 plus travel allowance, for established scholars and teachers for study outside Canada, (c) scholarships up to $5,500 for secondary schoolteachers seeking further training, etc., (d) non-resident fellowships with a maximum value of $5,000 plus travel allowance for study in Canada. Short-term grants in aid of research are also available to postdoctoral scholars and other senior members of university staffs. All these awards are restricted to the humanities and social sciences, and also to residents in Canada or Canadians abroad. Application forms and further information may be obtained from Departments and the Graduate Faculty as well as the Secretary, The Canada Council, P.O. Box 1047, Ottawa, Ontario K1P 5V8. The deadline for receiving applications in Ottawa differs in the various categories but in most cases is December 15 and can be as early as October 1.

ALLEN OLIVER FELLOWSHIP IN ECONOMICS. — Present value about $1,000. Established by Mrs. Frank Oliver, of Edmonton, Alta., in "proud and loving memory of her son, the late Allen Oliver, M.C., B.A., Lieutenant, 26th Battery, C.F.A., who was killed in action at the Somme on November 18, 1916." Lieutenant Oliver was an honour graduate in 1915 in the Department of Economics and Political Science. Awarded to the student who stands highest in first class honours in the Departments of Economics and Political Science at the final B.A. examination, and the holder is required to pursue his studies in Economics and Political Science at McGill or elsewhere. No application is required.

DOW-HICKSON FELLOWSHIP IN THEORETICAL PHILOSOPHY. — Endowed by the late Professor J. W. A. Hickson. Minimum value $1,750, with maximum (in special cases) of $2,750. Tenable by a graduate of any approved university proceeding to a higher degree in Theoretical Philosophy (Metaphysics, Epistemology, Logic, History of Philosophy) at McGill, or by a McGill graduate pursuing such studies elsewhere. The holder may apply for a second year

of tenure. Apply to the Dean of the Graduate Faculty through the Philosophy Department before February 1.

DOW-HICKSON FELLOWSHIP IN PHYSICS. — Endowed by the late Professor J. W. A. Hickson. Minimum value $1,750, with maximum (in special cases) of $2,750. Tenable by a graduate of any approved university proceeding to a higher degree in any branch of Physics at McGill, or by a McGill graduate pursuing such studies elsewhere. The holder may apply for a second year of tenure. Apply to the Dean of the Graduate Faculty through the Physics Department before February 1.

EMILE LAMOUREUX MEMORIAL BURSARY, MONTREAL ANGLERS AND HUNTERS INC. — $300, open to graduate students in wildlife biology at Université de Montréal, Sir George Williams University, Université du Québec à Montréal, McGill University and/or Macdonald College. Application forms may be obtained from the Secretary, Montreal Anglers and Hunters Inc., 6424 St. Denis, Montreal and must be submitted by April 1.

3.2.3 OPEN TO STUDENTS IN EDUCATION ONLY

SPECIAL GRADUATE SCHOLARSHIPS. — The Department of Education, Quebec, awards competitive scholarships of $1,200 per year to students of high academic standing who are prepared to enrol in a three-year program leading to a Class I Teaching Diploma and an M.A. in education or in a subject which is taught in school. Apply to the Student Aid Service, Parliament Buildings, Quebec, P.Q.

3.2.4 OPEN TO GRADUATES IN ENGINEERING ONLY

SHELL CANADA FELLOWSHIPS IN ENGINEERING. — Maximum value $4,500. Shell Canada Limited is offering a number of fellowships for postgraduate study and research, tenable at any Canadian university, in the following fields: Chemical, Civil, Electrical, Geological, Mechanical, Metallurgical, Mining and Petroleum Engineering, and Engineering Physics. Available to Canadian citizens or landed immigrants, under 25 years of age, who have completed with high honours a first degree in engineering and have completed, or expect to complete during the current academic year, at last one year of postgraduate research in one of the specified fields and who plan to complete a doctorate in Canada. In exceptional cases, graduates of Canadian universities may be considered without having carried out a year of postgraduate study. Applications should be submitted by January 15. Application forms may be obtained from the Fellowships Office of the Graduate Faculty.

STEEL COMPANY OF CANADA, LIMITED GRADUATE RESEARCH FELLOWSHIPS IN METALLURGY. — Four fellowships of $5,000 for metallurgical research in Canadian universities are granted each year, $4,000 to the winner and $1,000 to the university attended. Candidates must be Canadian citizens or have held landed immigrants status for one year prior to submitting application, and must be graduates of a Canadian university or college which is a member of the Association of Universities and Colleges of Canada. Apply to the Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont. Completed forms must arrive at the above address before March 1.

3.2.5 OPEN TO GRADUATES IN LAW ONLY

EDWIN BOTSFORD BUSTEED SCHOLARSHIP. — Value approximately $750 and can be used to supplement funds for graduate studies already received from other sources. Bequeathed by the late Mrs. Edwin Botsford Busteed in memory of her husband, Edwin Botsford Busteed, K.C., B.A., B.C.L. Awarded by the Law Faculty to an applicant, for graduate research on some subject connected with the law of Quebec and approved by the Faculty.

3.2.6 OPEN TO GRADUATES IN MEDICINE ONLY

SIR EDWARD W. BEATTY MEMORIAL SCHOLARSHIPS FOR MEDICAL STUDENTS. — A fund of $100,000 was bequeathed by the late Dr. Henry Albert Beatty, the income from which provides two scholarships, not necessarily of equal value, awarded annually to students of either sex and of any nationality. Open to (i) students registered in the McGill Faculty of Medicine as candidates for the M.D.,C.M. degree, (ii) graduates of an accredited Faculty of Medicine registered for postgraduate degrees, (iii) graduates of an accredited Faculty of Medicine registered for a postgraduate diploma in a clinical specialty, (iv) graduates of an accredited Faculty of Medicine who are employed in a year of research as part of their residency training program. For students who hold or are working towards the McGill M.D.,C.M. the award may be held at any approved institution in Canada or abroad. For other qualified students the award must be held at McGill. The holder is expected to devote his year of tenure either to research or to some form of special training excluding the normal training towards the M.D.,C.M. and excluding any of the years of residency training required in the Diploma courses. Awarded by the Faculty of Medicine but not unless suitable candidates present themselves. Apply to the Dean's Office on the forms provided for this purpose on or before February 1 of the year in which the scholarship is to commence.

G. RUTHERFURD CAVERHILL FELLOWSHIP IN MEDICINE. — A fellowship of variable value to assist demobilized medical officers to obtain postgraduate training in medicine or research experience. Preference given to McGill graduates. Inquire of the Dean of the Faculty of Medicine.

JOHN McCRAE FELLOWSHIP. — Approximate value of $1,800, for: (1) Graduates of any approved medical school who are candidates for the Diploma in Surgery, Urology, Otolaryngology, Radiology, etc., or (2) McGill graduates in Medicine, or (3) graduates of any approved medical school proceeding towards a McGill M.Sc. or Ph.D. in fields related to Surgery, etc. In all cases the holder is expected to spend twelve months in full-time laboratory or clinical research at McGill or an approved institution elsewhere. Apply to the Dean of the Faculty of Medicine not later than April 1, with a letter of recommendation from a member of the teaching staff, transcript of the undergraduate record, and description of the proposed research naming the institution selected and its director. Tenure should commence not earlier than June nor later than October; a final report on the work done is required. In all cases preference is given to candidates aiming at a course in Surgery and to researches likely to contribute to Surgery and its branches.

OSLER MEMORIAL SCHOLARSHIP. — Awarded by the Canadian Medical Association as funds permit to a candidate nominated by the Faculty of Medicine "in order that such candidate may pursue studies to advance the knowledge of medicine and to improve the teaching of clinical medicine." Candidates must be graduates of not more than ten years' standing and, other things being equal, preference is given to McGill graduates.

GORDON PHILLIPS FUND FOR RESEARCH IN CARDIOVASCULAR DISEASES. — This fund provides a scholarship of not less than $1,600, open to graduates in Medicine of any approved medical school regardless of sex, race or religion. Awards to McGill graduates in Medicine may be held at McGill or at any other approved institution. Awards made to other graduates in Medicine must be held at McGill University. Apply to the Secretary of the Faculty of Medicine by February 1.

3.3. FELLOWSHIPS AND SCHOLARSHIPS TENABLE AT OTHER UNIVERSITIES ONLY

See also Section 3.2.

3.3.1 OPEN TO GRADUATES IN SEVERAL FACULTIES

CULTURAL AGREEMENT FRANCE-CANADA GRADUATE SCHOLARSHIPS. — These scholarships are offered by the Government of France and are unrestricted as to field of study and are tenable in France. Value, 500 French francs per month (possibly up to 750 French francs per month for Ph.D. candidates), plus return economy air fare and refund for medical, dental, hospital and pharmaceutical expenses and various indemnities towards lodging, relevant travel expenses, thesis typing expenses, free tuition and the benefit of students privileges (university restaurants, residences, cultural and social activities). No funds are available for dependents. Open to Canadian citizens or to those who have held landed immigrant status for at least one year prior to submitting application. A good knowledge of French is essential. For further information apply to: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa 4. Closing date for receipt of applications is December 31.

FRANCE QUEBEC EXCHANGE PROGRAM.—

Scholarships offered to Quebec Graduate Students:

The French Government offers scholarships to Quebec graduate students who wish to study in France. Preference is given to students specializing in the following areas: pure and applied science, economics, town planning, and the teaching of French, although candidates from other disciplines can apply as well. The amount of the scholarship is 1,500F (approximately $300) a month and is offered for a nine-month period. The scholarship is renewable upon request. Travelling expenses are also covered.

Information and application forms are available at the French Consulate in Montreal. Application forms must be returned to the French Consulate by January 15, 1974. (Consulat général de France, Place Bonaventure, Etage E, 2 rue Elysée; Tel.: 878-4381.)

Placement of Graduate Students in French Research Centres:

The purpose of this project is to send Quebec graduate students to France for a year as research assistants in order to familiarize them with French laboratories and research centres. Students should be registered in a Quebec university and pursuing a Ph.D. program, *preferably* in one of the following areas: pure sciences, applied sciences, management and administra-

tion, and economics. Candidates with a strong case from other areas are also invited to submit an application.

Application forms and further information are available from the Fellowships Office of the Faculty of Graduate Studies and Research. The deadline for submitting an application is January 31, 1974.

ROTARY FOUNDATION FELLOWSHIP. — Approximately $4,000. The Rotary Foundation of Montreal, District 704, offers a Graduate Fellowship for study abroad each year. Requirements for candidates (male or female) are: bachelor's degree or equivalent, age 20-28 inclusive, may be married. The award covers round trip transportation, room and board, tuition and miscellaneous related expenses for one academic year. Preference is given to applicants who wish to study in a country where the native language is different from their own. For further information and application forms, write to the Rotary Club of Montreal, Queen Elizabeth Hotel, Suite 373, Montreal. Date limit for receiving applications is March 1.

ROYAL COMMISSION FOR THE EXHIBITION OF 1851 OVERSEAS SCIENCE RESEARCH SCHOLARSHIPS. — Value £900 per annum, plus £100 a year to cover University fees. Tenable for two or exceptionally, three years, to enable students to devote themselves to research work under conditions most likely to equip them for practical service in the scientific life of the Commonwealth. The holder must devote himself to a field of research approved by the Commissioners. Three scholarships, tenable at any institution approved by the Commission (usually universities in the United Kingdom), are allotted to Canada each year, the scholars being chosen by the Commission from nominees of certain universities, including McGill. Candidates will in most cases have completed from one to three years of postgraduate study and must present evidence of accomplishment in research, either published papers or typewritten reports or theses. Candidates should apply, not later than February 15, through the Chairman of their Department. Further details may be obtained from the Fellowships Office, Faculty of Graduate Studies and Research.

POSTGRADUATE SCHOLARSHIPS GRANTED BY THE I.O.D.E. — The I.O.D.E. has established First and Second War Memorial Scholarships in order to perpetuate the memory of the men and women who gave their lives in World Wars I and II. Four scholarships are offered annually to enable students to carry on studies in History, Economics, Constitutional Government or any subject vital to the interests of the Commonwealth and six scholarships are offered for studies in the Humanities. These ten awards are tenable in any university in Great Britain or in any part of the Commonwealth and are valued at $5,000 each. Scholarships tenable in a university in Canada are valued at $3,000 each. Candidates must be Canadian citizens holding a degree from a recognized university or degree-granting college in Canada and *must have done, or be doing postgraduate work* and be or have been registered in a Graduate Shcool.

For full details apply to the Fellowships Office, Faculty of Graduate Studies and Research. Applications must be submitted by November 15.

RHODES SCHOLARSHIPS. — Approximately £1,550, represented by a personal allowance of approximately £80 per month and direct payment of University and College fees and dues, for two scholars chosen from the Province of Quebec, tenable for two years at Oxford University. A third year may be granted under certain conditions. Candidates must be British subjects with at least five years domicile in Canada and be between the ages of nineteen and twenty-five. Male students in any faculty may apply. Applications must reach the Secretary of the Provincial Selection Committee before October 25. For further details of tenure, eligibility, and qualifications, and application forms apply to the Fellowships Office, Faculty of Graduate Studies and Research, or the Provincial Secretary, Mr. L. Yves Fortier, 1 Place Ville Marie, Suit 700, Montreal, Que.

COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN. (See 2.5.)

SHELL POSTGRADUATE SCHOLARSHIPS. — Scholarships of £1,450 per annum are offered for two years' study at a university in the United Kingdom in Chemistry, Physics, Geology, Geophysics or Engineering, leading to a higher degree. Applicants should be Canadian citizens or landed immigrants and under 25 years of age and have completed at least one year of postgraduate study. The closing date for applications is January 15. Application forms from the Fellowships Office of the Graduate Faculty.

GLASGOW EXCHANGE SCHOLARSHIP. — Established to enable a McGill graduate to spend two sessions of postgraduate work at the University of Glasgow and for a graduate of the University of Glasgow to spend two sessions of postgraduate work at McGill. The awards are available for two years and awarded only every second year. Open to degree and non-degree candidates. Glasgow will waive fees for the student from McGill and provide accommodation in a hall of residence plus a small cash award. The value of the award at McGill for the student from Glasgow is $3,000 per annum. An award will be made in April 1975 to a McGill student for the period 1975-77. Application forms for the exchange can be obtained from the Fellowships Office of the Faculty of Graduate Studies and Research.

GERMAN ACADEMIC EXCHANGE SERVICE FELLOWSHIPS. — Sixteen fellowships valued at approximately $137 to $220 per month and return travel expenses, as well as free tuition, course fees and university examination fees. Tenable at universities, technical universities, scientific institutions, and academies of art or music in the Federal Republic of West Germany for study in any field except pharmacy, chemical engineering and specialized fields of agricultural research. Candidates must be Canadian citizens, must be university graduates, must have a good knowledge of German, and must not be more than 32 years of age. Applications must be submitted by December 31. For further information, write to: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa 4.

SWISS UNIVERSITY SCHOLARSHIPS. — The Swiss Government offers six scholarships a year for study in Switzerland in any field except Music and Fine Arts and will pay approximately $150 to $175 per month, plus return fare at conclusion of scholarship plus tuition fees, plus health and accident insurance, and generally, a specific amount of study material. Candidates must be Canadian citizens and must have graduated from a recognized university. A good knowledge of either French or German is required. Awards are for 12 months with possibility of renewal. Applications must be submitted by December 31. For further information, write to: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa 4.

CANADIAN FEDERATION OF UNIVERSITY WOMEN'S PROFESSIONAL FELLOWSHIP. — Value $2,500, open to any woman holding a degree from a Canadian University, whose domicile is in Canada (a) who wishes to spend a year at an accredited Library School, School of Social Work, College of Education or similar professional school; or (b) who wishes, after some years or experience in a chosen field or after a lapse of time away from formal study, to embark on a program leading to an advanced degree. One of two Professional Fellowships are awarded. Apply to the Chairman of the Fellowships Committee, c/o Canadian Federation of University Women, Mount Allison University, Box 69, Sackville, N.B. Applications and testimonials must be received before February 1.

CANADIAN FEDERATION OF UNIVERSITY WOMEN — MARGARET McWILLIAMS TRAVELLING FELLOWSHIP. — Value $3,500, open to any woman scholar who holds a Master's Degree or equivalent from a Canadian University, who is already well advanced on her Doctoral Program, and who wishes to continue her work outside of Canada. The candidate must be a resident of Canada but she may be studying elsewhere at the time of application. Apply to the Chairman of the Fellowships Committee, c/o Canadian Federation of University Women, Mount Allison University, Box 69, Sackville, N.B. Applications and testimonials must be received before February 1.

FURTHER AWARDS MADE BY UNIVERSITY WOMEN'S ORGANIZATIONS. — For full information apply to the Chairman of the Fellowships Committee, c/o Canadian Federation of University Women, Mount Allison University, Box 69, Sackville, N.B.

FRANK KNOX FELLOWSHIPS. — Awards of $2,400 plus tuition, tenable at Harvard University in Arts and Sciences, Engineering, Business Administration, Dental Medicine, Design, Divinity, Education, Law, Medicine, Public Administration, and Public Health, by Canadian students, not resident in the U.S.A., graduated or about to graduate from a Canadian university or college at which they have spent at least two of the last four years. Information and application forms are available from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont., to whom completed applications must be sent before December 1.

SHASTRI INSTITUTE FELLOWSHIPS. — Two types of fellowships *for research in India* are offered in the humanities and social sciences: (1) Senior Fellowships for established scholars normally resident in Canada (normally for a 12-month period; shorter term grants under this category will also be considered). Value, rupee equivalent of $7,000. (2) Junior Fellowships for qualified graduate students to conduct research as partial fulfilment of the requirements for a doctoral degree in a Canadian institution — value, rupee equivalent of $5,500. Deadline for applications for Junior and Senior Fellowships is November 1. Apply to: The Executive Director, The Shastri Indo-Canadian Institute, 1005 Sherbrooke Street West, McGill University, Montreal 112.

3.3.2 OPEN TO GRADUATES IN ARCHITECTURE

A. F. DUNLOP SCHOLARSHIPS. — Two travelling scholarships, value $1,500 each bequeathed by the late Mrs. Catherine A. Dunlop for students graduating in Architecture. Apply, stating proposed study, localities to be visited and date of departure, to the Director of the School of Architecture before March 31. Selection is made by a Committee of Staff of the School of Architecture.

HUGH McLENNAN MEMORIAL SCHOLARSHIP. — Established by the Hon. John Stewart McLennan, Dr. Francis McLennan and Miss Isabella McLennan in memory of Hugh McLennan, son of the Hon. John Stewart McLennan, killed at the Battle of Ypres in 1915. Value $2,000, awarded to the student graduating in Architecture who has shown the greatest capacity in the solution of

problems and who gives promise of creative ability. Selection is made by a Committee of Staff of the School of Architecture.

3.3.3 OPEN TO GRADUATES IN ARTS OR SCIENCE

MOYSE TRAVELLING SCHOLARSHIPS. — Founded by the late Right Honourable Lord Atholstan, to commemorate the "splendid services of Dr. Charles E. Moyse, for forty-two years Professor of English, during sixteen of which he was Dean of the Faculty of Arts and Vice-Principal of the University." Two scholarships, normally of $2,000 each tenable for one year. One scholarship to be awarded by the Faculty of Arts for distinction in literary subjects and the other by the Faculty of Science for distinction in scientific subjects.

In the absence of applicants of sufficient merit in either of the faculties, applicants from final year students in, or graduates of, other faculties of the University may be considered.

If there is no winner in one of these faculties, both scholarships may be awarded to applicants in the other faculty. Holders must devote the year of tenure to advanced study, preferably in a British or European university, but not to the exclusion of other institutions approved by the Faculty of Arts or of Science. Applications, whether from graduates or from students in the final year of the undergraduate course, should reach the Dean of the Faculty of Arts or of Science not later than April 1. Applications should be accompanied by: (1) an official transcript of the applicant's academic record to date; (2) the names of two referees who are familiar with the applicant's work ; (3) a detailed and comprehensive statement of the applicant's proposed course of study; the institution or centre at which he, or she, proposes to study; (4) a statement of the applicant's age and nationality.

Awards will be made after the results of final examinations in the final year of the undergraduate course have been determined.

GUY DRUMMOND SCHOLARSHIP IN POLITICAL SCIENCE AND ECONOMICS. — Open to men only, originally endowed by the late Guy M. Drummond, awarded to a graduating student in the Faculty of Arts nominated jointly by the Departments of Economics, Political Science and the Department of French Language and Literature, taking into account the student's academic record and the likelihood that he will make a contribution of value to Canadian life. The nominee must be taking the honours course in Political Science or joint honours in Economics and Political Science. The award is made by the University Scholarships Committee and cannot be applied for by the candidate. The value is $5,700 plus tuition fees at McGill and such tuition fees in Paris as may be approved by the Faculty of Graduate Studies and Research. $3,500 of this covers a year of study in Paris plus approved tuition fees in Paris and registration fees at McGill, and the remaining $2,200 plus tuition fees a further year at McGill studying for the M.A. degree. In Paris, the holder studies at the Institut d'Etudes Politiques unless he wishes to specialize in Economics rather than Political Science and is permitted by McGill to study at the Sorbonne or at the Institut d'Economie Appliquée.

MACKENZIE KING TRAVELLING SCHOLARSHIPS. — Four or five scholarships of not less than $2,500 each, offered to graduates of any Canadian university who propose to engage, either in the U.S.A. or the United Kingdom, in postgraduate studies in International or Industrial Relations (including international or industrial aspects of Law, History, Politics, Economics). Applicants should be persons of unusual worth and promise. Awards are based on their academic achievement, personal qualities and demonstrated aptitudes, as well as their proposed programs of study. Applications must be submitted by March 1. Further information may be obtained from the Fellowships Office, Faculty of Graduate Studies and Research.

3.3.4 OPEN TO GRADUATES IN LAW

MACDONALD TRAVELLING SCHOLARSHIP. — Value $2,500. Founded by a bequest of the late Sir William Macdonald "for the purpose of enabling English-speaking Law students to take a course of studies in France," the testator "deeming it of great importance that the English-speaking members of the legal profession should be proficient in the French language." The holder is required to pursue a year's study in the Law Faculty of a French university approved by the McGill Faculty of Law. Awarded by the Faculty to a student of the graduating class, proceeding to the Bar, with first or second class honours in the final examination and who would be unable without financial help to spend a year in France. The Faculty interprets the bequest as intending that the scholarship be awarded only to students preparing for practice as advocates in the Province of Quebec. At present the scholarship must be used in the year in which it is awarded.

THOMAS SHEARER STEWART TRAVELLING FELLOWSHIP. — Value $2,500, established in memory of the late Thomas Shearer Stewart, B.A. 1905, B.C.L. 1908, by his widow and family. Awarded annually by the Dean to a recent graduate of the Faculty of Law for studies in Law at a university in Europe or the United Kingdom approved by the Dean. Preference is given to Canadian ctitizens intending to reside in Canada. Apply to the Dean of the Faculty of Law.

3.3.5 FELLOWSHIPS OFFERED BY OTHER UNIVERSITIES

Graduates of McGill University who desire to undertake graduate study elsewhere should note that many universities offer fellowships and scholarships for which they may be eligible. Particulars of many of these may be obtained in the Fellowships Office of the Graduate Faculty. In many cases applications should be prepared not later than the January preceding the session for which the award is made.

3.4 POSTDOCTORAL FELLOWSHIPS

FRANCE-QUEBEC EXCHANGE PROGRAM POSTDOCTORAL FELLOWSHIPS. — Scholarships (2,500 to 3,000F a month) are also offered to Quebec postdoctoral students who wish to pursue their studies and research in France for a period of three to twelve months. Candidates from all disciplines are invited to apply, but preference is given to candidates in the fields of pure and applied science. Travelling expenses to and from France as well as expenses incurred while travelling in France for the purpose of research are assumed by the Quebec Government. Applications are considered four times a year: March 1, June 1, September 1 and December 1. Application forms can be obtained from the Fellowships Office of the Faculty of Graduate Studies and Research.

HAROLD HIBBERT MEMORIAL FELLOWSHIP. — Approximately $6,500 plus travel assistance, tax free, open to candidates who hold a Ph.D. in Chemistry or its equivalent from an approved university. Tenable for one calendar year in the Department of Chemistry at McGill, where the holder must devote his full time to research. Not renewable. Apply in writing to the Chairman of the Department of Chemistry by February 1.

C. D. HOWE MEMORIAL FELLOWSHIP. — Open to Canadian citizens or those normally resident in Canada. Tenable anywhere. Value $5,000 for a single man or $7,000 for a married man, plus travel expenses if applicable. Restricted to persons whose proposed program of research is related to the political, administrative, economic, social or intellectual history of Canada since 1930, and is in some way relevant to an understanding of the public career of the Rt. Honourable C. D. Howe. Apply to Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont. Completed application forms must reach the Director before November 30.

OTTO MAASS POSTDOCTORAL FELLOWSHIP. — Approximately $6,500 plus travel assistance, tax free, open to candidates who hold a Ph.D. degree in chemistry or physics or equivalent from an approved university. Tenable for one calendar year and renewable for a second in the Physical Chemistry Division of the Pulp and Paper Research Institute of Canada and the Department of Chemistry, where the holder must devote full time to research. Apply to the Chairman, Education Committee, Pulp and Paper Research Institute of Canada.

NATIONAL RESEARCH COUNCIL POSTDOCTORAL OVERSEAS FELLOWSHIPS. — Value $7,400 (single or married with no children) and $8,600 (married with a child or children) for twelve months, available to applicants who have recently completed or expect to complete the requirements for a Doctorate in Science. Open to Canadian citizens normally resident in Canada. Completed applications must reach the Council by January 15.

NUFFIELD FOUNDATION TRAVEL GRANTS. — Awarded in the Natural Sciences, Medical Sciences, Humanities and Social Sciences. Preference will be given to Canadian citizens, although applicants who have resided in Canada a minimum of four years will also be considered. Candidates must be over 35 years of age, hold a doctor's degree and have had subsequent teaching experience. Return economy air fare for grantee and for wife provided she accompanies him for not less than two months, plus £75 per month to assist with living expenses while in United Kingdom (£100 per month if wife accompanies husband). Application forms, obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa 4, Ont. should be submitted by January 1 at latest.

3.5 FELLOWSHIPS AND SCHOLARSHIPS OPEN TO GRADUATES OF OTHER INSTITUTIONS FOR STUDY AT McGILL UNIVERSITY

A number of the awards listed in the preceding pages may be held by graduates of other institutions while pursuing graduate study at McGill University; these are listed below.

3.5.1 VARIOUS SUBJECTS

ASSOCIATION OF UNIVERSITIES AND COLLEGES OF CANADA SCHOLARSHIPS.
BANK OF NOVA SCOTIA BILINGUAL EXCHANGE SCHOLARSHIPS.
BELL CANADA CENTENNIAL FELLOWSHIPS.
W. M. BIRKS AWARDS (Religious Studies).
MAX BINZ BURSARIES (Foreign students).
CANADA COUNCIL DOCTORAL FELLOWSHIPS (Social Sciences, Humanities, Mathematics and Music).
CANADIAN FEDERATION OF UNIVERSITY WOMEN FELLOWSHIPS.
CANADIAN INTERNATIONAL DEVELOPMENT AGENCY SCHOLARSHIP.
CENTRAL MORTGAGE AND HOUSING CORPORATION FELLOWSHIPS (Urban studies).
COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN.
DOW-HICKSON FELLOWSHIP IN THEORETICAL PHILOSOPHY.
SAMUEL FINLEY MEMORIAL BURSARY (Religious Studies).
FRANCE-CANADA EXCHANGE SCHOLARSHIPS.
FRANCE-QUEBEC EXCHANGE SCHOLARSHIPS.
GLASGOW EXCHANGE SCHOLARSHIP.
GRADUATE FACULTY SUMMER RESEARCH FELLOWSHIPS (Humanities and Social Sciences).
GULF OIL CANADA FELLOWSHIPS (Physical Sciences and Ecological Studies).
HAROLD H. HELM FELLOWSHIP (Princeton Exchange).
HENNESSY FELLOWSHIP.
HEWITT MEMORIAL BURSARY (Humanities and Social Sciences).
C. D. HOWE MEMORIAL POSTDOCTORAL FELLOWSHIP.
IMPERIAL OIL RESEARCH FELLOWSHIPS (Sciences, Humanities and Social Sciences).
I.O.D.E. POSTGRADUATE SCHOLARSHIPS.
INTERNATIONAL BUSINESS MACHINES FELLOWSHIPS (Computer Science).
MARY KEENAN SCHOLARSHIP (English).
SAMUEL LAPITSKY SCHOLARSHIP (Anthropology and Sociology).
McCONNELL MEMORIAL FELLOWSHIPS.
McGILL DELTA UPSILON MEMORIAL SCHOLARSHIP.
NATIONAL RESEARCH COUNCIL SCHOLARSHIPS.
ISABELLA C. McLENNAN FELLOWSHIP (Women).
PROVINCE OF QUEBEC POSTGRADUATE SCHOLARSHIPS.
ROTARY FOUNDATION FELLOWSHIPS.
SOLVAY FELLOWSHIP.
STEINBERG GRADUATE FELLOWSHIPS.
DAVID STEWART MEMORIAL FELLOWSHIPS (Physical and Biological Sciences).
ARTHUR C. TAGGE FELLOWSHIP (Humanities and Social Sciences).
IRWIN ORRIN VINCENT BURSARY (Classics).

3.5.2 AGRICULTURE

GEORGE A. CALLBECK SCHOLARSHIP.
DEPARTMENT OF AGRICULTURE AND COLONIZATION SCHOLARSHIPS.
WALTER M. STEWART POSTGRADUATE SCHOLARSHIP.
SIR VINCENT MEREDITH FELLOWSHIP.

3.5.3 BIOLOGY

PHILIP CARPENTER FELLOWSHIP.
EMILE LAMOUREUX MEMORIAL BURSARY.
ARTHUR WILLEY MEMORIAL BURSARY.

3.5.4 CHEMISTRY

KIMBERLEY CLARK FELLOWSHIP.
D. S. AND R. H. GOTTESMAN SCHOLARSHIP.
HAROLD HIBBERT MEMORIAL FELLOWSHIP (Postdoctoral).
T. STERRY HUNT SCHOLARSHIP.
INTERNATIONAL NICKEL OF CANADA FELLOWSHIPS.
ALEXANDER McFEE FELLOWSHIP.
COLL McFEE MEMORIAL SCHOLARSHIP.
FRANK L. MITCHELL FELLOWSHIP.
RICHARD T. MOHAN SCHOLARSHIP.
NORANDA RESEARCH FELLOWSHIPS.
OTTO MAASS MEMORIAL FELLOWSHIP.
OTTO MAASS POSTDOCTORAL FELLOWSHIP.
PULP AND PAPER RESEARCH STUDENTSHIP.

CLIFFORD B. PURVES FELLOWSHIP.
WALTER C. SUMNER MEMORIAL FELLOWSHIPS.
XEROX FELLOWSHIP.

3.5.5 ECONOMICS AND POLITICAL SCIENCE

BRONFMAN FELLOWSHIPS (Economics).
GEORGE A. CALLBECK SCHOLARSHIPS (Economics).
GUY DRUMMOND SCHOLARSHIP.
ALEXANDER MacKENZIE FELLOWSHIP (Political Science).
ALLEN OLIVER FELLOWSHIP (Economics).

3.5.6 EDUCATION

CANADA COUNCIL DOCTORAL FELLOWSHIPS.
COLL McFEE MEMORIAL SCHOLARSHIP (Chemistry).
IRWIN ORRIN VINCENT BURSARY.

3.5.7 ENGINEERING

ALCAN FELLOWSHIP (Metallurgy).
MAJOR JAMES H. BRACE SCHOLARSHIP.
CHEVRON STANDARD LTD. FELLOWSHIPS (Mining).
SIR WILLIAM DAWSON FELLOWSHIP (Metallurgy).
JAMES DOUGLAS FELLOWSHIP (Mining).
D. S. and R. H. GOTTESMAN SCHOLARSHIP.
GULF OIL CANADA FELLOWSHIPS.
B. J. HARRINGTON BURSARY (Mining)
WILLIAM HENRY HOWARD SCHOLARSHIPS (Metallurgy).
INTERNATIONAL NICKEL OF CANADA FELLOWSHIPS (Mining and Metallurgy)
IRON ORE COMPANY OF CANADA SCHOLARSHIP (Mining).
MIRON FELLOWSHIP (Civil).
FRANK L. MITCHELL FELLOWSHIP (Chemical and Mechanical).
NORANDA RESEARCH FELLOWSHIPS (Chemical, Metallurgical and Mining).
OTTO MAASS MEMORIAL FELLOWSHIPS (Chemical and Mechanical).
JOHN BONSALL PORTER SCHOLARSHIP (Civil, Mechanical and Electrical).
PULP AND PAPER RESEARCH INSTITUTE STUDENTSHIPS (Chemical and Mechanical).
CLIFFORD B. PURVES FELLOWSHIP (Chemical and Mechanical).
QUEBEC IRON AND TITANIUM CORP. FELLOWSHIP (Metallurgy).
PROVINCE OF QUEBEC, DEPARTMENT OF NATURAL RESOURCES BURSARIES (Mining and Metallurgy).
SHELL CANADA FELLOWSHIPS.
STEEL CO. OF CANADA FELLOWSHIPS (Metallurgy).
WALTER C. SUMNER MEMORIAL FELLOWSHIPS (Electrical).
HORACE G. YOUNG FELLOWSHIP (Mining and Metallurgy).

3.5.8 GEOLOGICAL SCIENCES

CHEVRON STANDARD LTD. FELLOWSHIPS.
GULF OIL CANADA FELLOWSHIPS.
INTERNATIONAL NICKEL OF CANADA FELLOWSHIPS.
LeROY MEMORIAL FELLOWSHIP.
J. B. LYNCH FELLOWSHIP.
PROVINCE OF QUEBEC, DEPARTMENT OF NATURAL RESOURCES BURSARIES.
CARL REINHARDT SCHOLARSHIP.
MAX BINZ BURSARY FOR FOREIGN STUDENTS.
WILLIAM HENRY HOWARD SCHOLARSHIPS.

3.5.9 LAW

EDWIN BOTSFORD BUSTEED SCHOLARSHIP.
CANADA COUNCIL DOCTORAL FELLOWSHIPS.
INSTITUTE OF AIR AND SPACE LAW SCHOLARSHIPS.

3.5.10 LIBRARY SCIENCE

ETHELWYN M. CROSSLEY SCHOLARSHIPS.
SYRA DEENA TARSHIS FLEISHMAN BURSARY.
ELIZABETH G. HALL SCHOLARSHIPS.
DR. G. R. LOMER SCHOLARSHIPS.

3.5.11 MANAGEMENT

BELL CANADA CENTENNIAL FELLOWSHIPS.
GULF OIL CANADA FELLOWSHIPS.
H. E. HERSCHORN SCHOLARSHIP.
McGILL ASSOCIATES FELLOWSHIPS.
SEAGRAM BUSINESS FELLOWSHIPS.
SOCIETY OF INDUSTRIAL ACCOUNTANTS BUSINESS FELLOWHIPS.
XEROX OF CANADA MANAGEMENT FELLOWSHIP.

3.5.12 MEDICINE AND MEDICAL SCIENCES

IRMA H. BAUER RESEARCH FUND.
SIR EDWARD BEATTY MEMORIAL SCHOLARSHIPS.
A. A. BROWNE MEMORIAL FUND.
G. RUTHERFURD CAVERHILL FELLOWSHIP.
J. P. COLLIP FELLOWSHIP.
JAMES COOPER ENDOWMENT.
JAMES DOUGLAS FELLOWSHIP.
RICHARD COLLIER FITZGERALD FUND.
PERCY HERMANT FELLOWSHIPS.
BLANCHE HUTCHINSON RESEARCH FUND.
IZAAK WALTON KILLAM SCHOLARSHIPS.
SAMUEL LUPOVICH MEMORIAL SCHOLARSHIP.
JOSEPH McABBIE SCHOLARSHIP.
ALEXANDER McFEE FELLOWSHIP.
JOHN McRAE FELLOWSHIP.
JAMES O. MEADOWS AND MARIA MEADOWS AWARDS.
MEDICAL RESEARCH COUNCIL STUDENTSHIPS AND FELLOWSHIPS.
GEORGE W. MERCK MEMORIAL LOAN FUND.
H. W. MOLSON FELLOWSHIP.
MONTREAL NEUROLOGICAL INSTITUTE FELLOWSHIPS.
NATIONAL CANCER INSTITUTE RESEARCH FELLOWSHIPS.
OSLER MEMORIAL SCHOLARSHIP.
GORDON PHILLIPS FUND.
JOSEPH SCHUBERT MEMORIAL SCHOLARSHIP.
JEANNETTE AND ABRAM VICTOR MEMORIAL SCHOLARSHIP.
HIRAM N. VINEBERG RESEARCH FUND.
HARRISON WATSON SCHOLARSHIP.
MILTON C. AND NINA A. WILSON AWARD.

3.5.13 NURSING

ALUMNAE ASSOCIATION SCHOLARSHIP.
ALUMNAE ASSOCIATION, R.V.H. SCHOOL OF NURSING BURSARY.
ASSOCIATION OF NURSES OF THE PROVINCE OF QUEBEC BURSARIES.
PROVINCE OF QUEBEC BURSARIES.
MONTREAL GENERAL HOSPITAL.
ROYAL VICTORIA HOSPITAL NURSING SCHOLARSHIPS.
ST. JOHN AMBULANCE ASSOCIATION OF CANADA BURSARIES.

3.5.14 PHYSICS

DOW-HICKSON FELLOWSHIP.
INTERNATIONAL NICKEL OF CANADA FELLOWSHIPS.
ALEXANDER McFEE FELLOWSHIP.
CARL REINHARDT SCHOLARSHIP.
WALTER C. SUMNER MEMORIAL FELLOWSHIPS.

Note: From time to time scholarships, fellowships, or research grants are made available by industrial corporations to encourage research by graduate students upon specific problems suitable for M.Sc., M.Eng., or Ph.D. theses and for publication, but also of commercial significance. As such awards may be offered for only one or two sessions, it is not possible to have them listed in this *Announcement;* the Departments concerned should be consulted.

3.5.15 PRIZES AND AWARDS

D. W. AMBRIDGE AWARD. An award to the graduand receiving the degrees of Ph.D. in the Physical Sciences or Engineering Departments who is judged by the Executive Committee of the Graduate Faculty to be most deserving of the award.

PRIZE OF THE AMBASSADOR OF YUGOSLAVIA IN CANADA. — A book prize for the best student in the language, literature or civilization of one of the peoples of Yugoslavia (principally Serbo-Croatian). Open to undergraduate or graduate students and awarded on the recommendation of the Department of Russian and Slavic Studies.

W. M. BIRKS AWARDS. — *M.A. Prize* $100 to a candidate who does distinguished work in the M.A. program, awarded at the discretion of the Faculty of Religious Studies.

S.T.M Prize — $100 to a candidate who obtains first-class standing, awarded at the discretion of the Faculty.

NEIL STEWART PRIZE. — $150 to a student or students studying biblical Hebrew and duly enrolled in the Faculty of Religious Studies for a degree program.

3.5.16 LOAN FUNDS

GRADUATE STUDENTS' LOAN FUND. — Established in 1951 by the Board of Governors for students in the Faculty of Graduate Studies and Research.*

FACULTY OF MANAGEMENT STUDENT LOAN FUND. — A student loan fund has been established and is administered by the Student Aid Office. For further information, apply to: Mr. J. S. Kennedy, Student Aid Office, Administration Building, McGill University.

MARGARET BIRKS MEMORIAL LOAN FUND. — Established in memory of the late Mrs. Margaret Birks, this fund is available to graduate students, preferably in the Department of Psychology. Where loans appear justified, but repayment will not be practical, bursaries will be granted.*

**Apply to Student Aid Office.*

4 SCHOLARSHIPS, BURSARIES, PRIZES AND LOAN FUNDS IN VARIOUS SCHOOLS OF THE UNIVERSITY

4.1 OPEN TO STUDENTS IN THE GRADUATE SCHOOL OF LIBRARY SCIENCE

Apply to the Director of the School for the following Scholarships before March 31.

DR. G. R. LOMER SCHOLARSHIPS. — Two scholarships of $640 each.

ETHELWYN M. CROSSLEY SCHOLARSHIPS. — Value $100, founded in honour of a former student of the Library School. Women students are given preference.

ELIZABETH G. HALL SCHOLARSHIPS. — Value $300, founded in memory of a former member of the McGill University Library staff.

SYRA DEENA TARSHIS FLEISHMAN BURSARY. — $200 established by the family of the late Syra Deena Tarshis Fleishman through the National Council of Jewish Women. Awarded by the Director of the Graduate School of Library Science and the Student Aid Office, subject to the approval of the Student Aid Committee of the National Council of Jewish Women, to a needy and deserving student in the Graduate School of Library Science irrespective of race or creed.

Awards are made, after due investigation and recommendation, to deserving students who require financial assistance to take the course.

DR. VIRGINIA MURRAY PRIZE. — Awarded to the student in the First year of the Master of Library Science course who obtains the highest grade in the Organization of Materials course.

4.2 OPEN TO STUDENTS IN THE SCHOOL OF NURSING

ALUMNAE ASSOCIATION OF THE SCHOOL OF NURSING SCHOLARSHIP. — In memory of Dr. Marion Lindeburgh, the Alumnae Association has established a scholarship of $700, open to graduate, registered nurses who wish to study at the School of Nursing, and who meet the entrance requirements. Scholarships are also available for students in B.Sc.(N) and M.Sc.(N) programs. Applications should be submitted by June 1 to the Chairman of the Scholarship Committee, Alumnae Association, 3506 University St., Montreal.

ASSOCIATION OF NURSES OF THE PROVINCE OF QUEBEC BURSARIES. — A limited number of bursaries are awarded each year for study leading to the Master's degree. The amount of bursary is $3000. Applications should be submitted by May 15 to The Association of Nurses of the Province of Quebec, 4200 Dorchester Blvd. West, Montreal 215, Quebec.

MONTREAL GENERAL HOSPITAL. — The Montreal General Hospital has a limited number of bursaries available for nurses studying in the Master's program. For further information apply to the Director of Nursing, Montreal General Hospital, 1650 Cedar Avenue, Montreal 109, Quebec.

ST. JOHN AMBULANCE ASSOCIATION OF CANADA BURSARIES. — One or more bursaries of $1,000 from the Margaret MacLaren Memorial Fund for study at the Master's level are available to experienced registered nurses who have proven their ability and are preparing themselves for leadership positions. All factors being equal, special consideration will be given to those with St. John affiliation. Applications are to be forwarded not later than May 16 to the Chairman of Bursary Funds, St. John Ambulance Association, 321 Chapel Street, Ottawa 2.

ROYAL VICTORIA HOSPITAL NURSING SCHOLARSHIPS:

(a) The Mabel F. Hersey Scholarship for postgraduate study.
(b) The Emma Thomas Scholarship for postgraduate study.
(c) The Ida McGregor Scholarship for postgraduate study.
(d) The Women's Auxiliary offers bursaries for senior staff members for postgraduate study.

ALUMNAE ASSOCIATION, ROYAL VICTORIA HOSPITAL SCHOOL OF NURSING BURSARY. — Bursary of $1,000 open to graduates of the Royal Victoria Hospital School of Nursing, accepted in an approved University program. Apply before March 31 to Alumnae Office, Nurses' Home, Royal Victoria Hospital, Montreal.

GOVERNMENT BURSARIES. — A limited number of bursaries are given by the Province of Quebec to nurses who wish to remain in the province, and who have been accepted for admission to the School.

KELLOGG FOUNDATION LOAN FUND. — Established through the generosity of the Foundation to assist graduate nurses who have unexpected expenses while registered in courses at the school. Consult the Director of the School for Graduate Nurses.

4.3 OPEN TO STUDENTS IN THE FACULTY OF RELIGIOUS STUDIES

GORDON R. STEPHEN JR. BURSARY FUND. — Available for students in the Faculty who are looking forward to some branch of the Christian Ministry. The Faculty recommends to the Student Aid Officers of the University.

HOUSTON BURSARY. — $400 for students studying for the ministry of the Presbyterian Church in Canada, or The United Church of Canada, with preference to any whose mother tongue is French.

4.4 OPEN TO STUDENTS IN THE SCHOOL OF SOCIAL WORK

4.4.1 BURSARIES AND LOANS

General information on bursaries and/or loans may be obtained from the Student Aid Office.

Some sources exist for both loans and bursaries through the School. Inquiries may be made at the time of application for admission to the School. Since the School does

not receive all the resources for bursary and/or loan purposes until late during the first term, students should endeavour to make other arrangements for their financial needs, whenever possible, prior to entering the School.

Usual funds available from the School include:

(1) General Bursary Fund
(2) Frances Anderson Memorial Bursary
(3) J. A. Klein Memorial Bursary
(4) Alumni Bursary

SCHOOL OF SOCIAL WORK PRIZE. — The Alumni Committee of the School of Social Work has established an annual prize to be awarded to the student with the highest standing in the Master of Social Work Program. The present value of the award is $50.

4.4.2 FEDERAL SCHOLARSHIPS AND BURSARIES

Under the Federal Welfare Grants program, a limited number of bursaries are available each year to students who commit themselves to enter employment in approved welfare programs. These bursaries are administered and partly financed by the various provinces (with the exception of Quebec which has not been participating in the plan). Application should be made to the Deputy Minister, Department of Public Welfare (or Department of Social Welfare) in the capital of the province where the applicant has legal residence.

The Federal Welfare Grants program also awards a number of scholarships based upon academic achievement. Application should be made to the Welfare Grants Division, Department of Health and Welfare, Ottawa, Ontario.

Overseas students should inquire of their governments concerning the availability of United Nations, Colombo Plan, or their country's own study grants.

4.4.3 PROVINCIAL

Most provinces offer bursaries on condition that recipients accept employment in those provinces upon graduation. Information should be obtained from Provincial Departments of Welfare. Quebec residents must apply before January 1 for educational bursaries for the following year. Application should be made to the following: Service des Bourses de Perfectionnement, Ministère de l'Education, Hôtel du Gouvernement, Québec, P.Q.

The Canada Student Loan Plan is available in provinces other than Quebec. Inquire of the Province.

4.4.4 VOLUNTARY AGENCIES

Local or national voluntary agencies often offer bursaries similar to those of the Provinces. Information may be obtained from the School.

5 INDEX OF AWARDS

Alcan Fellowship — **6**
Alumnae Association, Royal Victoria Hospital School of Nursing Bursary — **27**
Alumnae Association of the School of Nursing Scholarship — **27**
Ambridge (D. W.) Award — **26**
Anderson (Frances) Memorial Bursary — **28**
Association of Nurses of the Province of Quebec Bursaries — **27**
Association of Universities and Colleges of Canada Scholarships — **5**

Bank of Nova Scotia Bilingual Exchange Scholarships — **15**
Bauer (Irma H.) Research Fund — **13**
Beatty (Sir Edward W.) Memorial Scholarships for Medical Students — **13, 17**
Bell Canada Centennial Fellowships — **14**
Binz (Max) Bursaries for Foreign Students — **7**
Birks (W. M.) Awards — **26**
Birks (W. M.) Awards — **26**
Brace (Major James H.) Research Scholarships — **11**
Bronfman Fellowships in Commerce and Economics — **7**

Browne (A. A.) Memorial Fund — **12**
Busteed (Edwin Botsford) Scholarship — **17**

Callbeck (George A.) Scholarship — **14**
Canada Council Scholarships and Fellowships — **5, 16**
Canadian Federation of University Women Margaret McWilliams Travelling Fellowship — **20**
Canadian Federation of University Women Professional Fellowship — **20**
Carpenter (Phillip) Fellowship — **10**
Caverhill (G. Rutherfurd) Fellowship in Medicine — **18**
Central Mortgage and Housing Corporation Graduate Fellowships — **14**
Chevron Standard Limited Graduate Fellowships — **14**
Collip (J. B.) Fellowships — **7**
Commonwealth Scholarship and Fellowship Plan — **5, 14**
Cooper (James) Endowment — **12**
Crossley (Ethelwyn M.) Scholarships — **26**
Cultural Agreement France-Canada Graduate Scholarships — **18**

Dawson (Sir William) Fellowship — **10**
Demonstratorships — **3**
Department of Agriculture and Colonization Scholarships — **14**
Douglas (Dr. James) Fellowship in Mining Engineering — **10**
Douglas (Dr. James) Fellowship in Pathology — **12**
Dow-Hickson Fellowship in Physics — **17**
Dow-Hickson Fellowship in Theoretical Philosophy — **16**
Drummond (Guy) Scholarship — **21**
Dunlop (A. F.) Scholarships — **20**

Exhibition of 1851 Scholarships — **19**

Faculty of Management Student Loan Fund — **26**
Federal Scholarships and Bursaries — **28**
Fellowships Offered by Other Universities — **22**
Fellowships and Scholarships — **3**
Finley (Samuel) Memorial Bursary — **13**
FitzGerald (Richard Collier) Fund — **12**
Fleishman (Syra Deena Tarshis) Bursary — **26**
Foundations and Private Agencies — **6**
France-Canada Cultural Agreement Graduate Scholarships — **18**
France-Quebec Exchange Program — **18**
France-Quebec Exchange Program Postdoctoral Fellowships — **22**

German Academic Exchange Scholarship — **20**
Glasgow Exchange Scholarship — **7, 19**
Gottesman Scholarship — **7**
Government Bursaries — **27**
Graduate Faculty Summer Research Fellowships — **7**
Graduate Students' Loan Fund — **26**
Gulf Oil Canada Limited Graduate Fellowships — **13**
Hall (Elizabeth G.) Scholarships — **26**
Harrington (Dr. B. J.) Bursary — **11**

Helm (Harold) Fellowship — **14**
Hennessy Fellowship — **15**
Hermant (Percy) Fellowships — **12**
Herschorn (H. E.) Graduate Scholarship — **11**
Hersey (Mabel F.) Scholarship — **27**
Hewitt Memorial Fund — **10**
Hibbert (Harold) Memorial Fellowship — **22**
Houston Bursary — **27**
Howard (William Henry) Scholarships — **7**
Howe (C. D.) Memorial Fellowship — **22**

POST-GRADUATE FELLOWSHIPS

Hunt (T. Sterry) Awards in Chemistry — **7**
Hutchinson (Blanche) Research Fund — **12**

Imperial Oil Graduate Research Fellowships — **15**
Institute of Air and Space Law Scholarships and Fellowships — **11**
International Business Machines Fellowships — **7**
International Nickel Co. of Canada Fellowships — **15**
I.O.D.E. Postgraduate Scholarships — **19**
Iron Ore Co. of Canada Scholarships — **11**
Keenan (Mary) Scholarship — **10**
Kellogg Foundation Loan Fund — **27**
Killam (Izaak Walton) Scholarships — **12**
Kimberly-Clark Co. of Canada Fellowship — **10**
King (Mackenzie) Travelling Scholarships — **21**

Klein (J. A.) Memorial Bursary — **28**
Knox (Frank) Fellowships — **20**

Lamoureux (Emile) Memorial Bursary Montreal Anglers and Hunters Inc. — **17**
Lapitsky (Samuel) Scholarship — **10**
LeRoy Memorial Fellowship — **7**
Lomer (Dr. G. R.) Scholarships — **26**
Lupovich (Samuel) Memorial Scholarship — **13**
Lynch (J. B.) Fellowship — **7**
Lyster (Lynden Laird) Award in Parasitology — **8**

Maass (Otto) Memorial Fellowship — **8**
Maass (Otto) Postdoctoral Fellowship — **22**
Macdonald (Sir William) Travelling Scholarship in Law — **21**
McAbbie (Joseph) Scholarship — **13**
MacKenzie (Alexander) Fellowship — **10**
McConnell (J. W.) Memorial Fellowships — **8**
McCrae (John) Fellowship — **18**
McFee (Alexander) Fellowship — **8**
McFee (Coll) Memorial Scholarship — **8**
McGill Associates Graduate Fellowships in Management — **11**
McGill Delta Upsilon Memorial Scholarship — **14**
McGregor (Ida) Scholarship — **27**
McLagan (Rodgie) Fellowships in Management — **11**
McLennnan (Hugh) Scholarship — **20**
McLennan (Isabella C.) Fellowship — **8**
Meadows (James O. and Maria) Awards — **12**
Medical Research Council Scholarships — **5**
Merck (George W.) Memorial Loan Fund — **12**
Meredith (Sir Vincent) Fellowship in Agricultural Economics — **8**
Miron Fellowship in Concrete Studies — **8**
Mitchell (Frank L.) Fellowship — **8**
Mohan (Richard T.) Scholarship — **8**
Molson (H. W.) Fellowship in Cancer Research — **12**
Montreal General Hospital Bursaries — **27**
Moyse Travelling Scholarships — **21**
Murray (Virginia) Prize — **26**

National Cancer Institute Research Fellowships — **15**
National Research Council Postdoctoral Overseas Fellowships — **22**
National Research Council Scholarships and Bursaries — **5, 15**
Neurology, Neuropathology and Neurosurgery, Fellowships — **12**
Noranda Graduate Research Fellowships — **15**
Nuffield Foundation Travel Grants — **22**

Oliver (Allen) Fellowship — **16**
Osler Memorial Scholarship — **18**

Phillips (Gordon) Fund — **18**
Porter (Dr. J. B.) Scholarship — **11**
Prize of the Ambassador of Yugoslavia in Canada — **26**
Provincial Government Bursaries — **4, 28**
Pulp and Paper Research Institute of Canada Graduate Studentships — **9**
Purves (Clifford) Fellowship — **9**

Quebec Iron and Titanium Corporation Fellowship in Metallurgical Engineering — **9**
Quebec (Province of) Department of Natural Resources Scholarships — **15**
Quebec (Province of) Department of Natural Resources, Mineral Industry Bursaries — **15**
Quebec (Province of) Postgraduate Scholarships — **16**
Quebec (Province of) Graduate Scholarships — **11**

Reinhardt (Carl) Scholarships and Bursaries — **9**
Rhodes Scholarships — **19**
Rotary Foundation Fellowships — **19**
Royal Commission for 1851 Scholarships — **19**
Royal Victoria Hospital Nursing Scholarships — **27**

School of Social Work Bursaries — **27**
School of Social Work Prize — **28**
Schubert (Joseph) Memorial Scholarship — **13**
Seagram Business Fellowships — **11, 16**
Shastri Institute Fellowships — **20**
Shell Canada Fellowships in Engineering — **17**
Shell Postgraduate Scholarships — **19**
Society of Industrial Accountants of Canada Business Fellowships — **12, 16**
Solvay Fellowship — **9**
Special Graduate Scholarships — **17**
Steel Company of Canada Limited Graduate Research Fellowships — **17**
Steinberg Graduate Fellowships — **9**
Stephen (Gordon R. Jr.) Bursary Fund — **27**
Stewart (David) Memorial Fellowships — **10**
Stewart (Neil) Prize — **26**
Stewart (Thomas Shearer) Travelling Fellowship — **21**
Stewart (Walter M.) Postgraduate Scholarship in Agriculture — **9**
St. John Ambulance Association of Canada Bursaries — **27**
Sumner (Walter C.) Memorial Fellowships — **16**
Swiss University Scholarships — **20**

Tabac (Corinne Fay) Memorial Award in Medicine — **13**
Tagge (Arthur C.) Fellowship — **10**

University Women's Organizations (Further awards made by) — **20**

CALENDAR OF DATES 1973-1974

1973

July 2, Monday	Dominion Day — Administrative Offices closed.
August 14, Tuesday	Supplemental examinations begin.
September 3, Monday	Labour Day — Administrative Offices closed.
September 10, Monday *September 11, Tuesday* *September 12, Wednesday*	Registration of all students in University level — Arts, Social Work, Visiting and Special students in Arts.
September 13, Thursday *September 14, Friday* *September 17, Monday*	Registration of all students in University level — Science, Visiting and Special students in Science.
September 18, Tuesday *September 19, Wednesday*	Registration of all students in College Equivalent program — Arts, Science, Education and Management.
September 20, Thursday	Lectures begin in all years of Arts and Science.
October 1, Monday	Late registration.
October 4, Thursday to *October 12, Friday*	Change of course period.
October 8, Monday	Thanksgiving — Lectures cancelled — Administrative Offices closed.
October 26, Friday	Deadline for withdrawing ("W") from "A" (first term) courses.
November 6, Tuesday	Fall Convocation.
November 30, Friday	Deadline for withdrawing ("W") from "D" (year) courses.
December 19, Wednesday	Last day of lectures in Arts and Science.
December 24, Monday to *January 1, 1974*	Christmas and New Year Holiday — Administrative Offices closed.

1974

January 3, Thursday to *January 18, Friday*	Examinations in First term courses in Arts and in Science.
January 17, Thursday	January Registration.
January 21, Monday	Second term begins in Arts and in Science.
January 28, Monday to *February 4, Monday*	Change of course period for "B" (second term) courses only.
February 22, Friday	Deadline for withdrawing ("W") from "B" (second term) courses.
March 1, Friday and *March 2, Saturday*	Mid-term weekend holiday.
April 12, Friday to *April 15, Monday*	Easter — Lectures cancelled — Administrative Offices closed.
April 19, Friday	Last day of Lectures.
April 22, Monday	Examinations begin.
May 20, Monday	Victoria Day — Administrative Offices closed.
June 5, Wednesday to *June 8, Saturday*	Convocations.

1 THE UNIVERSITY

HISTORY

In 1813 the Hon. James McGill, a leading merchant and prominent citizen of Montreal, died and left in his will a property of 46 acres and a sum of 10,000 pounds to the already existing Royal Insitution for the Advancement of Learning upon condition that the latter erected "upon the said tract or parcel of land, an University or College, for the purpose of education and the advancement of learning in this Province"; and further upon condition that "one of the Colleges to be comprised in the said University shall be named and perpetually be known and distinguished by the appellation of 'McGill College'."

Owing to a lack of funds and persistent opposition the complete University which had been planned by the Royal Institution was not built, but after years of litigation and effort a Royal Charter was granted in 1821 and the University of McGill College was opened in 1829 with what remained of James McGill's legacy as its endowment, and teaching then started in the Faculties of Medicine and Arts. The medical faculty grew steadily, and after an amended Charter was secured in 1852 a new era of progress began for the Faculty of Arts with the appointment in 1855 of Sir William Dawson as Principal, a position which he held for thirty-eight years.

Since 1855 the University has grown vigorously, dividing itself into further faculties. In 1899 the Royal Victoria College was opened, a gift of Baron Strathcona, to provide separate teaching and residential facilities for women students. Gradually, however, classes for men and women were merged, and now the University is wholly coeducational. In 1907 Macdonald College was established at Ste. Anne de Bellevue, as a residential college for Agriculture, Household Science, and the School for Teachers. This general development was greatly facilitated by the generosity of Sir William Macdonald, whose gifts to the University included a Physics Building, a Chemistry and Mining Building, and an Engineering Building, in addition to the college named after him.

At present more than sixteen thousand students are taking regular university courses. New buildings have been erected or acquired to provide the undergraduate and research facilities needed by the increased student body, including Douglas Hall, now a coeducational residence, and large extensions of the Royal Victoria College for women. In 1959 the McConnell Engineering Building, the gift of Mr. J. W. McConnell, was opened. The Sir Arthur Currie Memorial Gymnasium, built in 1939, has been extended to include a swimming pool opened in 1950 and a Winter Stadium which was added in 1956. In 1962 His Royal Highness Prince Philip, Duke of Edinburgh, opened three new residences for men, Gardner, McConnell and Molson Halls, made possible by generous gifts from Mr. J. W. McConnell and the Molson family. These residences are now coeducational. The Leacock Humanities Building and the Roscoe Wing of the Royal Victoria College were used during the 1964-65 session. The Roscoe Wing and the West Wing now comprise the Royal Victoria College and provide residence facilities for 224 women. The East Wing and central section now house the Faculty of Music which moved to the new location in January 1972. The University Centre (Students' Union), the McIntyre Medical Sciences Building, and the Stewart Biology Building were open for the 1965-66 session. An extension to Chancellor Day Hall, housing the Faculty of Law and including a Moot Court Room, was opened for the 1966-67 session and the McLennan Library was in use for the 1968-69 session. Burnside Hall, housing the School of Computer Science and the departments of Geography and Mathematics, and the building providing facilities for the Faculty of Education (now established on the McGill campus) were in use for the 1970-71 session, and the Samuel Bronfman Building for Management and Business Administration was opened for the 1972-73 session. A similar growth has been maintained in the buildings and equipment of Macdonald College.

GOVERNMENT

McGill University is a Corporation created by a Royal Charter granted by the Crown of the United Kingdom, a general supervisory power being retained by the Crown and exercised through the Governor-General as *Visitor*.

The *Governors* of the University constitute the Royal Institution for the Advancement of Learning, a corporation existing under the laws of the Province of Quebec. In them is vested the management of finances, the appointment, in consultation with Senate, of Professors, and other duties. Twenty-five of the Governors are elected by the Board from amongst those nominated by the Nominating Committee; five are elected by the Graduates' Society; and five are elected by Senate from amongst its members, student members being eligible. The Board elects the Chancellor of the University and also, from among its members, a Chairman to preside at its meetings, who may also be the Chancellor. The Chancellor and the Principal are *ex officio* members.

The *Chancellor* is President of the Royal Institution for the Advancement of Learning, and Presiding Officer of Convocation and of Joint Sessions of the Board of Governors and the Senate.

The *Principal* is the academic head and chief administrative officer. He is appointed by the Board of Governors after consultation with Senate. He also holds the office of Vice-Chancellor of the University and is, *ex officio,* Chairman of Senate.

Senate consists of eighty voting members: the Chancellor, the Principal, the Vice-Principals, the Deans of the Faculties, the Dean of Students, the President of the Students' Society, thirty-two members elected by their Faculties, five Governors elected by the Board, eight students elected by the students, and certain *ex-officio* members with voice but no vote. The Senate is the highest academic authority of the University and has control over admission, courses of study, discipline, and degrees.

The carrying out of the regulations of Senate along with primary responsibility for the conduct of the educational work of the University is entrusted to the various Faculties and Schools.

FACULTY GOVERNMENT

The Faculties of Arts and of Science were formed in 1971 out of component parts of the Faculty of Arts and Science.

The Faculty of Arts comprises the following departments and programs: Anthropology, Art History, Centre d'Etudes Canadiennes-Françaises, Classics, East Asian Studies, Economics, English, French Language and Literature, French as a Second Language, German, History, Industrial Relations, Italian, Jewish Studies Program, Linguistics, Philosophy, Political Science, Religious Studies, Russian and Slavic Studies, Social Work, Sociology, Spanish Language and Literature.

In addition, some members of the departments of Geography, Mathematics and Psychology are affiliated with the Faculty of Arts, and these departments offer B.A. programs.

The Faculty of Science comprises the Departments of Biology, Chemistry, Geography, Geology, Mathematics, Meteorology, Physics and Psychology.

In addition, some members of the Departments of Anatomy, Biochemistry, Microbiology and Immunology, and Physiology in the Faculty of Medicine are affiliated with the Faculty of Science and these departments offer B.Sc. programs.

The Faculties each meet monthly to decide academic and other policy, and to receive reports of Faculty Committees.

The Faculties share a joint Student Affairs Office where students may obtain counselling and arrange for course changes, deferred examinations, etc. The Office is located on the ground floor of Dawson Hall (see page 19 for additional information).

STUDENT GOVERNMENT

All students registered in the University are members of the Students' Society except for students governed by the constitution of the Macdonald College Students' Society and students registered in the Faculty of Graduate Studies and Research who are non-resident students or full-time members of the teaching staff.

The executive and legislative authority of the Society is vested in the Executive Committee and Students' Council respectively. The Council, as the governing body, is responsible for the proper functioning of all activities of the Society. All undergraduate societies, major activities, clubs, societies, publications and other campus organizations of the Students' Society are under its jurisdiction. It is the only recognized medium, apart from the Students' Athletics Council, between the student body and the University authorities.

The Council is responsible to the students through open meetings and referendums of the Students' Society, and operates according to the constitution of the Students' Society.

Full details of the operations, constitution, officers and committees of the Students' Society are given in the *Student Handbook,* obtainable from the Students' Society or Admissions Office upon request.

UNIVERSITY LIBRARIES

The University libraries include the McLennan Library, the Redpath Library and various faculty and departmental libraries in other buildings and the library at Macdonald College in Ste. Anne de Bellevue. The McLennan Library houses the main research collections for humanities and the social sciences, while the Redpath Library provides expanded facilities for the undergraduate library, the Blacker-Wood collection and the Blackader-Lauterman collection. The libraries of McGill now contain more than 2,200,000 items and receive 18,200 serial titles, many Government publications and transactions of various literary and scientific societies. The McLennan Library is rich in early printed books, in Canadiana, including the Lande Collection, and in rare pamphlets of the sixteenth to eighteenth centuries. It has special collections of David Hume, Rousseau, Rilke, Blake, Napoleon, Stephen Leacock and Rudyard Kipling, the Stearn Library of books and puppets, illustrating the history of the marionette theatre of all nations, and the William Colgate collection devoted to typography.

THE McLENNAN LIBRARY

1) THE MAIN LOAN AND RESEARCH COLLECTION, concentrated on the social sciences and humanities as well as other subjects — monographs, journals, documents, microfilms.
2) THE REFERENCE COLLECTION of encyclopaedias, dictionaries, bibliographical aids, floor. This is an internationally-known collection of some 67,000 items.
3) A CURRENT PERIODICALS READING ROOM housing approximately 2,400 titles is on the second floor.
4) A GOVERNMENT DOCUMENTS COLLECTION AND READING AREA is located on the second floor.
5) A RARE BOOKS AND SPECIAL COLLECTIONS DEPARTMENT including a reading room is on the street floor. The Lande Collection of Canadiana is on the fourth floor.

THE REDPATH LIBRARY

1) THE UNDERGRADUATE LIBRARY. This is an open access circulation collection of some 80,600 items. The aim of the University is to bring this collection to over 100,000 volumes by May 1973. Services of the U.L. include Readers' Services, Reserves, Circulation and a Periodical Reading Room. The Undergraduate Library occupies the basement, street and main floor levels.
2) THE BLACKER-WOOD LIBRARY OF ZOOLOGY AND ORNITHOLOGY is on the second floor. This is an internationally-known collection of some 67,000 items.
3) THE BLACKADER-LAUTERMAN LIBRARY OF ARCHITECTURE AND FINE ARTS occupies the entire third floor and houses approximately 30,200 items, numerous periodicals and architectural drawings.
4) THE AUDIO-VISUAL ROOM shares the second floor with the Blacker-Wood Library and is furnished with 225 carrels equipped with audio-visual devices such as slide projector, tape recorder, filmstrip and super-8-loop projectors and television screens.

2 APPLICATIONS AND ADMISSIONS

GENERAL

The Faculty of Arts and the Faculty of Science offer programs leading to the degrees of B.A., B.Sc. and B.S.W.

The academic year at McGill runs from mid-September until early May, with approximately two weeks vacation at Christmas. The normal period of admission is in September; however, the University is instituting a January admission, and interested students should seek further information from the Admissions Office in September 1973.

The deadline for submission of applications for September admission is March 1 of the year for which the student wishes to apply. All applications must be accompanied by a non-refundable fee of $15.00 payable by certified cheque or money order in Canadian funds made out to McGill University.

Admission is selective, and students are reminded that fulfilment of the minimum requirements by no means guarantees acceptance.

Although our Admissions Officers are always pleased to meet prospective students, a personal interview is not required for admission.

ENTRANCE QUALIFICATIONS

QUEBEC STUDENTS

Holders of the Diploma of Collegial Studies are considered for admission to the first year of an appropriate three year university program (90 credits).

Entrance to the Faculty of Arts

Although it is preferable to begin a specialization at CEGEP, the Faculty feels that the basic courses in English and Humanities remain the minimum requirements for many programs.

It is recommended that students planning to enter Anthropology, Economics, Geography or Psychology should take two Mathematics courses during their CEGEP years.

Entrance to the Faculty of Science

Students proceeding to studies in the Biological Sciences should have completed at least the following courses:*

Biology	101-301 or 101-921 (101-301 recommended)
Chemistry	202-101, 202-201
Mathematics	201-103, 201-203
Physics	203-101 or 203-102; 203-201 or 203-202; 203-301 or 203-302.

Students proceeding to studies in the Physical Sciences should have completed at least the following courses:*

Biology	101-301 or 101-921 (101-301 recommended)
Chemistry	202-101, 202-201
Mathematics	201-103, 201-105, 201-203
Physics	203-101 or 203-102, 203-201 or 203-202, 203-301 or 203-302 (203-101, 203-201, 203-301 recommended)

* Quebec CEGEP course numbers. These courses correspond to: Introductory Biology, Introductory College Chemistry, Calculus I and II (201-105 is Analytic Geometry and Vectors), and Introductory College Physics.

PROVINCES OF CANADA OTHER THAN QUEBEC

Entrance to the Faculty of Arts

Ontario Grade 13 students may be admitted to a 90-credit university program if they have completed five subjects with an average of 70%. English should be included in the student's program; the four elective courses should be appropriate to the program which the student wishes to enter at McGill. Students having only four subjects will be required to make up an additional six credits at McGill.

Students from provinces of Canada other than Quebec, Ontario and Newfoundland who have completed Grade 12 with an average of 70% in appropriate subjects are considered for admission to a program requiring the completion of 120 credits (usually four years are required to complete the program).

Entrance to the Faculty of Science

The three-year programs in the Faculty of Science have been designed on the assumption that the student has a background in science equivalent to that provided by the Quebec Diploma of Collegial Studies in science; that is, that he has completed the equivalent of introductory college-level courses in Biology, Chemistry, Physics, and Mathematics. These courses are referred to as prerequisite courses, 6 credits being assigned to each full-year course.

Ontario Grade 13 graduates and students who have completed first year Science at Memorial University, Newfoundland, are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. Thus, a student who has completed Biology, Chemistry, Physics, Mathematics and one additional non-Science academic course enters a university program requiring the completion of 90 credits (usually three years are required to complete the program).

Students from provinces of Canada other than Quebec, Ontario and Newfoundland who have completed Grade 12 with adequate standing in appropriate subjects are considered for admission to a university program requiring the completion of 120 credits (usually four years).

NON-CANADIAN APPLICANTS

Entrance to the Faculty of Arts

Students with a strong academic record in five appropriate Ordinary Level papers PLUS one full year of formal schooling beyond Ordinary Level may be considered for entrance to an undergraduate program requiring the completion of 120 credits (usually four years).

Students from the United Kingdom and Commonwealth countries may be admitted directly into a university program requiring the completion of 90 credits (three years) with five General Certificate of Education papers, at least two of which must be at the Advanced Level or with four different G.C.E. papers, at least three of which must be at the Advanced Level. An average grade of C or better is required. One of the five (or four) G.C.E. papers must be English Language.

High School graduates from the United States are admitted directly to an undergraduate program requiring the completion of 120 credits. All applicants should have followed academic programs designed for university entrance. Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of "3" or better will be granted some advanced standing. Students with two or three suitable Advanced Placements may be admitted to a program requiring completion of 90 credits.

Entrance to the Faculty of Science

The three-year programs in the Faculty of Science have been designed on the assumption that the student has completed the equivalent of introductory college-level courses in Biology, Chemistry, Physics, and Mathematics. These courses are referred to as prerequisite courses.

Graduates from Grade 12 in the United States are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. An Advanced Placement science course is considered the equivalent of 6 prerequisite credits; a grade of "3" or better is required for Advanced Placement credit to be granted.

Students from the United Kingdom and Commonwealth countries are normally required to have completed examinations in five different G.C.E. subjects including English, Chemistry, Physics, and Mathematics, at least two of which must be at the Advanced Level. Such students are considered for admission to a university program requiring the completion of the difference between 120 credits and the number of prerequisite credits they have earned. Each G.C.E. Advanced Level paper in Science with a grade of C or better is considered the equivalent of ten prerequisite credits.

Students with a strong academic record at "O" level who have also completed a full year of schooling beyond Ordinary Level may be considered for admission to an undergraduate program requiring the completion of 120 credits (usually four years).

Students From Other Countries

Students from other countries are advised to consult the *General Announcement* or the Admissions Office for specific information on the status of their national education certificates.

ADDITIONAL ENTRANCE REQUIREMENTS

1) STUDENTS IN CANADIAN HIGH SCHOOLS OUTSIDE QUEBEC must write the tests of the Service for Admission to College and University (SACU). Application forms and information concerning these tests may be obtained through the schools or from:

   SACU Test Administration
   151 Slater Street
   Ottawa K1P 5N1, Ontario.

2) STUDENTS FROM THE UNITED STATES must write College Entrance Examination Board tests; the two scholastic aptitude tests, the English Composition test, and two other achievement tests appropriate to the program which they wish to enter at McGill. Students from the Eastern United States may obtain information about the tests by writing to:

   The College Entrance Examination Board
   Box 592
   Princeton, New Jersey 08540

   Students from the West should write to:

   The College Entrance Examination Board
   Box 1025
   Berkeley, California 94701

3) STUDENTS FROM OVERSEAS are advised to write CEEB or SACU tests to support their application.

4) NON-CANADIAN APPLICANTS WHOSE MOTHER TONGUE IS NOT ENGLISH must submit acceptable evidence of facility in English. The following evidence is acceptable: the Test of English as a Foreign Language (TOEFL); the University of Michigan English Language test; the Certificate of Proficiency in English issued by the Universities of Cambridge and Michigan.

   TOEFL is preferred by the University; it is administered by the College Entrance Examination Board and is easily available throughout the world.

   Students who cannot obtain a TOEFL bulletin and registration form locally should write well in advance for them to: Test of English as a Foreign Language, Box 899, Princeton, New Jersey 08540, U.S.A.

5) Applicants to the Faculty of Science from outside Quebec who believe they have taken the equivalent of one or more of the prerequisite courses, but who do not have acceptable certification of their performance in these courses, should inquire at the Admissions Office as to their eligibility to take Placement Examinations at McGill in these courses.

TRANSFER STUDENTS FROM OTHER UNIVERSITIES

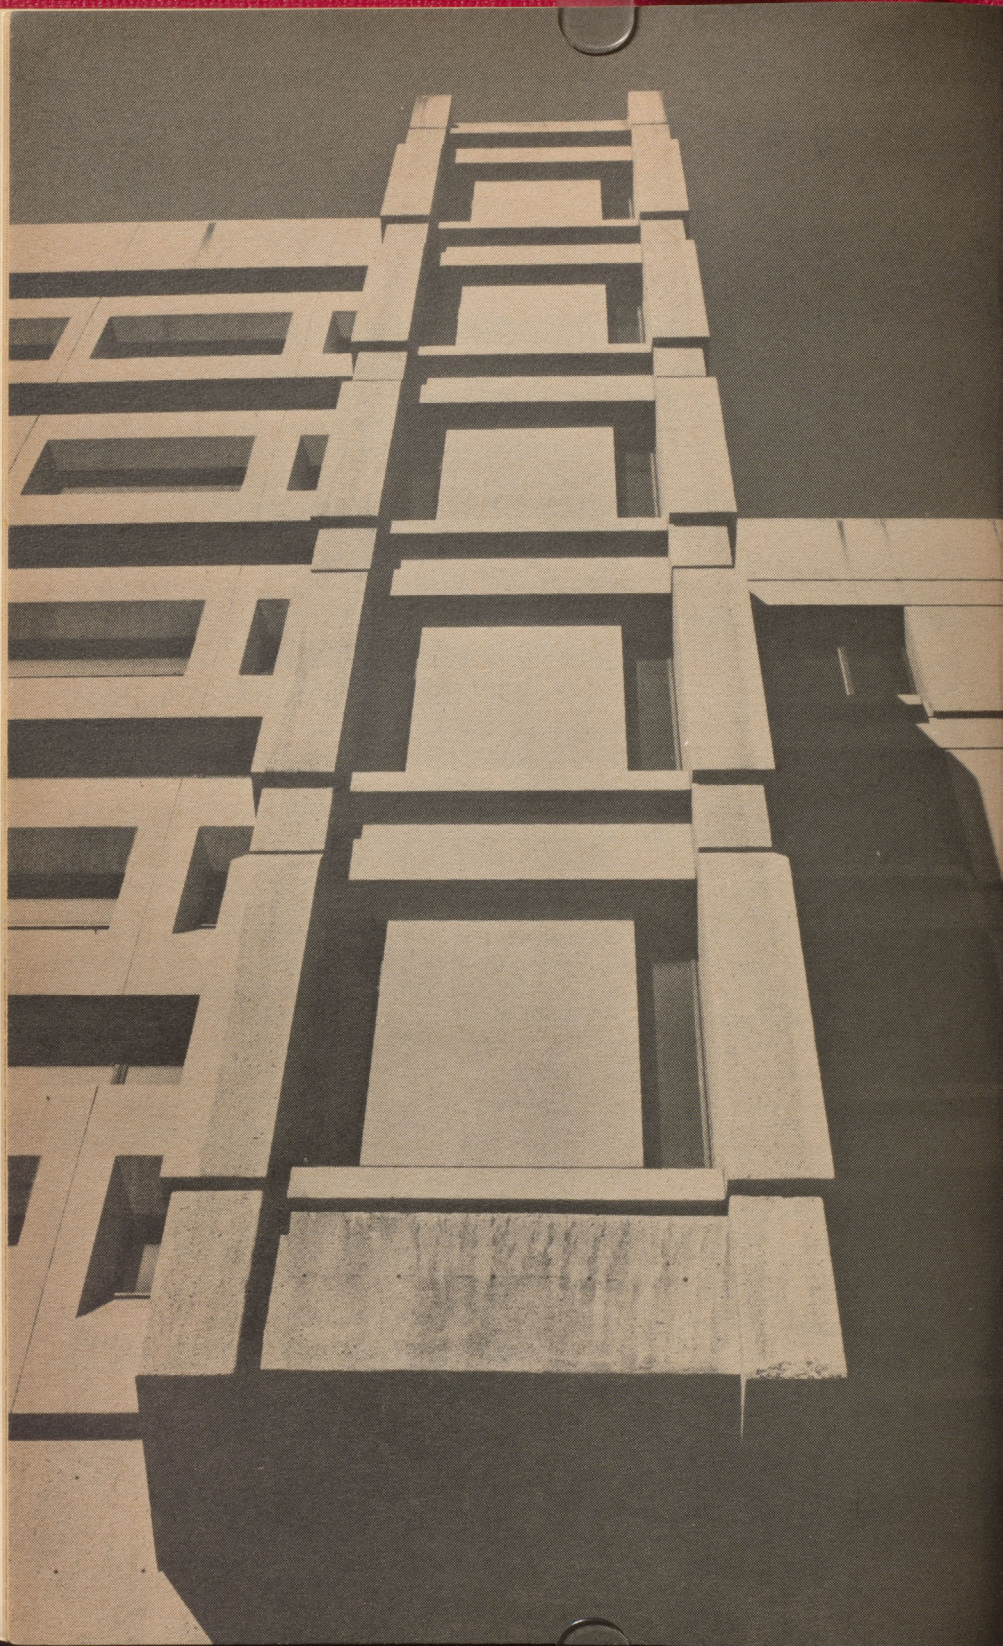
McGill University accepts applications from students wishing to transfer from other universities. At least sixty credits towards graduation must be earned at McGill for students proceeding to the B.Sc. degree; at least forty-five McGill credits are normally required for the B.A. degree.

Such applications are considered when the student's cumulative grade point average (CGPA) is 3.0 or higher, and when his course background suits his intended program at McGill.

GENERAL INFORMATION FOR NON-CANADIAN STUDENTS

A pamphlet describing immigration regulations in detail and containing notes and guidance to students from other countries is available from Canadian immigration offices, Canadian Embassies and British Consular offices, or from the Immigration Branch, Department of Citizenship and Immigration, Ottawa, Canada. Local immigration officers will be ready to give advice and help.

A useful handbook entitled *University Study in Canada* can be obtained from Canadian Embassies, Consulates, and the office of High Commissioners and Trade Commissioners. A leaflet entitled *Notes for Foreign Students Who Wish to Attend a Canadian University* may be obtained from The Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario K1P 5N1.



Further information may also be found in the McGill University *General Announcement*, available at the Registrar's Office.

READMISSION

A student wishing to return to the Faculty of Arts or Faculty of Science after an absence of a portion of an academic year or more must follow the procedures outlined in the section on Faculty Regulations, page 40.

INTER-FACULTY TRANSFER

In certain cases students will be permitted to transfer from another faculty to Arts or to Science. Information and inter-faculty transfer forms are available at the office of the Associate Dean.

3 FINANCIAL INFORMATION

TUITION

The fees for full time students include all the regular charges of the University for the full academic year for registration, tuition, laboratories, libraries, graduation, student services and Students' Society Fees.

FULL-TIME COLLEGE EQUIVALENT STUDENTS

	Bona fide Quebec Students	*Non-Quebec Students*
Arts	$ 460.00	$ 638.00
Science	460.00	703.00

FULL-TIME REGULAR STUDENTS

Arts	638.00
Science	703.00

PART-TIME, SPECIAL AND VISITING STUDENTS

Per 6-credit course	150.00
Per 3-credit course	75.00

The maximum fee charged for courses taken will not exceed the published fee for full time regular students, but in all other cases, the following additional fees apply:

a) If taking eighteen or more credits:

Student Services	27.00
Students' Society	28.00

b) If taking fewer than eighteen credits:

Students' Society only	10.00
full Student Services	37.00

REGULATIONS FOR PAYMENT OF FEES

1. Students entering the University for the first time are required to pay their fees either by mail or in person at the Accounting Office.

The first instalment is due within 10 days after registration, the second instalment before January 15, 1974.

2. Students who have completed one or more years and intend to register in the succeeding year must pay one half of the total sessional fee by mail or in person to the Accounting Office before August 23, 1973, otherwise they will not be permitted to register. Instructions for paying fees in advance will be mailed to all returning students, either with their Sessional Reports of Standing or a short time later. Students who have been notified by the University of the award of a scholarship, bursary or student loan, and who require this award for payment of the first instalment of fees, must obtain from the Student Aid Office, McGill University, a *Permit to Delay Payment of Fees.*

The second instalment is due by January 15, 1974. A late payment fee as stated above is charged for payment after the specified dates.

3. Students registering late must pay their fees at the time of registration, failing which they become subject to the late payment fee and the provisions of the following paragraph:

As soon as possible after the prescribed dates for the payment of fees the Chief Accountant will send to the Dean of each Faculty a list of the registered students who have not paid their fees. The Deans will thereupon suspend them from attendance until such time as the fees are paid or a satisfactory arrangement is made with the Chief Accountant.

SPECIAL FEES AND PENALTIES

Application for Admission (for new students only)	$ 15.00
Late registration	25.00
Late payment (after specified date)	
First 30 days	10.00
After 30 days	25.00
Graduation in absentia	5.00
Duplicate diploma	10.00
Certified transcript of student's record:	
First 2 copies each	1.00
Additional copies, up to 10 copies made at same time, each	0.10
Re-reading examination paper	10.00
Supplemental examinations, each paper	10.00
Changes in course, each change after specified change of course period	5.00

Residence Fees:
See page 22.

SCHOLARSHIPS AND FINANCIAL AID

ENTRANCE SCHOLARSHIPS

In general, the University's system of entrance scholarships is designed to enable good students from all parts of Canada to attend McGill. Students who have obtained a high first class academic standing, or who expect to obtain such standing in their examination results, should apply for an entrance scholarship by completing the Application for Entrance Scholarship form. These forms may be obtained from the Admissions Office and must be submitted before March 1.

The policy of the University is to recognize and honour scholarship. When a student has been selected for an award and is in financial need, it is the further policy of the University to meet that need as far as resources permit. In order to be considered for a scholarship of major financial value, the applicant must complete the Application for Financial Aid. The amount and nature of financial aid are determined by the Student Aid Office.

Although there are some funds available in certain disciplines which enable the University to award scholarships of major value, in general a student is expected to apply first to his own province and to accept the maximum loan and bursary aid offered by this province before receiving any augmentation of his McGill Scholarship.

PROVINCIAL AND FEDERAL AID

In all cases, a basic qualification is that the applicant must be a Canadian citizen or a Landed Immigrant with one year's residence and domicile in the province to which he applies.

In all provinces, except Quebec, the provincial authority listed below administers the Canada Student Loan Plan (Federal) as well as their own programs. The addresses are as follows:

Quebec: Apply for a Quebec registration card, after May 15, at the Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec.

Ontario: Student Counselling-Student Aid Office, Room 110, F. Cyril James Building, McGill University, P.O. Box 6070, Montreal 101, Quebec.

New Brunswick: Department of Youth & Welfare, Fredericton, N.B.

Yukon Territory: The Students Financial Assistance Awards Committee, c/o Superintendent of Schools, Box 2703, Whitehorse, Yukon.

Northwest Territories: c/o Education Division, Department of Northern Affairs & Resources, 150 Kent Street, Ottawa, Ontario.

For the Provinces of Newfoundland, Prince Edward Island, Nova Scotia, Manitoba, Saskatchewan, Alberta, British Columbia: write to the Provincial Department of Education.

BURSARIES AND LOANS

These may also be available to non-scholarship students through the Student Aid Office if other sources of aid are genuinely inadequate.

STUDENTS FROM SCHOOLS OUTSIDE CANADA

Students from schools outside Canada are ineligible for entrance scholarships. They are expected to present evidence to immigration authorities that they have adequate funds for their studies in Canada. All who wish to study in Canada should consult the Ministry of Education in their home country for financial assistance.

SUMMER WORK AND PART-TIME WORK. Non-Canadian students must apply to the Canadian Immigration authorities for permission to obtain employment.

UNITED STATES CITIZENS

The National Defence Loan is not tenable in Canada, but several states have long term loan plans which are tenable here. Students should inquire at the Department of Education in their state capital and also at local banks which may operate a Higher Education Loan Plan.

4 STUDENT SERVICES AND FACILITIES

DEAN OF STUDENTS

The Dean of Students, Dr. Saeed Mirza, works with student officers and organizations and attempts to provide liaison between students, collectively and individually, and other sectors of the University. Working with the Dean of Students in the area of student services is the Associate Dean of Students, Dr. Elizabeth Rowlinson. Both the Dean and the Associate Dean are available for consultation with individual students who may wish to discuss with either of them problems not already provided for by one or other of the existing services. The office of the Dean of Students maintains an "open-door" policy and students are invited to make use of these services at any time.

Location: 3465 Peel St.

Dr. Saeed Mirza	392-5287/5288
Dr. E. Rowlinson	392-4551

ORIENTATION SERVICE

The Orientation Service is a pre-registration counselling service designed to assist incoming students in selecting their courses and to introduce new students to the various aspects of the University.

The objectives of the program are: to provide information and advice on courses and programs of study according to the students' vocational expectations, interest, ability and aptitude; to acquaint students with the many services available at McGill, and to encourage their use; to tell students about registration procedures and offer suggestions which might facilitate the process; to provide the kind of information new students need to resolve academic and other problems (i.e. change of course, etc.); to familiarize students with the geography of the campus, and to introduce them to the libraries; to provide the opportunity for incoming students to meet individual members of the academic staff in an informal and friendly atmosphere.

Incoming students are invited to participate in a one-day orientation session consisting of the following:

A group meeting in the morning to discuss registration procedures, student services, the program for the day and questions of a general nature. Each student is assigned to an individual counsellor at this time.

McGill students conduct campus tours in the morning and in the afternoon. The staff of both the Redpath and McLennan libraries provide an introduction to the libraries.

A Social Hour is held in the lounge of the Mathematics Department daily from four to five p.m. Academic staff and representatives of Student Services drop in to enjoy a cup of coffee and chat with the students. The students in turn are given the opportunity to learn more about the University and discuss programs on a friendly basis.

COUNSELLING FOR NEW STUDENTS

Out-of-province students admitted to a program requiring between 97 and 120 credits must first consult a counsellor in Dawson Hall. In some instances, they will be referred to a departmental Academic Adviser; in most others they will be considered to be in the "Freshman" program, with their adviser for the first year being a staff member in Dawson Hall. (See Faculty Regulations, Academic Advisers, page 34.)

COUNSELLING IN THE FACULTIES OF ARTS AND OF SCIENCE

Students are urged to make full use of the advice and counselling offered by the Faculties of Arts and Science. Prospective students who are undecided as to a choice of program or orientation should consult an adviser in the Student Affairs Office, Dawson Hall. These advisers are ready to provide information and advice on courses and programs of study. Incoming students are asked to contact the office as early as the month of March.

Students who have decided on their program of studies, and who wish to proceed directly to an Academic Adviser for completion of a Study Plan Form may do so.

The advisers in the Student Affairs Office are available to undergraduates for consultation throughout the academic year. Experienced personnel answer questions and offer guidance each weekday from 9:00 a.m. to 5:00 p.m.

TUTORIAL SERVICES

The Arts and Science Undergraduate Society, with the co-operation of the Faculties, sponsors an extensive Tutorials Program; its services are available to students during the Fall and Spring terms. Students may be tutored by senior honours and graduate students specializing in the majority of fields within the Faculties. Sessions are approximately one hour in length and normally two to four students are tutored at each session. The cost to the student is minimal and depends on the number of students in the group; the Society and the University by joint agreement finance the difference between the nominal fees and the tutors' honorarium. Interested students may obtain further information from the ASUS office, Room 30, Morrice Hall (392-5038), or from the Student Tutoring Centre (392-6741), 522 Pine Avenue West.

BOOKSTORE

The McGill University Bookstore, located in the Bronfman Building at 1001 Sherbrooke Street West, provides a comprehensive stock of current textbooks, reference material and academic supplies as well as items of general interest. Although all sales are at normal retail prices, the cost of maintaining adequate stocks of required material is high and the Bookstore is a non-profit operation.

RESIDENTIAL FACILITIES

Types of Residences

McGill offers three types of residence accommodation:

1. Royal Victoria College houses graduate and undergraduate women.
2. Douglas Hall houses both men and women, and is exclusively a graduate residence.
3. Gardner, McConnell and Molson Halls each house both men and women, most of whom are undergraduates, although some graduate students also choose to live there.

Location

The Co-educational Residences are located on the wooded slopes of Mount Royal, adjacent to the University playing fields. They are approximately two blocks away from the main campus, and a ten-minute walk from the centre of downtown Montreal.

Royal Victoria College is on campus close to the major shopping and cultural areas of the city. Bus and subway stops are nearby.

Academic Staff

The academic staff of each hall consists of a Residence Director or Warden, Assistant Directors, and Residence Fellows or Dons. One of the main functions of the academic staff is to get to know students individually and, if a student requests it, to give advice on personal or academic matters.

Rooms and Facilities

Except for a few rooms at Royal Victoria College all rooms are for single occupancy and in each, besides a bed and bed-linen, there is a desk, chair, chest of drawers and closet. Linen and towels are changed weekly. The co-ed residences have maids who clean the rooms, but in all halls residents are expected to make their own beds and tidy up. Each hall has coin-operated automatic washers and dryers, as well as ironing facilities; an outside dry cleaning firm also calls regularly at the residences. Telephones located on each floor are operated through hall switchboards; in addition, each room is wired for a private telephone. There is plenty of storage space for ski equipment, trunks, and suitcases in every hall. Limited parking space is available in the co-ed complex only.

The halls have TV, music, sewing, and stereo rooms, and a well-stocked library of magazines, books and newspapers. The co-ed residences provide a calculating and typing room, and R.V.C. has the use of a swimming pool located within the building.

Meal Service

Residents at Molson, McConnell and Gardner halls take their meals together in a large centrally located dining hall. Douglas Hall and the Royal Victoria College have their own dining rooms. Students may choose either a seven or five day meal plan. Bag lunches are available. There are kitchenettes on every wing of the co-ed residences where residents may keep food and prepare hot or cold snacks at any time. In addition vending machines in every hall dispense soft drinks, sweets and pastries. Students in the co-ed residences can rent small refrigerators for their rooms.

Diets

Limitations of facilities do not permit catering for special religious diets in the dining halls, although the kitchens will seek to meet special needs whenever possible. Temporary diets because of sickness may be prepared on doctors' orders.

Health

In case of illness residents are usually referred to the University Health Service nearby. However, there is a nurse on duty every day in the residence dispensary or infirmary, and live-in nurses who keep evening office hours and who are also available for emergency treatment any time.

Government

Each hall has a Residents Council, elected yearly by the residents at a designated time during the academic year. It is the job of Council to gather hall opinions, set policy, supervise financial affairs, and organize sporting and recreational activities within the residences.

Guidelines

McGill's residences are run for the convenience and advantage of the students living in them. What "rules and regulations" do exist are decided upon and administered by the students themselves. Basically, living together in any community requires just a single rule: respect for the rights of others. In each hall there is a House Committee which is elected from the student body at the beginning of each year to deal with any problems that may arise.

Application and Admissions

Please note that the procedure governing residence admissions is entirely separate from that of University admissions. Application forms for both the Royal Victoria College and the Co-ed Residences are mailed out with all academic application forms.

Owing to a shortage of housing, the University cannot guarantee every student a place in residence. There is a Housing Service to assist those seeking suitable off-campus housing.

Residence applications should be returned as soon as possible, preferably before April first.

McGill residence admission policy extends to all students — Montreal-area students as well as out-of-town students, on a first-come, first-served basis.

Room and Board Charges in University Residences

Single Rooms — The following sessional fees apply from lunch September 10 to breakfast May 2 and include room and board charges, key deposit and residence activities fees.

Room and all meals	$1,205
Room and weekday meals	1,065

A limited number of students, whose academic programs make it difficult for them to dine in residences may be accommodated on a room only basis at lower sessional fees which are available on request.

Double Rooms — There are a limited number available in Royal Victoria College. Sessional rates are $50.00 lower than those indicated above.

Exclusions — Meals on the following holidays are not included: September 3, Labour Day; October 8, Thanksgiving; March 1, Mid-Term; April 12 and 15, Easter; May 20, Victoria Day; Christmas recess of 16 days, dates to be announced.

Meal Prices — Residents may obtain meals, in addition to those covered by sessional fees, at the following student rates.

Breakfast	$ .85
Lunch	1.35
Dinner	1.65

Extended Stays

Because of registration, examinations or other special circumstances, residents may be permitted to occupy their rooms for a limited time before or after the period covered by their sessional fees. The charges for such extended stays are $2.60 per day, excluding meals and $5.00 per day, including meals. One of these options must apply for the full period of the extended stay. Payment for extended stays must be made in advance for the duration of the stay or a period of one week, whichever is less.

Other Regulations

Students accepted for residence must pay a deposit of $50.00 which will be deducted from their residence fees for the second term. It will be refunded only if written notification is received before July 1, or if the examination results prevent registration.

Payment of Residence Fees

Entering or transfer students: Fees may be paid in two instalments — the first within ten days after registration, and the second before January 15.

Returning students: First instalment must be paid August 23 and the second before January 15.

The sessional fees include a house fee of $9.00 collected by the University on behalf of the Residents' Council of each hall, and a $6.00 key deposit which is refunded at the end of the session.

HOUSING SERVICE

A service to aid students in locating off-campus accommodations is available. Students who wish further information may inquire at the office of the Dean of Students, 3465 Peel St.; Telephone 392-5288.

STUDENT COUNSELLING – STUDENT AID OFFICE

Student Counsellors are available to students of all Faculties for discussion or consultation on any problem of a non-academic nature, confidential or otherwise. Referral to more specialized counselling is made where this is deemed advisable. The Student Aid Office handles all matters relating to financial assistance (scholarships, bursaries and loans), whether university, provincial or federal. Non-Canadian students requiring certification of registration and/or letters of advice to Foreign Exchange Control Boards obtain these from this office.

Location: 3465 Peel St.

Mr. J. Stanley Kennedy, Director	392-5258
Mr. J. H. Richardson	392-5257
Miss Norma Jameson	392-5256

GUIDANCE SERVICE

Psychological services are offered designed to assist individuals in their personal development, especially in their career plans. The activities of the service complement the other consulting and advisory agencies available. Staffed by psychologists, the service is a professional facility for both indidivual and group use.

The aim of the service is to help individuals (a) to make sound and flexible plans for the future, (b) to mobilize the energy to carry these plans through and (c) to review objectively and learn from the consequences of their decisions.

Participants are guided by involving them in a number of activities including psychological counselling or therapy, testing, auto-biographical review career information library, use of referral resources, special activities such as effective reading programs, how to write resumes and how to secure good recommendations. The time involved is around 20 hours spread out to suit the convenience of the individual.

The Career Information Library is available with information on personal adjustment, academic life, sociology of work and alternatives for further education in the collection of university calendars.

The services are free for members of the University and are also available to the public on payment of necessary fees. Full descriptive literature is available by request in person, by phone or mail.

Location: 522 Pine Avenue West

General Information: 392-5119

STUDENT PLACEMENT OFFICE – CANADA MANPOWER CENTRE

The Placement Office provides a range of services to McGill students and recent graduates, in the field of student and graduate employment.

Students who seek information about job and career opportunities can meet with a placement counsellor, individually, or in groups. There is literature available, such as employer directories, company brochures, advice on career opportunities, writing a resumé, preparing for an interview, etc. Meetings, seminars and panels are arranged for the purpose of providing information on the world of work. (Students are reminded of the career library and other assistance available through the Guidance Service.)

Students looking for specific jobs will find employment opportunities posted at the Placement Office. A number of employers visit the Placement Office during the first term to interview students, particularly those seeking permanent employment. Registered students who have been interviewed by a placement counsellor are referred to suitable job vacancies that are not posted.

Location: 762 Sherbrooke St. W.

General Information: 283-4411

HEALTH SERVICE

When students enrol at McGill University they have available to them a full range of medical service provided by the McGill University Health Service. Medical clinics operate daily, five days of the week from 9:00 a.m. - 5:00 p.m. A physician is always on call at night and on week-ends and he can be contacted by dialing the Health Service number. There are both male and female physicians on staff as well as a competent staff of college health nurses.

This service is available to all full-time students, undergraduate and postgraduate. Postdoctoral students, extension course, diploma course and part-time students taking less than three credits are welcome to consult us if a health problem arises but the full range of services may not be available to them. Students are asked to bring their Medicare cards or equivalent. *All information is completely confidential and forms no part of any "University record".*

Many students are seen for discussion about sexual life, contraception, drug problems and venereal disease. We urge students who suspect that they have V.D. to consult us because to neglect this condition can be most damaging. We invite students who are concerned about a drug problem to contact the Health Service and most particularly the Mental Health Section.

Part of the Health Service consists of a Mental Health Service which makes available to students psychiatric and psychological help. Students who wish to come are advised to make an appointment. If a psychological emergency arises the student should come directly to the Mental Health Service or phone immediately. All contacts by students with their service are kept completely confidential.

PARTICIPATION IN ATHLETICS: A student in any academic year wishing to participate in heavy contact athletics, e.g. football, will be required by the Athletics Department to undergo a physical examination at the University Health Service. A student who has received medical attention for an illness or accident must be declared fit by the Health Service before he may again participate in athletics.

In order to ensure medical coverage while a student at McGill, Canadian students from provinces other than Quebec are advised to consult with the medicare and hospital insurance offices of their own province before coming to McGill. This is particularly important since residents of other provinces are not covered by Quebec Medicare and Hospitalization while studying at McGill.

Non-Canadian students, whether undergraduate or postgraduate, are obliged to enrol in a medical and hospital insurance program. Consequently, the student and his dependents are covered to a large extent for medical and hospital expenses during the academic year. Information concerning this program can also be obtained at the general office of the Health Service.

Location: 517 Pine Avenue West

Appointment and General Office	392-5441
Director: Dr. J. G. Lohrenz	392-5444
Mental Health Section	392-5449

CHAPLAINCY SERVICE

A counselling service is available through the campus chaplains independent of McGill administration. It is established to serve the needs of all students through individual counsel or group encounter. The service is related to areas such as marriage counselling, value systems and group dynamics. In general an attempt is made to respond to the varying crises of the student community. There are also open meetings on pertinent topics throughout the year. These are announced in the McGill Daily when they occur. Counsellors are available either through "3521" or through the listed sponsoring agencies.

There is a lounge and reading area and books and periodicals are available to students free of charge. The lounge is open for student use throughout the day. Information concerning individual denominational services is available at "3521".

UNIVERSITY CENTRE

The University Centre at 3480 McTavish is the home of most of the extra-curricular activities at McGill. It houses offices for the Students' Society and all the major activities including the McGill Daily and Radio McGill. There are meeting rooms that are available to students, a pizza shop and cafeteria on the first and second floors, a coin laundry in the basement, a free telegram service provided by the amateur radio club, and a free lunchtime theatre. For information call 392-8922.

Extra-Curricular Activities

Complete details of all extra-curricular activities may be found in the Student Handbook, published yearly by the Student Society and available at registration.

The Student Handbook lists over 250 activities and clubs which students may join. These include international clubs, religious groups, political clubs, fraternities, communications (Radio McGill) and some 50 miscellaneous groups (such as science clubs, literary, theatrical and musical societies, chess and bridge clubs, and the Voyageurs' Society).

ATHLETICS

McGill's facilities for athletics, physical education, and recreation are centred in the Sir Arthur Currie Memorial Gymnasium, the Percival Molson Memorial Stadium and the McGill Winter Stadium. Sports facilities in the gymnasium include basketball, squash, badminton, and volleyball courts; swimming pool; facilities for gymnastics, wrestling, fencing, judo, and track. For the use of all women students of the University, staff and graduates, the Garfield Weston Swimming Pool at Royal Victoria College is available.

The physical education programs for men and women provide instruction for students in various sports.

Numerous intramural and recreational sports clubs provide opportunities for students to participate in sports for relaxation and to represent their faculty, or residence on intramural teams of their choice.

On the intercollegiate level McGill participates in sports sponsored by the Quebec Universities Athletics Association and the Ontario Women's Intercollegiate Athletics Association.

For a complete description of the McGill athletics facilities and intercollegiate, intramural, and recreational sports programs, see the Student Handbook.

OTHER SERVICES

Bus and Train Passes

Students, after having registered, may obtain an application form for reduced rates on buses and trains from the Registrar's Office.

Lockers

Certain buildings have locker facilities available to students. To obtain a locker, students should apply to the building porter and present their I.D. cards.

5 REGISTRATION AND ENROLMENT

GENERAL INFORMATION

Registration takes place early in September and lectures begin shortly thereafter. Complete information for the use of accepted candidates is sent with the letter of admission.

Incoming students in programs requiring 96 or fewer credits who have made their choice as to area of study may proceed directly to the appropriate Academic Adviser for completion of a Study Plan Form. Such students must bring to this interview their letter of acceptance, a copy of the transcript of their previous studies and should have read carefully the relevant parts of this Announcement as well as departmental supplements available from departmental offices. In planning the choice of elective or optional courses, students should check that there are no timetable conflicts.

Students who have not decided on their area of study or who are seeking additional advice should first consult a counsellor in the Student Affairs Office, Dawson Hall, for guidance.

Students admitted to a 97 to 120 credit program or to second year CEGEP (college equivalent) will, in most cases, be assigned to an adviser in the Office of the Associate Dean. Such students should consult Mrs. L. Willis, Room 109, Dawson Hall (telephone 392-5084).

To obtain an Academic Adviser in either the Arts programs or the Science programs, see page 34.

LATE REGISTRATION

There will be a period of registration for those unable to register at the stipulated time. (See Calendar of Dates, page 3.) There will be a late registration fee of $25.00.

PERSONAL INFORMATION

It is important that every student keep his official record up to date.

Any change in name (e.g. marital status), home address and telephone number, Montreal address and telephone number should be reported to the Office of the Associate Dean, Dawson Hall.

TIMETABLE

An official lecture timetable is available before and at registration. A preliminary version of the timetable (omitting lecture locations) is available in early June.

WITHDRAWAL FROM THE UNIVERSITY

A student who wishes to leave the University during the academic year must formally withdraw. Details may be found on page 40 on Faculty Regulations.

CHANGE OF COURSE

Refer to section on Faculty Regulations, page 36.

CHANGE OF SECTION

Refer to section on Faculty Regulations, page 36.

WITHDRAWAL FROM A COURSE

Refer to section on Faculty Regulations, page 36.

CONFIRMATION OF PROGRAM

Each student is responsible for his or her registration in the proper courses and programs. A computer print-out will be sent to every student soon after the change of course period in January and it is the student's responsibility to check it for errors and return it, signed, to the Office of the Associate Dean, Dawson Hall. Students who expect to graduate at the end of the academic year should so indicate on this verification form.

6 COURSE NUMBERING SYSTEM

Courses are given a 7 place designation. The first three digits specify the department by a numerical code (see table below), the next three symbols form the course number proper, and the final letter indicates the term or terms during which the course is offered, according to the following scheme:

A — First term
B — Second term
D — Full session
C — Summer session
F — Field course

To illustrate: 189-231A designates Mathematics (189) course 231 given in the First term; 180-E22A, B denotes Chemistry (180) course E22 given in either the First or Second terms; 204-200D designates Psychology (204) course 200 given over the full session.

Note: The level of a course is generally indicated by the fourth character:

E — College Equivalent
1 — College Equivalent or prerequisite courses (Science)
2,3,4, — University levels 1, 2, 3 respectively

DEPARTMENTAL CODES

101 — History
104 — Linguistics
107 — Philosophy
114 — Classics
117 — East Asian Studies
120 — English
123 — Art History
126 — French
127 — French as a Second Language
129 — German
132 — Italian
135 — Jewish Studies Program
141 — Russian
144 — Spanish
151 — Anthropology
154 — Economics, Industrial Relations
157 — Centre d'Etudes Canadiennes-Françaises
160 — Political Science
166 — Sociology
177 — Biology
180 — Chemistry
183 — Geography
186 — Geological Sciences
189 — Mathematics
195 — Meteorology
198 — Physics
204 — Psychology
214, 243 — Music
260 — Religious Studies
279 — Management
308 — Computer Science
397 — Islamic Studies
407 — Social Work
504 — Anatomy
507 — Biochemistry
528 — Microbiology and Immunology
549 — Pharmacology
552 — Physiology

7 FACULTY REGULATIONS

GENERAL INFORMATION

ARTS

The Faculty of Arts offers Major and Honours programs in a wide range of fields as well as a series of interdisciplinary majors. In cooperation with the Faculty of Science, B.A. Faculty Programs are also offered in three areas. (See page 55.)

In a Major at least three-fifths of the course load is specified within the area of concentration and the student may select his remaining elective courses from the offerings of the Faculties of Arts and of Science. Special permission is required for a student who wishes to choose an elective from another Faculty, *i.e.* Education, Management, etc.

Honours programs involve a high degree of specialization, and require the student to satisfy specific departmental Honours requirements while maintaining a good academic standing. Joint Honours programs are available in many related disciplines. Consult departmental listings.

SCIENCE

Three types of study plans are available: Faculty Programs, Major Programs and Honours Programs.

A Faculty Program is an approved coherent selection of courses giving the student a useful concentration in a recognized area. Three-fifths of the student's course load in a Faculty Program is specified, the remaining courses being freely elected from those offered in the Faculties of Science and of Arts. A student may thus choose a pattern of study within a Faculty Program which can range from one yielding a broad education to one specializing in particular interests.

Major Programs are more specialized than Faculty Programs, and are usually centred around a specific discipline or department. Between three-fifths and four-fifths of the course load is specified in the program and the student is free to elect the remaining courses from the offerings of the Faculties of Science and of Arts. Special permission is required for a student who wishes to choose an elective from another Faculty, *i.e.* Education, Management, etc.

Honours Programs require the student to maintain academic performance at a high standard in addition to involving a very high degree of specialization.

LANGUAGE POLICY

The normal language of instruction at McGill is English. Students may if they wish write term papers and examinations in French, but reasonable competence in English is essential to success at the University. It is recommended that students who lack fluency in English take a course in English as a second language at McGill's Summer School or elsewhere before embarking on a university program of studies.

There are no language requirements in either faculty. English-speaking Quebec students are encouraged to develop proficiency in French.

ACADEMIC ADVISERS

It is essential that each student consult with an adviser and complete a study plan form before registration.

1. Department Academic Advisers
   Each department has appointed advisers who will meet with students and approve their programs by signing the study plan form in Honours, Major and Faculty programs. (See the departmental listings for their names and/or locations.)
2. General Counsellors
   Students who are undecided as to their program or who may wish to change programs should seek advice at the office of the Associate Dean or a department in their general area of interest. General program and course information is available at Dawson Hall; the student will subsequently be referred to a departmental academic adviser for approval of his program. See also "Counselling in the Faculties of Arts and of Science", page 20.
3. New Students
   A student admitted to a university program requiring 96 or fewer credits must consult a departmental academic adviser and must present his transcript and letter of admission to facilitate program planning. See also "Counselling for New Students", page 19.

   A student admitted to second year CEGEP (college equivalent) or to a university program requiring 97-120 credits must consult Mrs. L. Willis, Room 109, Dawson Hall (telephone 392-5084) to obtain an adviser to plan his program. An orientation session is available for new students which includes group meetings, campus and library tours and a social hour for informal meetings with members of staff. See also "Counselling for New Students", page 19.

STUDENT CATEGORIES AND COURSE LOADS

Full-Time Students

Full-time students in Satisfactory standing take between 12 and 17 credits per term. A load of up to 19 credits per term is permitted students whose GPA is above 3.0.

Full-time students in Probationary standing take between 10 an 12 credits per term, and may add to this load a repeated course in which a grade of "D" was originally obtained.

Part-Time Students

Part-time students carry fewer than 12 credits per term (fewer than 10 credits per term for students in Probationary standing). New students apply through the Admissions Office and the applicant must have the qualifications to enter a full-time program. Full-time students who wish to become part-time must consult the Office of the Associate Dean, Dawson Hall. Certain programs must be completed within a specified number of years; such information is available from the Departments concerned and from the Associate Deans.

Special Students

A special student takes regular credit courses, but is not working towards a degree. To qualify for this status a student must hold an undergraduate degree and have a specific approved plan of study. Applications must be made at the Office of the Associate Dean, Dawson Hall.

Visiting Students

A visiting student is one who is taking courses at McGill for credit at another university. Applications must be made at the Office of the Associate Dean, Dawson Hall.

DEGREE REQUIREMENTS

Holders of a Quebec Diploma of Collegial Studies must complete a total of 90 credits (*i.e.* have passed courses whose total credit value is 90) to be eligible for a degree, must have passed satisfactorily all courses required by their program, and have a CGPA at McGill of at least 2.0.

Out-of-Province students will have the number of transfer credits allowed and the number of credits required for their program indicated on their acceptance letter. To be eligible for a degree, they must pass satisfactorily all courses required by their program, and have a CGPA at McGill of at least 2.0.

Departments may recommend to Faculty that a student be awarded Honours or First Class Honours under the following conditions: that the student complete all requirements imposed by the department, and that the GPA or CGPA at graduation be 2.8 to 3.49 for Honours and 3.5 or better for First Class Honours.

Students in a Major or Faculty program who graduate with a CGPA of 3.5 or better will be awarded their degrees with "Great Distinction"; those with a CGPA between 3.3 and 3.49 will receive their degrees with "Distinction".

ACADEMIC STANDING

Satisfactory Standing

A student enters the University in satisfactory standing and remains in this standing unless his GPA for any year drops below 2.0.

Probationary Standing

A student whose GPA drops to between 1.5 and 1.99 (1.2 and 1.99 for his entering year) is placed in probationary standing.

A student in satisfactory or probationary standing who has failed to obtain a satisfactory grade in a course required by his program may be conditioned in that course. He will then be required either to pass the supplemental examination in the course (if available) or to repeat the course. If the course is taken as an option in his program, he may choose to replace it with another option.

Unsatisfactory Standing

A GPA of less than 1.5 (1.2 in the entering year) places a student in unsatisfactory standing.

A student in probationary standing must return to satisfactory standing within one year by obtaining a GPA of 2.5 or CGPA of 2.0, otherwise he will be placed in unsatisfactory standing.

Students in unsatisfactory standing must withdraw from the Faculty. They may be readmitted after appealing to the Committee on Student Standing and subsequently considered in probationary standing. A student in unsatisfactory standing for the second time will be required to withdraw permanently.

Honours

Faculty awards Honours at graduation on the recommendation of the Department concerned. Faculty guidelines for a registered Honours student are:

First Class Honours: CGPA of 3.5 or higher
Honours: CGPA of 2.8 to 3.49

To be registered in an Honours program after his or her first year, a student must have attained a GPA and CGPA of 2.8 or better in the previous year, unless the student has special permission from his Department and the Associate Dean. Departments may impose additional Honours requirements. These, where applicable, will be found with the departmental Honours program descriptions.

ACADEMIC DEFINITIONS

Option: A course or sequence of courses chosen from a number of listed courses or sequences of courses within a program.

Prerequisite: Course A is prerequisite to course B if a satisfactory pass in course A is required for admission to course B.

Corequisite Course: The course a student must take prior to or concurrently with more advanced or other courses in that subject. Some courses require corequisites from other departments.

Elective: Any course offered by the Faculties of Arts and of Science for which the student is eligible, *(i.e.* has the necessary prerequisites, if any). Courses from other faculties may be taken only with the permission of the Associate Dean.

Paired Courses: Two one-term courses where no mark is given for the first term course (an exception being made when the student drops the course at mid-year). At the end of the second term, both term marks are averaged and the average mark is given for each course.

Linked Courses: Two one-term courses where no credit will be given for either course unless the other is taken. The marks will not be averaged.

CHANGE OF COURSE

Students who wish to change the courses for which they are registered within the change of course period must apply to the Associate Dean. Permission may be granted provided that such changes do not involve conflicts in timetable nor destroy the required sequence of courses. Course cards must be obtained from the office of the Associate Dean. All changes must be approved by the instructor of any course added and by the Honours, Major or Faculty Program adviser.

Deadlines	A course (first term course)	D course	B course (second term course)
1. Change or drop course(s); no fee; dropped course(s) will not appear on transcript.	October 4 to October 12 1973	October 4 to October 12 1973	January 28 to February 4 1974
2. Late change of course, $5 fee; dropped course will not appear on transcript.	October 19 1973	October 19 1973	February 11 1974
3. Withdrawal from a course after change of course deadline, only with permission of Associate Dean for exceptional circumstances, W will be indicated on transcript but will not be counted in the GPA.	October 26 1973	November 30 1973	February 22 1974

NOTE: Withdrawal from a course after the deadline in #3 above; "W" or "WF" as appropriate will appear on the transcript. Approval will be granted only in exceptional circumstances. The GPA will not include the "W" or "WF".

CHANGE OF SECTION

Many courses with large enrolments are given in several sections at different times. For any change of section within the same course, the department concerned should be consulted. Such changes need not be reported to the Associate Dean's office.

CREDIT SYSTEM

All courses carry a credit rating. Generally a three-hour one-term course carries 3 credits.

Courses are graded either by letter grades or in percent, with the following correspondences: A (80-100%), B (65-79%), C (55-64%), D (45-54%), F (0-44%). Grades A, B, C are termed satisfactory passes, D a conditional pass and F a failure. Certain courses have been approved for Pass/Fail (P/F) grading.

Although the grade of D is a passing grade, a grade of C or higher "Satisfactory Pass" is required in all courses specified as requirements for an Honours, Major or Faculty Program. Moreover, no student may register for a course for which he has not passed all the prerequisite courses with a grade of C or better, except by written permission of the department concerned.

Numerical equivalents of 4, 3, 2, 1, 0 are attached to the grades of A, B, C, D, F respectively. The earned grade point for each course is calculated by multiplying the credit rating of the course by the numerical equivalent of the letter grade earned. Standing will be determined on the basis of a grade point average (GPA) computed by dividing the sum of the grade points accumulated during the year by the total course credits attempted.

The cumulative grade point average (CGPA) will be the grade point average calculated using the student's entire record in the program. A failed course will continue to be used in the calculation of the CGPA even after the course is repeated and passed, or if a supplemental examination is taken.

Example: A student has taken the following courses and receives the indicated grades:

		Credits	*Mark*	*Grade*	*Grade Point*
Art History	123-315D	6		B	18
Chemistry	180-212A	4	62%	C	8
English	120-317A	3		A	12
Geography	183-315B	3	50%	D	3
History	101-321B	3		F	0
Philosophy	107-420D	6		A	24
Psychology	204-210D	6	78%	B	18
		31			83

$$\text{GPA} = \frac{83}{31} = 2.68$$

ATTENDANCE AND TERM WORK

No student will be permitted to write an examination in any course unless he has fulfilled the requirements of the course to the satisfaction of the instructor and the Associate Dean.

It is the responsibility of each student to make sure at the time of registration that there is no conflict in the timetable of the courses which he proposes to follow.

No student may register for two courses given at the same time without written permission from the Associate Dean and the instructors involved.

Students may be required to attend lectures regularly if Faculty so rules. Excuses for absences are dealt with only by the Office of the Associate Dean. A medical certificate should be presented at the Office of the Associate Dean immediately after a student's return to normal attendance.

An instructor may deny entrance if a student is late.

EXAMINATIONS

Students may write examinations or term papers in English or French, except in the case of certain language and literature courses.

INTERIM TESTS

Members of the teaching staff may from time to time give interim tests if they think them necessary.

FINAL EXAMINATIONS

Final examinations in one-term courses are held at the end of the term in which the courses are given. Final examinations in courses continuing in both terms are held at the end of the session i.e. April-May. In some courses there is no final examination; standing in these courses is determined on the basis of term work and class tests.

Instructors are not permitted to grant any special treatment regarding examinations to any student. If a student believes there is some circumstance which might be legitimately taken into account in evaluating his performance, he should apply to the Associate Dean.

SUPPLEMENTAL EXAMINATIONS

There is a supplemental examination period during the month of August. A student may receive permission to write supplemental examinations, if available, in courses in which he obtained a D or an F. His supplemental result will not erase the D or F originally obtained which will be used in calculating his GPA. Both the original mark and the supplemental result will be calculated in the CGPA. (i.e. the taking of supplemental examination has the same effect on a student's GPA as does repeating the course). He should avail himself of this privilege at the time of the next supplemental examination period. Written application to write a supplemental examination must be received at the Associate Dean's Office before July 2. A fee of $10.00 for each supplemental paper is payable to the Cashier as soon as the application has been approved.

In certain cases, a student may be permitted to write one supplemental examination during the April-May examination period in a first term course in which he has obtained a D or an F, if the course is also given in the second term. No attempt is made to avoid conflict between this supplemental and the student's required final examinations, and in the case of such a timetable conflict the student will be required to write the final examination and postpone the supplemental to the August period.

DEFERRED EXAMINATIONS

A student who, for reasons such as illness or family affliction, verified and accepted by the Associate Dean's Office, has been unable to write one or more sessional examinations, may receive permission to write supplemental examinations in their stead. The Associate Dean's Office must be informed within one week of the examination of the reasons for absences. An "L" will appear on the Report of Standing in place of a grade in such courses, followed by the grade obtained in the deferred examination after it has been written.

REASSESSMENT OF A GRADE

We have considerable confidence in the grades reported. If a student wishes his marks checked or his examination paper re-read, he must apply in writing to the Office of the Associate Dean. There is a fee of ten dollars which will be refunded if an error is found in the student's favour. If the result is a lower mark, the lower mark will stand and there will be no refund. Requests for Reassessment of standing in more than one course will not be permitted.

Any request to have a term paper reassessed must be made directly to the professor concerned.

CREDIT BY EXAMINATION

In certain cases a student may apply to write examinations in a course for which he has not registered (this is possible only in those courses where there is no other assessment except the final examination). Approval will be given in cases where the student has a good academic record.

SPECIAL FACILITIES

Students with visual or other disabilities should consult the Student Affairs Office about the possibility of special examination facilities.

INCOMPLETE COURSES

If, in the instructor's opinion, there is sufficient reason to permit a delay in the submission of required term work, an extension of deadline of up to four months after the end of the course may be granted the student. In this case, his Report of Standing will show a grade of "K" (incomplete); if a new grade is submitted within the deadline by the instructor, this will appear on the student's transcript following the "K". Otherwise, when the deadline has passed, the grade of "KF" (failed — has the same effect on GPA as an "F") will follow the grade of "K".

In exceptional circumstances, and with the approval of the Associate Dean, the four month extension of deadline may be extended further.

A student who has not, without adequate excuse, participated in a course for which he has registered or has not written the final examination may be given a grade of "J" (absent). In the calculation of the GPA, this is treated as an "F".

TRANSFER CREDITS

In certain cases, credit may be granted by the Faculty for courses taken at other Universities.

Permission of the Associate Dean and the department concerned is necessary.

ACADEMIC CREDIT TRANSFER AGREEMENT

Regular undergraduate students registered at McGill may, with the written permission of the Associate Dean of their Faculty, register for up to 40% of a full course load in each academic year at any university in the province of Quebec. These courses, weighted, graded, and successfully completed according to the standards of the university giving the courses, will be fully recognized by McGill for the purpose of the degree for which the student is registered.

This privilege will not be granted automatically; the courses should form a required part of the student's program and be unavailable at McGill.

Students wishing to take advantage of this agreement should consult their Associate Dean for details, and are informed that this agreement is subject to the following conditions:

1) that the other universities concerned may, at their discretion, refuse the registration of a student for any of its courses or program;
2) that the obligation of the student to follow the curriculum laid down by McGill is not affected;
3) that the student is responsible for ensuring his timetable at McGill permits him to take courses at any of the universities concerned;
4) that the universites concerned are not responsible for special arrangements in cases of examination timetable conflicts.

Students may take advantage of this agreement by completing the TRANSFER CREDIT form available from the Registrar's Office. This form permits the student to collect the required academic authorizations and that of the Director of Finance; ensures automatic fee transferral from the home university to the host university; and ensures the automatic reporting of marks and credits to the home university.

NOTE: Transfer credits are not calculated in the GPA or CGPA and the grades are not entered on the student's McGill transcript.

YEAR AWAY

In special circumstances, permission may be granted a student to take an approved program for a term or year at another university.

WITHDRAWAL FROM THE UNIVERSITY

The onus for initiating withdrawals rests solely with the student. Neither notification of the course instructors nor discontinuance of class attendance will suffice. A student who wishes to leave the University during the academic year must secure permission from the Office of the Associate Dean. The appropriate form will be supplied. A student considering withdrawal is strongly urged to consult his Academic Adviser before making a final decision. Fees for the term in which the student withdraws are not refundable except under special circumstances.

READMISSION

A student who has withdrawn from his Faculty or who has not re-registered for a term or more must make application in writing to the Associate Dean (not to the Admissions Office) to be readmitted, stating the reasons for his absence from the University and giving a summary of his activities during that period.

Students who withdrew because of illness should provide some indication that they are ready to resume studies.

SUMMER SESSIONS – 1973

The McGill University Summer Session allows students to take regular credit courses. The 1973 Summer Session will consist of two parts. The Pre-Summer Session will be held from May 16 to June 27; the Summer Session from July 3 to August 10.

The Summer Sessions are designed to meet the needs of various categories of participants including: incoming students wishing to take courses prerequisite to particular programs; students who wish to accelerate their studies; students from other universities who wish to transfer McGill credits to their own institutions; students who wish to obtain higher qualifications; students required to repeat courses failed during the winter session; students who wish to enrich their education.

Admission to the Summer Session programs does not guarantee that students will be admitted to the regular winter programs.

Students wishing to apply to the Pre-Summer Session must do so before April 2; the deadline for the Summer Session is May 15.

Full information concerning course offerings, applications and requirements may be obtained from:

Miss Jeanne G. Marsolais
Assistant Director
McGill University Summer Sessions
P.O. Box 6070
Montreal 101, Quebec

TRANSCRIPT OF ACADEMIC RECORD

Certified transcript(s) of a student's academic record may be obtained by applying to the Registrar's Office, F. Cyril James Building.

All courses taken at McGill and all results obtained appear on the transcript.

The following is an explanation of the codes used:

K — incomplete; see section on incomplete courses, page 39.

KF — failed to meet the extended deadline for submission of work in a course; counts as a failure in the GPA.

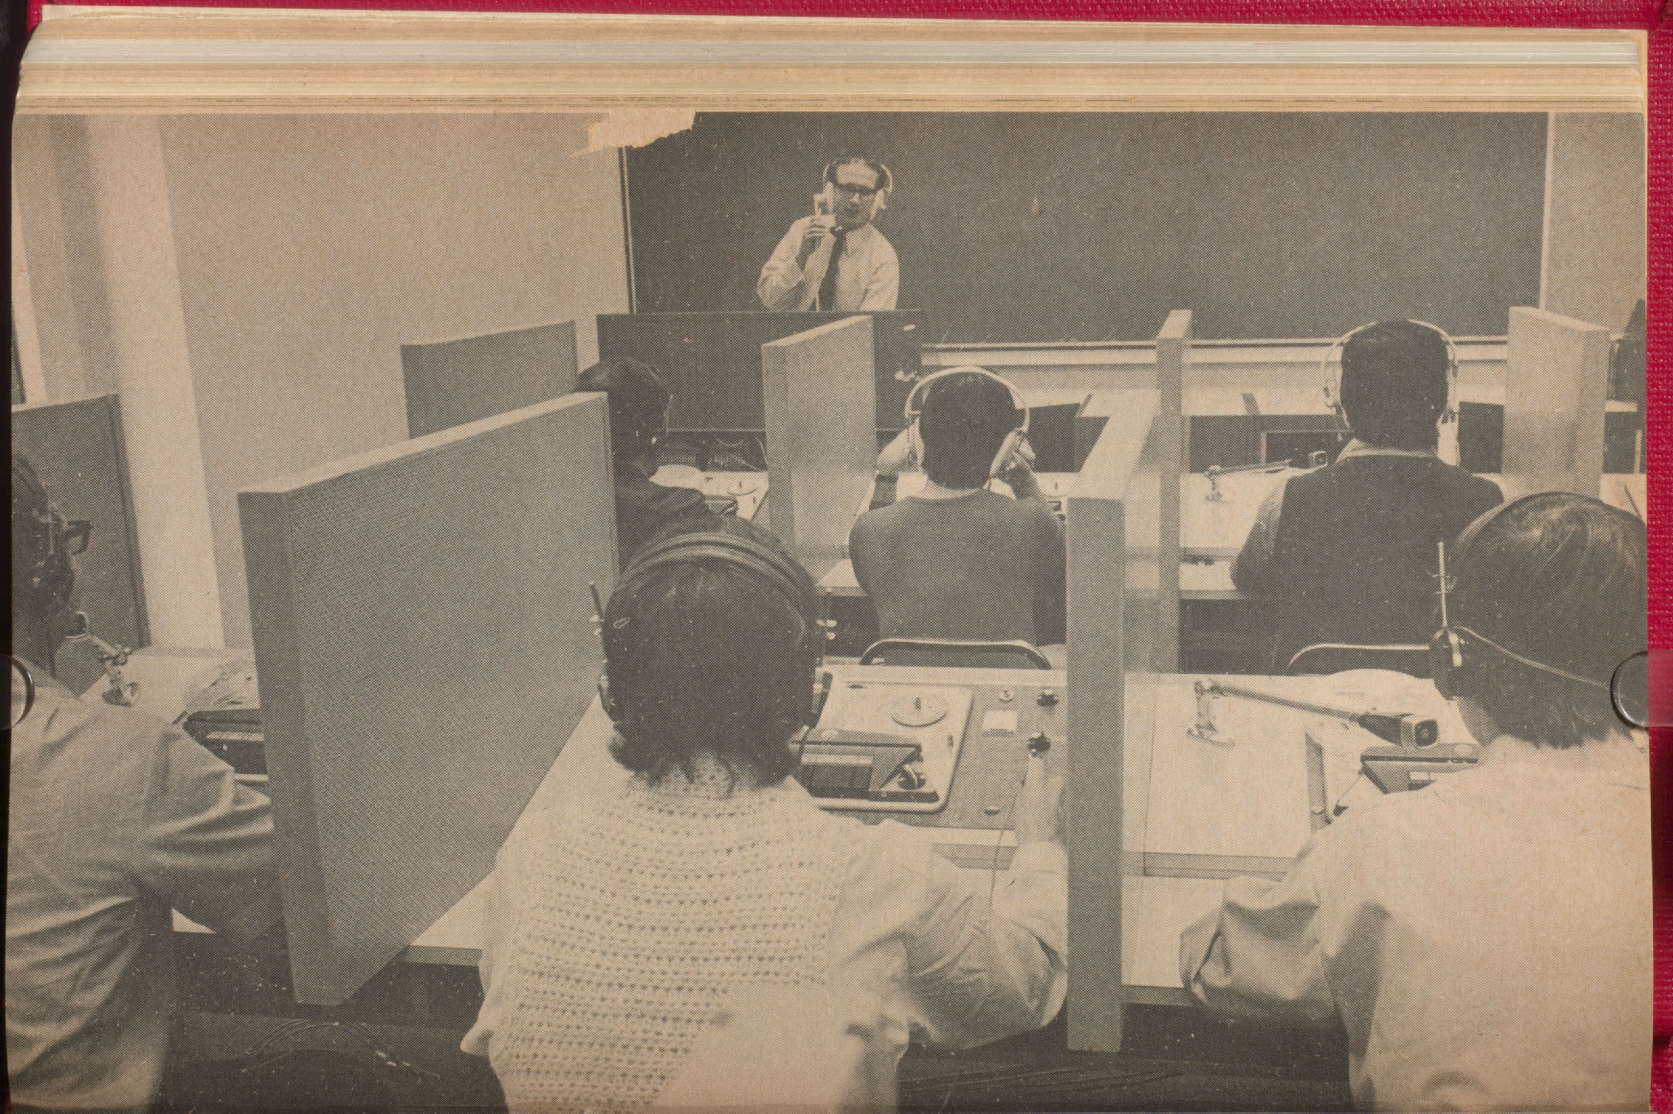
J — absent; the student is registered for a course but does not write the examination or do other required work. The J will be calculated as a failure in the GPA and CGPA.

W — withdrew; a course dropped, with special permission, after the change of course period; see Change of Course, page 36. Does not enter into the GPA calculation.

WF — withdrew failing; a course dropped, with special permission, the student's work at that stage being on the level of an F, see Change of Course, page 36. Does not enter into the GPA calculation.

L — Deferred; see Deferred Examinations, page 38.

A, B, C — satisfactory pass



D — conditional pass

F — failure

See Credit System, page 37.

PROFESSIONAL STUDIES

Students intending to proceed into Dentistry, Divinity, Education, Law or Medicine should consult the Faculties concerned about their prerequisites for admission. Students proceeding into graduate professional studies should note that admission is not automatic and that application forms must be submitted in advance of the prescribed dates. Requirements needed for admission to the Graduate School of Library Science or the School of Social Work may be obtained from these schools.

8 COLLEGE EQUIVALENT PROGRAMS

(In 1973-74, McGill will offer only the Second year of these programs.)

INTRODUCTION

Formerly, in the English-language sector, students could proceed directly from high school (after completion of Grade XI) to university, where most first degrees could be obtained in a period of four years. The system now provides for a new level of education following high school, the collegial level. Each college is an independent public corporation separate from both school boards and universities. Such Colleges of General and Vocational Education, frequently called CEGEPs after the initials of the French name, Collège d'Enseignement Général et Professionnel, offer instruction both for students planning to go on to university (a two-year program) and for those taking a technological course (two- and three-year programs) leading directly to employment. Most first degree programs at the universities normally require three years for CEGEP graduates.

This plan has been implemented quite extensively in the French-language sector, and came into force in the fall of 1969 in the English sector. Until a complete network of English-language Colleges is in operation, provision must be made for the large number of high school graduates who plan to go on to university, but who cannot be accommodated in CEGEPs.

In response to this need, the English-language universities of the province and Loyola College have been offering college equivalent programs. These programs differ from those of CEGEPs in two important ways. First, only pre-university courses are offered — the universities have neither the facilities nor the experience to offer vocational or technological training. Second, the programs offered at each university are designed by it. They differ in detail from those offered at CEGEPs, and differ somewhat between universities. Nevertheless the intention is that these programs be equivalent to the "general" or academic program of a CEGEP so that students completing two collegial years at McGill will be at essentially the same stage in their education as those completing the academic program at CEGEPs.

The two years of the college equivalent program are designated as E1 and E2; in 1973-74 only E2 is being offered.

LANGUAGE POLICY

The normal language of instruction at McGill is English. Students may if they wish write term papers and examinations in French, but reasonable competence in English is essential to success in the college equivalent and university programs. A summer course, English 120-E15C is offered, and it is recommended that students who lack fluency in English take this summer course *before* embarking on a program of collegial studies.

It is clear that English-speaking students from Quebec should acquire a working knowledge of the French language. This will ultimately be entirely the responsibility of schools and CEGEPs but, during the transition period, while McGill is still offering college equivalent programs, it is considered that McGill has a responsibility to support this principle.

Every student who entered E1 from English-language High Schools in the Province of Quebec was classified on the basis of his mark in Oral French on the high school leaving examinations. Students with a mark of 80% or more were considered to have

displayed competence in French and need enrol in no further course. Students whose mark is less than 75% were required to enrol in at least a three credit course (see below for definition) in Oral and Written French in their first year. Students in the 75% to 80% bracket may elect to study French privately or to enrol in a course in either French language or French literature. In any event, all Quebec students with less than 80% on the high school leaving examination in Oral French were required to pass an oral test in French before the end of their First year at McGill. Students who failed this test must enrol in a three or six credit course in Oral and Written French in Second year.

GRADING AND PROMOTION

Requirements are stated in terms of credits. A 6-credit course typically has three lectures per week and ancillary laboratory or conference periods (if applicable) and lasts for the full academic year; a 3-credit course has a similar number of instructional periods per week but lasts for one term only.

The course numbers of courses offered in the first term are given the suffix "A", those given in the second term the suffix "B", and courses running through both terms the suffix "D". The normal course load is 15 credits per term or 30 credits for the academic year.

i) Courses are graded A (80-100%), B (65-79%), C (55-64%), D (45-54%) or F (failure — below 45%). Grades A, B and C will be classed as satisfactory; grade D is passing but such a grade in a course will not permit entry into a subsequent course for which it is a prerequisite.

ii) Successful completion of a college equivalent program will be achieved by passing in courses totalling 60 credits (including all required ones) with satisfactory standing in courses totalling at least 48 credits.

iii) The normal course load per year is 30 credits. *At the end of the First year* a student with satisfactory grades in courses totalling fewer than 12 credits will be required to withdraw. A student with satisfactory grades in 12 credits will be permitted to write supplemental examinations worth 6 credits to remove a failure from his record or to improve his standing in a course in which he needs a grade higher than D. Approved summer courses, if available, may replace the supplemental examinations.

iv) No student will be permitted to repeat a course in which he received a satisfactory grade.

v) *At the end of the Second year* a student with satisfactory grades in courses totalling fewer than 30 credits will be required to withdraw. No supplemental examinations will be allowed.

vi) A student with satisfactory grades in 30 or more credits at the end of Second year will be allowed to repeat one or both terms of Second year, if by so doing it is possible for him to complete a college equivalent program. Such a student will not be required to pass more courses than are needed to complete his program, so that he may be a limited student. He will be considered to be in the E2 year.

vii) In determining the grade assigned for a course instructors are encouraged to attach considerable weight to regular evaluations during the progress of the course, such as class tests, laboratory results, term papers, etc.

viii) Many of the offerings at the collegial level are given for one term only. An isolated 3-credit course presents no problem but related pairs of such courses given in one year, in which the first is prerequisite to the second, give rise to difficulties because of the McGill calendar, in which second-term lectures commence immediately on the completion of first-term examinations. Such paired courses are designated by the department (or departments) involved. Students taking only the first course of a pair will be graded normally, but for students registered in both, the examination at the end

of the first term will be treated as a class test and a single final grade for both courses will be established at the end of the year.

ix) Students in E2 will be permitted to enrol in courses totalling 36 credits if they have obtained a Grade Point Average of at least 3.0 in E1.

x) In some cases students may have passed in high school a subject course offered in E1. This will apply in particular to introductory language courses. Such students may be admitted with advanced standing in this subject. This will not reduce the total number of courses required in (ii) above, but will in some instances permit the completion of a language requirement by passing one college equivalent course rather than two, thereby allowing greater flexibility in course selection.

PROGRAMS AND COURSES

The Faculties of Arts and of Science have three different college equivalent programs: Arts, Physical Sciences, and Biological Sciences. These programs have different required courses, but *it is possible to satisfy the requirements of all three, by a suitable choice of options, leaving the student free to choose any degree programs he wishes on completion of the first two years.* The programs offered here also satisfy the college requirements for the degree programs offered by most other Faculties; for details of these requirements, see the appropriate section in the *General Announcement.*

Students should enrol in the program leading to the degree they think they are most likely to choose at the end of the Second year. Students who are in doubt about their eventual direction should be careful to include the minimum requirements of alternative programs among their options. Students planning to apply for admission to the Faculties of Medicine or Dentistry, before or after completing a bachelor's degree, should follow the Biological Science Program in the college equivalent years.

In choosing options within any college equivalent program the student is advised to include courses in any subject he might wish to concentrate on in the University program to follow, so that he will have a valid basis for making a choice at the end of Second year. Students proposing to study one or more languages at University level should normally begin the study of these languages in the college equivalent years. Students considering the study of any of the social sciences in the B.A. program at McGill University are strongly advised to include at least 6 credits in mathematics.

Course requirements for the full two years of the college equivalent programs are given in the tables below. The order in which these courses are taken is not important — prerequisites excepted.

NOTE: No student may enrol in more than 12 credits in any one subject in any college equivalent year.

THE ARTS CURRICULUM

Credits required in the first two years of the Arts curriculum:

English	6 credits
French	6 credits*
Language	12 credits — other than English — in the same language**
Electives	36 credits

THE SCIENCE CURRICULUM

Credits required in the first two years of the Science programs:

	BIOLOGICAL SCIENCE	PHYSICAL SCIENCE
English	6 credits	6 credits
Arts	6 credits	6 credits
French	6 credits*	6 credits*

Mathematics	6 credits***	9 credits***
Physics	9 credits	9 credits***
Chemistry	10 credits***	6 credits***
Biology	6 credits	3 credits
Electives	12 credits	15 credits

*Students competent in French, and any others not required to enrol in French courses, will have an additional elective. Students whose native language is not English should consider taking English 120-E15C during the summer session.

**Students electing to satisfy the language requirement in Arts through the study of French need complete a total of only 12 credits in French — instead of 18 — at the collegial level. Such students thus will have an additional elective.

***Students who lack certain prerequisites will need additional courses in these subjects as described below and will have correspondingly fewer electives.

Mathematics: All science students with junior matriculation standing or its equivalent in trigonometry or functions must enrol in Mathematics 189-201A and 189-202B or equivalent courses. Physical Science students must, in addition, enrol in Mathematics 189-221A and are strongly advised to enrol in Mathematics 189-222B. Science students lacking high school trigonometry or functions must enrol in Mathematics 189-E11A, 189-201B and 189-202A (plus 189-221B for Physical Science students).

Physics: The required sequence of courses for Biological Science is Physics 198-E10A, 198-E11B, and 198-E20B. (The sequence 198-E14B, 198-E15A and 198-E21A may be substituted.) For Physical Science, the required sequence is Physics 198-E14B, 198-E15A, and 198-E21A. Physical Science students taking the Mathematics sequence 189-E11A, 189-E14B, 189-E15A, 189-E21B will take Physics 198-E21B rather than 198-E21A.

Students with satisfactory grades in Physics 198-E10A and 198-E11B may complete the Physics requirements for both the Physical Sciences and Biological Sciences sequences by taking Physics 198-E23A and 198-E21B in their E2 year in lieu of Physics 198-E20B. Students in E2 Biological Sciences who have credit for one semester in Physics but who do not have the prerequisites for Physics 198-E20B may remove this deficiency by taking Physics 198-E26A.

Chemistry: Science students with good standing in high school chemistry must enrol in Chemistry 180-E10B and 180-E20A. Biological Science students, in addition, enrol in 180-E22A,B.

Biology: Biological Science students must enrol in Biology 177-E10D. Physical Science students may select either Biology 177-E10D or Biology 177-E16B.

NOTE: Any specially qualified student may substitute a more advanced course in the same subject specified above. For further information see the appropriate subject entry in the following section.

COURSES OFFERED IN ARTS AND IN SCIENCE

The numbers of courses intended primarily for collegial level students are prefixed with an 'E'. These students may also enrol in courses numbered 200 to 299 where permission is granted by the Department. The following courses are available to all college equivalent students.

The number of a first-term half course has the suffix 'A', the number of second-term course has the suffix 'B' and courses extending over both terms have the suffix 'D'.

1973-74 COURSES AVAILABLE TO E2 STUDENTS

Students with advanced standing should consult the chairman of the department concerned for admission to more advanced courses.

OTHER COURSES AVAILABLE TO COLLEGE EQUIVALENT STUDENTS

GRAPHICS I 305-E90A, B. (3 credits.) The basic aim of this course is to study and practise the principles involved in the representation of objects on paper. The course includes the following topics: scope of graphics, graphics in design, evolution in graphics, the concept of apparent and true shape, the principles of perspective, axonometric, oblique and orthographic projections and introduction to the conventions and standards in drawings.

MANAGEMENT 278-E20A. The Role of Business in Society. *(Given in the Faculty of Management.)*

MANAGEMENT 278-E21B. Management of organization and examination of the functional areas of business and their inter-relationship. *(Given in the Faculty of Management.)*

MATERIALS SCIENCE 306-E60A,B. (3 credits.) Historical significance, mechanical and physical behaviour, polymers and plastics, crystalline materials, phase diagrams, heat treatment, fabrication. (3 lectures, 2 hours problems, an elective course open to all collegial level students. *Given in the Faculty of Engineering.)*

9 FACULTY OF ARTS

STAFF

ADMINISTRATIVE OFFICERS

ROBERT E. BELL, C.C., B.A., M.A. (U.B.C.), Ph.D., D.Sc. (U.N.B.), LL.D. (Tor.), F.R.S.C., F.R.S. *Principal and Vice-Chancellor*

EIGIL PEDERSEN, B.A. (S.G.W.U.), M.A., Ed.D. (Harv.) *Vice-Principal (Academic)*

STANLEY B. FROST, B.D., M.Th. (London), Dr. Phil. (Marburg), D.D. (Vic., Tor.), D.Litt. (Mem.) *Vice-Principal (Administration and Professional Affairs)*

DALE C. THOMSON, B.A. (Alta.), Ph.D. (Paris) *Vice-Principal (Planning)*

ROBERT VOGEL, B.A. (Sir. G. Wms.), M.A., Ph.D. *Dean of the Faculty of Arts*

D. C. FRYE, B.A. (N.Y.U.), M.A. (N.Y.U.), Ph.D. (Wisc.) *Associate Dean of the Faculty of Arts*

ISOBEL OSWALD, B.A. *Assistant Secretary of the Faculty*

LATIF T. GHOBRIAL, B.A. (Monmouth), M.B.A. (Penn.) *Recorder*

ANGELINE LUCAS *Senior Adviser*

LILA WILLIS *Senior Adviser*

COLIN McDOUGALL, D.S.O., B.A. *Registrar*

M. SAEED MIRZA, B.Eng. (Karachi), M.Eng., Ph.D. *Dean of Students*

PEGGY SHEPPARD, B.Ed., B.A. (S.G.W.U.) *Director, Admissions Office*

TEACHING STAFF

African Studies Program

Advisers — P. C. W. GUTKIND, *Chairman,* African Studies Committee (Anthropology); D. R. ARONSON (Anthropology); M. DORSINVILLE (English); M. J. ECHENBERG (History); F. A. KUNZ (Political Science); J. G. SMITH (Economics); I. WALLERSTEIN (Sociology)

Anthropology

Professors — BRUCE G. TRIGGER, *Chairman;* PETER C. W. GUTKIND; RICHARD F. SALISBURY

Associate Professor — DAN R. ARONSON; PHILIP C. SALZMAN

Assistant Professors — BERNARD ARCAND; GEORGE GMELCH; FUMIKO IKAWA-SMITH; CARMEN LAMBERT; JEROME ROUSSEAU; PETER SINDELL

Art History

Professors — WINTHROP JUDKINS *(Chairman);* GEORGE GALAVARIS

Associate Professor — RIGAS BERTOS

Assistant Professors — ROSEMARIE BERGMANN; WILLIAM MITCHELL

Lecturer — ROBERT LANGSTADT

Centre for East Asian Studies

Director — P. T. K. LIN *(on leave 1973-74)*

Associate Director — S. J. NOUMOFF *(on leave 1973-74)*

Acting Director — C. S. BURCHILL

Acting Associate-Director — HSIEH PEI-CHIH

The Interdisciplinary Committee on East Asian Studies consists of faculty members in all relevant departments.

Centre d'Etudes Canadiennes-Françaises

Director — JEAN-LOUIS ROY

Committee — C. MILLER *(History)*; M. PINARD *(Sociology)*; A. SMITH *(French)*; M. STEIN *(Political Science)*; E. WADDELL *(Geography)*

Professors — A. BERNARD; E. CLOUTIER; L. DECHENE; M. DORSINVILLE; Y. LAMONDE; J. LANGUIRAND; D. LATOUCHE; C. MILLER; J.-L. ROY

Classics

Professors — A. SCHACHTER *(Chairman)*; COLIN D. GORDON; PAUL F. McCULLAGH *(Hiram Mills Professor of Classical Philology)*

Associate Professors — A. FARMAKIDES *(on leave)*; J. M. FOSSEY; P. VALERI TOMASZUK; P. VIVANTE *(on leave second term)*; G. M. WOLOCH

Assistant Professors — C. W. DEARDEN; M. J. SILVERTHORNE; G. L. SNIDER

Visiting Professor — P. M. A. ROESCH *(Institute Fernand-Courby, Lyon)*

East Asian Languages and Literatures

Associate Professor — P. T. K. LIN *(Chairman) (on leave 1973-74)*

Lecturers — J. CHANG; P. WANG

Economics

Professors — A. ASIMAKOPOULOS *(on leave 1973-74)*; E. F. BEACH; I. BRECHER *(on leave 1973-74)*; E. KIERANS; J. C. WELDON; H. R. C. WRIGHT

Associate Professors — P. BRIANT; A. DEUTSCH; A. FENICHEL *(on leave 1973-74)*; C. GREEN; J. A. GALBRAITH; J. HANDA *(on leave 1973-74)*; S. H. INGERMAN *(on leave 1973-74)*; D. KHAZZOOM; J. KURIEN; K. LEVITT; J. G. SMITH; T. VELK; A. VICAS *(on leave 1973-74)*

Assistant Professors — P. DAVENPORT; M. FRANKMAN *(on leave 1973-74)*; G. GRANTHAM; J. ITON; M. A. LOUFTI; M. F. LOUFTI; F. MARTIN; R. T. NAYLOR; L. SODERSTROM; B. WURZBURGER

Lecturer — H. ROMOFF

English

Professors — DONALD F. THEALL *(Chairman)*; PETER BUITENHUIS; LOUIS DUDEK; JOYCE HEMLOW; ALAN HEUSER; ALEC LUCAS *(on leave 1973-74)*; HUGH MacLENNAN; A. E. MALLOCH; HUGO McPHERSON

Associate Professors — M. BRISTOL; M. BRUCE; C. D. CECIL; D. COLE; D. C. FRYE; I. GOPNIK *(on leave 1973-74)*; SLAVA KLIMA; GEORGE MATHEWSON; P. H. OHLIN; PAUL H. PIEHLER *(on leave 1973-74)*; MARTIN PUHVEL *(on leave 1973-74)*; JOHN RIPLEY; D. SUVIN *(on leave 1973-74)*; B. F. WEEMS; W. WEES

Assistant Professors — H. S. ANDERSON *(on leave 1973-74)*; BHARATI BLAISE *(on leave 1973-74)*; DONALD F. BOUCHARD; A. CONWAY; M. DAVISON; M. DORSINVILLE; L. T. DUER; L. T. ELLIOTT; A. R. GODFREY; ALAN GOLDBERG; C. A. E. HEPPNER; LEANORE LIEBLEIN; YEHUDI LINDEMAN; RONALD REICHERTZ; BRIAN ROBINSON; J. RONSLEY; D. S. RUBIN; M. SIMON; R. TEMBECK; DAVID WILLIAMS *(Associate Chairman)*

Assistant to the Chairman — W. T. BOOTH

Lecturer — M. LAFON

Visiting Professor — ARNOLD ROCKMAN

French Language and Literature

Professors — J. ETHIER-BLAIS; G.-P. COLLET; J. L. LAUNAY; J. G. NICHOLSON *(Chairman)*

Associate Professors — M. ANGENOT; M. T. CARTWRIGHT; YVONNE CHAMPIGNEUL; G. DI STEFANO; J.-P. DUQUETTE; F. FURLAN; H. JONES; R. McGILLIVRAY;

J.-C. MORISOT; M. RABOTIN *(on leave 1973-74)*; D. W. STEEDMAN; J. TERRASSE; L. VAN DELFT; R. VIGNEAULT

Assistant Professors — J. P. BOUCHER; J.-C. LEMYZE; GABRIELLE PASCAL; G. POMET *(on leave 1973-74)*; F. RICARD; A. SMITH; A. TICHOUX

Sessional Assistant Professor — GISELE BARRET

Lecturers — ISIDA CREMONA; JEAN FLETCHER; A. JULIEN; A. MAUGEY; M.-THERESE REVERCHON; IRENE STAROSTA

French as a Second Language

Lecturers — J.-P. AUBERT; N. LeGALL; M.-N. LEGOUX; B. SHEPPARD *(Acting Director)*

Sessional Lecturers — H. MIGNAULT; R. LECLERCQ

German

Professor — A. ARNOLD *(Chairman)*

Visiting Professor — R. M. KULLY

Associate Professors — M. BIRCHER; V. R. BLOCK; T. GOLDSMITH-REBER *(on leave 1973-74)*; W. HEMPEL *(on leave)*; A. HSIA; H. J. MAITRE; J. SCHMIDT; I. SCHUSTER

Assistant Professors — E. GALLATI *(on leave 1973-74)*; E. LACH *(on leave 1973-74)*; H. RICHTER

History

Professors — C. C. BAYLEY; P. C. HOFFMANN; M. MLADENOVIC; H. SENIOR; R. VOGEL

Associate Professors — N. BAMBA; P. H. BOULLE; L. L. LaPIERRE *(on leave 1973-74)*; P. T. K. LIN *(on leave 1973-74)*; M. P. MAXWELL *(Chairman)*; A. R. RIGGS

Assistant Professors — J. N. CHARTERIS; L. DECHENE; M. J. ECHENBERG; J. W. HELLMAN; E. LAFFEY; C. MILLER; H. S. WEINROTH

Lecturers — H. C. SCHLIEPER; D. M. SWETSCHINSKI; J. H. THOMPSON

Visiting Associate Professor — C. S. BURCHILL

Industrial Relations Studies Program

Advisers — FRANCES BAIRSTOW *(Director)*; WILLIAM A. WESTLEY *(Director of Research)*

Italian Language and Literature

Professor — ANTONIO D'ANDREA *(Chairman)*

Visiting Professor — RICCARD SCRIVANO

Associate Professor — PAMELA D. STEWART

Assistant Professor — MICHELANGELO PICONE

Lecturer — COSTANZO DI GIROLAMO

Sessional Lecturer —CARMELA MINDEL

Jewish Studies Program

Professors — HARRY M. BRACKEN; RICHARD H. POPKIN *(Consultant)*

Associate Professor — GERALD J. BLIDSTEIN *(on leave 1973-74)*

Assistant Professors — EUGENE ORENSTEIN *(Chairman)*; WARREN HARVEY; LAWRENCE KAPLAN; YEHUDI LINDEMAN; RUTH WISSE

Lecturers — SHIMEON LEVI; DANIEL SWETSCHINSKI

Sessional Lecturers — C. GASCH; B. MUSZKATEL; L. TENCER

Linguistics

Professors — C. D. ELLIS *(Chairman)*; ANDRE A. RIGAULT

Associate Professors — R. M. WEBER; M. GOPNIK *(on leave 1973-74)*

Assistant Professors — D. W. LIGHTFOOT; G. L. PIGGOTT

North American Studies Program

Committee of Advisers — PETER BUITENHUIS *(Department of English);* ALEC LUCAS *(on leave 1973-74);* HUGO McPHERSON; JEAN-PIERRE DUQUETTE *(Department of French);* THOMAS VELK *(Department of Economics)* MICHAEL STEIN *(Department of Political Science, on leave 1973-74)*

Philosophy

Professors — HARRY M. BRACKEN; MARIO BUNGE; RAYMOND KLIBANSKY; ALASTAIR McKINNON; RICHARD H. POPKIN; CHARLES TAYLOR; J. A. TRENTMAN

Associate Professors — DAVID FATE NORTON; JONATHAN ROBINSON *(Chairman)*; JEREMY WALKER

Assistant Professors — HARRY A. BEATTY; GEORGE DIGIOVANNI; WARREN HARVEY; J. McGILVRAY; MICHAEL SCHLEIFER *(on leave 1973-74)*

Political Science

Professors — MICHAEL BRECHER *(on leave 1973-74)*; J. R. MALLORY; BALDEV RAJ NAYAR; CHARLES TAYLOR

Associate Professors — HAROLD M. WALLER *(Chairman)*; THOMAS BRUNEAU; FRANK A. KUNZ; PAUL C. NOBLE; JANICE STEIN *(on leave 1973-74)*; MICHAEL STEIN *(on leave 1973-74)*; BLEMA S. STEINBERG

Assistant Professors — BARBARA HASKEL; DANIEL LATOUCHE; ROBERT METCALFE; SAMUEL J. NOUMOFF *(on leave 1973-74)*; HAROLD SARF; JOHN SHINGLER; PAULINE VAILLANCOURT

Visiting Professors — ANDRE BERNARD; BERNARD BROWN; EDOUARD CLOUTIER

Lecturer — PAMELA BUTLER

Religious Studies

Professors — C. J. ADAMS; E. G. JAY; G. JOHNSTON; J. C. McLELLAND

Associate Professors — J. A. BOORMAN; R. C. CULLEY; J. C. KIRBY; M. PEASTON

Assistant Professors — D. R. RUNNALLS; R. W. STEVENSON

Russian and Slavic Studies

Professor — J. G. NICHOLSON *(Chairman)*

Visiting Professors — J.-Y. LE GUILLOU; R. V. PLETNEV

Assistant Professors — P. M. AUSTIN; LUDMILA BAUER; A. FODOR *(on leave 1973-74);* IRENE PAVILANIS

School of Social Work

Professors — MYER KATZ; D. E. WOODSWORTH *(Director)*

Associate Professors — PATRICK DEEHY; DOROTHY R. FREEMAN; MARGARET GRIFFITHS; LOTTE MARCUS; F. J. McGILL; VERITY M. ROSS; EDWARD V. SHINER; LAWRENCE SHULMAN; MARY STEVENSON

Assistant Professors — BEN ZION DALFEN; SHEILA GOLDBLOOM; ESTELLE HOPMEYER; DOROTHY SIROTA; SHIRLEY STEELE; RUTH TANNENBAUM

Lecturers — MARIE BRISEBOIS; CAROLE CHRISTENSEN; NORMA FETTERLY; MARION GARMAISE; IRENE GORDON; JANET MACDONALD; JUDITH MAGILL; DIANE REICHERTZ; TRYNA ROTHOLZ; AMY SHULMAN; CAROL SPEIRS; ELIZABETH URTNOWSKI

Sociology

Professors — DAVID N. SOLOMON *(Chairman)*; RICHARD F. HAMILTON; MAURICE PINARD; IMMANUEL WALLERSTEIN; WILLIAM A. WESTLEY

Associate Professors — ROGER G. KROHN; DONALD VON ESCHEN

Assistant Professors — MICHAEL P. CARROLL; MARLENE DIXON *(on leave 1973-74)*; PHILIP EHRENSAFT; JOSEPH LELLA; PRUDENCE RAINS; GERTRUDE J. ROBINSON; MALCOLM SPECTOR

Spanish Language and Literature

Professor — SOLOMON LIPP *(Chairman)*

Associate Professors — MONICA HARVEY; ANDRE MICHALSKI; JULIO SANCHEZ; VICTORIANO UGALDE-CUESTA

Assistant Professors — MARCELINO AMASUNO; NELLY MARTINEZ; VICTOR OUIMETTE *(on leave 1973-74)*; JEAN MARC VARY

Lecturers — KAY SIBBALD; DIANE WILLIAMSON

UNIVERSITY EDUCATION IN ARTS

The purpose of a university education in Arts is to provide students with the critical ability, analytical skills, and general intellectual maturity necessary to pursue either graduate work, professional studies, or a practical career. The Faculty feels that the University should seek to educate students as broadly as possible in the concepts, problems, and methodology of the Humanities and Social Sciences. For a student in the Faculty of Arts the pursuit of learning and intellectual discipline for their own sake should constitute a meaningful preparation both for individual development and for any future vocation.

Humane studies remain the core study in the development of our way of life. To those who argue that the Bachelor of Arts degree does not prepare a student for a professional career, we can only answer that it prepares him for an aware life and that generalists are often the best prepared graduates, because they have an overview of their society; they can learn whatever else they need in on-job training.

At the Arts Convocation of June, 1972, Principal Robert Bell expressed this view of the Faculty of Arts:

"Somewhere in the university there must be a strong area that is socially and economically useful, but whose existence is not directly tied to social and economic usefulness, and whose value is not primarily reckoned directly in those terms. This means, I suppose, only that the values are judged on a longer rather than a shorter range view. This area must surely be the Faculty of Arts. Here one can claim to be guarding and forwarding the basic culture of our time. At the same time, the Faculty of Arts is likely to be the seat of the most vocal and best-informed criticism of our actions and institutions as a society. It is of the first importance for all of us to support this Faculty, even when, as must occur, we disagree with what it is saying at the moment".

PROGRAM INFORMATION

The Faculty of Arts offers the Bachelor of Arts (B.A.) and the Bachelor of Social Work (B.S.W.) degrees.

DEPARTMENTS AND CENTRES OFFERING PROGRAMS IN THE FACULTY

African Studies Program, Leacock Building, Rm. 717
Anthropology, Leacock Building, Rm. 719
Art History, Arts Building, Rm. W225
Canadian Studies Program, Leacock Building, Rm. 625
Centre d'Etudes Canadiennes-Françaises, 3475 Peel Street, Rm. 102
Classics, Leacock Building, Rm. 517

East Asian Studies, 3434 McTavish St.
Economics, Leacock Building, Rm. 434
English, Arts Building, Rm. 120
French Language and Literature, Peterson Hall, 3460 McTavish Street, Rm. 100
Geography, Burnside Hall, Rm. 513
German, Samuel Bronfman Bldg., 1001 Sherbrooke St. West
History, Leacock Building, Rm. 625
Industrial Relations, Samuel Bronfman Bldg., 1001 Sherbrooke St. West, Rm. 514
Italian, Samuel Bronfman Bldg., 1001 Sherbrooke St. West
Jewish Studies Program, 3511 Peel Street, Rm. 103
Linguistics, Samuel Bronfman Bldg., 1001 Sherbrooke St. West
Mathematics, Burnside Hall, Rm. 1005
Philosophy, Samuel Bronfman Bldg., 1001 Sherbrooke St. West
Political Science, Leacock Building, Rm. 434
Psychology, Stewart Biology Building, Rm. W8/1 or W8/8
Religious Studies, 3520 University Street, Rm. 101
Russian and Slavic Studies, Samuel Bronfman Bldg., 1001 Sherbrooke St. West
Social Work, 3506 University Street, Rm. 300
Sociology, Leacock Building, Rm. 709
Spanish Language and Literature, Samuel Bronfman Bldg., 1001 Sherbrooke St. West

B.A. DEPARTMENTAL MAJORS

The following majors are described in detail in the departmental entries in the Calendar:

ANTHROPOLOGY
ART HISTORY
CLASSICS
ECONOMICS
ENGLISH
FRENCH
GEOGRAPHY
GERMAN
HISTORY
ITALIAN
JEWISH STUDIES
LINGUISTICS
MATHEMATICS
PHILOSOPHY
POLITICAL SCIENCE
PSYCHOLOGY
RELIGIOUS STUDIES
RUSSIAN
SOCIOLOGY
SPANISH

B.A. INTERDISCIPLINARY MAJORS

AFRICAN STUDIES
CANADIAN STUDIES
CENTRE D'ETUDES CANADIENNES-FRANÇAISES
CENTRE FOR EAST ASIAN STUDIES
INDUSTRIAL RELATIONS
NORTH AMERICAN STUDIES

For further information on the above, consult the alphabetical listings in the Calendar.

A brief outline of the other interdisciplinary majors follows. For further information please consult the appropriate Adviser.

CLASSICS AND LINGUISTICS (See page 74).

HUMANISTIC STUDIES:

18 credits in one language (Latin, Greek, German, Italian, Russian, Spanish); 6 credits in a Social Science; 30 credits in no more than three humanities departments (languages other than one already chosen, Philosophy, English, French, History, Music and Religion).

Please consult Professor Stewart, Department of Italian.

LATIN AMERICAN STUDIES:

Minimum of 12 credits in Spanish; 42 credits from Departments of Anthropology, Economics, Geography, History, Political Science, Sociology and Spanish.

Please consult Professor Lipp, Department of Spanish.

MODERN LANGUAGES:

6 credits in Social Sciences; 12 credits in Linguistics; 18 credits in each of two foreign languages (not English or French).

Please consult Professor Richter, Department of German.

MODERN LITERATURE:

6 credits in English; 6 credits in French; 12 credits in English or French Literature; 18 credits in each of two modern foreign literatures.

Please consult Professor D'Andrea, Department of Italian.

B.A. HONOURS

The following Honours programs are described in detail in the departmental entries in the Calendar:

ANTHROPOLOGY
ART HISTORY
CLASSICS
EAST ASIAN STUDIES
ECONOMICS
ENGLISH
FRENCH
GEOGRAPHY
GERMAN
HISTORY
ITALIAN
JEWISH STUDIES
LINGUISTICS
MATHEMATICS
PHILOSOPHY
POLITICAL SCIENCE
PSYCHOLOGY
RUSSIAN
SOCIOLOGY
SPANISH

JOINT HONOURS

Joint Honours programs are available in many related disciplines. Please consult departmental listings.

B.A. FACULTY PROGRAMS

MATHEMATICS and PHILOSOPHY:

Mathematics 189-217A; 218B; 245A,B; 318A, 328B; 348A, 349B; One of Mathematics 189-222A,B, 314A,B, 323A,B, 324A,B; Three additional credits in Mathematics. One of Philosophy 107-340D, 341D, 350D, 351D; and two full courses in Philosophy approved by the Department. Nine additional credits in Philosophy. 54 credits. (This faculty program leads to a B.A. degree. Consult the Department of Philosophy to obtain an Adviser.)

MATHEMATICS and PSYCHOLOGY:

Mathematics 189-222A,B, 223A, 323A,B, 324A,B, 423A, 424B, or Psychology 204-305A,B, 357B, six credits Introductory Psychology, 335A, 336B, twelve credits of options selected from Mathematics 189-217A, 218B, 314A,B, 317A, 318A, 328B, 417A, 447D, Computer Science 308-200A, or other approved courses, twelve credits selected from Psychology non-statistics courses. 54 credits. (This faculty program leads to either a B.A. or a B.Sc. degree. Consult the Department of Mathematics or the Department of Psychology to obtain an Adviser.)

PSYCHOLOGY, GENERAL:

Any of the Major sequences in Psychology with the substitution of 6 credits from U2 courses in Psychology for 204-211D and Psychology 204-305A,B. 54 credits. (Consult the Department of Psychology to obtain an Adviser.)

DEPARTMENTAL OFFERINGS AND PROGRAMS OF STUDY

For graduate courses in all Departments see the *Announcement of the Faculty of Graduate Studies and Research.*

An official lecture timetable is available before Registration.

AFRICAN STUDIES PROGRAM

The "Interdisciplinary Area Major" in African Studies is designed for those students who wish to take advantage of the growing resources at McGill, and elsewhere in the Montreal area, for the pursuit of an interdisciplinary approach to the African continent.

Students wishing to major in African Studies should consult one of the advisers (see Staff Listing, page 49) at the beginning of their first academic year. While pursuing their Major, they will be expected to concentrate as well in a regular discipline of the university. Disciplinary specialization is not, however, restricted to those for which an Adviser is listed.

The Major consists of 54 credits (9 full courses or the equivalent), including African Studies 499D in the final year. All the courses listed below must be taken (42 credits), while 12 credits should be selected in consultation with Major Advisers. One or two relevant prerequisites may be included in the total, and the seven should include courses from at least three departments (for full descriptions and prerequisites of courses see listings under individual departments).

Training in an African language is encouraged, and may form a part of the Major program. Formal training is available at McGill in Arabic. In addition, tapes for the study of Swahili and other languages are available through the Linguistics Department and the Language Laboratory in Peterson Hall.

Modifications in, or additions to, the program from relevant courses in Economics, Education, Geography, Linguistics and other disciplines, may be made with the consent of the African Studies Committee.

The culmination of the Major is the Research Seminar, 111-499D.

Options

Anthropology 151-315D. Culture And Social Change in Modern Africa. (6 credits.)
History 101-200D. A History Of Africa. (6 credits.)
Political Science 160-324D. Politics And Government In Africa. (6 credits.)
Economics 154-314B. African Economic Development. (3 credits.)
English 120-499D. African Literature In The Twentieth Century. (6 credits.)
History 101-430D. France and the Africans. (6 credits.)
Sociology 166-460A. National Liberation Movements In Africa. (3 credits.)

Final Year Requirement

111-499D. Research Seminar In African Studies. (6 credits; Prerequisite: Open to Area Majors in good standing, and to others by permission.) An interdisciplinary research seminar on topics of common interest to staff and students of the African Studies Program. As part of their contribution, students will prepare a research paper under the supervision of one or more members of the staff. STAFF

ANTHROPOLOGY (151)

Stephen Leacock Building, Room 719; Telephone 392-5179

The Honours and Major programs in Anthropology provide a liberal arts education which emphasizes the similarity and diversity of human behaviour, understanding of social and cultural systems, and the processes of socio-cultural changes from man's origins to the present day. Although neither the Honours nor the Major programs provide a professional training geared to specific jobs, they may serve as a useful background for those who are planning a career in law, foreign service, community organization, public administration, journalism, and teaching and research in social sciences and humanities. Needless to say, to be a qualified professional in most of these fields requires further training at professional or graduate schools.

While the Major program allows a greater freedom to choose from courses offered by other departments to suit the student's needs and interest, the Honours program provides a greater concentration in anthropology with substantial breadth and depth. It should be noted that the completion of an Honours program is frequently required for admission into graduate or professional schools.

Major Program

There is no prerequisite for admission into the Major program in Anthropology. The program requires that the student take 10 courses (30 credits) in Anthropology, of which three must be "advanced courses" (400 level) and eight courses (24 credits) in no more than three of the following fields: Biology, Classics, Economics, Geography, History, Linguistics, Philosophy, Political Science, Psychology, Religion and Sociology. Contact Miss Jeanette Wilson at the Department Office for inquiry (392-5176).

Honours Program

The entrance requirement for admission to the honours program in Anthropology is satisfactory completion of one anthropology course at CEGEP. In order to continue in the honours program students must meet the academic standing requirements set forth by the Faculty, and in order to complete the honours program in Anthropology in the final, graduating year, the grade-point average for the preceding year (usually the U2 year) must be 3.0 or higher for all courses as well as for anthropology courses.

An Honours degree in Anthropology will be granted to a student who has satisfied the requirements of the program and who has an average of 3.0 or better for all the anthropology courses credited towards the program and for all the courses taken during the last two years (usually U2 and U3 years). A first class honours degree in Anthropology will be given to a student with an average of 3.5 or better.

An Honours student in Anthropology is required to take 20 anthropology courses (60 credits) of which two can be anthropology courses taken in CEGEP. Up to three of the courses can be courses given by other departments, if they are directly related to the student's focus of study within anthropology and are approved by the student's adviser on the Undergraduate Committee of the Anthropology Department.

The 20 anthropology courses should include at least three of the five "core courses" (354A, 355B, 356B, 357A, and Linguistics 230A); 358B and 462A and/or 463B (in which an honours project is prepared); and at least three other "advanced courses" (400 level courses).

Each student has the opportunity to construct within the Honours program a concentration focused on a particular field of interest, such as prehistory and evolution, cultural systems, social and political organization, or on a particular geographical area, such as Africa, North America or Middle East. Such concentration is made possible by the use of the "Special Topics" courses, in which a student works under the supervision of a staff member in an area not covered by courses currently given. Special Topics courses can be coupled, concurrently or sequentially, with regular courses, under the supervision of the instructors of the regular courses, in order to allow more intensive work in the area covered by regular courses. Papers or projects can be submitted to two or more courses, provided that prior written arrangements have been made with the instructors with the approval of the student's adviser.

For more information on the Honours program, consult an appropriate adviser on the Undergraduate Committee of the Department, through Miss Jeanette Wilson at the Department Office (392-5176).

Joint Honours Programs

Joint Honours programs are established with Art History, Classics (Classical Archaeology), Economics, English, Geography, History, Linguistics, Philosophy, Political Science, and Sociology. The Anthropology part of the requirements for these programs is the completion for 11 courses (33 credits) in Anthropology, which must include three of the "core courses" (see above for the honours program), 151-358B, two "advanced courses" and 151-462A or 151-463B in which an Honours project with an interdisciplinary approach is prepared. For more information on the anthropology requirements

of the joint honours programs, contact Miss Jeanette Wilson at the Department Office (392-5176) who will direct the students to an appropriate adviser on the Undergraduate Committee. For information on the requirements for the other discipline making up the Joint Honours program, consult the department concerned.

Course Descriptions

FIRST LEVEL COURSES

E- and 200-level courses for which there are no prerequisites.

151-E21A. INTRODUCTION TO ANTHROPOLOGY. PHYSICAL AND SOCIO-CULTURAL EVOLUTION. (3 credits.) Nature of man in biological world, evolutionary principles as they apply to man, role of culture in biological evolution, racial differentiation, evolution of culture from the earliest beginnings to the rise of early civilizations. PROFESSOR IKAWA-SMITH

151-E22B. INTRODUCTION TO ANTHROPOLOGY. CULTURAL AND SOCIAL. (3 credits.) Analysis of cultural and social systems, language, kinship, politics, religion, culture and personality. PROFESSOR GMELCH

151-205B. THE ORGANIZATION OF SOCIAL LIFE. (3 credits.) An exploration of various dimensions of human organization drawing on data about diverse societies, Western and non-Western, historic and contemporary, preindustrial and industrial. Aspects to be examined include autonomy and interdependence, cooperation and competition, superordination and subordination, centralization and decentralization. PROFESSOR SALZMAN

151-206A. CULTURE AND ADAPTATION. (3 credits.) An ecological approach to the study of human society and culture. PROFESSOR SALZMAN

151-209B. ANTHROPOLOGY OF RELIGION. (3 credits.) Nature and function of religion based on the examination and comparison of religious beliefs and practices prevailing in various cultures. The relation of religion to economic, political and other aspects of culture. PROFESSOR ROUSSEAU

151-215D. CULTURE AND SOCIAL CHANGE IN MODERN AFRICA. (6 credits.) First term: Geographical and historical background; the diversity of peoples and culture; patterns in African society, politics, economy, religion and art. Second term: Impact of colonial policies on institutional systems; African nationalism and the new states; urbanization, social change and modernization. The relevance of anthropology to Africa will be considered. PROFESSOR ARONSON

151-228A. AN INTRODUCTORY TO EDUCATIONAL ANTHROPOLOGY. (3 credits; Not given 1973-74.) Anthropological approaches to the study of education will be delineated using case studies from a wide range of cultural situations including the Canadian North and urban North America. A theoretical analysis of such areas as the transmission of values, the classroom as a unit of socio-cultural analysis, and the role and functions of formal education cross-culturally considered.

151-236D. INDIGENOUS PEOPLES OF NORTH AMERICA: A GEOGRAPHICAL AND CULTURAL APPROACH. (6 credits; Also listed as Geography 183-336D.) A survey of North American Indian and Eskimo cultures from ethnographic and ecological perspective. The areal emphasis of the course will be upon Canadian Eskimo and Indian populations. The evolutionary approach will be utilized in the analysis of data pertaining to ecological adaptation and socio-cultural change among selected groups. PROFESSORS KEMP AND LAMBERT

INTERMEDIATE COURSES

Prerequisite: one anthropology course, which is, in some cases, specified.

151-303B. HUMAN EVOLUTION. (3 credits; *prerequisite:* 151-E21A or permission of the instructor.) An examination of man's biological origins and the significance of his physical diversity. The behaviour of non-human primates, primate evolution, the role of culture in human evolution, racial classifications, the dynamics and behavioural significance of racial variation. PROFESSOR TRIGGER

151-308A. POLITICAL ANTHROPOLOGY. (3 credits.) The study of political systems through the examination of selected cases. Attention to theory of politics by comparative analysis of particular polities. PROFESSOR ROUSSEAU

151-312B. PERSONAL DOCUMENTS AND THE HUMAN BEING IN ANTHROPOLOGY. (3 credits; *Prerequisite:* E22B or permission of the instructor.) An introduction to individuals from a series of traditional, developing, and modern societies through the study of autobiographies, family studies, and fictional accounts. Problems in the definition of "understanding" other cultures and in anthropology as a human science will be considered. PROFESSOR SINDELL

151-314A. AN INTRODUCTION TO PSYCHOLOGICAL ANTHROPOLOGY. (3 credits; *Prerequisite:* E22B or permission of the instructor.) A survey of current theories and methods employed in psychological anthropology. Some areas considered are: cross-cultural studies of socialization

and personality development; cultural factors in mental illness; individual adaptations to rapid socio-cultural change. PROFESSOR SINDELL

151-316A. ANTHROPOLOGY OF COMPLEX SOCIETIES. (3 credits.) Comparative study of complex societies; processes of development; social organization; structural interrelationships; problems of conflict and integration; processes of change. Evaluation of anthropological approaches to the study of these societies. PROFESSOR GMELCH

151-321B. URBAN ANTHROPOLOGY. (3 credits.) A comparative analysis of urbanization in Africa, Asia and Latin America; rural urban migrations; the demography and institutional structures of urban area; tribalism in towns; status, class and elites in towns; family structure; urban network analysis; urban based associations; the role of the city in national development. PROFESSOR GUTKIND

151-325B. PEOPLES OF THE CARIBBEAN. (3 credits; Not given 1973-74.) History, geography, blending of metropolitan and Afro-Indian influences; implications of slavery and the plantation system; social stratification and religious organizations. The changing socio-poiltical structure; the movement towards self-government and independence; post-independence social, economic and political problems. STAFF

151-326A. NATIVE PEOPLES OF SOUTH AMERICA. (3 credits.) Ethnographic survey of the native peoples of South America and discussion of some of the major themes in South American ethnology including the present political situation of the Indians. PROFESSOR ARCAND

151-331B. PREHISTORY OF EAST ASIA. (3 credits.) Comparative study of prehistoric hunting and gathering cultures in China, Japan, Korea, Mongolia and Eastern Siberia; origins and dispersal of food production; cultural processes leading to the rise of literate civilizations in certain regions of East Asia. PROFESSOR IKAWA-SMITH

151-344A. ETHNOHISTORY OF NEW FRANCE. (3 credits.) The methods and techniques of Ethnohistory; an interdisciplinary approach to studying the history of peoples who have produced no written records of their own. These methods will be applied to a systematic investigation of interaction between Indians and Europeans in Eastern Canada during the French regime. PROFESSOR TRIGGER

HONOURS COURSES

Restricted to Honours and Joint Honours students in anthropology and those with the permission of the instructor.

151-354A. SOCIAL ORGANIZATION. (3 credits.) Structural and optative aspects of interpersonal relations, group formation, conflict and integration in differently organized societies. Processes of continuity and change. PROFESSOR ROUSSEAU

151-355B. THE STRUCTURE OF CULTURE. (3 credits.) The formal analysis of cultural systems, the patterning and integration of cultural, ethos and value systems. PROFESSOR ARCAND

151-356B. ANTHROPOLOGICAL ARCHAEOLOGY. (3 credits.) Comparative study of prehistoric sociocultural systems from the Palaeolithic period to the rise of the first civilizations in selected parts of the Old and the New Worlds. PROFESSOR IKAWA-SMITH

151-357A. ARCHAEOLOGICAL METHODS. (3 credits. Not given in 1973-74.) The collection of materials in field investigations and their analysis to yield cultural information. The processes of inferences and reconstruction in archaeological interpretation. PROFESSOR TRIGGER

151-358B. INTRODUCTION TO RESEARCH. (3 credits.) The nature of anthropological research as evidenced in monographs and articles; processes of concept of formation and interpretation of data; the problem of objectivity. PROFESSOR SALISBURY

151-380A, 151-381B, 151-382A, 151-383B. SPECIAL TOPICS. (3 credits; *prerequisite:* permission of the instructor.) Supervised reading in special topics under the direction of a member of the staff. PROFESSOR ARCAND AND STAFF

151-462A, 151-463B. INDEPENDENT RESEARCH. (3 credits; *prerequisites:* Honours status and 151-358B and permission of the instructor.) Supervised reading and preparation of a research report under direction of member of the staff. PROFESSOR IKAWA-SMITH AND STAFF

ADVANCED COURSES

Prerequisite: at least one 300-level anthropology course, which, in some cases, is specified.

151-402A. THE HISTORY OF ANTHROPOLOGICAL THEORY. (3 credits.) Explorations in the history of anthropological theory; schools, controversies, intellectual history, sociology of knowledge. PROFESSOR SALISBURY

151-404B. TOPICS IN PSYCHOLOGICAL ANTHROPOLOGY. (3 credits; *Prerequisite:* 151-314A and consent of instructor.) Each year one or two problems in psychological anthropology will be discussed and analyzed in depth, for example the development of adolescent identity in

a series of cultures or the effects of different household residence patterns on children's development. PROFESSOR SINDELL

151-415A. PROBLEMS IN AFRICAN ANTHROPOLOGY. (3 credits; *Prerequisite:* 151-215D or consent of the instructor.) A detailed examination of the peoples and cultures of a major region of Africa, with attention to problems in ethnology, social change and development. In 1973 the course will be run as a seminar on Nigeria, with special economic growth, the civil war, the development of class and ethnic consciousness, and the growth of the military. PROFESSOR ARONSON

151-422A. HISTORY, IDEOLOGY AND THEORY IN SOCIAL CHANGE AND MODERNIZATION OF NON-WESTERN SOCIETIES. (3 credits.) Socio-cultural perspectives on Colonialism and policies; their impact on preindustrial societies; the structure and dialectic of modernization processes and their impact; ideology and discontent. PROFESSOR GUTKIND

151-424A. ECONOMIC ANTHROPOLOGY. (3 credits.) Analysis of the modes of production, exchange, and consumption of goods and services, in societies occupying different ecological situations; questions of choice and planning; and their concretization into institutional arrangements; relationships between life-ways; problems of economic development. PROFESSOR SALISBURY

151-428B. SEMINAR ON EDUCATIONAL ANTHROPOLOGY. (3 credits; *Prerequisite:* 151-228A and consent of instructor; limited to 15 students; not given 1973-74.) A seminar focused on methodological and theoretical issues in educational anthropology. Ethnographic techniques applicable to the study of formal education, methodological problems in the analysis of teacher-pupil interaction, and way to ascertain the cultural continuities and discontinuities between the student's school and non-school experience will be discussed PROFESSOR SINDELL

151-429B. ADVANCED TOPICS IN THE STUDY OF LATIN AMERICA. (3 credits; *Prerequisite:* 151-326A or consent of the instructor.) A detailed examination of selected topics of Latin American society and culture. PROFESSOR GMELCH

151-437B. ANTHROPOLOGICAL APPROACHES TO CULTURE CHANGE. (3 credits.) Consideration of anthropological approaches to directed culture change through a survey and analysis of relevant case materials. History of directed culture change; introduction to theoretical, methodological and ethical issues involved in and deriving from studies of and participation in directed culture change. Role of anthropoloigsts as initiators of participants in, and/or evaluators of directed culture change: past, present and future(?). PROFESSOR LAMBERT

151-440B. SEMINAR IN THE ANTHROPOLOGY OF COGNITION. (3 credits.) Investigation into how people perceive and organize material phenomena — things, events, people, etc. — in an attempt to understand the organizing principles underlying behaviour. PROFESSOR ARCAND

151-445B. SEMINAR ON MIDDLE EASTERN SOCIETY AND CULTURE. (3 credits.) The ethnography and social anthropology of the Middle East, with special attention to life at the community level and to community-society relations. Such questions as "urban-peasant-tribe" relations, arid land adaptation, the role of folk Islam, and the place of women. PROFESSOR SALZMAN

151-448B. SETTLEMENT ARCHAEOLOGY. (3 credits; *Prerequisites:* at least two, and preferably three, lower level courses in anthropology, including 151-356B or 151-357A.) This course will examine theories that have been developed in recent years concerning human settlement and evaluate the utility of these theories for deriving a variety of kinds of cultural information from spatial distributions of archaeological data. Special attention will be given to factors affecting the evolution of settlement units, from which a more general theory of settlement may be derived. PROFESSOR TRIGGER

151-450B. THIRD WORLD PEASANTRIES: THE CHANGE FROM RURALITY TO URBAN PROLETARIANS. (3 credits; *prerequisites:* 151-308A or 151-354A, plus one area course, or permission of the instructor.) Review of recent anthropological literature, as well as the approaches of social history and political-economy, focusing on external and internal forces instrumental in transforming peasantries into urban proletarians in "Third World" nations. Analysis of fission and fusion processes, stratification, class, rural and urban protest and mechanisms of incorporation of small units in larger political domains. PROFESSOR GUTKIND

451-461A. RESEARCH TECHNIQUES. (3 credits; *prerequisite:* consent of the instructor.) Field techniques, interviewing, participant observation, projective, and other testing techniques such as genealogies and life histories, problems of field work, rapport, contact, role definition, culture shock, etc. PROFESSOR LAMBERT

151-480A, 481B, 482A, 483A, 484A, 485B. SPECIAL TOPICS. *(Prerequisite:* Completion of all available courses relevant to the topic and consent of the instructor.) Supervised reading in advanced special topics under direction of a member of staff. PROFESSOR IKAWA-SMITH AND STAFF

ARABIC (397)

397-E10D. INTRODUCTION TO LITERARY ARABIC. (6 credits; 5 hours, 1 hour laboratory). The Arabic alphabet, pronunciation, principles of grammar, basic vocabulary, reading selections, simple composition and oral drills.

397-E20D. ELEMENTARY ARABIC. (6 credits; 4 hours.) Further grammar and drills, readings in modern and classical Arabic, composition and oral drills.

397-300D. INTERMEDIATE ARABIC. (6 credits.)

397-400D. ADVANCED ARABIC. (6 credits.)

ART HISTORY (123)

Arts Building W-225 (West Wing, top floor); Telephone: 392-4977.

The Department of Art History at McGill is concerned almost exclusively with the historical-critical study of architecture, sculpture and the two-dimensional arts from ancient times to the present. These arts are treated as an illumination of history — as a visual embodiment and expression of the philosophical, religious, intellectual and social trends of the successive historical periods. The student is thus given an introduction to the richness, scope and significance of our historical and cultural heritage. At the same time the monuments are treated both as products of creative expression and as objects of aesthetic quality, providing the student with a basis for both receptivity to artistic communication and sound critical judgement.

A single, introductory, non-professional studio course is offered primarily as a supplement to the historical-critical study of the subject.

The Department offers majors, honours, joint-honours and graduate programs. The major program provides a broad basis in the history and criticism of art, but at the same time retains considerable flexibility enabling the student to participate in the many other disciplines in the humanities and social sciences with which art history is characteristically related. The honours program, while almost equally flexible, offers a deeper and more comprehensive penetration of the subject and provides the necessary foundation for those intending to continue into graduate studies in the discipline. But it is intended also for the undergraduate desiring a more cohesive and challenging intellectual experience and development.

Major in Art History

There are no pre-University requirements for this program.

The student majoring in Art History will take at least 30 and not more than 36 credits in Art History of which not more than 12 may be elected in the First year. Also with the approval of his Faculty Adviser, the student will choose 24 additional credits in at most 3 disciplines in the Humanities and/or Social Sciences, complementary to the study of Art History.

Adviser: Professor Bertos, Arts W-265, Telephone: 392-4976.

Honours in Art History

There are no pre-University requirements for this program.

To qualify for the Honours degree in Art History candidates must pass 36 credits, four Honours seminars (twelve credits), and the Honours comprehensive examinations (Art History 499D).

In the first University year, the candidate will take at least 12, at most 18, Art History credits. In each of the second and third University years the student will normally take 12 Art History credits and two Honours seminars (3 credits each). At the end of the final University year, as well as the final examinations in their Art History courses, Honours students, having prepared themselves in the areas not covered by their formal courses, will take the Honours comprehensives written and oral examinations.

The passing mark for Honours standing in Art History is a GPA of 3.0. For promotion to the second university year, candidates must attain a GPA of 3.0 in their first university year Art History courses and marks not below C in each of their other courses. Qualification for the Honours degree requires a CGPA of 3.0 in all Art History courses and seminars taken, with not more than two of these in the C category; at least a C average in all non-Art History courses; and at least 70 in the Honours comprehensive examinations (Art History 499D).

Honours students intending to proceed to Graduate studies will be encouraged to begin the study of a third language recommended by the Department. (Note: courses in studio practice do not count towards the Honours degree).

Adviser: Professor Judkins, Arts W-230, telephone: 392-4975.

Joint Honours

There are no fixed pre-University requirements for these programs.

Proposals by qualified students for Joint Honours studies in Art History and certain appropriately related subjects may be submitted for consideration jointly by the Chairmen of the Departments concerned.

Adviser: Professor Judkins, Arts W-230, telephone: 392-4975.

Course Descriptions

123-200D. FORM AND MEANING. (6 credits.) Dealing broadly in terms of Painting, Sculpture and Architecture, the aim of this course is to develop the student's perception and understanding of the work of art — both as a visual medium of expression and as a crystallization of its historical and cultural context. PROFESSORS JUDKINS, MITCHELL AND———

123-026D. FUNDAMENTALS IN DRAWING AND PAINTING. (6 credits; No previous training is expected.) The purpose of the course is to develop the creative sensibilities of students by introducing them to basic principles of drawing, painting and sculpture by studio-work. No previous training or experience is expected. MR. LANGSTADT

NOTE: Enrolment in this course is limited to fifty students. Selection from among all those registered will be made, by lot, at the time of (not before) the first scheduled meeting of the course. Except by special consent of the instructor, supplemental assessments will not be given in this course.

123-211A. EARLY AND CLASSICAL GREEK ART AND ARCHAEOLOGY. (3 credits.) A selective survey of the slow emergence of the visual arts in the Hellenic world after the Mycenean Age and their transformation to the end of the fourth century. Emphasis is placed upon the cultural significance of this phase of Greek civilization for modern man.
PROFESSOR GALAVARIS

123-212B. HELLENISTIC GREEK AND ROMAN ART AND ARCHAEOLOGY. (3 credits.) The spirit of the forms in the visual arts discussed as manifestations of a new world-view that became predominant from the time of Alexander's conquests to the appearance of Christian Art. Emphasis is placed on Rome's contribution to the classical tradition.
PROFESSOR GALAVARIS

123-220A. PRE-COLUMBIAN ART. (3 credits; Not given in 1973-74.) The sculpture, architecture and painting of the major civilizations of the New World prior to Cortes. Within their cultural contexts, emphasis is placed on the visual and expressive qualities of the works in question.
STAFF

123-221B. NORTH AMERICAN PAINTING. (3 credits; Not given in 1973-74.) A detailed examination of the emergence of an indigenous cultural expression, from the Colonial period to the present, dealing in alternate years with either American or Canadian painting. STAFF

123-222D. RENAISSANCE AND POST-RENAISSANCE SCULPTURE. (6 credits; Not given in 1973-74.) European sculpture of the fifteenth through the nineteenth centuries, with emphasis upon the works of the principal sculptors. Attention will be given to the special problems involved in the three-dimensional expression of styles in art. PROFESSOR MITCHELL

123-223A. EARLY RENAISSANCE ART IN ITALY. (3 credits.) The emergence of a new concept of art in Italy during the 15th century expressed in the works of the most important artists of the period. Special consideration will be given to the relationship of the visual arts to the classical tradition and to contemporary literature, philosophy and social conditions.
PROFESSOR BERTOS

123-224B. HIGH RENAISSANCE ART IN ITALY. (3 credits.) A systematic investigation of the Italian art of the 16th century — one of the most important periods in art history. Attention will be given also to the relation of the visual arts to the contemporary intellectual and social trends. PROFESSOR BERGMANN

123-312A. EARLY CHRISTIAN AND BYZANTINE ART AND ARCHAEOLOGY. (3 credits.) The spirit of the art of the Early Church and of the Byzantine World seen through the Fine Arts in relation to other expressions of the civilization of the time. Emphasis is placed on the Art of Byzantium, the continuity of the classical tradition and its meaning for western man.
PROFESSOR GALAVARIS

123-313B. WESTERN MEDIAEVAL ART AND ARCHAEOLOGY. (3 credits.) A presentation of the visual arts embodied in the "Mediaeval Cathedral" discussed as cultural manifestations of Mediaeval Man's world-view. PROFESSOR GALAVARIS

123-315D. GOTHIC ARCHITECTURE. (6 credits; Not given in 1973-74.) A study of Gothic architecture with special emphasis upon its contemporary literary documents and upon the analysis of the form and structure of the major monuments. This will be followed by a critical evaluation of modern interpretations of Gothic architecture. PROFESSOR———

123-316A. THE ARCHITECTURE OF THE CITY AND CITY PLANNING. (3 credits; Not given in 1973-74.) A survey of the development of the architecture of the city from the Greeks and Romans through the end of the eighteenth century. Special attention will be given to the study of the development of specific cities as well as to theoretical writings by architects on city planning. PROFESSOR ———

123-332A. RENAISSANCE ARCHITECTURE. (3 credits.) The study of a selected number of major architects from 1400 to 1600 with special emphasis on the development of architectural theory and the revival of classical antiquity in Italy. PROFESSOR ———

123-333B. BAROQUE AND ROCOCO ARCHITECTURE. (3 credits.) The development of the Baroque style in Italy and subsequently in the rest of Europe from 1600 to 1750. Emphasis on the relationship between theory and practice. The origins of Classicism, Palladianism and the Rococo style will also be studied. PROFESSOR ———

123-334D. EUROPEAN ART OF THE 17TH AND EARLY 18TH CENTURIES. (6 credits; Not given in 1973-74.) The emergence of the Baroque in Rome, its dissemination throughout Europe, and artistic tastes in the 18th century. Attention is given to the relationships between the visual arts and other aspects of the intellectual, religious and social life of these centuries.
PROFESSOR GALAVARIS

123-335A. NEO-CLASSICISM, ROMANTICISM AND REALISM. (3 credits.) An investigation of the closely linked movements generated by the intellectual and social revolutions of the mid-eighteenth century. PROFESSOR MITCHELL

123-336B. IMPRESSIONISM, NEO-IMPRESSIONISM AND POST-IMPRESSIONISM. (3 credits.) A stylistic and iconographic investigation of the principal movements in European painting and sculpture of the second half of the nineteenth century. PROFESSOR MITCHELL

123-337D. MODERN PAINTING AND SCULPTURE. (6 credits.) The modern movement in art; its late nineteenth century emergence, problems, character and place in the continuity of art history. PROFESSOR JUDKINS

123-343A. THE EMERGENCE OF RENAISSANCE ART IN NORTHERN EUROPE. (3 credits; Not given in 1973-74.) The development from Late Gothic to Renaissance, principally through the rise of the Early Netherlandish school and its relation to French art, in the 14th and 15th centuries. The monuments are examined within the changing religious and social climate of the times. PROFESSOR BERGMANN

123-344B. NORTHERN EUROPEAN ART OF THE SIXTEENTH CENTURY. (3 credits.) The specific character of Northern Renaissance art will be studied with due consideration of its diversity against the background of Christian humanism and Protestantism. Emphasis is placed on the major German artists and the development of graphic art. PROFESSOR BERGMANN

123-347A. MODERN ARCHITECTURE: 1750 TO THE PRESENT. (3 credits.) An examination of the origins of modern architectural thought in the intellectual revolution of Eighteenth century Europe followed by a study of subsequent developments internationally.
PROFESSOR ———

123-414D. WESTERN MEDIAEVAL PAINTING. (6 credits; Not given in 1973-74.) (Also open to First-year Graduate students.) A systematic study of the important centres and media (book painting, fresco, stained glass, etc.) of Mediaeval "Painting" from Carolingian through High Gothic times. The works of art are studied in relation to the religious spirit and social climate in which they were created. PROFESSOR BERGMANN

123-430D. EVOLVING CONCEPTS OF THE DISCIPLINE OF ART HISTORY. (6 credits; Not given in 1973-74.) (Also open to First-year Graduate students.) The historical development of approaches and methods employed by art historians since the Eighteenth century. The emergence of Art History as a systemaitc discipline in the Humanities — its contributions, responsibilities and present status. PROFESSOR BERTOS

123-440D. THE VISUAL LANGUAGE OF ARTISTIC EXPRESSION. (6 credits; Not given in 1973-74.) A detailed analysis of the nature, technicalities and functions of the factors of

Representation, Design and Medium, including their evolving historical development, in combination with a study of their interactive synthesis in the total work, including comparative examination of the principal extant interpretations of the synthesis factor.
PROFESSOR JUDKINS

123-499D. HONOURS COMPREHENSIVE EXAMINATIONS. All Honours students must register for this course in the final year — see Honours in Art History above.

HONOURS SEMINARS. (3 credits each.) Honours candidates in their Second and Third University years will undertake special studies (the work consisting of recommended readings, written papers and discussions) in certain of the following areas as advised by the Department. (6 credits in each year.)

123-380A. ANCIENT AND EARLY MEDIAEVAL ART AND ARCHAEOLOGY. (Not given in 1973-74.) (3 credits.)
PROFESSOR GALAVARIS

123-381B. ANCIENT AND EARLY MEDIAEVAL ART AND ARCHAEOLOGY. (Not given in 1973-74.) (3 credits.)
PROFESSOR GALAVARIS

123-382A. LATER MEDIAEVAL ART. (Not given in 1973-74.) (3 credits.)
PROFESSOR BERGMANN

123-383B. LATER MEDIAEVAL ART. (Not given in 1973-74.) (3 credits.)
PROFESSOR BERGMANN

123-384A. ART OF THE RENAISSANCE. (Not given in 1973-74.) (3 credits.)
PROFESSOR ————

123-385B. ART OF THE RENAISSANCE. (3 credits.) PROFESSOR ————

123-386A. EUROPEAN ART OF THE 18TH AND 19TH CENTURIES. (3 credits.)
PROFESSOR MITCHELL

123-387B. EUROPEAN ART OF THE 18TH AND 19TH CENTURIES. (3 credits.)
PROFESSOR MITCHELL

123-388A. MODERN ART AND THEORETICAL PROBLEMS. (Not given in 1973-74.) (3 credits.)
PROFESSOR JUDKINS

123-389B. MODERN ART AND THEORETICAL PROBLEMS. (Not given in 1973-74.) (3 credits.)
PROFESSOR JUDKINS

123-480A. Same as Art History 123-380A for Final year students. (Not given in 1973-74.) (3 credits.)

123-481B. Same as Art History 123-381B for Final year students. (Not given in 1973-74.) (3 credits.)

123-482A. Same as Art History 123-382A for Final year students. (Not given in 1973-74.) (3 credits.)

123-483B. Same as Art History 123-383B for Final year students. (Not given in 1973-74.) (3 credits.)

123-484A. Same as Art History 123-384A for Final year students. (Not given in 1973-74.) (3 credits.)

123-485B. Same as Art History 123-385B for Final year students. Also open to First-year Graduate students. (3 credits.)

123-486A. Same as Art History 123-386A for Final year students. Also open to First year Graduate students. (3 credits.)

123-487B. Same as Art History 123-387B for Final year students. (Not given in 1973-74.) (3 credits.)

123-488A. Same as Art History 123-388A for Final year students. (Not given in 1973-74.) (3 credits.)

123-489B. Same as Art History 123-389B for Final year students. (Not given in 1973-74.) (3 credits.)

CANADIAN STUDIES PROGRAM

This interdisciplinary program is being offered in conjunction with the North American Studies Program to give undergraduates an opportunity to gain a fairly comprehensive view of the growth and achievement of the Canadian civilization.

In taking the Canadian Studies Program the student will select courses that deal with Canada and that total 54 credits. The student will select courses also so as to obtain at least 6 credits in each of the following: literature, history, and the social sciences.

Please consult Professor Miller, Department of History.

Anthropology

Prerequisites are required for most courses above the E20 level. Students lacking prerequisites or written permission from the course instructor may be required to drop courses.

151-236D. INDIGENOUS PEOPLES OF NORTH AMERICA: A GEOGRAPHICAL AND CULTURAL APPROACH. (6 credits.)

151-344A. ETHNOHISTORY OF NEW FRANCE. (3 credits; *Prerequisite:* Honours or major status in Anthropology or consent of instructor.)

Architecture

301-204B. HISTORY OF ARCHITECTURE IN CANADA. *(Prerequisite:* 301-102B.)

Economics

154-200D or 154-250D is prerequisite to all upper level courses in Economics except those for which other provision is made in the course description.

154-205A. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY I. (3 credits; *Prerequisite:* 154-200D or consent of instructor.)

154-206B. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY II. (3 credits; *Prerequisite:* 154-205A.)

154-302D. MONEY AND BANKING. (6 credits.)

154-304D. CANADIAN ECONOMIC POLICY. (6 credits.)

154-305D. GOVERNMENT AND BUSINESS. (6 credits.)

154-306D. LABOUR ECONOMICS AND INSTITUTIONS. (6 credits.)

154-311D. NORTH AMERICAN ECONOMIC DEVELOPMENT. (6 credits; *Prerequisite:* 154-200D or 154-201D.)

154-312D. POLITICAL ECONOMY OF DEPENDENCE IN THE WESTERN HEMISPHERE. (6 credits.)

154-352D. MACROECONOMICS. (6 credits.)

154-400D. ECONOMIC ANALYSIS. (6 credits.)

154-404D. TRANSPORTATION. (6 credits.)

154-408D. PUBLIC FINANCE. (6 credits.)

154-468A. URBAN AND REGIONAL ECONOMICS. (3 credits.)

English

120-E23A(228A). CANADIAN LITERATURE. (3 credits.)

120-E32B(229B). CANADIAN LITERATURE. (3 credits.)

120-360D. THE DEVELOPMENT OF PROSE FICTION IN CANADIAN LITERATURE. (6 credits.)

120-463A. CANADIAN LITERATURE. (3 credits.)

French

126-227A. INTRODUCTION A LA LITTERATURE QUEBECOISE I. (3 credits.)

126-227B. INTRODUCTION A LA LITTERATURE QUEBECOISE II. (3 credits.)

126-229D. INITIATION A LA LITTERATURE QUEBECOISE. (6 credits.)

126-264D. HISTOIRE DE LA CIVILISATION QUEBECOISE. (6 credits.)

126-329D. ROMAN QUEBECOIS CONTEMPORAIN. (6 credits.)

126-333A. LE THEATRE QUEBECOIS. (3 credits.)

126-334B. LE CINEMA QUEBECOIS. (3 credits.)

126-361D. ROMAN QUEBECOIS I. (6 credits.)

126-364D. LA POESIE QUEBECOISE. (6 credits.)

126-432D. POESIE QUEBECOISE CONTEMPORAINE. (6 credits.)

126-433A. LES CHANSONNIERS QUEBECOIS. (6 credits.)

126-436D. EVOLUTION DES IDEES AU QUEBEC AU 19e SIECLE. (6 credits.)

126-442D. EVOLUTION DE LA LANGUE FRANÇAISE AU CANADA. (6 credits.)

126-461D. ROMAN QUEBECOIS II. (6 credits.)

126-462D. LES ESSAYISTES QUEBECOIS — EXPLOSION DE LA PENSEE DEPUIS BORDUAS. (6 credits.)

126-492B. SEMINAIRE SPECIALISE DE LITTERATURE QUEBECOISE. (3 credits.)

French Canada Studies Program

Consult page 67.

Geography

183-301D. GEOGRAPHY OF CANADA. (6 credits.)

183-309A. GEOGRAPHY OF QUEBEC. (3 credits.)

183-336D. INDIGENOUS PEOPLES OF NORTH AMERICA. (6 credits.)

History

101-202D. INTRODUCTION TO THE HISTORY OF CANADA. (6 credits.)

101-323D. SOCIAL AND ECONOMIC PROBLEMS IN THE HISTORY OF FRENCH CANADA FROM THE 17TH CENTURY TO THE MIDDLE OF THE 19TH CENTURY. (6 credits; *Prerequisite:* 202D.)

101-344A. THE ETHNOHISTORY OF NEW FRANCE. (3 credits; *Prerequisite:* History 202D.)

101-352D. EMERGENCE OF ENGLISH CANADA: 1791-1867. (6 credits; *Prerequisite:* 202D or consent of instructor.)

101-353D. WAR AND SOCIETY IN CANADIAN HISTORY. (6 credits; *Prerequisite:* History 202D. This course is not open to candidates who have previously taken History 372D.)

101-362D. THE WEST IN CANADIAN HISTORY. (6 credits; *Prerequisite:* 202D.)

101-363D. CONTEMPORARY CANADA, 1890-1970. (6 credits; *Prerequisite:* History 202D or equivalent, or consent of instructor. This course is not open to candidates who have previously taken History 302A and 312B.)

101-403D. REGIONAL, SOCIAL AND CULTURAL HISTORY OF QUEBEC. (6 credits; *Prerequisites:* History 202D or consent of instructor. A reading and speaking knowledge of French is essential.)

101-432A. THE HISTORICAL LITERATURE OF THE MARITIME PROVINCES. (3 credits; *Prerequisite:* History 202D or equivalent, or consent of instructor.)

Music

214-391B. CANADIAN MUSIC. (3 credits; *Prerequisite:* 214-280D or consent of instructor.)

Political Science

160-211D. INTRODUCTION TO COMPARATIVE GOVERNMENT. (6 credits.)

160-320A. CANADIAN POLITICAL PROCESS. (3 credits; *Prerequisite:* 160-211D.)

160-337B. PUBLIC ADMINISTRATION. (3 credits; *Prerequisite:* 160-321D or consent of instructor.)

160-341A. THE DEVELOPMENT OF CANADA'S FOREIGN POLICY. (3 credits; *Prerequisite:* 160-211D or consent of instructor.)

160-342B. THE ISSUES, CONCEPTS AND PROCESSES OF MODERN CANADIAN EXTERNAL RELATIONS. (3 credits; *Prerequisite:* Political Science 341A.)

160-415B. POLITICAL PARTIES. (3 credits; *Prerequisites:* 160-211D and one other course in Comparative Government.)

160-421B. PROBLEMS IN CANADIAN POLITICS AND GOVERNMENT. (3 credits: *Prerequisites:* 160-221D and 160-320A.)

Sociology

CENTRE D'ETUDES CANADIENNES-FRANÇAISES (157)

A student who wishes to Major in the French Canada Studies Program will establish, in consultation with an adviser who will become his tutor for the entire program, a detailed sequence of courses and seminars. Students will select a minimum of 54 credits in courses dealing with Quebec and/or Canada. This inter-disciplinary program is being offered in conjunction with various departments, to give undergraduate students an opportunity to have a comprehensive understanding of the Quebec society in its Canadian and North American context.

To inquire about the program, students should contact Professor Jean-Louis Roy (392-5203) or Professor Daniel Latouche (392-5216) at 3475 Peel Street.

Courses Offered by the French Canada Studies Program

157-200A. INTRODUCTION TO QUEBEC SOCIETY. (3 credits.) This special survey course will discuss the major historical developments in the economic, social, intellectual and political life of Quebec society in the XXth century, with special attention to the post 1945 period. This course is designed to familiarize students with some of the fundamental issues in contemporary Quebec and with the various methodological and bibliographical instruments needed for an understanding of Quebec society. Topics covered include English-French relations, the impact of industrialization, labour legislation, the role of the Church, the rise and content of the separatist ideology, the evolution of revolutionary ideas, violence, the role of association and clubs. (The course will be given mostly in English, but a reading knowledge of French is required). PROFESSOR JEAN-LOUIS ROY AND STAFF

157-203D. GEOGRAPHIE DU QUEBEC. (6 crédits.) (Ce cours ne sera pas donné en 1973-74.) Cependant les étudiants désireux de suivre un cours consacré à la géographie du Québec peuvent s'inscrire au cours 183-309B, cours offert conjointement par le Département de Géographie et le Centre d'Etudes canadiennes-françaises.

157-226A. INTRODUCTION A LA VIE POLITIQUE QUEBECOISE. (3 crédits.) Une introduction à la vie politique québécoise à travers l'étude des institutions des idéologies et des comportements politiques. Une attention particulière sera accordée à la structure et aux changements dans le système politique québécois. PROFESSEUR ANDRE BERNARD

157-300D. HISTOIRE CULTURELLE DU QUEBEC. (6 crédits.) Introduction générale (18e-20e siècle). Les courants d'idées: impact de la pensée révolutionnaire française et américaine, signification culturelle du parlementarisme, stratégie progressiste et laïque des notables, réaction cléricale après 1837-38, culture urbaine de la fin du 19e siècle. La diffusion des idées: apparition et impact de l'imprimerie, du journalisme; les relais de communication d'idées: voyages hors et vers le Québec, auberges, tavernes, associations, Instituts canadiens et lieux de rendez-vous. Travaux pratiques au choix des participants.
PROFESSEUR YVAN LAMONDE

157-301A. HISTOIRE DE L'EDUCATION AU QUEBEC. (3 crédits). Ce cours, donné en collaboration avec la Faculté des Sciences de l'Education, traite de l'histoire de l'éducation au Québec depuis la Confédération, y compris toutefois une brève étude de l'éducation à l'époque de la Nouvelle-France, et avant la Confédération. (Ce cours ne sera pas donné en 1973-74.)

157-304A. (Economics 154-304A.) LE DEVELOPPEMENT ECONOMIQUE DU QUEBEC. (3 crédits; donné en français). Le développement économique du Canada et l'économie du Québec. Attention plus particulière accordée aux industries primaires. (Ce cours ne sera pas donné en 1973-74.)

157-316A. QUEBEC ET L'AMERIQUE DU NORD. (3 crédits.) Ce cours tentera de répondre à la question suivante: dans quelle mesure et de quelle façon le Québec est-il, malgré sa spécificité culturelle, une communauté nord-américaine? En 1973, les principaux thèmes étudiés seront les suivants: les freaks, la contestation, la violence, la drogue, la jeunesse.
PROFESSEUR DANIEL LATOUCHE

157-336B. QUEBEC ET LE CANADA. (3 crédits.) Comment les Canadiens anglais et les Québécois francophones se perçoivent-ils mutuellement? Existe-t-il des stéréotypes et des images communes? Quelles sont les principals différences culturelles entre les deux groupes? Comment la Révolution tranquille a-t-elle été perçue au Canada? Quelles sont les perspectives d'avenir envisagées par les deux groupes? PROFESSEUR EDOUARD CLOUTIER

157-370D. LIVRES ET SOCIETE QUEBECOISE. (6 crédits.) Travaux pratiques: problèmes actuels de la société canadienne-française. Ce séminaire de recherche est consacré à l'analyse des divers phénomènes socio-culturels qui se rapportent à l'histoire de l'édition, de l'importation

et de la distribution du livre au Québec entre 1820 et 1939. L'analyse sectorielle et quantitative sera privilégiée.
PROFESSEUR JEAN-LOUIS ROY

157-401A. QUEBEC — ETATS-UNIS. (3 crédits; *Prérequis:* Histoire 202D, 302D, 303D, FCSP 201D et l'autorisation du professeur; donné en français). Etude de l'influence des Etats-Unis sur la société canadienne-française au Québec; plus particulièrement dans le domaine des idées et de la culture, à partir de 1762. La période contemporaine (à partir de 1867) fera l'objet d'une attention particulière. (Ce cours ne sera pas donné en 1973-74.)

157-406B. CULTURE ET CONTRE-CULTURE POLITIQUE AU QUEBEC. Les origines et l'évolution récente de la culture traditionnelle au Québec. L'apparition de la contre-culture, ses protagonistes, son contenu. La contre-culture a-t-elle été récupérée par le système? La libération individuelle face à la libération collective. (3 crédits.)
PROFESSEUR DANIEL LATOUCHE

157-407B. LITTERATURE FRANCOPHONE COMPAREE: QUEBEC, ANTILLES, AFRIQUE. Historique et analyse socio-culturelles des principaux mouvements littéraires; étude intensive d'œuvres capitales dans les genres poétique, romanesque et théâtral; définition de l'unité de ces littératures dans une esthétique post-européenne. (3 crédits.)
PROFESSEUR MAX DORSINVILLE

157-411B. QUEBEC ET CANADIENS-FRANÇAIS. Séminaire de recherche. (3 crédits; *Prérequis:* Hist. 202D, 302D, 313D, ou FCSP 201D ou 401A ou autorisation du professeur.) Etude historique de l'évolution des communautés francophones au Canada, à l'extérieur du Québec et des relations entre ces communautés francophones et la société québécoise.
PROFESSEUR JEAN-LOUIS ROY
PROFESSEUR CARMAN MILLER

157-414B. (Economics 154-414B). L'ECONOMIE DU QUEBEC DANS SON CONTEXTE NORD-AMERICAIN. (3 crédits; donné en français.) Etude des structures et des politiques et des forces économiques du Québec dans leur contexte nord-américain. (Ce cours ne sera pas donné en 1973-74.)

157-470D. THEORIES DES COMMUNICATIONS. Histoire et sociologie des media. Recherches comparées et appliquées au Québec; travaux pratiques mettant à contribution l'acquis théorique et concernant l'évolution des media (téléphone, radio, TV, satellites, journaux, affichage), la publicité, la mode, etc... (6 crédits.)
PROFESSEUR YVAN LAMONDE
PROFESSEUR JACQUES LANGUIRAND

157-480D. LA VILLE. (6 crédits; *prérequis:* Histoire 202D ou l'équivalent et l'autorisation du professeur.) Cours offert conjointement par le Centre d'Etudes canadiennes-françaises et le département d'Histoire. Les travaux les plus importants sur l'émergence, la croissance des villes, leurs fonctions et liaisons avec l'arrière-pays, la vie sociale et l'organisation politique en milieu urbain seront utilisés pour aborder l'étude de Montréal au milieu du XIXe siècle. Les recherches des étudiants seront intégrées à un dossier cumulatif.
PROFESSEUR LOUISE DECHENE
PROFESSEUR JEAN-LOUIS ROY

157-490B. DEVELOPPEMENT DU SYNDICALISME AU QUEBEC DEPUIS LA GUERRE. Analyse du développement des syndicats ouvriers au Québec depuis la guerre avec insistance sur l'impact social et les fondements idéologiques de leurs attitudes et comportements. (3 crédits.)

Courses Offered Jointly by the French Canada Studies Program and Departments

126-264D. HISTOIRE DE LA CIVILISATION QUEBECOISE. (6 crédits.) Cours offert conjointement par le Centre d'Etudes canadiennes-françaises et le Département de langue et de littérature françaises. Etude des principaux éléments de l'avancement idéologique, culturel et social au Canada français et leur influence sur la littérature.
PROFESSEUR JEAN-PIERRE BOUCHER

183-309B. GEOGRAPHY OF QUEBEC. (3 credits.) A geographical interpretation of selected social, economic and political problems of contemporary Quebec; ethnicity, demography, urbanization, regional disparities, economic marginality, with the purpose of segregating elements unique to Quebec from the more universal aspects that pervade them.
PROFESSOR WADDELL AND STAFF

101-323D. FRENCH CANADA FROM THE 17TH CENTURY TO THE MIDDLE OF THE 19TH CENTURY. (6 credits; *Prerequisite:* History 101-202D or consent of instructor.) This course will approach the economic and social history of New France and pre-industrial Quebec as a case study for problems in colonial policies, population movements, rural economy, commercial capitalism, social stratification, collective attitudes and institutional change.
PROFESSOR LOUISE DECHENE

101-403D. HISTOIRE REGIONALE, SOCIALE ET CULTURELLE DU QUEBEC. (6 crédits; *prérequis:* Histoire 101-333D ou l'autorisation du professeur; donné en français.) Etude du développement de la société québécoise depuis 1867. Retracer la signification des comportements et des idées nées dans un climat physique, spirituel et déterminé, tel est l'objectif de ce cours. PROFESSEUR JEAN-LOUIS ROY

126-436D. EVOLUTION DES IDEES AU QUEBEC AU XIXe SIECLE. (6 crédits) Les grands courants idéologiques du XIXe siècle et leur constante influence sur la littérature de cette époque: le voltairianisme, le libéralisme, grandeur et décadence des "Rouges", Tardivel ou l'ultramontanisme, Buies ou la libre pensée, etc.

126-442D. HISTOIRE DE LA LANGUE FRANÇAISE AU CANADA. (6 crédits.) Cours donné conjointement par le Département de langue et de littérature françaises, le Centre d'Etudes canadiennes-françaises et le Département de linguistique. Etude des origines du franco-canadien dans les dialectes français des XVIe et XVIIe siècles. Description du parler canadien au XVIIIe siècle. Evolution du franco-canadien après 1760. Description du "québécois" contemporain.

Ce cours est organisé en séminaire de recherches. Après une période d'initiation, l'étudiant fera un travail personnel portant sur un aspect particulier et précis, par exemple: la prononciation à la fin du XVIIIe siècle, le vocabulaire parlementaire en 1792, les anglicismes dans la Gazette de Québec en 1765-1770.

181-336D. INDIGENOUS PEOPLES OF NORTH AMERICA.

CENTRE FOR EAST ASIAN STUDIES

3434 McTavish Street
Tel: 392-4280; 392-4582

General Information

The Centre for East Asian Studies offers an interdisciplinary program focusing of China and Japan. The courses included in the East Asian Studies program are given in the departments of Anthropology, East Asian Languages and Literatures, Economics, Geography, History, Political Science and Religious Studies, and Sociology. These courses are listed below.

The program has been structured to accommodate general students who wish to acquire a basic knowledge of East Asia as well as those students who desire to specialize in the field. Requirements for the Major Program and the Honours Program currently offered are listed below.

Major in East Asian Studies

(In conjunction with the Department of History)

The requirements for a Major in East Asian Studies consist of the following: One compulsory course (History 208D) plus forty-eight credits (or the equivalent) drawn from the course listings in East Asian Studies and the Department of East Asian Languages and Literatures. These forty-eight credits must be spread among more than one department. Students are encouraged to enrol in the language sequence.

Enrolment in the East Asian Studies Major program will take place at the Centre for East Asian Studies just prior to university registration. The date for enrolment will be announced by September.

Inquiries regarding the Major in East Asian Studies should be addressed to Elaine Rubin, Centre for East Asian Studies, 392-4280.

Honours in East Asian Studies

(In conjunction with the Department of History)

The Honours Program in East Asian Studies will consist of a total of 60 credits. Of these 60 credits, the following 30 credits are compulsory: History 208D, 6 credits; a minimum of three levels of Chinese or Japanese language study, 18 credits; History 497D, 6 credits. In addition to these required courses, students must complete 30 additional credits selected from the East Asian Studies course listing. Modifications may be considered by the Honours adviser.

Since this is a multidisciplinary program, students will be encouraged to elect courses in more than one discipline.

Enrolment in the East Asian Studies Honours Program will take place just prior to university registration. The date and place of this enrolment will be announced in early September.

Inquiries regarding the Honours Program in East Asian Studies should be addressed to Professor E. Laffey in the Department of History, Telephone 392-5187.

166-451B. IMPERIALISM. (3 credits. See entry under Sociology Dept.) PROFESSOR DIXON

CLASSICS (114)

Stephen Leacock Building, Room 517, Telephone 392-5227.

Note to College Level Students

The following courses offered by this Department will be open to College Equivalent Students in 1973-1974:

Non-Language Courses: 114-200D, 201D, 203A, 205D, 207A, 208B, 300B, 304B, 306B, 309A.

Language Courses: 114-210D, 211D, 212D, 220D.

Literature Courses: Latin: 114-311A, 312B, 313A, 314B.

Literature Courses: Ancient Greek: 114-321A, 322B, 323D.

In addition, College level students may apply for permission to take certain other courses given by the Department. Apply to the Chairman.

Classics for the Specialist

The Department's honours programs are designed to train students who wish to pursue careers in Classics, Ancient History and Archaeology. Major programs give rather less intensive training and provide a useful background for students interested in the liberal arts or the social sciences.

Classics for the Non-Classicist

The Department offers numerous courses — many of which do not require a knowledge of Ancient Greek or Latin — designed for students in other programs such as Anthropology, Art History, English, Linguistics, Modern Languages, Philosophy, Political Science, Religious Studies.

Students of languages, literature and history may in addition be interested in the introductory language courses offered by this Department, which enjoys an international reputation as a pioneer in this field.

The very nature of the subject itself — covering as it does not only the language and literature, but also the history, archaeology, art, religion, philosophy, politics and economics of an entire civilization — can provide the student with a satisfying and relevant background to a wide range of studies.

Major Programs

NOTE: The following outlines represent *Departmental* requirements only. The attention of students is directed to the regulations of *Faculty* concerning *Programs*. Each student's program must also satisfy the regulations imposed by the Faculty of Arts.

MAJOR IN CLASSICS (ANCIENT GREEK) (See the Chairman, L517, 392-5227)

Minimum Course Requirements

24 Credits in Ancient Greek Literature, including Classics 114-321A and 323D.

18 Credits in Non-Language Courses approved by the Department of Classics.

6 Credits Classics 114-480D (Optional).

Classics 114-210D *or* 211D *or* 212D (which must be taken unless the student can prove proficiency in Latin).

MAJOR IN CLASSICS (LATIN) (See the Chairman, L517, 392-5227)

Minimum Course Requirements

24 Credits in Latin Literature, including Classics 114-312B and 313A.

18 Credits in Non-Language Courses approved by the Department of Classics.

6 Credits Classics 114-480D (Optional).

Classics 114-220D (which must be taken unless the student can prove proficiency in Ancient Greek.)

MAJOR IN CLASSICS (ANCIENT GREEK AND LATIN) (See the Chairman, L517, 392-5227)

Minimum Course Requirements

12 Credits in Intermediate Ancient Greek Literature, including Classics 114-321A and 323D.

6 Credits in Senior Ancient Greek Literature.

12 Credits in Intermediate Latin Literature, including Classics 114-312B and 313A.

6 Credits in Senior Latin Literature.

18 Credits in Non-Language Courses approved by the Department of Classics.

6 Credits Classics 114-480D (Optional).

MAJOR IN CLASSICS (CLASSICAL CIVILIZATION) (See G. M. Woloch, L527, 392-5220)

Minimum Course Requirements

54 Credits drawn from the following:

Classics 114-210D *or* 211D *or* 212D *or* 220D *or* 221A (which must be taken unless the student can prove proficiency in Ancient Greek or Latin).

Classics 114-200D.

Classics 114-201D.

All other Courses offered by the Department of Classics (with due regard to pre-requisites) which do not require a knowledge of Ancient Greek or Latin.

NOTES:

1. Students who wish to substitute for Non-Language Courses a continuation sequence of courses in the original Ancient Greek or Latin may do so.
2. Students may substitute for courses offered in the Department of Classics courses offered by other Departments, subject to the approval of the Department of Classics.
3. *This Program does NOT lead to post-graduate work in Classics.*

MAJOR IN CLASSICS (CLASSICAL HISTORY AND ARCHAEOLOGY) (See J. M. Fossey, L529, 392-5335)

Minimum Course Requirements

24 Credits in Archaeology Courses offered by the Department of Classics (i.e. Classics 114-205D and 305D and 405D and 406B and 409A).

18 Credits in Ancient History (i.e. Classics 114-201D and 301D and 303D).

6 Credits in Classics in Translation (i.e. drawn from Classics 114-300B, 207A, 208B).

6 Credits in a course or courses chosen with the approval of the Department of Classics.

NOTE: *This Program does NOT lead to post-graduate work in Classics,* although it could qualify a student for research in various aspects of Roman and European Archaeology.

MAJOR IN CLASSICS (CLASSICAL AND HELLENIC STUDIES) (See A. Farmakides, L516, 392-5222)

Minimum Course Requirements

Classics 114-200D *or* 221A.

Classics 114-235D (which must be taken unless the student can prove proficiency in Modern Greek).

Classics 114-210D *or* 211D *or* 212D.

12 Credits in Ancient Greek Literature.

12 Credits in Modern Greek Literature.

12 Credits in Latin Literature.

12 Credits in Non-Language Courses approved by the Department of Classics.

MAJOR IN CLASSICS (ANCIENT AND MODERN GREEK) (See A. Farmakides, L516, 392-5222)

Minimum Course Requirements

Classics 220D *or* 221A.

Classics 235D (which must be taken unless the student can prove proficiency in Modern Greek).

12 Credits in Intermediate Ancient Greek Literature.

6 Credits in Senior Ancient Greek Literature.

18 Credits in Modern Greek Literature.

18 Credits in Non-Language Courses approved by the Department of Classics.

MAJOR IN CLASSICS AND LINGUISTICS (See the Chairman, L517, 392-5227)

1. *Classics:*

27 credits.

The student will select a continuation sequence in either Ancient Greek or Latin. Six credits must be taken in the language not selected.

2. *Linguistics:*

27 credits.

104-200A. INTRODUCTION TO THE STUDY OF LANGUAGE.

104-201B. INTRODUCTION TO LINGUISTICS.

104-400A. THEORY AND METHODS OF HISTORICAL LINGUISTICS.

104-401B. SEMINAR IN HISTORICAL LINGUISTICS.

PLUS 15 Credits in other Linguistics Courses selected with due regard to prerequisites.

Honours Programs

HONOURS IN CLASSICS (See the Chairman, L517, 392-5227)

Minimum Course Requirements

24 Credits in Ancient Greek Literature, including Classics 114-321A and 323D.

24 Credits in Latin Literature, including Classics 114-312B and 313A.

24 Credits in Non-Language Courses.

6 Credits Classics 114-480D (Comprehensive Honours Tutorial Course).

NOTES:

1. The Non-Language Courses may be chosen from among courses given within the Department, or courses offered by other Departments, chosen with the permission of the Department of Classics.
2. Classics 114-480D will appear as a sixth 6-credit course in the student's final year record (i.e., it will be a sixteenth 6-credit course in the fifteen 6-credit course BA program). Every Honours student will be assigned to a Tutor upon entry into the Honours Program. The Tutor will meet with the student regularly during Term, and will assign essays or other work on subjects related to the course work on which the student is engaged. The Tutor may also, where practicable, assign summer reading. It will also be the Tutor's function to assist the student in selecting a suitable sequence of courses. *Honours standing in Classics 114-480D will be a requirement for the Honours degree.*

HONOURS IN CLASSICS (CLASSICAL HISTORY AND ARCHAEOLOGY) (See J. M. Fossey, L529, 392-5335)

Course Requirements

24 Credits in Ancient Greek or Latin.

12-18 Credits in the language not chosen above.

36-42 Credits in Archaeology and Ancient History courses offered by the Department of Classics.

6-18 Credits in other courses.

6 Credits Classics 114-480D (Comprehensive Honours Tutorial Course).

TOTAL: 90 Credits plus 6 (480D).

NOTES:

1. For Classics 114-480D, please see "Honours in Classics", Note 2.
2. Students proposing to obtain an MA in Classics at McGill are advised to gain 18 credits in the second Classical language, and to consult the Department for the precise requirements for the MA in Classics.

HONOURS IN CLASSICS (CLASSICAL AND HELLENIC STUDIES) (See A. Farmakides, L516, 392-5222)

Minimum Course Requirements

Classics 114-220D or 221A.

Classics 114-235D.

Classics 114-210D or 211D or 212D.

18 Credits in Ancient Greek Literature.

18 Credits in Modern Greek Literature.

18 Credits in Latin Literature.

18 Credits in Non-Language Courses.

NOTES:

1. Classics 235D must be taken unless the candidate has reached a standard sufficient to satisfy the Department that (s)he is proficient in Modern Greek.
2. The Non-Language Courses may be chosen from among courses given within the Department, or courses offered by other Departments, chosen with the permission of the Department of Classics.

JOINT HONOURS PROGRAMS

All Joint Honours Programs must have the approval of both Departments concerned. For Classics, see the Chairman, L517, 392-5227.

A formal arrangement exists for the following program:

JOINT HONOURS IN ANTHROPOLOGY AND CLASSICAL ARCHAEOLOGY (See J. M. Fossey, L529, 392-5335)

The Departments of Anthropology and Classics offer the following program leading to a joint honours B.A. degree:

1. Students must complete 33 credits in Anthropology and 39 credits in Classics, for a total of 72 credits. The remaining 18 credits may be chosen from among offerings of other Departments at McGill, but these electives should be chosen after consultation with advisers in the Anthropology and Classics Departments.

NOTE: This program does NOT lead to post-graduate work in pure Classics, but it may qualify the student for post-graduate work in Archaeology and Prehistory.

2. *Anthropology Requirements:*

9 Credits consisting of 3 of the following five "core courses": Anthropology 151-354A, 355B, 356B, 357A, Linguistics 104-230A.

3 Credits — Anthropology 151-358B.

6 Credits consisting of 2 advanced level courses (i.e. with a 400 listing).

12 Credits consisting of any other 4 Anthropology courses.

3 Credits consisting of an independent research course (462A or 463B) in the U3 year. The project will be based upon the student's interdisciplinary training in Anthropology and Classical Archaeology. The project will last for the entire year, with registration for one half course in Anthropology and one half course in Classics.

TOTAL: 33 credits.

3. *Classics Requirements:*

18-24 Credits in Archaeology courses.

6-12 Credits in Ancient Greek OR Latin.

6 Credits in Ancient History.

3 Credits in an independent research course.

TOTAL: 39 credits.

Course Descriptions

NON-LANGUAGE COURSES

114-200D. GREEK CIVILIZATION. (6 Credits.) The subject considered in all its aspects (art, archaeology, philosophy, literature, history, economics, politics, etc.). Original sources will be read in translation. **NOTE:** Part of this course will be modular.
PROFESSORS SNIDER AND WOLOCH

114-201D. ANCIENT HISTORY. (6 Credits.) A survey of Greek and Roman history from the origins to the beginning of the Middle Ages. PROFESSOR GORDON

114-203A. INTRODUCTION TO GREEK MYTHOLOGY. (3 Credits.) A survey of the myths and legends of Ancient Greece. PROFESSOR SNIDER

114-205D. INTRODUCTION TO CLASSICAL ARCHAEOLOGY, METHODS AND TECHNIQUES. (6 Credits.) Concerned essentially with the application of modern techniques to Classical Archaeology, and its connections with contemporary Europe. PROFESSOR FOSSEY

114-207A. CLASSICS IN TRANSLATION (THE CLASSICAL TRADITION). (3 credits.) Each student will select a single author or a field in which to specialize within the framework of a general discussion of Greek Literature from Homer to Aristotle. PROFESSOR DEARDEN

114-208B. ROMAN LITERATURE AND SOCIETY. (3 Credits.) Life and Society in the Roman Empire as reflected in contemporary authors of varying genres (epic, history, philosophy, satire and the novel). PROFESSOR SNIDER

114-300B. GREEK DRAMA AND THE THEATRE. (3 Credits.) A study of the Greek dramatists, both tragic and comic, in the light of their plays, with special emphasis on the theatrical techniques of the authors and the means of production in the Greek theatre.
PROFESSOR DEARDEN

114-302B. PROBLEMS IN GREEK MYTHOLOGY. (3 Credits.) A research-orientated course in which students work on projects dealing with specific mythological themes, either as developed in antiquity, or as they have been used in literature, art and music after the end of antiquity. **NOTE:** Students who have not taken Classics 114-203A are asked to consult the instructor in advance of registration. PROFESSOR SCHACHTER

114-303D. ROMAN HISTORY. (6 Credits.) The political and social development of the Roman state from its origins to the time of Augustus, with particular attention to the collapse of the Republic and the founding of the Principate. PROFESSOR WOLOCH

114-304B. GREEK POLITICAL IDEAS. (3 Credits.) The relations of politics, law and moral values in Greek political writings. Readings in translation from the dramatists and historians, Plato and Aristotle, and the fragments of the pre-Socratics, Epicurus and the early Stoics.
PROFESSOR SILVERTHORNE

114-305D. GREEK AND ROMAN ARCHAEOLOGY. (6 Credits; *Prerequisite:* Classics 205D or permission of the Department.) The archaeology of the Greek and Italian peninsulas and related areas from Neolithic times down to the Hellenistic-Roman period.
PROFESSOR FOSSEY

114-306B. THE ROMAN CITY IN CIVILIZATION. (3 Credits.) Discussion of the geography, urban planning, buildings and social conditions of European cities in the Roman Empire. Why have some of them survived until today and others not? PROFESSOR WOLOCH

114-309A. THE GREEK AND ROMAN NOVEL (IN TRANSLATION). (3 Credits.) A study of the ancient novel, including Petronius, *The Satyricon,* Apuleius, *The Golden Ass* and Longus, *Daphnis and Chloe.* PROFESSOR SNIDER

114-406B. HOMERIC ARCHAEOLOGY. (3 Credits.) The relation of the Greek oral traditions to the results of archaeological investigation. The course is aimed both at classicists who want to see another dimension to Homer, and at archaeologists with an interest in societies having an oral tradition. Material will be so organized that the course can be taken with profit both by those who know Greek and by those who do not. **NOTE:** This course is not suitable for those taking Classics 305D. PROFESSOR FOSSEY

114-409A. ROMAN BRITAIN. (3 credits; *Prerequisites:* Classics 114-205D and 114-305D or permission of the Department.) The Archaeology and History of Britain as a province of the Roman Empire, including the Iron Age Background and the decay of Roman culture in the island during the fifth century AD. Particular attention will be given to the evidence of inscriptions. PROFESSOR FOSSEY

114-478B. ROMAN COMEDY AND HUMOUR. (3 Credits; *Prerequisite:* Permission of the instructor.) An analysis of selected plays of Plautus and Terence in the light of Bergson and Freud; their influence on European drama. PROFESSOR TOMASZUK

LANGUAGE COURSES

114-210D. LATIN: FIRST YEAR. (6 Credits; *Prerequisite:* Matriculation in Latin or its equivalent.) Reading from two authors and sight translation. PROFESSOR TOMASZUK

114-211D. INTRODUCTORY LATIN. (6 Credits.) For students who have not matriculated in Latin. Intensive course designed to bring students to the same level of reading ability as those who have taken *Latin: First Year*. **NOTE:** This class meets four times per week.
PROFESSOR McCULLAGH

114-212D. INTERMEDIATE LATIN LANGUAGE. (6 Credits.) For students with previous training in Latin, but without matriculation or its equivalent. PROFESSOR SILVERTHORNE

114-220D. INTRODUCTORY ANCIENT GREEK. (6 credits.) For students who have not matriculated in ancient Greek. **NOTE:** This class meets four times per week.
PROFESSOR SCHACHTER

LITERATURE COURSES: LATIN

114-311A. INTERMEDIATE LATIN: POETRY. (3 credits; *Prerequisite:* Classics 114-210D or 211D or 212D or permission of the Department.) Readings in Vergil, *Georgics*.
PROFESSOR TOMASZUK

114-312B. INTERMEDIATE LATIN: POETRY. (3 credits; *Prerequisite:* As for 114-311A.) Vergil, *Aeneid*, Book 2. PROFESSOR McCULLAGH

114-313A. INTERMEDIATE LATIN: PROSE. (3 credits; *Prerequisite:* As for 114-311A.) Selections from Cicero's letters and philosophical works will be read. Some attention will be paid to the importance of Cicero's rôle in transmitting Greek philosophical ideas to the Middle Ages and beyond. PROFESSOR SNIDER

114-314B. INTERMEDIATE LATIN: PROSE. (3 credits; *Prerequisite:* As for 114-311A.) Selections of graded difficulty from various prose authors, including Caesar, Nepos and Livy.
PROFESSOR SNIDER

114-416D. SENIOR LATIN: ROMAN COMEDY. (6 credits; *Prerequisite:* Intermediate Latin Literature or permission of the Department.) Reading of Plautus, *Menaechmi* and *Amphitruo*, and Terence, *Andria*. Sources and influences. PROFESSOR TOMASZUK

114-451A/452B, 453A/454B, 455A/456B, 457A/458B, 459D. SENIOR LATIN READING COURSES. (A and B courses are 3 credits each; D course is 6 credits; *Prerequisite:* Permission of the Department.) Registration limited. PROFESSOR McCULLAGH AND STAFF

LITERATURE COURSES: ANCIENT GREEK

114-321A. INTERMEDIATE ANCIENT GREEK: PROSE. (3 Credits; *Prerequisite:* Classics 114-220D or permission of the Department.) Selections from Plato. PROFESSOR SILVERTHORNE

114-322B. INTERMEDIATE ANCIENT GREEK: PROSE. (3 credits; *Prerequisite:* As for 321A.) Readings in the Greek orators and other authors. PROFESSOR DEARDEN

114-323D. INTERMEDIATE ANCIENT GREEK: HOMER. (6 credits; *Prerequisite:* As for 321A.) Elements of Homeric grammar, prosody and metre; survey of the historical background; reading and translating of some relevant passages of the *Iliad* and the *Odyssey* with pertinent commentary and discussion. PROFESSOR VIVANTE (1st term)
PROFESSOR McCULLAGH (2nd term)

114-421A. SENIOR ANCIENT GREEK: HOMER. (3 credits; *Prerequisite:* Intermediate Ancient Greek or permission of the Department.) A survey of Homeric Poetry, with emphasis on its value as poetry. The reading of the text will be accompanied by references to the way in which Homer expresses basic ideas and gives us a full-scale representation of the world.
PROFESSOR VIVANTE

114-424D. SENIOR ANCIENT GREEK: GREEK TRAGEDY. (6 credits; *Prerequisite:* As for 421A.)
PROFESSOR DEARDEN

114-461A/462B, 463A/464B, 465A/466B, 467A/468B, 469D. SENIOR ANCIENT GREEK READING COURSES. (A and B courses are 3 credits each; D course is 6 credits; *Prerequisite:* Permission of the Department.) Registration limited. PROFESSOR McCULLAGH AND STAFF

SENIOR CLASSICS SEMINARS

One or more senior seminars may be given on subjects of interest to students and Faculty. For information concerning seminars for 1973-74, consult the Chairman (L517, 392-5227) in September.

114-441D/442D, 443A/444B, 445A/446B, 447A/448B. SENIOR CLASSICS SEMINARS. (A and B courses are 3 credits each; D courses are 6 credits each.) Registration limited.
PROFESSOR McCULLAGH AND STAFF

As of March 1973, the following three Seminars had already been allocated:

114-441D. SENIOR CLASSICS SEMINAR: SEMINAR IN GREEK EPIGRAPHY. (6 credits.) Registration limited. PROFESSORS FOSSEY, ROESCH, SCHACHTER

114-443A. SENIOR CLASSICS SEMINAR: SEMINAR IN NUMISMATICS. (3 credits.) Registration limited. An introduction to Greek and Roman Numismatics. Use will be made of the McGill coin collection.
PROFESSOR WOLOCH

114-445A. SENIOR CLASSICS SEMINAR: PAUSANIAS BOOK 9. (3 credits.) Registration limited. A reading of the text, with archaeological, epigraphic, historical and social commentary.
PROFESSORS FOSSEY, ROESCH, SCHACHTER

114-480D. COMPREHENSIVE HONOURS TUTORIAL COURSE FOR STUDENTS IN HONOURS PROGRAMS. (6 extra credits.)
STAFF

UNDERGRADUATE CLASSICS COURSES WHICH WILL NOT BE OFFERED IN 1973-74

NOTE: Many of these courses will be offered in 1974-75.

114-221A. ANCIENT GREEK FOR SPEAKERS OF MODERN GREEK.
114-235D. INTRODUCTORY MODERN GREEK.
114-301D. GREEK HISTORY.
114-315A. INTERMEDIATE LATIN LITERATURE: POETRY.
114-316B. INTERMEDIATE LATIN LITERATURE: POETRY.
114-317A. INTERMEDIATE LATIN LITERATURE: PROSE.
114-318B. INTERMEDIATE LATIN LITERATURE: PROSE.
114-319D. SENIOR LATIN LITERATURE: READINGS IN CAESAR AND HORACE ("ODES"); PROSE COMPOSITION.
114-335D. INTERMEDIATE MODERN GREEK.
114-400D. THE IDEA OF EPIC.
114-401A. HELLENISTIC HISTORY.
114-403A. MODERN GREEK HISTORY: FROM 1204 TO 1821.
114-404B. MODERN GREEK HISTORY: FROM 1821 TO 1945.
114-405D. REGIONAL STUDIES IN CLASSICAL ARCHAEOLOGY.
114-407D. LATER GREEK PHILOSOPHY.
114-411D. SENIOR LATIN LITERATURE: ROMAN HISTORIANS.
114-413D. SENIOR LATIN LITERATURE: ROMAN STOICISM AND EPICUREANISM.
114-414D. SENIOR LATIN LITERATURE: CICERO'S SPEECHES AND LETTERS.
114-415D. SENIOR LATIN LITERATURE: THE MIND OF ROME.
114-417D. SENIOR LATIN LITERATURE: ROMAN ELEGIAC POETRY.
114-418D. SENIOR LATIN LITERATURE: VERGIL'S "AENEID".
114-419D. SENIOR LATIN LITERATURE: LATIN OF THE SILVER AGE.
114-420D. SENIOR ANCIENT GREEK LITERATURE: GREEK COMEDY.
114-422B. SENIOR ANCIENT GREEK LITERATURE: HOMER.
114-423D. SENIOR ANCIENT GREEK LITERATURE: GREEK ORATORS.
114-425D. SENIOR ANCIENT GREEK LITERATURE: GREEK PHILOSOPHY.
114-426D. SENIOR ANCIENT GREEK LITERATURE: GREEK PHILOSOPHY.
114-427D. SENIOR ANCIENT GREEK LITERATURE: GREEK LYRIC POETRY.
114-428D. SENIOR ANCIENT GREEK LITERATURE: READINGS IN PLATO.
114-429D. SENIOR ANCIENT GREEK LITERATURE: GREEK HISTORIANS.
114-431A. SENIOR MODERN GREEK READING COURSE.
114-432B. SENIOR MODERN GREEK READING COURSE.
114-433D. SENIOR MODERN GREEK READING COURSE.
114-434D. SENIOR MODERN GREEK READING COURSE.
114-435D. INTERMEDIATE MODERN GREEK LITERATURE.
114-436D. SENIOR MODERN GREEK LITERATURE.
114-437D. PURIST MODERN GREEK.
114-471D. ROMAN IMPERIAL HISTORY.
114-473A. GREEK AND ROMAN RELIGIOUS IDEAS.
114-474B. GREEK RELIGIOUS PRACTICES.
114-477A. GREEK AND ROMAN LITERARY CRITICISM.

EAST ASIAN LANGUAGES AND LITERATURES (117)

3434 McTavish Street, Tel. 4280.

General Information

The Chinese language courses introduce both traditional characters as well as the simplified characters used in the People's Republic of China. Textbooks and teaching materials used include those published in China.

It is hoped that students majoring in East Asian Studies will enrol in the language courses in addition to any other students interested in learning the language.

In order to accelerate language proficiency and to approximate a "total immersion" approach, cultural activities are organized by the department and the students, including daily luncheons where conversation is conducted in Chinese only.

Course Descriptions

117-E10D. FIRST LEVEL CHINESE. (6 credits.) Introduction to the use of modern Chinese language (Mandarin), including instruction of basic grammar and patterns with more emphasis on speaking and pronunciation. Direct methods and tape recordings will be used for audio-lingual achievements. MRS. WANG

117-E11D. INTRODUCTION TO CONVERSATIONAL CHINESE. (6 credits.) This course is designed for students with some background in the Chinese written language, who wish to perfect their ability to speak Chinese. MISS CHANG

117-E20D. SECOND LEVEL CHINESE. (6 credits; *Prerequisite:* Chinese 117-E10D or Chinese 117-E11D or the equivalent.) A continuation of Chinese 117-E10D with more advanced study of Chinese language in both aspects of reading and conversation: grammar, vocabulary building and writing practice. Basic literary structures will be introduced, permitting the students to become familiar with the literature. MISS CHANG

117-201D. INTRODUCTION TO CHINESE LITERATURE. (6 credits; *Prerequisite:* Chinese 117-E10D or E11D or permission from the instructor; Not offered in 1973-74.) A survey of the historical background of Chinese literature and the evolution of literary forms and styles in Chinese from the Confucian period to modern times. MRS. WANG

117-300D. THIRD LEVEL CHINESE. (6 credits; *Prerequisite:* Chinese 117-E20D or the equivalent.) Based upon the literary level achieved in Chinese E20D, more advanced texts will be studies including original materials. Further examination of Chinese compounds and sentences with special emphasis on syntax explanation. MISS CHANG

117-400D. FOURTH LEVEL CHINESE. (6 credits; *Prerequisite:* Chinese 117-300D or the equivalent.) Emphasis is on reading skills and writing ability in addition to free discussion. Materials studied include original texts from Chinese literature, drama, government documents and newspapers.

NOTE: For students interested in studying Japanese, credits may be granted for courses taken at the Centre for Continuing Education.

ECONOMICS (154)

Stephen Leacock Building, Room 434,
Telephone 392-5239

Honours programs

All Honours students must be registered by the Departmental Honours Committee at the beginning of each year of their Honours program. An Honours student is not permitted to register for a general course where a parallel Honours course is offered. Honours students in economics are expected to take a minimum of 42 credits in approved economics courses over the three years of their program.

The Economics Honours program is offered to both B.A. and B.Com. students. There are two basic streams of study: 'economics' and economic history. The economics stream allows for specialization in the U3 year in various special fields in economics, such as labour, international trade, money and banking, development, etc.

U1 YEAR

Economics: 154-250D, 154-357D* (Mathematics 189-201A, B and 189-202A, B).

Economic History: 154-201D, 154-250D, 154-357D* (Mathematics 189-201A, B and 189-202A, B).

U2 YEAR

Economics: 154-350D, 154-352D, 154-357D* (Mathematics 189-245A and 189-246B).

Economic History: 154-350D, 154-352D, 154-357D*, one of 154-311D, 154-341A and 154-331A, 154-401D.

U3 YEAR

Economics: 154-450D.

Other Economics courses approved by the Honours Adviser.

( ) — Recommended optional course.

* — May be taken in U1 or U2.

Joint Honours

Joint Honours between Economics and various other departments in the Faculties of Arts, Science and Management exist. The requirements for such Joint Honours programs are in the process of revision. As a general rule, a Joint Honours involving Economics requires a minimum of thirty credits from approved courses in Economics. These include 154-250D, 154-350D, 154-352D and 154-357D.

All students who wish to begin (or continue) an Honours program *must* register with the Honours Committee in the Department of Economics prior to general registration in *each* of their university years.

The Majors Program 1973-1974: University I & II Students

The Majors Program in Economics is a planned sequence of courses designed to permit the student a degree of concentration in economics. It consists of 54 credits in courses approved by the Majors Committee of the Economics Department.

A student choosing a Major in Economics must take at least 36 credits of economics in addition to Economics 200D or its equivalent. The economics courses will be selected from the courses shown below.

A. **Prerequisite**

Economics 200D *or* its equivalent: Principles of Economics.

B. **Required Courses** (12 credits)

Economics 300A — Intermediate Microeconomics.

Economics 310B — Intermediate Macroeconomics.

Economics 317D — Economic Statistics, for Arts students

or

Economics 307D or Management 280-271A, 272B — Business Statistics, for Commerce students.

C. **Economics Elective Courses:** At least 24 credits from other 200, 300 and 400 level courses.

D. **Other Approved Courses:**

In addition to the minimum of 36 credits in Economics, the student will choose a total of 18 credits from *two* of the following fields:

Anthropology
Economics
French Canada Studies
Geography
History
Mathematics
Philosophy
Political Science
Psychology
Sociology

All students who wish to begin (or continue) a Major *must* register with the Majors Committee in the Department of Economics prior to general registration in *each* of their university years. Further information may be obtained from Professor C. Green, Leacock 828, 392-5217.

Course Descriptions

Supplementary Information: This calendar is prepared early in the year and so is likely to need modification by the time the academic year begins. A mimeographed supplement is available at the departmental office in September and should be consulted prior to registration with the Honours or Major advisers.

154-200D or 154-250D is prerequisite to all upper level courses in Economics except those for which other provision is made in the course descriptions below. Except by special permission of the Department* only those students who have taken 154-200D or 154-250D may select Economics for continuation. Honours students will take 154-250D.

*Such permission will be granted only to students who select an approved program of courses in Economic History.

154-200D. PRINCIPLES OF ECONOMICS. (6 credits.) Given in three sections with varied patterns of lectures and conferences. An introduction to the study of economics, including price theory, national income determination, money and banking, international economic relations, and economic policy. PROFESSORS GRANTHAM, DAVENPORT AND NAYLOR

154-201D. THE INTERNATIONAL ECONOMY SINCE 1850. (6 credits; *Prerequisites:* Open to students who either have completed 154-211D or have completed or registered for 154-200D or 154-250D; Others may be admitted by consent of instructor.) The effect of economic change in Britain, France, Germany and the United States on their role in the world economy and on the economic relations between nations. PROFESSOR WRIGHT

154-205A. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY I. (3 Credits; *Prerequisite:* 154-200D or consent of instructor.) Application of economic reasoning to practical problems and policy. Topics vary from year to year. PROFESSOR KIERANS

154-206B. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY II. (3 credits; *Prerequisite:* 154-205A; Not given 1973-74.) Application of economic reasoning to practical problems and policy. Topics vary from year to year.

154-211D. AN INTRODUCTION TO ECONOMIC HISTORY. An introductory survey, with special emphasis on the historical development of the forms of economic organization used by modern industrial states. The balance between Canadian and European materials will vary from year to year according to the specialization of the instructor. (In the coming year [1973-74] the course will have a predominantly Canadian basis). PROFESSOR NAYLOR

154-250D. INTRODUCTION TO ECONOMIC THEORY. (6 credits.) The standard topics covered in an intermediate level microeconomic course — theory of exchange; theory of consumer behaviour; theory of production and cost curves; theory of the firm; theory of distribution; general equilibrium; welfare economics — will be dealt with in the course. The assumptions underlying the traditional neoclassical approach to economic theory will be carefully specified and alternative theoretical approaches will be considered. PROFESSOR WELDON

154-300A. INTERMEDIATE ECONOMIC THEORY. (3 credits.) Microeconomics: Analysis of price determination in a market economy, problems of economic efficiency and market structures. PROFESSOR ITON

154-301B. THE MODERN ECONOMIC HISTORY OF SOUTH ASIA. (3 credits; *Prerequisite:* 154-200D or 154-201D or 154-250D or consent of instructor.) PROFESSOR WRIGHT

154-302D. MONEY AND BANKING. (6 credits.) Principles of money, banking, and central banking covering the nature of money, measurement of money supply, determination of the quantity of money; sources of bank funds, uses of bank funds; nature of central banking, monetary policy, and the international payments system. PROFESSOR GALBRAITH

154-304D. CANADIAN ECONOMIC POLICY. (6 credits.) Analysis of selected topics in a Canadian setting. The separation of analytical, empirical and ethical questions in policy making is emphasized. PROFESSOR DEUTSCH

154-305D. GOVERNMENT AND BUSINESS. (6 credits.) A study of the structure and performance of industrial markets, with particular emphasis on the problems of maintaining effective competition. Experience in Canada and other countries will be examined. Readings will cover leading law cases, as well as relevant economic literature. PROFESSOR GREEN

154-306D. LABOUR ECONOMICS AND INSTITUTIONS. (6 credits.) Part A: Quantitative and qualitative characteristics of the Canadian labour force; evolution of the industrial relations system; history and structure of the labour movement; theories of the labour movement, elements of labour law. Part B: Employment and unemployment; manpower policy; wage theory; collective bargaining and public policy; income distribution and problems of poverty; curent policy issues. PROFESSORS SODERSTROM AND ROBACK

This is a prerequisite course to 154-426D and 279-492D except in the case of Honours students.

154-307D. BUSINESS STATISTICS. (6 credits; 154-200D or 154-250D is not a prerequisite — for differences between 154-307D and 154-317D, see note attached to 154-317D.) Distribu-

tions, averages, dispersions, sampling, testing, estimation, correlation, regression, index numbers, trends and seasonals. PROFESSOR ————

154-310B. INTERMEDIATE ECONOMIC THEORY. (3 credits.) Macroeconomics: Analysis of economic stability; national income determination, economic fluctuations and growth, monetary and fiscal policy. PROFESSOR GRANTHAM

154-311D. NORTH AMERICAN ECONOMIC DEVELOPMENT. (6 credits; *Prerequisite:* 154-200D or 154-201D.) An historical analysis of the process of economic growth in the United States and Canada. First term: U.S.A. to 1914 and Canada up to 1896. Second term: U.S.A. 1914-72 and Canada 1896-1972. PROFESSOR DAVENPORT

154-312D. POLITICAL ECONOMY OF DEPENDENCE IN THE WESTERN HEMISPHERE. (6 credits.) A comparative study of contemporary economic structures in the 'peripheral' economies of Canada, the Caribbean and Latin America — with special emphasis on Canada and its constituent regions. The legacy of European colonization; trade and investment; operations of multinational corporations; preferences, common markets and foreign aid; the new economic nationalism of the western hemisphere. PROFESSOR LEVITT

154-313D. ECONOMIC DEVELOPMENT. (6 Credits.) The economics of structural change in developing countries. An examination of the applicability of economic theory in the context of development. Historical patterns of economic change in the developing world; economic planning; role of international trade and foreign aid in economic development; techniques of evaluating development projects; interdisciplinary problems of development.
PROFESSORS KURIEN (1st term) and ITON (2nd term)

154-314B. AFRICAN ECONOMIC DEVELOPMENT. (3 credits; *Prerequisite:* 154-200D or 154-250D or consent of instructor.) An analysis of the processes of economic growth in tropical Africa. Special emphasis will be placed upon natural resources, population, infrastructure, agriculture, trade and aid, the role of government and the parastatal institutions. The course is especially recommended to students enrolled in the African Studies Program, and for those wishing to continue in development economics. PROFESSOR SMITH

154-315B. ECONOMIC DEVELOPMENT OF CHINA. (3 credits.) A consideration of economic change in China since 1949. Emphasis is on the approach China has taken to development, its success in solving problems in various sectors of the economy and a comparison with approaches to development used in other countries. PROFESSOR WRIGHT

154-317D. ECONOMIC STATISTICS. (6 Credits.) Distributions, averages, dispersions, sampling, testing, estimation, correlation, regression, index numbers, trends and seasonals.
PROFESSOR BEACH

NOTE: 154-307D is primarily for Commerce students and 154-317D is primarily for Arts and Science students and Macdonald College students.

154-321B. THE MODERN ECONOMIC HISTORY OF SOUTHEAST ASIA. (3 credits; *Prerequisite:* 154-301A or consent of instructor. Not offered 1973-74.) A reading course in which the economic history and development of Southeast Asia will be compared with that of South Asia.
PROFESSOR WRIGHT

154-327A. POPULATION ANALYSIS IN DEVELOPMENT ECONOMICS. (3 credits; *Prerequisite:* any course in Development Economics. Not offered 1973-74.) A review of theories of population growth, past trends and forecasts. Analysis of population change in developing countries, mortality, fertility, and migration. A study of interrelations between population growth and economic development in these less-developed economies.

154-331A. THE ECONOMIC DEVELOPMENT OF RUSSIA AND THE USSR. (3 credits; *Prerequisite:* 154-200D or equivalent, or consent of the instructor.) An historical and analytical study of the special features of Russian economic development, mainly since 1890.
PROFESSOR WRIGHT

154-341A. THE ECONOMIC HISTORY OF CHINA AND JAPAN, MAINLY FROM 1840 TO 1949. (3 credits.) A survey of the economic histories of China and Japan to the mid-20th century, emphasizing the factors underlying their contrasting economic patterns.
PROFESSOR M. F. LOUTFI

154-350D. HISTORY OF ECONOMIC THOUGHT. (6 credits.) A critical study of the writings of the great economists, with particular reference to the period from Adam Smith to the present day. PROFESSOR MARSH

154-352D. MACROECONOMICS. (6 credits.) A rigorous treatment of basic macroeconomic theory, emphasizing the Classical and Keynesian ideas, for the short-run determination of output, employment, interest rates and prices in the economy. Elements of International Economics, Money and Banking and Growth Theory. The Structure of the Canadian Economy.
PROFESSOR WURZBURGER

154-357D. ECONOMIC STATISTICS. (6 credits.) Stochastic phenomena; probability and frequency distributions, introduction to probability theory. Statistical inferences about propor-

tions, means and variances; analysis of variance; non-parametric statistics; index numbers and time series; economic forecasting; regression and correlation analysis; introduction to the general linear economic models; its uses and limitations; uses and misuses of statistics; Canadian economic statistics. PROFESSOR KURIEN

154-367D. MATHEMATICAL ECONOMICS. (6 credits.) A mathematical treatment of basic economic theory. PROFESSOR ————

154-400D. ECONOMIC ANALYSIS. (6 credits; Not offered 1973-74.) Analysis of the economic problems of the firm; the determination of the demand curve; the forecasting of demand; the measurement of costs; pricing problems in various types of markets; the determination of optimum policies for such matters as advertising, packaging and premiums. New theories of business behaviour will represent a substantial part of the course.

154-401D. LEADING PROBLEMS IN ECONOMIC HISTORY. (6 credits; *Prerequisite:* 154-200D or consent of instructor.) In 1973-74 the topic will be the evolution of European agrarian institutions. Rise of serfdom and manorial institutions in selected European countries; peasant communities; relation between economics and institutional change. The second term will take up the transfer of European peasant patterns to North America and nineteenth century agrarian reforms. Reading knowledge of French or another Western European language recommended. PROFESSOR GRANTHAM

154-402A. ECONOMIC HISTORY OF LATIN AMERICA. (3 credits; Not offered 1973-74.) The historical evolution of economic institutions in Latin America and the effect of that evolution on the economic development of that region from pre-colonial times through the end of World War II.

154-403B. ECONOMIC DEVELOPMENT IN LATIN AMERICA. (3 credits; Not offered 1973-74.) An analysis of the process of structural change and development of the Latin American economies since 1945.

154-404D. TRANSPORTATION. (6 credits.) History and development of the Canadian transportation system: economic characteristics of the various transportation media; comparative analysis of cost and rate structures; problems of regulation and control. MR. ROMOFF

154-408D. PUBLIC FINANCE. (6 credits.) A study of economic efficiency in the fiscal role of government. PROFESSOR KIERANS

154-409D. INVESTMENT ANALYSIS AND CORPORATION FINANCE. (6 credits.) Part I — Investment; capital markets; investment funds; securities; concepts of income, risk, value and appreciation; analysis of financial statements; stock market; investment policy. Part II — Forms of business organization; growth of the corporation; the managerial revolution; sources of funds; management of fixed and working capital; ratio analysis; expansion, reorganization and valuation. PROFESSOR BRIANT

154-421D. COMPARATIVE ECONOMIC SYSTEMS. (6 credits; *Prerequisite:* 154-200D or 154-250D or consent of instructor. It is desirable, but not required, that students should have taken 154-331A and 154-341A.) A comparative study of the economic systems of contemporary states. PROFESSOR DAVENPORT

154-423D. INTERNATIONAL TRADE AND FINANCE. (6 credits; for Majors students.) Theoretical and policy approaches to the study of international economic relations. Topics examined include: pure trade theory; tariff theory and policy; customs unions among advanced and among less-developed countries; relationship between trade and growth in theory and reality; balance of payments accounts, adjustment, and interaction with the domestic economy; international monetary institutions and their reform; the role of foreign trade in socialist economies. PROFESSOR M. F. LOUTFI

154-425D. ECONOMICS OF ECOLOGY. (6 credits.) A study of the application of economic theory to the problems of ecology. Particular attention will be given to the measurement and regulation of pollution, congestion and waste and other environmental aspects of specific economies. PROFESSOR M. A. LOUTFI

154-426D. LABOUR ECONOMICS. (6 credits; *Prerequisite:* 154-306D or consent of instructor.) The supply of labour, unemployment theories, the impact of technology on employment and unemployment, government employment and manpower policies, wage level changes, wages policy, the economics of education, social security legislation. PROFESSOR GREEN

154-450D. ADVANCED ECONOMIC THEORY. (6 credits.) Selected topics in economic theory from recent periodical and monograph literature. Information on the topics to be covered can be obtained from the Department before registration. PROFESSOR WELDON

154-453D. INTERNATIONAL ECONOMIES. (6 credits; for Honours students.) Analysis of the nature, effects and policy implications of international trade and finance. Topics receiving special emphasis will include: the pure theory of trade; the balance of payments and alternative exchange-rate systems; the terms of trade; the foreign-trade multiplier; regional integration; trade policy in developed and developing countries; problems of international liquidity and investment. PROFESSOR ITON

154-454A. CURRENT ECONOMIC PROBLEMS. (3 cerdits; Not offered 1973-74.) A discussion of contemporary economic issues.

154-455B. VALUES, INSTITUTIONS AND ENVIRONMENT IN ECONOMICS. (3 credits; Not given 1973-74.) A critical examination of the scope and method of economics, of the philosophical and value underpinnings of economic theory, and the influence of institutions and environment on 'economic' phenomena. Particular attention will be given to the works of writers who have dissented from the 'mainstream' of economics.

154-457B. LINEAR PROGRAMMING AND INPUT-OUTPUT ANALYSIS. (3 credits; *Prerequisite:* consent of the instructor. Not offered 1973-74.) National Economic Accounting, including input-output, and flow of funds accounts. Analytical uses relating to the impact of public and other expenditures on incomes, imports, savings, employment, etc.

154-458D. MONEY AND BANKING. (6 credits.) An advanced undergraduate treatment of selected topics in money and banking, including the theory and practice of monetary policy.
PROFESSOR VELK

154-467D. ECONOMETRICS. (6 credits; *Prerequisite:* 154-357D or consent of instructor.) Special emphasis on statistical tests of economic theories, the construction of econometric models, and problems in estimation methods. PROFESSOR KHAZZOOM

154-468A. URBAN AND REGIONAL ECONOMICS. (3 credits.) This course is meant to be an introduction to location theory and to urban and regional economics. Its purpose is also to teach some elementary tools of analysis to people intending to do research, applied or pure, in this field. PROFESSOR MARTIN

154-480A. RESEARCH PROJECT. (3 credits; *Prerequisite:* open to U3 students.) Students may undertake a research project under close supervision. They must also do such special reading and research as their advisers may direct.

154-481B. RESEARCH PROJECT. (3 credits; *Prerequisite:* open to U3 students.) Students may undertake a research project under close supervision. They must also do such special reading and research as their advisers may direct.

The following courses have recently been given Faculty of Management numbers, but are the same courses that for many years have been part of the program in Economics. They continue to have the same place in the program in the department that they earlier had, and can be taken on exactly the same terms as when they were courses with Department of Economics numbers. Where appropriate to a student's program, and with the permission of the program adviser, one or more of these courses may be taken for credit by students enrolled in programs in Economics. 279-293D may be taken for credit by students in the Industrial Relations Major, but not as an elective for students taking a Major in Economics.

279-293D [formerly 154-236D]. INTRODUCTION TO INDUSTRIAL RELATIONS. (6 credits; 154-200D or 154-250D is not a prerequisite. This course may not be taken as an elective for students taking a Major in Economics. However it may be taken for credit by students in the Industrial Relation Majors Program.) An introduction to the problems of employer-employee relations, including analysis of the personnel function, the structure, function and government of the modern trade union movement, labour legislation, and the state function and public interest in industrial relations. PROFESSOR BAIRSTOW

279-394B [formerly 154-316A]. COLLECTIVE BARGAINING. (3 credits; *Prerequisite:* 154-200D.) This course is designed for those students who wish to study principles in collective bargaining in Canada and abroad. It deals with the structure of the bargaining parties and the structure of bargaining itself. It is problem oriented and will rely heavily on empirical data and case problems. PROFESSOR WOODS

279-491D [formerly 154-415D]. INDUSTRIAL RELATIONS IN PRACTICE. (6 Credits; Compulsory for fourth year Industrial Relations Majors. Others by permission of the instructor.) Students in this course will be encouraged to come to grips with a wide range of problems in industrial relations theory, policy and practice. This is achieved by means of guided reading and small discussion groups, mock collective bargaining sessions, contact with practitioners in the field and problem oriented research assignments. PROFESSOR GOLDENBERG

279-492D [formerly 154-416D]. PUBLIC POLICY IN INDUSTRIAL RELATIONS. (6 credits; *Prerequisite:* 154-306D.) Collective bargaining and public policy towards industrial relations. Emphasis will be placed on recent public investigations into labour relations in the federal and provincial jurisdictions; international comparisons will be included. PROFESSOR WOODS

EDUCATION (413)

See the separate *Announcement of the Faculty of Education* for complete information about courses leading to the Bachelor of Education degree.

The course below is offered by members of the staff of the Faculty of Education as a subject for the B.A. or B.Sc. degree. This course does not lead to a teaching diploma.

413-402D. COMPARATIVE EDUCATION. (6 credits; Open to students in their Third and Fourth years.) A study and comparison of recent educational developments in England, France, Germany, the Soviet Union, and the United States. PROFESSOR LIPKIN

ENGLISH (120)

Departmental Office: Room 155, Arts Building,
Telephone 392-4987.

The Department of English divides its activities into three streams: literary studies, drama, and film and communications. With the exception of the Honours tutorials, all courses in all streams are open to McGill students, irrespective of the Honours or Major programs in which they are enrolled. Honours and Major students in English concentrate in one stream, but are required to become acquainted with each of the others.

In literary studies (Stream I) the department offers a considerable diversity of courses in the various historical periods of English literature, in Canadian literature, American literature, Caribbean and African literatures in English, the various literary genres, creative writing, literary criticism, stylistics and the linguistic structure of English. While members of the department are engaged in study and research in all of these areas, the Department has come to be regarded as having certain specific strengths, particularly in literary theory, comparative literature, and Renaissance literature. In conjunction with other Montreal universities, there is also considerable activity in the field of Mediaeval literature.

In addition to the study of dramatic literature as a genre, it is possible to pursue undergraduate studies in dramatic theory and various aspects of drama in production (Stream II).

The Drama Program tries to place its subject in as broad a social and philosophical context as possible. Students are encouraged to include in their studies the maximum number of Humanities, Social Sciences, and Fine Arts classes. The Drama and Theatre Major then chooses his specialized classes from a series of courses in dramatic literature, theatre history, aesthetics and dramatic criticism, acting, stagecraft, design and theatre technology. From year to year classes are also given in special interest areas when student demand is sufficient.

The Study of Communications (Stream III), while located in the Department of English, intersects with many other academic disciplines, including fine arts, sociology, psychology, and linguistics. Such an approach means that the student must take a wide variety of courses in English and in other disciplines associated with this study.

A foundation for study of Communication is a concentration on human language, its systemization in linguistics and philosophy, and its extension in social interaction. But the study of Communication includes, as well, the whole range of non-verbal signs, their perceptual basis in biology and psychology, and their function in aesthetic and social contexts. It includes the technological extensions through which such signs may be disseminated and transformed, as well as those larger conceptual structures or myths which enable them to be seen as signs at all.

Major Programs in English

The Major program in English combines both a concentration and a distribution of study. A student majoring in English will normally concentrate his work in one of the three streams. In each case, the Major program consists of 54 credits, but the distribution of work in each of the streams varies somewhat. *Students are advised to consult*

the Departmental Handbook for the specific regulations which apply to the various streams in the major program.

STREAM I — LITERATURE

The Major program in literature (Stream I) requires the student to gain a wide acquaintance with the field of literary study. Work is normally distributed among at least three of four categories of courses: periods and national literatures; major authors; literary theory and criticism; and genre, theme and style. In addition to this required distribution, students may elect to pursue a concentration in one of those areas, and all students in Stream I must take at least six credits in Stream II (Drama) and six in Stream III (Film and Communications). Six of the 54 credits may be taken, with permission, in a discipline other than English.

STREAM II — DRAMA AND THEATRE

Students in the Drama and Theatre stream may concentrate their studies in either Drama *or* Theatre. Those opting for the former area devote more attention to the literary and theoretical aspects of the subject, while those selecting the latter include more practical classes in their programs. All students must, to some extent, combine both practical and theoretical work.

The Drama and Theatre curriculum is not designed to provide professional theatre training. Our aim is rather to permit students to explore the subject as a Liberal Arts discipline.

In consultation with their faculty advisers, students select a minimum of 54 cerdits in English. Twelve of these must be chosen from the Literature and Communications streams, while the rest are drawn from Drama and Theatre offerings in the following areas: Dramatic Literature, Theatre History, Theatre Aesthetics and Dramatic Criticism, Acting, Directing, and Theatre Practice. Classes are also given in special interest areas from year to year. At least two public productions are staged annually.

STREAM III — COMMUNICATIONS

The study of Communications cuts across many disciplines, such as English, Fine Arts, Sociology, Psychology, Drama, Linguistics. It is founded on concepts of interpersonal relationships — in whatever disciplines they may traditionally have been studied.

Such an approach to the study of Communications means that the student must take a wide variety of courses in English as well as outside the English Department. The goals of the Stream III major is an interdisciplinary, not simply a multidisciplinary study, with emphasis on the integration of diverse approaches to the problems of human communication.

Of the 54 credits required for the completion of a Stream III major program, at least 12 credits must be drawn from the literature and/or drama streams of the English Department. The remaining 42 credits are chosen in consultation with an adviser, and include courses in English and allied subjects.

Honours Programs in English

The Honours Program is characterized by a sequence of tutorials and by the pursuit of a program exhibiting sufficient range and comprehensiveness in depth and breadth within one of the streams of Literature, Drama, or Film and Communications, together with some familiarity with the work carried on in each of the other streams.

The Honours Program, therefore, requires a minimum of 60 credits within the Department, carried on under the supervision of the Honours Program Committee, that the student must satisfy with respect to the rationale and comprehensiveness of his total program of courses within and outside the Department.

The Honours Committee will review the student's program each year, and examine the student's written rationale for his program, to determine that it shows sufficient range, depth, breadth and comprehensiveness.

LITERATURE CORE. The Literature core will require the student to show sufficient distribution of program to indicate he or she has pursued work in the major literary types, the study of a writer or author or creator in depth, some familiarity with literary

themes, traditions, etc., all within the context of showing a sufficient distribution of study across the periods of human history, such as (i) Mediaeval, (ii) Renaissance, (iii) Enlightenment, (iv) Romantic, (v) Modern. Some of these distributional requirements may be met by work in other Departments in the Faculty of Arts, such as History, Fine Arts, or another literature; but at least ten courses normally must be taken within the Department.

DRAMA. The Drama core will require the student to pursue work in theatre history, and in theatre aesthetics — all within the context of historical distribution represented by Classical, Mediaeval, Renaissance, Enlightenment, Romantic and Modern. The student will be required to show sufficient distribution within the program to indicate he or she has pursued work in the major dramatic types, the study of an individual dramatist in depth, some familiarity with dramatic forms, traditions, and so on, and has gained knowledge of the ways and means of dramatic expression in practice, through voice, gesture, movement, production problems, etc. Some of these distributional requirements may be met by work in other Departments in the Faculty of Arts, such as History, Fine Arts, or another literature; but at least ten courses normally must be taken within the Department.

FILM AND COMMUNICATIONS. The student will be required to pursue a basic program of extra-Departmental courses in Linguistics, Sociology, Fine Arts, and Psychology, as well as courses in Communications and Film History and Aesthetics within the Department. In this program, the student must demonstrate that he is familiar with the major types of media, the study of an individual dramatist, film producer, or creator in some depth, and a knowledge of the evolution of communicational modes through history by showing a sufficient distribution across the periods delineated in (a) above.

HONOURS TUTORIALS

All Honours students whatever their core will be required to pursue one of two sequences of Honours tutorials that will deal with the various theories, concepts, and tools required in the examination of written texts, presentations, productions and the like.

U-290. Archival and Informational Skills *or* U-295 Bibliography and Textual Study.

U-390. Linguistic or Symbolic Analysis *or* U-395 Approaches to Literature, Drama and Film.

U-490. Historical Analysis *or* U-495 History of Literary Theory and Criticism and Aesthetics.

(Students may follow U-290 or U-295 with either U-390 or U-395; but once opting for U-390 they must follow with U-490, and for U-395 with U-495.)

ADMISSIONS

Any U-1 student may indicate an intention to pursue an Honours program but his admission becomes final only in the U-2 year. Admission to U-2 is based on his having on *overall standing of 'B'* in the year's work and an average of 'B' in all his English courses as well as a recommendation from individual instructors. Since the program may be limited to as few as 25-40 students (though its size will be determined by staff) not all students opting for entry into Honours may be able to do so.

Students opting for Honours in the U-1 year must take one of two tutorials (U290 or U295) described above. They also must register in enough English courses to provide for the development of an appropriate core program in Literature, Drama or Film and Communications.

JOINT HONOURS PROGRAM

Joint Honours programs in English and various disciplines in the Faculty of Arts are available to qualified students. From the point of view of the Department of English, students in such programs are required to complete one of the tutorial sequences described above (see *Honours in English*). The remainder of each student's program is arranged to suit the particular circumstances and interests involved in consultation with an adviser and the Honours Committee. Admission to this program is quite limited.

FURTHER INFORMATION RELATING TO DEPARTMENTAL PROGRAMS AND MORE DETAILED DESCRIPTIONS OF COURSES MAY BE OBTAINED AT THE ENGLISH OFFICE, ROOM 155, ARTS BUILDING.

ENGLISH LITERATURE ASSOCIATION

The English Literature Association (an association of all students taking courses in the Department of English) publishes a guide to English courses, which is available either in the English office or in Room B-20, Arts Building.

Courses Being Given 1973-74

INTRODUCTORY COURSES

120-E10D. ENGLISH LITERATURE AND COMPOSITION. (6 credits.) A selection of Major and works in the English literary tradition; practice and instruction in composition. STAFF

120-E15D. ENGLISH AS A SECOND LANGUAGE. (6 credits; 2 hours and 3-5 hours laboratory.) Designed to help students whose native tongue is not English and who have difficulty in a) understanding spoken English, b) speaking it themselves, c) reading English text material or d) writing assignments in English. Admission to this course will be by examination. STAFF

200-LEVEL COURSES

These courses are open to university students who have completed English E10D or its equivalent. Courses also assigned alternate numbers preceded by 'E' are open to students in the CEGEP equivalent program, subject to the rules of that program. Other courses in this category are open to these students only with special permission.

120-E16A (200A). SURVEY OF ENGLISH LITERATURE. (3 credits.) The function of this course is to introduce the student to the major authors and periods of English literature. The approach is chronological with an emphasis on forms of transformation from one historical epoch to another. Periods covered: the Middle Ages through the Seventeenth Century. PROFESSOR BOUCHARD

120-E17A (208A). THE ENGLISH NOVEL OF THE 19TH CENTURY. (3 Credits.) A study of themes and techniques in the early 19th century novel. PROFESSOR BRUCE

120-E18D (210D). AN INTRODUCTION TO DRAMA. (6 Credits.) A survey of major types/authors of Western drama with emphasis on evolving concepts and terminology to deal with plays. Some consideration of the relationship between printed text and performance. PROFESSOR LIEBLEIN

120-E19A (212A). SHAKESPEARE. (3 credits.) An introductory study of representative plays of Shakespeare. PROFESSOR DUER

120-E19B (212B). SHAKESPEARE. (3 credits.) An introductory study of representative plays of Shakespeare. PROFESSOR HEPPNER

120-E20D (214D). ENGLISH POETRY OF THE 19TH CENTURY. (6 Credits.) The major poets of the 19th Century. PROFESSOR MATHEWSON

120-E21A (218A). POETRY OF THE 20TH CENTURY. (3 Credits.) Part I: A survey of modern poetry, British and American, in the age of Yeats, Pound, and Eliot. PROFESSOR HEUSER

120-E23A (228A). CANADIAN LITERATURE. (3 credits.) This session: the development of poetry in Canada from the beginnings to the present time. Particular emphasis will be placed on 20th Century work. PROFESSOR CONWAY

120-E24A (230A). AMERICAN LITERATURE. (3 credits.) An investigation of major American writers from Puritan times to 1860. PROFESSOR RUBIN

120-E26A (235A). TRAGEDY. (3 credits.) A study of tragedy as genre and mode in drama and fiction in selected texts ranging from antiquity to the 20th Century. The course aims at an understanding of the tragic temper as it unfolds through key stages in history reflected in changing literary and cultural conventions. PROFESSOR DORSINVILLE

120-E27D (245D). BACKGROUNDS TO ENGLISH LITERATURE. (6 credits.) A study of specific works, ancient, mediaeval, and modern, which have informed the development of English literature. PROFESSOR ROBINSON

120-E28B (201B). SURVEY OF ENGLISH LITERATURE. (3 credits.) The function of this course is to introduce the student to the major authors and periods of English literature. The approach is chronological with an emphasis on forms of transformation from one historical epoch to another. Periods covered: continuation from 18th Century to the present. PROFESSOR BOUCHARD

120-E29A, B (202A, B). COMMUNICATIONS, LITERATURE AND SOCIETY. (3 credits.) An introduction to communication theory, verbal and non-verbal communication. The objective of this modular course is to give the student a fundamental understanding of the communications process and its relationship to literature and society. PROFESSOR LAFON

120-E30B (209B). THE ENGLISH NOVEL OF THE 19TH CENTURY. (3 Credits.) A study of themes and techniques in the late 19th Century novel. PROFESSOR BRUCE

120-E31B (219B). POETRY OF THE 20TH CENTURY. (3 Credits.) Part II: A survey of modern poetry, British and American, in the age of Auden, Thomas and Lovell. PROFESSOR HEUSER

120-E32B (229B). CANADIAN LITERATURE. (3 credits.) This session: The development of prose literature in Canada from the beginnings to the present time. Particular emphasis will be placed on the 20th Century work. PROFESSOR CONWAY

120-E33B (231B). AMERICAN LITERATURE. (3 credits.) A study of Whitman, Dickinson, James, Twain, Frederic — Realism before 1900. PROFESSOR SIMON

120-E34A, B (203A, B). COMMUNICATIONS, LITERATURE AND SOCIETY. *(Prerequisite:* E29A.) A further exploration of the communication process with emphasis on individual work in the theoretical or practical aspects of communication. (Modular course.) PROFESSOR LAFON

120-E36B (237B). COMEDY. (3 credits.) An investigation of the nature of Comedy, from 1750 to the present. The course is concerned with theory and explanations, and approaches the subject simultaneously from formal and psychological standpoints. PROFESSOR RUBIN

120-E37B (211B). SHAKESPEARE. (3 Credits; *Prerequisites:* E19A, E19B, or permission of instructor.) An intermediate course on Shakespeare, stressing the development of his dramatic technique and including the non-verbal elements of drama: music, dance, and symbolic spectacle. PROFESSOR DAVISON

120-213D. HISTORY OF THE THEATRE I. (6 credits.) The history of primitive and ritual theatre; the rise of the theatre in the Far East; the theatre of Greece and Rome; the theatre in Europe to the Italian Renaissance. PROFESSOR RIPLEY

120-233A, B. THE STRUCTURE OF THE ENGLISH LANGUAGE. (3 credits.) Introduction to the linguistic study of the English language and its application to the study of literature. This course will be presented in modular form (i.e. in independent study units).

120-234A, B. THE HISTORY OF THE ENGLISH LANGUAGE. (3 credits; *Prerequisite:* Eng. 233 or Ling. 200.) Introduction to the linguistic study of the English language and its application to the study of literature, continued.

120-238A, B. THE ENGLISH LANGUAGE AND THE STUDY OF LITERATURE. (3 credits. Eng. 233 or Ling. 200.) Introduction to the linguistic study of the English language and its application to the study of literature, continued. STAFF

120-251D. ANGLO-SAXON LITERARY CULTURE. (6 Credits; Not open to students who have taken 320A and 321B.) An introductory course comprising of the reading of texts in translation, some learning of Old English, and a consideration of the literature in its social and cultural milieu. PROFESSOR CONWAY

120-274D. THE 19TH CENTURY. (6 Credits.) 19th Century English poetry and prose. The main emphasis will be on major Romantic and Victorian poets. PROFESSOR COLE

120-275D. FUNDAMENTALS OF DRAMA AND THEATRE. (6 credits.) Required course for students taking the concentration in theatre. PROFESSOR RIPLEY

120-290D. HONOURS TUTORIAL I. (6 credits.) Archival and Informational Skills. PROFESSOR BRISTOL

120-295D. HONOURS TUTORIAL I. (Alternate. 6 credits.) Much of the work will centre on a writer's time and life. Emphasis: biography, bibliography and textual study. PROFESSOR LINDEMAN

300-LEVEL COURSES

DCS, or its equivalent, is prerequisite for admission to 300 and 400 level courses.

120-301D. MODES OF COMMUNICATION. (6 Credits.) Studies in modern poetry, fiction, film and media, with emphasis on pattern recognition and configuration. The work begins with Whitman's *Leaves of Grass.* PROFESSOR McPHERSON

120-302A. STUDIES IN THE HISTORY OF THE FILM. (3 credits.) I. In 1973-74: Buster Keaton and the Comedy of Silence. PROFESSOR OHLIN

120-303B. STUDIES IN THE HISTORY OF THE FILM. (3 credits.) II. In 1973-74: The Self-Reflexive Film 1960-70. PROFESSOR OHLIN

120-304D. CARIBBEAN LITERATURE. (6 credits.) A study of representative works of the major Caribbean writers and of the trend towards an authentic Caribbean expression. PROFESSOR ELLIOTT

120-305D. STUDIES IN ANGLO-IRISH LITERATURE. (6 credits.) A study of James Joyce's *Dubliners, Portrait of the Artist,* and *Ulysses.* PROFESSOR RONSLEY

120-306D. THIRD WORLD LITERATURE. (6 credits.) A study of significant literary works from Africa, the Caribbean and South America (published or translated in English) in the

historical context of a sensibility, and an inner and outer landscape particular to the peoples and artists of the third world. PROFESSOR DORSINVILLE

120-307D. SPECIAL TOPICS OF LITERARY STUDY. (6 credits.) For 1973-74, a study of folk and minstrel poetry in their relations to British and North American Origins. PROFESSOR GOLDBERG

120-308D. THE GREAT WRITINGS OF EUROPE 1850-1950. (6 credits.) A study of French, German, etc. masterworks in the context of their national cultures. PROFESSOR ROBINSON

120-309A. SPECIAL TOPICS OF LITERARY STUDY. (3 credits.) Analysis of Style: an intensive study of selected passages from great English writers with a view to developing a technique for the analysis of style. PROFESSOR ROBINSON

120-310D. ENGLISH POETRY FROM 1500-1660 (excluding drama). (6 Credits.) The subject of the course will be the "Literature of Desire" in the lyrics and sonnet sequences of the period. PROFESSOR BOUCHARD

120-314D. THE MODERN NOVEL. (6 credits.) A careful study of major novels of the English language written in the 20th Century. Study includes the conditions out of which 20th Century fiction grew, as well as technical challenge and how various writers met them. PROFESSOR MacLENNAN

120-317A. A MAJOR ENGLISH POET. (3 credits.) Robert Browning. PROFESSOR SIMON

120-318D. STUDIES IN 20TH CENTURY LITERATURE. (6 Credits.) A select number of poems to be researched and interpreted, and a close study of four novels: *A Room with a View, The Good Soldier, Tropic of Cancer, Pale Fire.* PROFESSOR DUDEK

120-319A. STUDIES IN 20TH CENTURY LITERATURE. (3 Credits.) In 1973-74: the poems of Wallace Stevens; emphasis on *The Man with the Blue Guitar* and later poems. PROFESSOR CECIL

120-320A. ENGLISH LANGUAGE PROSE LITERATURE PRIOR TO THE NORMAN CONQUEST. (3 credits.) A study of Old English language and the reading of selected prose texts. PROFESSOR CONWAY

120-321B. ANGLO-SAXON POETRY, with emphasis on BEOWULF. (3 credits. *Prerequisite:* 320A or equivalent.) Further study of the language, and the reading of selected poetic texts. PROFESSOR CONWAY

125-325A. ELIZABETHAN DRAMA. (3 Credits.) Elizabethan Drama (exclusive of Shakespeare) including Marlowe, Kyd, Dekker, Jonson. Theatre History, Development of English Stage, Changing concepts of Comedy and Tragedy. PROFESSOR DAVISON

120-326B. JACOBEAN DRAMA. (3 credits.) A survey of representative examples of Jacobean drama, including works of Webster, Tourner, Marston and others. PROFESSOR DUER

120-327D. AESTHETIC THEORIES OF DRAMA AND DRAMATIC CRITICISM. (6 credits.) A theoretical study of drama and theatre as forms of human presentation based on the experience of reading plays and seeing productions. PROFESSOR TEMBECK

120-329D. THE MODERN DRAMA. (6 credits.) A study of major plays from Realism to Epic (1880-1960). PROFESSOR TEMBECK

120-333D. ENGLISH PROSE FROM BACON TO THE PRESENT. (6 credits.) The course traces the development of English prose expression, showing how the powers of the language have become enlarged as writers have responded to the challenge of new ideas and new inventions in writing techniques. Authors representative of each period are studied in detail. PROFESSOR MacLENNAN

120-334A. 20th CENTURY AMERICAN POETRY. (3 credits.) Modern American Poetry: a study of representative works of the major 20th Century American poets. PROFESSOR ELLIOTT

120-335D. MODERN NORTH AMERICAN FICTION. (6 Credits.) A study of short and long fiction by representative Canadian (French and English) and American writers, with special emphasis on the 20th Century. PROFESSOR ELLIOTT

120-336A. 20th CENTURY DRAMA. (3 credits.) A study of selected plays against their intellectual backgrounds. PROFESSOR SIMON

120-338D. INTRODUCTION TO THE FILM. (6 credits.) PROFESSOR ROCKMAN

120-342D. THE ART OF POETRY. (6 credits.) PROFESSOR GOLDBERG

120-343B. THE SHORT STORY. (3 credits.) A study of the significant trends in short story writing, with special emphasis on the works of American, Canadian and British authors. PROFESSOR ELLIOTT

120-344D. LITERATURE AND SCIENCE. (6 credits.) The evolution of man's sense of his relation to his environment, as reflected in the literature of different periods, read in the light of parallel developments in the history of science and philosophy. PROFESSOR WEEMS

120-345D. LITERATURE AND SOCIETY. (6 credits.) A study of the manner in which women are portrayed in different kinds of literature by different authors at different times. PROFESSOR BRUCE

120-346D. CREATIVE WRITING (ADVANCED). (6 credits.) Registration is strictly limited to those who can prove evidence of special talent in original composition. Students must have the instructor's permission to take this course. The course is restricted to poets for 1973-74.
PROFESSOR REICHERTZ

120-347A. STUDIES IN A LITERARY FORM. (3 credits.) The Dramatic Monologue: Robert Browning, Tennyson, Pound, Frost, Eliot, Richard Howard, and their contemporaries.
PROFESSOR SIMON

120-348B. STUDIES IN A LITERARY FORM. (3 credits.) In 1973-74: Storytelling. Oral tradition and transmission of stories; origins and types of stories; the art of telling and collecting stories; the uses of stories in the classroom. PROFESSOR LIEBLEIN

120-349D. THE FILM. (6 credits.) A study of the experimental film from its beginnings to the present; emphasis in first term on historical development and in second term on individual film artists. Attendance at weekly screening is essential. PROFESSOR WEES

120-352D. ART AND LITERATURE. (6 credits.) An exploration of relationships between literature and the visual arts. Topics include Homeric epic and Greek art; mediaeval narrative art and Gothic architecture; Renaissance romances; Impressionism; and political art of the 1930's.
PROFESSOR DAVISON

120-353A. ENGLISH LITERATURE FROM 1660 - 1800. (3 credits.) (Exclusive of drama and novel.) PROFESSOR BUITENHUIS

120-355A. RESTORATION AND 18th CENTURY DRAMA. (3 credits.) Representative English plays from Etherege to Sheridan, with some reference to Shakespearian adaptations.
PROFESSOR CECIL

120-356B. DRAMA OF THE VICTORIAN AND EDWARDIAN AGES. (3 credits.) Representative English plays from Byron to Galsworthy, with extended consideration of Bernard Shaw.
PROFESSOR CECIL

120-360D. THE DEVELOPMENT OF PROSE FICTION IN CANADIAN LITERATURE. (6 credits.) A survey of representative Canadian writers of prose fiction from the early 19th Century to the present. PROFESSOR LAFON

120-372D. SHAKESPEARE. (6 credits. *Prerequisite:* English 212.) A consideration of the main topics of concern in Shakespearean criticism and discussion of a range of plays not covered in English 212. PROFESSOR FRYE

120-373B. FILMMAKING. (3 credits.) Theoretical aspects of film approached through solving problems in shooting, editing, and making sound tracks for short 16mm, black and white films. Previous experience in filmmaking desirable. Students must apply for admission to the course on forms available in the departmental office (Arts 155), and must have permission of the instructor before enrolling in the course. PROFESSOR WEES

120-377D. MODERN THEATRE PRACTICE. (6 credits. Admission by permission of the Instructor.) An introduction to design — the media and objectives. The setting — its form, construction, assembly, and control. Costumes — their design and execution. An examination of the non-scripted elements in the theatre experience and their relationship to the spoken text.
D. HOFFMAN

120-379D. THEATRE LABORATORY. (6 credits.) Exploration of the uses of Drama and in particular the interconnections that exist between theatre and politics. The main work of the course will be focussed on a production of a play to be chosen in consultation with the class, to be presented by the Department of English, Spring 1974. (Students in this course must register in one co-requisite course. Consult Departmental Handbook for details.)
PROFESSOR BRISTOL

120-380A. INDIVIDUAL READING COURSE. (3 credits.) STAFF

120-381B. INDIVIDUAL READING COURSE. (3 credits.) STAFF

120-382A. CHAUCER: CANTERBURY TALES. (3 credits.) A study of Chaucer and the *Canterbury Tales* in the context of the intellectual, aesthetic, and social milieu of the Middle Ages. PROFESSOR WILLIAMS

120-383B. CHAUCER: TROILUS AND CRISEYDE. (3 credits.) A study of Chaucer and Troilus and Criseyde in the context of the intellectual, aesthetic, and social milieu of the Middle Ages. PROFESSOR WILLIAMS

120-390D. HONOURS TUTORIAL II. (6 credits.) Linguistic or Symbolic Analysis.
PROFESSOR OHLIN

120-395D. HONOURS TUTORIAL II. (Alternate. 6 credits.) Approaches to Literature, Drama and Film. PROFESSOR REICHERTZ

120-401D. SATIRE. (6 credits.) Study of the genre in the works of the major satirists (Horace, Juvenal, Rabelais, Cervantes, Molière, Swift, Huxley, Orwell, etc.) PROFESSOR KLIMA

120-410D. STUDIES IN THE MASS MEDIA. (6 credits; Admission by permission of the instructor.) This course rests on the assumption that, although the students have seen many hours of television and may have produced a television presentation, they do not understand how to manipulate the medium and its varied technical apparatus to achieve a *pre-determined* end. The course, therefore, will stress two things: a) skill training in the manipulation of television equipment; and b) the application of a systematic approach to television communication design.

120-480A. INDIVIDUAL READING COURSE. (3 credits.) STAFF

120-481B. INDIVIDUAL READING COURSE. (3 credits.) STAFF

120-484D. THE 17TH CENTURY. (6 Credits; *Prerequisite:* a course in 16th or 17th Century literature, or permission of the instructor.) Readings in the works of Donne, Herbert, Marvell, Andrewes, Bacon, Browne. PROFESSOR MALLOCH

120-487B. THE 20TH CENTURY. (3 Credits.) For 1973-74: A study of the works of Virginia Woolf. PROFESSOR RONSLEY

120-490D. HONOURS TUTORIAL III. (6 credits.) Historical Analysis. PROFESSOR THEALL

120-494D. THE 18TH CENTURY. (6 Credits.) A study of the major writers with emphasis on the changing intellectual background of the age. PROFESSOR KLIMA

120-495D. HONOURS TUTORIAL III. (Alternate. 6 credits.) History of Literary Theory and Criticism and Aesthetics. PROFESSOR HEPPNER

120-496D. INTERDISCIPLINARY SEMINAR IN NORTH AMERICAN STUDIES. (3 credits.) PROFESSOR BUITENHUIS

CONFERENCE COURSES

These courses are designed to give students an opportunity to study in depth major works of literature, or the works of individual authors, or literary forms or themes.

Enrolment in each course is normally restricted to twelve, and students must obtain the permission of the instructor before registration. Students should consult the Department for the specific topics of the conference courses to be offered.

120-452A. 16th CENTURY. (3 credits.) A study of the works of Christopher Marlowe. Attention may be given to some works by Kyd and Webster. PROFESSOR LINDEMAN

120-456A. 18th CENTURY. (3 credits.) Blake: the course will study Blake's works up to and including *Milton,* focussing on Blake's theories of perception and the imagination and on the interrelationship between word and design in the poems. PROFESSOR HEPPNER

120-457A. 19th CENTURY. (3 credits.) The novels of Jane Austen. PROFESSOR MALLOCH

120-458B. 20th CENTURY. (3 credits.) The novels of William Faulkner. PROFESSOR RUBIN

120-461B. AMERICAN LITERATURE. (3 credits.) The poetry of T. S. Eliot and some of the plays. PROFESSOR MATHEWSON

120-463A. CANADIAN LITERATURE. (3 credits.) Themes in English Canadian and French Canadian fiction. PROFESSOR COLE

120-466A. LITERARY FORMS. (3 credits.) Allegory: an attempt to examine certain works of mediaeval literature not as examples of literary genre, but as examples of a mode of thought paradigmatic for an entire culture. The evolution and disappearance of that mode. PROFESSOR WEEMS

120-468A. LITERARY THEMES. (3 credits.) Love, Time and Death in the Poetry of Emily Dickinson. PROFESSOR RUBIN

The following courses are cross-listed with the Department of English and may be taken as part of a Major or an Honours program in English:

135-351B. STUDIES IN MODERN JEWISH FICTION. (See Jewish Studies Program, page 119). PROFESSOR LINDEMAN

166-217A. SOCIAL ASPECTS OF MASS COMMUNICATIONS. (See Sociology Department, page 154). PROFESSOR ROCKMAN

GRADUATE COURSES

Graduate courses in English are open to final year undergraduates with special permission. (See the *Announcement of the Faculty of Graduate Studies and Research* for full descriptions of these courses.)

COURSES NOT GIVEN IN 1973-74.

These are offered from time to time by the Department of English.

E22D (221D) The Great Writings of Europe, 1550-1850

E35A (236A) Comedy

215D History of the Theatre II
232D Voice and Speech I
246D Creative Writing (Intermediate)
250D Approaches to Literary Study
311A Studies in Science Fiction
313D Literature and Film
315B Milton

Administration Générale

100 Peterson Hall
3460 McTavish
Montréal 112

Tél.: 392-4577 ou 3003 ou 4591

Directeur: Prof. John Greer Nicholson
Tél.: 392-4591

Comité des Etudes Sous-Graduées — 126 Peterson Hall
Président: Prof. Georges Pomet (en congé 1973-74)
Tél.: 392-4671

Secrétaire: Jeanne Belluteau (Mlle)
Tél.: 392-4670 ou 4671

Comité des programmes "Honneurs"
Prof. Michael Cartwright
Prof. Jean-Pierre Duquette
Prof. Georges Pomet
Prof. François Ricard

Conseillers — Programme "Major"

Littérature française ..... Prof. Smith
Littérature québécoise ..... Prof. Vigneault
Langue et civilisation françaises ..... Prof. Cartwright

Conseiller des étudiants

Prof. Russell G. McGillivray
324 Peterson Hall
Tél.: 392-4495

Généralités

Le Département de Langue et Littérature Françaises de McGill offre un éventail de cours qui couvre, d'une manière aussi complète et approfondie que possible, l'ensemble des littératures française et québécoise, de même qu'un certain nombre de problèmes touchant à la langue, la méthodologie littéraire, la stylistique et la traduction.

Depuis longtemps, le Français est la seule "langue de travail" à l'intérieur du Département. Les francophones constituent une proportion importante de nos étudiants. Ceci représente un avantage appréciable pour les anglophones qui peuvent faire leurs études dans un milieu essentiellement français.

Une grande diversité de points de vue quant aux techniques d'enseignement et à la méthodologie littéraire existe parmi les professeurs du Département. Nous veillons à ce que les étudiants soient en contact avec le plus grand nombre de professeurs possible, durant le cours de leurs études, de façon à ce qu'ils puissent bénéficier d'une multiplicité d'"approches".

Programmes Spécialisés

Le Département offre deux types de spécialisation qui conduisent à l'obtention de deux diplômes de Baccalauréat:

— un diplôme de B.A. avec "Honneurs" en Français

— un diplôme de B.A. avec "Major" en Français

Ces deux programmes se subdivisent en plusieurs concentrations.

LE PROGRAMME "HONNEURS"

Admission

Pour être admis dans le programme "Honneurs" un étudiant doit avoir fait la concentration "Français" au CEGEP et avoir obtenu de bons résultats dans ses cours. Son dossier sera examiné par un Comité de Professeurs du Département. Les étudiants provenant d'institutions anglophones seront, en principe, admis en "Honneurs" à la fin de leur première année universitaire seulement.

Information générale sur le programme "Honneurs"

Pour obtenir un diplôme "Honneurs" de la Faculté des Arts de McGill, un étudiant doit concentrer ses études à l'intérieur d'un programme approuvé qui met en jeu un nombre minimum de cours dont certains peuvent être obligatoires. En principe, cet ensemble de cours doit être pris dans un seul département; toutefois, il existe plusieurs programmes d'"Honneurs Conjoints", dont nous parlerons plus loin.

Au Département de Français, le programme d'"Honneurs" exige un minimum de dix cours — avec la possibilité de suivre un "Tutorial" individuel durant la dernière année — dont quatre sont obligatoires. Une autre exigence du programme est d'obtenir une note d'au moins 65% dans chaque cours de Français.

Que donne un diplôme d'"Honneurs"?

Avant tout, un "B.A. Honneurs" est une préparation à des études supérieures en Français (Maîtrise et Doctorat). Dans cette perspective, nous offrons à l'étudiant une base solide dans les études françaises en même temps que nous l'engageons dans la voie d'une spécialisation. Ces deux aspects complémentaires du programme expliquent la présence de cours obligatoires et la possibilité pour l'étudiant de faire un travail individuel (Tutorial) en fin d'études. Quelle que soit l'orientation future de l'étudiant, le Département veille à ce que le programme du cours de chacun soit établi en consultation avec le Comité des Etudes Sous-Graduées (C.E.S.G.) de façon à ce qu'il soit cohérent et manifeste une certaine unité d'ensemble.

Cours obligatoires dans le programme "Honneurs"

Les étudiants inscrits dans le programme "Honneurs" doivent suivre les cours Fr. 290D et Fr. 390D.

Ceux qui font leur concentration en littérature française doivent suivre un minimum de deux cours portant sur un sujet antérieur au XIXe siècle.

Ceux qui se spécialisent en littérature québécoise doivent suivre le cours Fr. 264D et un cours portant sur la littérature française du XIXe siècle.

Tous les étudiants d'"Honneurs" doivent suivre un cours au moins par année hors du Département.

"Honneurs Conjoints"

En consultation avec les départements concernés, un étudiant peut suivre un programme d'"Honneurs Conjoints", ce qui représente un total de trente-six crédits — six cours "D" sur trois ans.

S'adresser au Président du Comité des Etudes Sous-Graduées du Département de Français.

LE PROGRAMME "MAJOR"

Généralités

Le programme "Major" vous permet d'acquérir un baccalauréat spécialisé en Français selon les normes établies par le Ministère de l'Education.

La concentration "Major" exige moins de cours que celle d'"Honneurs" et vous permet ainsi une plus grande variété de matières étudiées et une plus grande souplesse dans l'établissement de votre programme.

L'étudiant "Major" doit suivre, durant sa scolarité, un minimum de sept cours dans le Département.

Les cours obligatoires varient suivant le type de concentration choisi à l'intérieur du programme.

A quoi sert un B.A. "Major in French"?

La plupart de nos étudiants "Major" se destinent à une carrière dans l'enseignement, principalement au niveau secondaire. Ils complètent leur *B.A. Major* par une année de pédagogie qui leur permet d'obtenir leur qualification de professeur. Cette année supplémentaire peut s'effectuer à McGill ou ailleurs. Beaucoup poursuivent des études graduées dans d'autres universités, surtout aux Etats-Unis.

Les différents programmes "Major"

Trois options existent dans le Département pour les étudiants "Major":

— Littérature française
— Langue et civilisation françaises
— Littérature québécoise

Quelle que soit l'option choisie, nous encourageons nos étudiants à harmoniser leur programme de cours au Département avec des cours suivis à l'extérieur de celui-ci: Langues modernes - Sciences Sociales - Psychologie ou Linguistique.

Vos chances d'admission dans un programme gradué sont meilleures si votre "Transcript" montre que vos études ont été rationnellement structurées.

Cours obligatoires communs aux trois options

Tous les étudiants "Major" doivent suivre, en U1, un des deux cours suivants:

— Fr. 245D s'ils sont anglophones
— Fr. 247D s'ils sont francophones

En U2, les anglophones suivent le Fr. 347D et les francophones le Fr. 345D.

Cours obligatoires dans les différentes options

Littérature française: deux cours portant sur la littérature française avant 1800

Langue et civilisation françaises: les cours Fr. 241D - 341D - 441D

Littérature québécoise: le cours Fr. 229D

Traduction

Le Département n'offre pas encore de programme complet de traduction au niveau sous-gradué.

Toutefois, un certain nombre de cours de langue et de traduction offerts par le Département peuvent se combiner avec des cours donnés dans d'autres départements (Anglais - Linguistique - Psychologie, etc.) et des programmes *ad hoc* peuvent être arrangés pour des étudiants qui souhaiteraient poursuivre leurs études en traduction dans des écoles spécialisées au niveau de la maîtrise (université de Montréal - Genève - Paris - etc.).

Cours de Niveau Collégial

Language Courses for *students from outside the Province of Québec,* as well as *Functional French,* are listed under FRENCH AS A SECOND LANGUAGE, page 102.

College Equivalent Quebec students, whether they satisfy the Language Requirement in French or in another language, were required to pass a FRENCH TEST before the end of their first year at McGill. Students who failed this test must enrol in a half course in Oral French in Second year.

Students with a mark of 80% or more in Oral French on the High School leaving examinations will be considered to have displayed competence in French and need not take the French Test nor enrol in a French course if they satisfy the Language Requirement in another language.

Students whose oral mark is less than 75% should have taken al least a half course in *Français parlé* in their First College Equivalent year.

COURS DE 2e ANNEE (CEGEP-II)

126-150A. FRANÇAIS PARLE. (3 Crédits; Premier semestre; Ouvert seulement aux étudiants québécois qui ont échoué au French Test en 1972-73.)

126-151D. LITTERATURE FRANÇAISE. (6 Crédits; Cours annuel; *Textes* — Racine, *Phèdre:* Bordas; Molière, *Les Femmes Savantes:* Bordas; Voltaire, *Zadig:* Bordas; Abbé Prévost, *Manon Lescaut:* Bordas; Baudelaire, *Les Fleurs du Mal:* Bordas; Flaubert, *Madame Bovary:* Livre de Poche; Giraudoux, *La guerre de Troie n'aura pas lieu:* Livre de Poche; J.-P. Sartre, *Huis-Clos:* Poche). Etude des principaux courants littéraires, du XVIIe au XXe siècle. Ce cours n'est pas ouvert aux étudiants qui ont pris le cours 119D en 1972-73 ni à ceux qui ont obtenu moins de 75 dans leur cours de 1ère année.

126-152D. LITTERATURE FRANÇAISE MODERNE ET CONTEMPORAINE. (6 Crédits; Cours annuel.) Etude de quelques œuvres majeures du XXe siècle.

126-153A. LITTERATURE FRANÇAISE CONTEMPORAINE. (3 Crédits, Premier semestre.) Etude de quelques œuvres marquantes, de 1930 à nos jours.

126-154B. LITTERATURE FRANÇAISE CONTEMPORAINE. (3 Crédits; Deuxième semestre). Etude de quelques œuvres marquantes, de 1930 à nos jours.

126-155D. THEATRE EN ACTION. (6 Crédits; Cours annuel.) Les étudiants de ce cours seront appelés à monter et à interpréter une ou plusieurs pièces du théâtre contemporain.

126-157D. LITTERATURE QUEBECOISE CONTEMPORAINE. (6 Crédits; Cours annuel; *Textes:* Ferron, *Contes;* Bessette, *Le Libraire;* J. Renaud, *Les Insolences du Frère Untel;* Claire Martin, *Avec ou sans Amour;* Marie-Claire Blais, *Une Saison dans la vie d'Emmanuel;* Hubert Aquin, *Prochain Episode.)* Depuis 1960, la littérature québécoise connaît un véritable renouvellement. Dénonciatrice des tabous du passé, elle fait la critique de toute la société et force à une prise de conscience le peuple québécois.

126-158A. LITTERATURE QUEBECOISE CONTEMPORAINE. (3 crédits; Premier semestre; *Textes* — Gratien Gélinas, *Bousille et les Justes:* Ed. de l'Homme; Marie-Claire Blais, *Une saison dans la vie d'Emmanuel:* Les Romanciers du jour; Pierre de Grandpré, *La Patience des Justes:* Ed. du Renouveau pédagogique; Jacques Godbout, *Salut Galarneau:* Le Seuil). La contestation des mythes sociaux. Par opposition à la littérature traditionnelle dépeignant une société idéalisée, les œuvres contemporaines nous montrent l'éclatement d'un certain système de valeurs, la remise en question des traditions devenues trop fréquemment des conventions vides de sens.

126-159B. LITTERATURE QUEBECOISE CONTEMPORAINE. (3 crédits; Deuxième semestre; *Textes:* André Langevin, *Poussière sur la ville:* Le Cercle du livre de France; Claire Martin, *Doux-Amer:* Livre de poche canadien; Anne Hébert, *Les chambres de bois:* Le Seuil; Françoise Loranger, *Encore cinq minutes:* Cercle du livre de France). L'amour dans la littérature

contemporaine. Thème qui acquiert une grande importance dans la littérature québécoise actuelle. Le thème de l'amour est fréquemment associé à celui de liberté revendiquée par la femme qui ne veut plus être considérée uniquement comme mère et comme épouse.

126-160A. LITTERATURE QUEBECOISE CONTEMPORAINE. (3 crédits; Premier semestre; *Textes* — Ringuet, *Trente Arpents;* G. Roy, *Alexandre Chenevert;* Marie-Claire Blais, *Une Saison dans la vie d'Emmanuel.)* Quel est le sens du mot "pays" au Québec? Quelle est la nature spécifique de la culture française dans le développement de la vie américaine? Comment les écrivains québécois ont-ils réussi à situer ce problème?

126-161B. LITTERATURE QUEBECOISE CONTEMPORAINE. (3 crédits; Deuxième semestre; *Textes:* Lemelin, *Les Plouffe;* J. Benoît, *Les Voleurs;* G. Choquette, *L'Apprentissage.)* A travers trois œuvres contemporaines on étudiera l'évolution du système de valeurs dans les dernières années et on s'attachera tout particulièrement aux problèmes qui concernent la famille et la jeunesse.

126-162A. LITTERATURE QUEBECOISE CONTEMPORAINE. (3 crédits; Premier semestre; *Textes* — G. Roy, *Bonheur d'Occasion:* Choix de textes d'Albert Laberge; Emile Nelligan, *Poèmes choisis:* Fides). Vers le milieu du XXe siècle, les paysans canadiens émigrent en ville. On assiste alors à une remise en question de valeurs telles que la religion et la culture. Certains romans et poèmes reflètent tout particulièrement cette transformation.

126-164A. CIVILISATION QUEBECOISE. (3 crédits; Premier semestre; *Ouvrages recommandés* — Conférences de J. A. de Sève, *Peinture canadienne-française:* Les presses de l'Université de Montréal; Viau, Guy, *La peinture moderne au Canada français:* Ministère des Affaires culturelles, Québec, 1964.) Peinture. L'Ecole de Montréal (1940 jusqu'à nos jours). Un éclatement des valeurs agite le Québec depuis les années 1940-1960. Depuis le *Refus Global* de Borduas, surréalistes, automatistes et plasticiens poursuivent cette recherche d'une libération nouvelle dans la réalisation plastique.

126-165B. CIVILISATION QUEBECOISE. (3 Crédits; deuxième semestre; *Ouvrages recommandés* — Gilles Marsolais, *Le cinéma canadien:* Editions du Jour; Dominique Noguez, *Essais sur le cinéma québécois:* Editions du Jour, Montréal 1971). Cinéma québécois, miroir d'une société. La majeure partie du cinéma canadien se fait au Québec. Le cinéma-vérité a contribué à créer un "style" québécois dans un contexte socio-politique déterminant. Portraits de la jeunesse, polémiques, documents de géographie humaine y tiennent un rôle de "premier plan".

126-166D. HISTOIRE DE LA LITTERATURE FRANÇAISE. (6 Crédits; Cours annuel.) Cours avancé recommandé aux étudiants qui désirent poursuivre des études littéraires au niveau universitaire.

126-167D. COURS DE GRAMMAIRE ET DE COMPOSITION FRANÇAISES. (6 Crédits; Cours annuel). Ce cours s'adresse aux étudiants désireux de parfaire leur connaissance du français écrit au moyen de compositions, de traductions et d'analyses de textes.

Cours de Niveau Universitaire

126-220A. FRANÇAIS ECRIT I. Ce cours est destiné à améliorer la maîtrise de la langue écrite. Il consiste en un approfondissement de la grammaire ainsi qu'en une utilisation systématique des ressources stylistiques en français. PROFESSEUR STEEDMAN

126-221B. FRANÇAIS ECRIT II. *(Prérequis:* 126-220 sauf permission du C.E.S.G.) Ce cours est destiné à améliorer la maîtrise de la langue écrite. Il consiste en un approfondissement de la grammaire ainsi qu'en une utilisation systématique des ressources stylistiques du français. PROFESSEUR STEEDMAN

126-223A. LITTERATURE FRANÇAISE MODERNE. Etude de quelques œuvres parmi les plus marquantes de la littérature française du XXe siècle. Ce cours s'adresse aux étudiants qui ne sont pas inscrits dans un des programmes du Département (Major - Honours) mais qui désirent suivre un demi-cours en français sur la littérature moderne. STAFF

126-224B. LITTERATURE FRANÇAISE CONTEMPORAINE. *Prérequis:* 126-223A sauf permission du C.E.S.G. Etude de quelques œuvres parmi les plus marquantes de la littérature contemporaine. Ce cours s'adresse aux étudiants qui ne sont pas inscrits dans un des programmes du Département (Major - Honours) mais qui désirent suivre un demi-cours en français portant sur la littérature contemporaine. M. MAUGEY

126-225D. LE ROMAN APRES 1945. Dans ce cours on essaiera de dégager les grands problèmes d'ordre technique et philosophique du roman "existentialiste" et du "nouveau roman". On se servira d'analyses serrées de textes en classe pour faire ressortir les traits essentiels de chaque roman et diverses approches critiques. STAFF

126-227A. INTRODUCTION A LA LITTERATURE QUEBECOISE I. Ce cours proposera l'étude des œuvres les plus significatives de la littérature québécoise afin d'arriver à une meilleure compréhension de la société québécoise d'hier et d'aujourd'hui. STAFF

126-228B. INTRODUCTION A LA LITTERATURE QUEBECOISE II. *Prérequis:* 126-227A sauf permission du C.E.S.G. Ce cours proposera l'étude des œuvres les plus marquantes de la littérature québécoise afin d'arriver à une meilleure compréhension de la société québécoise d'hier et d'aujourd'hui. STAFF

126-229D. INITIATION A LA LITTERATURE QUEBECOISE. Réservé aux étudiants MAJOR. PROFESSEUR SMITH

126-231D. LE ROMAN AUX TEMPS ROMANTIQUES. Etude des différents "visages" du romantisme littéraire français par les œuvres les plus marquantes d'écrivains tels que Stendhal, Constant, Balzac, Sand, Hugo, Mérimée. PROFESSEUR MORISOT

126-235D. HISTOIRE DU CINEMA EN FRANCE. En même temps qu'une rétrospective du cinéma français des origines à nos jours et de ses principaux "auteurs", ce cours se propose d'aborder l'étude des genres cinématographiques à partir d'exemples français. M. JULIEN

126-236A. LA LITTERATURE FRANÇAISE DU XVIIe SIECLE I. Les étudiants qui ont une idée générale de la littérature française pourront approfondir le 17e siècle dans ses différents aspects essentiels par une lecture approfondie d'œuvres intégrales ou de morceaux choisis assez étendus. Les étudiants devront préparer des explications de textes précises et rédiger quatre ou cinq devoirs dans le semestre sans compter de courtes interrogations en classe. MIle CHAMPIGNEUL

126-237B. LA LITTERATURE FRANÇAISE DU XVIIe SIECLE II. *Prérequis:* 126-236A sauf permission du C.E.S.G. Les étudiants qui ont une idée générale de la littérature française pourront approfondir le 17e siècle dans ses différents aspects essentiels par une lecture approfondie des œuvres intégrales ou de morceaux choisis assez étendus. Les étudiants devront préparer des explications de textes précises et rédiger quatre ou cinq devoirs dans le semestre sans compter de courtes interrogations en classe. MLLE CHAMPIGNEUL

126-238A. INTRODUCTION A LA LITTERATURE NOIRE D'EXPRESSION FRANÇAISE. Origine particulière de la littérature antillaise et africaine. Ce cours portera principalement sur le mouvement de la négritude et sur ses chantres, à savoir Aimé Césaire, Léopold Sédar Senghor, Léon Gontran Damas, et Jacques Rabemanajara. De même l'étudiant sera introduit dans l'univers romanesque et théâtral de ces créatures qui apportent au monde une sensibilité et un art nouveaux. M. MAUGEY

126-241D. CIVILISATION FRANÇAISE DE LA RENAISSANCE A LA REVOLUTION. Ce cours a pour but de faire connaître, au moyen de documents divers (livres, diapositives, films), le milieu humain dans lequel la littérature française s'est développée jusqu'à la fin du dix-huitième siècle. Tous les aspects qui peuvent aider les étudiants à situer et à comprendre les œuvres littéraires seront évoqués: histoire de la vie politique, sociale, artistique, matérielle, etc... de la France avant la Révolution. PROFESSEUR TICHOUX

126-245D. STYLISTIQUE COMPAREE DU FRANÇAIS ET DE L'ANGLAIS. Ce cours a pour but d'améliorer la qualité du français écrit des étudiants, en éliminant les fautes dues à l'utilisation de structures et de mots anglais. La méthode consiste à comparer systématiquement les moyens d'expression des deux langues. De nombreux exercices pratiques viendront compléter les explications théoriques. PROFESSEUR TICHOUX

126-247D. LANGAGE ET METHODOLOGIE LITTERAIRE. Réservé aux étudiants francophones. Ce cours offre une étude des phénomènes de synonymie, des effets intellectuels et affectifs, destinée à sensibiliser l'étudiant aux différents niveaux de la langue en français. D'autre part, une acquisition systématique du vocabulaire étudié en contextes vise à l'enrichissement de la langue. Parallèlement à ces exercices de stylistique, on étudiera, à travers leurs textes, les différentes méthodes des principaux représentants de la critique littéraire en France jusqu'à nos jours. Mme PASCAL

126-251A. LE PREROMANTISME. Réservé aux étudiants Honours. A travers les œuvres qui montrent la voie au romantisme, on suivra l'évolution de l'esprit préromantique de Des Grieux à Obermann. Mme PASCAL

126-252B. LA POESIE ROMANTIQUE. Réservé aux étudiants Honours. A l'aube du XIXe siècle, en France, la poésie romantique manifeste l'épanouissement d'un mouvement européen né simultanément en Angleterre et en Allemagne, cinquante années plus tôt. Le cours se situera donc dans cette perspective de la littérature comparée avant de se limiter à la poésie française, étudiée à travers les écrits théoriques et les œuvres majeures. On s'attachera, d'une part, à montrer comment le contexte historique et social a favorisé le développement d'une sensibilité et d'une thématique nouvelles; d'autre part, à souligner la diversité des tendances regroupées sous l'étiquette commune. PROFESSEUR TERRASSE

126-262D. LE ROMAN AU XVIIIe SIECLE. Réservé aux étudiants Honours. L'évolution du roman au cours du dix-huitième siècle. Illustration à l'aide de textes caractéristiques choisis chez les auteurs majeurs des différentes tendances qui se manifestent à l'intérieur du "genre" romanesque: roman philosophique, picaresque, sensible, réaliste, de mœurs, etc. PROFESSEUR FURLAN

126-264D. HISTOIRE DE LA CIVILISATION QUEBECOISE. Réservé aux étudiants Honours. Etude des différentes manifestations artistiques de la civilisation québécoise: Littérature - Peinture - Sculpture - Architecture - Arts décoratifs - Musique - Cinéma.
PROFESSEUR BOUCHER

126-275D. LE ROMAN APRES 1945. Réservé aux étudiants Honours. Autobiographique (Camus, Sartre, Céline), expérimental (Céline, Robbe-Grillet) ou traditionnel (Bazin), le roman moderne ne manque pas de diversité. Ce cours abordera: a) les relations entre l'univers imaginaire des romanciers et l'histoire; b) les techniques de composition propres à chacun des auteurs.
PROFESSEUR SMITH

126-290D. INTRODUCTION A L'ANALYSE TEXTUELLE. Réservé aux étudiants Honours. Introduction à la linguistique et à l'analyse linguistique de textes littéraires. Notions de lexicologie. Les figures du discours. Exercices pratiques sur des textes littéraires de différentes époques et différents genres.
PROFESSEUR ANGENOT

126-312D. LE ROMAN AVANT 1939. L'étude sera orientée vers la recherche d'une définition du genre à travers quelques-unes de ses manifestations dans la littérature française contemporaine. On abordera diverses questions de construction romanesque: personnages, temporalité, décor, psychologie, etc. On examinera: la crise du roman aux lendemains du naturalisme; les voies nouvelles: le roman fleuve, le roman poétique; puis le roman chrétien, le roman dit de la condition humaine et le nouveau roman.
PROFESSEUR RICARD

126-317A. LA POESIE AU XXe SIECLE. L'étude de la poésie française au XXe siècle commencera avec Paul Valéry et les néo-symbolistes. Puis le pseudo-cubisme sera abordée avec Guillaume Apollinaire et P. Reverdy, l'aspect "machiniste-expressioniste" de l'époque étant représenté par Blaise Cendars. Près de ces mouvements, une tendance plus métaphysique sera illustrée par J. Supervielle et Saint-John Perse, tandis que Guillevic, Schéhadé et Michaux nous conduiront à la poésie de notre temps. Les thèmes de la Résistance auront leur place avec Aragon.
PROFESSEUR JONES

126-324A. LA TRAGEDIE CLASSIQUE. Une étude de la dramaturgie classique et des grands auteurs dramatiques, illustrée dans le genre de la tragédie.
PROFESSEUR VAN DELFT

126-329D. LE ROMAN QUEBECOIS CONTEMPORAIN. Etude de l'évolution de la technique romanesque au Québec depuis 1954. Essai et définition du Roman-Poème. Analyse et signification des techniques romanesques utilisées par les romanciers québécois.
PROFESSEUR BOUCHER

126-330A. REALISME ET NATURALISME. De Balzac à Zola et Maupassant: Naissance et développement de la vision réaliste; évolution vers le roman expérimental, et illustration par l'étude d'œuvres significatives.
PROFESSEUR DUQUETTE

126-331B. REALISME ET NATURALISME. *(Prérequis:* 126-331A sauf permission du C.E.S.G.) De Balzac à Zola et Maupassant: Naissance et développement de la vision réaliste; évolution vers le roman expérimental, et illustration par l'étude d'œuvres significatives.
PROFESSEUR DUQUETTE

126-333A. LE THEATRE QUEBECOIS. (Ne sera pas donné en 1973-74.) Etude de pièces représentatives du théâtre québécois contemporain: littérature, langue, société.
STAFF

126-334B. LE CINEMA QUEBECOIS. Etude thématique du cinéma québécois à travers ses principaux films. Les approches seront: poétique, sociologique, psychologique et politique.
M. JULIEN

126-336A. LA LITTERATURE AU XVIIIe SIECLE. Ce cours aura pour but de présenter une image de la société du 18e siècle à travers un éventail de textes. On mettra un premier accent sur le théâtre, genre qui a joui d'une faveur particulière à l'époque et qui rend vite accessible son climat littéraire. Une étude du roman permettra de tracer l'évolution du sentiment au 18e siècle et donnera un aperçu de l'être humain présenté dans le cadre d'un réalisme narratif. Ces deux courants principaux seront complétés par un examen d'ouvrages dits "philosophiques", afin de mettre l'étudiant en rapport avec certaines idées sociales, politiques et scientifiques du siècle des lumières.
PROFESSEUR CARTWRIGHT

126-337B. LA LITTERATURE AU XVIIIe SIECLE. *(Prérequis:* 126-336A sauf permission du C.E.S.G.) Même description que ci-dessus.
PROFESSEUR CARTWRIGHT

126-341D. CIVILISATION FRANÇAISE DE LA REVOLUTION A LA IIIe REPUBLIQUE. Ce cours n'est ni un cours d'histoire, ni de littérature. Il se propose de faire la synthèse de l'histoire politique, économique, sociale et culturelle de la période 1789-1875.
PROFESSEUR LAUNAY

126-342D. EVOLUTION ET STRUCTURES DE LA LANGUE FRANÇAISE. (Ne sera pas donné en 1973-74.) Histoire de la langue française, du bas-latin à la langue moderne. Etude de l'évolution phonétique, syntaxique, sémantique. Etude de textes des différentes époques.
STAFF

126-345D. STYLISTIQUE COMPAREE DU FRANÇAIS ET DE L'ANGLAIS. Par une étude systématique des contrastes entre les structures linguistiques de l'anglais et du français, les étudiants seront amenés d'une part à développer leur sensibilité aux problèmes stylisti-

ques, d'autre part à découvrir, sur le plan théorique et pratique, les principes scientifiques de la traduction. STAFF

126-347D. LANGAGE ET METHODOLOGIE LITTERAIRE. Ce cours s'adresse aux étudiants anglophones. Il offre une étude des phénomènes de synonymie, des effets intellectuels et affectifs, destinés à sensibiliser l'étudiant étranger aux différents niveaux de la langue en français. D'autre part, une acquisition systématique du vocabulaire étudié en contextes vise à l'enrichissement de la langue. Parallèlement à ces exercices de stylistique, on étudiera, à travers leurs textes, les différentes méthodes des principaux représentants de la critique littéraire en France jusqu'à nos jours. Mme PASCAL

126-354B. LA COMEDIE CLASSIQUE. Réservé aux étudiants Honours. En centrant le cours sur l'œuvre de Molière et de ses précurseurs, on étudiera le développement du comique théâtral français du XVIe siècle à la fin du XVIIIe siècle. PROFESSEUR VAN DELFT

126-356D. LA LITTERATURE DE LA RENAISSANCE. Réservé aux étudiants Honours. Un cours panoramique sur la littérature de la Renaissance, de Marot à Montaigne. Les lectures obligatoires seront complétées par des lectures facultatives ayant trait notamment aux courants d'idées et à la poésie. Les étudiants seront en outre invités à entreprendre soit individuellement, soit en petits groupes, une recherches *guidée* sur un sujet qui les intéresse. PROFESSEUR McGILLIVRAY

126-361D. ROMAN QUEBECOIS I. Réservé aux étudiants Honours. Naissance du roman d'aventure et de récit fantastique; étude de mœurs et romans de la terre: évolution du roman paysan. PROFESSEUR DUQUETTE

126-363D. REALISME ET NATURALISME. Réservé aux étudiants Honours. Les "écoles" réaliste et naturaliste dans la seconde moitié du dix-neuvième siècle. Les principes, leurs fondements et leur portée. Illustration, par l'étude systématique d'œuvres caractéristiques des plus grands écrivains, essentiellement des romanciers (Flaubert, Maupassant, Zola, etc.). PROFESSEUR FURLAN

126-364D. LA POESIE QUEBECOISE. Réservé aux étudiants Honours. Panorama de la poésie québécoise des origines à nos jours; nous examinerons les rapports entre poésie et société aux divers moments de l'histoire. Au XIXe siècle: l'école de Québec, Crémazie, Fréchette; au XXe siècle: l'école de Montréal, Nelligan, le poète de la solitude; nous terminerons ce cours en analysant les œuvres majeures du mouvement de l'hexagone; celles de Gaston Miron, de Paul-Marie Lapointe, de Roland Giguère, etc. M. MAUGEY

126-375D. LE ROMAN AVANT 1939. Réservé aux étudiants Honours. Ce cours aura pour objet, en partant des œuvres étudiées, de dégager les tendances principales et fort diverses d'une des grandes époques du roman français. Nous tenterons, en utilisant différentes approches (thématique, psychanalytique, sociologique, etc.) de cerner l'originalité de chaque texte tout en le reliant à la tradition romanesque et aux formes d'aujourd'hui. PROFESSEUR COLLET

126-376A. LE THEATRE AU XXe SIECLE. Réservé aux étudiants Honours. La fantaisie qui suivit la première guerre mondiale sera traitée à travers l'unanimisme de J. Romains et l'impressionnisme de Giraudoux, puis ce sera la gravité de Salacrou et de Claudel. Au terme de la deuxième guerre, on étudiera l'engagement existentialiste chez Sartre, Camus et Genet, avant de considérer l'attitude expressionniste de Ghelderode qui nous conduira au "théâtre de l'absurde". La forme expérimentale de l'expression dramatique sera représentée par Raymond Roussel et par Arrabal. PROFESSEUR JONES

126-377B. LE THEATRE AU XXe SIECLE II. Réservé aux étudiants Honours. *Prérequis:* 126-376A sauf permission du C.E.S.G. La fantaisie qui suivit la première guerre mondiale sera traitée à travers l'unanimisme de J. Romains et l'impressionnisme de Giraudoux, puis ce sera la gravité de Salacrou et de Claudel. Au terme de la deuxième guerre, on étudiera l'engagement existentialiste chez Sartre, Camus et Genet, avant de considérer l'attitude expressionniste de Ghelderode qui nous conduira au "théâtre de l'absurde". La forme expérimentale de l'expression dramatique sera représentée par Raymond Roussel et par Arrabal. PROFESSEUR JONES

126-390D. TENDANCE CONTEMPORAINE DE LA CRITIQUE LITTERAIRE. Réservé aux étudiants Honours. Ce cours vise à mettre en lumière les tendances principales de la critique depuis Bachelard: phénoménologie, existentialisme, psycho-critique, thématique, sociologie, structuralisme. Le travail sera centré sur l'étude approfondie de quelques œuvres critiques particulièrement significatives. PROFESSEUR ANGENOT

126-400D. STYLISTIQUE AVANCEE. (Ne sera pas donné en 1973-74.) Continuation de l'étude systématique des différents modes d'expression dans le complexe message-contexte, avec recours à la stylistique comparée (Français-Anglais). Etude plus particulière des techniques stylistiques littéraires, avec examen d'œuvres représentatives. Notions de description formelle et de typologie. STAFF

126-414A. LE SYMBOLISME. Symbolique et symbolisme; la philosophie du romantisme et le renouveau de la pensée symbolique — Baudelaire. Le courant symboliste et l'"école" sym-

boliste: le débat théorique; la poésie symboliste; le théâtre symboliste et la wagnérisme en France
PROFESSEUR MORISOT

126-415B. LE SURREALISME. Les grands précurseurs du surréalisme seront rappelés: Sade, Lautréamont, Rimbaud, Jarry. Etude du dadaïsme: naissance de l'anti-littérature et de l'anti-art. Passage du dadaïsme parisien au surréalisme (1922-24). Formation de l'école surréaliste Importance accordée à l'art. Le surréalisme et la psychanalyse. Aspects mystique et politique du mouvement. Sc ssions et rapprochements avec d'autres groupes. Reprise de l'expérience entre 1946 et 1950. Répercussions à l'étranger.
PROFESSEUR JONES

126-417A. LA PLEIADE. Etude de l'école poétique groupée autour de Ronsard et de Du Bellay: renouveau de l'expression poétique en France et problèmes du rapport entre la langue et l'œuvre littéraire.
PROFESSEUR TERRASSE

126-421A. LE NOUVEAU ROMAN. (Ne sera pas donné en 1973-74.) Tout en replaçant le mouvement littéraire du "Nouveau Roman" dans sa perspective historique, on mènera dans ce séminaire une analyse du phénomène qui sera fondée sur les problèmes de forme et de fond que pose le roman dans la société moderne.
STAFF

126-422D. HISTOIRE DES DOCTRINES LITTERAIRES DU XVIe SIECLE A NOS JOURS. Etude de textes de caractère théorique exprimant le développement des grands mouvements littéraires depuis la Renaissance jusqu'à la période contemporaine. Ce cours permettra une présentation raisonnée de l'histoire de la littérature.
PROFESSEUR TERRASSE

126-432D. POESIE QUEBECOISE CONTEMPORAINE.
STAFF

126-433A. LES CHANSONNIERS QUEBECOIS. De l'inspiration folklorique à la musique "pop". Sources, thèmes et originalité de la chanson québécoise des dernières années: Félix Leclerc, Jean-Pierre Ferland, Gilles Vigneault, Robert Charlebois.
STAFF

126-436D. EVOLUTION DES IDEES AU QUEBEC AU XIXe SIECLE. Les grands courants idéologiques du XIXe siècle et leur constante influence sur la littérature de cette époque: le voltairianisme, le libéralisme, grandeur et décadence des "Rouges", Tardivel ou l'ultramontanisme, Buies ou la libre pensée, etc.
STAFF

126-441D. LA FRANCE CONTEMPORAINE: EVOLUTION ECONOMIQUE, SOCIALE ET POLITIQUE DEPUIS 1870.

Les trois principaux centres d'intérêt seront:

1. La France à l'heure du Marché Commun: situation économique et sociale, planification.
2. Les institutions politiques et sociales en vigueur: Constitution, Parlement, partis, syndicats, Sécurité sociale, système judiciaire, etc.
3. Les crises de la démocratie républicaine depuis un siècle: effets sur l'éducation nationale et les forces religieuses.

STAFF

126-442D. EVOLUTION DE LA LANGUE FRANÇAISE AU CANADA. (Ne sera pas donné en 1973-74.) Le franco-canadien (ou franco-québécois) à partir de 1760. Etude des rapports entre l'évolution de la société et l'évolution de la langue. Le cours est conçu pour donner aux étudiants l'occasion d'effectuer des recherches personnelles.
STAFF

126-445D. PROBLEMES DE TRADUCTION. Ce cours portera, avec un minimum d'appareil théorique, sur les problèmes que pose la traduction, particulièrement dans le domaine littéraire. Donné sous la forme de travaux pratiques, il permettra aux étudiants de mieux maîtriser leur langue et d'affiner leur perception des problèmes sémantiques et stylistiques.
PROFESSEUR CARTWRIGHT

126-447D. PROBLEMES LITTERAIRES. Ce cours dont le contenu sera déterminé chaque année par le C.E.S.G. après consultation des étudiants et des professeurs permettra de traiter un certain nombre de questions littéraires dont la nature échappe au découpage traditionnel des programmes. Ces questions toucheront aux genres, aux thèmes ou à des problèmes de langage ou de critique et leur choix sera fonction des intérêts des membres du Département.
PROFESSEUR McGILLIVRAY

126-455D. INTRODUCTION A LA LANGUE ET A LA LITTERATURE MEDIEVALES. Réservé aux étudiants Honours.

1er trimestre:

Il s'agit de faire une première connaissance directe, à l'aide d'une anthologie, avec les différents genres littéraires qui constituent l'ensemble de la production médiévale. Des séances seront dédiées au système de la langue.

2e trimestre:

Le 2e trimestre sera dédié à la lecture des aventures de Renard le "goupil". Sujet de discussion: la parodie et la satire dans l'épopée animale.
PROFESSEUR DI STEFANO

126-458B. LA LITTERATURE FANTASTIQUE. Réservé aux étudiants Honours. Ce cours tentera de définir le fantastique en l'opposant successivement à l'étrange et au merveilleux. A travers les œuvres choisies, les thèmes du fantastique seront analysés et différenciés.
Mme PASCAL

126-460D. LE CLASSICISME. Réservé aux étudiants Honours. Etude d'œuvres marquantes du "siècle d'or" français, et de leurs rapports avec la civilisation du dix-septième siècle. Ce cours s'adresse aux étudiants qui, après les vastes synthèses des cours d'introduction, désirent cerner de plus près la pensée et l'art des grands auteurs classiques. Ceux-ci sont moins des "monuments historiques" que des écrivains toujours actuels.
PROFESSEUR VAN DELFT

126-461D. ROMAN QUEBECOIS II. Réservé aux étudiants Honours. Evolution du roman québécois depuis la rupture de 1945 jusqu'à la floraison des années 1960-1970. On s'attachera aux problèmes de technique narrative, à l'évolution du héros romanesque ainsi qu'au développement des thèmes nouveaux. Aussi, on tentera de saisir l'originalité du roman québécois par rapport à l'Europe et à l'Amérique. PROFESSEUR RICARD

126-462D. LES ESSAYISTES QUEBECOIS: EXPLOSION DE LA PENSEE DEPUIS BORDUAS. Réservé aux étudiants Honours. Après un survol des idéologies au Québec, on s'attachera à saisir, à travers l'étude d'un certain nombre d'essais, l'évolution des idées. On s'initiera ainsi à un genre littéraire aussi florissant chez nous que chez les autres, mais assez mal connu. PROFESSEUR ETHIER-BLAIS

126-478D. ATELIER PRATIQUE DE THEATRE. Réservé aux étudiants Honours. Etude pratique de l'adaptation du texte aux conditions matérielles du théâtre. Théâtre et créativité: interprétation verbale et correspondance cinétique. L'homme et le texte dramatique: le héros, personnage, acteur, spectateur. Mme BARRET

126-490D. HONOURS TUTORIAL. Réservé aux étudiants Honours. STAFF

126-491B. SEMINAIRE SPECIALISE DE LITTERATURE FRANÇAISE. Réservé aux étudiants Honours. Ce séminaire est destiné aux étudiants de troisième année universitaire (U3) inscrits dans le programme Honours. Il constitue une préparation aux séminaires de recherche du niveau gradué et remplace pour les étudiants qui le suivent le *Tutorial*. Le sujet en sera déterminé par le C.E.S.G. chaque année en consultation avec les étudiants et les professeurs, en fonction des intérêts et des possibilités de chacun. Il sera restreint à un problème de littérature, de stylistique ou de théorie littéraire traité en profondeur.
PROFESSEUR MORISOT

126-492A. SEMINAIRE SPECIALISE DE LITTERATURE QUEBECOISE. Réservé aux étudiants Honours. Ce séminaire est destiné aux étudiants de troisième année universitaire (U3) inscrits dans le programme Honours. Il constitue une préparation aux séminaires de recherche du niveau gradué et remplace pour les étudiants qui le suivent le *Tutorial*. Le sujet en sera déterminé par le C.E.S.G. chaque année en consultation avec les étudiants et les professeurs, en fonction des intérêts et des possibilités de chacun. Il sera restreint à un problème de littérature, de stylistique ou de théorie littéraire traité en profondeur. STAFF

FRENCH AS A SECOND LANGUAGE (127)

3438 McTavish Street, Room 205, Telephone 392-5727;
Office hours: 9 a.m. to 1 p.m.

The department offers French language courses of a practical nature, for those who will be required to use the language in future, whether in Quebec or elsewhere.

Grades are awarded on the basis of term work, regular tests, and an oral examination.

Eligibility

127-401D is open to any students, *from Quebec or elsewhere,* in their *final or penultimate year of undergraduate studies* in any Faculty and degree program.

ADMISSION BY INTERVIEW ONLY, AT REGISTRATION.

127-201D, -211D, -221D are open only to students *who attended High School outside Quebec Province.* Students may be from any Faculty and degree program and will be admitted to the appropriate level after an interview at Registration and tests given at the beginning of term.

Registration

Numbers are limited in all classes; in order to be sure of a place students from all Faculties must register with this department during the official registration period.

Accelerated Sequence of Courses

Students who have achieved very good results in 127-201D or 127-211D may be considered for admission directly to 127-401D.

Course Descriptions

127-201D. INTENSIVE BEGINNERS' FRENCH. (For students from outside Quebec Province.) (6 credits. 6 hours including language laboratory.) Open to students in any degree program having no previous knowledge of French. *Text:* Politzer, Hagiwara, Carduner, L'ECHELLE: Ginn, and laboratory workbook.
B. SHEPPARD & STAFF

127-211D. ORAL & WRITTEN FRENCH I. (For students from outside Quebec Province.) (6 credits. 3 hours + language laboratory.) Open to students in any degree program having only an elementary knowledge of French. Grammar review, comprehension, vocabulary, conversation. *Text* to be announced.
B. SHEPPARD & STAFF

127-221D. ORAL & WRITTEN FRENCH II. (For students from outside Quebec Province.) (6 credits. 3 hours + language laboratory.) For those having taken 211D or equivalent. Comprehension, discussion, reading, grammar review. *Text* to be announced.
N. LEGALL & STAFF

127-401D. FUNCTIONAL FRENCH. (For *any* students in their final or penultimate year of undergraduate studies.) (6 credits. 5 hours.) An intensive course in conversational French, in groups of 8 students. For those with an adequate theoretical knowledge of the language who need to improve comprehension and expression through practice.
R. LECLERCQ, H. MIGNAULT & STAFF

GEOGRAPHY (183)

Burnside Hall,
Dept. Chairman: Room 510, Phone 392-5489
General Inquiries: Room 513, Phone 392-5700

The Geography Department offers degrees in both the Faculty of Arts and the Faculty of Science. For a full description of the courses and for an outline of the nature of Geography and the opportunities for study in this discipline, the student should consult the listings under Geography in the Faculty of Science section of the calendar (page 193).

B.A. students planning to take an Honours or a Major in Geography should arrange an interview with the departmental chairman or his representative at least one week before registration.

B.A. Major in Geography

General Inquiries: Room 513, Burnside Hall, 392-5700
Advisers: Professor B. Massam, Room 417, 392-4720
Professor G. Ewing, Room 418, 392-4720

36 approved credits in Geography. 18 approved credits in related subjects from the Social Sciences. The Geography courses must include:
Geography 183-201A, 202B, 214A, 216A, 203D and 6 credits of regional courses.

B.A. Major in Geography (Special Programs)

Note — Courses that should be taken in U1 are underlined.

CULTURAL ECOLOGY

Geography 183-201A, 214A, 215B, 203D, 312B, 317B, 319A, 324B, 451D (or Biology 177-305A and 328B or Biology 177-305A and Geography 183-300B)
Biology 177-E10D, 245B, 348D, 328D or Geography 183-451D
Anthropology 151-E21A, 206B — 57 credits

GEOGRAPHY OF ECONOMIC ACTIVITY

Geography 183-201A, 202B, 216A, 217B, 301D, 314A, 315B, 318B, 351A
Economics 154-200D, 300A, 301A, 313A plus 9 other approved credits — 54 credits

HUMAN GEOGRAPHY OF THE INDIANS AND ESKIMOS IN CANADA

Geography 183-201A, 202B, 203D, 214A, 215B, 301D, 316A, 402D
Anthropology 151-E21A, 347A, 336A, 424A
Linguistics 104-240A
Economics 154-200D 54 credits

REGIONAL GEOGRAPHY

Geography 183-201A, 202B, 203D, 214A, 216A, 217B, 301D, 303D, 306A, 308B, 314A, or 317B plus 9 approved credits 54 credits

URBAN SYSTEMS

Geography 183-201A, 202B, 216A, 217B, 314A, 316A, 351A (or one of Computer Sciences 308-200A, 200B, 220A-220B), 412B
Architecture 301-205A, 232A, 235A, 431A, 433A, 434B, 133B (Engineering)
Anthropology 151-E22B, 321B, 421A
Economics 154-200D, or 250D, 468D
Sociology 166-222B 57 credits

B.A. Honours in Geography

General Inquiries: Room 513, Burnside Hall, 392-5700
Adviser: Professor B. Massam, Room 417, 392-4720

The Geography Department offers two streams in the B.A. Honours Sequence — Economic/Urban and Cultural. The courses are very similar in the first year but the student must choose between the two streams before the beginning of his second year.

B.A. HONOURS — ECONOMIC/URBAN STREAM

First year: Geography 183-201A, 202B, 203D, 214A, 216A, 217B and 9 approved credits
Second and Third year: Geography 183-350B, 351A, 481A, 482D
3 credits in Regional Geography, 15 approved credits in Urban and/or Economic courses, and 27 approved credits.

B.A. HONOURS — CULTURAL STREAM

First year: Geography 183-201A, 202B, 203D, 214A, 215B, 216A and 9 approved credits
Second year: Geography 183-350B, 351A, 481A; either 305A and 307B or two of 217B, 306A, 308B; 301D or 303D or 304A and 317B; and 9 approved credits
Third year: Geography 183-482D; 402D or 451D; (317B and 414A) or (314A or 316A and 315B) and 12 approved credits

For detailed descriptions of Geography courses see under Faculty of Science, page 193.

There are no prerequisites in geography for entrance to the Majors or Honours B.A. or B.Sc. in Geography. Arts students should include six credits of Mathematics in their CEGEP or pre-university programs. Students who have completed college or pre-university Geography courses fully equivalent to those at First year university may substitute other approved courses as part of their Majors or Honours programs.

GERMAN (129)

Departmental Office, Room 613, Samuel Bronfman Bldg., 392-5091

NOTE: Students may begin at the Intermediate or Advanced level in their first year if they have taken German courses in High school or in CEGEP or in a McGill Summer Session. During the six week Summer Sessions, the following courses are offered every year: 202D, 252D, and 302D.

By registering in German 129-200D-250D, a student may pass the Beginners' and the Intermediate level in one academic year. By registering in 129-200D-250D and an advanced level summer course, a student may complete all three levels in one year and proceed to senior literature and philology courses in his second year.

Students with German background should consult the Chairman in order to find out for which level they should register.

Honours in German

Prof. A. Arnold, Room 613, Samuel Bronfman Bldg. 392-5091

The Department offers an Honours Program in German and Joint Honours with nine Departments. In Single Honours, a student normally takes German 200D-250D or 251D plus one of German 210A, 211B, 212D, 260D, 261A, 262B in his first year. In his second year he takes 18, in his third year 24 approved credits in German.

A student may register for Single or Joint Honours in his second year if he has assembled the necessary credits in German. Some courses can be taken during the Summer Session.

Joint Honours Programs

Prof. A. Arnold, Room 613, Samuel Bronfman Bldg. 392-5091

Joint Honours are possible with the following Departments: Classics, English, French, History, Italian, Linguistics, Philosophy, Russian, Spanish. Students enrolled in Joint Honours are requested to take 12 credits in German each year in consultation with the Department.

Major in German

Prof. A. Arnold, Room 613, Samuel Bronfman Bldg. 392-5091

42 credits in German and 12 credits in a related field (another language, History, Linguistics, Philosophy, etc.). The courses are to be selected in consultation with the Department.

Junior Year Abroad

Prof. H. Richter, Room 617, Samuel Bronfman Bldg. 392-5094

Second year Honours students are eligible. They will study at a German-speaking European University and receive full credit for the year. Detailed information can be obtained from the Department.

Beginners' Level

A. EMPHASIS ON LANGUAGE

129-200D-250D. GERMAN LANGUAGE. INTENSIVE BEGINNERS' COURSE. (10 hours; *Prerequisite:* none.) This course is designed for those who want to speak German fluently within one year; students having passed this course will be admitted to advanced and some senior courses in the Department. Not given in 1972-1973.

129-201D. GERMAN LANGUAGE. ACCELERATED BEGINNERS' COURSE. (6 Credits; 5 + 1 hours; *Prerequisite:* none.) *Texts:* H. Kessler: *Deutsch für Ausländer* (Parts 1, 1a); H. Wittmann: *Workbook in Beginning German.* An audiovisual course. The stress is on oral comprehension and expression. DR. HSIA AND STAFF

129-202D. GERMAN LANGUAGE. BEGINNERS' COURSE. (6 Credits; 3 + 1 hours; *Prerequisite:* none). *Text:* Curts, Groenke, Vail: *German for Beginners.* A solid, traditional method. The stress is on oral and written comprehension and expression. DR. BIRCHER AND STAFF

129-203D. GERMAN LANGUAGE. BEGINNERS' COURSE. (6 Credits; 3 hours; *Prerequisite:* none.) *Text:* Jannach: *German for Reading Knowledge.* The stress is on written comprehension. Recommended for B.Sc. students, engineers, graduate students. DR. SCHMIDT AND STAFF

129-004D. GERMAN READING COURSE. METHOD AND PRACTICE OF TRANSLATION. (No Credit; 2 hours; *Prerequisite:* none.) *Text:* C. V. Pollard: *The Practical Solution to German Translation.* Recommended for Ph.D. candidates preparing to fulfill the Language Requirement. DR. BLOCK

B. EMPHASIS ON LITERATURE AND CIVILIZATION

129-210A. GERMAN LITERATURE IN TRANSLATION. (3 Credits; 3 hours; *Prerequisite:* none; in English.) Recommended for students taking a Beginners' Language Course concurrently. Major works from Goethe to the end of the 19th Century will be discussed. DR. SCHMIDT

129-211B. GERMAN LITERATURE IN TRANSLATION. (3 Credits; 3 hours; *Prerequisite:* none; in English.) Recommended for students taking a Beginners' Language Course concurrently. Major works of the 20th Century will be discussed (Mann, Kafka, Brecht.) DR. SCHMIDT

129-212D. GERMAN LIFE AND INSTITUTIONS (6 Credits; 3 hours; *Prerequisite:* none; in English.) Not given in 1973-74.

Intermediate Level

A. EMPHASIS ON LANGUAGE

129-251D. GERMAN LANGUAGE. ACCELERATED INTERMEDIATE COURSE. (6 Credits; 5 + 1 hours; *Prerequisite:* German 201D or equivalent.) *Texts:* Schulz-Sundermeyer: *Deutsche Sprachlehre für Ausländer;* several shorter literary works. Students completing this course will be admitted to any senior course in the Department. DR. MAITRE AND STAFF

129-252D. GERMAN LANGUAGE. INTERMEDIATE COURSE. (6 Credits; 3 + 1 hours; *Prerequisite:* 202D or equivalent.) *Texts:* Sparks-Vail: *German in Review;* Richmond-Kirby: *Auslese.* The stress is on oral and written comprehension and expression. DR. LACH AND STAFF

129-253D. GERMAN LANGUAGE. INTERMEDIATE COURSE. (6 Credits; 3 hours; *Prerequisite:* German 203D or equivalent.) *Texts:* Bergethon: Grammar for Reading German. *A Second Year Workbook;* Luyster: *Naturforschung von Heute;* newspapers and periodicals. The stress is on comprehension of scientific texts. DR. SCHMIDT AND STAFF

129-254D. GERMAN LANGUAGE. ADVANCED INTERMEDIATE COURSE. (6 Credits; 3 + 1 hours; *Prerequisite:* high marks in 202D or two years of German at the Highschool or CEGEP level or equivalent.) *Texts:* Lehmann, Rehder, Shaw and Werbow: *Review and Progress;* short novels and stories. DR. BLOCK

B. EMPHASIS ON LITERATURE AND LINGUISTICS

Text lists for and details about all of the following courses are available from the German Department office.

One or two of the following courses are usually taken by students who are concurrently registered in 251D.

129-260D. INTRODUCTION TO GERMAN LITERATURE. (6 Credits; 3 hours; *Prerequisite:* 201D or equivalent or permission of the Department.) *Texts: Kompass 3;* several literary works. DR. LACH

129-261A. DESCRIPTIVE GERMAN GRAMMAR. (3 Credits; 3 hours; *Prerequisite:* 201D or an intermediate language course or permission of the Department.) DR. GOLDSCHMID

129-262B. DESCRIPTIVE GERMAN LINGUISTICS. (3 Credits; 3 hours; *Prerequisites:* 201D and 261A or an intermediate language course or permission of the Department.) DR. GOLDSCHMID

Advanced Level

A. EMPHASIS ON LANGUAGE

129-301D. FUNCTIONAL GERMAN. (6 Credits; 5 hours; *Prerequisite:* 251D or 250 — 300 hours of German or equivalent or permission of the Department.) Discussion of newspaper articles (Die Zeit, Der Spiegel), literary texts (selected by each group), and general topics. The stress is on vocabulary building and on fluency of speech. DR. SCHUSTER AND STAFF

129-302D. FUNCTIONAL GERMAN. (6 Credits; 5 hours; *Prerequisite:* 252D or 254D or 200 hours of German or equivalent.) Aim of the course: same as in 301D. DR. SCHUSTER AND STAFF

B. EMPHASIS ON LITERATURE

129-310D. GERMAN LITERATURE FROM LESSING TO BRECHT. (6 Credits; 3 + 1 hours; *Prerequisite:* 251D or 252D or 200 hours of German or equivalent.) *Texts:* Several plays, "Novellen" and anthologies. DR. RICHTER AND STAFF

Senior Courses
(Literature, Linguistics, Philology, Stylistics)

NOTE: Text lists for and details about all of the following courses are available from the Departmental office.

Prerequisites for all senior courses are German 250D or 251D or any course at the advanced level or permission of the Department.

A. LITERATURE

129-350D. GERMAN LITERATURE IN THE NINETEENTH CENTURY (1830-1880). (6 Credits; Not given 1973-74.) DR. BLOCK

129-360A. GERMAN LITERATURE IN THE TWENTIETH CENTURY I. (3 Credits.) DR. BLOCK

129-361B. GERMAN LITERATURE IN THE TWENTIETH CENTURY II. (3 Credits.) DR. BLOCK

129-362A. GERMAN LITERATURE IN THE TWENTIETH CENTURY III. (3 Credits.) DR. MAITRE

129-363B. GERMAN LITERATURE IN THE TWENTIETH CENTURY IV. (3 Credits; Not given 1973-74.) STAFF

The topics of these courses vary from year to year. Check the Departmental text list for the topics offered in 1973-1974.

129-380A. GERMAN LITERATURE OF THE ENLIGHTENMENT. (3 Credits; Not given 1973-74.)

129-381B. GERMAN LITERATURE OF THE "STURM UND DRANG" PERIOD. (3 Credits.) DR. HSIA

129-390D. HONOURS TUTORIAL. (6 Credits.) DR. HSIA

129-450A. THE CLASSICAL PERIOD IN GERMAN LITERATURE. (3 Credits; Not given 1973-74.)

129-451B. GERMAN ROMANTICISM. (3 Credits.) DR. SCHUSTER

129-460A. GERMAN LITERATURE IN THE AGE OF THE REFORMATION. (3 Credits.) DR. BIRCHER

129-461B. GERMAN LITERATURE OF THE BAROQUE PERIOD. (3 Credits.) DR. BIRCHER

129-490D. SPECIAL SUBJECT (Honours Tutorial). (6 Credits.) DR. ARNOLD

B. PHILOLOGY AND LINGUISTICS

129-370A. GERMANIC PHILOLOGY. (3 Credits.) A survey of the history of the Germanic languages from their Indo-European origin until the end of the Germanic migrations. The main topics of study will be the Germanic sound shift, West Germanic phonological developments and the emergence of the West Germanic dialects. The course will be given in English. DR. KULLY

129-371B. HISTORY OF THE GERMAN LANGUAGE. (3 Credits.) An outline of the history of the language from Charlemagne to the present. The main developments in phonology, syntax and lexicon will be covered together with the essentials of the cultural background. DR. KULLY

129-500B. READINGS IN A GERMANIC LANGUAGE (Gothic, or Old Icelandic, or Old Saxon. (3 Credits; Not given 1973-74.)

129-501A. INTRODUCTION TO OLD HIGH GERMAN. (3 Credits.) DR. RICHTER

129-510A. MIDDLE HIGH GERMAN LANGUAGE. (3 Credits; Not given 1973-74.)

129-511B. MIDDLE HIGH GERMAN LITERATURE. (3 Credits.) DR. RICHTER

C. STYLISTICS

129-520A. ADVANCED COMPOSITION AND TRANSLATION. (3 Credits.) DR. LACH

129-521B. GERMAN STYLISTICS. (3 Credits.) DR. LACH

HISTORY (101)

General Office and Information: Room 625, Sixth Floor, Stephen Leacock Building
Telephone: 392-5192

Academic Advisers:

P. H. Boulle, E. S. Laffey, L. L. LaPierre, C. I. Miller, H. C. Schlieper, J. H. Thompson, H. S. Weinroth

The Department of History offers a wide range of courses in the history of such areas as Africa; Britain; Canada, with considerable emphasis being placed on French Canada and Québec; East Asia; Eastern Europe; France, Germany, Russia and the United States. In addition, courses are offered on such topics as International Relations, History of Medicine, Ethno-history of Canada, Jewish History and War and Society. Greek, Roman, and Islamic history are taught in other departments with which the Department of History is closely associated.

The Department offers two kinds of programs — Honours and the Major. The Honours program offers a high degree of specialization in history with much individual instruction to qualified students. The Major program provides for a measure of concentration in history in conjunction with an opportunity to take courses in other disciplines. Candidates who wish to study history as an Honours or Joint Honours subject, or who wish to major in History, must consult the Department as to their program. The general description of the Honours and Major programs will be found below.

Candidates in their second CEGEP-equivalent year may take: History 200D, 201A, 202D, 204D, 206D, 207D, 208D, 211A, 215D, 221B, 225D, 231B, 235D.

Candidates entering University as U1 students may take all courses at the 200 level and courses at the 300 level for which they have prerequisites.

Major in History

Director: Professor C. I. Miller
Office: Room 630, Stephen Leacock Building
Telephone Number: 392-4723

REQUIREMENTS:

Students who choose a Major in History should consult with the Department on or before the day of their formal registration at the University.

The History major generally consists of fifty-four (54) credits, determined by the History Department in consultation with the student. The Department offers students five different types of Program: an area major; thematic major; joint major with another department, interdisciplinary major and a period major (e.g. 19th century). Additional information is available at departmental offices.

Under normal circumstances candidates who have completed the major program in History will not be eligible to enter the graduate program of the History Department unless they are prepared to do qualifying work.

Honours in History

Director: Professor E. S. Laffey
Office: Room 610, Stephen Leacock Building
Telephone Number: 392-5187

REQUIREMENTS:

Students are reminded that owing to the transition to a three-year University, the Honours Programs of the Department might change somewhat in their Upper years due to possible alterations of some course offerings which may be necessary.

Candidates are required to arrange their individual programs in consultation with the Department at the beginning of each academic year and to maintain a high CGPA.

The Honours Programs in the History Department is divided into four major areas of concentration: the history of North America, the history of Great Britain, European history and East Asian history. Honours students are required to have a reading knowledge of such foreign language or languages as may be appropriate to their proposed course of study. Provision is made in the program for students to continue their studies in such a language into their Upper years.

In the U1 year, three courses in history which are appropriate to their field of interest are chosen. In the U2 and U3 years the program is designed to allow candidates to concentrate in their field of interest and to give them a full range of undergraduate courses in history. Candidates may offer appropriate courses in related disciplines in place of one of their history courses in the U2 and U3 years but they are normally expected to have completed eleven full courses in history in the three years of the Honours program.

In addition to the examinations in the subjects taken in the last year, U3 students, both Full and Joint Honours, will have a comprehensive oral examination on their whole field of historical study.

Candidates for the Honours degree may at the beginning of the U2 year choose to proceed in one of two ways:

a) They may offer History 490D/491D — a two-year tutorial program chosen from one of the following areas —
   England in the Age of Wycliff,
   England from the Restoration to the Accession of George IV,
   Selected topics in Canadian history,
   France in the 16th and 17th centuries,
   A topic in German history after 1800,
   Some aspects of the political history of the Balkans in the 14th and the 15th centuries,
   The Russian Revolutions of 1917,
   Topics in Jewish history,
   West African history,
   OR

b) They may choose to take one undergraduate seminar per year. (See page 114).

Joint Honours

The Department offers Joint Honours programs with the Departments of Philosophy, Political Science (International Relations and Comparative Government), Russian, Economics, English, Geography, German, and may arrange other programs with other Departments. Students should consult both Departments with regard to programs and registration in Joint Honours courses. Programs will be designed to fit the individual interests of candidates but normally require an equal number of Upper Year courses in both disciplines.

For information on the Honours program in East Asian Studies which is offered in conjunction with the History Department, see page 70.

Course Descriptions

101-200D. A HISTORY OF AFRICA. (6 credits; This course is not open to candidates who have previously taken History 210A and History 220B.) A study of African cultures from the beginning of the Iron Age to the contemporary emergence of African States, with emphasis on the period since 1780. Stress is placed on the political and cultural relations of African societies with each other, with Europe and with Islamic civilization. PROFESSOR ECHENBERG

101-201A. THE HISTORY OF LATIN AMERICA FROM PRE-COLUMBIAN TIMES TO THE 20th CENTURY. (3 credits; Not given 1973-74.) This course will deal with Latin America from the time of the Incas and Aztecs to the 20th century. The institutions of the colonial period will be examined, and special attention will be given to the political and economic problems of the emerging independent states in the 19th century. PROFESSOR CHARTERIS

101-202D. AN INTRODUCTION TO THE HISTORY OF CANADA. (6 Credits.) This course will be a survey of the evolution of Canada, from the pre-Columbian explorations to the end of the Second World War. Social, economic, political, and intellectual developments will all be considered in a general way. Special emphasis will be placed on the themes of French-English relations, regional particularism, Canadian-American relations, and the influence of technology on Canadian society. PROFESSOR THOMPSON

101-204D. HISTORY OF GREAT BRITAIN. (6 credits; Not given 1973-74.) Survey of the development of Britain since 1066. Emphasis will be placed on political changes, seen in relation to the economic, social and intellectual background. PROFESSOR CHARTERIS

101-206D. HISTORY OF EASTERN EUROPE (FROM 4th CENTURY). (6 credits.) The mediaeval principle of legitimacy and the formation of the first barbarian states: ecclesiastical schism and the political division of Eastern Europe; the conflicts of Byzantines, Germans, Osmanlis, and Slavs; social and economic development; Eurasianism and the interaction of Western, Byzantine, and Eastern cultures. PROFESSORS MLADENOVIC AND SCHLIEPER

101-207D. A HISTORY OF THE JEWS FROM LATE CLASSICAL TIMES TO THE PRESENT. (6 credits; *Prerequisite:* History 215D, possibly concurrently, is recommended.) A general introductory survey of the history of the Jewish people from late classical times to the present in the context of general world history. Emphasis will be placed on general trends and

developments, and special attention will be paid to areas of major Jewish settlement. The first term will deal with the period up to 1492, while the second term will cover the period from 1492 to the present. PROFESSOR SWETSCHINSKI

101-208D. THE DEVELOPMENT OF EAST ASIAN CIVILIZATION. (6 credits; Open to Upper year students with permission of instructor.) History and salient features (social, political, economic, and intellectual) of the traditional civilization of China and Japan, from earliest times to the mid-19th century. PROFESSORS BAMBA AND BURCHILL

101-211A. THE UNITED STATES TO 1865. (3 credits.) English colonization of North America, development of representative government, colonial wars and revolution, the Constitution, society and politics of the nineteenth century, and the Civil War. Emphasis is placed on Puritanism, the American Revolution, and the men who fashioned and guided the new republic. PROFESSOR RIGGS

101-215D [Formerly 105D]. EUROPEAN CIVILIZATION IN THE MEDIAEVAL AND MODERN PERIODS. (6 credits.) The mediaeval period is studied in terms of its typical institutions: the Empire, the Papacy, feudalism, the guild, the dynastic state, etc. In the modern period, main emphasis is laid on the emergence of the Great Powers, and the long-term problems, at home and abroad, which conditioned their policies. This course provides a preparation for the study of European history. PROFESSOR VOGEL

101-221B. THE UNITED STATES SINCE 1865. (3 credits; *Prerequisite:* History 211A or consent of instructor.) The growth of industry, reconstruction, populism and progressivism, World War I, the New Deal, and World War II. Stress is placed on the political and social consequences of industrialization and urbanization. PROFESSOR RIGGS

101-225D. A HISTORY OF FRANCE. (6 Credits.) A survey of French society since the fall of the Roman Empire, with particular emphasis on the post-mediaeval period and economic, social and political developments. PROFESSOR BOULLE

101-231B. HISTORY OF WESTERN EUROPEAN COLONIAL EXPANSION. (3 credits; Not given 1973-74.) This course is devoted to the colonial experience of the British, Dutch and Portuguese in the 17th and 18th centuries. PROFESSOR CHARTERIS

101-235D. A SURVEY OF GERMAN HISTORY. (6 credits.) This course will give an overview of German history from its beginnings to the present. Selected aspects will be dealt with in depth: the foundations of the Carolingian Empire; the Reformation; the era of the World Wars. The course is an introduction to the entire field and will include some discussion of historiography. PROFESSOR HOFFMANN

101-280D. MEDIAEVAL LIFE AND INSTITUTIONS. (6 credits.) The history of the Middle Ages is approached in terms of its typical institutions — the Church, the Holy Roman Empire, feudalism, the towns, the gilds, the representative system — with an analysis of the social groups attached to each. The crises which modified these institutions in the late Middle Ages are analysed as phases of the transition to the modern period of European history. PROFESSOR BAYLEY

101-304D. BRITISH IMPERIAL POLICY FROM 1783. (6 Credits; *Prerequisite:* History 201A or 204D or 231B or consent of instructor; Not given in 1973-74.) The composition and development of British policy, stressing the interplay between domestic attitudes and imperial needs and opportunities as demonstrated in humanitarian, missionary, intellectual, economic and strategic interests. PROFESSOR ————

101-305D. WAR AND SOCIETY IN MEDIAEVAL AND MODERN EUROPE. (6 Credits; *Prerequisite:* one general course in European history is desirable; Not given in 1973-74.) War in Roman, Carolingian, and feudal society; rise of permanent armies and navies; military institutions of eastern Europe; warfare from Wallenstein to Napoleon; emergence of the national army in Russia; the Western military tradition after Clausewitz; the Communist doctrine of war. PROFESSORS BAYLEY, MLADENOVIC AND VOGEL

101-306A. IMPERIAL RUSSIA. (3 Credits; *Prerequisite:* History 206D.) Major social, economic and political problems of Russian history since 1689. Reforms of Peter the Great, Westernisation of the Russian state, changing social structures in the 18th and 19th centuries, serfdom, emergence of industrial economy, Russia on the eve of World War I. PROFESSOR SCHLIEPER

101-308D. HISTORY OF CHINA. (6 Credits.) A survey course in the history of China from earliest times to 1911 with particular attention to social, intellectual and institutional change. PROFESSOR LAFFEY

101-311A. EMERGING MODERN AMERICA, 1876-1912. (3 Credits; *Prerequisite:* History 211A and/or History 221B, or equivalent, or consent of instructor.) Political, social, economic and diplomatic developments are explored in detail with stress upon historiography. PROFESSOR RIGGS

101-314D. TUDOR AND STUART ENGLAND. (6 Credits; *Prerequisite:* History 204D or consent of the instructor.) A study of English society, politics, and thought from the end of the Middle

Ages to the eighteenth century. Among the topics discussed are the developments of the English state: economic expansion; the religious revolution; the civil war and its consequences; the intellectual and social changes.
PROFESSOR MAXWELL

101-315D. CONTEMPORARY EUROPEAN HISTORY. (6 Credits; *Prerequisite:* any course in European history, e.g., 204D, 206D, 215D, 225D, 235D, or equivalent; Not given in 1973-74.) This course will be devoted to a study of major developments in the 19th and early 20th centuries. Special emphasis will be given to the French Revolution, the rise of the working classes, liberalism, nationalism, imperialism and the European balance of power.
PROFESSOR WEINROTH

101-316B. RUSSIA AND ASIA. (3 Credits; *Prerequisite:* History 206D.) The steppe empires and the impact of the Eurasian plain on Russian history. Tsarist expansion east of the Urals. Early Sino-Russian relations. Russian ventures into the Pacific and Alaska. Integration of Siberia into the Russian-Soviet state. Economic development of Asiatic Russia.
PROFESSOR SCHLIEPER

101-317D. JEWISH HISTORY FROM THE REFORMATION TO THE FRENCH REVOLUTION. (6 Credits; *Prerequisite*: History 207D or one course in Modern European History is recommended.) An examination of the main events, trends and issues in Jewish history in the context of the general background. The first term will be devoted to the Sephardic experience, the second to the Ashkenazi.
PROFESSOR SWETSCHINSKI

101-318D. A HISTORY OF JAPAN. (6 Credits; *Prerequisite:* History 208D or consent of the instructor.) A survey course in the history of Japan from the transmission of Buddhism (552 A.D.) to the 20th century, with particular attention to Tokugawa Japan. PROFESSOR BAMBA

101-321B. MODERN AMERICA, 1912-1960. (3 Credits; *Prerequisite:* History 311A or consent of instructor.) The United States in the modern era from Woodrow Wilson to John F. Kennedy. Emphasis is placed on conflicting interpretations of historians and on reform movements.
PROFESSOR RIGGS

101-323D. FRENCH CANADA FROM THE 17th CENTURY TO THE MIDDLE OF THE 19th CENTURY. (6 Credits; *Prerequisite:* History 202D or consent of instructor.) This course will approach the economic and social history of New France and pre-industrial Quebec as a case study for problems in colonial policies, population movements, rural economy, commercial capitalism, social stratification, collective attitudes and institutional change.
PROFESSOR DECHENE

101-324D. ENGLAND FROM THE GLORIOUS REVOLUTION UNTIL THE MID-VICTORIAN ERA. (6 Credits; *Prerequisite:* History 204D or consent of the instructor; Not given in 1973-74.) This course deals with the rise of parties, the evolution of Cabinet Government, and the growth of the Constitution in an age of material progress, revolutionary ideas, and social change.
PROFESSOR SENIOR

101-325D. WESTERN EUROPE FROM THE RENAISSANCE TO THE 18th CENTURY. (6 Credits.) A study of the development of political and social institutions, religion, and culture, e.g. the Italian communes and principalities; humanism; the Reformation; the scientific revolution of the 18th century; the changing character of social classes, the development of absolutism; the critical thought of the 18th century.
PROFESSOR SENIOR

101-328B. WAR AND DIPLOMACY IN THE EAST ASIAN SOCIETIES. (3 Credits; *Prerequisite:* History 208D or 308D or 318D or consent of instructor; Not given in 1973-74.) This course surveys the transformation of East Asian societies through war and diplomacy since the Opium War, leading up to the Communist revolution in China and modernization in Japan.
PROFESSOR BAMBA

101-334D. THE COMING OF THE FIRST WORLD WAR. (6 Credits; *Prerequisite:* Any course in modern European History; Not given in 1973-74.) While this course will deal principally with the diplomatic relations between the major European Powers and the various crises which disturbed European peace, it will also attempt to examine the political and social structure of the Great Powers and the bearing this had upon the course of international diplomacy.
PROFESSOR WEINROTH

101-336D. A HISTORY OF FRANCE SINCE 1789. (6 Credits.) A study of the major social, political, and cultural changes which France has undergone since the Revolution. Special emphasis will be placed on the struggle between religious and anti-clerical (or anti-religious) forces in the nineteenth century, on the history of revolutionary movements of the Left and of the Right, and on the transformations of these phenomena in the contemporary period.
PROFESSOR HELLMAN

101-342A. THE HISTORY OF CANADA'S EXTERNAL RELATIONS: 1867-1939. (3 Credits; *Prerequisite:* History 202D; This course is not open to candidates who have previously taken History 422D; Not given in 1973-74.) This course will examine the historical development of Canadian external relations before World War II. Particular emphasis will be placed on

Canadian-American relations, Canadian-Imperial relations, the growth of Canadian diplomatic autonomy and participation in the League of Nations. PROFESSOR MILLER

101-344A. THE ETHNOHISTORY OF NEW FRANCE. (3 Credits; *Prerequisite:* History 202D.) The methods and techniques of ethnohistory: an interdisciplinary approach to studying the history of peoples who have produced no written records of their own. These methods will be applied to a systematic investigation of interaction between Indians and Europeans in eastern Canada during the French regime. A reading knowledge of French is highly desirable.
PROFESSOR TRIGGER (of the Department of Anthropology)

101-345D. FRANCE IN THE 17th AND 18th CENTURIES. (6 Credits.) Selected topics in French internal history from the end of the Wars of Religion to the outbreak of the French Revolution. Topics to be selected after discussion with the class; emphasis to be placed on class participation, class presentations and class discussion. PROFESSOR BOULLE

101-352D. EMERGENCE OF ENGLISH CANADA, 1791-1867. (6 Credits; *Prerequisite:* History 202D or consent of instructor.) This course will be primarily concerned with the history of Upper Canada from its pioneer origins until Confederation. Special consideration will be given to immigration, urbanization and to relations with French Canada after the Union of 1841.
PROFESSOR SENIOR

101-353D. WAR AND SOCIETY IN CANADIAN HISTORY. (6 Credits; *Prerequisite:* History 202D; This course is not open to candidates who have previously taken History 372D.) The first half of this course will consist of lectures by members of the staff on various social problems which have arisen in the pursuit of war, the fighting of rebellions, the development of armed forces, and the attempts to cope with civil disobedience and terror. The second half of the course will be devoted to individual study through supervised and guided reading and research. STAFF

101-355D. GERMANY IN THE 19th CENTURY. (6 Credits; *Prerequisite:* History 235D or consent of the instructor; Not given in 1973-74.) German political, constitutional and social history, 1740-1914. Emphasis: the struggle of the two German Great Powers for control of Germany; Reform Era and Industrialization; the evolution of Prussian hegemony; diplomatic and social development leading to 1914. PROFESSOR HOFFMANN

101-362D. THE WEST IN CANADIAN HISTORY. (6 Credits; *Prerequisite:* History 202D.) This course will be an examination of the development of British Columbia and the Prairie Provinces from their initial exploration and settlement until the present. Political and economic developments will be considered, but emphasis will be placed primarily on the social and cultural history of the post-Confederation period. PROFESSOR THOMPSON

101-363D. CONTEMPORARY CANADA, 1890-1970. (6 Credits; *Prerequisite:* History 202D or equivalent, or consent of instructor; This course is not open to candidates who have previously taken History 302A and 312B.) This course will study Canadian social and political development since 1890. It will give particular attention to reform movements, third party protest, urbanization, regionalism, war, foreign policy (notably Canadian-American relations) and the Quiet Revolution. PROFESSOR MILLER

101-403D. REGIONAL, SOCIAL AND CULTURAL HISTORY OF QUEBEC. (6 Credits; *Prerequisite:* History 202D or consent of instructor. A reading and speaking knowledge of French is essential.) A study of the development of Quebec society since 1867. The objective of the course is to retrace this development, to define the meaning of ideas and behaviour which have developed in Quebec's specific physical, political, spiritual and cultural environment. Special attention will be given to the cultural development of modern Quebec. (Course to be given in French.) PROFESSOR ROY (of the French Canadian Studies Centre)

101-404D. HISTORICAL DEVELOPMENT OF THE INSTITUTIONS OF GREAT BRITAIN. (6 Credits; *Prerequisite:* History 304D or 314D or 324D or consent of the instructor; Not given in 1973-74.) PROFESSOR BAYLEY

101-405D. THE HISTORY OF EUROPEAN THOUGHT SINCE THE RENAISSANCE. (6 Credits.) This course begins with the Renaissance and studies various trends in European thought down to the present time. It is conducted primarily by means of discussions based on extensive reading in the sources — Erasmus, Luther, Descartes, Voltaire, Goethe, Comte, Marx, Nietzsche, Ellul, Beckett, etc. — and seeks an empathic understanding of each thinker as well as a grasp of the historical context, and influence, of his thought. PROFESSOR HELLMAN

101-406D. POLITICAL AND ECONOMIC HISTORY OF THE SOVIET UNION. (6 Credits; Save by special consent of the Department, this course is open only to students who have previously taken either History 206D or 306A and 316B.) Geopolitical background; Marxism-Leninism in theory and practice; evolution of constitutional, social, and legal systems; cultural trends; state planning, industrialization, and agrarian policies; labour, wages, and incentive; development of military power and the doctrine of war; monocentrism and polycentrism in the Communist bloc; economic and political relations with the world. PROFESSOR MLADENOVIC

101-407D. TECHNOLOGY AND SOCIETY IN MEDIAEVAL AND MODERN EUROPE: A HISTORICAL SURVEY. (6 Credits.) The technological leadership of the East; the period of borrowing and advance in Europe, 12th-16th centuries; the expansion of Europe and its repercussion; technology as an instrument of power and welfare in 19th century Europe; the effects of the diffusion and adoption of European technology in the non-European world.

PROFESSOR BAYLEY

101-408A. MODERN CHINA, 1840-1949. (3 Credits; *Prerequisite:* History 208D or 308D; Not given in 1973-74.) Political, intellectual and social change in China from the Opium War to the present, with emphasis on the 19th century background and historical continuity between late traditional and contemporary China. PROFESSOR LAFFEY

101-414D. GREAT BRITAIN: DEVELOPMENT OF THE WELFARE STATE. (6 Credits; *Prerequisite:* History 204D or consent of the instructor.) The course deals with economic conditions in the later 19th century; the growth of working class organization; Conservatism, Liberalism, Socialism, Imperialism; the origins of World War I; the economic and political effects of World War I; the origins and causes of World War II; post-war reconstruction.

PROFESSOR WEINROTH

101-418D. PROBLEMS IN MODERN JAPANESE HISTORY. (6 Credits; *Prerequisite:* History 208D or 318D, or consent of instructor.) Political, social, ideological change, and war and diplomacy from the Imperial Restoration to the present. PROFESSOR BAMBA

101-420D. FORMS OF PROTEST IN TRADITIONAL CHINA. (6 credits; *Prerequisite:* One prior course in Chinese history.) An examination of the ideological and social roots and the forms of expression of protest in traditional China, at both the elite and popular levels. (This course will be given in alternate years). PROFESSOR LAFFEY

101-428D. CONTINUITY AND CHANGE IN TWENTIETH CENTURY CHINA. (6 Credits; *Prerequisite:* History 308D or consent of instructor.) Problems in the radical political and social transformation of China, as confronted and dealt with by twentieth-century revolutionary movements, particularly in the period from the May Fourth Movement to the present.

PROFESSOR BURCHILL

101-429D. MEDICINE AND SOCIETY: THE INTELLECTUAL AND SOCIAL BACKGROUND TO MODERN MEDICINE. (6 Credits; This course is not open to candidates who have previously taken History 425A.) A survey of medicine in the West from antiquity to the present. First term, from antiquity to the 18th century; second term, the 19th and 20th centuries with special reference to the social aspects of medicine.

PROFESSOR BATES (of the Department of the History of Medicine)

101-430D. FRANCE AND THE AFRICANS: A HISTORY OF THEIR RELATIONS FROM 1700 TO THE PRESENT. (6 Credits; *Prerequisite:* An introductory course in either African or French history, and a reading knowledge of French.) An advanced study of the reciprocal nature of contacts between France and Africa south of the Sahara, the course will stress such topics as the slave trade, African resistance to French conquest, colonial rule and its legacy.

PROFESSOR ECHENBERG

101-432A. THE HISTORICAL LITERATURE OF THE MARITIME PROVINCES. (3 Credits; *Prerequisite:* History 202D or equivalent or consent of instructor.) An examination of themes in the history of the Maritime Provinces since 1755, based on historical novels, poetry and travel accounts. This course will examine maritime attitudes and responses to Canada, the American Revolution, settlement, industrialization, confederation and World War I. PROFESSOR MILLER

101-435D. GERMANY IN THE 20TH CENTURY. (6 Credits; *Prerequisite:* History 235D or consent of instructor.) First World War: national and international aspects; another revolution arrested; unsolved problems; Weimar: economic crisis, frustrated energies, and nationalism; rise of Hitler; structure of the National Socialist state; blue-print for World Power; Second World War; attempts to overthrow Hitler; the revolt of conscience; defeat and division; the Cold War and the question of German unity; the two German states in the post-War era.

PROFESSOR HOFFMANN

101-438B. SOCIAL ORGANIZATION IN MODERN CHINA. (3 Credits; *Prerequisite:* History 208D, 308D or 408A; Not given in 1973-74.) Aspects of Chinese social organization (the family, social mobility, urbanization). Emphasis on the traditional forms and their changes in the modern period. PROFESSOR LAFFEY

101-442B. CANADIAN INTELLECTUAL HISTORY. (3 Credits; *Prerequisite:* History 202D or equivalent, or consent of instructor; Not given 1973-74.) An examination of the roots and development of ideas such as nationalism, socialism, corporatism, imperialism, social Darwinism, l'Action Catholique, and social gospel in Canada since 1867.

PROFESSOR LAMONDE (of the French Canadian Studies Centre)

101-443B. COMMUNICATIONS, SOCIETY, AND PUBLIC POLICY IN CANADA. (3 Credits; *Prerequisite:* History 202D; Not given in 1973-74.) This course will be a study of the development of Canada's communication systems and its repercussions on the political, social, and cultural life of Canadians. PROFESSOR LaPIERRE

101-448B. JAPANESE INTELLECTUAL HISTORY. (3 Credits; *Prerequisite:* History 208D or 308D or 318D or consent of instructor; Not given in 1973-74.) Basic schools of Japanese thought, premodern and modern, which helped to shape and reshape Japanese civilization from the Buddhist theory of negation to Shinto nationalism, from Tokugawa Neo-Confucianism to Christian-socialist pacifism. PROFESSOR BAMBA

101-452D. SOURCES OF CONFLICT IN CANADIAN HISTORY. (6 Credits; *Prerequisite:* History 202D; Not given in 1973-74.) A study of the effect of sectionalism, regionalism, separatism and ethnic problems upon Canadian development since 1867. Themes will include Maritimes' dissatisfaction, Western integration, the role and scope of "ethnic groups", religious divisions, the French Canadian presence, regional economic disparities and the impact of native peoples. PROFESSOR LaPIERRE

101-484D. THE COMING OF THE FIRST WORLD WAR. (Honours section of History 334D.) (6 Credits; *Prerequisite:* Any course in Modern European History; Not given in 1973-74.) PROFESSOR WEINROTH

101-485D. CONTEMPORARY EUROPEAN HISTORY. (Honours section of History 315D.) (6 Credits; *Prerequisite:* Any course in European History; Not given in 1973-74.) PROFESSOR WEINROTH

HISTORY 473D, 477D, 479D, 481D, 482D, 483D, 486D, 488D, 489D, 490D, 491D, 494D-498D. Honours Subjects and Seminars.

101-001. HISTORY AND HISTORICAL STUDIES. (Non-credit optional series of lectures). A series of lectures by the members of the Department devoted to the place of history in the social sciences, the methodology of historical studies and the relation of history to the humanities and to the sciences. Lectures will be primarily designed for Upper year Honours students in History — but lectures will be open to interested students. MEMBERS OF THE DEPARTMENT

Honours Seminars

101-473D. SEMINAR: CANADIAN HISTORY: ITS METHODOLOGY AND HISTORIOGRAPHY. (6 Credits; This course is not open to candidates who have previously taken History 412D and/or 472D.) A reading knowledge of French is essential. STAFF

101-477D. SEMINAR: THE JEWS OF THE ITALIAN PENINSULA FROM THE ROMAN REPUBLIC TO THE ITALIAN REPUBLIC OF 1946. (6 Credits; Not given in 1973-74.) PROFESSOR ————

101-479D. SEMINAR: JEWISH HISTORY. (6 Credits; *Prerequisite:* History 207D or its equivalent.) PROFESSOR SWETSCHINSKI

181-481D. SEMINAR: UNITED STATES IN THE COLONIAL ERA. (6 Credits.) PROFESSOR RIGGS

101-482D. SEMINAR: BRITISH RADICALISM AND LEFT-WING MOVEMENTS ON THE EUROPEAN CONTINENT. (6 Credits.) PROFESSOR WEINROTH

101-486D. SEMINAR: AFRICA AND THE TWO WORLD WARS. (6 Credits.) PROFESSOR ECHENBERG

101-488D. SEMINAR: MODERN FRENCH INTELLECTUAL HISTORY. (6 Credits; Not given in 1973-74.) PROFESSOR HELLMAN

101-489D. SEMINAR: PROBLEMS IN GERMAN HISTORY IN THE 20th CENTURY. (6 Credits; Not given in 1973-74.) PROFESSOR HOFFMANN

101-494D. SEMINAR: POLITICAL AND SOCIAL IDEAS IN TUDOR AND STUART BRITAIN. (6 Credits.) PROFESSOR MAXWELL

101-495D. SEMINAR: FRANCE DURING THE ANCIEN REGIME. (6 Credits.) PROFESSOR BOULLE

101-496D. SEMINAR: REVOLUTIONARY MOVEMENT IN RUSSIA IN THE NINETEENTH CENTURY. (6 Credits.) PROFESSOR SCHLIEPER

101-497D. SEMINAR: TRADITION AND CHANGE IN CHINA. (6 Credits.) PROFESSORS BURCHILL AND HSIEH FROM THE CENTRE FOR EAST ASIAN STUDIES

101-498D. SEMINAR: PROBLEMS IN MODERN JAPANESE HISTORY. (6 Credits.) PROFESSOR BAMBA

INDUSTRIAL RELATIONS PROGRAM

General Office, Room 505, Samuel Bronfman Bldg., Telephone 392-3022

The Industrial Relations Major is designed for the undergraduate student who wishes to earn a B.A. or B.Com. degree with a concentration of courses chosen from disciplines with an emphasis upon Industrial Relations. The main economic and social forces which affect the employer-employee relationship are examined in a theoretical and practical setting. The student can choose from a wide range of courses in deciding how he or she will constitue the program, being able to concentrate to an extent in the area of industrial relations which interests him or her.

Advisers: Prof. F. Bairstow, Room 515, Samuel Bronfman Bldg, 392-3077
Prof. W. Westley, Room 513, Samuel Bronfman Bldg, 392-3075

All Industrial Relations Majors regardless of option must take the following courses:

Economics	154-200D	
Industrial Relations	279-293D	
	-394B	
	-491D	
	-492D	24 credits

For those selecting the Economics option the following courses are required:

Introductory Sociology	166-312A	
	-307D	18 credits
or		
Behavioural Science I and II (see Faculty of Management Book)		
Plus	154-306D	
	-307D	18 credits

For those selecting the Sociology option the following courses are required:

Introductory Sociology	166-312A	
	-260B	
	-217A	
	-350A	
	-417B	
	-461B	18 credits

In addition to the required courses listed above, 12 credits must be selected by students in both streams from the options listed below:

History 101-202D, 221B, 311A, 363D, 403D
Political Science 160-320A, 321D, 325D, 327D
Economics 154-311D, 316A, 426D
Sociology 166-342A, 343B, 224B, 410A, 420B
Management 272-420A, 421B, 422A, 462D

For those majoring in Industrial Relations in the Commerce Faculty, the following courses will be compulsory:

Economics	154-200D
Industrial Relations	279-293D
	-394B
	-491D
	-492D
Management	280-221A
	-222B
	-271A
	-272B
	-323A

Options:	
Economics	154-306D
	-426D
Sociology	166-312A
	-260B
	-461B

Course Descriptions

279-293D. INTRODUCTION TO INDUSTRIAL RELATIONS. (6 credits.) An introduction to the problems of employer-employee relations, including an analysis of the personnel function, the structure, function and government of the modern trade union movement, labour legislation, and the state function and public interest in industrial relations. PROFESSOR BAIRSTOW

279-394B. COLLECTIVE BARGAINING. (3 Credits.) This course is designed for those students who wish to study principles in collective bargaining in Canada and abroad. It deals with the structure of the bargaining parties and the structure of bargaining itself. It is problem oriented and relies heavily on empirical data and case problems. PROFESSOR WOODS

279-491D. INDUSTRIAL RELATIONS IN PRACTICE. (6 Credits; *Prerequisites:* 1) Introductory Economics, 2) Behavioural Science I and II, offered by the Faculty of Management or Introductory Sociology.) The object of this course is to give the students an opportunity to apply the knowledge that they have gained in their Industrial Relations Program. Students in this course will be encouraged to come to grips with a wide range of problems in industrial relations theory, policy and practice. This is achieved by means of guided reading and small discussion groups, mock collective bargaining sessions, contact with practitioners in the field and problem-oriented research assignments. (Compulsory for Final year Industrial Relations Majors. Others by permission of the instructor.) PROFESSOR GOLDENBERG

279-492D. PUBLIC POLICY IN INDUSTRIAL RELATIONS. (6 credits.) Collective bargaining and public policy towards industrial relations. Emphasis is placed on recent public investigations into labour relations in the federal and provincial jurisdictions; international comparisons are included. PROFESSOR WOODS

ITALIAN LANGUAGE AND LITERATURE (132)

Samuel Bronfman Building, Room 637; *General Telephone Number:* 392-4567

Major in Italian

30 credits to be chosen from the following: Italian 230D, 240D, 251A, 252B, 301A, 302B, 351A, 352B, 401A, 402B, 451A, 452B, 461A, 462B, 464B;

12 credits: 2 compulsory courses, Italian 360D and 470D;

12 other credits in Arts or Social Sciences subjects chosen in consultation with the Department.

Prerequisites: see under individual courses.

Adviser: Professor P. D. Stewart, Samuel Bronfman Building, Room 637-A, 392-4567.

Honours in Italian

Admission to the Honours program in Italian requires departmental approval. Students wishing to register in the program should consult with the Department as early as possible.

Students may begin Honours in Italian in the Second year, instead of the First year, if in the opinion of the Department they are found qualified to do so.

Courses required: 30 credits to be chosen from the following: Italian 230D, 240D, 251A, 252B, 301A, 302B, 351A, 352B, 401A, 402B, 451A, 452B, 461A, 462B, 464B;

12 credits: 2 compulsory courses, Italian 360D and 470D;

6 credits: 1 compulsory tutorial, Italian 490D. This will appear as a sixth course on the student's final year record, i.e. it will be a 16th course in the 15 course B.A. program.

A minimum mark of 65% is required in each of the above listed courses.

Prerequisites: see under individual courses.

Adviser: Professor P. D. Stewart, Samuel Bronfman Building, Room 637-A, 392-4567.

Joint Honours

Students may combine Honours in Italian with Honours in any one of the following subjects: English, French, German, Latin, Linguistics, Philosophy, Russian, Spanish. Admission to Joint Honours requires departmental approval. Students wishing to register in the program should consult with the Department as early as possible.

Students may register for Joint Honours in the Second year, instead of the First year, if in the opinion of the Departments they are found qualified to do so.

Italian courses required: 36 credits to be chosen from the following: 230D, 240D, 251A, 252B, 301A, 302B, 351A, 352B, 360D, 401A, 402B, 451A, 452B, 461A, 462B, 464B, 470D.

A minimum mark of 65% is required in each of the above listed courses.

Prerequisites: see under individual courses.

Adviser: Professor P. D. Stewart, Samuel Bronfman Building, Room 637-A, 392-4567.

Course Descriptions

Two sets of courses are offered by the Department:

a) Italian 132-200D, 205D, 210D, 215D, 230D, 240D, 251A, 252B, 301A, 302B, 351A, 352B, 360D, 401A, 402B, 451A, 452B, 461A, 462B, 464B, 470D, 490D: courses intended for students wishing to learn, or improve their knowledge of the language, and to study Italian literature in the original;

b) Italian 132-225D, 325A and 326B: courses on Italian literature given in English; Italian authors will be read in the original or in translation as preferred by students; knowledge of the Italian language is not required.

Students taking Italian in order to satisfy the Language Requirement of the College Equivalent Program can offer themselves for examination only in courses listed in group a).

132-200D. ITALIAN LANGUAGE. INTENSIVE. (12 credits; *Not given in 1973-74.*) For students who have had no opportunity to acquire any knowledge of Italian. Intensive course designed to bring students to the same level of knowledge of the language as those who have taken CEGEP Intermediate Italian. STAFF

132-205D. ITALIAN LANGUAGE FOR BEGINNERS. (6 credits; 3 hours and laboratory; *Texts:* D'Andrea & Stewart, *Il manuale italiano; Mondadori's Pocket Dictionary;* Buzzati, *Un caso clinico:* Appelton-Century-Crofts.) Grammar, reading, dictation. Intensive practice in speech patterns and written structures. Conversation and composition. Visual material and selected readings will be used in describing the making of contemporary Italy. Opportunity for extra practice in Italian conversation is provided by the Department. STAFF

132-210D. ITALIAN LANGUAGE AND CIVILIZATION. (9 credits; 5 hours; *Prerequisites*: Permission of the Department; *Texts*: D'Andrea & Stewart, *Il manuale italiano*; D'Andrea & Stewart, *Antologia italiana*; Pacifici, *Italia: vita e cultura*: Random House; Olken, *Racconti del Novecento*: Appleton-Century-Crofts; Buzzati, *Un caso clinico*: Appleton-Century-Crofts.) Grammar, reading, conversation and composition. An outline of Italian civilization. This course is intended to enable students who have no formal grounding in the Italian language, to obtain in one year the same level of competence as students who have taken CEGEP Intermediate Italian. MISS SACCONAGHI

132-215D. INTRODUCTION TO ITALIAN LITERATURE. GRAMMAR. CONVERSATION, AND FREE COMPOSITION. (6 credits; *Prerequisite*: Italian 205D or the equivalent; *Texts*: D'Andrea & Stewart, *Il manuale italiano*; D'Andrea & Stewart, *Antologia italiana; Dizionario Garzanti della lingua italiana;* Sansone, *Storia della letteratura italiana:* Principato; Lussu, *Un anno sull'altipiano:* Einaudi; Fenoglio, *Una questione privata:* Garzanti.) A survey of Italian literature with special emphasis on some aspects of the Italian Novel. Reading of selected works and group discussion. STAFF

132-225D. MAIN TRENDS AND MAJOR WRITERS OF ITALIAN LITERATURE. (6 credits; 1 lecture hour and 2 conference hours; *Not given in 1973-74.*) Lectures are given in English. Readings in Italian or in translation, as preferred by students. This course is intended to give students, whether they know Italian or not, an insight into the main problems of the Italian literary tradition. PROFESSOR D'ANDREA & STAFF

132-230D. SURVEY OF ITALIAN LITERATURE. (6 credits; *Prerequisite:* CEGEP Elementary Italian, or the equivalent; *Not given in 1973-74.*) Readings from representative works of Italian literature; special emphasis on the nineteenth and twentieth centuries. STAFF

132-240D. MANZONI AND THE ITALIAN LITERATURE OF THE "RISORGIMENTO". (6 credits; *Prerequisite:* CEGEP Intermediate Italian, or permission of the Department.) The Italian Romantic movement and its social and political background. The intellectual life of Alessandro Manzoni as reflected in his novel, *I promessi sposi.* PROFESSOR PICONE

132-251A. THE "COMMEDIA DELL'ARTE". (3 credits; *Prerequisite:* CEGEP Intermediate Italian, or permission of the Department; *Texts: Dizionario Garzanti della lingua italiana;* D'Amico, *Storia del teatro drammatico:* Garzanti; D'Andrea & Stewart, *Antologia italiana.*) Playhouses, actors, stage techniques, masks and scenarios of the "Commedia dell'arte." PROFESSOR STEWART

132-252B. ITALIAN DRAMA FROM GOLDONI TO PIRANDELLO. (3 credits; *Prerequisite:* Italian 251A, or permission of the Department; *Texts: Dizionario Garzanti della lingua italiana;* D'Amico, *Storia del teatro drammatico:* Garzanti; Goldoni, *La Bottega del Caffè, Il Bugiardo, La Locandiera, I Rusteghi, Il Ventaglio:* Signorelli; Pirandello, *Sei Personaggi in cerca d'autore, Enrico IV:* Mondadori.) A study of drama in Italy from the eighteenth to the twentieth century, with emphasis on Goldoni and Pirandello. PROFESSOR STEWART

132-301A. LEOPARDI AND THE ITALIAN POETRY OF THE 19th CENTURY. (3 credits; *Prerequisite:* Italian 240D, 251A or 252B, or permission of the Department.) Readings from Leopardi's *Canti* and from representative works of other nineteenth-century poets. PROFESSOR PICONE

132-302B. CONTEMPORARY ITALIAN PROSE. (3 credits; *Prerequisite:* Italian 240D, 251A or 252B, or permission of the Department.) Italian novelists, playwrights, diarists, and essayists from 1945 to the present in the context of the Italian post-war society. PROFESSOR PICONE

132-325A. DANTE AND THE MIDDLE AGES. (3 credits; *Prerequisite:* Italian 225D, or permission of the Department; *Not given in 1973-74*; Lectures are given in English. Readings in Italian or in translation, as preferred by students. Students are not required to take language courses as prerequisites.) Special emphasis will be placed on the history of ideas and on the cultural contacts of Italy with England and France during the Middle Ages. PROFESSOR D'ANDREA & STAFF

132-326B. THE RENAISSANCE: PETRARCH, BOCCACCIO, AND MACHIAVELLI. (3 credits; *Prerequisite:* Italian 225D, or permission of the Department; *Not given in 1973-74*; Lectures are given in English. Readings in Italian or in translation, as preferred by students. Students are not required to take language courses as prerequisites.) Special emphasis will be placed on the history of ideas and on the cultural contacts of Italy with England and France during the Renaissance. PROFESSOR D'ANDREA & STAFF

132-351A. ARIOSTO'S ORLANDO FURIOSO. (3 credits; *Prerequisite:* Italian 240D, 251A or 252B, or permission of the Department; *Not given in 1973-74.*) The chivalresque genre and the courtly life of the Renaissance. Readings from Pulci's *Morgante,* Boiardo's *Orlando innamorato,* Castiglione's *Cortegiano,* and from the *Orlando Furioso.* PROFESSOR STEWART

132-352B. FROM THE RENAISSANCE TO THE BAROQUE AGE: TASSO; THE ITALIAN PROSE FROM THE LATE 16th TO THE EARLY 18th CENTURY. (3 credits; *Prerequisite:* Italian 351A, or permission of the Department; *Not given in 1973-74.*) The crisis of the Italian Renaissance and Tasso's *Gerusalemme Liberata.* Literary criticism; erudition; scientific and philosophical prose from Galilei to Vico. PROFESSOR STEWART

132-360D. SEMINAR ON ITALIAN STYLISTICS AND COMPOSITION. (6 credits; 2 lecture hours per week and report on special assignment; *Prerequisite:* Permission of the Department.) Intensive practice in stylistics and composition, with special emphasis on literary style. Seminar discussions or exercises and papers submitted by the students. Oral dissertations on various subjects, mainly of a literary character, prepared and delivered by students. STAFF

132-401A. VERGA AND THE "VERISMO". (3 credits; *Prerequisite:* Italian 240D, 251A or 252B, or permission of the Department; *Not given in 1973-74.*) The realistic movement in Italian narrative prose (end of the 19th and beginning of the 20th century), with special emphasis on the novels and short stories of its main representative, Giovanni Verga. PROFESSOR PICONE

132-402B. MODERN ITALIAN LITERATURE. (3 credits; *Prerequisite:* Italian 401A, or permission of the Department; *Not given in 1973-74.*) A study of representative works of major Italian twentieth-century authors. PROFESSOR PICONE

132-451A. BOCCACCIO AND THE ITALIAN NOVELLA. (3 credits; *Prerequisite:* Italian 240D, 251A or 252B, or permission of the Department.) A study of Boccaccio's *Decameron* and of the Italian narrative prose up to the sixteenth century PROFESSOR STEWART

132-452B. THE ITALIAN DRAMA OF THE RENAISSANCE. (3 credits; *Prerequisite:* Italian 451A, or permission of the Department.) The role of Humanism in the revival of Drama. Secular and religious festivals. The audience and the stage. Representative works of the major playwrights. PROFESSOR STEWART

132-461A. DANTE: THE DIVINE COMEDY. (3 Credits; *Prerequisites:* Italian 240D, 251A or 252B, or the equivalent, and permission of the Department.) The structure and intellectual background of the *Divine Comedy:* a reading and interpretation of the poem; a discussion of the main trends in contemporary Dante scholarship. PROFESSOR D'ANDREA

132-462B. PETRARCH AND PETRARCHISM. (3 credits; *Prerequisites:* Italian 240D, 251A or 252B, or the equivalent, and permission of the Department; *Not given in 1973-74.*) Petrarch's life, his temperament, his works; a reading and interpretation of his lyrical poetry; an account of his influence as a lyric poet in Italy and abroad. PROFESSOR D'ANDREA

132-464B. MACHIAVELLI: THE PRINCE. (3 credits; *Prerequisites:* Italian 240D, 251A or 252B, or the equivalent, and permission of the Department.) An analysis of the text of *The Prince.* Selected readings from Machiavelli's other works. PROFESSOR D'ANDREA

132-470D. SEMINAR ON ITALIAN LITERATURE. (6 credits; 2 lecture hours per week and report on special assignment; *Prerequisite:* permission of the Department.) Students will be assigned a reading program designed to integrate their knowledge of Italian literature, and will be required to take part in weekly Seminar discussions with Staff members PROFESSOR D'ANDREA & STAFF

132-490D. TUTORIAL. (6 credits; *Prerequisite:* For Honours students only.) Upon entry into the Honours program in Italian, every student will be entrusted to a Tutor. The Tutor will meet the student regularly during the term to discuss special assignments (readings, essays, etc.) STAFF

JEWISH STUDIES PROGRAM (135)

3511 Peel Street, Room 103, telephone 392-5969.

The Jewish Studies Program of McGill University, established in 1968, offers an interdisciplinary approach to Jewish learning at the undergraduate level. The aims of the Program include:

— Providing a selection of courses which will enable the student not majoring in Jewish Studies to broaden his knowledge of Jewish history and culture;

— Providing specialized courses in the various disciplines that comprise Jewish Studies for the student who has specific academic interests;

— Providing comprehensive undergraduate majors and honours programs, culminating in advanced seminars and tutorials for students contemplating careers in the various and ramified fields of Judaica. The Honours program in Jewish Studies will give the student the necessary linguistic, textual and bibliographical knowledge to enable him to pursue graduate work in Jewish Studies.

The Program consists of courses in Hebrew and Yiddish language and literature, complemented by courses in Jewish history and philosophy offered in their respective departments. Offerings currently include complete language sequences in both Hebrew and Yiddish, as well as advanced courses in Hebrew Literature — Rabbinic, Mediaeval and Modern — and Yiddish literature. Some of the advanced courses involve textual studies requiring a knowledge of the original languages; others are intended for students unacquainted with the languages. Many of the courses in the Jewish Studies Program are cross-listed with those offered by other departments viz. History, Philosophy, Comparative Literature; these courses are credited towards the Major or Honours program.

Although the Jewish Studies Program at McGill is multifaceted, treating many of the most significant areas of Judaica, our major focus, we hope, will be on the modern period, emerging from an intensive interdisciplinary study of 19th and 20th Century Hebrew and Yiddish literature and intellectual and social history. Consonant with this orientation, the establishment of an M.A. program in comparative Hebrew and Yiddish literature is projected in the near future.

Major in Jewish Studies

A Major in Jewish Studies is composed of nine Jewish Studies courses, including at least one Jewish language completed after three years of instruction. In addition, at least two of the nine courses should be taken within the Program's offerings in

Philosophy, History, and Religious Studies. A student who meets the third year language requirement in one Jewish language may submit the first year of the second Jewish Language towards the nine course total. For further information, contact Professor Harvey at 392-5155.

Honours in Jewish Studies

A B.A. (Honours) in Jewish Studies is composed of eleven courses within the Program's offerings. The student shall take three courses in Hebrew (given in Hebrew) at at least the third year of instruction. In addition, the student will take at least two courses in Jewish history (History 207D is required), at least one course in Jewish philosophy, and also *at least* one tutorial or seminar course in Hebrew, Yiddish, Jewish History or Jewish Philosophy. A student who meets the third year language requirement in Hebrew may submit the first year of Yiddish towards the eleven course total. In addition to the requirements for the Honours B.A. degree, Honours in Jewish Studies requires (a) a grade of at least B in every Jewish Studies course and (b) a senior thesis in some phase of Jewish Studies prepared under the direction of a staff member. For further information, contact Professor Harvey at 392-5155.

Course Descriptions

Courses listed below fall under two categories — those which are primarily devoted to Jewish material, and those which are secondarily so concerned.

The middle digit of a Jewish Studies course number designates the cultural domain of the course: Middle digits 0, 1 designate a Hebrew course in English; Middle digits 2, 3, 4 designate a Hebrew course in Hebrew; Middle digit 5 designates a miscellaneous Jewish Studies course given in English; Middle digits 6, 7 designate a Yiddish course in English; and Middle digits 8, 9 designate a Yiddish course in Yiddish.

HEBREW LANGUAGE AND LITERATURE SEQUENCE

135-201D. SURVEY OF HEBREW LITERATURE OF THE BIBLICAL PERIOD. (6 credits. *Not given in 1973-74.*)

135-220D. INTRODUCTORY HEBREW. (6 credits.) STAFF

135-301D. LITERATURE OF THE SECOND COMMONWEALTH AND TALMUDIC PERIODS. (6 credits; *Not given in 1973-74.)* A study of classic post-Biblical texts. First term: Midrash, Mishnah and Talmud. Second term: Historical and sectarian works; Apocrypha, Philo, Josephus, Dead Sea Scrolls. Lectures and readings in English.

135-309D. THE IDEA OF THE JEWISH PEOPLE. (6 credits; *Prerequisite:* History 207D or permission of instructor. *Not given in 1973-74.)* The history and significance of "peoplehood" in Judaism from the Biblical Period until the French Revolution. The foci of the course will be (a) The meaning of the concept in Jewish thought and (b) The political structures that evolved from it.

135-311D. HISTORY OF JEWISH MESSIANISM AND MESSIANIC THOUGHT FROM BIBLICAL TIMES UNTIL SABBETAI ZEVI. (6 credits.) First term: Messianic thought in the Bible, apocalyptic literature, Dead Sea Scrolls, and Rabbinic literature. Second term: Messianic thought in Mediaeval Jewish philosophy and mysticism. Messianic movements in the Middle Ages. Sabbatianism. Lectures and readings are in English. *Prerequisite:* University status or permission of instructor. PROFESSOR KAPLAN

135-320D. INTERMEDIATE HEBREW. (6 credits.) STAFF

135-340D. ADVANCED HEBREW. (6 credits.) MR. LEVI

135-343D. INTRODUCTION TO BIBLICAL TEXTS. (6 credits. *Prerequisite:* Hebrew 320D or its equivalent. *Not given in 1973-74.)* Detailed number of Biblical texts will be carefully examined and analysed. In Hebrew.

135-345D. INTRODUCTION TO RABBINIC LITERATURE. (6 credits.) An introduction to the study of rabbinic texts (Tannaitic and Amoraic) in the original. Both conceptual analysis and critical method will be stressed. This course is given in Hebrew and may be taken as an alternative to Hebrew 340D. PROFESSOR KAPLAN

135-403D. IDEAS AND MOTIFS OF CLASSICAL JUDAISM. (6 credits; *Prerequisite:* Hebrew 301D or Hebrew 345D or permission of instructor. *Not given in 1973-74.)* First term: Basic motifs and values of rabbinic thought; God, man, and peoplehood. Second term: the basis, function and scope of rabbinic ethics; law, justice, and community. Lectures and readings in English. PROFESSOR KAPLAN

135-420D. MODERN HEBREW LITERATURE. (6 credits.) *Prerequisite:* Hebrew 340D or permission of instructor. MR. LEVI

135-421D. HEBREW LITERATURE IN THE ISLAMIC WORLD. (6 credits. *Prerequisite:* Hebrew 340D or permission of instructor; *Not given in 1973-74.)* Through the reading of the original Hebrew texts, the student will be introduced to the civilization of the Jews in the Islamic world and the cultural relationships between Jews and Arabs in the period 500-1500 A.D. TBA

135-444D. TUTORIAL IN HEBREW LITERATURE. (6 credits. *Prerequisite:* Fluency in Hebrew reading is required.) Topic for 1973-74: Mishneh-Torah of Maimonides. PROFESSOR KAPLAN

135-445D. TUTORIAL IN HEBREW LITERATURE. (6 credits.) PROFESSOR KAPLAN

135-446D. TUTORIAL IN HEBREW LITERATURE. (6 credits.) PROFESSOR KAPLAN

135-447D. TUTORIAL IN HEBREW LITERATURE. (6 credits.) Topic for 1973-74: To be announced. MR. LEVI

135-448D. TUTORIAL IN HEBREW LITERATURE. (6 credits.) MR. LEVI

135-449D. TUTORIAL IN HEBREW LITERATURE. (6 credits.) MR. LEVI

YIDDISH LANGUAGE AND LITERATURE-SEQUENCE

135-280D. YIDDISH LANGUAGE. (6 credits.) (1 laboratory period.) Concentrated introduction to spoken and written Yiddish. Selected readings in Yiddish literature. MR. TENCER

135-360D. MODERN YIDDISH PROSE. (6 credits.) Treats the development of Yiddish prose and poetry from 1864 to the present. Lectures and readings in English. PROFESSOR WISSE

135-380D. INTERMEDIATE YIDDISH. (6 credits.) This course is designed to develop the students language skills upon completion of the text *College Yiddish* (Vol. 1). Selected literary texts will be studied and themes will be set for composition in Yiddish to improve the students grasp of proper usage and style .*Prerequisite:* Yiddish 280D or permission of instructor. PROFESSOR ORENSTEIN

135-381D. AMERICAN YIDDISH LITERATURE. (6 credits.) An intensive study of selected American Yiddish prose and poetry, 1910-1930, with special emphasis on Mani Leib, Zishe Landau, Lamed Shapiro, and Moshe Leib Halpern. *Prerequisite:* Elementary Yiddish (280D) or permission of instructor. PROFESSOR WISSE

135-495D. TUTORIAL IN YIDDISH LITERATURE. (6 credits.) Topic for 1973-74: The Classics of Yiddish Literature: A study of the prose of Mendele, Peretz, and Sholem Aleichem and their contemporaries. PROFESSOR ORENSTEIN

135-496D. TUTORIAL IN YIDDISH LITERATURE. (6 credits.) Topic for 1973-74: The course will deal with Yiddish Literature in Poland between the two World Wars, particularly with *Yung Vilna.* PROFESSOR WISSE

JEWISH STUDIES SEQUENCE

135-351B. STUDIES IN MODERN JEWISH FICTION. (3 credits.) Emphasis on North American authors but some others will be included. Attention will be given to historical background with part of the emphasis on the social and political position of the Jews since early 19th Century. Authors: A. M. Klein, I. B. Singer, and Elie Wiesel among others PROFESSOR LINDEMAN

135-352A. INTER-DISCIPLINARY LECTURES IN JEWISH STUDIES. (3 credits.) *Topic for Fall 1973: The Holocaust, the destruction of European Jewry.* Lectures will be given by members of the Jewish Studies Program in their several disciplines. Questions will be raised concerning the historical and ideological nature of intolerance, racism, genocide and nationalistic and theological anti-semitism. Poems and novels concerning the Holocaust will be discussed. Students are free to concentrate in the area of their choice. In English. STAFF

135-353B. INTER-DISCIPLINARY LECTURES IN JEWISH STUDES. (3 credits.) *Topic for Spring 1974: Zionism.* Lectures will be given by members of the Jewish Studies Program in their several disciplines. The Zionist idea will be analyzed in its historical, political, literary, religious, mystical, and philosophical aspects. Students are free to concentrate in the area of their choice. In English. STAFF

135-356D. THE JEWISH LABOUR MOVEMENT. (6 credits.) This course treats the development of the Jewish Labour Movement both in Eastern Europe and North America from the last quarter of the 19th Century to the Bolshevik Revolution. Special emphasis is given to the problem of nationalism and cosmopolitanism within the Jewish Labour Movement and to the movement's influence on secular Jewish culture. PROFESSOR ORENSTEIN

ADDITIONAL PROGRAM COURSES

101-207D. A HISTORY OF THE JEWS FROM LATE CLASSICAL TIMES TO THE PRESENT. (6 credits.) A general introductory survey of the history of the Jewish people from late classical times to the present in the context of general world history. Emphasis will be placed on general trends and developments, and special attention will be paid to areas of major Jewish settlements. The first term will deal with the period up to 1492, while the second term will

cover the period from 1492 to the present. *Prerequisite:* History 105D possibly concurrently is recommended. PROFESSOR SWETSCHINSKI

101-317D. JEWISH HISTORY FROM THE REFORMATION TO THE FRENCH REVOLUTION. (6 credits.) An examination of the main events, trends and issues in the context of the general background. The first term will be devoted to the Sephardic experience, the second to the Ashkenazi. *Prerequisite:* History 207D or one course in Modern European History is recommended. PROFESSOR SWETSCHINSKI

101-479D. JEWISH HISTORY. (6 credits. *Prerequisite:* History 207D or its equivalent.) TBA

107-345D. SURVEY OF JEWISH PHILOSOPHY. (6 credits.) Discussions of major works of Jewish Philosophers with focus on the nature of man, prophecy, love. First term: Philo of Alexandria to the Maimonidean Revolution. Second term: Spinoza to Existentialism. *Prerequisite:* One course in Philosophy or consent of instructor. PROFESSOR HARVEY

107-452A. THEMES IN THE HISTORY OF JEWISH PHILOSOPHY. (3 credits.) *Topic for 1973-74: Theories of Philosophy and philology and the development of racism. Prerequisite:* Consent of instructor. PROFESSOR POPKIN

107-398A/399B. PHILOSOPHY TUTORIAL. (3 credits.) Students interested in reading Philosophical texts in Hebrew may sign up for a Philosophy tutorial. *Prerequisite:* Permission of instructor. PROFESSOR HARVEY

260-300A. THE POST-BIBLICAL JEWISH TRADITION. (3 credits.) Topic for Fall 1973: *The Origins of Rabbinic Judaism.* A survey of Jewish history and thought from Ezra to the Tannaim; oral tradition; Torah interpretation in the Mishna and Midrashim. PROFESSOR RUNNALLS

260-301B. THE POST-BIBLICAL JEWISH TRADITION. (3 credits.) Topic for Spring 1974: *The Religion and Literature of Sectarian groups.* Apocalyptic thought; Wisdom; Dead Sea Scrolls; Josephus. PROFESSOR RUNNALLS

COURSES OF RELATED INTEREST

260-390D. HEBREW LANGUAGE. (6 credits.) PROFESSOR RUNNALLS

260-490D. ADVANCED BIBLICAL HEBREW. (6 credits.) PROFESSOR CULLY

NOTE: The two above courses are designed to provide a reading knowledge of Biblical Hebrew. They may be taken only with the instructor's permission.

260-200D. RELIGIOUS TRADITION OF THE ANCIENT NEAR EAST. (6 credits.) The religion of Ancient Israel in the setting of the Ancient Near East: a brief consideration of religion in general, its origin, nature and study; other religions of the Ancient Near East, e.g. those of Egypt and Mesopotamia: the religion of Ancient Israel. PROFESSOR RUNNALLS

PROGRAM UNDER DEVELOPMENT

A program in education is now being developed jointly by the Faculty of Education and the Jewish Studies Program. For further information contact either Professor E. Orenstein at the Jewish Studies Program or the Associate Dean's Office, Faculty of Education.

LINGUISTICS (104)

Samuel Bronfman Building, Room 584. Tel. 392-4433

General Information

The field of Linguistics deals with the study of language as a phenomenon of human behaviour and the following course list will indicate the several areas covered. The Department of Linguistics does not normally undertake the teaching of any specific language, especially where provision for such instruction is made elsewhere in the University. Many linguistics courses, however, serve as a useful basis for or adjunct to language learning as well as to other fields of study.

In its undergraduate section the Department of Linguistics offers a Major, Honours and Joint Honours program to students wishing various degrees of concentration in Linguistics.

Major Program

The Major program in Linguistics includes:

1) 36 Credits in Linguistics. The following courses are required: 104-200A and 201B or 200B and 201A, 350A, 351B, 360A, 361B, 400A, 480A. The other courses are selected in consultation with the Department;

2) 18 Credits taken in one or two of the following disciplines: Anthropology, Language (classical or modern), Philosophy, Psychology, Mathematics, Sociology. One of the three courses may be taken in Linguistics.

For information on the Major in Classics and Linguistics, see page 74, Department of Classics.

Inquiries may be addressed to the departmental office or the advisers for undergraduate studies.

Honours Program

The Honours program in Linguistics includes:

1) 42 Credits in Linguistics, to include 104-200A and 201B or 200B and 201A, 350A, 351B, 360A, 361B, 400A, 401B, 480A, 481B, 482D and two other half courses to be selected in consultation with the Department;
2) Four full language courses, beyond the introductory level, in two languages: a major language (18 Credits) and a minor language (6 Credits). Students may choose either a classical language and a modern language, or two modern languages one of which must be French, German or Russian;

   During the final year, students must acquaint themselves through personal readings and/or tape-recorded material with a non-Indo-European language. This work forms part of the requirements for course 482D.
3) 24 Credits in two subjects other than language and linguistics. Anthropology, English, Mathematics, Philosophy, Psychology, and Sociology are recommended, but other subjects may also be included with the permission of the Department.

An average B grade (minimum 65% - G.P.A. of 2.8) is required to maintain Honours standing. Inquiries may be addressed to the departmental office or to the advisers for undergraduate studies.

Joint Honours Programs

Joint Honours programs, combining Linguistics with any one of the following subjects, are available: Anthropology, Classics, English, French, German, Ancient Greek, Italian, Latin, Philosophy, Russian, and Spanish.

Linguistics courses required for Joint Honours in Anthropology and Linguistics: 200A and 201B or 200B and 201A, 230A, 241B, 350A, 351B, 360A, 361B, 480A, 481B and another 400 level half course.

Linguistics courses required for Joint Honours combining Linguistics and a language: 200A and 201B or 201A and 200B, 350A, 351B, 360A, 361B, 400A, 401B, 480A, 481B, and two other semester courses to be determined in consultation with the Department.

For courses required in other subjects combined with Linguistics, please consult the other Department.

An average B grade (minimum 65% - G.P.A. of 2.8) is required to maintain Honours standing in Linguistics. Inquiries may be addressed to the departmental office or to the advisers for undergraduate studies.

Course Descriptions

NOTE: One A and one B section from Linguistics 200 or 201 is the normal prerequisite to all upper level Linguistics courses.

104-200A,B/104-201A,B. INTRODUCTION TO THE STUDY OF LANGUAGE. (3 credits each semester.) The first section of the course will discuss some of the fundamental questions in explaining and describing language. A core of obligatory topics deals with sound, syntax, semantics and language change. In addition to these, the student will make a choice from an extended list of related issues. The second section covers additional areas including linguistics as science, non-verbal communication, language acquisition and loss, bilingualism, language as a formal system, cross-cultural linguistics, language in the arts, the empiricism/rationalism dispute as seen by linguists, and others. There will be only a few introductory lectures following which the student will work independently and in private and group tutorials. The aim of the course is to acquaint beginners in Linguistics with the wide range of contemporary views on language.

104-230A. ANTHROPOLOGICAL LINGUISTICS. (3 credits.) This course will introduce students to language and its place in culture. Major topics will include the following: human language as a unique system, the development of language in mankind and individuals, similarity and diversity among languages, the interdependence between language and culture, the ethnography of speaking, linguistic change. PROFESSOR WEBER

104-241B. SOCIOLINGUISTICS. (3 credits; *Prerequisite:* Linguistics 200A, 201A or 230A.) This course will focus on linguistic correlates, determinants, and consequences of social behaviour. Major topics will include linguistic variation, the description of speech events, the determinants of stylistic and linguistic choice, types of multilingual communities and language planning. PROFESSOR WEBER

104-321B. LINGUISTICS APPLIED TO LANGUAGE LEARNING. (3 credits.) A critical study of the application of linguistic theory and description to first and second language learning. The relationship between spoken and written language. PROFESSOR WEBER

104-350A. INTRODUCTION TO GENERAL PHONETICS. (3 credits; *Prerequisite:* Linguistics 200A or 201A.) Intensive training in the identification and production of speech sounds, followed by an acoustical analysis of speech and a study of the process of auditory perception. Practical sessions in the Phonetics Research Laboratory form part of the course. PROFESSOR RIGAULT

104-351B. PHONOLOGY. (3 credits; *Prerequisite:* Linguistics 350A.) Advanced analytical procedures applied to specific languages. PROFESSOR RIGAULT

104-360A. THEORY OF MORPHOLOGY AND SYNTAX. (3 credits.) Proficiency in the techniques of generative grammatical research developed through application of theory to problems of limited scope. PROFESSOR LIGHTFOOT

104-361B. SEMINAR IN MORPHOLOGY AND SYNTAX. (3 credits; *Prerequisite:* Linguistics 360A.) Detailed research into some linguistic problem, with regard to either language-particular or universal significance, or both. PROFESSOR LIGHTFOOT

104-400A. THEORY AND METHODS OF HISTORICAL LINGUISTICS. (3 credits.) Theory of linguistic change; philological techniques (contrasted with field methods); exemplification from familiar languages.

104-401B. SEMINAR IN HISTORICAL LINGUISTICS. (3 credits; *Prerequisite:* Linguistics 400A.) Problems in the history of selected languages studied for their importance both to particular and to universal grammar. PROFESSOR LIGHTFOOT

104-410A. STRUCTURE OF A SPECIFIC LANGUAGE. (1973: The Structure of Cree) (3 credits.) A detailed study of the structure of a specific language. The topic for 1973 is Cree, a northern Algonquian language typical of the central group. Descriptive studies will be supplemented with reading from selected Cree texts and use of recorded materials. PROFESSOR ELLIS

104-425A. LANGUAGE AND THOUGHT. (Same as PSYCHOLOGY 425A. For description, see under PSYCHOLOGY.)

104-430A/104-431B. AREAL LINGUISTICS. (3 Credits; *Prerequisite:* Linguistics 200A or 201A.) Intensive study of a selected language block relating to a specific geographical, political or cultural area. While the orientation is necessarily linguistic, problems examined may be drawn from the total range of contact between language on the one hand and human culture and society on the other.

104-460A. PROSEMINAR IN A SELECTED FIELD. (3 credits.) Intensive study of a selected field or topic chosen to balance the requirements of the Honours program or provide for coverage of developing or less familiar areas of linguistic inquiry.

104-461B. ADVANCED SYNTAX. (3 credits; *Prerequisite:* Linguistics 361B.) Advanced work in transformational syntax. Examination of different kinds of analyses advocated by proponents of semantically based grammars and proponents of autonomous syntax. Extensive discussion of the separability of syntax and semantics, influence of logicians on syntacticians, status of the notion of a deep structure which is syntactically determinable. PROFESSOR LIGHTFOOT

104-480A. SEMINAR IN LINGUISTIC THEORY. (3 credits.) Discussion of advanced topics chosen for their importance to linguistic theory. Competing views will be compared.

104-481B. FIELD METHODS OF LINGUISTICS. (3 credits.) Elicitation, recording and analysis of linguistic data under simulated field conditions; consideration of typical problems confronting the field analyst. PROFESSOR ELLIS

104-482D. FIELD OR RESEARCH PROJECT. (6 credits.)

MATHEMATICS (189)

Burnside Hall, Room 1005, Telephone 392-5369

General information, Courses and Course descriptions appear on page 204. The following programs of study are designed to provide students with every opportunity to enter a wide variety of fields.

Major in Mathematics

Programs of study for students entering U1 in 1973-74.

The compulsory courses are 189-201A,B, 189-202A,B, 189-221A,B, 189-222A,B, 189-245A,B.

Advisers will approve a program of which 54 credits will be in Mathematics (excluding 201A, B, 202A, B, 221A, B) or allied courses including at least 36 credits from the following: 189-217A, 189-218B, 189-242A, 189-243B, 189-246A, B, 189-314A, B, 189-315A, B, 189-316B, 189-317A, 189-318A, 189-319B, 189-323A, B, 189-324A, B, 189-327B, 189-328B, 189-333A, 189-346B, 189-348A, 189-349B, 189-360B, 189-369D, 189-410D, 189-416A, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B.

Guidelines for Selection of Courses in the Major Program

a. Students are advised to include the following courses in their program: 189-246A,B, 189-314A,B, 189-315A,B, 189-317A, 189-323A,B, 189-324A,B, 308-200A,B.

b. Students planning to pursue graduate studies are advised to include 189-242A, 189-243B and 189-333A in their program, and to consider substituting one or more honours courses for the corresponding courses in the Major program.

c. Students considering a career in teaching are advised to include in their program the following courses: 189-217A, 189-218B, 189-242A, 189-318A, 189-328B, 189-346B, 189-349B.

d. Students interested in applied mathematics or statistics are advised to include in their program the following courses: 189-217A, 189-218B, 189-316B, 189-319B. Depending on their interests, they should in addition take some or all of the following courses: 189-327B, 189-328B, 189-410D, 189-416A, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B, 189-486B.

e. Students interested in computer science are advised to register in the following courses: 189-318A, 189-327B, 189-328B, 189-417A, 308-210A,B, 308-300A,B; they should choose additional courses from 189-319B, 189-410D, 189-416A, 189-423A, 189-424B, 189-425A, 189-447B, 308-640D*, 308-610A*, 308-699D*. *These courses require special permission from the instructors.

f. Students interested in careers in actuarial work, in industry or government are advised to select courses from the following list: 189-319B, 189-327B, 189-328B, 189-369D, 189-410D, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B, 189-416A, 189-486B, 308-210A, B.

The student's attention is called to the fact that a B.Com. degree with a Major in Mathematics is available from the Faculty of Management. In addition the Faculty of Music offers a degree of B.Mus. (Honours in Theory with Mathematics Option.)

Honours Program

The minimum requirement for entry into the Honours Program is that the student has completed with high standing the following courses: 189-201A,B, 189-202A,B, 189-221A,B. He should preferably also have taken 189-222A,B.

Requirements for Honours in Mathematics

For an Honours Degree in Mathematics the student must obtain 90 course credits; at least 60 of these should correspond to Honours courses, or their equivalent not less than 45 to Honours courses in Mathematics. In addition to the latter, the student may count towards his 60 credit Honours requirement:

i) half of the courses he has taken from the Major Program in Mathematics (including Computer Science courses) for which no equivalent Honours course exist;

ii) (with the approval of the Department of Mathematics) certain courses in other departments which are at an Honours level, and are closely linked to Mathematics;

iii) (with the approval of the Department of Mathematics) half the courses he has taken in other departments, which while not necessarily explicitly mathematical in nature, are at an Honours level and broaden the student's scientific training. Students who transfer to Honours in Mathematics from other programs will have credits for previous courses assigned, as appropriate, by the Department.

The following courses are compulsory: 189-271D, 189-272D, 189-371D, 189-372D.

To remain in the Honours Program, and to be awarded the Honours Degree, the student must maintain a 2.8 Grade Point Average.

Guidelines for selection of courses in the Honours Program

a. The compulsory courses may be spread over the three years study.

b. Students taking 189-271D and 189-272D simultaneously are advised to register also for 189-273D.

c. Students are advised to include in their program the following courses: 189-273D, 189-356A, 189-357B, 189-374D, 189-380D.

d. Students interested in Statistics should register for 189-456D and 189-487D in addition to 189-356A and 189-357B.

e. Students in Applied Mathematics should register for some or all of the courses 189-470A, 189-474A, 189-475B, 189-478A and 189-479B in addition to 189-374D. They are also advised to select courses in areas to which they can apply their mathematics.

MUSIC (211)

The Faculty of Music offers several courses that may be taken by students in the Faculties of Arts and of Science. Students following the Bachelor of Arts or Bachelor of Science curriculum may take music courses as electives.

Sequence A is designed for students who have at least high school Matriculation Music or the equivalent. The courses in this series offer a technical study of the theory, analysis, history and literature of western music.

Sequence B is intended for those students who have had little or no formal training in music before coming to university. The courses of this sequence emphasize the study of the history and literature of western music, and contain only that amount of technical study (notation, theory) indispensable to the objectives of these courses.

Students who begin their studies in sequence A normally continue in the same series. However, a change from sequence A to sequence B is allowed after either Music 211-223D or Music 214-180D.

Sequence A

214-180D. HISTORY SURVEY (MEDIAEVAL, RENAISSANCE, AND BAROQUE). (6 credits; *Prerequisite or corequisite:* Music 211-223D or permission of instructor.) PROFESSOR HELMER

211-223D. MELODY AND COUNTERPOINT. (6 credits; *Prerequisite:* Matriculation Music or McGill Preparatory Theory Secondary II or equivalent.) For course description see Music *Department of Theory Handbook.* STAFF

211-224D. TONAL HARMONY AND ANALYSIS. (6 credits; *Prerequisite or corequisite:* 211-223D [or old course 211-121D].) For course description see Music *Department of Theory Handbook.* STAFF

214-280D. HISTORY SURVEY (CLASSICAL AND ROMANTIC; 20th CENTURY). (6 credits; *Prerequisite:* Music 214-180D.) PROFESSOR MINORGAN

211-321D. 19th AND 20th CENTURY THEORY AND ANALYSIS. (6 credits; *Prerequisites:* 211-223D and 211-224D [or old courses 211-121D and 211-221D].) For course description see Music *Department of Theory Handbook.* STAFF

NOTE: Music History and Literature courses 214-380A to -389A all have prerequisites of History Survey 214-180D, *and* -280D, or permission of the instructor. These courses are *not* restricted to Honours students.

214-380A. MEDIAEVAL MUSIC. (3 credits; not given in 1973-73.)
214-381A. RENAISSANCE MUSIC. (3 credits.) PROFESSOR DUCHOW
214-382A. BAROQUE MUSIC. (3 credits; not given in 1973-74.)
214-383A. CLASSICAL MUSIC. (3 credits.) PROFESSOR MARKS
214-384B. ROMANTIC MUSIC. (3 credits; not given in 1973-74.)
214-385B. TWENTIETH CENTURY MUSIC. (3 credits.) PROFESSOR CHERNEY
214-386A. CHAMBER MUSIC LITERATURE. (3 credits; not given in 1973-74.)
214-387B. OPERA LITERATURE. (3 credits; not given in 1973-74.)
214-388B. KEYBOARD LITERATURE. (3 credits.) PROFESSOR HELMER
214-389B. ORCHESTRAL LITERATURE. (3 credits; not given in 1973-74.)
214-390A. VOCAL LITERATURE. (3 credits.) PROFESSOR MARKS
214-391B. CANADIAN MUSIC. (3 credits.) PROFESSOR MINORGAN

Sequence B

214-215D. INTRODUCTION TO THE ART OF MUSIC. (6 Credits; 3 hours plus 1 hour of guided listening; no music prerequisite needed.) A course designed to provide grounding in the historical styles, materials, and forms of western music as well as in related elementary theory and notation. Selected masterpieces of various periods will be presented and analysed. PROFESSOR MARKS

214-316A. MUSIC OF THE MIDDLE AGES. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor.) European music from 600 to 1400 with special emphasis on the social milieu and performance practice of the period. MRS. KIMMEL

214-317B. MUSIC OF THE RENAISSANCE. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor.) A study of the main developments in sacred and secular music of the 15th and 16th centuries. Franco-Flemish tradition and its diffusion in Italy, Spain, Germany and England. Renaissance music and contemporary thought. Poetry and music in the Renaissance. Instrumental music of the Renaissance. MR. DEVRIES

214-318A. MUSIC OF THE BAROQUE. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor). The historical and sociological development of music from 1600 to 1750. Vocal and instrumental music, both sacred and secular. New forms (opera, cantata, oratorio, sonata, concerto grosso, etc.). Musical instruments. Works of composers from G. Gabrieli and Monteverdi to Handel and Bach. MRS. CAVANAGH

214-319B. MUSIC OF THE CLASSICAL PERIOD. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor). The course will survey the music written in the period encompassed by the Pre-Classic foundations of the music of Haydn, Mozart and Beethoven, beginning about 1750, and proceeding up to the death of Franz Schubert in 1828. MRS. CAVANAGH

214-326A. MUSIC OF THE ROMANTIC PERIOD. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor; not given in 1973-74.) The course will trace the development of the Romantic idiom from its beginnings in the late eighteenth century to the end of the nineteenth century, and follow the development by an analysis of works by major composers in the form of lied, symphony, symphonic poem, chamber music and opera.

214-327B. MUSIC OF THE 20th CENTURY. (3 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor; not given in 1973-74.) Major musical developments of the 20th century from turn-of-the-century experimentalism to the present. Nationalism, neo-classicism, dodecaphony, serialism, stochastic music, microtonal music, computer music, etc. Works of composers from Debussy and Mahler to Boulez and Stockhausen.

214-328D. MUSIC CULTURES OF THE WORLD. (6 Credits; 3 hours plus 1 hour of guided listening; *Prerequisite:* Music 214-215D or by permission of the instructor; not given in 1973-74.) An introductory course in folk music designed to provide a basic technical understanding of the theories and methods of Ethnomusicology through the study of representative musical cultures from Asia, the Middle East, the Balkans, and Africa. A survey of the ballad traditions of Europe circulating in oral transmission. In addition, musical aspects will be related to their social and cultural context.

Music Ensembles

Arts or Science students may, with the permission of the instructor and the Associate Dean, participate in one of the following ensembles in a given year. Students should arrange through the Faculty of Music office (392-4501) for the necessary audition.

These courses are *not* restricted to Honours students.

243-289A/243-389B. WOODWIND ENSEMBLE. (6 Credits; *Prerequisite:* Audition.) STAFF

243-290A/243-390B. BAND. (6 Credits; *Prerequisite:* Audition.) PROFESSOR HUGHES

243-291A/243-391B. BRASS ENSEMBLE. (6 Credits; *Prerequisite:* Audition.) PROFESSOR LAWTON

243-292A/243-392B. CONCERT CHOIR. (6 Credits; *Prerequisite:* Audition.) PROFESSOR RIDDELL

243-294A/243-394B. CONTEMPORARY MUSIC ENSEMBLE. (6 Credits; *Prerequisite:* Audition.) PROFESSOR PLAWUTSKY

243-296A/243-396B. OPERA WORKSHOP. (6 Credits; *Prerequisite:* Audition.) PROFESSOR DELLA PERGOLA

243-297A/243-397B. ORCHESTRA. (6 Credits; *Prerequisite:* Audition.) PROFESSOR PLAWUTSKY

243-299A/243-399B. STRING ENSEMBLE. (6 Credits; *Prerequisite:* Audition.) PROFESSOR CULBREATH

NORTH AMERICAN STUDIES PROGRAM

This interdisciplinary program is being offered to give undergraduates an opportunity to gain a fairly comprehensive view of the growth and achievement of Canadian or United States civilizations, or a combination of both. For a fuller description of the Canadian Studies option, see p. 64.

The other choices are: 1) an option in U.S. Studies, concentrating on courses in the American field, or 2) an option in North American Studies in which courses from both areas are elected.

In taking the U.S. Studies Option the student will select a minimum of 54 credits dealing with the United States. These will be drawn from the Departments of English, History, Economics and Political Science.

In taking the North American Studies Option the student will select a minimum of 54 credits among those listed below.

Please consult Professor Buitenhuis, Department of English.

Anthropology

Prerequisites are required for most courses above the E20 level. Students lacking prerequisites or written permission from the course instructor may be required to drop courses.

151-236D. INDIGENOUS PEOPLES OF NORTH AMERICA: A GEOGRAPHICAL AND CULTURAL APPROACH. (6 Credits.)

151-344A. ETHNOHISTORY OF NEW FRANCE. (3 Credits; *Prerequisite:* Honours or major status in Anthropology or consent of instructor.)

Architecture

301-204B. HISTORY OF ARCHITECTURE IN CANADA. *(Prerequisite:* 301-102B.)

Economics

154-200D or 154-250D is prerequisite to all upper level courses in Economics except those for which other provision is made in the course description.

154-205A. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY I. (3 Credits; *Prerequisite:* 154-200D or consent of instructor.)

154-206B. AN INTRODUCTION TO APPLIED POLITICAL ECONOMY II. (3 Credits; *Prerequisite:* 154-205A.)

154-302D. MONEY AND BANKING. (6 Credits.)

154-304D. CANADIAN ECONOMIC POLICY. (6 Credits.)

154-305D. GOVERNMENT AND BUSINESS. (6 Credits.)
154-306D. LABOUR ECONOMICS AND INSTITUTIONS. (6 Credits.)
154-311D. NORTH AMERICAN ECONOMIC DEVELOPMENT. (6 Credits; *Prerequisite:* 154-200D or 154-201D.)
154-312D. POLITICAL ECONOMY OF DEPENDENCE IN THE WESTERN HEMISPHERE. (6 Credits.)
154-352D. MACROECONOMICS. (6 Credits.)
154-400D. ECONOMIC ANALYSIS. (6 Credits.)
154-404D. TRANSPORTATION. (6 Credits.)
154-408D. PUBLIC FINANCE. (6 Credits.)
154-468A. URBAN AND REGIONAL ECONOMICS. (3 Credits.)

English

120-E23A (228A). CANADIAN LITERATURE. (3 Credits.)
120-E32B (229B). CANADIAN LITERATURE. (3 Credits.)
120-360D. THE DEVELOPMENT OF PROSE FICTION IN CANADIAN LITERATURE. (6 Credits.)
120-463A. CANADIAN LITERATURE. (3 Credits.)
120-230A. AMERICAN LITERATURE. (3 Credits.) Puritans — 1860.
120-231B. AMERICAN LITERATURE. (3 Credits.) 1860 to present.
120-334A. 20TH CENTURY AMERICAN POETRY. (3 Credits.)
120-335D. MODERN NORTH AMERICAN FICTION. (6 Credits.)
120-461B. AMERICAN LITERATURE CONFERENCE COURSE. (3 Credits.) Poetry of T. S. Eliot.
120-468A. LITERARY THEMES. (3 Credits.) Emily Dickinson.
120-458B. 20TH CENTURY. (3 Credits.) William Faulkner.

French

126-227A. INTRODUCTION A LA LITTERATURE QUEBECOISE I. (3 Credits.)
126-227B. INTRODUCTION A LA LITTERATURE QUEBECOISE II. (3 Credits.)
126-229D. INITIATION A LA LITTERATURE QUEBECOISE. (6 Credits.)
126-264D. HISTOIRE DE LA CIVILISATION QUEBECOISE. (6 Credits.)
126-329D. ROMAN QUEBECOIS CONTEMPORAIN. (6 Credits.)
126-333A. LE THEATRE QUEBECOIS. (3 Credits.)
126-334B. LE CINEMA QUEBECOIS. (3 Credits.)
126-361D. ROMAN QUEBECOIS I. (6 Credits.)
126-364D. LA POESIE QUEBECOISE. (6 Credits.)
126-432D. POESIE QUEBECOISE CONTEMPORAINE. (6 Credits.)
126-433A. LES CHANSONNIERS QUEBECOIS. (6 Credits.)
126-436D. EVOLUTION DES IDEES AU QUEBEC AU 19e SIECLE. (6 Credits.)

PHILOSOPHY (107)

Samuel Bronfman Building, Telephone 392-5170

Major in Philosophy

Seven full courses or equivalent half courses (42 credits) in Philosophy, to be selected with the approval of the Department, plus two other full courses, or equivalent (12 credits), from Arts or Science Departments. Students are required to take the following three courses:

FIRST YEAR: Introduction to Philosophy 107-200D

ANY YEAR: Greek Philosophy 107-340D
Either Mediaeval Philosophy 107-341D, *or* Modern Philosophy 107-350D, *or* 19th Century Philosophy 107-351D.

The Philosophy course offerings are grouped below under several headings. These categories are not intended to be definitive, but merely to serve as a rough guide to the student. Note that two additional full courses are required for the Philosophy major. Thus the student emphasizing (for example) the history of philosophy will find appropriate related courses within Classics, Islamic Studies, and Jewish Studies, etc. The student emphasizing philosophy of language will find related courses in Linguistics. However, approval of the Departmental Adviser is required both for the seven Philosophy and the two "outside" courses.

Logic & Philosophy of Science:
107-210A, 211B, 321A, 335D, 410D, 411D, 420D, 423A, 424B, 427A, 428B

Philosophy of Language:
107-212B, 313D, 317A, 318B, 411D, 417D, 413A, 414B

Value Theory & Philosophy of Religion:
107-301D, 305A, 306B, 332D, 401A, 402B, 404D, 406A, 407B, 431A, 432B, 448A, 472D

Epistemology & Metaphysics:
107-212B, 317A, 318B, 335D, 381D, 411D, 413A, 414B, 481D, 485A, 486B

History of Philosophy:
107-340D, 341D, 350D, 351D, 345D, 401A, 402B, 411D, 413A, 414B, 441A, 442B, 444D, 448A, 452B, 455A, 456B, 458D, 463D, 465D

Major Adviser: Professor Jeremy Walker — 392-5169

Honours in Philosophy

Eleven courses (66 credits) in Philosophy, as prescribed below. In addition, a reading competence in a language which is taught at McGill: this to be demonstrated either by taking a third-year level course or by an examination. (Competence in English and French is presupposed.)

FIRST YEAR:
* Logic 107-210A & 107-211B
* Greek Philosophy 107-340D
* Introduction to Philosophy 107-200D

SECOND YEAR:
Ethics 107-301A & 107-302B
Either Mediaeval Philosophy 107-341D, *or* Modern Philosophy 107-350D, *or* 19th-century Philosophy 107-351D
Tutorial 107-398A & 107-399B, or other optional course in Philosophy
Optional course in Philosophy

THIRD YEAR:
Either Mediaeval Philosophy 107-341D, *or* Modern Philosophy 107-350D, *or* 19th-century Philosophy 107-351D
Half course in 20th-century analytic philosophy
Half course in 20th-century metaphysics or epistemology
Tutorial 107-498A & 107-499B with Honours Thesis
Optional course in Philosophy

Exceptions to the prescribed pattern may be petitioned before the Department through the Adviser.

Joint Honours in Philosophy

Six full courses or equivalent half courses (36 credits) in Philosophy. Courses marked with an asterisk are required; normally Introduction to Philosophy 107-200D will be taken in First year. Consult the Department for specific arrangements.

ADMISSION REQUIREMENT: 3.0 C.G.P.A. A 3.0 G.P.A. overall and 3.0 average in Philosophy courses must be maintained.

Honours Adviser: Professor George DiGiovanni, Tel.: 392-5155.

Course Descriptions

The Department of Philosophy does not use the second digit of the course number to distinguish Honours courses. Where such distinctions exist they will be noted in the prerequisites. Rather, the second digit indicates the general subject category of the course according to the following scheme:

0 — Value theory and related subjects; 1 — Logic and related subjects; 2 — Philosophy of Science; 3 Philosophy of Religion; 4,5,6 — History of Philosophy; 7 — Philosophy of Politics; 8 — Metaphysics; 9 — Tutorials and special seminars.

107-200D. INTRODUCTION TO PHILOSOPHY. (6 Credits.) Topic for 1973-74: Freedom, Morality and Language. An introduction to some of the main themes of philosophy.
PROFESSOR TAYLOR

107-210A. INTRODUCTION TO DEDUCTIVE LOGIC. (3 Credits.) Including Sentential and Quantificational Logic. Not open to students who have taken or are taking Math. 318, Math. 489A and 490B, Phil. 410.
PROFESSOR BEATTY

107-211B. INTRODUCTION TO DEDUCTIVE LOGIC. (3 Credits; *Prerequisite:* Phil. 210A or an equivalent background in logic.) Further topics in logic.
PROFESSOR BEATTY

107-212B. INTRODUCTION TO PHILOSOPHICAL ANALYSIS. (3 Credits; Not given in 1973-74.)

107-301D. ETHICS. (6 Credits.) The main types of ethical theory.
PROFESSOR NORTON

107-305A. AESTHETICS I. (3 Credits; Not given in 1973-74.)

107-306B. AESTHETICS II. (3 Credits; Not given in 1973-74.)

107-313D. PHILOSOPHY OF LANGUAGE. (6 Credits; Not given in 1973-74.)

107-317A. PROBLEMS IN ANALYTIC PHILOSOPHY. (3 Credits; *Prerequisite:* Consent of the lecturer.) Topic for 1973-74: Idealism versus Empiricism; The theory of mind and the "Linguistic turn".
PROFESSOR McGILVRAY

107-318B. PROBLEMS IN ANALYTIC PHILOSOPHY. (3 Credits; *Prerequisite:* Philosophy 317A.) Topic for 1973-74: Consideration of the theories of some of the leading figures in the analytic movement such as Frege, Russell, Wittgenstein, Austin, Ryle and Strawson.
PROFESSOR McGILVRAY

107-321A. PHILOSOPHY OF SCIENCE. (3 Credits; Not given in 1973-74.)

107-322B. PHILOSOPHY OF SCIENCE. (3 Credits.) An introductory course in the philosophy of science with no special prerequisites. Topic for 1973-74: The philosophy of the social sciences.
PROFESSOR BEATTY

107-332D. PHILOSOPHY OF RELIGION. (6 Credits; *Prerequisite:* One full course in Philosophy or consent of the lecturer.) A discussion of the main problems of the philosophy of religion as considered in the works of various philosophers.
PROFESSOR McKINNON

107-335D. INTRODUCTION TO PHILOSOPHY OF HISTORY. (6 Credits; Not given in 1973-74.) The nature and significance of historical thinking.

107-340D. GREEK PHILOSOPHY. (6 Credits.) A study of ancient philosophy concentrating on the pre-Socratic philosophers, Plato, and Aristotle. (See also Classics 407D.)
PROFESSOR TRENTMAN

107-341D. MEDIAEVAL PHILOSOPHY. (6 Credits.) An examination of philosophers selected from among the great Latin, Arabic, and Jewish thinkers.
PROFESSOR HARVEY

107-345D. SURVEY OF JEWISH PHILOSOPHY. (6 Credits.) Topic for 1973-74: Discussions of major works of Jewish philosophers, with focus on the nature of man, prophecy, love. First term: Philo of Alexandria to the Maimonidean revolution; Second term: Spinoza to existentialism.
PROFESSOR HARVEY

107-350D. MODERN PHILOSOPHY. (6 Credits; *Prerequisite:* One full course in Philosophy or consent of the lecturer.) From the Renaissance to Kant. A study of philosophers selected from among such thinkers as Montaigne, Descartes, Malebranche, Spinoza, Leibniz, Locke, Berkeley, Hume and Kant.
PROFESSOR BRACKEN

107-351D. NINETEENTH CENTURY PHILOSOPHY. (6 Credits; *Prerequisite:* Phil. 350D.) A study of philosophers selected from among such traditions as the Hegelian, Marxist, Existentialist, Utilitarian, and the forebearers of Phenomenology.
PROFESSORS DiGIOVANNI AND WALKER

107-381D. PROBLEMS OF PHILOSOPHY. (6 Credits; *Prerequisite:* One full course in Philosophy or consent of the lecturer.) Topic for 1973-74: Philosophie allemande, philosophie française,

et philosophie anglaise: Comparaison des concepts et des problèmes fondamentaux. Lecture et interprétation de textes choisis (in French and English). PROFESSOR KLIBANSKY

107-398A/107-399B. TUTORIALS. (6 Credits.) Open to Second year Full Honours students in Philosophy, and to other students, with consent of the Department.
PROFESSOR ROBINSON AND STAFF

107-401D. SEMINAR IN THE HISTORY OF ETHICS. (6 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: The development of natural law theories.
PROFESSORS TRENTMAN AND ROBINSON

107-404D. MORAL PHILOSOPHY. (6 Credits; *Prerequisite:* One full course in Philosophy or consent of the lecturer.) Topic for 1973-74: Human beings and human relationships.
PROFESSOR WALKER

107-406A. PHILOSOPHY AND LITERATURE. (3 Credits; Not given in 1973-74.)

107-407B. PHILOSOPHY AND LITERATURE. (3 Credits; Not given in 1973-74.)

107-410D. INTERMEDIATE LOGIC. (6 Credits; *Prerequisite:* Philosophy 211B or equivalent.) Axiomatic treatment of propositional and predicate calculus. Introduction to philosophy of mathematics. Computability and decidability. PROFESSOR BEATTY

107-411D. MEDIAEVAL LOGIC AND GRAMMAR. (6 Credits; *Prerequisite:* Consent of the lecturer.) Topics will be selected according to the interests of the class.
PROFESSOR TRENTMAN

107-413A. RECENT AND CONTEMPORARY BRITISH PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-414B. RECENT AND CONTEMPORARY BRITISH PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-417D. PROBLEMS IN SEMANTICS. (6 Credits; Not given in 1973-74.)

107-420D. METHODOLOGY AND PHILOSOPHY OF SCIENCE. (6 Credits; *Prerequisite:* Consent of the lecturer.) Topic for 1973-74: Philosophy of Scientific Research.
PROFESSOR BUNGE

107-423A. FORMAL METHODS IN PHILOSOPHY AND THE SOCIAL SCIENCES. 3 Credits; Not given in 1973-74.)

107-424B. FORMAL METHODS IN PHILOSOPHY AND THE SOCIAL SCIENCES. (3 Credits; Not given in 1973-74.)

107-427A. PHILOSOPHY OF PHYSICS. (3 Credits; Not given in 1973-74.)

107-428B. PHILOSOPHY OF PHYSICS. (3 Credits; Not given in 1973-74.)

107-431A. SEMINAR IN PHILOSOPHY OF RELIGION. (3 Credits; Not given in 1973-74.)

107-438B. SEMINAR IN PHILOSOPHY OF RELIGION. (3 Credits; Not given in 1973-74.)

107-441A. SEMINAR IN ANCIENT PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-442B. SEMINAR IN ANCIENT PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-444D. SEMINAR IN THE HISTORY OF PHILOSOPHY. (6 Credits; *Prerequisite:* consent of the lecturer.) Topic: Hume's Epistemology. PROFESSOR NORTON

107-448A. LEGAL AND MORAL PHILOSOPHY OF THE JEWISH TRADITION. (3 Credits; Not given in 1973-74.)

107-452A. THEMES IN THE HISTORY OF JEWISH PHILOSOPHY. (3 Credits.) Topic for 1973-74: Theories of philosophical anthropology and the development of racism.
PROFESSOR POPKIN

107-455A. SEMINAR IN 17TH AND 18TH CENTURY PHILOSOPHY. (3 Credits; *Prerequisite:* One full course in Philosophy or consent of the lecturer.) Topic for 1973-74: Berkeley's theory of vision. PROFESSOR BRACKEN

107-456B. SEMINAR IN 17TH AND 18TH CENTURY PHILOSOPHY. (3 Credits; *Prerequisite:* Philosophy 455A.) Topic for 1973-74: Berkeley's theory of vision. PROFESSOR BRACKEN

107-458D. SEMINAR IN HEGEL. (6 Credits; *Prerequisite:* Consent of the lecturer.) Topic for 1973-74: Phenomenology Ch. VI Section B: Alienation, Culture, Enlightenment and Revolution.
PROFESSOR ROBINSON

107-463D. SEMINAR IN KIERKEGAARD. (6 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: Kierkegaard's religious writings. PROFESSOR McKINNON

107-465D. SEMINAR IN KANT. (6 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: The *Critique of Pure Reason.* PROFESSOR DiGIOVANNI

107-472D. PHILOSOPHY OF POLITICS. (6 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: Reading *Capital.* PROFESSOR WALKER

107-481D. METAPHYSICS, DIALECTICS, LOGIC AND EPISTEMOLOGY. (6 Credits.) Topic for 1973-74: Modern phenomenology and existentialism. PROFESSOR DiGIOVANNI

107-483A. SEMINAR IN SYSTEMATIC PHILOSOPHY. (3 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: An examination of several problems in the philosophy of language, e.g. translation, meaning, truth, and reference. PROFESSOR McGILVRAY

107-484B. SEMINAR IN SYSTEMATIC PHILOSOPHY. (3 Credits; *Prerequisite:* Philosophy 483A.) Topic for 1973-74: Further Issues in the Theory of Language. An analysis of two or three issues selected from among these: presuppositions, tenses, referential semantics, the performance/competence distinction. PROFESSOR McGILVRAY

107-485A. METAPHYSICS. (3 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: Metaphysics and science. PROFESSOR BUNGE

107-486B. METAPHYSICS. (3 Credits; *Prerequisite:* Philosophy 485A.) Topic for 1973-74: Metaphysics and science. PROFESSOR BUNGE

107-487A. SEMINAR IN PROBLEMS OF PHILOSOPHY. (3 Credits; *Prerequisite:* consent of the lecturer.) Topic for 1973-74: Philosophy of the later Plato. PROFESSOR KLIBANSKI

107-488B. SEMINAR IN PROBLEMS OF PHILOSOPHY. (3 Credits; *Prerequisite:* Philosophy 487A.) Topic for 1973-74: Continuation of Philosophy 487A. PROFESSOR KLIBANSKI

107-493A. SEMINAR IN PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-494B. SEMINAR IN PHILOSOPHY. (3 Credits; Not given in 1973-74.)

107-499B. TUTORIALS. (6 Credits.) Open to Third year Full Honours students in Philosophy, and to other students with consent of the Department. PROFESSOR ROBINSON AND STAFF

POLITICAL SCIENCE (160)

Stephen Leacock Building, Room 434, Telephone 392-5239

Major Program

The Major program in Political Science consists of 9 full courses (54 credits) of which at least 7 full courses (42 credits) must be in Political Science. A student is encouraged to take up to 2 (12 credits) of these 9 courses outside the Department provided they are closely related to his Political Science program.

In the U1 year, a majors student must take a total of twelve credits in Political Science, covering at least two of the four main fields of concentration offered by the Department (Comparative Government and Politics, Canadian and Quebec Government and Politics, International Politics, and Political Theory). The course requirements in the various fields are outlined below.

A student is asked to choose one of the fields (named above) as his field of concentration in political science. Overall, while some concentration in one area of the discipline is considered beneficial, excessive specialization is discouraged. Students are therefore required to take at least twelve credits in Political Science outside their field of concentration. Further information may be obtained from Professor Barbara Haskel in Leacock 512A, 392-5249 (during her office hours).

Other Major Programs

Major programs are available with the Departments of Economics and History. Other programs may be arranged at a student's request. The requirements for these degrees are a minimum of 54 credits in both majors subjects to be divided on a 4-5 basis between the two subjects. Students should consult their advisers. A student in such a major must take 12 credits in 2 Political Science areas in U1 and at least 12 credits in Political Science, but outside his field of concentration, during his 3 university years.

Honours Program

The Honours program in Political Science consists of 10 full courses (60 credits) of which at least 7 full courses (42 credits) must be in Political Science. A student may take up to three of these 10 courses outside the Department provided they are closely related to his Political Science program.

In the U1 year, a student must take a total of two full courses (12 credits) in Political Science, covering at least two of the four main fields offered by the Department (Comparative Politics, Canadian and Quebec Government and Politics, International Politics, Political Theory). The course requirements in the various fields are outlined below.

Overall, while some concentration in one area of the discipline is considered beneficial, excessive specialization is discouraged. Students are therefore required to take at least two full courses (12 credits) in Political Science outside their area of concentration.

To be eligible for entry into an Honours program, a student should have a good B average in his CEGEP level work. To remain in Honours, a C&PA of at least 3 in Political Science courses and an overall C&PA of at least 2.8 is required. Students must also maintain a satisfactory pattern of performance in their Political Science courses (i.e., very few, if any, grades below 70%).

Students awarded Honours standing in U1 may lose it at the end of the year or in subsequent years if their performance is not up to these standards. Conversely, students who were not awarded Honours standing in U1 may attain it in subsequent years if their performance merits it. To be awarded Honours at graduation, a student must normally be registered as an Honours student at the beginning of his U3 year. At graduation, a student's Honours standing will be determined by his overall record in the Honours program.

Further information may be obtained from Professor Thomas Bruneau, in Leacock 512F, 392-5247.

Joint Honours Programs

Political Science and Economics
History
Philosophy
Sociology
Anthropology

The requirements for these degrees are a minimum of 5 to 6 full courses (30 to 36 credits) in Political Science and 5 to 6 full courses (30 to 36 credits) in the other Honours subject depending on the particular program. The same principles concerning the distribution of courses that were outlined above for the single Honours program apply here too, both at the U1 level and overall.

Course Descriptions

This calendar is prepared early in the year and so is likely to need modification by the time the academic year begins. A mimeographed supplement is available in the department office and should be consulted.

Students in the second year of the CEGEP-equivalent programme (E2) may register in one or more 200 level courses or may register in one or more 300 level courses provided they have taken the necessary prerequisites. U2 students may take 400 level courses without restriction subject only to having taken the necessary prerequisites.

Specific course prerequisites may be waived by instructors in individual cases.

160-211D. INTRODUCTION TO COMPARATIVE GOVERNMENT AND POLITICS. (6 credits.) This course approaches the basic concepts, institutions and processes of politics in Canada, the United States, Great Britain, France and the Soviet Union through the utilization of fundamental tools of comparative analysis. PROFESSOR BROWN

160-212A. TECHNIQUES OF SOCIAL RESEARCH. (3 credits.) An introduction to the practical and theoretical problems and sociological research. Among the topics considered are the formation of research problems, the selection of samples, interviewing, and questionnaire construction, and the analysis and interpretation of data. Students will have practical experience in these techniques. PROFESSOR VAILLANCOURT

160-221D. GOVERNMENT OF CANADA. (6 credits.) An examination of the operation of parliamentary institutions in a federal state, and of the operation of federalism in Canada. PROFESSOR MALLORY

157-226A. INTRODUCTION A LA VIE POLITIQUE QUEBECOISE. (3 crédits.) Une introduction à la vie politique québécoise à travers l'étude des institutions, des idéologies et des comportements politiques. Une attention particulière sera accordée aux changements survenus dans le système politique québécois depuis 1960 et à ses relations avec le système politique canadien. Ce cours est donné en français et constitue un prérequis pour les cours plus avancés sur la politique québécoise. PROFESSEUR BERNARD

160-227A. POLITICAL CHANGE IN THE THIRD WORLD: INDEPENDENCE AND NATION BUILDING. (3 credits.) An introductory course on the politics of the Third World, dealing primarily with the role of forces in the achievement of independence and the building of nations. Several theories on independence movements and revolutions will be discussed and then related to experiences in Asia, Africa and Latin America. PROFESSOR BRUNEAU

160-231D. POLITICAL THEORY. (6 credits. This course is normally a prerequisite for all upper level courses in political philosophy.) The first half will be taken up with a discussion of contemporary political issues: e.g., the understanding of politics, the politics of violence, and community on the grounds of authority. The second term will be devoted to the study of certain works of philosophy and literature which reflect political reality.
PROFESSORS SARF, SHINGLER, TAYLOR

160-244A. INTERNATIONAL POLITICS. (3 credits.) This is an experimental course that deals with the factors, domestic and international, which determine foreign policy behaviour. There will be a minimum of compulsory lectures. Students will choose among a number of options of study which best suit their individual needs. Students are asked to consult the course description distributed in Leacock 434. PROFESSOR STEINBERG

160-245B. THE INTERNATIONAL SYSTEM. (3 credits.) The course will focus on the setting of world politics. Particular emphasis will be placed on the nature of contemporary international politics. The stratification of the international system to which differences in technology and military power, economic power, legitimacy, and skill contribute, will be treated as well as forces such as increasingly rapid communications, nationalism, and ideology which cut across the system. PROFESSOR HASKEL

160-246A. INTERNATIONAL ORGANIZATION. (3 credits; Not given 1973-74.) This course will focus on the United Nations — its performance and problems. Special emphasis will be placed on three of its roles: as a forum for interest articulation and aggregation; as an agent for conflict management; and a source of pressure to redistribute values, wealth and skills.
PROFESSOR STEINBERG

160-247B. FOREIGN POLICY IN THE THIRD WORLD. (3 credits. Recommended: 160-244A or 160-227A.) This course will examine domestic and external sources of conflict within the Third World. It is experimental in form: students will work at their own pace through the use of individually designed modules. Students are requested to consult the special course description which is available in Leacock 434. MRS. BUTLER

160-313D. POLITICAL AND SOCIAL MOVEMENTS AND EXTRA-PARLIAMENTARY POLITICAL ACTION. (6 credits; Not given 1973-74.) After a general theoretical introduction of Fascism, Anarchism, Marxism and Democracy, case studies of various movements will be examined. These include labour movements, student movements, youth politics and the new left, minority group movements, anti-war movements and protests in the U.S.A., women's liberation and feminist movements. PROFESSOR VAILLANCOURT

157-316A. QUEBEC ET L'AMERIQUE DU NORD. (3 crédits.) Ce cours tentera de répondre à la question suivante: Dans quelle mesure le Québec est-il, malgré sa spécificité culturelle, une communauté nord-américaine? En 1973 les principaux thèmes étudiés seront les suivants: le freaks, la contestation, la violence, la drogue, la jeunesse.
PROFESSOR LATOUCHE

160-319D. POLITICS OF LATIN AMERICA. (6 credits.) This course will deal with the dynamics of political change in Latin America today. PROFESSOR BRUNEAU

160-320A. THE CANADIAN POLITICAL PROCESS (I). (3 credits; *Prerequisite:* At least one other course in Canadian or Comparative Government and Politics.) A critical analysis of different aspects of the Canadian Political Process. The first semester will be devoted to the socio-economic and political environment, political ideology and political culture, the electoral system, the party system, the ideology, structure and behaviour of parties and pressure groups.

160-321B. THE CANADIAN POLITICAL PROCESS (II). (3 credits; *Prerequisite:* At least one other course in Canadian Government or Comparative Government and Politics.) A critical analysis of aspects of the Canadian Political Process. The second semester will treat the socialization and communications processes, voting structures, elites and certain aspects of legislative, executive and administrative behaviour.

160-322A. POLITICS AND GOVERNMENT IN SOUTH ASIA (INDIA AND PAKISTAN.) (3 credits.) An examination of the politics of traditional society in South Asia; the nature of Western impact; the crises of modernization; nationalism; the nature of institution-building; the goals and performance of the political systems. PROFESSOR NAYAR

160-323B. POLITICS AND GOVERNMENT IN EAST ASIA (CHINA AND JAPAN). (3 credits; Not given 1973-74.) A survey of traditional and modern political society in China and Japan. Special emphasis is placed on governmental policy and institutions in relation to ideology in the Peoples' Republic of China and post-1945 Japan. PROFESSOR NOUMOFF

160-324D. POLITICS AND GOVERNMENT IN AFRICA. (6 credits.) The government and politics of African states south of the Sahara with reference to traditional political systems, colonial policies, nationalism, and the problem of nation building. PROFESSOR KUNZ

160-325D. GOVERNMENT AND POLITICS OF THE UNITED STATES. (6 credits.) A survey of American politics, including formal and informal processes of government; American political thought, political culture and socialization, public opinion, parties, interest groups, and formal institutions. In addition, problem areas, such as racism and the military-industrial complex, are discussed. PROFESSOR WALLER

160-327A. THE PRINCIPLES OF PUBLIC ADMINISTRATION. (3 credits; This course is offered in alternate years. Not given 1973-74.) An outline of the basic concepts employed in public administration will include organizational structure and behaviour, the concept of management and personnel development, the decision-making processes and the problems of change and innovation. The subject matter will be general although references will be made to Canadian examples. PROFESSOR METCALFE

160-328D. EUROPEAN GOVERNMENT AND POLITICS. (6 credits.) A systematic examination of major institutions of European political systems, both West and East, and of the processes of decision-making. Special attention will be paid to the problems of political change and to the role played by the bureaucracy, by parties and interest groups.

160-329A. THE POLITICAL SYSTEM OF THE U.S.S.R. (3 credits.) The course will be a study of Soviet politics: its roots in the past; its formative revolutionary experiences; the major domestic strategies which have been pursued under Lenin, Stalin, Khrushchev, and contemporary leaders; the concomitants of these choices in different spheres, for example in culture, in the economy, in organizational life. PROFESSOR HASKEL

160-332D. NON-WESTERN POLITICAL PHILOSOPHY. (6 credits; *Prerequisite:* 160-231D or consent of instructor. Not given 1973-74.) This course will concentrate on the major political-philosophical traditions of China, India, Islam and Africa. Students are required to have a background in political philosophy or one of the regions under consideration. Particular emphasis will be placed on the relationship between the underlying political/philosophic culture and its impact upon contemporary political forms. PROFESSOR NOUMOFF

160-333A. HISTORY OF POLITICAL AND SOCIAL THEORY (I). (3 credits. Recommended: 160-231D.) This course will explore the major themes and writers in Political Theory from the dawn of Greek political consciousness through the writings of St. Augustine. The political ideas of Hesiod, Thucydides, Plato, Aristotle, the Hellenistic philosophers, Hebrew political thought and prophecy, the Christian revolt against Classicism and the early church fathers will be explored through the significant texts of this period. PROFESSOR SARF

160-334B. HISTORY OF POLITICAL AND SOCIAL THEORY (II). (3 credits. *Prerequisite:* 160-231D.) Political theory of the Middle Ages and the early modern period until the Enlightenment. This course will deal with the Mediaeval writers and those of the early modern period up to and including the Enlightenment: e.g. Aquinas, Marsilio, Machiavelli, the Reformers, Hobbes, Locke, Montesquieu, Voltaire, d'Holbach, Bentham. PROFESSOR SARF

157-336B. QUEBEC ET LE CANADA. (3 crédits. *Prérequis:* 157-226A ou le consentement du professeur.) Comment les Canadiens anglais et les Québécois francophones se perçoivent-ils mutuellement? Existe-t-il des stéréotypes et des images communes? Quelles sont les principales différences culturelles entre les deux groupes? PROFESSOR CLOUTIER

160-337B. CANADIAN PUBLIC ADMINISTRATION. (3 credits; *Prerequisite:* 160-327A. This course is offered in alternate years. Not given 1973-74.) The student will undertake basic research work examining at least one problem in Canadian public administration. Attention will be directed towards all three levels of government, federal, provincial and municipal. PROFESSOR METCALFE

160-338A. UNIVERSITIES, INTELLECTUALS AND SOCIAL CRITICISM. (3 credits; Not given 1973-74.) This course compares different conceptions of the social purpose of social theory, and analyzes, historically and philosophically, the roles of universities, intellectuals and social criticism. Key elements include: the idea of an academy; scholarship; mass higher education and adolescence; rationalist social thought; the flight from politics; the responsibilities of intellectuals. PROFESSOR SHINGLER

160-339B. POLITICS, SCIENCE AND NATURE. (3 credits; Not given 1973-74.) An examination of man's collective relationships with nature, in selected societies and in contemporary social and political thought. Particular reference is made to the concepts of harmony, progress and perfection in an analysis of the technological transformation of nature and its historical basis in scientific thought, religion and philosophy. PROFESSOR SHINGLER

160-341A. THE DEVELOPMENT OF CANADA'S FOREIGN POLICY. (3 credits. *Prerequisite:* 160-221D. This course is offered in alternate years beginning in 1973-74.) An examination of the political and economic forces behind the development of a Canadian foreign policy.

A historic dimension will be provided in order that the student might assess the present conditions and limits impinging upon the implementation of a foreign policy for Canada.
PROFESSOR METCALFE

160-342B. THE ISSUES, CONCEPTS AND PROCESSES OF MODERN CANADIAN EXTERNAL RELATIONS. (3 credits. *Prerequisite:* 160-341A. This course is offered in alternate years beginning in 1973-74.) The current trends of Canada's foreign policy-making will be examined against the background of Canada-U.S. relations, Canada's role in international organization, Canada's position in Europe and the Commonwealth, the Third World, and the restraints and problems of foreign policy in the Canadian federal content. PROFESSOR METCALFE

160-343B. CONTEMPORARY INTERNATIONAL SYSTEMS: LATIN AMERICA. (3 credits. *Prerequisite:* 160-319D or consent of instructor.) An examination of the evolution of the inter-American system since the turn of the century. Particular attention will be given to the role of the United States in the dynamics of the system as illustrated by case studies including Cuba in 1959 and Santo Domingo in 1965. The role of Canada in the system will be studied with regard to the OAS and regional economic relations. PROFESSOR BRUNEAU

160-344A. CONTEMPORARY INTERNATIONAL SYSTEMS: EUROPE. (3 credits. *Prerequisite:* 160-244A or 160-245B or consent of instructor. 160-346A would be a helpful preparation for this course.) An examination of the evolution of the European system since 1945 focussing on three problem areas — East-West relations, the Atlantic Alliance and West European integration. Special attention will be paid to the politics of the U.S., Britain, France and West Germany. Part of the course will consist of a simulation dealing with current foreign policy problems in Europe. PROFESSOR NOBLE

160-346A. THE FOREIGN POLICIES OF THE SUPER POWERS. (3 credits. *Prerequisite:* 160-244A.) An analysis of American and Soviet foreign policies within the context of the major conceptual approaches to foreign policy behaviour. Special emphasis will be placed on the examination of similar patterns of behaviour, i.e. cold war politics, the arms race, hegemonial behaviour, etc., with a view to uncovering the major explanatory variables and comparing them. PROFESSOR STEINBERG

160-348B. CONTEMPORARY INTERNATIONAL SYSTEMS: THE MIDDLE EAST. (3 credits. *Prerequisite:* 160-244A or 160-245B or consent of instructor. 160-247B would be a helpful preparation for this course.) An examination of the evolution of the Middle Eastern system since 1945 focussing on three problem areas: Inter-Arab relations, Arab-Israeli relations, Arab-Great Power relations. Part of the course will consist of a simulation dealing with current foreign policy problems in the Middle East. PROFESSOR NOBLE

160-349B. CONTEMPORARY INTERNATIONAL SYSTEMS AND FOREIGN POLICY: ASIA. (3 credits.) A study of the foreign policies of the major Asian powers — China, Japan, India and Pakistan. Emphasis is on student research in the context of a common framework for the study of foreign policy. Focus is on foreign policy goals and behaviour and their relationship to economic and military capabilities, societal characteristics and governmental features. PROFESSOR NAYAR

160-363A. RADICAL POLITICAL THOUGHT (I). This course will focus on the origins and meaning of radicalism in the 19th century and trace its evolution in this period. A study of the impact of the French Revolution and the dislocations wrought by industrialization will provide background for a close examination of Marx and his Hegelian roots. A close look at anarchist theories and critiques will close the work of the first term. PROFESSOR SARF

160-364B. RADICAL POLITICAL THOUGHT (II). The transformations of Marxist and anarchist theory in response to new theoretical and practical problems in the 20th century is our major focus. Such thinkers as Lukacs, Gramsci, Marcuse and Habermas will be studied in depth. The rise of "new left" radicalism and its significance in the era of technology will be probed. PROFESSOR SARF

157-406B. CULTURE ET CONTRE-CULTURE AU QUEBEC. (3 crédits.) Quelles sont les origines et l'évolution récente de la culture traditionnelle au Québec? L'apparition de la contre-culture, ses protagonistes, son contenu. La contre-culture a-t-elle été récupérée par le système? La libération individuelle face à la libération collective. PROFESSEUR LATOUCHE

160-413A. CRITICAL POLITICAL SCIENCE. (3 credits.) The course will consider the state of the discipline of political science, the political behaviour of masses and elites and their respective roles in western democracies, the control and the political message of the mass media, and relationship of business to politics. Major political studies will be criticized and evaluated; alternative interpretations and explanations of data will be offered.
PROFESSOR VAILLANCOURT

160-415B. POLITICAL PARTIES. (3 credits. *Prerequisite:* One other course in Comparative Government.) The course will explore various approaches to and models of political parties and party systems, and apply them to party systems in different societies. Among the models to be considered are those of Maurice Duverger, R. Michels, Samuel Eldersveld, Anthony Downs, W. H. Riker, Seymour Lipset and Stein Rokkan.

160-416B. POLITICAL SOCIALIZATION. (3 credits. This course is offered in alternate years beginning 1973-74.) The following topics will be considered: 1) Theoretical approaches and conceptual frameworks; 2) the content and timing of political socialization; 3) agents and mechanisms of socialization; 4) role of early learning on later life behaviour; 5) approaches to the study of political leadership and elite socialization; 6) system level implications of political socialization; 7) problems and issues in the study of political socialization.
PROFESSOR VAILLANCOURT

160-417B. THE MILITARY AND POLITICS. (3 credits; *Prerequisite:* 160-211D or consent of the instructor. Not given 1973-74.) Identification and comparison of the political and socio-economic roles played by professional military establishments in both the relatively modernized and the relatively non-modernized societies. The course will focus on the dynamics and impact of the military-industrial complex in the United States and Canada and on the significance of military coups and the performance of military regimes for the process of political modernization. The contributions of Janowitz, Huntington, Pye, Johnson, Lee, Bienen and Hurewitz will be considered. PROFESSOR LATOUCHE

160-418A. ELITES AND POLITICS. (3 credits; *Prerequisite:* At least one course in Canadian or Comparative Government and Politics. Not given 1973-74; to be offered in 1974-75.) A critical examination of the major theoretical approaches to the study of elites (poltical, economic, intellectual, media, bureaucratic) and politics, and an evaluation of elite studies of Quebec, Canada, the United States, Britain, France, and other societies. Research into problems of elites in different societies will also be conducted. PROFESSOR M. STEIN

160-421B. PROBLEMS IN CANADIAN POLITICS AND GOVERNMENT. (3 credits. *Prerequisites:* 160-221D and 160-320A. Not given 1973-74.) This course will enable advanced students to deal with selected problems of Canadian political culture; constitutional development; and governmental structure. PROFESSORS MALLORY AND STEIN

160-422B. SEMINAR ON ASIAN POLITICS. (3 credits; Not given 1973-74.) Research-oriented seminar on key issues and major social and political forces in the major countries of Asia (South and East). PROFESSOR NAYAR

160-424B. PROBLEMS IN CONTEMPORARY POLITICS. (3 credits. Not given 1973-74.) Selected topics in the field of comparative politics are examined in detail. PROFESSOR SHINGLER

160-433A. HISTORY OF POLITICAL AND SOCIAL THEORY (III). (3 credits. *Prerequisite:* 160-231D.) This course will deal with the political theories which underlay the French revolution, and with those to which it gave rise. It will begin with a discussion of the theory of Enlightenment and with a closer study of Rousseau. It will then continue with an examination of different reactions to the Revolution: those of Burke, de Maistre, and later that of de Tocqueville. It will also examine the development of the themes launched by Rousseau and the French Revolution by the German Idealists, Kant, Fichte, Hegel. Finally, it will examine the revolutionary streams which rise in this period: Marx and Marxism, and anarchist thought. PROFESSOR TAYLOR

160-434B. HISTORY OF POLITICAL AND SOCIAL THEORY (IV). (3 credits. Recommended: 160-231D.) A consideration of selected writers and themes of late 19th and 20th century political theory. Such topics will include the theoretical foundations of scientism and technology, the existentialist revolt, the political ideas of Freud and other depth psychologists, the theoretical foundations of modern social science, elite theory and implications for democracy, and other themes in political and social theory. PROFESSOR TAYLOR

160-453A. THE HISTORY OF BRITISH CONSTITUTIONAL THOUGHT. (3 credits. *Prerequisite:* 160-231D.) A survey of the historical development of the British Constitution and the interpretation attendant upon its growth. Documents and writing to be studied include the Magna Carta, the Petition of Right, and the Bill of Rights, and the commentaries of Fortescue, Bracton, Coke, Selden, Blackstone, Burke, Bagehot and Dicey. PORFESSOR SHINGLER

160-454B. THE HISTORY OF BRITISH POLITICAL THOUGHT. (3 credits. *Prerequisite:* 160-453A.) An historical and textual examination of selected writers and themes in British social and political thought drawn from: the rise of Puritanism; Hooker, Harrington, Filmer; Bacon, Hobbes, Locke and Sydney; Shaftesbury, Bolingbroke, Swift and Pope; Godwin, Shelley and their circle; Edmund Burke; the Utilitarians; the Clapham Sect; and various 18th and 19th century literary figures including Cobbett, Hazlitt, Carlyle, Ruskin and Morris.
PROFESSOR SHINGLER

160-460B. POLITICAL IDEOLOGIES. (3 credits.) A study of the origins, content and functions of ideologies, and their relationship to political action and institutions, through a comparative survey of some of the major political ideologies in the modern world. PROFESSOR KUNZ

160-463A. POLITICS AND CONSCIOUSNESS. (3 credits; *Prerequisite:* One course in political philosophy. Not given 1973-74.) A survey of the relevance of existential philosophy and psychology for an understanding of the foundations of modern political and cultural consciousness. Themes such as social schizophrenia, identity, symbolism, primitivism, and modern

consciousness will be discussed. Such authors as Eliade, Laing, Foucault, Szasz, Merleau-Ponty, Sartre, and Heidegger will be explored for their relevance to political thought.
PROFESSOR SARF

160-465A. THE POLITICS OF PLANNING AND POLICY MAKING. (3 credits.) This course will take up: (1) cultural, ideological, political and organizational influences on policy-making; (2) problems in the logic of policy-making. Students will focus on a problem in policy-making in such areas as science, regional development, language, economics, management, etc.
PROFESSOR HASKEL

160-471A. THE ANALYSIS OF RAPID SOCIAL CHANGE. (3 credits. *Prerequisite:* For majors and honours students only, or consent of instructor.) This is a seminar in which various theories of revolution will be analyzed with reference to the empirical reality of revolutionary phenomenon. The course will follow a comparative perspective with the goal being evaluation of revolutionary explanation and an attempt to formulate alternative theories.
PROFESSOR BRUNEAU

160-478A. RECENT THEORY IN INTERNATIONAL RELATIONS: STATE BEHAVIOUR. (3 credits; *Prerequisite:* Consent of the instructor.) The seminar will explore representative theoretical and empirical studies which examine components of the foreign policy-making process. An attempt will be made to relate these components to foreign policy behaviour and to assess the utility and validity of alternative theoretical approaches. Students will be asked to prepare weekly evaluations of major articles in the field and will be responsible for three short essays dealing with major problem areas.
PROFESSOR STEINBERG

160-479A. INTERNATIONAL CONFLICT. (3 credits. *Prerequisite:* At least one course in International Relations beyond U1.) An examination of the literature dealing with international conflict. Topics to be covered include the sources of international conflict, bargaining, strategies and dynamics of conflict, crisis behaviour, and the management of international conflict.
PROFESSOR NOBLE

160-490A/160-491B. INDEPENDENT READING AND RESEARCH. (3 credits each.) Fourth year honours students wishing to pursue a specialized interest will be allowed to undertake a program of independent reading and/or research in that area under the supervision of a member of staff. Such programs may be undertaken by students either individually or in small groups. It is the responsibility of the student(s) to obtain the instructor's consent prior to registration.

160-494A. HONOURS SEMINAR IN INTERNATIONAL RELATIONS. (3 credits; *Prerequisite:* Consent of the instructor. Not given 1973-74.) Honours students in this seminar will evaluate advanced material in foreign policy relevant to problems discussed in the introductory course. They will also assist in the teaching functions of Political Science 244A and will write papers evaluating the substantive content presented in the seminar.
PROFESSOR J. STEIN

NOTE: U3 honours students with good records in Political Science are strongly encouraged to take First year graduate courses in their particular area of concentration. Those wishing to do so must receive permission from the course instructor. The courses available are as follows: 160-612B, 160-614A, 160-615B, 160-616A, 160-617B, 160-621A, 160-628A, 160-647A, 160-649A, 160-671B.

PSYCHOLOGY (204)

Stewart Biological Building, Room W8/1, Telephone 392-4708.

Psychology is the scientific study of man's mind and behaviour. It is both a social and biological science. As a social science, psychology studies man in his interactions with other members of his own species. As a biological science, it regards man as the product of evolution and so studies him in biological perspective, comparing and contrasting his behaviour with that of other species.

The data of psychology are collected within the psychological laboratory by the use of experimental methods in the study of behaviour, and outside the laboratory by systematic observation of the behaviour of man and lower animals. The combination of experimentation and observation results in a knowledge of man's behaviour as he perceives his world, learns, directs his behaviour towards certain goals, and reacts to stress, frustration, and other men. Experimentation, laboratory techniques, observational procedures, measurement, and statistical methods are important tools of the psychologist in the study of behaviour.

Psychology has many interdisciplinary aspects. The study of many psychological problems involves knowledge drawn from other disciplines such as biology, physiology, linguistics, sociology, philosophy, and mathematics. For this reason a student with varied interests can frequently find a place for these interests in psychology.

Psychology is a young science so that explanations of the processes underlying observed phenomena are often theoretical and speculative. The major objectives of psychological study are to reduce the discrepancy between theory and fact and to provide better answers about why man thinks and behaves as he does.

Although a number of undergraduate courses in psychology have applied implications, applied training is in no way the purpose of the undergraduate curriculum. The purpose of that curriculum is to introduce the student to an understanding of the basic core of psychological knowledge, theory, and method, regardless of questions of practical application.

The B.A. or B.Sc. with a Major or Honours degree in psychology is not a professional qualification. It does not qualify the individual to carry on professional work in psychology. In the Province of Quebec the minimum requirement for membership in the Corporation of Psychologists of the Province of Quebec, the professional association governing the work of psychologists in the Province, is an M.A. or M.Sc. degree, or other equivalent degree.

Although requirements for admission to graduate studies in psychology vary from one university to another, both the Honours and Major degrees in psychology may qualify the student for admission to many graduate schools, provided of course that sufficiently high marks are obtained.

The essential difference between the Honours and the Majors program is that higher standards are required of Honours students. Honours students also have an opportunity to work in small groups closely with staff members.

The Psychology Department offers 14 different options in its 54 credit programs. Except where otherwise stated, each of these programs may be taken as Major, Honours or Faculty programs. The differences between these three categories of programs are outlined below. The descriptions of the 13 options available in the B.A. program follow. See p. 143 for descriptions of the options available only in the B.A. program.

PREREQUISITES. It is expected that most students who major in psychology will have taken introductory psychology and statistics at the collegial level. In the First year all Major students must take General Experimental Psychology (204-210D) and Psychological Statistics (204-305A or B). Those students who have not taken a college level statistics course must also take Psychology 204-204A or B in addition to the other courses in their program.

A student who has not taken an introductory psychology course at the collegial level may major in psychology by taking Psychology 204-200D in their U1 year and also the courses in Psychological Statistics 204-204A or Band 204-305A or B. Such students should take General Experimental Psychology 204-210D in their U2 year concurrently with other U2 courses.

MAJOR PROGRAM. The following options are available in the Major program in Psychology:

1. General Psychology
2. General Experimental Psychology
3. Basic Human Experimental Psychology
4. General Human Experimental Psychology
5. Cognition and Thinking
6. Child Psychology
7. Personality and Abnormal Psychology
8. Human Communications Disorders
9. Social Psychology
10. Psycholinguistics
11. Psychology in Relation to Problems in Education
12. Major in Psychology & Philosophy
13. Quantitative Psychology

Call the main office of the Psychology Department (392-4708) or the chief adviser, Ms. Olga Favreau (392-4694) to obtain an adviser. In the First year of any of the above programs all Major students take Psychology 204-210D and 204-305B. Detailed descriptions of the programs will be found in section 3 below. Students majoring in Psychology must obtain a minimum grade of C in all 54 credits required by their program. A grade lower than C may be made up by taking another equivalent course (if there is one), by successfully repeating the course, or by successfully writing a supplemental examination (if there is one).

HONOURS PROGRAM. Honours in Psychology prepares students for graduate study, and so emphasizes practice in the research techniques which are used in graduate school and professionally later on. Honours students take Psychology 204-380D in the first year of their program, and they take Psychology 204-480D and 204-481D in the Second year. These courses have limited enrolments, and admission to Honours is selective. There is normally room for 30-35 new Honours students each year. Students with a cumulative grade point average of 2.8 (Arts) or 2.8 (Science), or better, are eligible to apply.

Students are normally accepted into Honours at the beginning of U2, and the two-year sequence of Honours courses continues through U3. Students who have had Introductory Psychology and Statistics at the institution preceding McGill, *who have an exceptional academic record,* and who apply for admission to Honours in U1 will be considered for acceptance. Failure to be admitted to Honours in U1 will not prejudice application for admission in U2.

Applications can be obtained from the general office of the Department of Psychology, Room W8/1, Stewart Building. The applications must be completed and returned to the general office by 1 September of the year for which admission to Honours is sought. Candidates will be advised of the department's decision by letter shortly after September 1. For information (other than application forms) about the Honours program, phone Don Donderi, Honours Committee Chairman, at 392-4693.

FACULTY PROGRAMS. A Faculty Program in Psychology is a sequence of courses which represents a lesser degree of specialization than a Major or an Honours program. A Faculty Program may be made up of any of the Major programs with the substitution of 6 credits from U2 Psychology courses for Psychology 204-211D and 204-305A or B. The Joint Program in Psychology and Mathematics is also a faculty program. For further details see program information at beginning of the Arts section.

PROGRAM DESCRIPTIONS. The courses in the program are ordered sequentially so that it will normally take three years to complete a program. The Major and Faculty Programs all include 18 credits in each of U1, U2, and U3. Students may, with the consent of their Faculty Adviser, substitute up to 6 credits in a program. Any further changes must be approved by the Associate Dean of the Faculty.

When selecting optional program courses from other departments, it is the student's responsibility to see that she or he has taken the appropriate prerequisites and/or obtained permission of the department where necessary.

None of the B.A. or B.Sc. programs provides professional training. They are all intended to give the student a general academic background in the interest area indicated by their titles. Those who are interested in practising psychology professionally must obtain graduate degrees at least at the Master's level, and should preferably continue on to the Ph.D. The Honours programs are most specifically designed to train students who intend to go to graduate school. However, it is important to remember that admission to graduate studies is highly competitive, and that no degree guarantees entry to advanced study. Students with a Major in Psychology may also, if they have chosen their courses appropriately and obtained high enough standing, be admitted to graduate studies, although they may sometimes be required to complete a qualifying year. Students in Faculty programs who decide to go into graduate study in psychology will most probably have to complete a qualifying year first. Further information about advanced study in Psychology may be obtained from the American Psychological Association's Handbook on the topic. It is usually on sale in the University Bookstore.

Courses in the Faculty of Management

The Faculty of Management offers the following courses in the Behavioural Sciences: 280-221A, Behavioural Science I (3 credits); 280-222B, Behavioural Science II (3 credits); 272-420A, Group Dynamics and Interpersonal Relations (3 credits); 272-421B, Strategies of Management and Organization Development (3 credits); 275-458A, Consumer Behaviour (3 credits); 275-495A, Marketing Research (3 credits).

Where appropriate to a student's program, and with the permission of the program adviser, one or more of these courses may be taken for credit by students enrolled in programs in psychology. Programs in such fields as personnel management, administrative behaviour, and consumer behaviour are also available to students through a cooperative arrangement between the Faculty of Management and the Department of Psychology.

Graduate Study

Students planning to work for a graduate degree in Psychology are advised to include Psychology 204-300A, 301B, 302A, 303B, 400D and 450D among their courses. The adviser to Major students will, whenever possible, assist students in planning their courses to coincide with their professional aims. Most graduate schools require not only a record of high achievement, but also adequate performance on some entrance examinations such as the Graduate Record Examination and the Miller Analogies Test, as well as letters of recommandation.

Major Program

GENERAL PSYCHOLOGY OPTION

This option is intended to give maximum flexibility to the students in designing their own programs. In this 54 credit option at least 36 credits must be in psychology courses. These later must include Psychology 204-210D and 204-305A or B as well as 12 credits in U3 Psychology courses. If fewer than 54 credits in psychology are taken, then the difference between that number and 54 must be made up by selecting certain courses in other departments from the following list (students are warned that the list may not be up to date in September 1973; the relevant department should be consulted before choosing).

Anatomy 504-412B; Anthropology 151-E21A; E22B; 205A; 206B; 228A; 303B; 310B; 312B; 314A; 316A; 321B; 404B; 428B; Biochemistry 507-455B; Biology 177-E10D; E27A; 201D; 205D; 303A; 305A; 325A; 326B; 349D; 352D; 370B; 372B; 385A; 386D; 391A; 392B; 394B; 471B; 488B; 493B; Computer Science 308-220A or B; Geography 183-214A; 215B; 217B; 300B; Linguistics 104-200A or B; 201D; 230A; 241B; 321B; Mathematics 189-217A; 218B; 223A; 245A,B; 314A,B; 317A; 318A; 323A; 324B; 327B; 328B; 417A; 423A; 424B; Philosophy 107-210A; 211B; 313D; 321A; 410D; 417D; 420D; Physiology 522-201A; 202B; 211D; Sociology 166-E21A or E22A or E23A and E42B or E44B or E45B; 222B; 223A; 227A; 247B; 309A; 404B; 407A; 439B.

GENERAL EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 305A,B; plus 9 credits from U2 psychology courses which are open to U1 students.

U2 Courses: Psychology 204-300A; 301B; plus 12 credits to be selected from Psychology 204-302A; 303B; 304D; 308D; 309B; 310D; 330A; 331B; 335A; 336B.

U3 Courses: Psychology 204-400D plus 12 credits to be selected from the list of U2 options above.

BASIC HUMAN EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 211D; 305A,B; plus 6 credits from U2 psychology courses which are open to U1 students.

U2 Courses: Psychology 204-300A; 301B; 302A; 303B; plus 6 credits to be selected from: Psychology 204-307D; 310D; 335A.

U3 Courses: Psychology 204-400D; 401D; plus 6 credits to be selected from: Psychology 204-403A; 404B; 425A; 430B.

GENERAL HUMAN EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 211D; 305A,B; plus 6 credits from U2 psychology courses that are open to U1 students.

U2 Courses: Psychology 204-300A; 301B; 302A; 303B; plus 6 credits chosen from among other U2 psychology courses.

U3 Courses: Psychology 204-400D; plus 6 or 9 credits to be selected from: Psychology 204-401D; 403B; 404B; 415D; 425A; 430B. The balance of 18 credits to be selected from among U2 and U3 courses.

COGNITION AND THINKING OPTION

U1 Courses: Psychology 204-210D; 211D; 305A,B; plus 6 credits to be selected from: Mathematics 189-245A,B; Computer Science 308-200A,B; 210A,B; Philosophy 107-210A; Linguistics 104-200A,B.

U2 Courses: Psychology 204-302A; 303B; 340A; plus 9 credits to be selected from: Psychology 204-335A; 336B; 304D; 301B; 310D; Anthropology 151-E22B; Mathematics 189-328B. Up to 6 credits from the optional U1 courses listed in this program if not already taken.

U3 Courses: Psychology 204-410D; plus 12 credits from: Psychology 204-400D; 403B; 404B; 410D; 425A; 431B; 451D; 452D; 456D; 450D; Linguistics 104-321B; 480A. Up to 6 credits from the optional courses of U1 or U2 listed in this program if not already taken.

CHILD PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 211D; 305A,B; plus 6 credits to be selected from Sociology, Geography, Anthropology or Biology.

U2 Courses: Psychology 204-304D; plus 9 credits to be selected from: Psychology 204-300A; 301B; 302A; 303B; 309B; 310D; 330A; 331B; 332A; 337A; 338B; 340A; 341B; plus 3 credits to be selected from courses in Biology, Geography, Anthropology or Sociology.

U3 Courses: Psychology 204-410D; plus 9 credits to be selected from: Psychology 204-400D; 401D; 404B; 406B; 408A; 411D; 412A; 415D; 425A; 430B; 451D; 456D; 458D; plus 3 credits to be selected from courses in Anthropology, Geography, Biology or Sociology.

PERSONALITY AND ABNORMAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 305A,B; plus 9 credits to be selected from: Biology 177-205D; Sociology 166-E21A or E22A or E23A and 166-E42B or E44B or E45B; 166-217A; Geography 183-214A; 215B; Anthropology 151-314A; 206B; 228A; 310B; 312B; Psychology 204-211D.

U2 Courses: Psychology 204-337A; 338B; plus 12 credits to be selected from: Psychology 204-300A; 301B; 302A; 303B; 340D; 308D; 309B; 332A; 404B; Biology 177-370B; Physiology 552-211D; 201A; Philosophy 107-301A; 302B; Sociology 166-309A; 227A; 228A; 247A.

U3 Courses. Psychology 204-491D; 408A; plus 9 credits to be selected from: Psychology 204-310D; 400D; 405B; 412A; 433B; 458B; 456D.

HUMAN COMMUNICATION DISORDERS OPTION

U1 Courses: Psychology 204-210D; 211D; 305A,B; 214D.

U2 Courses: Linguistics 104-201D; Psychology 204-300A; 337A; plus 6 credits to be selected from Psychology 204-303B; 340A; 308D; 301B; 302A; 341B; 304D; 310D; 404B.

U3 Courses: Psychology 204-408A; Linguistics 104-350A; 315B; plus 9 credits to be selected from: Psychology 204-303B; 340A; 308D; 301B; 302A; 341B; 304D; 310D; 404B.

SOCIAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 305A,B; plus 9 credits to be selected from: Sociology 166-217A; 227A; 230B; Anthropology 151-314B; Psychology 204-211D.

U2 Courses: Psychology 204-330A; 331B; plus 12 credits to be selected from: Psychology 204-304D; 307D; 310D; 336B; 340A; 341B.

U3 Courses: Psychology 204-411D; plus 12 credits to be selected from: Psychology 204-400D; 403B; 405B; 409D; 425A; 431B; 451D; 456D.

PSYCHOLINGUISTICS OPTION

U1 Courses: Psychology 204-210D; 305A,B; Linguistics 104-201D; plus 3 credits to be selected from: Linguistics 104-230A; 241B; Philosophy 107-210A; 211B.

U2 Courses: Psychology 204-340A; 341B; Linguistics 104-350A; plus 9 credits to be selected from Psychology 204-301B; 302A; 303B; 214D; Linguistics 104-351B; 481B; Philosophy 107-313D.

U3 Courses: Psychology 204-425A; 455D; Linguistics 104-360A; 361B; plus 3 credits to be selected from: Psychology 204-401D; 404B; 406B; Linguistics 104-400A; 461B; 480A; Philosophy 107-417D; Anthropology 151-440B; Sociology 166-217A; Mathematics 189-489A; 490B.

PSYCHOLOGY IN RELATION TO PROBLEMS IN EDUCATION

U1 Courses: Psychology 204-210D; 305A,B; Anthropology 151-228A; plus 6 credits from U2 Psychology courses which are open to U2 students.

U2 Courses: Psychology 204-301B; 304D; plus 9 credits from: Psychology 204-302A; 303B; 310D; 330A; 332A; 337A; 341B; Sociology 166-422A; Anthropology 151-428B.

U3 Courses: Psychology 204-406B; Education 413-402D; plus 9 credits to be selected from: Psychology 204-410D; 451D; 452D; 408A; 456D; 415D; or any U2 course not yet taken.

JOINT MAJOR IN PHILOSOPHY AND PSYCHOLOGY

U1 Courses: Psychology 204-210D; 305A,B; Philosophy 107-200D; plus 6 credits to be selected from: Philosophy 107-340D; 341D; Psychology 204-211D; Philosophy 107-210A.

U2 Courses: Philosophy 107-301A; 302B; Psychology 204-302A; 303B; plus 6 credits to be selected from: Philosophy 107-350D; 351D; 313D; Psychology 204-340A; 301B; 337A; 330A; 332A.

U3 Courses: Philosophy 107-321A; 494B (Psychology 204-431B); Psychology 304-400D; plus 6 credits to be selected from: Philosophy 107-493A; Psychology 204-425A; 404B; 401D; 403B.

QUANTITATIVE PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; Mathematics 189-222A,B; 245A,B; Computing Science 308-200A,B, or 220A,B.

U2 Courses: Psychology 204-302A; 303B; Mathematics 189-323A; 324B; plus 3 credits to be selected from: Mathematics 189-314A,B; 317A; 327B; 328B; plus 6 credits selected from Psychology non-statistics courses.

U3 Courses: Psychology 204-335A; 336B; Mathematics 189-423A; 424B; plus 3 credits selected from the U2 mathematics optional course list or from: Mathematics 189-417A; 447B; plus 6 credits selected from Psychology non-statistics courses.

NOTE: For course descriptions, see page 227.

RELIGIOUS STUDIES (260)

William and Henry Birks Building, 3520 University Street.

For general information, Major and Honours programs, consult Professor Stevenson, Room 108, phone 392-4835. For specific course information consult the instructor.

Courses are offered to students in other Faculties and Schools in the University through the Faculty of Religious Studies. The Major in Religious Studies can lead to teaching, social work, professional religious service, and graduate study in religion or theology. Religious Studies courses may be usefully combined with other concentrations, e.g. Art History, Classics, Jewish Studies, History, Philosophy.

Major in Religious Studies

A Major in Religious Studies consists of 54 credits as follows:

1) At least 36 credits are to be chosen from the Religious Studies courses described below. Students must choose at least one full course (6 credits) in a tradition other than their own.
2) Up to 18 credits to be chosen from approved Related Courses. Students taking such courses must fulfil any requirements (prerequisites, grades, etc.) laid down by the department concerned.

RELATED COURSES include the following (others might be considered appropriate, depending upon content and the student's interest and qualifications; course numbers may vary from year to year):

ANTHROPOLOGY	151-209B, 303B.
ART HISTORY	123-211A, 212B, 312A, 313B, 344B, 414D.
CLASSICS	114-203A, 302D, 473A, 474B.
EDUCATION	(See Faculty of Ed. announcement. Elementary Education, Catholic Studies).
ENGLISH	120-347A, 348B, 382A, 383B.
HISTORY	101-206D, 207D, 208D, 280D, 314D, 317D, 325D, 336D, 405D, 442B, 448B, 477D, 479D.
ITALIAN	132-325A.
JEWISH STUDIES	135-301D, 309D, 311D, 343D, 345D, 401D, 403D, 421D.
MUSIC	211-180D, 316A, 317B.
PHILOSOPHY	107-301D, 332D, 341B, 404D, 431A, 448A, 452D.

Major students must consult with Professor Stevenson prior to registration.

INTERDISCIPLINARY MAJOR programs may be arranged in consultation with the Adviser. Joint programs are in operation between Religious Studies and Classics, Philosophy and Art History.

Major students may also choose their electives from the B.Th. program (Faculty of Religious Studies Calendar), after consultation with the Adviser. In special cases, permission may be given for admittance to graduate seminars in the Faculty of Religious Studies.

Honours in Religious Studies

The Faculty is in the process of preparing this program. Please consult Professor Stevenson for latest information.

Joint Honours in Religious Studies

See previous paragraph.

Course Descriptions

260-114D. HISTORY OF RELIGION. (6 Credits.) An introduction to the Buddhist, Christian, Hindu, Jewish and Muslim religious traditions. PROFESSOR STEVENSON AND STAFF

260-200D. RELIGIOUS TRADITIONS OF THE ANCIENT NEAR EAST. (6 Credits.) The Religion of Ancient Israel in the setting of the Ancient Near East: a brief consideration of religion in general, its origin, nature and study; other religions of the Ancient Near East, e.g. those of Egypt and Mesopotamia; the Religion of Ancient Israel. PROFESSOR RUNNALLS

260-280D. NEW TESTAMENT GREEK. (6 Credits.) An introduction to the language. STAFF

260-300A. POST-BIBLICAL JEWISH TRADITION. (3 Credits.) The origins of Rabbinic Judaism: a survey of Jewish history and thought from Ezra to the Tannaim; oral tradition; Torah interpretation in the Mishnah and Midrashim. PROFESSOR RUNNALLS

260-301B. POST-BIBLICAL JEWISH TRADITION. (3 Credits; *Prerequisite:* Religion 300A or the consent of the instructor.) The religion and literature of sectarian groupings: Apocalyptic thought; Wisdom; Dead Sea Scrolls; Josephus. PROFESSOR RUNNALLS

260-310D. THE NEW TESTAMENT — ITS MAKING AND MEANING. (6 Credits.) The beginnings of the Christian Movement; the mission and achievement of Jesus. Early Christian Missions and the growth of institutions. Religion 200D is a desirable but not mandatory previous course. PROFESSOR JOHNSTON

260-320D. A HISTORY OF CHRISTIAN THOUGHT. (6 Credits.) A survey of the development of Christian thought from the post-apostolic period to the present day, in relation to the concurrent cultural and philosophical movements. The work of prominent Christian thinkers, ancient, mediaeval and modern, will receive special attention. PROFESSOR JAY

260-322A. THE ANCIENT CATHOLIC CHURCH (TO AD 325). (3 Credits; Not offered in 1973-74.) An historical introduction to the emergence of the Christian Tradition as catholic and orthodox, its conflict with the Roman Imperial State, and the development of Christian missions and institutions. This half-course ends with the first Ecumenical Council at Nicaea (AD 325), and it is normally to be taken as a prerequisite to 260-323B. PROFESSOR JOHNSTON

260-323B. THE ANCIENT CATHOLIC CHURCH (AD 325-604). (3 Credits; Not offered in 1973-74.) The history of the Imperial State Church from Constantine I to Justinian the Great; the rise of the Papacy (to Gregory I); the theological controversies, monasticism, the inner life of the Church, liturgy, and Byzantine Art. The emphasis will be on the growth of a Christian culture and the tensions which prepared the way for Islam in North Africa and the East, and for the Dark Ages in the West. PROFESSOR JOHNSTON

260-340B. RELIGION AND THE SCIENCES. (3 Credits.) Modern philosophy of science and of religion have created a more positive dialogue on questions of method, symbolism and rationality. We examine key issues (e.g. creation and evolution; objectivity and involvement; determinism and freedom) raised by natural and social sciences and various possible solutions. PROFESSOR McLELLAND

260-345A. RELIGION AND THE ARTS. Studies in relationships between religious symbolism and aesthetic forms. Literary criticism will provide an approach to comparative analysis of art forms as conveyors of images of man, critics of social types and forms of ultimate concern. PROFESSOR McLELLAND

260-361A. RELIGIOUS BEHAVIOUR: AN INTRODUCTORY STUDY. (3 Credits.) Through a study of significant aspects of religious life, contemporary religious phenomena, religious growth and the religious personality as well as the psychological attack on religion, the course examines criteria for good religion and bad to estimate the meanings and functions of religion in personal life. PROFESSOR PEASTON

260-370A. THE HUMAN CONDITION. (3 Credits.) A critical examination of representative theories about man, his situation and his values in the light of traditional interpretations of Christian anthropology and ethics, together with an attempt to formulate some contemporary clues in response to man's search for meaning. PROFESSOR BOORMAN

260-380D. ADVANCED NEW TESTAMENT GREEK. (6 Credits.) Advanced course in the language. STAFF

260-390D. HEBREW LANGUAGE. (6 Credits.) Introduction to the language. PROFESSOR RUNNALLS

260-440D. RELIGION AND THE MODERN MIND. (6 Credits; Not offered in 1973-74.) Three main questions: What is religion? How are faith and reason related? What is man's nature and destiny? are discussed in terms of such contemporary issues as materialism, atheism, the role of intellectual and artist, the future man. PROFESSOR McLELLAND

260-450D. THE ISLAMIC TRADITION. (6 Credits.) The Islamic Community and the elements of its tradition — Scripture, prophet, doctrine, practices, institutions — considered historically and in terms of religious meaning. PROFESSOR ADAMS

260-451D. THE HINDU AND BUDDHIST TRADITIONS. (6 Credits.) An introduction to the Hindu and Buddhist religious traditions, their history, faith and practice. PROFESSOR STEVENSON

260-490D. HEBREW TEXTS. (6 Credits.) Advanced course in the language. PROFESSOR CULLEY

260-496A. RESEARCH SEMINAR. (3 Credits.) Topics to be arranged for Major students. STAFF

260-497B. Topics to be arranged for Major students. STAFF

260-498B. SPECIAL STUDIES. (3 Credits.) Topics to be arranged. Reading and research for Major students. STAFF

260-499A. SPECIAL STUDIES. (3 Credits.) Topics to be arranged. Reading and research for Major students. STAFF

Languages

Students taking an introductory language course in this program are required subsequently to take the more advanced course in order to obtain credit for both.

Instruction in the languages of some other religious traditions (such as Arabic, Ancient Egyptian, Sanskrit) may be available in any given year. Ask the Adviser for further information.

RUSSIAN AND SLAVIC STUDIES (141)

Samuel Bronfman Building, Room 660, Telephone 392-4610 or 392-4616.

Many opportunities are open to students with qualifications in Russian and other Slavic studies. Students may be interested in the organization of human society, comparative literature, linguistics. Russian studies are highly relevant to all of these. In addition, because of similar problems in geography, climate, industrial and economic growth Russian studies may have a particular fascination for the Canadian student.

Major Program

The Major program consists of at least 54 credits (9 courses) taken during the university years (of which at least 7 must be in Russian), preferably twelve credits in U-1, twelve in U-2 and 18 credits in U-3. Various sequences of courses are possible but close consultation with the Department and approval of proposed sequences is essential. Please consult the office at 392-4610 or 392-4616 and say you need information on the Major program. Admission is based on personal interviews to establish how much Russian has been taken previously, if any, and to work out a reasonable program for the individual.

Honours Program

The Department offers a full Honours program in Russian. Single Honours in Russian require at least 10 courses (60 credits) in Russian to be taken during the three university years out of a total of 15 required courses (90 credits). In addition, at least a second class average (B) must be obtained. All Honours programs require consideration and approval by the Department. Normally 200 level courses are taken in U-1, 300 level in U-2 and 400 level courses in U-3. However, many exceptions may occur depending on students' abilities. Telephone 392-4610 or 392-4616 and mention you are interested in Honours in Russian.

Joint Honours Programs

The Department also offers Joint Honours programs in cooperation with the Departments of French, Geography, German, History, Italian, Linguistics, Political Science, Spanish. These programs also require a total of 15 courses (90 credits) with a B average over the three university years. Two courses (12 credits) in Russian and two (12 credits) in the cooperating Department are normally taken each year. As in Single Honours and Majors all programs require consideration and approval by the Departments involved. For information telephone 392-4610 or 392-4616 and mention you are interested in the Joint Honours program.

Course Descriptions

141-210D. RUSSIAN LANGUAGE. (6 Credits; *Text:* Clayton L. Dawson, *Modern Russian,* Book 1, Harcourt, Brace and World Inc.) Reading, grammar, translation, oral practice. STAFF

141-212D. RUSSIAN READING COURSE. (6 Credits.) Method and practice of translation. The first half of the course will be devoted to an introduction to Russian, the second half to actual translation of texts from various fields of interest. This course is intended for students wishing to learn to read Russian easily. STAFF

141-215D. RUSSIAN LANGUAGE. (6 Credits; *Prerequisite:* Permission of the Department. Registration limited. This is an accelerated Beginners' Course for students who desire voluntarily to take six hours' instruction n order to learn more quickly. It carries credit for one course only. Students may, at the discretion of the Department, revert to Russian 210D after two months at the latest.) Thorough study of grammar with intensive practice to ensure greater precision and fluency. Use of readers to introduce topical material, extensive discussion in Russian; stress on aural comprehension. PROFESSOR BAUER AND STAFF

141-217B. ACCELERATED INTRODUCTION TO RUSSIAN STUDIES. (3 Credits; *Prerequisite:* Evidence of ability in modern or classical languages and Departmental permission.) This course is intended for the student who has already shown merit in modern or classical languages, and who wants to obtain a good knowledge of Russian language, literature and civilization in a short time. Successful completion of this course will normally admit to the higher level courses in Russian at McGill. PROFESSOR AUSTIN AND STAFF

141-218A. SOVIET LITERATURE (UP TO WORLD WAR II). (3 Credits; *Prerequisite:* None.) The social conditions leading to the creation of post-revolutionary literature. What does the West understand by "socialist realism" and what does this term mean in Russia? The period of different literary schools in Soviet literature and the organization of the Writers' Union. Specific features of the literature of the thirties. This course will be conducted in English.
STAFF

141-219B. SOVIET LITERATURE (AFTER WORLD WAR II). (3 Credits; *Prerequisite:* None.) The impact of World War II on Soviet literature. Post-war changes in official literary policy; "Zhdanovism." The period of "thaw," and debates on the principles of creative freedom. The three Nobel prize winners. The emergence of young writers with new voices. This course will be conducted in English.
STAFF

141-220D. RUSSIAN LANGUAGE. (6 Credits; *Prerequisite:* Russian 210D or equivalent; *Text:* Clayton L. Dawson, *Modern Russian,* Book II: Harcourt, Brace and World, Inc.). Reading, translation, conversation.
STAFF

141-222D. RUSSIAN CIVILIZATION IN THE TWENTIETH CENTURY. (6 Credits; *Prerequisites:* Russian 210D or equivalent and permission of the Department.) This is a general introduction to the changing relationships between Russian language, literature, thought and culture in the twentieth century. It will be conducted to some extent in Russian.
PROFESSOR AUSTIN AND STAFF

141-223A. RUSSIAN WRITERS OF THE 19TH CENTURY. (3 Credits; *Prerequisite:* None.) The course, to be given in English, is designed for students interested in Russian Literature and its authors. The course will offer students a broad overview acquainting them with the main Russian literary currents of the 19th century and with the lives and destinies of its writers.
STAFF

141-224B. THE RUSSIAN WRITER OF THE TWENTIETH CENTURY. (3 Credits; *Prerequisite:* None.) This course, given in English, examines the rôle of the creative writer in the conditions of the Russian reality of the twentieth century. Special emphasis is laid on factors affecting the writer's art as well as on the writer's own reflections upon his craft. PROFESSOR AUSTIN

141-225D. RUSSIAN LANGUAGE. (Continuation of Russian 215D.) (6 Credits; *Prerequisite:* Russian 215D or equivalent. Registration limited.) Students completing it will have a good working knowledge and appreciation of the language and will be able to go directly into advanced courses in Russian language and literature. PROFESSOR BAUER AND STAFF

141-226D. OUTLINES OF 19TH CENTURY RUSSIAN LITERATURE. (6 Credits; *Prerequisites:* Russian 215D or equivalent, and the permission of the Department; *Texts:* Mirsky, *History of Russian Literature:* Knopf; Slonim, *Outlines of Russian Literature:* Oxford; Other prescribed texts to be selected.) A general introduction to Russian prose, poetry and drama in the 19th Century. Selected texts will be read in the original and discussed. The course will be conducted to some extent in Russian.
STAFF

141-227D. INTRODUCTION TO SOVIET RUSSIAN LITERATURE. (6 Credits; *Prerequisites:* Russian 215D or equivalent, and the permission of the Department; *Texts:* Reddaway (ed.), *Soviet Short Stories.* Vol. 2, Harper et al., editors, *New Voices;* Other prescribed texts to be selected.) Selected texts will be read in the original and discussed. The course will be conducted mainly in Russian.
PROFESSOR AUSTIN

141-235D. INTRODUCTION TO RUSSIAN STUDIES. (6 Credits; *Prerequisite:* Permission of the Department.) An introduction to the study of Russian civilization with emphasis on the Russian language as a vehicle of culture, on the literature of the 19th century, on Soviet literature, on the role of the author in Russian society, on literary censorship in the 19th and 20th centuries.
PROFESSOR NICHOLSON AND STAFF

141-240D. INTRODUCTION TO UKRAINIAN STUDIES. (6 Credits; *Prerequisite:* Permission of the Department.) An introduction to the study of Ukrainian civilization with emphasis on the position of Ukrainian as an Eastern Slavic language with an ancient culture, on the literature of the 19th and 20th centuries, and on the role of the Ukrainian writer in his society.
DR. ROMAN OLYNYK

141-245D. INTRODUCTION TO BULGARIAN STUDIES. (6 Credits; *Prerequisite:* Permission of the Department.) An introduction to the study of Bulgarian civilization. Emphasis will be laid on Bulgarian as a development of the Slavs' first literary language, on Bulgarian literature from the earliest times and on the role of the Bulgarian writer in his society.
PROFESSOR LE GUILLOU

141-255D. INTRODUCTION TO POLISH STUDIES. (6 Credits; *Prerequisite:* Permission of the Department.) An introduction to the study of Polish civilization, with emphasis on the Polish as a Western Slavic language, on Polish literature of the 19th and 20th centuries particularly, and on the role of the Polish writer in his society. MR. G. ADRIANOW AND STAFF

141-300D. RUSSIAN LANGUAGE AND LITERATURE IN THE 19TH CENTURY. (6 Credits; *Prerequisites:* Russian 220D or equivalent and permission of the Department.) Grammar. Readings

from selected authors, conversation and composition. The course will be conducted in Russian. PROFESSOR PAVILANIS

141-320D. RUSSIAN CIVILIZATION IN THE NINETEENTH CENTURY. (6 Credits; *Prerequisites:* Russian 220D, 222D or equivalent and permission of the Department.) This course, given in Russian, discusses the relationship between Russian language, literature, thought and culture from Karamzin to Chekhov. PROFESSOR PAVILANIS

141-350D. ADVANCED RUSSIAN LANGUAGE AND SYNTAX. (6 Credits; *Prerequisites:* Russian 225D or equivalent, and permission of the Department.) Prose composition, translation, essay writing. An introduction to Russian stylistics. PROFESSOR AUSTIN

141-355D. RUSSIAN COMPARATIVE GRAMMAR. (6 Credits; *Prerequisites:* Russian 225D or equivalent and permission of the Department.) This course, given principally in Russian, will discuss Russian structurally from the viewpoint of the non-Russian student. Each student will prepare at least one original paper to be discussed in class. PROFESSOR NICHOLSON

141-360D. THE RUSSIAN NOVEL FROM 1820 TO 1860. (6 Credits; *Prerequisites:* Russian 225D or equivalent, and permission of the Department.) The development of the Russian novel before Tolstoy, and Dostoevsky. Reading texts will be chosen from the prose works of Pushkin, Lermontov, Gogol', Turgenev and Goncharov. This course will be conducted in Russian. PROFESSOR AUSTIN

141-370D. PUSHKIN AND HIS CONTEMPORARIES. (6 Credits; *Prerequisites:* Russian 225D or equivalent and permission of the Department.) The Golden Age of Russian poetry. The course will be conducted in Russian. STAFF

141-400D. RUSSIAN LANGUAGE AND LITERATURE AFTER 1917. (6 Credits; *Prerequisite:* Russian 300D or permission of the Department.) The development of the Russian novel and language after the October Revolution. The course will be conducted in Russian. STAFF

141-410D. DRAMA IN RUSSIAN LITERATURE. (6 Credits; *Prerequisite:* Permission of the Department.) Representative works of the 19th and 20th centuries are studied and discussed. Reading texts will be chosen from the plays of Fonvizin, Griboedov, Pushkin, Gogol', A. Ostrovsky, Turgenev, Chekhov, Gor'ky and Kataev. The course will be conducted in Russian. STAFF

141-420D. RUSSIAN CIVILIZATION OF THE EARLIER PERIOD. (6 Credits; *Prerequisite:* Permission of the Department.) This course, given in Russian, discusses the development of Russian culture from the earliest times to the death of Catherine the Great. STAFF

141-450D. TWENTIETH CENTURY RUSSIAN LANGUAGE AND LITERATURE. (6 Credits; *Prerequisites:* Russian 350D or equivalent and permission of the Department.) Specific features of the style of modern literary Russian will be analysed and compared with the language of the 19th century. The origins and development of Soviet Russian literature will be studied in detail. The course is primarily intended for Honours students. It will be conducted in Russian. STAFF

141-460D. THE RUSSIAN NOVEL FROM 1860 TO 1900. (6 Credits; *Prerequisites:* Russian 350D or equivalent and permission of the Department.) The Golden Age of the novel in Russian literature. The major works of Turgenev, Dostoevsky and Tolstoy will be read in the original and discussed in Russian. STAFF

141 GRADUATE COURSES. Certain graduate courses may be open to U-2 and U-3 students. Consult the Graduate calendar and the Department.

SCHOOL OF SOCIAL WORK (407)

3506 University Street, Telephone 392-5040

Bachelor of Social Work Degree (B.S.W.)

EDUCATIONAL OBJECTIVES

The Faculty of Arts, through the McGill University School of Sccial Work, offers an undergraduate program of professional studies in Social Work, leading to the Degree of Bachelor of Social Work (B.S.W.). The B.S.W. degree course has the following principal educational objectives:

1) To prepare students for professional practice in any one of a range of social service positions. (Holding of the B.S.W. degree represents the point of admission into the Corporation of Professional Social Workers of the Province of Quebec and the Canadian Association of Social Workers.)

2) To prepare selected students for entry into more specialized professional studies at the graduate level.

ADMISSION

Admission to the B.S.W. is open to two groups of applicants: a) those who have completed two years of collegiate or equivalent studies, including introductory courses in Sociology, Psychology and French, as recognized by the University Admissions Office, and b) those who hold a B.A. at a B level average, with substantial content in social and behavioural sciences. Both groups should also have had introductory courses in statistics.

Application for admission should be made at the University Admissions Office.

PLAN OF STUDY

a) The regular B.S.W. comprises a combination, over the three years, of professional courses, supervised field practice and practice-related courses drawn principally from the social and psychological sciences.

b) The program is organized so that the proportion of professional content to social and psychological science content increases from year I to year III.

c) The B.S.W. degree will be awarded upon successful completion of 90 credits of study, distributed approximately as follows:

Social Work courses, 33-39 credits

Field practice, 15 credits

Other University courses (at least 24 to 30 credits of which will be selected from social and psychological science offerings) to a total of 36 to 42 credits

d) The distribution of the 48 to 54 credits of Social Work content over the three years will be approximately as follows:

Year I — 9 credits

Year II — 18 to 21 credits

Year III — 21 to 24 credits

e) Students entering their University I year will enrol in Social Work 250A and Social Work 251B having a combined course value of 9 credits. The remaining 21 course credits will be taken elsewhere in the University with the approval of the Director of the School of Social Work.

f) Students entering B.S.W. II will, in consultation with advisers, enrol in Social Work courses having a total credit value of 18 to 21 normally including Social Work 455D and Social Work 456D in their registration. The remaining credits will be taken elsewhere in the University.

g) Students entering B.S.W. III will enrol in Social Work courses having a total credit of 21 or 24, including 480D and at least two of the courses numbered 472A through 479B. The remaining 6 to 9 credits will be taken elsewhere in the University.

h) The Special B.S.W. for holders of a B.A. will be offered in three time blocks: a pre-summer session of 6 weeks, May-June, one regular academic year, and a summer session of 12 weeks, April-May-June. Students in this program will take at least 48 credits, including courses in social work practice, field practice, and policy. Required courses are Social Work 250A, 251B, 352B, 455D and 456D, 458B, 480D, and at least two of the courses numbered 472A to 479B. The remaining 12 credits will be selected from other courses offered at the B.S.W. level.

Course Descriptions

407-250A. SOCIAL WELFARE PROBLEMS, POLICIES AND ORGANIZATIONS. (4 Credits; 3 hours per week of classes, 2 hours per week laboratory.) An examination of major social problems associated with life in large urban areas, and the social services, both public and private which have been established to deal with such problems. Each student will be expected to examine in some depth the services associated with one selected problem area, and to make an assessment of their appropriateness and effectiveness in dealing with the problem. Specific problems to be examined include: urban poverty, child neglect, marital and family conflict, housing, illegitimacy. The course includes field observations and analysis of welfare organizations. PROFESSOR DEEHY

407-251B. INTRODUCTION TO SOCIAL WORK PRACTICE THEORY. (5 Credits; 3 hours per week of class, 3 hours per week of field work.) An examination of helping or change techniques including the theoretical definitions of personal or social change from which they are derived. Planned change with individuals, families, small groups and communities. Topics will include: the nature of helping relationships, phases of the change process, motivational forces for change, resistance, client-systems, establishing change goals, evaluation of outcomes. One half day per week of field observation forms a part of the course requirement.
PROFESSOR KATZ

407-352B. THE SOCIAL SERVICES IN CANADA. (3 Credits.) An introduction to the structure and programs of social services in Canada designed to familiarize students with these services and to increase their ability to evaluate the functions of the services. PROFESSOR McGILLY

407-451A, B. CHILDREN'S NEEDS AND SOCIAL SERVICES. (3 Credits.) The identification and analysis of the needs of children and their families. Consideration of the processes of selected social services, e.g. day care, visiting homemakers, foster family and institutional care adoption, etc., designed to support, supplement and substitute for the family. Special emphasis will be placed on social legislation related to neglected, abused and dependent children.
MEMBERS OF STAFF

407-352A, B. SOCIAL WELFARE ORGANIZATIONS AND DISADVANTAGED CLIENTELE. (3 Credits.) An examination of the structure of organizations serving the needs of socially disadvantaged persons or groups, and the processes through which such services are provided. Particular attention will be paid to the definition, screening and serving of disadvantaged clients as compared to those drawn from more "privileged" groups in society. Strategies for changing such organizations will be explored. PROFESSOR DEEHY

407-453A, B. YOUTH AND YOUNG ADULTS: SOCIAL NEEDS AND SERVICES. (3 Credits.) The physical, psychological and social development of youth and young adults and the relationship of such development to demands of the social environment. Emphasis is on the effects of societal change on family roles, interpersonal relationships, educational and work achievement, youths' community role, social services for youth and young adults.
PROFESSOR DALFEN

407-454A, B. SOCIAL SERVICES IN THE HEALTH FIELD WORK. (3 Credits.) An examination of the relationship between illness and social conditions. Social planning, practice and research aspects of health care and the delivery of health services. An evaluation of current and developing professional roles of social workers in health teams, with particular emphasis on social rehabilitation of the physically and mentally ill. PROFESSOR MARCUS

407-455D. SEMINAR ON SOCIAL WORK PRACTICE. (6 Credits.) This course will focus on principles of social work practice and on developing skill in working with individuals, families, small groups and communities. Attention will be given to the applicability of selected social and psychological science concepts in constructing models of social work intervention. Methods of practice will be analysed from a range of settings, drawing upon student field experiences.

407-456D. FIELD PRACTICE. (6 Credits.) Supervised educational experiences in social work practice designed to integrate practice with theoretical knowledge. Through field placements in university affiliated teaching centres, students will work with individuals, families, groups and communities, receiving both individual and group instruction. Two days per week, September to mid April. Full time practice during May.

407-457B. LEGAL PROBLEMS OF THE POOR. (3 Credits.) A lecture-and-seminar course on law and social welfare, with the emphasis largely on the social-legal problems and rights of the poor, and methods of legal protection and redress available to them. Aspects of Canadian civil law and criminal law will be reviewed. Emphasis will be placed on the Quebec scene, with landlord-tenant, contract and debtor, matrimonial regimes, parental responsibility and social insurance. The total Canadian perspective will be considered in areas of divorce, unemployment insurance, arrest, and bail. ROBERT M. COOPER

407-458B. THE IMPLEMENTATION OF WELFARE POLICY. (3 Credits.) An analysis of policy issues which underlie selected social service programs; the administrative structure of such programs, their legislative base, their effectiveness and the role of professionals in the service delivery. Examples will be drawn from the current field experiences of students in the course. PROFESSOR WOODSWORTH

407-460A. POVERTY AND SOCIAL POLICY. (3 Credits.) An examination of the nature of poverty and of the characteristic problems of the poor, with comparative evaluation of alternative policies for resolution of the problems, including issues of maintenance of the incomes and social status of threatened populations. MEMBERS OF STAFF

407-461B. SEMINAR IN CORRECTIONS. (3 Credits.) An examination of criminal behaviour in Canada and the U.S., and the correctional system designed to deal with such behaviour. The

parts played by the Police, Judiciary, Penal System and the Probation and Parole Services will be discussed, together with the role of Social Work in the correctional process.
PROFESSOR DEEHY

407-470A. INTRODUCTION TO SOCIAL WORK RESEARCH. (3 Credits.) Introduction to the conceptual framework of scientific inquiry and its relationship to social work research and practice. Information on and experience with selected methods of research. Problem identification and formulation is stressed. PROFESSOR SHINER

407-472A. SEMINAR ON FAMILY ASSESSMENT. (3 Credits.) An advanced seminar designed to integrate knowledge of human personality in social process. Emphasis will be upon the appraisal and assessment of patterns of reciprocity among members of disturbed and disorganized families. PROFESSOR FREEMAN

407-473B. CASEWORK WITH INDIVIDUALS AND FAMILIES. (3 Credits.) Theory and practice of work with individuals and families under stress. Topics will include: categories of hazardous events; affective, behavioural and role disorganization; phases in the crisis cycle; techniques of crisis intervention and abatement. PROFESSOR KATZ

407-474A. METHODS OF COMMUNITY DEVELOPMENT, SOCIAL ACTION. (3 Credits.) The aim of this course is to develop an understanding of the organizing process and to enrich the student's repertoire of direct organizing skills. Emphasis is on organizational entities, community power and conflict, organizing strategies and their application, in the context of current issues in urban community development. PROFESSOR DEEHY

407-475B. COMMUNITY ORGANIZATION. (3 Credits.) A continuation of Methods of Community Development, Social Action, with emphasis on the integration of community organization theory and practice. An examination of problems encountered in practice, current issues and trends in the conceptualization of community organization. PROFESSOR GOLDBLOOM

407-476A. SOCIAL WORK PRACTICE WITH GROUPS I. (3 Credits.) Theory and practice of work with groups. Focus will be on group development theory and the skills of the worker as he strengthens group potential for mutual aid. Children and adult groups in a range of settings will be examined. PROFESSOR SHULMAN & MRS. REICHERTZ

407-477B. SOCIAL WORK PRACTICE WITH GROUPS II. (3 Credits.) An advanced course in practice, with emphasis on comparative theories of groups. PROFESSOR SHULMAN

407-478A. ACTIVITY GROUP METHODS. (3 Credits.) Theory and practice of the use of activity in work with groups. An analysis of a range of mediums through which group members provide mutual aid. An exploration of theoretical models of the role of the worker.
MRS. MELAMED

407-479B. SEMINAR IN INTEGRATION OF PRACTICE METHODS. (3 Credits.) Discussion seminar in which attention will be given to a range of beginning theoretical attempts to define an integrated method. Emphasis will be placed on the examination of existing practice models; the problems entailed in creating a common model which allows for a differential application, and a study of the central requirements for a functional statement of practice.
PROFESSOR KATZ

407-480D. FIELD INSTRUCTION. (6 Credits.) Supervised educational experience in social work practice integrating practice with theoretical knowledge characteristic of the selected field. Individual and group instruction. FIELD INSTRUCTIONAL STAFF

SCIENCE FOR ARTS STUDENTS

Course descriptions appear in the appropriate departmental listings in the Faculty of Science section of this Announcement.

BIOLOGY 177-013A. ENVIRONMENTAL ISSUES. (3 Credits.)
CHEMISTRY 180-200B. PHYSICAL SCIENCE II. (3 Credits.)
CHEMISTRY 180-300A. HISTORY OF CHEMISTRY I. (3 Credits.
CHEMISTRY 180-310B. HISTORY OF CHEMISTRY II. (3 Credits.)
PHYSICS 198-200A. PHYSICAL SCIENCE I. (3 Credits.)
PHYSICS 198-224B. PHYSICS OF MUSIC. (3 Credits.)

SOCIOLOGY (166)

Stephen Leacock Building, General Information: Room 709, Telephone 392-5178

Major Program in Sociology

The Major program in Sociology is intended for students who do not wish to confine their studies to the sequence of courses required of Honours students. Admission to the Major program will normally take place after a student has completed an introductory course in sociology. A minimum grade of 65% in introductory sociology is required for acceptance into the Major program.

Required course work is as follows:

Introduction to Sociology
33 additional credits in Sociology
24 credits chosen from one or two of:

- Anthropology
- Economics
- Geography
- History
- Linguistics
- Political Science
- Psychology
- Religious Studies

Students wishing to be admitted to the Program should consult with Professor R. Hamilton.

The Honours Program

The Honours program is designed for students who are interested ultimately in pursuing graduate study in Sociology. Honours students are required to take a full program as required by Faculty with at least seven full courses or fourteen half courses (42 credits) in the field of Sociology. An additional 18 credits are required either from courses within Sociology or, with permission of the Undergraduate Honours Adviser, from courses relevant to the student's field of interest that are outside the Department. The total requirement, therefore, is 60 credits in Sociology or related areas.

Honours students must take a course in statistics (166-350A), a course in techniques of social research (166-461A), a course in the history of sociological theory (166-451A), and one other methods course. This may be either 166-463B, 166-465B, or a methods course approved by the Honours Adviser. In addition, the Honours student must take two graduate seminars in the final year. With consent of the Honours Adviser, supervised independent study — reading and research — may be substituted for one of these graduate seminars.

Entry into the program will normally be at the beginning of the U1 year. Entrants are required to have a strong B average including a strong performance in Introductory Sociology and approval of the Department.

In order to be allowed to remain in the program and to receive the Honours degree students must maintain a CGPA of 3.0, as well as GPA of 3.0 in Sociology courses. In addition, no course with a grade below C will be credited towards the 60 credits required for the Honours degree. In the case of courses specified by the program (statistics, methods, history of theory, etc.) a student receiving a grade below C may, with the permission of the Department, take a supplemental examination or repeat the course. In the case of a course being counted as one of the credits required by the program a student receiving a grade below C has the additional option of substituting a new course in Sociology providing that his total grade point average in Sociology remains above 3.0.

First Class Honours in Sociology will be granted based on a CGPA of 3.5 or above as well as a GPA of 3.5 or above in Sociology courses.

Joint Honours Programs

Joint Honours Programs exist with Anthropology, Economics and Political Science. A student taking such Joint Honours Programs must take at least 42 credits in Sociology. These courses must include the required courses indicated above.

Students wishing to be admitted to the Honours Program should consult with Professor R. Hamilton.

Course Descriptions

INTRODUCTION TO SOCIOLOGY

Introduction to Sociology is open to all students. The three options, E21A, E22B and E23A are somewhat different in their emphases (see the descriptions below) but completion of any of these courses will enable the student to take advanced courses in the Department.

INTRODUCTION TO SOCIOLOGY IS A PREREQUISITE FOR ALL COURSES IN SOCIOLOGY.

166-E21A. INTRODUCTION TO SOCIOLOGY. (3 credits.) A general introduction to sociological theory and the analysis of groups in modern society. The course covers comparative cultures, the social development of the individual, ethnic and class groupings, characteristics of urban life, social change, and institutional structures. PROFESSOR HAMILTON

166-E22B. INTRODUCTION TO SOCIOLOGY. (3 credits.) An introduction to sociological theory with special attention to symbolic interactionism. The rise of the sociological perspective, the nature of social interaction and the relationship between theories of the person and theories of the social structure will be dealt with. PROFESSOR SPECTOR

166-E23A. INTRODUCTION TO SOCIOLOGY. (3 credits.) The course offers a general survey of several selected traditions within sociology. Specifically, we shall focus on person-centered traditions (e.g. those centering on Weber and Durkheim), conceptual traditions (e.g. structural-functionalism, exchange, balance) and subject-centered traditions (e.g. family, stratification, etc.). PROFESSOR CARROLL

OTHER COURSES

166-217A. MASS COMMUNICATIONS. (3 credits.) Comparative and historical approach to the rise of the media and their impact on modern Canadian and U.S. society. The interrelationships between economic and media structures and their effect on message content. PROFESSOR ROCKMAN

166-217B. SOCIAL ASPECTS OF MASS COMMUNICATION. (3 credits; *Prerequisite:* 217A or permission of instructor.) A continuation of the first semester Mass Communications course, emphasizing issues in Canadian and international communications such as: Canadian Identity; the Wired City; satellite programming; international news flow; the image of women; and future technology. PROFESSOR ROBINSON

166-220B. COMPARATIVE SOCIOLOGY. (3 credits.) Comparison of the interrelations of political, economic and cultural institutions in 8 national societies, as they have changed during the 20th century: the United Kingdom, the USSR, China, Brazil, India, Nigeria, the USA, and Canada. Changing relationship of each national society to world-system. Course offered in alternate years only. PROFESSOR WALLERSTEIN

166-221A. CLASS AND POLITICS IN THE UNITED STATES. (3 credits.) Analysis of the class structure of the contemporary United States. Political attitudes and behaviour of elites, upper and lower middle classes, and the working class will be explored. The sources of stability and change will also be considered. PROFESSOR HAMILTON

166-222B. URBAN SOCIOLOGY. (3 credits.) Analysis of the "urban problem", of the major theoretical viewpoints (or the lack thereof) and their political-ideological origins. Specific studies of urban neighbourhoods, the social economy of housing, and urban political structures, will be related to the "problems". Major programs, public housing, urban renewal, and community action will be evaluated. PROFESSOR KROHN

166-223B. SOCIAL STRATIFICATION. (3 credits.) The theory of caste and class divisions in modern society; the structure of class groups in the United States and Canada; the criteria of rank and the symbols associated with rank; the relationship between occupation, education and class position; problems of upward and downward mobility. PROFESSOR PINARD

166-224B. CANADIAN SOCIETY. (3 credits.) Power structures in Canadian Society from Confederation until the present. Quebec and Canada. Social protest movements in 20th Century Canada. Question of Canada's survival as an independent nation by the year 2000. PROFESSOR EHRENSAFT

166-225B. MEDICINE & HEALTH IN MODERN SOCIETY. (3 credits.) Introduction to a series of socio-medical problems and ways in which sociologically oriented analysis and research are being used to understand and deal with them. Emphasizing Canada and Quebec, problems such as the following will be included: Poverty and Health; Mental Illness; Aging; Death and Dying; Professionalism; Health Service Organization. PROFESSOR LELLA

166-226A. ECOLOGY AND SOCIETY. (3 credits.) The social origins of the ecological crisis in industrial societies. Comparison of attempts to protect and regulate the environment in industrialized nations. Sociological basis of ecology-oriented social movements and pressure groups. Intensive studies of selected industries and their effects upon the environment. PROFESSOR EHRENSAFT

166-227A. DEVIANCE AND SOCIAL CONTROL. (3 credits.) Theories of deviance, the relationship between social change in modern society and the development of social problems; crime in modern society; the relationships between social power, the law, and crime, the slum community; the police and crime. PROFESSOR RAINS

166-228A. POWER AND SOCIETY. (3 credits.) Comparison of power structures in North America, Western Europe, Japan and the Soviet Union during the 20th Century. National power and international relations during the thermo-nuclear era and multinational corporations and national sovereignty. PROFESSOR EHRENSAFT

166-229A. SOCIOLOGY OF OPPRESSION. (3 credits; Not given 1973-74.) Processes of oppression and exploitation in advanced industrial societies, with special emphasis upon women and upon ethnic and racial populations. Special emphasis upon colonization and imperialism. PROFESSOR DIXON

166-247B. FAMILY AND KINSHIP. (3 credits.) The course will deal with the social structure of the family in Western and non-Western societies; the mutual interaction of the larger social system and family structure; family pathologies. PROFESSOR CARROLL

166-260B. INDUSTRIAL SOCIETIES. (3 credits.) A review and evaluation of the works of modern social critics of industrial society from the perspective of psychodynamics, social psychology, and organizational theory. This review will be used to understand and evaluate developments in family, school, and factory organizations, in Canada, Russia, and Yugoslavia. PROFESSOR WESTLEY

166-303B. CONTEMPORARY SOCIAL PSYCHOLOGY. (3 credits.) This course will discuss recent developments in social psychology. Selected topics will include the social psychology of religion, socialization, cognitive consistency, small groups and the sociological research process itself. The nature of the prevailing conceptual frameworks in social psychology will also be reviewed. PROFESSOR CARROLL

166-309A. SOCIOLOGY OF HEALTH AND ILLNESS. (3 credits.) A survey of sociological studies of persons who are ill, the occupations providing medical care, and the social organization of medical services. Each student carries out and writes a report on a modest field research project, based on interviewing, participant observation, or some other direct contact with people in medical settings. PROFESSOR SOLOMON

166-312A. INDUSTRIAL SOCIOLOGY. (3 credits.) A modular survey of the literature on industrialization, work organization, work groups, blue and white collar work and workers, and alienation. Students will work, without instruction, in small groups to discuss the major issues in industrial sociology. On each topic or module (as above) students will complete a short paper on which they will receive detailed criticism. Grades will be based on the number of modules the students choose to complete. PROFESSOR WESTLEY

166-317B. RESEARCH IN CANADIAN MASS COMMUNICATIONS. (3 credits; Not given 1973-74; to be given 1974-75.) An advanced course in mass communications which gives students an opportunity to generate and participate in group research projects analyzing the organization, functioning and content of Canadian media. Differences in French-English perspectives, the role of journalists, the portrayal of women in the media are possible research topics. PROFESSOR ROBINSON

166-326B. POLITICAL SOCIOLOGY. (3 credits.) The relation between social organization and the political process at the individual level; political participation and voting behaviour, with special reference to the Province of Quebec and Canada; problems of mass society and power structures; the effects of social organization on party systems; the role of public opinion and the mass media in politics. PROFESSOR HAMILTON

166-332D. SOCIAL ASPECTS OF DEVELOPMENT IN THE THIRD WORLD. (6 credits.) Demographic, cultural, psychological, and structural obstacles to economic growth. Strategies of development, from community organization to revolution, and a comparison of their effectiveness. The transformation of social structure under the impact of industrialization, urbanization, and "Westernization". PROFESSOR VON ESCHEN

166-340A/166-341B. CURRENT PROBLEMS IN SOCIOLOGY. (3 credits each. *Prerequisite:* Introduction to Sociology & permission of instructor. This course is intended for students

who are adequately prepared to undertake advanced work. A student may take no more than 6 credits from the following: 166-340A/166-341B, 166-342A/343B, 166-440A/166-441B, 166-442A/166-443B. Open to U2 and U3 students only.) A group of students who wish to take a course or seminar in some area of current problems in sociological theory or research, not presently offered in the Department, may request a member of the Department to present such a course or seminar. Topics to be chosen by students and staff jointly. It is the student's responsibility to obtain the instructor's written consent and to inform the Department prior to registration, Rm. L709. STAFF

166-342A/166-343B. INDEPENDENT READING AND RESEARCH. (3 credits each. *Prerequisite:* Introduction to Sociology & permission of instructor. This course is intended for students who are adequately prepared to undertake advanced work. A student may take no more than 6 credits from the following: 166-340A/166-341B, 166-342A/166-343B, 166-440A/166-441B, 166-442A/166-443B. Open to U2 and U3 students only.) A student having a highly developed and specialized interest not covered by a regular course in the Department will be allowed to pursue it under supervision of a member of the staff. It is the responsibility of the student to acquire the instructor's consent prior to registration and to inform the Department, Rm. L709. STAFF

166-350A. ELEMENTARY STATISTICS IN SOCIOLOGY AND ANTHROPOLOGY. (3 credits. Open to students who have not taken Psychology 204A, 205B, 206B or Economics 317D.) The basic concepts and techniques of statistical analysis applied in sociological and anthropological research problems. Topics include: frequency distributions, measures of central tendency and variation, simple correlation methods, sampling, tests of significance and non-parametric statistics. PROFESSOR SPECTOR

166-353A. SOCIAL CONFLICT. (3 credits.) The dynamics of conflict in society. Processes in the initiation and development of conflicts. Types of conflicts. In-group conflicts and conflicts with out-groups. The impact on existing structures. Limiting factors in conflict situations. The role of the agencies of social control. PROFESSOR VON ESCHEN

166-354D. SOCIAL CHANGE. (6 credits.) The process of social change in the modern world. National development within a world-system. The first semester will deal with the creation of a European world-economy, 1450-1815: commerce, capitalist agriculture, and statism. The second semester will deal with the capitalist world-system, 1815 to the present: industrialism, nationalism and revolution. PROFESSOR WALLERSTEIN

166-372B. SOCIAL REVOLUTION. (3 credits; Not given 1973-74.) Sociological analysis of the conditions and processes of social revolution. Case studies of the French Revolution, revolutions of 1848 (and their relations to Marxist theory), Russian Revolution, and wars of national liberation. PROFESSOR DIXON

166-407A. SOCIAL MOVEMENTS AND COLLECTIVE BEHABIOUR. (3 credits; Not given 1973-74.) General theoretical perspectives on collective behaviour. Theories of social movements and revolutions. Examination of a theory of communal (ethnic, religious, etc.) conflict and accommodation and its relevance for the analysis of Quebec's separatist movement. Analysis of other social movements and of elementary forms of collective behaviour (panics, crazes, hostile outbursts). PROFESSOR PINARD

166-410A. FORMAL SERVICE ORGANIZATIONS. (3 credits.) Existing theories are examined through the study of organizations which have professionals as central participants, such as medical and health organizations. Career strategies of professional and other personnel are related to organizational structure and process. PROFESSOR LELLA

166-415A. IMPERIALISM. (3 credits; Not given 1973-74.) Sociology of contemporary neo-colonialism. Includes study of Lenin, Luxembourg, Mandel, Baran, Sweezey, Frank, Magdoff and others. Case studies from different neo-colonial situations: Canada, Latin America and SE Asia. Particular attention to the political and economic policies of the U.S.A. since World War II, especially those leading to military interventions, e.g. Korea, Viet-Nam, Guatemala, Dominican Republic and Cuba. PROFESSOR DIXON

166-417B. THE SOCIOLOGY OF THE PROFESSIONS. (3 credits.) The development of specialized occupations such as medicine, nursing, teaching, law, science, engineering, and the military: occupations in non-Western societies; occupational organization and social control; types and stages of careers; self-involvement and personal identity in the professions. PROFESSOR SOLOMON

166-420B. THE STUDY OF ORGANIZATIONS. (3 credits.) An undergraduate seminar on theories of organizations and studies of armies, churches, government agencies, hospitals, police departments, schools, welfare agencies, and work organizations. Students will read and discuss the works of the major organizational theories and prepare a paper on typical and alternative organizations in one of the above areas. PROFESSOR WESTLEY

166-435A. THE SOCIOLOGY OF POPULAR CULTURE. (3 credits. *Prerequisites:* Sociology 217A (formerly 317B) or permission of instructor.) Explores theories of culture, folk, elite and

mass as related to the media of communication. In addition, it traces the effects of industrialization on the production of cultural messages and the role of the audience in modern society. Illustrations will be drawn from Canada, U.S., United Kingdom, Germany, Yugoslavia and the USSR. PROFESSOR ROBINSON

166-440A/166-441B. CURRENT PROBLEMS IN SOCIOLOGY. (3 credits each. *Prerequisite:* Introduction to Sociology & permission of instructor. This course is intended for students who are adequately prepared to undertake advanced work. A student may take no more than 6 credits from the following: 166-340A/166-341B, 166-342A/166-343B, 166-440A/166-441B, 166-442A/166-443B. Open to U2 and U3 students only.) A group of students who wish to take a course or seminar in some area of current problems in sociological theory or research, not presently offered in the Department, may request a member of the Department to present such a course or seminar. Topics to be chosen by students and staff jointly. It is the student's responsibility to obtain the instructor's written consent and to inform the Department prior to registration, Rm. L709. STAFF

166-442A/166-443B. INDEPENDENT READING AND RESEARCH. (3 credits each. *Prerequisite:* Introduction to Sociology & permission of instructor. This course is intended for students who are adequately prepared to undertake advanced work. A student may take no more than 6 credits from the following: 166-340A/166-341B, 166-342A/343B, 166-440A/166-441B, 166-442A/166-443B. Open to U2 and U3 students only.) A student having a highly developed and specialized interest not covered by a regular course in the Department will be allowed to pursue it under supervision of a member of the staff. It is the responsibility of the student to acquire the instructor's consent prior to registration, and to inform the Department, Rm. L709. STAFF

166-448B. ETHNOMETHODOLOGY. (3 credits.) The course will be directed to understanding and coming to terms with this new theoretical development in sociology which considers the methods and practices used by persons to interpret, construct and make sense of their world — to generate social reality. PROFESSOR RAINS

166-451A. THE HISTORY OF SOCIOLOGICAL THEORY. (3 credits.) Social and political debates of the 19th and 20th Centuries seen in their social contexts as the background of current theoretic concerns and developments. Emphasis falls on Smith, St. Simon, Marx, Durkheim, Weber, American functionalists, and the "Chicago School", and the social and theoretic traditions they originated and represent. PROFESSOR KROHN

166-455B. MEDICARE PLANS. (3 credits; *Prerequisite:* 309A Sociology of Health and Illness. Not given 1973-74.) A comparison of the social organization of medical care in the U.K., USSR, France, USA, Canada, and other countries. Emphasis on the politics of medicare and evolution of different types of plans in different social and political systems. PROFESSOR SOLOMON

166-460A. NATIONAL LIBERATION MOVEMENTS IN AFRICA. (3 credits; Not given 1973-74; to be given in 1974-75.) Historical background to national liberation struggles in southern Africa. Social roots and political strategies of African movements and white settler governments. Southern Africa's role in world-system. Links of liberation movements to world struggle. PROFESSOR WALLERSTEIN

166-461A. INTRODUCTION TO SOCIAL RESEARCH. (3 credits. *Prerequisite:* 350A Elementary Statistics in Sociology and Anthropology.) The course will offer the beginning student an introduction to the application of the scientific method to social phenomena, with examples drawn from the history of sociology. The course will centre around four non-quantitative research exercices, involving the construction and execution of a survey, content analysis, participant observation, and small group experimentation. PROFESSOR CARROLL

166-463B. FIELD METHODS IN SOCIOLOGY. (3 credits.) Participant observation; interviewing and the nature of questions and questioning; the relative advantages and disadvantages of these as methods of generating data and theory; ethical questions. PROFESSOR RAINS

166-465B. SURVEY ANALYSIS. (3 credits; *Prerequisite:* 461A Introduction to Social Research. Not given 1973-74.) The course involves the analysis of completed surveys. Students will be expected to write an original research paper based on survey materials. PROFESSOR HAMILTON

GRADUATE SEMINARS

NOTE: The following graduate seminars are open to final year Honours students with adequate preparation:

*166-603A Seminar: Dev/Grounded Theory & Organizational Change — Professor Lella

*166-612A Seminar: Radical Sociology — Professor Dixon

*166-615A Seminar: The Sociology of Medicine — Professor Solomon

*166-618A Seminar: The Sociology of Work — Professor Westley

*166-620A	Seminar:	Social Movements	Professor Von Eschen
166-622B	Seminar:	Problems in Mass Communications	Professor Robinson
166-627B	Seminar:	Political Sociology	Professor Hamilton
*166-631A	Seminar:	Corporations & Society	Professor Ehrensaft
166-640B	Research:	Qualitative Methods of Social Research	Professor Spector
166-654A	Seminar:	Quantitative Methods of Social Research	Professor Pinard
*166-661B	Seminar:	Sociology of Knowledge	Professor Krohn
*166-671A	Seminar:	Deviance & Social Control	Professor Rains
*166-672B	Seminar:	Social Change	Professor Wallerstein
166-680D	Seminar:	Applied Sociology & Alternative Organizations	Professors Solomon, Westley & Lella
166-681D	Seminar:	Social Movements	Professors Pinard & Von Eschen
166-682D	Seminar:	Economic Sociology	Professors Krohn & Ehrensaft
166-683D	Seminar:	World System	Professors Wallerstein, Dixon & Ehrensaft
166-684D	Seminar:	Deviance & the Labelling Perspective	Professors Rains & Spector
166-720A/B		Reading in Social Theory	Staff
166-730A/B		Reading & Research	Staff

*Not given 1973-74.

SPANISH LANGUAGE AND LITERATURE (144)

Samuel Bronfman Building, Room 680, Telephone 392-4600

The Spanish Department offers courses in language as well as literature and civilization of Spain and Spanish America. The basic philosophy of the Department is dominated by a desire to expand the students' liberal arts background by acquainting them with the culture of other national groups. An enrichment in this area, it is felt, reduces provincialism and broadens one's intellectual horizon. This humanistic approach is indispensable, regardless of professional interests or fields of specialization, such as high school or college teaching, or work in Latin American studies. One is a more competent professional if one has been exposed to this perspective.

Major Program

48 credits including 215A or B, 216A or B, or the equivalent. Students may wish to concentrate either in Peninsular Spanish literature or Spanish American literature. At least twelve credits should be taken in Spanish American literature if the Major is in Spanish literature, and vice versa.

REQUIRED COURSES

6 credits in civilization
6 credits in survey of literature
Spanish 144-355A (Methods of Literary Analysis)
Spanish 144-450D (Cervantes).

NOTE: Students concentrating in Spanish Peninsular Literature must take Spanish 144-456A (History of the Language).

Adviser to Major Program: Miss Sibbald, 392-4618.

Honours Program

With the permission of the Department, a more advanced Spanish course may be taken if the student has studied Spanish previously and has acquired proficiency in oral work.

The Honours program in Spanish has been designed to enable the student to pursue his studies in one of two directions:

1) Emphasis on Spanish Literature
2) Emphasis on Spanish American Literature.

Honours students are expected to achieve a high 'B' in all Spanish courses, as well as satisfactory standing in all other courses.

In order to be graduated with Honours in Spanish, a student will be required to write a research paper on a theme of his choice, under the guidance of a member of the Department.

The Department reserves the right to determine whether a student will be advanced or withdrawn from the Honours program.

Prerequisite: A First year Spanish course with a final grade of 75.

Requirements: A minimum of 60 credits including 215A or B, 216A or B.

NOTE: Courses numbered in the 50s (e.g., 351, 453, etc.) are designed primarily for Honours students. However, others may enrol with the permission of the instructor.

OBLIGATORY COURSES (to be taken during the U-2 or U-3 years):

Spanish 144-355A (Methods of Literary Analysis)

Spanish 144-450D (Cervantes)

Spanish 144-456A (History of the Language).

Honours students are expected to take *either* Spanish Civilization and Survey of Spanish American Literature *or* Spanish American Civilization and Survey of Spanish Literature as basic courses.

Honours adviser: Professor Michalski, 392-4602.

Joint Honours

Students may combine Honours in Spanish with Honours in any one of the following subjects: Classics, English, French, German, Italian, Linguistics, Philosophy, Russian. Students enrolled in Joint Honours are required to take 12 credits in Spanish each year. The following two courses must be included in the program: Spanish 144-355A (Methods of Literary Analysis) and Spanish 144-450D (Cervantes). As in the case of single Honours, a research paper will be required.

Students may begin Single or Joint Honours in Spanish in their second year if, in the opinion of the Department, they are qualified to do so.

Adviser: Professor Michalski, 392-4602, or Professor Lipp, 392-4601.

Course Descriptions

144-E11A,B. SPANISH LANGUAGE: BEGINNERS' COURSE. (3 credits.) First half of a comprehensive course in speaking, reading and writing. An introduction to Spanish and Spanish American civilization. Four hours weekly, including laboratory. PROFESSOR VARY

144-E12A,B. SPANISH LANGUAGE: BEGINNERS' COURSE. (3 credits; *Prerequisite:* E-11A or B, or the equivalent. Second half of a comprehensive course in speaking, reading and writing. An introduction to Spanish and Spanish American civilization. Four hours weekly, including laboratory. PROFESSOR VARY

144-215A,B. ADVANCED ORAL AND WRITTEN EXPRESSION. (3 credits.) Review of grammar. Practice in speaking and writing. Four hours weekly, including laboratory. MISS SIBBALD

144-216A,B. ADVANCED ORAL AND WRITTEN EXPRESSION. (3 credits. *Prerequisite:* 215A or B.) Review of grammar. Practice in speaking and writing. Four hours weekly, including laboratory. MISS SIBBALD

144-221A. SPANISH CIVILIZATION. (3 credits.) Survey of the culture and history of the Spanish people from the origins to the rise of the Spanish empire. MISS WILLIAMSON

144-222B. SPANISH CIVILIZATION. (3 credits.) Survey of the culture and history of the Spanish people from the Golden Age (including The Conquest of the New World) to the present era. MISS WILLIAMSON

144-231A. SPANISH AMERICAN CIVILIZATION. (3 credits.) From the indigenous period (Aztec, Maya and Inca civilizations) to Independence from Spain. PROFESSOR SANCHEZ

144-232B. SPANISH AMERICAN CIVILIZATION. (3 credits.) From Independence to the present era. PROFESSOR SANCHEZ

144-241A. SURVEY OF SPANISH LITERATURE. (3 credits.) From the origins to the Golden Age, through a study of representative works. PROFESSOR AMASUNO

144-242B. SURVEY OF SPANISH LITERATURE. (3 credits.) From the Golden Age to the modern period through a study of representative works. PROFESSOR AMASUNO

144-243A. SURVEY OF SPANISH AMERICAN LITERATURE. (3 credits.) From the Colonial period to Modernism through a study of representative works. PROFESSOR LIPP

144-244B. SURVEY OF SPANISH AMERICAN LITERATURE. (3 credits.) From Modernism to the present through a study of representative works. PROFESSOR LIPP

144-315A. FUNCTIONAL SPANISH. (3 credits.) A Third Year level course dealing with problems of advanced grammar and syntax. Written exercises, oral reports and summaries of reading selections will provide the basis for discussion. PROFESSOR AMASUNO

144-321A. SPANISH LITERATURE OF THE 18TH CENTURY. (3 credits. Not given in 1973-74.) A critical study of neo-classical drama and poetry: satirical prose: Jovellanos, Iriarte, Moratîn and others. MISS SIBBALD

144-322B. NINETEENTH CENTURY POETRY. (3 credits. Not given in 1973-74.) Romanticism in Spain through representative poets such as Espronceda, Zorrilla, Bécquer and others. PROFESSOR VARY

144-323A. 19TH CENTURY DRAMA. (3 credits. Not given in 1973-74.) Romantic, Realistic and Neo-romantic movements; theatre of the Generation of 1898. PROFESSOR OUIMETTE

144-324B. 20TH CENTURY DRAMA. (3 credits. Not given in 1973-74.) Satirical drama and theatre of social protest. *Literatura comprometida.* García Lorca and Casona; Buero Vallejo, Sastre, Olmo, Munîz, Arrabal and others. MISS SIBBALD

144-325D. THE SPANISH NOVEL OF THE 19TH CENTURY. (6 credits; Not given 1973-74.) The Romantic, Realist and Naturalist novel in Spain, with special emphasis on the works of Pérez Galdós and the development of the Spanish novel in relation to contemporary trends in other European countries. PROFESSOR OUIMETTE

144-327A. LITERATURE OF IDEAS: SPAIN. (3 credits. Not given in 1973-74.) Critical reading and discussion of works of outstanding thinkers as a key to understanding the development of social forces and institutions. PROFESSOR LIPP

144-328B. LITERATURE OF IDEAS: SPANISH AMERICA. (3 credits.) Critical reading and discussion of works of outstanding thinkers as a key to understanding the cultural development of a continent. PROFESSOR LIPP

144-332A. SPANISH AMERICAN LITERATURE OF THE 19TH CENTURY. (3 credits.) An intensive study of representative authors from the period of Independence to the advent of Modernism. PROFESSOR SANCHEZ

144-333A. SPANISH-AMERICAN DRAMA. (3 credits.) A study of the outstanding works of the theatre from the colonial period to the present, including pre-Columbian works. PROFESSOR MICHALSKI

144-350D. THE GENERATION OF 1898. (6 credits. Not given in 1973-74.) Spiritual and intellectual renewal in Spain from the war of 1898 to the Civil War, as seen principally in the works of Unamuno, Antonio Machado, Baroja and Valle Inclán. Politics and aesthetics. PROFESSOR OUIMETTE

144-351D. SPANISH AMERICAN NOVEL PRIOR TO WORLD WAR II. (6 credits. Not given in 1973-74.) Representative authors of the 20th Century. The novel of the land: The Indianist Novel, The Mexican Revolution. PROFESSOR SANCHEZ

144-355A. METHODS OF LITERARY ANALYSIS. (3 credits.) Discussion of literary style and techniques; recent trends in criticism. Critical study of various authors for purposes of illustration. PROFESSOR MARTINEZ

144-356A. SPANISH AMERICAN SHORT STORY. (3 credits. Not given in 1973-74.) Study of style, tendencies and types as reflected in the evolution of this genre, and seen against the background of a developing continent. PROFESSOR MICHALSKI

144-421D. GOLDEN AGE PROSE. (6 credits; Not given 1973-74.) The Picaresque and Pastoral Novels. Didactic and Historical Prose. Mysticism and Asceticism. PROFESSOR UGALDE

144-422D. MODERN LYRIC POETRY. (6 credits.) Poets in exile and counter movements in 20th Century Spain: Garcia Lorca, Alberti, Salinas, Aleixandre, Cernuda and Hernández. MISS SIBBALD

144-424B. SPANISH NOVEL SINCE THE CIVIL WAR. (3 credits.) Cela and *Tremendismo.* Women novelists. Writers in exile: Goytisolo and others. PROFESSOR AMASUNO

144-432B. SPANISH AMERICAN COLONIAL LITERATURE. (3 credits. Not given in 1973-74.) A study of the outstanding works from the period of conquest and colonization to the wars of Independence. PROFESSOR SANCHEZ

144-440A,B. THEMES IN HISPANIC LITERATURE. (6 credits.) Special group projects may be undertaken dealing with problems or themes not covered in any of the other course offerings. STAFF

144-442B. MODERNIST POETRY. (3 credits. Not given in 1973-74.) A study of the Modernist School of Spanish American Poetry, beginning with Rubén Dario. PROFESSOR MARTINEZ

144-450D. CERVANTES. (6 credits. Not given in 1973-74.) A study of the complete *Don Quijote*, the *Novelas ejemplares*, the *Entremeses* and other theatrical works. Some account of outstanding critical works on Cervantes. PROFESSOR UGALDE

144-451D. GOLDEN AGE DRAMA. (6 credits.) Study of representative works by Lope de Vega, Tirso de Molina, Calderón de la Barca and others. PROFESSOR UGALDE

144-453B. SPANISH AMERICAN POETRY SINCE MODERNISMO. (3 credits.) A study of the poetic movements which followed *Modernismo: ultraismo, vanguardismo, creacionismo.* PROFESSOR MARTINEZ

144-454D. SPANISH AMERICAN NOVEL SINCE WORLD WAR II. (6 credits. Not given in 1973-74.) A study of the "New Novel": its characteristics and techniques as represented by some of its outstanding contemporary exponents. PROFESSOR MARTINEZ

144-455D. GOLDEN AGE POETRY. (6 credits.) Study of representative poets of the Renaissance and Baroque periods. From Garcilaso and Italian influences to Góngora and Quevedo. MISS SIBBALD AND PROFESSOR VARY

144-456A. HISTORY OF THE LANGUAGE. (3 credits. *Prerequisite* for 144-457B.) The development of Spanish from its beginnings to the Modern Period, including usage in Spanish America and Judeo-Spanish. PROFESSOR HARVEY

144-457B. MEDIAEVAL LITERATURE. (3 credits. *Prerequisite:* 144-456A.) A study of important works of the period: *Poema de Mio Cid* to *La Celestina*. PROFESSOR HARVEY

144-470A. TUTORIAL.

144-471B. TUTORIAL.

144-472D. TUTORIAL.

URDU-HINDI (397)

397-E11D. INTRODUCTION TO URDU-HINDI. (6 credits; 5 hours, 1 lab.) Pronunciation, basic grammar and vocabulary, oral drills, both the Urdu (Arabic-Persian) and the Hindi (Deva-Nagari) alphabets, simple readings. This course is designed to allow the student to continue on to Elementary Urdu or Elementary Hindi.

397-E21D. ELEMENTARY URDU. (6 credits; 4 hours, 1 lab.) Further grammar and drills, prose, and poetry readings, composition.

Biology

Professors — G. A. MACLACHLAN *(Chairman);* W. G. BOLL; E. R. BOOTHROYD; P. S. DIGBY; F. C. FRASER; P. R. GRANT; W. F. GRANT; J. R. MARSDEN; J. D.METRAKOS; B. B. MUKHERJEE; D. M. STEVEN; C. M. WILSON

Associate Professors — A. H. BUSSEY; S. P. GIBBS *(on leave);* M. E. GOLDSTEIN; E KAFER-BOOTHROYD; J. KALFF; W. LEGGETT; R. E. LEMON; V. M. PASZTOR *(on leave);* R. J. POOLE *(on leave);* R. O. SATTLER; R. SINCLAIR; K. SITTMANN; J. L. SOUTHIN; D. TRASLER; H. TYSON; N. WOLFSON

Assistant Professors — A. N. AUCLAIR; B. P. BRANDHORST; R. CHASE; D. FROMSON; D. M. MADISON; K. MAIER; G. MANLEY; W. OECHEL; J. M. SOMERS; J. SPENCE

Senior and Head Demonstrators — S. CAHN; J. HAGGETT; E. SHAPIRO

Affiliated Staff — J. W. BOYES; R. L. CARROLL *(Redpath Museum);* K. G. DAVEY *(Parasitology);* M. J. DUNBAR *(Marine Science);* R. GOLD *(Paediatrics);* P. HECHTMAN *(Paediatrics);* C. LALLI *(Marine Science);* L. PINSKY *(Paediatrics);* H. REISWIG *(Redpath Museum);* H. M. SCHULMAN *(Lady Davis Institute);* C. R. SCRIVER *(Paediatrics)*

Chemistry

Professors — L. E. ST-PIERRE *(Chairman);* B. BELLEAU; G. C. B. CAVE; J. T. EDWARD; G. JUST; S. G. MASON; M. ONYSZCHUK; D. PATTERSON; A. S. PERLIN; A. TAURINS; C. A. WINKLER; L. YAFFE

Associate Professors — I. S. BUTLER; T. H. CHAN; A. EISENBERG; B. C. EU; P. G. FARRELL; J. M. FRESCO; W. C. GALLEY; D. F. R. GILSON; A. E. GROSSER; D. N. HARPP; J. F. HARROD; R. V. V. NICHOLLS; R. F. ROBERTSON; M. A. WHITEHEAD

Assistant Professors — J. J. HOGAN; D. J. SIMKIN

Associate Members — H. GOLDSMITH *(Medicine);* G. B. SAHA *(Nuclear Medicine)*

Senior Research Associate — D. A. I. GORING

Research Associates — H. BOLKER; R. ST. JOHN MANLEY; A. A. ROBERTSON

Senior Instructors — J. BIRNIE; R. BROWN; C. E. DROVER; G. FREDERICK; E. HEYGE

Computer Science

Professor — G. MARSAGLIA *(Director, School of Computer Science)*

Associate Professors — J. K. S. McKAY; W. D. THORPE *(Director, Computing Centre)*

Assistant Professors — H. D. ABRAMSON; D. J. BURRAGE; J. W. BUTLER; T. H. MERRETT; C. C. PAIGE; G. F. G. RATZER; E. REGENER; A. M. VALENTI *(Associate Director, Computing Centre)*

Research Associates — G. TOUSSAINT; K. ANANTHANARAYANAN

Lecturers — B. J. FOX; N. PAUL

Geography

Professors — J. BRIAN BIRD *(Chairman);* H. BROOKFIELD *(on leave 1973-74);* B. J. GARNIER *(on leave 1973-74);* T. L. HILLS; TREVOR LLOYD

Associate Professors — M. A. CARSON; R. NORMAN DRUMMOND; J. M. GILMOUR; P. G. HOLLAND; J. O. LUNDGREN; B. H. MASSAM; J. T. PARRY

Assistant Professors — G. O. EWING; W. B. KEMP; T. R. MOORE; S. OLSON; L. VEILLEUX *(part time);* E. WADDELL; R. G. WILSON; R. ZIMMERMANN

Visiting Professor — R. M. LOGAN

Lecturer — J. DRAKE

Research Associate — G. SZEICZ

Honorary Professor — F. B. MULLER

Director — Subarctic Research Laboratory — F. C. NICHOLSON *(Assistant Professor)*

Geological Sciences

Professors — C. W. STEARN *(Chairman);* G. DONNAY; J. A. ELSON; V. A. SAULL; J. S. STEVENSON

Associate Professors — R. DOIG; P. R. EAKINS; R. H. GRICE; R. HESSE; E. W. MOUNTJOY; G. R. WEBBER

Assistant Professors — H. HELMSTAEDT; W. H. MacLEAN; R. F. MARTIN

Mathematics

Professors — E. ROSENTHALL *(Chairman);* M. BARR; I. CONNELL; C. HERZ; H. KAUFMAN; J. LAMBEK; W. MOSER; H. RUBEN; V. SESHADRI; C. SOLIN

Associate Professors — S. MELAMED *(Assistant Chairman);* W. BROWN; J. CHOKSI; C. COSTLEY; A. EVANS; K. GOWRISANKARAN; D. GILDENHUYS; M. HERSCHORN; W. JONSSON; E. KOUNIAS; J. LABUTE; B. LAWRUK; A. MATHAI; S. NEGREPONTIS; T. OKUBO; B. RATTRAY; R. RIGELHOF; C. ROTH; N. SANCHO; D. SUSSMAN; K. TAM; J. TAYLOR; R. VERMES

Associate Professors (Visiting 1972-73) — J. BECK; S. BREITSPRECHER; B. RAMACHANDRAN

Assistant Professors — M. BUNGE; S. DRURY; S. GROSSMAN; W. LANGFORD; S. MASLOWE; E. ROWLINSON; P. RUSSELL; G. SCHMIDT; G. STYAN; J. TURNER; S. ZLOBEC

Assistant Professors (Visiting 1972-73) — W. ANDERSON; J. GOLAN; W. OLSON; T. PAPAIOANNOU

Research Visitors 1972-73 — C. AUDERSET; A. BOYARSKY; J. BROWN; T. CACOULLOS; P. CAHEN; I. FAROUQUI; H. HUNG; K. JANSSEN; P. KOOSIS; H. LEUTWILER; C. MULVEY; H. SWIATAK

Special Lecturer — J. GARDNER

Lecturers — N. BORBA; G. BORGHI; E. BRETTLER; W. BUTLER; R. CHAN; S. COOPER; H. de ARAZOZA; W. DOUGLASS; G. FLEISCHER; E. FOX; T. FOX; E. GARON; C. GOWRISANKARAN, J. GRAHAM; I. GRIFFITHS; V. GURUSWAMI; M. HARROW; J.-G. HEBERT; A. KENNEDY; D. KINGSBURY; K. MacKENZIE; G. NAIR; C. PETROS; P. SCAROWSKI; H. SCHWERDTFEGER; K. TENNENHOUSE; M. YALOVSKY

Meteorology

Professors — SVENN ORVIG *(Chairman);* W. F. HITSCHFELD; J. S. MARSHALL; R. R. ROGERS

Associate Professors — J. F. DEROME; P. E. MERILEES *(on leave);* E. VOWINCKEL

Assistant Professors — D. E. DIETRICH; H. G. LEIGHTON

Teaching Fellow — D. ROBERTSON

Microbiology and Immunology

Professors — S. I. VAS *(Chairman);* B. H. MATHESON; J. W. STEVENSON; W. YAPHE

Associate Professors — Z. ALI KHAN; C. A. BUTAS; E. C. S. CHAN; *J. de VRIES; P. GILL; L. KAPICA; *G. K. RICHARDS; H. G. ROBSON; R. SIBOO

Assistant Professors — H. ABRAMOVITCH; *K. D. ELIE; *J. GORDON; V. GROH; R. HAND; *E. MANKIEWICZ; *J. MENDELSON

Lecturers — *S. NOMMIK; *E. WOOD

Demonstrator — C. SHAW

Teaching Assistants — D. CRISTEANU; L. THERRIEN

*Part-time.

Pharmacology and Therapeutics

Professors — M. NICKERSON, *(Chairman);* J. LOWENTHAL

Associate Professors — B. G. BENFEY; N. R. EADE; L. E. FRANCIS; J. R. RUEDY; D. R. VARMA

Assistant Professors — R. CAPEK; L. CHUNG; B. COLLIER; G. KATO; E. M. KOVACS; A. H. NEIMS; R. I. OGILVIE; R. E. RANGNO; J. B. RICHARDSON; M. C. ROBERTSON; B. I. SASYNIUK; A. TENENHOUSE; J. M. TRIFARO; M. S. YONG; B. ZABLOCKA-ESPLIN

Physiology

Professors — J. MILIC-EMILI *(Chairman);* R. I. BIRKS; T. M. S. CHANG; K. KRNJEVIC; F. C. MacINTOSH; G. MELVILL JONES

Associate Professors — R. F. D. CRONIN; J. H. DIRKS; P. GOLD; D. R. FIRTH; C. POLOSA; P. SEKELJ

Assistant Professors — M. W. COHEN; M. M. FROJMOVIC; V. KLISSOURAS; W. S. LAPP; M. LEVY; M. MACKEY; G. MANDL; J. S. OUTERBRIDGE; A. WECHSLER; R. L. WILLIAMS

Visiting Assistant Professor — F. KIRCHNER *(Heidelberg)*

Lecturers — M. HAZUCHA; P. WELDON

Associate Members — MARY ELLEN AVERY *(Prof., Paediatrics);* B. A. COOPER *(Associate Prof., Medicine);* B. DUBROVSKY *(Assistant Prof., Psychiatry;* H. L. GOLDSMITH *(Assistant Prof., Medicine);* C. A. GORESKY *(Associate Prof., Medicine);* C. A. LASZLO *(Asst. Prof., Biomedical Engineering);* P. T. MACKLEM *(Associate Prof., Medicine);* J. M. McKENZIE *(Prof., Exp. Medicine);* M. M. MORRIS *(Asst. Prof., Anaesthesia)*

Physics

Professors — J. M. ROBSON *(Chairman);* R. E. BELL; F. T. HEDGCOCK; W. HITSCHFELD; M. P. LANGLEBEN; B. MARGOLIS; J. S. MARSHALL; W. M. MARTIN; E. R. POUNDER; R. T. SHARP; D. G. STAIRS; E. J. STANSBURY; R. STEVENSON; P. R. WALLACE

Visiting Professor — G. A. WOONTON

Associate Professors — J. R. ADDISON; A. P. CONTOGOURIS; J. E. CRAWFORD; S. DAS GUPTA; C. S. LAM; S. K. MARK; J. F. MATHISON; R. B. MOORE; T. F. MORRIS; W. B. MUIR; P. M. PATEL; D. G. RYAN *(on leave);* N. de TAKACSY; M. ZUCKERMANN

Visiting Associate Professor — A. I. McPHERSON

Assistant Professors — G. L. AUSTIN; R. HARRIS; R. HENZI; J. E. KITCHING; J. K.-P. LEE; M. M. SHAPIRO; J. O. STRÖM-OLSEN; J. M. TRISCHUK; D. WALSH

Honorary Lecturer — P. C. LANDRY *(Faculty of Education)*

Readers — V. FORBES; M. LAFLEUR

Curator, Rutherford Museum — F. R. TERROUX

Psychology

Professors — G. A. FERGUSON *(Chairman);* D. BINDRA; D. G. DOEHRING; VIRGINIA DOUGLAS; D. O. HEBB; W. E. LAMBERT; R. B. MALMO; R. MELZACK; BRENDA MILNER; P. M. MILNER; E. G. POSER; M. S. RABINOVITCH

Associate Professors — A. BREGMAN; M. CORBALLIS; J. A. CORSON; D. DONDERI; G. GEIS; M. GOLDSCHMID; R. KANUNGO; J. MACNAMARA; A. A. J. MARLEY; R. O. PIHL; J. O. RAMSAY; MURIEL STERN; G. R. TUCKER; BLOSSOM WIGDOR

Assistant Professors — J. CAMPBELL; SUSAN CAMPBELL; C. PASCAL; W. E. PIPER; T. SCHULTZ; D. TAYLOR; N. WHITE

Lecturer — OLGA FAVREAU

Sessional Lecturers — B. BLIDSTEIN; MARGARET GOLICK; R. KACHANOFF; A. SCHLEIPER; ERIKA GUTBRODT

Clinical Consultants — N. GREENBERG; ERIKA GUTBRODT; A. SURKIS

PROGRAM INFORMATION

The Faculty of Science offers the Bachelor of Science degree (B.Sc.).

The Faculty of Science and the Faculty of Arts offer similar patterns of study towards their degrees. A student may choose among the Faculty programs, Major programs or Honours programs as described in the introductory section of this Announcement common to both Faculties. (See page 33.)

DEPARTMENTAL ADVISORY OFFICES

Anatomy, Strathcona Anatomy and Dentistry Building, Rm. 148
Biochemistry, McIntyre Medical Building, Rm. 802
Biology, Stewart Biology Building, Rm W 4/9
Chemistry, Otto Maass Chemistry Building, Rm. 312
Geography, Burnside Hall, Rm. 513
Geology, Frank Dawson Adams Building, Rm. 238
Mathematics, Burnside Hall, Rm. 1005
Meteorology, Burnside Hall, Rm. 720
Microbiology and Immunology, 3775 University Street, Rm. 515
Physics, Macdonald Physics Building, Rm. 105
Physiology, McIntyre Medical Building, Rm. 1023
Psychology, Stewart Biology Building, Rm. W 8/1 or W 8/8

FACULTY PROGRAMS

Note: A description of the Core Curriculum in Biology may be found on pages 179, 180.

Anatomical Sciences

The Core Curriculum in Biology as listed in the Department of Anatomy, page 173 (38 credits); Anatomy 504-261A; 504-311A; 504-312B; 504-421B; 504-481B (16 credits); plus 9 credits from upper year Biology, Biochemistry, Physiology, and Microbiology and Immunology courses.

63 credits: consult the Department of Anatomy to obtain an Adviser.

Biochemistry: Chemical Orientation

U1: Biology U1 Core Curriculum, plus Chemistry 180-204A, 180-214B, 180-222A, B.

U2: Biology U2 Core Curriculum, except that Physiology 552-211D may be substituted for Biology 117-303A and 177-305A, and Biochemistry 507-352D is also required.

U3: Three credits from: Biochemistry 507-450A, 507-451B, 507-454A. Six credits from: the Biochemistry courses listed above, or: Chemistry 180-207A, 180-217A, B, 180-253B, 180-302A, 180-311A, 180-313A, 180-323B, 180-362B.

58 credits: consult the Department of Biochemistry to obtain an adviser.

Biochemistry: Biological Orientation

U1: Biology U1 core Curriculum, plus Chemistry 180-204A, 180-214B, 180-222A, B.

U2: Biology U2 Core Curriculum, except that Physiology 552-211D may be substituted for Biology 177-303A and 177-305A, and Biochemistry 507-352D is also required.

U3: Three credits from: Biochemistry 507-450A, 507-454A, 507-455B, Six credits from: the Biochemistry courses listed above, or: Biology 177-310B, 177-311B, 177-312A, 177-313B, 177-314A, 177-385A, 177-386B; Anatomy 504-261A, 504-311A, 504-312B, 504-421B; Microbiology 528-311A, 528-312B, 528-314B, 528-424A, 528-425B.

58 credits: consult the Department of Biochemistry to obtain an Adviser.

Biogeography

Biology 177-205D*, 177-305A, 177-328B, 177-427A, 177-429A; Geography 183-214A or 183-300B, 183-201A, 183-271A, 182-272B, 183-203D, 183-302D, 183-305A, 183-324B, 183-351A, 183-451D.

57 credits: consult the Department of Geography to obtain an Adviser.

*Courses that should be taken in U1 are underlined.

Biology: General

Biology 177-201D, 177-205D, Chemistry 180-222A, B; 27 credits Biology courses; 12 credits science courses.

55 credits: consult the Department of Biology to obtain an Adviser.

Chemistry, Bioanalytical or Geoanalytical

Common Chemistry Courses: Chemistry 180-207A, 213A, B*, 217A, 222A, B, 223A*, 227B, 237B, 313A or 323B, 363D or 247A or 267B, 387D, 457B, Chemistry 180-212A, B, must be added if this course has not been taken previously.

To complete Bioanalytical Chemistry; The Core Curriculum in Biology.

To complete Geoanalytical Chemistry: Mathematics 189-245A, 323A, 324B, Physics 198-339B, Computer Science 308-200A, B, Geology 186-210A, 211A, 213A. One additional Geology Course.

*Chemistry 180-204A, 214B may be taken by Biology students in lieu of Chemistry 180-213A, B, 223A.

55-58 credits: consult the Department of Chemistry to obtain an Adviser.

Chemistry and Biological Sciences

Chemistry 180-222A, B, 204A, 214B, 207A, or 227B, 247A or 267B, 352A, 302A, 362A, Biology 177-201D, 205D, 301A, Physiology 552-211D, Mathematics 189-231A,B, Physics 198-339B, Computer Science 308-200A, B, Chemistry 180-213A, B, and 223A may be substituted for 180-204A and 214B, Chemistry 180-372A, B may be substituted for 302A. Students lacking Chemistry 180-212A, B, may take this program if they include this course in addition to those listed.

60 credits: consult the Department of Chemistry to obtain an Adviser.

Chemistry, Inorganic/Analytical

Chemistry 180-212A, B, 222A, B, 213A, B, 223A, 201A, B, 207A, 227B, 247A, 267B, 301B, 307A, 311A, 313A or 323B, Geology 186-210A, 211A, 213B, Mathematics 189-222A, B, 315A, B, Physics 198-232B; plus 6 approved credits.

56 credits: consult the Department of Chemistry to obtain an Adviser.

Chemistry, Radioanalytical

Chemistry 180-201A, B, 207A, 212A, B, 213A, B, 222A, B, 223A, 227B, 301B, 311A, 313A or 323B, 217A, 237B, 363D or 247A or 267B, 387D, 457B, 458A, Mathematics 189-245A, 323A, 324B, Physics 198-339B, E27B, Computer Science 308-200A, B.

58 credits: consult the Department of Chemistry to obtain an Adviser.

Climatology

Computer Science 308-200A, B; Geography 183-203D*, 321A, -324B, -322A, -323B, -422A, -423B; Mathematics 189-222A, B, -314A, B; Meteorology 195-210D, -310D; Physics 198-231A, B, -233A; Three credits to be approved.

56 credits: consult the Department of Geography to obtain an Adviser.

*Courses that should be taken in U1 are underlined.

Dynamics of the Oceans and Atmosphere

Mathematics 189-223A, 189-222A, B, 189-314A, B, 189-315A, B, 189-319A, B, 189-316B, 189-317A, 189-455D; Meteorology 195-210D, 195-410D, 195-652B; Physics 198-231A, 198-233A, 198-309A, 198-319B.

55 credits: consult the Department of Meteorology to obtain an Adviser.

Earth Physics — A

Computer Science 308-200A, B; Geology 186-303D, 186-220B, 186-442A, six further credits approved electives in Geology; Mathematics 189-222A, B, 189-223A, 189-314A, B, 189-315A, B, 189-319A, B; Physics 198-231A, B, 198-232A, B, 198-233A, 198-339B, 198-432A, 198-434B.

58 credits: consult the Department of Physics to obtain an Adviser.

Earth Physics — B

Computer Science 308-200A, B, Geography 183-271A, 183-272B; Geology 186-220B; Mathematics 189-222A, B, 189-314A, B, 189-323A; Meteorology 195-210D, 195-320A, 195-321B, 195-420D, 195-653D; Physics 198-232B, 198-233A, 198-309A, 198-334B.

56 credits: consult the Department of Meteorology to obtain an Adviser.

Geomorphology

Geography 183-271A*, 272B OR Geology 186-242A + 431B; Geography 183-321A OR Geology 186-233B; Geography 183-471D OR Geology 186-453B + 445A; Geography 183-308B OR Geology 186-492A; Geography 183-201A, 202B, 305A, 322A, 323B, 423B, 321A; Geology 186-210A, 232A, 310D, 446A, 449B.

54 credits: consult the Department of Geography *or* the Department of Geology for an Adviser.

*Courses that should be taken in U1 are underlined.

Hydrology

Computer Science 308-200A, B; Engineering 303-107A*, B; Geography 183-271A, -272B, -305A, -201A or -308B, -321A, -322A, -323B, -423B; Geology 186-232A, 449B; Mathematics 189-222A, B; -314A, B, -315A, B, -323A, -324B; Physics 198-231A, B or 233A.

55 credits: consult the Department of Geography to obtain an Adviser.

*Courses that should be taken in U1 are underlined.

Marine Geology

Chemistry 180-201A, 180-301B, 180-213A; Geology 186-210A, 186-211A, 186-213B, 186-303D, 186-233B, 186-312A, 186-220B, 186-343D, 186-347B, 186-348B, 186-453B; Mathematics 189-222A, B; Physics 198-233A, 198-309A.

55 credits: consult the Department of Geology to obtain an Adviser.

Mathematics and Biology

Mathematics 189-221A, B, 222A, B, 223A, 315A, B, 319B, 317A, 323A, 324B, 327B, Computer Science 308-200A, B, Biology 177-201D, 205D, 206D, 301A, 303A, 305A, 309B.

Consult the Department of Mathematics to obtain an Adviser.

Mathematics and Chemistry

Chemistry 180-212A, 213A, 223A, 313A, 323B, nine credits Chemistry electives, three or six credits electronics, Computer Science 308-200A, B, Mathematics 189-223A, 222A, B, 314A, B, 315A, B, 319B, 317A, 323A, 324B.

54 or 57 credits: consult the Department of Chemistry to obtain an Adviser.

Mathematics, Chemistry and Physics

Chemistry 180-213A, 223A, 212A, 313A, 323B, three credits chemistry electives, Computer Science 308-200A, B, Mathematics 189-223A, 222A, B, 314A, B, 315A, B, 319B, Physics 198-231A, 232B, 339B, six additional credits in Physics.

54 credits: consult the Department of Mathematics to obtain an Adviser.

Mathematics and Physics

Computer Science 308-200A, B; Mathematics 189-222A, -223A, -314A, B, -315A, B, -317A, -319B, -323A, -324B; Physics 198-231A, B, -232A, B, -233A, -341B, -346D, -431A, -432A or 434B, -437B or -438B plus 3 or 6 credits chosen from 198-339B, 308-210A, B, 189-410D, 189-455D.

58 credits: consult the Department of Physics to obtain an Adviser.

Mathematics and Psychology

Mathematics 189-222A, B, 223A, 323A, B, 324A, B, 423A, 424B or Psychology 204-305A, B, 357B, six credits Introductory Psychology, 335A, 336B, twelve credits of options selected from Mathematics 189-217A, 218B, 314A, B, 317A, 318A, 328B, 417A, 447D, Computer Science 308-200A, or other approved courses, twelve credits selected from Psychology non-statistics courses.

54 credits. (This faculty program leads to either a B.A. or a B.Sc. degree. Consult the Department of Mathematics or the Department of Psychology to obtain an Adviser.)

Microbiology and Immunology

U1: Biology Core Curriculum plus Chemistry 180-222A, B
U2: Biology Core Curriculum; Microbiology 528-311A, 528-314B; Biology 177-310B
U2 and U3: Nine additional credits selected from courses offered by the Department.
53 credits: consult the Department of Microbiology and Immunology to obtain an Adviser.

Paleobiology

Biology 177-205D, 177-305A, six credits chosen from 177-325A, 177-326B, 177-440A, 177-348D; Chemistry 180-213A; Geology 186-210A, 186-211A, 186-233B, 186-312A, 186-310D, 186-343D, 186-430B, 186-434D, and 3 approved credits.
54 credits: consult the Department of Geology to obtain an Adviser.

Psychology

Any of the Major sequences in Psychology with the substitution of six credits from U2 courses in Psychology for Psychology 204-211D; 305A, B.
54 credits: consult the Department of Psychology, 392-4708, or Ms Olga Favreau, 392-4694 to obtain an Adviser.

Quaternary Studies

Anthropology 151-357A, 151-347B; Biology 177-205D, 177-305A, 177-352A, 177-353B, 177-427A and either 177-430A, or 177-325A; Geography 183-271A, 183-272B, 183-321A, 183-324B, 183-305A, 183-451D and either 183-306A or 183-308B; Geology 186-431B. Courses that should be taken in U1 are underlined.
54 credits: consult the Department of Geography to obtain an Adviser.

MAJOR PROGRAMS

Major programs are available in the following disciplines; details are listed with the departmental entries in the Calendar.
Anatomical Sciences
Biology
Chemistry
Crystallography (See Geological Sciences)
Geography
Geological Sciences
Mathematics
Meteorology
Microbiology and Immunology
Physics
Physiology
Physiology and Physics
Psychology

HONOURS PROGRAMS

Honours programs are available in the following disciplines; details are listed with the departmental entries.
Anatomical Sciences
Biochemistry
Biology
Chemistry
Crystallography (See Geological Sciences)
Geography
Geological Sciences
Mathematics
Meteorology
Physics
Psychology
Solid Earth Geophysics (See Geological Sciences)

DEPARTMENTAL OFFERINGS AND PROGRAMS OF STUDY

For graduate courses in all Departments see the Announcement of the Faculty of Graduate Studies and Research.

An official lecture timetable is available before Registration.

ANATOMY (504)

Strathcona Anatomy and Dentistry Building, Room 1/48, Telephone 392-4881.

The Department of Anatomy is deeply concerned with basic research and teaching in Human Anatomy at the undergraduate, graduate and Medical and Dental School levels. The Department houses several units doing basic research into the structure and function of cells, tissues and organs and is well equipped to pursue subjects in cell biology using modern techniques of radioautography and electron microscopy. To carry out research the Department contains numerous large laboratories, a complete radioautography unit and a large electron microscopy unit with five electron microscopes. The teaching program benefits from the use of an advanced T.V. system. Thus, students contemplating an academic career in the Anatomical Sciences have a unique opportunity to work with people actively engaged in advanced research and to observe the influence of their work on the teaching of Anatomy, Histology and Embryology.

Programs in the Anatomical Sciences

The Biology core curriculum, as outlined below, is required for all programs in Anatomical Sciences: Biology 177-201D; 177-205D; 177-206D; Mathematics: 189-231A, B; Biology 177-301A, B; 177-303A; 177-305A; one of the following, Biology 177-309B; 177-303A; Mathematics 189-232B; Psychology 204-204A, B. Plus, Chemistry 180-212A, B; 180-222A, B. (Total of 38 credits.)

FACULTY PROGRAM (Total of 63 required Credits). For details see Faculty Programs, page 169.

MAJORS PROGRAM (Total of 66 required Credits).

The Biology core curriculum requirements as listed above (38 credits); plus, Anatomy 504-261A (Histology); 504-311A (Musculo-skeletal); 504-312B (Visceral); 504-462D (Dynamic Histology); 504-421B (Neuroanatomy); 504-481B (Embryology); and 504-431D (seminars). Students are also advised to take Physiology 552-211D as an option.

HONOURS PROGRAM (Total of 72 required Credits).

The Department also offers an Honours program for those students who have obtained a GPA of 2.8 or better at the end of U2, and who intend to pursue graduate studies in Anatomy. The Honours degree will be recommended for those students who obtain a CGPA of 2.8 or above at the end of U3. The following courses constitute the Honours Program:

The Biology Core Curriculum requirements as listed above (38 credits); plus, Biology 177-302A, B; Chemistry 180-204A; Anatomy 504-261A (Histology); 504-311A (Musculoskeletal); 504-312B (Visceral); 504-462D (Dynamic Histology); 504-421B (Neuroanatomy); 504-481B (Embryology); 504-431D (Seminar). Qualified honours students (those having a GPA of 3.3 or better in U2, or with a lower GPA but with special permission) may be permitted to take Anatomy 504-432D (Research) making a total of 78 credits.

Course Descriptions

504-261A. INTRODUCTORY HISTOLOGY. (4 credits; 3 hours lectures, 2 hours laboratory.) A light and electron microscope study of the principal mammalian tissues and organs with emphasis on human histology. Open to U1 students who are taking the core curriculum courses concurrently, or to U2 students. This course is restricted in size.

504-311A. HUMAN MUSCULO-SKELETAL ANATOMY. (3 credits; 2 hours lectures, 2 hours laboratory; *Prerequisites:* First year core curriculum courses, and/or permission of the Department.) Introduction to human anatomy devoted primarily to a description of the skeleton and muscular system.

504-312B. HUMAN VISCERAL ANATOMY. (3 credits; 2 hours lectures, 2 hours laboratory; *Prerequisites:* First year core curriculum courses.) An introductory course in human anatomy devoted to the visceral systems, including the circulatory, respiratory, digestive and reproductive systems. This course, together with 504-311A constitutes a complete course in human anatomy at the introductory level.

504-413A. ANATOMY OF THE LIMBS AND BACK. (4 credits; 1 hour lecture, 6 hours laboratory dissection per week). A specialized course in the anatomy of the limbs and axial system designed for Physiotherapists. This course is open by permission only to other specially qualified individuals.

504-414A. ANATOMY OF THE LIMBS AND BACK. (3 credits; 1 hour lecture, 4 hours laboratory on prosected material per week.) A specialized course in the anatomy of the limbs and axial system designed for Occupational Therapists. This course is open by permission only to other specially qualified individuals.

504-421B. GENERAL HUMAN NEUROANATOMY. (3 credits; 2 hours lectures, 2 hours laboratory; *Prerequisites:* Core curriculum courses of U1 or by permission of the Department.) Introductory course in neuroanatomy emphasizing the structure and function of the brain, spinal cord and peripheral nerves.

504-462D. DYNAMIC HISTOLOGY. (6 credits; 2 hours lectures supplemented by occasional laboratory and seminars at suitable intervals; *Prerequisites:* 504-261A Introductory Histology and the Core curriculum courses of U1 and U2.) An advanced course to cover topics such as cell cycle, cell population kinetics and cellular metabolism as related to structure in selected tissues, and experimental morphology.

504-481B. HUMAN EMBRYOLOGY AND DEVELOPMENT. (3 credits; 2 hours lectures, one 2 hour laboratory every alternate week; *Prerequisites:* Core curriculum courses of U1 and U2; 504-261A Introductory Histology and one of either 504-311A Musculo-Skeletal Anatomy or 504-312B Visceral Anatomy.) A comprehensive treatment of human embryology and development.

504-431D. SEMINARS IN MORPHOLOGICAL SCIENCES. (6 Credits.) One advanced research seminar per week over the entire year given by invited local or out-of-town speakers on their own current research activities. All biological science students are invited to attend, but only Anatomical Sciences Majors and Honours students can take this course for credit.

504-432D. RESEARCH PROJECTS IN ANATOMICAL SCIENCES. (6 Credits; 1 full day, supplemented by additional time, when available. *Prerequisites:* Honours in Anatomical Sciences with a GPA of 3.3 or better in the U2 year; and/or special permission to other Honours in Anatomical Sciences students.) An optional full year's exposure to individually supervised, original research in anatomical sciences. The concentration will be on the application of morphological methods such as electron microscopy and radioautography to the solution of basic problems in cell biology. A research report, plus an oral examination by a Departmental committee will evaluate the candidate's performance. (May not be offered in 1973-74.)

BIOCHEMISTRY (507)

McIntyre Medical Sciences Building, Room 802; Telephone 392-4243.

Living organisms — animals, plants, and microorganisms — derive nutrients from their environment and metabolize these various compounds by a series of converging pathways. A relatively small number of metabolites is thus obtained, and can be used to produce energy and as starting material for synthesis of cellular components. The energy produced is used to convert the compounds via a series of diverging metabolic pathways into important building blocks for the synthesis of macromolecules; e.g. nucleotides for DNA synthesis, amino acids for protein synthesis.

The biochemist is interested in the coordination and regulation of the many processes involved in this general scheme. The study of each of these processes in detail results in areas of specialization. For example, biochemists are interested in the mechanisms of nervous activity, muscle contraction, growth and aging, inheritance and evolution. They are finding out how light is used in the production of organic matter by green plants and how some creatures produce light. The knowledge and methods developed by biochemists are applied in all fields of medicine, in agriculture, and in many industries. Biochemistry is a science which is contributing to far-reaching changes in the life of mankind.

The Department of Biochemistry at McGill occupies the 8th and 9th floors of the McIntyre Medical Sciences Building. The teaching and research laboratories were built in 1965 and are well equipped for modern biochemical research. All members of staff of the Department carry out research projects in collaboration with their students and postdoctoral fellows.

An Honours Program and two Faculty Programs are offered in the Department. The Honours Program is the usual path towards postgraduate study in Biochemistry, and eventually to research in hospital, university or industrial laboratories. The Faculty Programs in Biochemistry are less specialized than the Honours Program, but can also lead to graduate studies in the field.

A thorough background in biology, organic and physical chemistry, and mathematics is essential for students following any of the Biochemistry programs. However, the only prerequisite for the introductory Metabolism and Regulation course (507-352D) is Biology 177-201D, and students specializing in related disciplines are welcome to take this course or any other biochemistry course for which they have the necessary prerequisites.

Inquiries about programs or courses should be directed to the Administrative Assistant, Department of Biochemistry, Room 802 McIntyre Medical Sciences Building, telephone 392-5021.

Faculty Programs

For details see Faculty Programs, page 169.

Courses recommended for entry to these programs are: 6 credits elementary Biology, 6 credits general Chemistry, 3 credits organic Chemistry, 6 credits Calculus.

Honours Program in Biochemistry

Courses recommended for entry to this program in U1 are: 6 credits elementary Biology, 6 credits general Chemistry, 3 credits organic Chemistry, 6 credits Calculus and 3 credits Analytical Geometry and Vectors.

A student must have a GPA for the previous year of at least 2.8 with no failures on his CEGEP record to be admitted to Honours in U1. He must achieve a GPA of 3.1 in U1 with a B in every required course to be admitted to the U2 program, and a GPA of at least 3.2 and a B in every course for admission to U3 (requirements for entry to U3 are being reviewed by the Department). For graduation, all required courses in the Honours Program must have been passed with no grade of less than B and the CGPA must be at least 3.0.

A student who has the required courses and achieves a satisfactory standing in U1 may be allowed at the discretion of the Department to transfer to the Honours Program in U2. There is no entry to the Honours Program in U3.

Courses in the Chemistry Honours Program may be substituted for comparable courses in the Biochemistry Honours Program with the permission of the Chemistry professor concerned.

The usual program of courses for the three university years follows:

U1: 30-31 Credits
Biology 177-201D, 177-205D, 177-206D;
Chemistry 180-204A, 180-214B, 180-222A, B;
Mathematics 189-222A, B; Optional Course (2-3 credits).

U2: 33 Credits

Biology 177-301A, 177-302B; Physiology 552-211D; Biochemistry 507-352D; Chemistry 180-217A, B, 180-302A, 180-313A, 180-362A, 180-352A or 180-372A; Mathematics 189-315A, B.

U3: 30 Credits

Biochemistry 507-450A, 507-454A, 507-460A. Total of 15 credits from the following: Biochemistry 507-451B, 507-455B, 507-461B; Biology 177-303A and/or 177-305A (if Physiology 211D taken in U2), 177-310B, 177-311B; Chemistry 180-253B, 180-311A, 180-356A; Microbiology 528-314B; Physiology 552-211D (if Biology 177-303A and 177-305A taken in U2); other courses recommended by the Department.

Course Descriptions

177-301A, 302B. LABORATORY IN CELL AND MOLECULAR BIOLOGY. PARTS I AND II. (See Biology listings.)

507-352D. METABOLISM AND REGULATION. (6 Credits; *Prerequisite:* Biology 177-201D; *Co-requisites:* Biology 177-301A, 177-302B.) A general course in biochemistry, emphasizing the regulatory aspects of carbohydrate and nitrogen metabolism in mammalian systems, with special reference to the action of hormones, allosteric enzymes, and integration of cellular functions. PROFESSOR JOHNSTONE AND STAFF

507-450A. PROTEIN STRUCTURE AND FUNCTION. (3 Credits; *Prerequisites:* Biology 177-301A, 177-302B.) Primary structures of enzymes and their evolution. Secondary, tertiary and quaternary structure of enzymes, including some known three-dimensional structures. "Classical" and modern enzyme kinetics. Structure-function relationships of certain enzymes, including allostery. Multi-enzyme systems. PROFESSORS MacKENZIE AND MEIGHEN

507-451B. BIOPHYSICAL CHEMISTRY. (3 Credits; *Prerequisites:* Chemistry 180-204A, 180-214B or 180-213A, 180-223B; Chemistry 180-313A recommended. This course is listed also as Chemistry 180-404B.) Molecular weight determination and hydrodynamic parameters, optical properties and structure analysis of biopolymers and application to biological systems. PROFESSORS MEIGHEN AND GALLEY (Chemistry)

507-454A. NUCLEIC ACIDS. (3 Credits; *Prerequisite:* Biochemistry 507-352D.) Chemistry of mammalian, bacterial and viral nucleic acids, synthesis of polynucleotides, replication, transcription. PROFESSORS DENHARDT AND SPENCER

507-455B. NEUROCHEMISTRY. (3 Credits; *Prerequisite:* Biochemistry 507-352D.) Structure and composition of nervous tissue in relation to its functions. Special aspects of metabolism of nerve and brain including energy metabolism. Water and electrolyte balance. Exchanges between blood and brain, and between brain and cerebrospinal fluid. Neurotransmitters and modulators. Nutrition and development of the nervous system. Neuroendocrinology. Biochemistry of nervous and mental diseases. PROFESSORS SOURKES AND WOLFE AND STAFF

507-460A. ADVANCED LABORATORY IN BIOCHEMISTRY. (6 Credits; open only to U3 Honours Biochemistry students.) A laboratory designed to acquaint the student with various biochemical techniques. PROFESSOR DENHARDT AND STAFF

507-461B. RESEARCH PROJECTS IN BIOCHEMISTRY. (6 Credits; registration by departmental permission only; *Prerequisite:* Biochemistry 507-460A.) Individual work on a project to be performed in a research laboratory. STAFF

BIOLOGY (177)

Most staff and laboratories of the McGill Department of Biology are located in the Stewart Biological Sciences Building complex on McGregor Avenue (between Peel and Drummond). The first seven floors of the north and west wings (referred to as N1 to N7 and W1 to W7) contain teaching and research laboratories, staff offices, services and administrative centres. The main office is in W4/room 5 (phone 392-4643). The Senior Program Adviser has an office in room W4/9 (phone 392-5828), the Biology Student Union is in N2/8 (phone 392-5765). The south block contains the greenhouses, Botany and Genetics Library (S3/1) and lecture theatres.

Some full-time and affiliated members of the Department have offices and laboratories elsewhere, e.g., at the Redpath Museum, Marine Sciences Centre, Macdonald College, Montreal Children's and Jewish General Hospitals, and some courses are conducted partly in these locations. Course field work is carried out in facilities at Mt. St. Hilaire, the Morgan Arboretum, Huntsman Marine Laboratories (New Brunswick), the Barbados, etc. Libraries at McGill which are used by biology students include the McLennan Undergraduate Library, the Blacker-Wood Library of Zoology and the McIntyre Medical Library.

The Department of Biology was created in June, 1970, by fusion of 3 former Departments (Botany, Genetics and Zoology). Currently it has approximately 50 teaching staff, 50 non-academic supporting staff (secretaries and technicians), 100 graduate students and/or postdoctoral fellows, and 5000 undergraduate full-course registrations. A diminishing number of students are registered in college-equivalent courses (E1 or E2) since pre-university training is being phased out at McGill. Most students are in one of the three-year programs (U1, U2 or U3) which lead to a B.Sc. degree in Biology (general, major or honours) or to entrance to the McGill Medical School. A McGill Biology B.Sc. degree (with appropriate specialization) can be used as prerequisite for entry here or elsewhere to various graduate programs in the biological and bio-medical sciences (leading to M.Sc. or Ph.D. degrees), or to professional schools (medicine, agriculture, nursing, library, education, etc.). It is also the main direct requirement for many jobs, e.g. technical posts in industry and government laboratories, hospitals, research institutes.

This Department does not attempt to offer courses or programs in all branches of Biology. At the graduate level, its resources are focused on development of four main areas of study: Cell, Molecular and Developmental Biology, Ecology, Human Genetics and Neurobiology. At the undergraduate level, Majors/Honours degrees are offered in these 4 fields and also in Animal Behaviour, Marine Sciences and Plant Sciences. In order to ensure that its graduates have had a suitably broad general background in modern biology, whatever their branch of specialization, this department co-operates with four departments in the Faculty of Medicine to give a Core Curriculum of basic courses in the biological sciences. Most of the core is required for the various B.Sc. degree programs offered in all of these departments (see below, page 179). Most courses in U2 and U3 are given at a level which assumes one or another of the core courses as prerequisite.

The general or "Faculty" program in Biology has been devised with a minimum of specified required courses in order to accommodate those students who are undecided or who do not wish to specialize in the fields emphasized by the department, as well as those who intend to take unusual combinations of biology with another subject. The faculty program leads to a B.Sc. which may be awarded with "Distinction" or "Great Distinction" if a CGPA of 3.3 or 3.5 respectively is attained. Seven options in the Honours/Major program have been devised (details below) for students who wish to begin specialization in areas in which the department has special resources and the expertise required to offer a variety of courses. Students in their final year of these programs are encouraged to take a special project (Independent Studies in Biology) which includes research work directed by a Faculty member in the field of their special interest. The initial choice of which program to enter is usually made at the end of U1, and changes may be possible from one program to another at the end of U2.

The courses listed below are not described in any great detail. For those who want more information, the department has prepared a "blue book" (sold at the McGill Bookstore) which describes in detail the content of each course and the level at which it is given, the aims and methods used, lecturers, references, grading procedures, etc. The book also contains more information on registration, counselling, committee structure and the research interests and facilities which are represented in the department.

Honours Program

Any Biology Major student obtaining a grade point average of 3.5 in U2 may be admitted to the Honours Biology Program upon request, and the Honours Biology degree will be awarded to students so admitted who maintain a grade point average of 3.5 in U3, and meet Faculty Honours guidelines.

Major Program

Courses are listed in the recommended sequences, taking prerequisites and time table into account.

ANIMAL BEHAVIOUR OPTION (61 Credits):

Required courses (43 Credits): *U1:* Biology 177-201D, -205D, -206D; Chemistry 180-222A, B; Mathematics 189-231A, B; Psychology 204-201D. *U2:* Biology 177-391A, -392B. *U2 or U3:* Biology 177-301A, B, -305A; plus one of the following courses: Biology 177-309B, -373A, Mathematics 189-232A, B, Psychology 204-204A, B.

Plus 18 Credits, in *U2 or U3,* from the following: Biology 177-303A, -325A, -326B, -348D, -349B, -351B, -385B, -386B, -394B, -427A, -488B, -493B; Psychology 204-300A, -308D, -309B, -304A, -401D, -404B, -420D.

CELL, MOLECULAR AND DEVELOPMENT OPTION (61 Credits):

Required courses (43 Credits): *U1:* Biology 177-201D, -205D, -206D; Chemistry 180-222A, B, -204A, -214B; Mathematics 189-231A, B. *U2:* Biology 177-301A, B, 302A, B, -303A. *U2 or U3:* Biology 177-305A recommended (may be substituted by a U2 or U3 Biology course dealing with whole organisms or populations); plus one of the following courses: Biology 177-309B, -373A, Mathematics 189-232A,B.

Plus 9 Credits in *U2* from the following: Biology 177-310B, 177-313B or -321B, 177-318B or -320B; Chemistry 180-302A; Biochemistry 507-352D.

Plus 9 Credits in *U2 or U3* from the above or the following: Biology 177-311B, -312A, -314A, -316B, -319C, -357A, -415B, -417A, -422D, -465B, -471B, -477A to -480D (max. 6 credits); Anatomy 504-261A; Biochemistry 507-450A, -451B, -454A; Microbiology and Immunology 528-314B, -423A, -424A; Physiology 552-411A.

ECOLOGY OPTION (60 Credits):

Required courses (30 Credits): *U1:* Biology 177-201D, -205D, -206D, -305A; Mathematics 189-231A, B. *U2 (or U3):* Biology 177-301A, B, -303A; and one of the following courses: Biology 177-373A (recommended) or one of 177-309B, Mathematics 189-232A, B, Psychology 204-204A, B.

Plus 15 Credits, in *U2 or U3,* from the following: Biology 177-325A*, -326B, -328B, 331F, -385B, -427A, -429A.

Plus 15 Credits, in *U2 or U3,* from the above or the following: Biology 177-349B, -350D, -351B, -355A, -357A, -358A, -372B*, -391A, -392B, -430A, -440A, -441B, -487B; Geography 183-321A, -451D; Computer Science 308-220A, B.

*Only one of Biology 177-325A or -372B may be taken for credit.

HUMAN GENETICS OPTION (55 Credits):

Required courses (43 Credits): *U1:* Biology 177-201D, -205D, -206D, -274A, B (=E27A, B); Mathematics 189-231A, B. *U1 or U2:* Chemistry 180-222A, B, -204A. *U2:* Biology 177-370B. *U2 or U3:* Biology 177-301A, B, -303A, -372B; and one of the following courses: Biology 177-373A (recommended) or one of 177-309B, Mathematics 189-232A, B, Psychology 204-204A, B.

Plus 12 Credits, in *U2 or U3,* from the following: Biology 177-305A, -310B, -313B or -321B, -314A, -320B, -417A, -471B, -477A or -478B; Psychology 204-430B; Biochemistry 507-352D.

MARINE BIOLOGY OPTION (55 Credits):

Required courses (40 Credits): *U1:* Biology 177-201D, -205D, -206D; Chemistry 180-222A, B; Mathematics 189-231A, B. *U2:* Biology 177-305A, -348D; *U2 or U3:* Biology 177-301A, B, -440A, -441B.

Plus 15 Credits in *U2 or U3* from the following: Biology 177-303A, -319C (or -331F), -325A, -326B, -328B, -349B, -351B, -359B, -373A (or -309B, or Mathematics 189-232A, B or Psychology 204-204A, B), Biology 177-384A, -385B, -427A, -430A.

NEUROBIOLOGY AND COMPARATIVE PHYSIOLOGY OPTION (55 Credits):

Required courses (40 Credits): *U1:* Biology 177-201D, -205D, -206D; Mathematics 189-231A, B; Chemistry 180-222A, B, -204A. *U2:* Biology 177-386B. *U2 or U3:* Biology 177-301A, B, -305A, -385B and one of the following courses: 177-309B, -373A, Mathematics 189-232A, B, Psychology 204-204A, B.

Plus 15 Credits in *U2 or U3* from the following: Biology 177-303A, -311B*, -350D, -390B*, -391A, -392B, -487B, -488B; Psychology 204-420D; Biochemistry 507-352D, -455B; Physiology 552-413A*.

*At most one of these courses may be selected towards credits for this program.

PLANT SCIENCE OPTION (54 Credits):

Required courses (36 Credits): *U1:* Biology 177-201D, -205D, -206D; Mathematics 189-231A, B. *U1, U2 or U3:* Biology 177-301A, B, -305A, -355A, -357A, -358A, -429A.

Plus 18 Credits from the following: *U1-U3:* Chemistry 180-222A, B; Biology 177-316B, -356B, -359B, -361A, -362A, -363B. *U3:* Biology 177-465B, -477A to -480D (max. 6 Credits).

The Core Curriculum in Biological Sciences

The Core Curriculum in Biology is a sequence of courses designed to form a basis for all university level programs in the Biological Sciences. It is sponsored jointly by the Departments of Anatomy, Biochemistry, Biology, Microbiology and Immunology, and Physiology.

Students in programs related to other Departments may take individual courses from the Core Curriculum. It should be noted that most upper year courses in the Biological Departments will have some Core courses as prerequisites, so sequential planning of courses will need to be done carefully.

Those students taking Core courses are advised to distribute all or most of those between U1 and U2 (or U3, if not prerequisite to any required course of their program) as indicated below in order to leave room for the other requirements of their programs. Many programs require several chemistry courses as co-requisites which should be taken in U1 if possible.

The common requirements for all students registered in biologically oriented programs are as follows:

U1: 177-201D, 177-205D, 177-206D and 189-231A, B. *U2:* 177-301A, B.

In addition, some or all of the following courses are required depending on the department and/or option selected for study:

U2 (or U3): 177-302A, B, 177-303A, 177-305A, plus one of the following courses: 177-309B, 177-373A, Mathematics 189-232A, B, Psychology 204-204A, B.

Education students and students admitted in January who find difficulty in scheduling these biology courses should consult the Senior Program Adviser of the Biology Department, Room W 4/9, Stewart Biology Building.

Course Descriptions

PRE-CORE COURSES

177-E10D. INTRODUCTION TO BIOLOGY. (6 Credits; 2 hours lectures, 3 hours laboratory per week.) An introduction to the basic principles of biological science and the nature of life processes in plants and animals. Designed for students continuing in Biology. STAFF

177-013A. COLLABORATIVE STUDIES IN SCIENCE AND HUMAN AFFAIRS (formerly Biology and Social Change). (6 Credits, 5 hours; *Prerequisites:* None; Open to all CEGEP and University students in B.A., B.Sc., etc.). A course offered in collaboration with Sir George Williams University. The "McGill Program" consists of lectures and modules; the "Sir George Program" consists of modules and independent or group projects. A student may elect to follow either program. PROFESSOR SOUTHIN, Biology, McGill
PROFESSOR CHAMBERS, Humanities of Science, Sir George Williams

177-E16B. BIOLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory/conference per week.) An introduction to selected aspects of contemporary biology and their application to environ-

mental problems. Designed primarily for physical science and engineering students. Students wishing to keep open the option of transferring into Biology should not take E16B but select E10D. PROFESSORS OECHEL AND SPENCE

177-E27A, B. PRINCIPLES OF GENETICS. (3 Credits; 3 hours lectures, one hour conference optional; *Prerequisite:* 177-E10D.) A survey of the gene as the fundamental unit of heredity, with a special emphasis on human genetics. A: PROFESSOR METRAKOS AND STAFF
B: PROFESSOR TRASLER AND STAFF

THE COURSES OF THE CORE CURRICULUM IN BIOLOGICAL SCIENCES

177-201D. CELL AND MOLECULAR BIOLOGY. (6 Credits; 2 or 3 lectures per week, 1 hour conference every alternate week; *Prerequisite:* 177-E10D, or permission of the departmental adviser.) This course is designed to give the student a comprehensive account of the cell in terms of its chemical and physical properties and include discussions of cell ultrastructure; bioenergetics and biosynthetic pathways; selected biophysical processes; gene expression and regulation mechanisms operative in the control of metabolism. The lectures will be based on the assumption that students have already taken a minimum of 3 credits in organic chemistry (e.g., 180-E22A, B or 180-212A, B). Further credits in organic and physical chemistry are desirable. PROFESSOR SINCLAIR AND STAFF

177-205D. BIOLOGY OF ORGANISMS. (6 Credits; 3 hours lectures; *Prerequisite:* 177-E10D or equivalent, or 177-15A or 177-16B.) A study of organisms from the standpoint of structural and physiological adaptation to the environment. Development of the basic levels of organization. Mechanisms of evolution. Adaptations necessary for major evolutionary advances. Life in aquatic, terrestrial and aerial environments. PROFESSOR CARROLL AND STAFF

177-206D. LABORATORY COURSE IN BIOLOGY OF ORGANISMS. (3 Credits; 1 laboratory per week or its equivalent throughout the year; *Co-requisite:* 177-205D.) A companion course to the lecture series in Biology of Organisms. Examination of the functional morphology of microorganisms, plants and animals, both living and fossil. Experimental studies on the physiological adaptations of organisms to their environment. PROFESSOR MARSDEN AND STAFF

189-231A, B. MATHEMATICS FOR BIOLOGISTS. (3 Credits; 3 hours lectures; *Prerequisite:* 189-E14 or E15 or equivalent.) Introductory probability theory, vectors and matrices, differential and difference equations with applications to the biological sciences.
PROFESSOR TURNER (Mathematics Dept.)

177-301A, B. LABORATORY IN CELL AND MOLECULAR BIOLOGY (PART 1). (3 Credits; 1 lecture and one 6-hour laboratory per week; *Prerequisite:* 177-201D.) A half course in laboratory techniques. Together with 177-302A, B, this laboratory course is divided into three 8-week sections which are organized independently in three separate locations. Each section is divided into parts (a) and (b). The topics covered in each are listed under Biology 302A, B. Students taking Biology 301A may choose parts (a) and (b) of any one section, plus (a) of either section 2 or 3. Students taking Biology 301B start with part (b) of either section 2 or 3, followed by parts (a) and (b) of any other section. PROFESSORS SOMERS AND HECHTMAN AND PROFESSOR WASSERMAN (Biochemistry Dept.)

177-302A, B. LABORATORY IN CELL AND MOLECULAR BIOLOGY (PART 2). (3 Credits; 1 lecture and one 6-hour laboratory per week; *Prerequisite:* 177-301A, B.) Together with Biology 301A, B this laboratory course is divided into three sections. Each section is divided into parts (a) and (b) listed below. Students wishing to take a full year of laboratory work, as recommended for certain programs, may do so by registering for 301A followed by 302B, or 301B followed by 302A. It is not possible to take 301A and 302A or 301B and 302B. These students will complete all experiments listed below (though not necessarily in sequence).

Section 1 (a): Isolation of DNA, hydrolysis and paper and thin layer chromatography of bases. Metabolism of C_{14} by rat adipose tissue, chemical separation of metabolic products and radioactive counting.

(b): Exercise on radioactivity and planchet counting. Subcellular fractionation of tissue; enzymic and chemical markers of organelles: brief enzymology.

Section 2 (a): Ionization, pH and electrophoresis. Photosynthesis in green algae and in isolated chloroplasts. Isolation of mitochondria and study of electron transfer using oxygen electrodes. Spectrophotometry. Membrane potentials and ions.

(b): Enzyme purification and assay. Protein measurement. Enzyme kinetics. Separation of proteins and estimation of molecular weight by gel filtration.

Section 3 (a): Microbial metabolism: control mechanisms and inhibition of macromolecular syntheses.

(b): Microbial genetics: conditional mutants of DNA synthesis and repair of DNA; bacteriophage growth; genetic fine structure analysis; chromosome mapping in bacteria.
PROFESSORS SOMERS AND HECHTMAN AND PROFESSOR WASSERMAN (Biochemistry Dept.)

177-303A. AN INTRODUCTION TO DEVELOPMENTAL BIOLOGY. (3 Credits; 2 lectures and 1 laboratory per week; *Prerequisite:* 177-201D.) A course designed to acquaint the student with the fundamental processes and principles operating during embryogenesis of both plants and animals. The developmental process will be considered at the molecular, cellular and organismic levels with integration of these three levels to give a total appreciation of developmental phenomena. The laboratory will be designed to give the students first-hand experience with embryological materials and experiments relevant to understanding how developmental processes are investigated. PROFESSORS FROMSON, WOLFSON AND STAFF

177-305A. ENVIRONMENTAL BIOLOGY. (3 Credits; 3 hours lectures; *Prerequisite* or *Co-requisite:* 177-205D.) An introduction to the principles of ecology, dealing with individuals, populations and communities of plants and animals, and concluding with a consideration of Man's relationship with the environment. PROFESSOR AUCLAIR AND STAFF

177-309B. APPLICATIONS OF MATHEMATICS TO BIOLOGY. (3 Credits; 2 hours lectures and 1 hour conference; *Prerequisites:* 189-231A, B, and elementary calculus.) Use of calculus, matrix algebra and probability, (for example) in statistical techniques and in mathematical models of biological problems. PROFESSOR FIRTH (Physiology Department)

POST-CORE COURSES

177-274A, B. PRINCIPLES OF GENETICS. (3 Credits; 3 hours lectures, 1 hour conference, optional; *Prerequisite:* 177-E10D.) A survey of the gene as the fundamental unit of heredity, with a special emphasis on human genetics. A: PROFESSOR METRAKOS AND STAFF
B: PROFESSOR TRASLER AND STAFF

177-310B. GENERAL MOLECULAR GENETICS. (3 Credits; 3 hours lectures, one period every other week used for conferences; *Prerequisite:* 177-201D.) A survey of current topics in molecular genetics, including the chemical nature of inheritance, protein synthesis, mutation, gene control and gene structure. PROFESSOR BUSSEY

177-311B. BIOPHYSICAL APPROACH TO CELL FUNCTION. (3 Credits; 2 hours lectures, 1 hour seminar; *Prerequisites:* 177-201D, 180-214B; Not given in 1973-74, given in 1974-75.) A detailed discussion of selected topics in cell physiology and biophysics, with emphasis on ion transport and photosynthesis. PROFESSOR POOLE

177-312A. CELL GROWTH. (3 Credits; 2 hours lectures, 1 hour conference; *Prerequisite:* 177-201D.) Molecular events, metabolism and control mechanisms in the growth and death of cell populations *in vivo* and *in vitro*. Molecular and organelle progression through the cell cycle. Models of cell growth. PROFESSOR SINCLAIR

177-313B. THE ULTRASTRUCTURAL BASIS OF CELL FUNCTION. (3 Credits; 2 hours lectures, 2 hours seminar; *Prerequisite:* 177-201D; Not given in 1973-74; given in 1974-75.) A detailed discussion of the functional organization of cells. PROFESSOR GIBBS

177-314A. MOLECULAR BIOLOGY OF SOMATIC CELLS. (3 Credits; 3 hours lectures; *Prerequisite:* 177-201D.) Methods in cell genetics; recent studies in intracellular regulation, contact inhibition, cell-cell communication, oncogenic RNA and DNA viruses, mechanisms of transformation, molecular biology and immunological properties, and other related topics. PROFESSORS MUKHERJEE AND PINSKY

177-316B. PLANT GROWTH AND MORPHOGENESIS. (3 Credits; 2 hours lectures and seminar; *Prerequisite:* 177-357A or permission of instructor; Given in 1973-74, not given in 1974-75.) Physiological, biochemical and physiological-genetic approaches to the study of growth, differentiation and morphogenesis. Hormones and growth regulators, environmental control, physiology of reproduction, and senescence are discussed at a more advanced level than in 357A. PROFESSOR BOLL

177-318B. DEVELOPMENT BIOLOGY, EXPERIMENTAL. (3 Credits; 1 hour lecture, 1 hour discussion, 3 hours laboratory; *Prerequisite:* 177-303A or permission of instructor; Not given every year, see instructor.) Interactions of developing cells and organisms with their micro- and macro-environments, taking as examples early embryonic cells, protozoa, and immunologically active cells. Laboratroy projects will use amphibian embryos. PROFESSOR WOLFSON

177-319C. DEVELOPMENTAL BIOLOGY, MARINE. (Field course; 3 Credits; 3 weeks full-time, lectures and laboratory; *Prerequisite:* 177-303A or equivalent, permission of instructor; Not given every year, see instructor.) The course includes both comparative and experimental studies on embryos of marine organisms available at the Huntsman Marine Laboratory, St. Andrews, in the spring. PROFESSOR WOLFSON

177-320B. GENE ACTIVITY IN DEVELOPMENT. (3 Credits; 2 hours lectures, 1 hour discussion; *Prerequisites:* 177-303A; 177-310B recommanded, or permission of instructor.) An assessment of the experimental work dealing with gene activity and its regulation during embryological development. Topics: gene amplification; DNA, RNA, and protein synthesis during embryogenesis; nucleocytoplasmic interactions; hormones as regulators of gene activity and models or differentiation. PROFESSOR FROMSON

177-321B. CYTOLOGY AND CYTOGENETICS. (3 Credits; 2 hours lectures, 2 hours seminar or 3 hours laboratory in different weeks; *Prerequisites:* 177-201D; 177-274A, B (E27A, B) recommended.) The genetic appartus, from molecules to chromosomes, is studied with respect to structure, behaviour and function. The main stress is on chromosomes of higher organisms, somatic and meiotic, relating structure and function. PROFESSOR BOOTHROYD

177-325A. PROCESSES IN EVOLUTIONARY ECOLOGY. (3 Credits; 2½ hours lectures and ½ hour conference; *Prerequisites:* 177-305A; only one, either 177-325A or 177-372B can be taken for credit.) Genetic properties and dynamics of natural populations with emphasis on qualitative traits. Models of population growth, mating systems, genetic variance, and types of natural selection. PROFESSOR SITTMANN

177-326B. PATTERNS IN EVOLUTIONARY ECOLOGY. (3 Credits; 2 hours lectures, 1 hour conference; *Prerequisite:* 177-325A.) The evolution of ecological characteristics, chiefly at the population level. The influence of natural selection upon birth rates, brood size, parental care, age at first breeding, longevity, maximum population size, feeding strategies, competitive relations, etc. PROFESSOR P. GRANT

177-328B. RESOURCE BIOLOGY. (3 Credits; 2 hours lectures, 2 hours conference; *Prerequisite:* 177-305A or permission of instructor.) A comprehensive study of the nature of renewable resources, the demands made on these resources by human activities, and the principles of resource management and/or conservation. PROFESSOR LEGGETT

177-331F. ECOLOGY FIELD COURSE. 10 day Field Course in early September, with a comprehensive report to be prepared during 'A' term. (3 Credits; *Prerequisites:* 177-205D, 305A and permission of instructor.) Methods of sampling natural populations of animal and plant species in fresh water and terrestrial habitats. Estimating population size from samples. Energy flow determinations. Construction of a simple model of an ecosystem, using field estimates for each compartment. PROFESSOR P. GRANT AND STAFF

177-346A. PHILOSOPHY OF BIOLOGY. (3 Credits; 3 hours lectures or conferences; *Prerequisite:* Any introductory biology course; not given in 1973-74; given in 1974-75.) An introduction to the philosophical foundations of biology and their relevance to research and theories in various biological disciplines. PROFESSOR SATTLER

177-347B. HISTORY OF BIOLOGY. (3 Credits; 3 hours lectures; *Prerequisite:* Any introductory biology course; given in 1973-74; not given in 1974-75.) The development of scientific observation and measurement in plant and animal anatomy, comparative morphology, ecology, embryology, physiology and palaeontology. Theories of the relationships of living organisms, their parts and their evolution. Biological expeditions, societies and journals. PROFESSOR DUNBAR

177-348D. THE BIOLOGY OF INVERTEBRATA. (6 Credits; 2 hours lectures and 3 hours laboratory; *Prerequisites:* 177-205D, 177-206D.) A survey course of the invertebrate groups (with the exception of terrestrial arthropods) stressing comparative morphology, functional anatomy and relationships between major taxa. PROFESSOR REISWIG

177-349B. BIOLOGY OF FISHES. (3 Credits; 2 lectures and 1 laboratory per week; *Prerequisites:* 177-205D, 177-206D or permission of instructor.) An advanced course on the biology of fishes with emphasis on their ecology, behavior, and adaptation to specific environmental conditions. PROFESSOR LEGGETT

177-350D. GENERAL ENTOMOLOGY. (6 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-205D, 177-206D, 177-303A or permission of instructor.) The biology of insects and other terrestrial arthropods, including their physiology and development. PROFESSOR DAVEY

177-351B. BIOLOGY OF MAMMALS. (3 Credits; 2 lectures and 1 laboratory per week; *Prerequisites:* 177-205D, 177-206D or permission of instructor.) The Biology of Mammals including their ecology, behavior and adaption to specific ways of life. PROFESSOR STEVEN

177-352A. VERTEBRATE EVOLUTION. (3 Credits; 3 hours lecture; *Prerequisites:* 177-205D, 177-206D or equivalent.) Development of modern evolutionary theory, particularly as it applies to vertebrates. The origin and evolution of the major groups of vertebrates, their anatomy, phylogeny and zoogeography. PROFESSOR CARROLL

177-353B. PROBLEMS IN VERTEBRATE EVOLUTION. (3 Credits; 1 hour lecture, 6 hours laboratory; *Prerequisite:* 177-352A.) Investigation of current problems in the phylogeny and anatomy of vertebrates; laboratory work with fossil vertebrates and extensive use of literature. A series of problems will be investigated involving each of the major vertebrate groups. PROFESSOR CARROLL

177-355A. PLANT ANATOMY. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* 177-201D, 205D or permission of instructor; Given in 1973-74; not 1974-75.) An introduction to the general organization and development of cells, tissues and organs, the relation of anatomy to other biological disciplines and everyday life. The laboratory includes sectioning, fixing, staining, photography, etc. PROFESSOR SATTLER

177-356B. THE FLOWER. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* 177-201D, -205D; Given in 1973-74; not 1974-75.) The morphology, anatomy, development, adaption and evolution of the flower. Brief consideration also will be given to the importance of the flower in history, art and literature. The practical work will include a project, which will be carried out during the laboratory periods. PROFESSOR SATTLER

177-357A. PLANT PHYSIOLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-201D, 177-205D; Not given in 1973-74; Given in 1974-75.) Topics include water relations, nutrition, some physiological aspects of respiration and photosynthesis, translocation of solutes, elementary growth and development, response to environmental factors and adaption. PROFESSOR BOLL

177-358A. CANADIAN FLORA. (3 Credits; 2 hours lectures, 3 hours laboratory, Field trips early in the term; *Prerequisite:* 177-E10D or equivalent.) A study of the higher plants occuring naturally in Canada, including their recognition, collection, identification and classification. PROFESSOR MAIER AND STAFF

177-359B. THE ALGAE. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* 177-205D or permission of instructor.) The study of the morphology, cytology (including ultrastructure), aspects of physiology, and the ecology of the major groups of the algae. PROFESSOR GOLDSTEIN

177-361A. BRYOPHYTA AND PTERIDOPHYTA. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-205D, 177-206D; Not given in 1973-74.) Discussion of the organization and evolution of bryophytes and pteridophytes. PROFESSOR MAIER

177-362A. MYCOLOGY I. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* Introductory course in Biology.) General characteristics of the slime molds, Phycomycetes and Ascomycetes (Lower Fungi). Emphasis is placed upon the role of these fungi among living things, including their means of reproduction and utilization of complex organic matter. PROFESSOR WILSON

177-363B. MYCOLOGY II. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* Introductory course in Biology.) General characteristics of Basidiomycetes and Fungi Imperfecti. Role of the higher fungi among living things including reproduction, utilization of complex organic matter, geographical distribution, mycorrhizal associations and economic factors. Isolation and culture techniques of fungi in general. PROFESSOR WILSON

177-370B. GENETICS OF MAN. (3 Credits; *Prerequisites:* 177-274A, B (E27A, B), 177-201D, or permission.) A contemporary view of the genetic factors determining human characteristics, normal and abnormal. PROFESSORS FRASER, METRAKOS AND MUKHERJEE

177-372B. POPULATION GENETICS. (3 Credits; 2½ hours lectures and ½ hour conference; *Prerequisite:* 177-274A, B (E27A, B) or permission of instructor.) Topics include: Hardy-Weinberg equilibrium in random mating populations, inbreeding coefficient and rate of gene loss, separation of phenotypic variation into genetic and environmental components, correlated characters, genotype and environment interaction. PROFESSORS SITTMANN AND TYSON

177-373A. INTRODUCTORY BIOMETRY. (3 Credits; 2 hours lectures, 2 hours laboratory; *Prerequisite:* 189-E11A or the equivalent.) Elementary statistical methods for testing hypotheses and designing experiments in biology; probability, sampling, distributions, tests of significance, the analysis of variance, regression, correlation, and the analysis of frequency data. PROFESSOR TYSON

177-384A. PHYSIOLOGY OF MARINE ORGANISMS. (3 Credits; 2 lectures and 1 laboratory per week; *Prerequisites:* 177-205D, 177-206D, or permission of instructor.) Physiology of marine organisms, with special reference to fundamental principles underlying operation of the various systems. PROFESSOR DIGBY

177-385B. ENVIRONMENTAL PHYSIOLOGY OF ANIMALS. (3 Credits; 2 hours lectures, option of 3 hours laboratory or conference and seminar; *Prerequisites:* 177-201D, 177-205D, 177-206D, 177-305A or instructor's permission.) The physiological adaptations of organisms to different environments with emphasis on energetical aspects and the interactions between internal controls and the environment. PROFESSOR SPENCE

177-386B. NEUROBIOLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* 177-205D.) A comparative study of information processing in sensory systems of animals, the integrative networks within the nervous system and the co-ordination of the various muscle systems. PROFESSORS CHASE, MANLEY AND PASZTOR

177-390B. FUNDAMENTALS OF PHYSIOLOGICAL ACTION. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-205D, 177-206D, or permission of instructor.) Biophysical basis of physiological mechanisms mainly as applied to zoological material. Surface phenomena and gas layers; ionic phenomena; electrokinetic effects in biological material; organic semiconductors; pressure sensitivity; photosensitization, calcification in shell, bone and teeth, and properties of artificial membranes. PROFESSOR DIGBY

177-391A. THE STUDY OF SIMPLE BEHAVIOUR. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-205D, 177-206D.) The experimental study of the behaviour of lower animals.
PROFESSOR STEVEN

177-392B. INTRODUCTION TO ANIMAL BEHAVIOUR. (3 Credits; 2 hours lectures, 2 hours tutorial; *Prerequisite:* 177-205D or permission of instructor.) An introduction to the concepts of behaviour as expressed by zoologists, including a study of stimulus patterns and recognition, movement sequences, motivation, learning, social behaviour, communication and the development and evolution of behaviour.
PROFESSORS LEMON AND MADISON

177-394B. LABORATORY IN ETHOLOGY OF HIGHER ANIMALS. (3 Credits; *Prerequisites:* 177-392A; permission of instructor.) A laboratory course based on projects whereby students observe the behavior of vertebrate animals. Primarily for students enrolled in Animal Behavior Major Program.
PROFESSORS LEMON AND MADISON

177-415B. LIGHT AND ELECTRON OPTICAL METHODS IN BIOLOGY. (3 Credits; 1 hour lecture, 6 hours laboratory; *Prerequisite:* 177-313B or permission of instructor.) A practical introduction to the use of sophisticated microscopical research techniques and instruments.
PROFESSORS MAIER AND BOOTHROYD

177-417A. DEVELOPMENTAL MAMMALIAN GENETICS. (3 Credits; lectures and conferences; *Prerequisites:* 180-204A, 180-222A, B; 177-274A, B (E27A, B), 177-303A, 177-310B; 177-372B recommended; or permission of instructor.) An advanced course for final year students where the main emphasis will be on experiments where gene differences altering development or environmentally-induced differences in embryonic development throw light on the processes of normal mammalian development.
PROFESSOR TRASLER

177-422D. CURRENT TOPICS IN MOLECULAR GENETICS. (3 Credits, may be combined with 177-478B, 3 Credits; irregular schedule of seminars or conferences; *Prerequisites:* 177-274A, B (E27A, B), 177-301A, B; 177-310B recommended.) Investigation and discussion of recent advances in molecular genetics and their relevance to studies of various problems.
PROFESSORS KAFER-BOOTHROYD AND BUSSEY

177-427A. ECOSYSTEMS. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisite:* 177-305A; 189-231A, B.) A study of ecological systems with emphasis on regulation, productivity, energy and nutrient cycling, ecological efficiencies. Systems analysis. Applied aspects.
PROFESSOR AUCLAIR

177-429A. PHYSIOLOGICAL PLANT ECOLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 177-305A; 177-357A recommended; and permission of instructor.) A consideration of physiological responses and adaptations of plants to their environment. Contemporary approaches to the measurement and study of relevant physiological and micro-environmental parameters will also be presented.
PROFESSOR OECHEL

177-430A. LIMNOLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory or field trip; *Prerequisites:* 177-305A and permission of instructor.) A study of the physical, chemical and biological characteristics of fresh-water, with emphasis on the role of the plankton in the economy of the lakes.
PROFESSOR KALFF

177-440A. MARINE ENVIRONMENT. (3 Credits; 3 hours lectures, occasional laboratory sessions; *Prerequisite:* 177-305A; 177-348D can be taken concurrently.) An introduction to the physical and chemical factors of the Marine environment; the main ecological divisions of the ocean; history and methods of marine research.
PROFESSORS LALLI AND DUNBAR

177-441B. BIOLOGICAL OCEANOGRAPHY. (3 Credits; 3 hours lectures, occasional laboratory periods; *Prerequisite:* 177-440A.) An ecological account of marine populations and their relationship to the physical and chemical environment; the dynamics of the marine plankton and the levels of production in different regions. Marine biogeography.
PROFESSORS LEWIS AND DUNBAR

177-465B. TOPICS IN PLANT BIOCHEMISTRY. (3 Credits; Lectures and discussion; *Prerequisites:* 177-201D; 177-303A, 507-352D recommended.) A review by lectures, seminars and discussion of important advances in recent years, e.g. molecular structures of macromolecules, biosynthetic processes, mechanisms of hormone action, metabolic regulation.
PROFESSOR MacLACHLAN AND DR. VERMA

177-471B. HUMAN BIOCHEMICAL GENETICS. (4 Credits; 3 hours lectures with some student participation; *Prerequisites:* 177-201D, 177-274A, B (177-E27A, B); 180-302A; 189-231A, B.) An up-to-date and comprehensive account of the biochemical aspects of human genetics, and relationship of this knowledge to broader questions including evolution, eugenics and treatment of genetic disease.
PROFESSORS GOLD, PINSKY, SCHULMAN AND SCRIVER

177-477A. INDEPENDENT STUDIES IN BIOLOGY. (3 Credits; open to U2 and U3 students only; *Prerequisite:* Projects have to be arranged individually with instructors.) Research or reading projects, permitting independent study under the guidance of a staff member specializing in the field of interest.
STAFF

177-478B. INDEPENDENT STUDIES IN BIOLOGY. (3 Credits; open to U2 and U3 students only; *Prerequisite:* Projects have to be arranged individually with instructors.) Research or reading projects, permitting independent study under the guidance of a staff member specializing in the field of interest. STAFF

177-479D. INDEPENDENT STUDIES IN BIOLOGY. (9 Credits; 8-12 hours per week laboratory project, selected lectures, and seminars; *Prerequisites:* Restricted to students in Biology Major and Honours Programs. A written proposal must be prepared and approved by a committee composed of 2 instructors of the student's field of interest plus one from the Curriculum Committee, prior to registration.) An integrated program of study designed to meet the needs and interests of the student, and incorporating reading and research projects, seminars and/or attendance of selected lectures. STAFF

177-480D. INDEPENDENT STUDIES IN BIOLOGY. (12 Credits; 10-15 hours per week, laboratory project, selected lectures and seminars; *Prerequisites:* Restricted to students in Biology Major and Honours Programs. A written proposal must be prepared and approved by a committee composed of 2 instructors of the student's field of interest plus one from the Curriculum Committee prior to registration.) An integrated program of study designed to meet the needs and interests of the student, and incorporating reading and research projects, seminars and/or attendance of selected lectures. STAFF

177-487B. COMPARATIVE METABOLIC PHYSIOLOGY. (3 Credits; 2 hours conference, laboratory demonstration; *Prerequisite:* 177-385B.) A seminar organized around comparative aspects of endocrine control of metabolism. Detailed topics to vary from year to year.
PROFESSOR MARSDEN

177-488B. ADVANCED NEUROBIOLOGY. (3 Credits; 2 hours seminar; *Prerequisite:* 177-386B or permission of instructor.) Discussion primarily of important current research. Topics emphasize cellular neurophysiology and the functional organization of nervous systems. Includes both vertebrate and invertebrate material. PROFESSORS CHASE AND MANLEY

177-493B. ADVANCES IN ANIMAL BEHAVIOUR. (3 Credits; 2 hours seminar; *Prerequisite:* Permission of instructor.) A senior course reviewing topics of current interest, ranging from the behaviour of lower invertebrates to social interactions of higher vertebrates.
PROFESSORS LEMON, MADISON AND STAFF

CHEMISTRY (180)

Otto Maass Chemistry Building, Room 312, Telephone 392-4469

Chemistry is both a pure science offering its students a challenging intellectual pursuit and simultaneously, an applied science whose technology is of fundamental importance to our economy and society. The modern chemist seeks an understanding of the structure and properties of atoms and molecules. He uses this knowledge to predict and interpret the properties and transformations of matter and the energy changes that accompany those transformations. Many of the concepts of Physics and the methods of Mathematics are basic to Chemistry, while Chemistry is in turn of fundamental importance to many other disciplines such as: the Biological and Medical Sciences, Geology, Metallurgy, and others.

A degree in Chemistry can lead to a wide variety of professional vocations. The large science-based industries (petroleum refining, plastics, pharmaceuticals, etc.) all employ chemists in research and development and in quality control. Many federal and provincial departments and agencies employ chemists in research and testing laboratories. These kinds of positions are expected to increase with the currently growing concern for the environment and for consumer protection. A background in chemistry can also be useful as a basis for advanced study in other related fields, such as medicine, and the biological sciences, or for business career, a B.Sc. in Chemistry can profitably be combined with a master's degree in Business Administration.

Chemistry courses at the university level are traditionally divided into four areas of specialization: 1) organic chemistry, dealing with the compounds of carbon; 2) inorganic chemistry, concerned with the chemistry and compounds of elements other than carbon; 3) analytical chemistry, which deals with the identification of substances and the quantitative measurement of their compositions; and 4) physical chemistry, which treats the physical laws and energetics governing chemical reactions. Naturally there

is a great deal of overlap between these different areas, and the boundaries are becoming increasingly blurred. Other important fields of chemistry in which undergraduate courses are offered include: polymer chemistry, radiochemistry, and biological chemistry.

After a general course at the collegial level, courses in organic, inorganic, analytical and physical chemistry are offered through the university years. Naturally, since chemistry is an experimental science, laboratory classes accompany most of the undergraduate courses.

There are two main programs in Chemistry, Honours and Major. The Honours program is intended primarily for students wishing to pursue graduate studies in Chemistry. While the Major program is somewhat less specialized, it is still recognized as sufficient training for a profession in Chemistry. It can, however, also lead to graduate studies although an additional qualifying year may be necessary. In addition, there are also a number of Faculty programs available (see page 169). Interested students may inquire about these at the Department Office.

Core Curriculum in Chemistry

The Core Curriculum in Chemistry consists of 35 specified credits in chemistry to which must be added a minimum of 14 credits in Mathematics and Physics beyond the CEGEP level. A further 14 credits are optional courses at the CEGEP or college equivalent level. It is hoped that the majority of candidates for honours and majors in chemistry will have taken at least six of these credits at the collegial level.

The Core Curriculum is completed in the first two university years by Honours students, and is taken over three university years by Major students. Because students may have had individual variations in their CEGEP programs, the particular core courses taken in U1 and U2 will vary. However, the program outlined below would be followed by a student wishing to take honours in chemistry, and having completed the equivalent of 180-212, B (4 Credits), and 180-213A, B (3 Credits) at the CEGEP level.

Chemistry: *U1:* 180-222A, B (4 Credits), 180-223A, B (3 Credits), 180-281A (3 Credits), 180-257D (4 Credits), 180-253B (2 Credits), 180-273A (1 Credit).

U2: 180-352A, B (3 Credits), 180-372A, B (3 Credits), 180-392A, B (3 Credits), 180-381B (3 Credits), 180-387D (4 Credits), 180-356A (2 Credits), 180-353A (1 Credit), 180-373B (2 Credits), 180-383B (1 Credit), 180-363D (3 Credits).

Physics: *U1:* 198-232B (4 Credits).

U2: 198-339B (4 Credits).

Mathematics: *U1:* 189-222A, B (3 Credits), 189-223A, B (3 Credits).

U2: 189-315A, B (3 Credits).

Honours students who have had the equivalent of additional core courses may also be able to take some U3 Honours chemistry courses in their U2 year.

Honours in Chemistry

The Honours program in chemistry will be the Core Curriculum taken in U1 and U2 and an additional 18 credits in chemistry elected from the U3 honours courses. Of the 18 credits 198-465D, MATHEMATICAL PHYSICS FOR CHEMISTS, will be acceptable for four credits. This program applies to students who will graduate in 1974 and successive years. Admission to the Honours program is by application to the Chemistry Department.

A research project is available as an option to U3 honours chemistry students graduating in 1974 and thereafter. Further information on this project may be had by inquiring at the Chemistry Department office.

HONOURS IN CRYSTALLOGRAPHY

(See under Department of Geological Sciences.)

Major in Chemistry

The Major in Chemistry is the Core Curriculum taken over the three university years. All courses chosen outside the Core Curriculum will be free electives. Students intending to major in chemistry may, on application to the Department, be granted permission to take U3 Honours courses in Chemistry as part of their electives. Admission to the Major program is by application to the Chemistry Department.

Faculty Programs in Chemistry

Faculty programs in Chemistry may be constructed from the E2/U1 courses and the general courses of U2 and U3 intended for these students. There are courses with a total of 66 credits from which Faculty Programs may be assembled. (See pages 169-172.)

Six courses in general analytical chemistry, 180-207A, -217A, -227B, -237B, -247A, and -267B, are listed to permit the synthesis of an individualized program in chemical analysis.

Awards

Attention is drawn to the following awards for which students in Chemistry are eligible: C.A.T.C.C. Scholarship, McGill Pharmacy Alumni Bursary, C.I.C. Prize, Dr. William H. Hatcher Prize, Anne Molson Prize, S.C.I. Student Prize, Corporation of Professional Chemists of Québec Prize, S.C.I. Merit Award, Clifford B. Purves Prize and Frederick J. Lemaistre Award. For further information students are referred to the Scholarships Announcement.

Course Descriptions

180-E10B. GENERAL CHEMISTRY. This course is no longer given. For a description see Chemistry 180-110A below.

180-E20A. GENERAL CHEMISTRY. (3 Credits; 3 lectures, 1 tutorial; *Prerequisite:* Chem. E10B, Math. E14B, and Phys. E11B or E15B; *Co-requisites:* Math. E15A if not previously taken and Phys. E21A — Physical Science students only.) A continuation of Chemistry E10B. Required of all collegial level science students. A study of the simpler aromatic organic molecules, and of the fundamental principles of physical chemistry.

PROFESSORS ONYSZCHUK, EDWARD, GROSSER, SIMKIN EISENBERG AND STAFF

LABORATORY: (2 hours). Illustrative experiments.

PROFESSOR GROSSER AND MRS. BIRNIE

180-E22A, B. ORGANIC CHEMISTRY. (4 Credits; 3 hours lectures; *Prerequisite:* Chem. E20A.) A survey of reactions of aliphatic and aromatic compounds including modern concepts of bonding, mechanisms, conformational analysis and spectra. (*Text:* To be announced.)

PROFESSORS HARPP AND PERLIN

LABORATORY: (3 hours). Illustrative experiments.

PROFESSORS HARPP AND PERLIN AND MRS. HEYGE

180-E23A. GENERAL CHEMISTRY. (3 Credits; 3 lectures, 1 tutorial; *Prerequisite:* Chem. E13B.) A continuation of Chemistry E13B. It is intended primarily for students in nursing and physical therapy and those who do not plan to take chemistry courses beyond the U1 level. This course serves as a prerequisite for Chemistry E28B only.

PROFESSORS ONYSZCHUK AND JUST

LABORATORY: (2 hours). Illustrative experiments. MRS. BIRNIE

180-E24A, B. PHYSICAL CHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* Chem. E20A, Math. E14A or E14B and E15A or E15B or E16A and E17B.) First law of thermodynamics, enthalpy, thermochemistry, bond energies. Second law of thermodynamics: the entropy and free energy functions. Chemical and thermodynamic equilibrium states. Phase rule. Colligative properties of ideal solutions. Electrochemistry, electrochemical cells. Liquid and liquid surfaces. Chemical kinetics. PROFESSORS EISENBERG AND PATTERSON

180-E28B. ORGANIC CHEMISTRY. (3 Credits; 3 lectures, 1 tutorial; *Prerequisite:* Chem. E23A.) A course similar to Chem. E22B. It is integrated with Chem. E23A and cannot be taken by itself. It is intended primarily for students in nursing and physical therapy and those who do not plan to take chemistry courses beyond the U1 level. PROFESSOR JUST

LABORATORY: (3 hours). Illustrative experiments. MRS. HEYGE

180-110A. GENERAL CHEMISTRY I. (3 Credits; 3 lectures, 1 tutorial; *Prerequisites/Co-requisites:* College level mathematics and physics.) A study of the fundamental principles of atomic structure, valence theory, periodic table, and the structures and reactions of the simpler aliphatic molecules. PROFESSOR ONYSZCHUK AND STAFF

LABORATORY: (2 hours). Illustrative experiments.
PROFESSOR GROSSER AND MRS. BIRNIE

180-120B. GENERAL CHEMISTRY II. (3 Credits; 3 lectures, 1 tutorial; *Prerequisite:* Chemistry 110A or E10B.) For course description see 180-E20A.
PROFESSOR ONYSZCHUK AND STAFF

180-200B. PHYSICAL SCIENCE II. (3 Credits; 2 lectures; 1 conference.) This course is intended for non-science students at any level; it is not open to students who have taken (or are taking) courses in Physics or Chemistry other than Physics 198-200A. The backbone of this course is a group of short programs in basic chemistry. In addition, the individual student selects a topic in which he delves more deeply into some aspect of chemical science or the moral, social or philosophical implications of chemical science. PROFESSOR ———

180-201A, B. MODERN INORGANIC CHEMISTRY I. (3 Credits; no lectures, modular course; *Prerequisites:* Chem E10B and E20A or equivalent courses.) The course deals with the chemistry of the main group elements and their role in our everyday lives. The course is based on a series of self-study modules; a minimum of three background modules (on atomic structure and chemical bonding) and five other modules selected by the student must be completed. PROFESSOR BUTLER

180-204A. INTRODUCTORY PHYSICAL CHEMISTRY FOR BIOLOGICAL SCIENCE STUDENTS. I. (3 Credits; 3 lectures; *Prerequisites:* Chem E20A or equivalent and one full course in calculus.) Similar to 180-213A, B. An emphasis is placed on the use of biological examples to illustrate the principles of Physical Chemistry. The relevance of physical chemistry to biology is stressed. This course may not be preceded by 180-E24A, B.
PROFESSOR GALLEY

180-207A. GENERAL ANALYTICAL CHEMISTRY. I. (1 Credit; 1 lecture; *Prerequistes:* Chem E10B and E20A or equivalent courses.) Lecture portion of an individualized program in analytical chemistry. Lecture sequences and laboratories (if any) to be selected by student and his adviser. PROFESSOR FRESCO

180-212A, B. INTRODUCTORY ORGANIC CHEMISTRY. I. (4 Credits; 3 lectures; *Prerequisites:* Chem E10B and E20A or equivalent courses.) A survey of reactions of aliphatic and aromatic compounds including modern concepts of bonding, mechanisms, conformational analysis and spectra. This course may not be preceded by 180-E22A, B.
PROFESSORS HARPP AND PERLIN

LABORATORY: (3 hours). Illustrative experiments.
PROFESSORS HARPP AND PERLIN AND MRS. HEYGE

180-213A, B. INTRODUCTORY PHYSICAL CHEMISTRY. I. (3 Credits; 3 lectures; *Prerequisites:* Chem E20A or equivalent; Math E14A or B and Math E15A or B, or Math E16A, E17B.) First law of thermodynamics, enthalpy, thermochemistry, bond energies. Second law of thermodynamics: the entropy and free energy functions. Chemical and thermodynamic equilibrium states. Phase rule. Colligative properties of ideal solutions. Electrochemistry, electrochemical cells. Liquid and liquid surfaces. Chemical kinetics. This course may not be preceded by 180-E24A, B. PROFESSORS EISENBERG AND PATTERSON

180-214B. INTRODUCTORY PHYSICAL CHEMISTRY FOR BIOLOGICAL SCIENCE STUDENTS. II. (3 Credits; 3 lectures; *Prerequisites:* 180-213A, B or 180-204A or equivalent.) Similar to 180-223A, B. An emphasis is placed on the use of biological examples to illustrate the principles of physical chemistry. The relevance of physical chemistry to biology is stressed.
PROFESSOR GALLEY

180-217A, B. GENERAL ANALYTICAL CHEMISTRY LABORATORY. I. (1 Credit; 3 hours; *Prerequisites:* Chem E10B and E20A or equivalents.) Laboratory portion of an individualized program in analytical chemistry. Laboratory experiments to be selected by student and his adviser. PROFESSOR FRESCO AND MR. DROVER

180-222A, B. INTRODUCTORY ORGANIC CHEMISTRY. II. (4 Credits; 3 lectures; *Prerequisite:* Chem. E22A, B or 212A, B.) Modern spectroscopic techniques for structure determination. The chemistry of alkyl halides, alcohols, ethers, carbonyl compounds and amines with special attention to mechanistic aspects. Special topics. PROFESSORS HARPP AND PERLIN

LABORATORY: (3 hours). Illustrative experiments.
PROFESSORS HARPP AND PERLIN AND MRS. HEYGE

180-223A, B. INTRODUCTORY PHYSICAL CHEMISTRY. II. (3 Credits; 3 lectures; *Prerequisite:* 180-213A, B or equivalent.) Schroedinger Wave Equation; Energy states of atoms; Theory of chemical bonding; Atomic and Molecular structure; Spectroscopy; Electrical and magnetic properties of molecules; statistical thermodynamics. PROFESSOR SIMKIN

180-227B. GENERAL ANALYTICAL CHEMISTRY. II. (1 Credit; 1 lecture; *Prerequisite:* 180-207A.) Lecture portion of an individualized program in analytical chemistry. Lecture sequences and laboratories (if any) to be selected by student and his adviser. PROFESSOR FRESCO

180-232B. INTRODUCTORY ORGANIC CHEMISTRY FOR NURSES. I. (4 Credits; 3 lectures; *Prerequisites:* Chem E13B and E23A or equivalents.) Similar to 180-212A, B but with a biological emphasis for students who will not take chemistry courses beyond the U-1 level. This course may not be preceded by E22A, B. PROFESSOR JUST

LABORATORY: (3 hours). Illustrative experiments. MRS. HEYGE

180-237B. GENERAL ANALYTICAL CHEMISTRY LABORATORY II. (1 Credit; 3 hours; *Prerequisites:* Chem E10B and E20A or equivalents.) Laboratory portion of an individualized program in analytical chemistry. Laboratory experiments to be selected by student and his adviser. PROFESSOR FRESCO AND MR. DROVER

180-247A. GENERAL ANALYTICAL CHEMISTRY LABORATORY III. (2 Credits; 6 hours; *Prerequisites:* Chem E10B and E20A or equivalents.) Laboratory portion of an individualized program in analytical chemistry. Laboratory experiments to be selected by student and his adviser. PROFESSOR FRESCO AND MR. DROVER

180-253B. ADVANCED CHEMICAL THERMODYNAMICS. (2 Credits; 2 hours; *Prerequisite:* 180-213A, B or equivalent; *Co-requisite:* 180-273B.) For Honours and Major Chemistry Students. Thermodynamics of non-electrolyte solutions: partial molar volumes and enthalpies; chemical potentials; regular solution theory; equilibrium between solution and vapour phase; standard states, activities, activity coefficients; phase rule; phase diagrams. Electrolyte solutions: conductivity of solutions; electrode processes; transport numbers; thermodynamics of electrolyte solutions; electromotive force of cells. PROFESSOR PATTERSON

180-257B. INTRODUCTORY ANALYTICAL CHEMISTRY. (4 Credits; 1 lecture, 4 hours laboratory and 1 homework tutorial; *Prerequisites:* Chem E10B and E20A or equivalents.) For Honours and Major Chemistry Students. A rigorous survey of analytical chemistry including theory and practice or representative gravimetric, volumetric and instrumental methods. PROFESSOR FRESCO AND MR. DROVER

180-267B. GENERAL ANALYTICAL CHEMISTRY LABORATORY. IV. (2 Credits; 6 hours; *Prerequisites:* Chem E10B and E20A or equivalents.) Laboratory portion of an individualized program in analytical chemistry. Laboratory experiments to be selected by student and his adviser. PROFESSOR FRESCO AND MR. DROVER

180-273A. CHEMICAL KINETICS. (1 Credit; 1 lecture; *Prerequisite:* 180-204A, B or 180-213A, B or equivalent.) For Honours and Major Chemistry Students. Other students with permission of the lecturer. Order, molecularity, reaction mechanisms, first, second and third order rate constants. Determination of order, effect of temperature on rate, activated state theory. Collision theory. Reactions in solution, homogeneous catalysis. Reaction at surfaces, heterogeneous catalysis, poisoning. PROFESSOR GROSSER

180-281A. CHEMISTRY OF THE MAIN GROUP ELEMENTS. (3 Credits; 3 lectures; *Prerequisites:* Chem E10B and E20A or equivalents.) For Honours and Major Chemistry Students. Modern concepts of atomic structure, chemical bonding and stereochemistry will be reviewed and extended to include symmetry elements, symmetry operations, and point groups. This will be followed with a systematic survey of the main group elements and their compounds, with emphasis on trends in physical and chemical properties, molecular geometry, and mechanisms of reactions. PROFESSOR ONYSZCHUK

180-300A. HISTORY OF CHEMISTRY I. (3 Credits; 2 lectures, 1 seminar; Admission to course by permission of lecturer; See page 153, Science for Arts students.) An introduction to the history of chemistry, pure and applied, from the earliest to modern times. PROFESSOR NICHOLLS

180-301B. MODERN INORGANIC CHEMISTRY II. (3 Credits; 3 lectures; *Prerequisites:* Chem E10B and E20A or equivalent courses.) Modern concepts of metallic bonding and metallic crystals will be reviewed and extended to include descriptions of crystal field theory and molecular orbital theory of coordination compounds. The chemistry of transition metal coordination compounds will be treated in some detail from the viewpoint of structural, chemical, and mechanistic behavior. PROFESSOR BUTLER

180-302A. BIO-ORGANIC CHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* 180-212A, B and 180-222A, B.) Application of the concepts of organic chemistry to selected biological systems. STAFF

180-307B. THE ANALYTICAL CHEMISTRY OF POLLUTANTS. (2 Credits; 2 lectures; *Prerequisites:* One course in analytical chemistry and one in physical chemistry.) Description of current analytical practices in air and water pollution; critical evaluation of the reliability of the methods, with particular emphasis on interfering substances; rudiments of automated instrumentation, toxicological analysis as it relates to pollution. PROFESSORS CAVE AND FRESCO

180-310B. HISTORY OF CHEMISTRY II. (3 Credits; 2 lectures, 1 seminar; *Prerequisite:* Chemistry 180-300A. See page 153, Science for Arts students.) A continuation of the study of the history of chemistry, from the earliest to modern times. PROFESSOR NICHOLLS

180-311A. AN INTRODUCTION TO NUCLEAR CHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* Chemistry E10B and E20A or equivalents.) The basic concepts of nuclear chemistry will be described mainly in a qualitative way. Such topics as forces within nuclei, theories of nuclear structure, radioactive decay, nuclear reactions and fission, particle accelerators and reactors, radiocarbon dating, and tracer technique will be treated. PROFESSOR YAFFE

180-313A. INTERMEDIATE PHYSICAL CHEMISTRY I. (3 Credits; 3 lectures; *Prerequisite:* 180-223A, B or 180-214A.) A survey course in physical chemistry beyond the introductory level. PROFESSOR———

180-323B. INTERMEDIATE PHYSICAL CHEMISTRY II. (3 Credits; 3 lectures; *Prerequisite:* 180-223A, B or 180-214A.) A survey course in physical chemistry with a special emphasis on spectroscopy. PROFESSOR———

180-331A. INORGANIC CHEMISTRY OF THE SOLID STATE. (3 Credits; 3 lectures; *Prerequisites:* E10B and E20A or equivalent.) Primarily, but not exclusively, for students in the Faculty of Engineering. Electronic structure and properties of the elements in relation to the Periodic Table. The Solid state: structure, bonding, magnetic properties of metals and alloys. Descriptive chemistry of the metals. PROFESSOR HOGAN

180-352A, B. STRUCTURAL ORGANIC CHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* 180-212A, B and 180-222A, B.) For Honours and Major Chemistry Students. Modern methods of structure determination, chemical and spectroscopic techniques; stereochemistry. PROFESSORS CHAN AND JUST

180-353A. SURFACE CHEMISTRY. (1 Credit; 1 lecture; *Prerequisites:* 180-253B and 180-273B.) For Honours and Major Chemistry Students. The nature of surfaces. The thermodynamics of surfaces. The effect of temperature and pressure on surface energies. The wetting of solids. Binary liquid systems and the surface excess. Physi- and chemi-sorption of vapours on solids. PROFESSOR———

180-356A. INTRODUCTORY QUANTUM CHEMISTRY. (2 Credits; 2 lectures; *Prerequisites:* 180-253B and 180-273A.) For Honours and Major Chemistry Students. A semi-mathematical course dealing with the development of the quantum theory of chemistry. Commences at the foundations of atomic theory, the electron in a constant potential, the hydrogen atom and the many electron atom and then covers the wave functions of many electron systems, angular momentum and the molecular orbital and valence bond theories of chemical structures and properties. PROFESSOR WHITEHEAD

180-362A. ADVANCED ORGANIC LABORATORY. (2 Credits; 4 hours; *Corequisite:* 180-352 or 180-372.) An advanced laboratory of experiments related to the theoretical principles, synthetic methods and instrumental techniques of modern organic chemistry. The laboratory uses a modular format of self-paced and self-guided instruction. A program of modules is selected in consultation with the instructor. PROFESSOR CHAN

180-363D. PHYSICAL CHEMISTRY LABORATORY. (3 Credits; 3 hours; *Prerequisites:* 180-253B and 180-273B.) For Honours and Major Chemistry Students. Selected experiments to illustrate the application of physical chemical principles of real systems. PROFESSOR WINKLER AND DR. BROWN

180-372A, B. SYNTHETIC ORGANIC CHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* 180-212A, B and 180-222A, B.) For Honours and Major Chemistry Students. Synthetic methods in organic chemistry. PROFESSORS CHAN AND JUST

180-373B. MOLECULAR SPECTROSCOPY. (2 Credits; 2 lectures; *Prerequisite:* 180-356A.) For Honours and Major Chemistry Students. A general survey of the principles of molecular spectroscopy, including electronic, vibrational, and rotational spectroscopy, nuclear and electron spin resonance and Mössbauer effect. PROFESSOR GILSON

180-381B. CHEMISTRY OF THE TRANSITION ELEMENTS. (3 Credits; 3 lectures; *Prerequisite:* 180-281A.) For Honours and Major Chemistry Students. The history of transition chemistry, coordination numbers and geometry, nomenclature and symmetry. Crystal field theory will be described and applied to problems in spectroscopy, magnetochemistry, thermodynamics and kinetics. Molecular orbital theory is applied to carbonyl and organometallic compounds. PROFESSOR HARROD

180-383B. INTRODUCTORY STATISTICAL MECHANICS. (1 Credit; 1 lecture; *Prerequisite:* 180-356A; *Corequisite:* 180-373B.) For Honours and Major Chemistry Students. Fundamental assumptions of the statistical method, Maxwell-Boltzmann distribution law. Ideal monatomic, diatomic and polyatomic gases. PROFESSOR EU

180-387D. ANALYTICAL CHEMISTRY. (4 Credits; 1 lecture and 3 hours laboratory; *Prerequisites:* 180-257D and 180-253A.) For Honours and Major Chemistry Students. A rigorous treatment of the theory underlying analytical processes; application of selected techniques, followed by an original project. PROFESSOR CAVE

180-392B. INTEGRATED INORGANIC/ORGANIC LABORATORY. (3 Credits; 8 hours; *Prerequisite:* 180-352; *Corequisites:* 180-381B and 180-372.) An advanced laboratory for Honours and Major Chemistry Students. The laboratory uses a modular format of self-paced and self-guided instruction. A program of modules is selected in consultation with the laboratory staff. The experimental modules consist of projects related to the theoretical principles, synthetic techniques and instrumental methods used in modern organic, inorganic and organometallic chemistry. PROFESSORS CHAN AND HARROD

180-404B. BIOPHYSICAL CHEMISTRY. (3 Credits; 3 lectures; *Prerequisite:* Chemistry 283D.) Molecular weight determination, hydrodynamic and spectroscopic properties of biopolymers. The structure and dynamics of biopolymers and biological systems.
PROFESSORS GALLEY AND MEIGHEN
(Biochemistry)

180-447A. INSTRUMENTAL ANALYSIS. (3 Credits; 2 lectures; 3 hours laboratory.) For Honours Students in Biochemistry only. A survey of instrumental methods of analysis.
PROFESSOR CAVE AND COLLEAGUES

180-452B. PHYSICAL ORGANIC CHEMISTRY. (3 Credits; *Prerequisite:* Chemistry 352D.) Intended primarily for Honours Chemistry Students. PROFESSOR FARRELL

180-455B. INTRODUCTORY POLYMER CHEMISTRY. (3 Credits; *Prerequisite:* Chemistry 303D or 383D.) For Major and Honours students. A survey course on the structure of polymers, kinetics and mechanisms of polymer synthesis; molecular weight distributions; polymer configurations and the thermodynamics of polymer solutions; rubber, elasticity, osmometry and viscosity. PROFESSOR ST. PIERRE

180-457B. INSTRUMENTAL METHODS OF ANALYSIS. (3 Credits; 3 hours laboratory.) For Honours students. Other students with permission of the lecturer. Mass spectrometry; gas chromatography; NMR-ESR spectroscopy; infrared spectroscopy; X-ray diffraction and fluorescence spectrometry; ultracentrifugation; electrophoresis; microscopy; activation analysis, polarography. PROFESSOR CAVE AND COLLEAGUES

180-458A. RADIOCHEMISTRY. (3 Credits.) For Honours students in Chemistry and Biochemistry, Chemistry Majors and other Honours students with permission of the lecturer. Fundamentals of radiochemistry, radiotracer techniques and applications. PROFESSOR YAFFE

180-463A, B. ADVANCED PHYSICAL CHEMISTRY LABORATORY. (3 Credits; 6 hours; *Prerequisite:* Chemistry 383D.) Intended primarily for Honours students. More advanced physicochemical methods of investigating kinetic and thermodynamic properties of gases, liquids, solutions and colloids. PROFESSOR WINKLER

180-475A. CHEMICAL KINETICS. (3 Credits; 3 lectures; *Prerequisite:* Chemistry core.) Kinetic laws, measurement of reaction rates, transition state and collision theory, elementary gas phase reactions. Elementary reactions in solution, reaction mechanisms in solution, reactions on surfaces and in solid state. Heterogeneous catalysis. Complex reactions, homogeneous reactions. PROFESSOR GROSSER

180-476B. QUANTUM CHEMISTRY. (3 Credits; 3 lectures; *Prerequisite:* Chemistry core.) A semi-mathematical course on the development of the quantum theory of chemistry. Commences at the foundations of atomic theory, the electron in a constant potential, the hydrogen atom and the many electron atoms and then covers the wave funcions of many electron systems, angular momentum and the molecular orbital and valence bond theories.
PROFESSOR WHITEHEAD

180-477A. ELECTROANALYTICAL CHEMISTRY. (3 Credits; 2 lectures, 3 hours laboratory; *Prerequisite:* Chemistry 387D.) For Honours Chemistry students. Other students with permission of the lecturer. Mass-transfer processes; theory of electrochemical processes in analytical chemistry; determination of the composition and stabilities of organic and inorganic species in aqueous and nonaqueous solvents. PROFESSORS CAVE AND FRESCO

180-480A, B. FINAL YEAR RESEARCH PROJECT. (3 Credits; Registration by departmental permission only.) A course designed to give Honours students an optional foretaste of research experience. The student will be assigned a project supervisor and a research project at the beginning of the session. The project will consist of a literature survey, experimental work, a written research report and an oral examination. STAFF

180-481A, B. MODERN TOPICS IN INORGANIC CHEMISTRY. (3 Credits; *Prerequisites:* Chemistry 281B and 381B.) Chemistry Honours students only. An introduction to areas of current interest in inorganic chemistry. After several lectures given by staff members, each student will lead a seminar on a mutually agreed upon topic selected at the beginning of the course.
PROFESSORS BUTLER, HOGAN, HARROD AND ONYSZCHUK

180-482A. ADVANCED ORGANIC CHEMISTRY. (3 Credits; *Prerequisite:* Chemistry 352A; Not offered in 1973-74.) Intended primarily for Honours Chemistry students. Synthetic methods in organic chemistry. PROFESSOR JUST

180-485A. SURFACE AND COLLOID CHEMISTRY. (3 Credits; *Prerequisite:* Chemistry 303D or 383D.) A topical course on the physical chemistry of phase boundaries. Topics covered vary from year to year and generally include: properties of surfaces; monolayers; colloidal dispersions; spreading and wetting phenomena; absorption; translational and rotary Brownian motion. PROFESSOR MASON

180-487A. SELECTED TOPICS IN MODERN ANALYTICAL CHEMISTRY. (3 Credits; *Prerequisite:* Chemistry 387D.) Honours Chemistry students. Other students with permission of the lecturer. Current theories of aqueous and nonaqueous solutions, with application to analytical chemistry; recent advances in analytical techniques (topics covered vary from year to year and may include chromatography; applications of kinetics, solvent extraction and thermal analysis) with emphasis on their theoretical basis. PROFESSORS FRESCO AND CAVE

180-490A, B. FINAL YEAR RESEARCH PROJECT. (6 Credits; 16 hours laboratory; Registration by departmental permission only.) For description, see 180-480A, B.

180-491B. ADVANCED INORGANIC CHEMISTRY LABORATORY. (3 Credits; 6 hours; *Prerequisite:* Chemistry 382D.) For Honours Chemistry students only. Advanced techniques for the preparation of inorganic compounds. Investigation of the spectroscopic properties of the compounds prepared. PROFESSOR BUTLER

180-493A. INTRODUCTION TO STATISTICAL THERMODYNAMICS. (2 Credits; 2 lectures; *Prerequisite:* Chemistry core.) Fundamental principles of statistical mechanics; microanonical and canonical ensembles; thermodynamic functions of ideal gases; theories of solids, chemical equilibria; absolute reaction rate theory; Van der Waals gases. PROFESSOR ———

180-497B. ANALYTICAL SPECTROSCOPY. (3 Credits; 2 lectures and 3 hours laboratory; *Prerequisite:* Chemistry 387D.) For Honours Chemistry students. Other students with permission of the lecturer. Spectrophotometric measurements and sources of error. Flame photometry, including emission and atomic absorption spectral determination of the composition and stabilities of organic and inorganic species in aqueous and nonaqueous solvents; Tanabe-Sugano diagrams. PROFESSORS FRESCO AND CAVE

COMPUTER SCIENCE (308)

Burnside Hall. First floor. Departmental office (undergraduate activities), Room 214. Telephone: 392-5803.

Computer Science is a subject with both practical and theoretical importance. It has strong links with many other disciplines, particularly with Mathematics in the field of numerical analysis, with electrical engineering in the field of computer hardware and with management in the field of large scale data processing systems.

The courses offered are designed to satisfy the different needs of students from those who will be involved in computer applications in their own area of specialization to those who wish to specialise in Computer Science perhaps with a view to proceeding to Graduate School. Some graduate courses in Computer Science are available to suitably qualified senior undergraduates. For further information, see the Faculty of Graduate Studies and Research Calendar.

McGill possesses two powerful computers, providing both a batch processing and time sharing service to the University. Every effort is made to give a student as much practical experience with the computing facilities as possible.

Although the School of Computer Science does not offer any programs in the Faculty of Science, the Mathematics Department has a major program with a Computer Science option in which Computer Science courses form an integral part. Special programs involving Computer Science are also available in the Faculty of Management and in the Department of Electrical Engineering. For further details, the Calendars of the Faculties of Management and Engineering should be consulted.

Course Descriptions

308-100A, B. INTRODUCTION TO COMPUTING. (3 Credits; No scheduled lectures; No prerequisites.) A beginning course in computing designed to introduce general concepts in computing as well as a basic working knowledge of the programming language FORTRAN. The course consists of 12 modules, containing video tape lectures, module booklets, interactive terminal sessions and assignments to be run on the computer. The student learns at his own pace. The only formal lecture is held the first day of a new semester. MISS FOX

308-200A, B. INTRODUCTION TO COMPUTER SCIENCE. (3 Credits; 2 hours; *Prerequisite:* Mathematics 189-202A, B or equivalent, knowledge of linear algebra is desirable.) Number systems; data representation; algorithm design; FORTRAN; computer methods including searching, sorting, solution of equations, numerical integration and matrix manipulation. This course is designed for students in Mathematics and the Physical Sciences. STAFF

308-210A, B. COMPUTER STRUCTURE AND ASSEMBLY LANGUAGE PROGRAMMING. (3 Credits; 2 hours; *Prerequisite:* 308-200A, B.) Computer structure, machine language, instruction execution, addressing techniques, and digital representation of data. Symbolic coding and assembly systems, macro definition, program segmentation and linkage. PROFESSOR RATZER

308-220A, B. DIGITAL COMPUTING FOR STATISTICAL ANALYSIS. (3 Credits; 3 hours; *Prerequisite:* An introductory course in Statistics, e.g. Psychology 204A.) Characteristics of a higher level programming language (FORTRAN). Methods for computer solution of statistical problems. Intended for students in the Biological and Social Sciences. MISS FOX

308-230A. COMPUTERS IN DATA PROCESSING. (3 Credits; 2 hours; *Prerequisite:* Computer Science 308-200A, B or equivalent or programming experience.) Commercial uses of computers; COBOL; OS/360 facilities including job control language, sort/merge; file processing; comparison with other data processing languages. MR. PAUL

308-300A, B. PROGRAMMING LANGUAGES. (3 Credits; 2 hours; *Prerequisite:* 308-210A, B.) Formal definition of programming languages including specification of syntax. Properties of algorithmic languages including PL/1, APL and GPSS. Introduction of theory of compilers and interpreters. Computer solution of non-numerical problems. PROFESSOR THORPE

308-310B. COMPUTER SOFTWARE ORGANIZATION AND DESIGN. (3 Credits; 2 hours; *Prerequisite:* 308-300A, B.) Batch processing, multiprogramming, job control languages, linkage editing, file system organization, time-shared systems, virtual memory. PROFESSORS RATZER, VALENTI

308-315A. INFORMATION STRUCTURES. (3 Credits; 2 hours; *Prerequisite:* Computer Science 308-210A, B.) Storage of arrays, applications to special matrices and scientific computation; queues and stacks; applications to compiler writing; sorting and searching; introduction to list processing and symbolic manipulation. PROFESSOR MERRETT

308-320B. FILES AND DATA BASES. (3 Credits; 2 hours; *Prerequisite:* 308-315A; recommended prerequisite: 308-300A, B.) The course will teach the PL/1 language and use it in data processing applications. Topics: PL/1 essentials; data sets, files and JCL; sequential files: printing, sorting, updating; indexed sequential files; direct files; files of structured data; data bases. PROFESSOR MERRETT

GEOGRAPHY (183)

Burnside Hall, Dept. Chairman, Room 510, Telephone: 392-5489.

General Inquiries at Departmental Office, Room 513, Telephone: 392-5700.

Geography is a discipline which bridges the gap between Science and Arts subjects at university. Its central theme is the study of man and the processes which affect him in his physical and social environments. Both a specialist and an interdisciplinary approach are open to students, who, while taking several courses in common, may proceed towards either the B.Sc. or B.A. degrees.

The challenges facing students in geography and the areas for investigation are wide ranging. Current projects include:

A mathematical analysis of air travel in Canada.
Land use, soils and water quality in Quebec.
Weather and human comfort in Montreal.
Social and economic utilization of Arctic resources.
Location of health and welfare facilities for urban planning.
Tourism and recreational land use in developed and developing countries.

Graduates have found career opportunities in accordance with their level of specialization and interests. Many segments of industry, and all levels of education and government employ geographically trained students. The Federal Departments of Environment, Energy, Mines and Resources, Urban Affairs, External Affairs, Regional Economic Expansion, and those dealing with Parks, Native Peoples and Land Use have

areas where geographers may find applications for their skills. Some jobs are in the remote or wilderness areas of various countries, but others are in the offices and laboratories of large urban centres and in quiet rural countrysides. Within these careers, specialization may be very diverse, and include climatology, regional and city planning, industrial location, air photo interpretation or map analysis, and cultural and biological problems in regional development.

The interaction of man with various aspects of his environment is seen in the emphasis given to this interaction throughout many of the courses and programs offered in the department. Some courses, however, focus on a range of local, regional and world problems such as air and water quality or food/population and economic development relationships. In others the emphasis is on the study of physical, economic and cultural processes in a geographical framework. Other courses centre upon methods of geographical analysis.

Students in Geography should focus their studies around groups of geography courses which are informally organized into sequences such as the following:

Introductory	183-E10A, -E12B, -E11D, -203D.
Urban	183-216A, -217B, -314A, -316A, -331A, -346B, -412B
Economic	183-301D, -315B, -319A, -411A
Cultural-Ecological	183-214A, -215B, -300B, -304A, -317A, -414A, -481A
Geomorphology	183-271A, -272B, -471D
Hydrology	183-322A, -323B
Climatology	183-321A, -324B, -422A, -423B
Biogeography and Soils	183-302D, -305A, -307B, -451D
Regional	183-303D, -309B, -310A, -402D
Technical (Cartography, Air Photo, Statistical Analysis, Research Methods)	183-201A, -202B, -306A, -308B, -350B, -351A, -482D, -484D

The recommended combinations which lead to these and other interests are outlined in the patterns of courses within the 1) Faculty Program, 2) Major in Geography, and 3) Honours in Geography, which lead to either the B.A. or to the B.Sc. degree.

Faculty Programs

For details see Faculty Programs, page 169.

There are no specific prerequisites to these faculty programs; courses that should be taken in U1 are underlined. Any deficiencies in background should be taken concurrently as one of the optional selections.

Advisers: Professor R. Wilson, Room 627, Burnside Hall, Telephone: 392-8223.
Professor J. Parry, Room 322, Burnside Hall, Telephone: 392-5496.

Major in Geography

Students are required to take a minimum of 42 credits in Geography and 12 credits in other approved courses in Geology, Meteorology, or Biology.

Adviser: Professor R. N. Drummond, Room 310, Burnside Hall, 392-5497.

First year: Geography 183-201A, -202B, -203D, and 6 credits in Arts Geography.

Second year: Geography 183-271A and -272B, -351A.

Third year: Geography 183-321A, -451D and -306A or -308B.

Honours in Geography

Adviser: Professor R. N. Drummond, Room 310, Burnside Hall, 392-5497.

All Honours students take a basic group of courses in Geography. In addition they must choose an area of specialization. At present these are offered in Biogeography, Climatology, Geomorphology, and Regional Environments.

First year: Geography 183-201A, -202B, -203D, 6 credits in Arts Geography and 12 credits in non-geography courses chosen for their contribution to the topic of specialization.

Second and Third year: Geography 183-271A, -272B, -306A, or -308B, -321A, -350B, -351A, -481A, -451D, -484D, 18 credits from the area of specialization and 9 additional credits.

There are no prerequisites in geography for entrance to the Major or Honours B.A. or B.Sc. in Geography. Arts students should include six credits of mathematics in their CEGEP or pre-university programs. Students who have completed college or pre-university geography courses fully equivalent to those at first year university may substitute other approved courses as part of their Major or Honours programs.

Course Descriptions

Science students wishing to continue in Physical Geography who have not taken physical geography or earth sciences or geology at the College level (or equivalent) should enrol in Geography 183-E10A; or if they wish to continue in climatology, in 183-E12B.

B.A. students wishing to have an introduction to physical geography are advised that Geography 183-203D is suitable for most purposes.

183-E10A. THE SURFACE OF THE EARTH. (3 Credits. First or Second year.) An introductory description and explanation of the physical geography of the continents of earth. Special attention will be given to the geomorphic, hydrological and climatological processes that modify the surface and adjacent atmospheric environments in terms of their occupance by man and the biota. PROFESSOR BIRD

183-E11D. INTRODUCTION TO GEOGRAPHY. (6 Credits; 2 hours and conference.) An introductory course in two parts. Part I — a survey of the world's physical environments regarded especially from the viewpoint of man's occupance of the world. Part II — deals with the human aspects of the major man-environment system, its subsystems — ecosystems, resource systems and culture areas — and with man/land relations wherever they be located. PROFESSORS WILSON AND HILLS

183-E12B. CLIMATE AND WEATHER. (3 Credits; 2 hours and conference.) Physical processes and properties of the earth atmosphere system. Tropical and Mid-Latitude weather and climate. The global circulation, introduction to micro-climate and special topics, e.g. air pollution, frost protection. PROFESSOR WILSON

183-201A (E20A). INTRODUCTION TO CARTOGRAPHY AND AIR-PHOTO INTERPRETATION. (3 Credits; 1 hour plus laboratory periods.) The basic principles and technical skills used in cartography and the interpretation of air photos for the presentation and analysis of spatially distributed data. Thematic maps and the communication of ideas in map form. PROFESSOR DRUMMOND

183-202B (E21B). INTRODUCTION TO GEOGRAPHICAL ANALYSIS. (3 Credits; 2 hours and conference.) An introduction to the application of statistical techniques to the description, analysis and presentation of spatially distributed data. PROFESSOR MASSAM

183-203D (E22D). AN INTRODUCTION TO ENVIRONMENTAL STUDIES. (6 Credits; 2 hours and conference.) Geographical problems and themes in environmental studies; interactions between components of atmosphere, vegetation, fauna, soils, and terrain: experimental design, sampling methods, data quality, and elementary statistical methods for the analysis and presentation of field results. PROFESSOR MOORE AND MR. DRAKE

183-214A (E23A). CULTURAL GEOGRAPHY I. (3 Credits; 2 hours and conference; *Prerequisite:* A first year course in Geography or Earth Science or E22D.) Relationships between environment, technology and society: the concept of a man-environment (or ecological) system. Identification of the principal stages and processes of cultural evolution. PROFESSOR WADDELL

183-215B (E24B). CULTURAL GEOGRAPHY II. (3 Credits; 2 hours and conference; *Prerequisite:* Geography 214A.) A detailed consideration of the nature of the principal types of pre-industrial adaptations, and of the role of plants and animals in human ecological adjustments. PROFESSORS OLSON AND ———

183-216A (E25A). GEOGRAPHY OF LOCATION. (3 Credits; 2 hours and conference.) Introduction to the geographic organization of economies. Examination of the basic theoretical principles that explain the spatial organization of agriculture, industry and cities. PROFESSORS EWING AND GILMOUR

183-217B (E26B). INTRODUCTION TO URBAN GEOGRAPHY. (3 Credits; 3 hours; *Prerequisite:* An introductory geography course at the college level or equivalent.) The internal spatial structure of the city and related processes are analysed in terms of land uses, population density, social and economic characteristics of the population, travel patterns and household migration. Trends in urbanisation and urban growth in Quebec and Ontario are examined.
PROFESSORS EWING AND OLSON

183-271A. PHYSICAL GEOGRAPHY I. (3 Credits; 2 hours and conference/laboratory; *Prerequisite:* A course in physical geography or equivalent.) A systematic treatment of the geomorphology of areas of folding, faulting, intrusion and vulcanism and their response to weathering and erosion. PROFESSOR PARRY

183-272B. PHYSICAL GEOGRAPHY II. (3 Credits; 2 hours and conference/laboratory; *Prerequisite:* A course in physical geography or equivalent.) A systematic treatment of the geomorphology of areas dominated by gradational processes: glacial and periglacial, fluvial and mass-wasting, coastal and marine, aeolian and arid. PROFESSOR PARRY

183-300B. GEOGRAPHICAL ASPECTS OF CULTURAL ADAPTATION. (3 Credits; 2 hours and conference; *Prerequisite:* Geography 214A or permission of the instructor.) Study of the dynamic processes that structure the relationship between man, culture and environment. The role of energy and information for adaptive processes will be analysed within the context of urban and non-urban societies. Specific attention will focus on the ecological aspects of human nutrition and environmental health. PROFESSOR KEMP

183-301D. GEOGRAPHY OF CANADA. (6 Credits; 2 hours and conference; *Prerequisite:* Geography 214A or 216A. Geography E10A and Geography E12B and 203D will be accepted in the case of Science students continuing in Geography.) Evolution of Canadian economic regionalism. The Canadian growth experience and spatial economic structure. The geographic significance of agriculture, urbanism and industrialization, and their transformation of the primary landscape. Regional disparities and contemporary urban problems.
PROFESSOR GILMOUR

183-302D. ENVIRONMENT: ECOSYSTEMS AND MAN. (6 Credits; 3 hours; *Prerequisite:* Geography 203D or Biology E10D or permission of instructor. Field work is emphasized.) An ecological analysis of the physical and biotic components of the environment, with emphasis on the scientific, technological, institutional and other aspects of environmental degradation and restoration. Practical resource management in collaboration with local government and industry. PROFESSOR ZIMMERMANN

183-303D. THE SOVIET UNION AND EASTERN EUROPE. (6 Credits; *Prerequisite:* Geography 214A or 216A. Geography E10A, E12B and 203D will be accepted in the case of Science students continuing in Geography.) Position; general physical characteristics. The territorial development of Russia. Ethnic groups. Migration and settlement. Population distribution. Land use, agriculture, mining, and other industries including recent developments. Social significance of economic life. Urbanization. The administrative structure of the Soviet State and of Eastern European nations. PROFESSOR LLOYD

183-304A. HUMID TROPICAL ENVIRONMENT. (3 Credits; 2 hours and conference; *Prerequisite:* Geography 214A, Geography 203D is also recommended. Geography 304A will be offered every second year; Not given in 1973-74.) A consideration of the geographically significant cultural, physical and biological characteristics of the humid tropics. Major ecosystems of the region will be delimited and selected rain forest and savanna ecosystems will be analysed in depth. PROFESSOR HILLS

183-305A. THE GEOGRAPHY OF SOILS. (3 Credits; 2 hours and laboratory; *Prerequisite:* An introductory course in physical geography or geology or biology.) Discussion of main properties of soils; principles of soil formation and classification; major soil types of the world; soil survey techniques. PROFESSOR MOORE

183-306A. ADVANCED CARTOGRAPHY. (3 Credits; 1 hour and laboratory periods; *Prerequisite:* Geography 201A, or permission of instructor.) Analysis and interpretation of thematic and topographic maps. Their application to selected problems in physical and cultural geography, design and compilation of maps for geographic communication, map reproduction and computer mapping. PROFESSOR DRUMMOND

183-307B. SOILS AND LAND UTILIZATION. (3 Credits; 2 hours and conference/laboratory; *Prerequisite:* Geography 305A or permission of instructor.) Principles of land utilization and crop growth; case studies of the influence at soils on land use in selected environments.
PROFESSOR MOORE

183-308B. AIR PHOTO INTERPRETATION. (3 Credits; 1 hour and laboratory periods; *Prerequisite:* Geography 201A, or permission of instructor.) The principles of air photo interpretation and remote sensing of the environment, applications to geomorphology, land use and inventory of natural resources. Elementary photogrammetry and orthophoto-mapping.
PROFESSOR DRUMMOND

183-309B. GEOGRAPHY OF QUEBEC. (3 Credits; 2 hours and conference.) A geographical interpretation of selected social, economic and political problems of contemporary Quebec; ethnicity, demography, urbanization, regional disparities, economic marginality, with the purpose of segregating elements unique to Quebec from the more universal aspects that pervade them. PROFESSOR WADDELL AND STAFF

183-310A. GEOGRAPHY OF THE CARIBBEAN. (3 Credits; 2 hours and conference.) The nature, perception and management of Caribbean resources will be described and analysed from the point of view of historical factors, cultural diversity, and political organization. Models of economic development and attempts at regional organization will be considered. PROFESSOR HILLS AND STAFF

183-312B. THE GEOGRAPHY OF CHINA. (3 Credits; 2 hours and conference.) A general overview of the Chinese landscape. Special topics will focus on the distribution and growth of population, the remodelling of agricultural organization since 1949, changes in the industrial sector and spatial pattern of industry, and transportation networks. PROFESSOR VEILLEUX

183-314A. INTERMEDIATE URBAN GEOGRAPHY. (3 Credits; *Prerequisite:* Geography 216A or 217B or permission of instructor.) Theories explaining the size, spacing, social and economic features of towns. Simulation models of urban patterns. Models of spatial perception and interaction. PROFESSORS EWING AND MASSAM

183-315B. GEOGRAPHY OF RECREATION AND TOURISM. (3 Credits; *Prerequisite:* Geography 216A or permission of instructor.) Recreational behaviour with emphasis upon its geographical and spatial dimensions; recreational land use within different planning frameworks; the development of tourism and international travel systems with the view of assessing their effects as local, regional and national resource bases; travel industry entrepreneurship and structural/geographic linkage characteristics in regional development situations particularly for developing countries. PROFESSOR LUNDGREN

183-316A. CONTEMPORARY POLITICAL GEOGRAPHY. (3 Credits; 2 hours and conference; *Prerequisite:* Geography 202B or permission of instructor.) The study of spatial dimensions of political activities at the local, national and international level. PROFESSOR LOGAN

183-317B. THEMES IN TROPICAL REGIONAL GEOGRAPHY. (3 Credits; *Prerequisite:* Geography 214A.) *OCEANIA.* Several cultural geographic themes are considered in the context of Oceania: nature of responses to population pressure on resources, regional trading (ancient and modern), cultural constraints in the modernization of the traditional economies, rural-urban migration and urbanization. PROFESSOR WADDELL

NOTE: In subsequent years, other parts of the tropical world, including Tropical Africa may be offered.

183-318B. SPATIAL ANALYSIS OF MANUFACTURING. (3 Credits; 2 hours and conference; *Prerequisites:* Geography 216A and 217B; Geography 351A is also recommended; or by permission of instructor.) Spatial aspects of manufacturing industry. Taxonomic and measurement problems. Models of industrial location (inter- and intra-urban). Dynamics of spatial redistribution in relation to different levels of economy. The changing role of the factors of location. Methods of industrial distribution analysis. Studying the location decision. The behavioural versus the deterministic approach. PROFESSOR GILMOUR

183-319A. GEOGRAPHY OF ECONOMIC DEVELOPMENT. (3 Credits; *Prerequisite:* Geography 214A, 216A or 217B or by permission of instructor.) Analysis of the role of geography in the field of economic development; growth and development theories on different geographic scale levels; behaviour of selected economic activities in change process; regional economic development in relation to changing resource utilization; development planning. PROFESSOR LUNDGREN

183-321A. CLIMATIC ENVIRONMENTS. (3 Credits; *Prerequisite:* Geography E12B or 203D or Meteorology 210D or instructor's permission.) Scope of climatology, physical, dynamic and applied. The earth/atmosphere system, radiation and energy balances, governing meteorological processes. Movement and circulation of the atmosphere on a local and global scale. Resulting weather systems. DR. SZEICZ

183-322A. INTRODUCTION TO HYDROLOGY. (3 Credits; 2 hours and laboratory/conference; *Prerequisites:* Geography E10A and E12B or equivalent.) Quantitative, experimental study of the principles governing the movement of water at or near the earth's surface. MR. DRAKE

183-323B. SURFACE WATER HYDROLOGY. (3 Credits; *Prerequisite:* Geography 322A.) Spatial and temporal variations of the quantity and quality of surface waters as they are affected by geology, geomorphology, and land use. MR. DRAKE

183-324B. BIOCLIMATOLOGY. (3 Credits; *Prerequisite:* Geography E12B or 203D or Meteorology 210D or permission of instructor.) Climatic classification and weather systems. Influence of climate on plants, animals, and man. Water balance and its application in agriculture and water resource analysis. Principles of physiological climatology; calculation of wind chill,

effective temperature, and comfort-indices. Application of physiological climatology to human affairs, e.g. health, urban planning, and house design. DR. SZEICZ

183-331A. URBAN SOCIAL GEOGRAPHY. (3 credits; *Prerequisite:* Geography 214A or 216A or permission of instructor.) An historical and contemporary view of social problems in cities with particular reference to housing, employment, transportation and environmental quality. Field work in Montreal will form part of the course. PROFESSOR OLSON

183-336D. INDIGENOUS PEOPLES OF NORTH AMERICA: A HUMAN GEOGRAPHIC AND CULTURAL APPROACH. (6 Credits; 2 hours and conference; *Prerequisite:* Geography 214A or permission of instructor.) A survey of North American Indian and Eskimo cultures from ethnographic and ecological perspectives. The areal emphasis of the course will be upon Canadian Eskimo and Indian populations. The evolutionary approach will be utilized in the analysis of data pertaining to ecological adaptation and sociocultural change among selected groups. PROFESSORS KEMP AND SINDELL

183-346B. GEOGRAPHICAL BACKGROUND OF INTERNATIONAL RELATIONS. (3 credits; 2 hours plus conference; *Prerequisite:* A university level geography course and permission of the instructor.) The principles and practice of poiltical geography at the world and international level. Geographical factors and relationships influencing political events and decision making. PROFESSOR LLOYD

183-350B. GEOGRAPHY IN THE FIELD. (3 Credits; 2 lectures and conference and prescribed field work; *Prerequisite:* for second year honours, joint honours, majors in geography and others by permission of instructor.) An introduction to field techniques, measurements and data collection. Problem formulating, research design and the presentation of written and graphic material will be discussed. Research projects will focus on field problems and associated techniques that best fit the students' specialization within geography. THE STAFF

183-351A. GEOGRAPHICAL ANALYSIS AND QUANTITATIVE METHODS. (3 Credits; 3 hours; *Prerequisite:* Geography 202B or permission of instructor.) Basic conditional probability theory, urn schemes, occupancy problems, theoretical probability distributions, sampling theory and univariate statistical inference, multiple regression and one- and two-way analysis of variance. PROFESSORS EWING AND HOLLAND

183-402D. REGIONAL GEOGRAPHY OF NORTHERN LANDS. (6 Credits; *Prerequisites:* an introductory geography course and one course in regional geography or permission of instructor.) An introduction to the study of lands north of the areas of continuous settlement, including parts of Canada, Greenland, Iceland, Scandinavia, U.S.S.R., Alaska and related seas. A comparative description of their physical characteristics, human and economic resources, territorial sovereignty and future development. PROFESSOR LLOYD

183-411A. GEOGRAPHY OF INTERNATIONAL TRADE. (3 Credits; *Prerequisite:* Geography 216A or permission of instructor; Geography 411A will be offered every second year.) Geographic patterns of international trade, regional resource base and trade generation. Trade systems. The foreland-hinterland concept, commodity innovation, geographic diffusion and range. PROFESSOR LUNDGREN

183-412B. ADVANCED URBAN GEOGRAPHY. (3 Credits; 2 hours and conference; *Prerequisites:* Geography 216A and 351A or 352B or permission of instructor.) Location problems within and among cities for the public and private sectors. Consumer spatial behaviour, input-output analysis, decentralization, scheduling, inter-municipal cooperation. PROFESSORS MASSAM AND EWING

183-414A. TROPICAL AGRICULTURAL SYSTEMS. (3 Credits; 2 hours and conference; *Prerequisites:* Geography 214A and preferably 215B or by permission of instructor; Not given in 1973-74.) Three major tropical agricultural systems — shifting, permanent and irrigation — are analysed in ecological terms. Attention is focused particularly on the dynamics of such systems — of changes effected in response to demographic growth and economic diversification particularly — using primarily southeast Asian and Melanesian materials. PROFESSOR WADDELL

183-422A. MICROCLIMATOLOGY. I. URBAN CLIMATIC ENVIRONMENTS. (3 Credits; *Prerequisite:* Geography E12B or 203D or Meteorology 210D or permission of instructor. Not given in 1973-74.) An examination of factors affecting urban climates. Solar radiation in city areas and the effect of the city on energy exchanges. City air pollution and weather elements. Heat load on buildings. Comparative studies of wind chill and air comfort index in downtown and suburban city areas. PROFESSOR WILSON

183-423B. MICROCLIMATOLOGY. II. AGRO- AND HYDRO-CLIMATOLOGY. (3 Credits; *Prerequisite:* Geography 321A or Meteorology 310D.) A detailed examination of the process of evapotranspiration and the transfers of heat, carbon dioxide, and momentum near the earth's surface. Methods of measurement based on energy balance, water balance, and turbulent transport theory. Models of potential and actual evapotranspiration, and their use in soil moisture and crop yield predictions. Snow melt models. PROFESSOR WILSON

183-451D. BIOGEOGRAPHY. (6 Credits; *Prerequisite:* Geography 203D or 302D or permission of instructor for students in continuation or honours biological sciences.) Study of life according to its environmental and spatial relationships with emphasis on plants. The interaction, geographical distribution, domestication and economic utility of biota in the regional setting. PROFESSORS ZIMMERMANN AND HOLLAND

183-471D. TOPICS IN ADVANCED PHYSICAL GEOGRAPHY. (6 Credits; 1 hour lecture, seminar and laboratory; *Prerequisites:* Previous courses in Mathematics and Geology or Physical Geography or permission of instructor.) Study of major geomorphic processes and effects on the landscape. Special reference to the mechanics of debris transport by mass movement, streams and wind. PROFESSOR CARSON

183-481A. EVOLUTION OF MODERN GEOGRAPHY. (3 Credits; For Honours and Joint Honours and Majors students in Geography only.) A review of the historical development of geography as a separate discipline and a systematic analysis of the main branches of modern geography with emphasis on the theoretical and methodological developments during the last fifty years. PROFESSOR ————

183-482D. RESEARCH AND READING COURSE IN HUMAN GEOGRAPHY. (6 Credits; For final year B.A. Honours or Joint Honours in Geography only.) An advanced course designed to familiarize the student with contemporary research and writing in the various aspects of human geography. An essay or undergraduate thesis will be required to complete the requirements of this course. THE STAFF

183-484D. RESEARCH AND READING COURSE IN PHYSICAL GEOGRAPHY. (6 Credits; For final year B.Sc. Honours or Joint Honours in Geography only.) An advanced course designed to familiarize the student with contemporary research and writing in the various aspects of physical geography. An essay or undergraduate thesis will be required to complete the requirements of the course. THE STAFF

GEOLOGICAL SCIENCES (186)

Frank Dawson Adams Building, Departmental Office Room 238, Telephone 392-5730

Geology is a study of the planet Earth — its composition, structure, behaviour, and history.

Although geologists must have a basic training in mathematics, physics, and chemistry, geology is a science in itself dealing with events which took place millions of years ago and involved masses of continental dimensions. Most geologists start their research in the field, collecting samples, measuring rocks, and determining their properties with portable instruments. In the laboratory they analyse these specimens and interpret their measurements, using the sophisticated tools of modern science. The forces that molded a mountain chain, built a volcano, or drifted the continents apart cannot be duplicated by man, but the geologist can understand these events by analogy with experimental models and laboratory investigations of the compositions and strengths of the rocks of the crust of the earth. Like most sciences geology has its theoretical and practical aspects; geologists are concerned with the origin of our planet and solar system, the evolution of its surface, the nature of its interior, and the atomic structure of its minerals, as well as with the discovery of mineral deposits, the location of dam sites, and the prediction of earthquakes.

Some geologists specialize in the application of physics to understanding the earth's interior (geophysicists), some in investigating the composition of the earth (geochemists), still others in finding metals, oil and coal (economic geologists). Some study the rocks under the sea (marine geologists), some the history of the earth as revealed in its sedimentary rocks and fossils (stratigraphers and paleontologists), and still others study its land-forms and surface materials (geomorphologists).

Entrance to the Major and Honours programs is through the Physical Sciences profile of the Quebec Collegiate curriculum or its equivalent (see page 45). Although students intending to enter these programs are urged to take geology courses available in their academic preparation for coming to McGill, such courses are not essential to entrance to a Geology program. Students at McGill may study geology as part of a Faculty program, in the Major program, or in the Honours programs. The Honours program in Geological Sciences is designed to prepare the student for graduate work and for a career as a professional geologist. It includes electives in the upper years

so that students can follow an interest in one branch of the science. Students interested in geophysics should enrol in the Honours program in Solid Earth Geophysics.

Geologists are employed by companies exploring for minerals and fuels, by government agencies such as the Ministère des Richesses Naturelles and the Geological Survey of Canada, in research laboratories and in universities. They work in cities and in Arctic wastelands, in the laboratory and in the office, in the deserts and in the jungles of developing countries. Many geologists are now employed in government and industrial laboratories concerned with the exploration of the solar system. Canada, a country dependent on vast natural resources, requires the geologist's skills for the development of the economy. A world facing crises in the supply of energy-giving fuels and metals will depend increasingly on the geologist for guidance in finding new supplies. Mankind facing progressive deterioration of his environment by its own wastes requires the expertise of the earth scientist to maintain the quality of life. When man ventures to the other planets of the solar system, he must take with him a fuller understanding of the workings of his home, the earth.

The Honours and Major programs in Geology include the same "core" courses. Students enrolling in the Honours program must have, and maintain a grade point average of 2.8 or second class standing and their electives must be approved by departmental advisers.

Program Information

FACULTY PROGRAMS

Faculty programs administered in this department include Geomorphology, Marine Geology, and Palaeobiology; for details, see page 169. Students interested in these interdisciplinary fields should consult the departmental office to obtain an adviser.

MAJOR IN GEOLOGICAL SCIENCES

Students must inquire at Room 238, Frank Dawson Adams Building, telephone 392-5730 to be assigned to an adviser.

The following is a typical sequence of courses.

U1: Geology 186-210A, -211A, -230D;
Chemistry 180-213A, B;
Electives to make 30 credits. Students who have taken no general course in geology should elect Geology 186-201A.
Geology 186-331F (Field School) at the close of the session.

U1 or U2: Geology 186-242A, 233B;

U2: Geology 186-213B, -220B, -303D, -310D, -312A, -347B;
Electives to make 30 credits.

U3: Geology 186-323A, -343D; -345B;
Electives to make 30 credits.

HONOURS IN GEOLOGICAL SCIENCES

The core courses are the same as those specified for the major program but students must have above a 2.8 GPA or its equivalent to start the program and maintain such standing throughout. Eighteen of the elective credits must be taken with departmental approval.

A typical sequence would be:

U1: Geology 186-210A, -211A, -230D, -233B, -242A. Students who have taken no general course in geology should elect 186-201A. Chemistry 186-213A, B, approved electives and other courses to make 30 credits.
Geology 186-331F at the close of the session.

U2: Geology 186-213B, -220B, -303D, -310D, -312A, -347B, approved electives and other courses to make 30 credits.

U3: Geology 186-323A, -343D, -345B, approved electives and other courses to make 30 credits.

Special arrangements may be made so that students in the Honours course who wish to specialize in Geochemistry, Geophysics, or other interdisciplinary areas, may substitute other science courses in this program.

HONOURS IN SOLID EARTH GEOPHYSICS

U1: Geology 186-210A, -230D;
Physics 198-231A, B, -232A, B;
Chemistry 180-213A or Physics 198-233A;
Mathematics 189-222A, B; -223A, B or -245A, B;
Electives to make 10 credits;
Geology 186-331F (Field School) at the close of the session.

U2: Geology 186-303D, -310D, -347B, -220B;
Mathematics 189-314A, B, -315A, B; Physics, 3 credits;
Electives to make 30 credits.

U3: Geology 186-443D;
Mathematics 189-319B;
Mining 307- (9 credits from the 15 credits offered in Exploration Geophysics);
Electives to make 30 credits.

Crystallography

Most solids, from the minerals of the earth and the moon to the proteins and other macromolecular biological materials, have a structure that is characterized by a regular triperiodic arrangement of atoms and molecules; they are crystalline. Crystallography concerns itself with the determination of these interatomic arrangements and their imperfections as well as with the study of the resulting chemical and physical properties of crystalline matter.

Crystallographers find their problems in fields as diverse as mineralogy, crystal physics, molecular biology, solid state chemistry, materials science, group theory, etc. The student's preparation should therefore be as sound and broad as possible in the fundamentals of science. In the Honours and Major programs, which are administered by the Department of Geological Sciences, a student takes more chemistry than the physics student, and more physics and mathematics than the chemistry student. In addition, the student at the undergraduate level will be taught morphological and structural crystallography, symmetry, crystal chemistry, the techniques of X-ray diffraction, and optical crystallography.

Students successfully completing the Crystallography program may proceed to graduate studies in crystallography, where they may specialize in the physical, the chemical, or the biological aspects of the subject. This training will prepare crystallographers for careers in basic research and teaching or in industry.

MAJOR IN CRYSTALLOGRAPHY

First year: Geology 186-210A and -211A; Chemistry 180-213A or -212B; Mathematics 189-222B, -223A; Physics 198-219A and -251A or -231A, B. 9 additional credits

Second year: Geology 186-213B; Mathematics 189-314B; Chemistry 180-281A; Physics 198-346D; Computing Science 308-200A. 12 additional credits

Third year: Geology 186-493D; Mathematics 189-315A; Physics 198-434B, -438B; Chemistry 180-381B. 12 additional credits

HONOURS IN CRYSTALLOGRAPHY

Honours students will take the same courses required for Major students and will be given additional course requirements after consultation with their adviser. They must maintain a 2.8 minimum GPA.

Course Descriptions

Courses available to College Equivalent Students include the following: 186-E12A (-201A), -E20A (-210A), E23B (-233B), -E25B (-243B).

The following courses are without prerequisite and could be taken by students in the Faculty of Arts: 186-201A, -233B, and -243B. Other courses assume as a prerequisite completion of the courses required in the Physical Sciences option of the CEGEP curriculum. (See page 45).

186-201A (E12A). INTRODUCTION TO GEOLOGY. (3 Credits; 3 lectures; 1 laboratory.) Earth's place in the universe, moon and planets, minerals and rocks, internal structure of the earth, volcanism and earthquakes, evolution of landscapes, mountains and continental drift.
PROFESSORS ELSON AND STEARN

186-210A (E20A). INTRODUCTION TO MINERALOGY. (3 Credits; 2 hours lecture, 3 hours laboratory; Full day field trip, 1st Tues. after Thanksgiving.) Mineralogy of the principal ore and rock-forming minerals.
PROFESSOR STEVENSON

186-211A. CRYSTALLOGRAPHY. (3 Credits; 2 hours lectures, 3 hours laboratory.) Lattices, crystal systems, point groups, space groups, crystal morphology (stereographic projection, Wulff net), twinning, X-ray diffraction applied to powders and single crystals (rotation, Weissenberg precession), Fourier summations (electron density and Patterson), approaches to crystal-structure determination.
PROFESSOR DONNAY

186-213B. CRYSTAL CHEMISTRY. (3 Credits; 2 hours lectures; *Prerequisite:* Geology 211A.) Discussion of crystal structures of important mineral groups, especially oxides, sulphides and silicates. Solid solution. Relation of structure to morphology and to chemical and physical properties of crystalline matter.
PROFESSOR DONNAY

186-220B. ELEMENTARY EARTH PHYSICS. (3 Credits; 3 hours lectures, one of which may be replaced by a conference.) Physical properties of the earth and the processes associated with its existence as inferred from astronomy, geodesy, seismology, geology, terrestrial magnetic and thermal effects, geochemistry, etc. Critical evaluation of hypotheses explaining above.
PROFESSOR SAULL

186-230D. ANALYSIS OF GEOLOGICAL DATA. (6 Credits; 3 hours lectures, computer laboratory and problems.) Statistical analysis of geological data, design of experiments, computer programming applied to geological problems.
PROFESSOR DOIG

186-233B (E23B). HISTORICAL GEOLOGY AND STRATIGRAPHIC PALEONTOLOGY. (3 Credits; 2 lectures, 2 hours laboratory.) Relative and absolute time scale; biostratigraphy, paleontological correlation. Periods of earth history; evolution of oceans and continents; Paleogeography and paleoclimates. Major steps in evolution of life. Geologic history of sea-water and atmosphere.
PROFESSOR HESSE

186-242A. GEOMORPHOLOGY. (3 Credits; 2 lectures and 1 laboratory period; one day field work in October.) Weathering, mass wasting, erosional and depositional landforms produced by surface processes except glaciation (see GEOLOGY 431B); relationship of topography to lithology and structure.
PROFESSOR ELSON

186-243B (E25B). ENVIRONMENTAL GEOLOGY. (3 Credits; 2 hours lectures, 1 conference.) Introduction to the relationship of geological factors to the human environment; optimum land and mineral use, natural hazards, ground water, engineering and urban geology.
PROFESSOR EAKINS

186-303D (E24D). STRUCTURAL GEOLOGY. (6 Credits; 2 lectures and 3 hours laboratory.) Aims of structural geology, stress and strain, mechanical properties of rocks, elastic behaviour, brittle and ductile deformation, fabric analysis of deformed rocks, time relationships between deformation and metamorphism. Geotectonic theories.
PROFESSOR HELMSTAEDT

186-310D. INTRODUCTORY PETROLOGY. (6 Credits; 2 lectures and 3 hours laboratory; *Prerequisite:* 186-210A.) Integrated survey of igneous, sedimentary, and metamorphic rocks and processes leading to their formation. Emphasis in the laboratory on hand specimen description and classification, supplemented by thin sections.
PROFESSORS HESSE, MARTIN AND MOUNTJOY

186-312A. OPTICAL MINERALOGY. (3 Credits; 2 hours lectures and 3 hours laboratory; *Prerequisite:* 186-210A.) Optical properties of microscopy of non-opaque minerals. Minerals in oil immersion mounts and in thin section are studied in the laboratory.
PROFESSOR STEVENSON

186-323A. IGNEOUS PETROLOGY. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* Geology 347B, 312A.) Physical properties, nucleation, crystallization, differentiation and emplacement of magmas. Integrated studies on various rock suites, granites, syenites, quartz monzonite, etc.
PROFESSOR MARTIN

186-331F. FIELD GEOLOGY. (6 Credits; Three-week field school in May.) Geological mapping of selected areas, including preparation of maps, sections, and reports from field notes, aerial photographs and other data.
PROFESSOR HELMSTAEDT

186-343D. SEDIMENTARY ROCKS AND STRATIGRAPHY. (6 Credits; 2 lectures and 1 laboratory period; 2 full days of field work during October; *Prerequisites:* Geology 230D, 310D.) Physical processes of sedimentation. Sedimentary structures. Modern and ancient sedimentary environments. Diagenesis and geochemistry. Sedimentary mineral deposits. Facies associations. Basin analysis. Stratigraphic correlation.
PROFESSORS HESSE AND MOUNTJOY

186-344B. ORE MINERALS. (3 Credits; 2 lectures, 3 hours laboratory; *Prerequisite:* Geology 210A.) Microscopy of ore minerals, including identification, interpretation of textures, paragenesis and classification.
PROFESSOR STEVENSON

186-345B. METAMORPHIC PETROLOGY. (3 Credits; *Prerequisites:* Geology 301A, 302B, 347B.) The origin, classification and petrological significance of metamorphic rocks, from the point of view of theory, experiment and field observations. PROFESSOR HELMSTAEDT

186-347B. GEOCHEMISTRY OF HIGH TEMPERATURE PROCESSES. (3 Credits; 3 hours lectures; *Prerequisites:* Geology 210A, 211A, 213B, Chemistry 213A or B.) Fundamentals of phase equilibria, chemographic methods in petrology, open and closed natural systems, partition of elements among mineral phases, distribution patterns of specific elements. PROFESSOR MARTIN

186-348A. TOPICS IN GEOCHEMISTRY. (3 Credits; 3 hours lectures; *Prerequisite:* Geology 347B.) The geochemistry of aqueous, weathering, organic sedimentary and ore-forming processes; isotope geochemistry. STAFF

186-430B. GEOLOGY OF ENERGY SOURCES. (3 Credits; 2 lectures and 2 hours laboratory or seminar; *Prerequisite:* Geology 186-343D; Not given in 1973-74.) Properties, origin, migration and occurrence of petroleum and natural gas. Canadian oil fields. Structural and stratigraphic reservoirs and their characteristics. Oil shales, coal, peat, radioactive minerals and solar energy sources. PROFESSOR MOUNTJOY

186-431B. GLACIOLOGY AND PLEISTOCENE GEOLOGY. (3 Credits; 2 hours lectures and 1 laboratory or lecture period; *Prerequisite:* Geology 186-242A or permission of the instructor.) Introductory glaciology and glacial geology. The geological record of the Quaternary Era. PROFESSOR ELSON

186-434D. INVERTEBRATE PALEONTOLOGY. (6 Credits; 2 lectures, 1 laboratory period, one day's field work in October; *Prerequisite:* 186-233B or appropriate zoological background.) Nature of the fossil record, paleoecology, phylogeny, evolutionary concepts, problems of classification and biostratigraphy. PROFESSOR STEARN

186-441D. MINERAL DEPOSITS. (6 Credits; 2 lectures and 1 laboratory period; *Prerequisites:* 186-310D, 186-347B, or permission of instructor.) Nature, origin, mode of occurrence, and classification of deposits of metallic and of important non-metallic minerals; typical occurrences; geographical distribution. PROFESSOR MacLEAN

186-442A. GEOPHYSICAL EXPLORATION. (3 Credits; 2 lectures and 2 hours laboratory.) Survey course covering applications of seismic, gravimetric, magnetic and electrical techniques in exploring for oil and minerals. Laboratory work involves experiments illustrating basic principles of the various techniques. PROFESSOR TELFORD

186-443D. SOLID EARTH GEOPHYSICS. (6 Credits; 3 hours lectures; *Prerequisite:* 186-220B.) A general coverage of solid earth geophysics including gravity, seismology, heat flow. PROFESSORS SAULL, KU, DOIG, AND TELFORD

186-446A. ENGINEERING GEOLOGY. (3 Credits; 2 lectures and 2 hours laboratory or lecture period; *Prerequisite:* Permission of instructor.) Significance of geologic factors in foundation engineering and effects of man's activities in the geologic environment. Construction materials, geological problems connected with excavations, tunnels, dams and other construction. PROFESSOR GRICE

186-448A. APPLIED GEOCHEMISTRY. (3 Credits; 2 lectures and 1 laboratory period; *Prerequisites:* Geology 186-347B, 348A, or permission of instructor.) Principles of geochemical prospecting and pertinent aspects of the geochemical behaviour of elements are studied. A field trip and laboratory work provide practical experience. PROFESSOR WEBBER

186-449B. GROUNDWATER GEOLOGY. (3 Credits; 2 lectures and 2 hours laboratory or lecture period; *Prerequisite:* Permission of instructor.) PROFESSOR GRICE

186-450B. GEOLOGY OF NORTH AMERICA. (3 Credits; 2 hours lectures, 3 hours laboratory; *Prerequisites:* 186-233B, 186-310D.) Systematic consideration of the geology of the various tectonic provinces of the North American continent with emphasis on structure, stratigraphy and resources. PROFESSOR MOUNTJOY AND STAFF

186-480D. GEOLOGICAL RESEARCH PROJECT. (6 Credits; *Prerequisite:* for Honours students in 3rd year.) Under the supervision of one of the members of the staff the student will undertake an investigation and prepare the results in the form of a research report. STAFF

186-492A. PHOTOGEOLOGY. (3 Credits; 3 hours laboratory and problems; *Prerequisite:* Permission of instructor.) Interpretation of surface deposits and bedrock lithology and structure from air photographs; elementary photogrammetry. PROFESSOR ELSON

186-493D. CRYSTAL-STRUCTURE DETERMINATION. (6 Credits; 6 hours laboratory; *Prerequisite:* Geology 186-211A.) Techniques of structure determination applied to a research problem. PROFESSOR DONNAY

186-605D. MINERAL EXPLORATION AND MINING GEOLOGY. (6 Credits; 2 lectures and 2 hours laboratory; *Prerequisite:* Permission of instructor.) Methods of searching for mineral deposits; modern exploration programs; development of mineral deposits, evaluation of mineral deposits. PROFESSOR EAKINS

395-697B. MARINE GEOLOGY AND GEOCHEMISTRY. (3 Credits; 3 lectures; *Prerequisites:* Geology 343D, 347B, 348A.) An introduction with emphasis on deep sea studies. Geophysical nature and morphology of the ocean basins. Geochemistry of pelagic deposits in relation to sea water composition. Deep sea stratigraphy and methods of correlation; the sedimentary record. PROFESSOR D'ANGLEJAN

The following courses are described in the *Announcement of the Faculty of Engineering:* Geological Sciences 186-221A, -232A, -441B.

MATHEMATICS (189)

Burnside Hall, Room 1005, Telephone 392-5369.

Early mathematics consisted for the most part of empirical rules for performing operations on concrete objects by means of numerical processes. From this, mathematics has evolved to a discipline which is mainly characterized by its method of proof, its concern for a progressive broadening of its concepts, and by the search for mathematical entities and operations that represent aspects of reality. It is a subject which is pursued by many for its own sake, and regarded as part of the mainstream of human culture. Mathematics pervades modern society with an impact which, already immense, is rapidly growing.

The two principal divisions of mathematics are pure mathematics and applied mathematics. The pure mathematician is interested in abstract mathematical structures and in mathematics as an intellectual enterprise. He may even view his subject as an art. He is not primarily concerned with its utilitarian aspects or with the current needs of science and technology, although many problems in pure mathematics have developed from the sciences.

The applied mathematician is more interested in how he can use his mathematics to study some aspects of the world around him. He is engaged in the creation, study and application of advanced mathematical methods relevant to scientific problems. Statistical science and methodology today is concerned with phenomena in which there is a background of uncertainty arising from inherent variability, and the investigator is obliged to arrive at decisions from limited contingent data generated by such phenomena. A key tool in statistics is the calculus of probability.

Some of the fields in which pure mathematicians work are algebra, analysis, geometry, topology, number theory and foundations. Applied Mathematics which once referred to the application of mathematics to such disciplines as mechanics and fluid dynamics, has currently assumed a much broader meaning and embraces such diverse fields as communication theory, theory of optimization, theory of games and numerical analysis.

Mathematics offers many vocational possibilities. Such fields as teaching, computing, applied statistics and actuarial science offer opportunities for B.Sc. graduates. Opportunities to do original research in pure and applied mathematics are available in universities and similar institutions. Employment is to be found in financially or technologically oriented business firms.

The Department of Mathematics through its various programs attempts to provide courses to suit the diverse interests and attitudes within mathematics.

The Honours Program in Mathematics demands of the student a certain talent for abstraction in addition to a high level of competence in the use of mathematical tools. This program is intended for students who plan to work in an area where mathematical innovations may be needed. It is almost essential for students contemplating a career in mathematical research.

The Major Program involves the same subjects as the Honours Program but is less demanding in terms of abstraction. It is designed primarily for students who will need mathematical tools in their work but whose creative activity will involve applications of mathematics to other areas, but not to mathematics itself. Within the framework of the mathematics major, various combinations of courses are suggested to meet the needs of different students. These include course suggestions for secondary school

teachers, careers in management, and for careers in industry, government or actuarial sciences.

It is possible for a Major student to include a number of Honours courses in his program. This will be an advantage for those students who plan to use their mathematics in graduate studies.

Students interested in a less intensive mathematics program linked to other disciplines are advised to consider the available Faculty Programs.

In planning their programs students are advised to seriously consider developing some depth in another discipline — preferably one for which mathematics has some relevance and use. Mathematics has always been closely linked to areas such as physics and engineering but has recently come to play an increasingly important role in fields such as biology, linguistics, management and psychology.

Faculty Programs

The following programs linking mathematics and other disciplines are available. With careful selection of courses in U1, it is possible to transfer to a Major program in Mathematics in U2. Except where otherwise noted these faculty programs lead to a B.Sc. degree. See details on page 169.

Major Program

Programs of study for students entering U1 in 1973-74.

The compulsory courses are 189-201A, B, 189-202A, B, 189-221A, B, 189-222A, B, 189-245A, B.

Advisers will approve a program of which 54 credits will be in Mathematics (excluding 201A, B, 202A, B, 221A, B) or allied courses including at least 36 credits from the following: 189-217A, 189-218B, 189-242A, 189-243B, 189-246A, B, 189-314A, B, 189-315A, B, 189-316B, 189-317A, 189-318A, 189-319B 189-323A, B, 189-324A, B, 189-327B, 189-328B, 189-333A, 189-346B, 189-348A, 189-349B, 189-360B, 189-369D, 189-410D, 189-416A, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B.

GUIDELINES FOR SELECTION OF COURSES IN THE MAJOR PROGRAM

a) Students are advised to include the following courses in their program: 189-246A, B, 189-314A, B, 189-315A, B, 189-317A, 189-323A, B, 189-324A, B, 308-200A, B.

b) Students planning to pursue graduate studies are advised to include 189-242A, 189-243B and 189-333A in their program, and to consider substituting one or more Honours courses for the corresponding courses in the Major program.

c) Students considering a career in teaching are advised to include in their program the following courses: 189-217A, 189-218B, 189-242A, 189-318A, 189-328B, 189-348B, 189-349B.

d) Students interested in applied mathematics or statistics are advised to include in their program the following courses: 189,217A, 189-218B, 189-316B, 189-319B. Depending on their interests, they should in addition take some or all of the following courses: 189-327B, 189-328B, 189-410D, 189-416A, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B, 189-486B.

e) Students interested in computer science are advised to register in the following courses: 189-318A, 189-327B, 189-328B, 189-417A, 308-210A, B, 308-300A, B; they should choose additional courses from 189-319B, 189-410D, 189-416A, 189-423A, 189-424B, 189-425A, 189-447B, 308-640D*, 308-610A*, 308-699D*.

f) Students interested in careers in actuarial work in industry or government are advised to select courses from the following list: 189-319B, 189-327B, 189-328B, 189-369D, 189-410D, 189-416A, 189-417A, 189-423A, 189-424B, 189-425A, 189-447B, 189-486B, 308-210A, B.

*These courses require special permission from the instructors.

The student's attention is called to the fact that a B.Com. degree with a Major in Mathematics is available from the Faculty of Management. In addition the Faculty of Music offers a degree B.Mus. (Honours in Theory with Mathematics Option).

Honours Program

The minimum requirement for entry into the Honours Program is that the student has completed with high standing the following courses (or their equivalents): 189-201A, B, 189-202A, B, 189-221A, B. He should preferably also have taken 189-222A, B (or equivalent).

REQUIREMENTS FOR HONOURS IN MATHEMATICS

For an Honours Degree in Mathematics the student must obtain 90 course credits; at least 60 of these should correspond to Honours courses (or their equivalent), not less than 45 to Honours courses in Mathematics. In addition to the latter, the student may count towards his 60 credit Honours requirement:

i) half of the courses he has taken from the Major Program in Mathematics (including Computer Science courses) for which no equivalent Honours course exists;

ii) (with the approval of the Department of Mathematics) certain courses in other departments which are at an Honours level, and are closely linked to Mathematics;

iii) (with the approval of the Department of Mathematics) half the courses he has taken in other departments, which while not necessarily explicitly mathematical in nature, are at an Honours level and broaden the student's scientific training. Students who transfer to Honours in Mathematics from other programs will have credits for previous courses assigned, as appropriate, by the Department.

The following courses are compulsory: 189-271D, 189-272D, 189-371D, 189-372D.

To remain in the Honours Program, and to be awarded the Honours Degree, the student must maintain a 2.8 Grade Point Average.

GUIDELINES FOR SELECTION OF COURSES IN THE HONOURS PROGRAM

a) The compulsory courses may be spread over the three years of study.

b) Students taking 189-271D and 189-272D simultaneously are advised to register also for 189-273D.

c) Students are advised to include in their program the following courses: 189-273D, 189-356A, 189-357B, 189-374D, 189-380D.

d) Students interested in Statistics should register for 189-456D and 189-487D in addition to 189-356A and 189-357B.

e) Students in Applied Mathematics should register for some or all of the courses 189-470A, 189-474A, 189-475B, 189-478A and 189-479B in addition to 189-374D. They are also advised to select courses in areas to which they can apply their mathematics.

Course Descriptions

NOTE: The Calculus sequence at McGill assumes satisfactory completion of a course in either Trigonometry or Functions. Students who have not taken such a course are advised to consult the Department of Mathematics about summer study.

189-201A, B. CALCULUS I. (3 Credits.) Analytic geometry of straight line and circle. Limits, continuity, derivative. Differentiation of elementary functions. Applications.
PROFESSOR SOLIN, MR. E. FOX AND STAFF

189-202A, B. CALCULUS II. (3 Credits; *Prerequisite:* 189-201A, B.) The definite integral. Techniques of antidifferentiation. Applications. PROFESSOR SOLIN, MR. E. FOX AND STAFF

189-203A. BASIC PRINCIPLES AND METHODOLOGY OF STATISTICS I. (3 Credits.) Typical examples of statistical data and the use of graphical means to summarize the data. Some basic distributions arising in the natural and behavioural sciences. The logical meaning of a test of significance with applications to single observations, sums, differences, and means. The analysis of categorical and frequency data. (This course is intended for students in all disciplines and is not open to students in Major Mathematics.) PROFESSOR RUBEN

189-204B. BASIC PRINCIPLES AND METHODOLOGY OF STATISTICS II. (3 Credits; *Prerequisite:* 189-203A or equivalent.) The concept of degrees of freedom and the analysis of variability. Planning of experiments. The interrelation of two variables. Polynomial and multiple regressions. The use of correlation coefficients as exploratory tools. Basic principles of estimation and the concepts of likelihood and information. (This course is intended for students in all disciplines and is not open to students in Major Mathematics.)
PROFESSOR RUBEN

189-205A. FINITE MATHEMATICS I. (3 Credits.) An introduction to probability, vectors and matrices with applications to the social sciences. PROFESSOR SCHMIDT

189-206B. FINITE MATHEMATICS II. (3 Credits; *Prerequisite:* 189-205A.) Topics in probability and statistics, linear programming and the theory of games. PROFESSOR SCHMIDT

189-217A. MODERN ALGEBRA I. (3 Credits.) Sets; relations and operations; the natural numbers; the integers; different number bases; Pythagorian triples; congruences and diophantine equations; the rational and real numbers; complex numbers and their representations; primitive roots and De Moivre's theorem. PROFESSOR ROWLINSON AND MRS. SCHWERDTFEGER

189-218B. MODERN ALGEBRA II. (3 Credits; *Prerequisite:* 189-217A or equivalent.) Groups; rings; integral domains; division rings; fields; polynomials; Boolean algebras. PROFESSOR ROWLINSON AND MRS. SCHWERDTFEGER

189-221A, B. ANALYTICAL GEOMETRY AND VECTORS. (3 Credits; *Prerequisite:* 189-202A, B.) Vectors, lines and planes, coordinate systems in three dimensions, inner products, quadric surfaces, vector-valued functions. Applications. PROFESSOR KAUFMAN AND STAFF

189-222A, B. CALCULUS III. (3 Credits; *Prerequisite:* 189-221A, B.) Infinite series. Length, curvature; partial differentiation, multiple integration and applications. PROFESSOR KAUFMAN AND STAFF

189-223A. LINEAR ALGEBRA. (3 Credits.) Algebra of matrices and determinants, systems of linear equations. Vector spaces, linear operators and their matrix representations, unitary vector spaces, orthogonality. Eigenvalues and eigenvectors, diagonalization of Hermitian matrices. Applications. (This course covers most of the topics in 189-245, -246. It is not open to students in Major Mathematics.) PROFESSOR MELAMED

189-231A, B. MATHEMATICS FOR BIOLOGISTS. (3 Credits; *Prerequisite:* 189-202A, B.) Introductory probability theory, vectors and matrices, differential and difference equations with applications to the biological sciences. PROFESSOR TURNER AND STAFF

189-232A, B. MATHEMATICAL METHODS IN BIOLOGY AND THE BEHAVIOURAL SCIENCES. (3 Credits; *Prerequisite:* 189-231A, B or equivalent.) Topics in probability and statistics, linear programming, and game theory with applications to the behavioural and biological sciences. PROFESSORS ANDERSON AND MELAMED

189-242A. REAL ANALYSIS. (3 Credits.) (189-252A renumbered.) Real numbers. Limits and continuity, sequences. Properties of continuous functions. Introduction to metric spaces. PROFESSOR ROSENTHALL

189-243B. REAL ANALYSIS II. (3 Credits; *Prerequisite:* 189-242A.) Continuity, uniform continuity and differentiability on the real line; fundamental theorems. Taylor's theorem and applications. Infinite series. PROFESSOR HERSCHORN

189-245A, B. LINEAR ALGEBRA I. (3 Credits.) Simultaneous linear equations and inequalities. Matrices. Linear dependence, rank and inverse. Trace and determinant. Partitioning into blocks. Quadratic forms, positive definite and semidefinite matrices. Orthogonal matrices. Characteristic roots and vectors, similarity of matrices. Applications to various disciplines in science and management, with computer orientations. PROFESSORS LABUTE, STYAN AND STAFF

189-246A, B. LINEAR ALGEBRA II. (3 Credits; *Prerequisite:* 189-245A, B.) Abstract vector spaces over the real and complex numbers. Linear operations, matrix representations. Vector and operator norms. Eigenvectors and eigenvalues, Jordan canonical form. Linear, quadratic and Hermitian forms. Inner product spaces, unitary and orthogonal transformations, the adjoint of an operator, self-adjoint and normal operators. Applications. PROFESSORS LABUTE, STYAN AND STAFF

(NOTE: There will be special sections of the two above courses (189-245, -246) in which class time is devoted to individual tutorials rather than to lectures. Special notes and detailed work assignments will be distributed. The special section will take the same examination as the other sections.)

189-247A. LINEAR ALGEBRA. (3 Credits.) Matrix algebra; elementary operations; rank and inverses; determinants and square matrices; numerical solutions of simultaneous linear equations; eigenvalues and eigenvectors; unitary transformations; similarity transformations; reduction to diagonal form, defective matrices; quadratic forms and the variational principle; norms and error estimates; abstract vector spaces and linear equations; isomorphisms; coordinates, change of basis and linear transformations. Inner product spaces, orthogonality. (This course is intended for Honours Physics students and others suitably qualified.) PROFESSOR COSTLEY

189-248A. ADVANCED CALCULUS I. (3 Credits; *Prerequisite:* 189-221A, B.) Partial derivatives; implicit functions; Jacobians; maxima and minima; Lagrange multipliers. Scalar and vector fields; orthogonal curvilinear coordinates. Improper integrals; multiple integrals; arc length, volume and surface area. Line integrals; Green's theorem; the divergence theorem; Stokes' theorem; irrotational and solenoidal fields; applications. PROFESSOR TAM

189-249B. ADVANCED CALCULUS II. (3 Credits; *Prerequisite:* 189-248A.) Functions of a complex variable; Cauchy-Riemann equations; Cauchy's theorem and consequences. Taylor and Laurent expansions. Residue calculus; evaluation of real integrals; integral representation of special functions; the complex inversion integral. Conformal mapping; Shwarz-Christoffel transformation; Poisson's integral formulas; applications. PROFESSOR TAM

189-271D. ALGEBRA I. BASIC ALGEBRAIC STRUCTURES. (8 Credits.) Groups, rings and fields; intensive linear algebra, including quadratic forms and the canonical forms of linear transformations; some elementary number theory (diophantine equations and congruences); polynomial rings. PROFESSOR SCHMIDT

189-272D. ANALYSIS I. (8 Credits; *Prerequisites:* 189-221A, B, 189-222A, B.) The real number system, metric properties of R^n, convergence, contiruity, elements of Lebesgue integration, multivariable calculus, inverse and implicit function theorems, modern and classical versions of Stokes' theorem. PROFESSOR BARR

189-273D. PROBLEM SEMINAR. (4 Credits; 2 hours conference; *Corequisites:* 189-271D, -272D.) The course is designed to complement Algebra I, and Analysis I courses. Problems in other areas may be selected to suit the class. PROFESSORS BARR AND SCHMIDT

189-314A, B. ADVANCED CALCULUS. (3 Credits; *Prerequisite:* 189-222A, B.) Constrained maxima and minima. Jacobians. Multiple integration. Line and surface integrals. Theorems of Green, Stokes and Gauss. Introduction to elliptic integrals. PROFESSOR LAWRUK

189-315A, B. DIFFERENTIAL EQUATIONS. (3 Credits; *Prerequisite:* 189-222A, B.) First order ordinary differential equations. Linear equations with constant coefficients, Laplace transform. Series solutions. PROFESSOR LAWRUK

189-316B. FUNCTIONS OF A COMPLEX VARIABLE. (3 Credits; *Prerequisite:* 189-314A, B.) Algebra of complex numbers. Cauchy-Riemann equations. Complex integral. Cauchy's theorem. Taylor and Laurent series. Residue theory and applications.
PROFESSORS BROWN AND MELAMED

189-317A. NUMERICAL ANALYSIS. (3 Credits; *Prerequisites:* 189-222A, B, 308-200D or equivalent.) Error analysis. Numerical solutions of equations. Numerical solution of differential equations. Programming knowledge is assumed. Some laboratory work needed.
PROFESSORS EVANS AND SCHMIDT

189-318A. MATHEMATICAL LOGIC. (3 Credits.) Propositional calculus, truth-tables, calculus as a Boolean algebra, completeness, first order predicate calculus, axiomatic theories, set theory.
PROFESSOR BUNGE

189-319B. DIFFERENTIAL EQUATIONS. (3 Credits; *Prerequisites:* 189-245A, B, -315A, B.) Systems of first order equations, non-linear differential equations and stability. Fourier series, partial differential equations, boundary value problems. PROFESSOR LAWRUK

189-323A, B. INTRODUCTION TO PROBABILITY THEORY AND RANDOM VARIABLES. (3 Credits; *Prerequisites:* 189-201A, B, -202A, B, or equivalent.) Sample space of an experiment, events. Conditional probability. Statistical independence. Bayes' theorem, with applications. Random variables, univariate distribution functions. The binomial, Poisson, hypergeometric, uniform, exponential and normal distributions. Mathematical expectation. The weak law of large numbers. The Poisson process, with applications. The central limit theorem. (This course is intended for students in science, engineering and related disciplines, who have had one year of calculus.) PROFESSORS KOUNIAS AND MATHAI

189-324A, B. INTRODUCTION TO STATISTICS. (3 Credits; *Prerequisite:* 189-323A, B or equivalent.) The notion of a random sample. Sampling distributions, with particular reference to those related to the normal: X^2, F and t. Point estimation. Hypothesis testing, the notion of power function. Likelihood-ratio tests. Contingency tables, goodness-of-fit and homogeneity tests. Regression and the method of least squares, analysis of variance, with applications. Some nonparametric procedures. PROFESSORS KOUNIAS AND MATHAI

189-325B. ORDINARY DIFFERENTIAL EQUATIONS. (3 Credits; *Prerequisite:* 189-222A, B.) First order differential equations; second order linear equations; series solution of second order equations; Fourier series; self-adjoint boundary value problems; more on Legendre polynomials and Bessel functions. (This course is intended for Honours Physics students and others suitably qualified.) PROFESSOR MASLOWE

189-327B. NUMERICAL ANALYSIS. (3 Credits; *Prerequisites:* 189-246A, B, -317A.) Numerical methods for solving systems of linear algebraic equations, matrix inversion and eigenvalue problems. Numerical solution of differential equations. PROFESSOR ZLOBEC

189-328B. COMPUTABILITY AND MATHEMATICAL LINGUISTICS. (3 Credits.) Propositional calculus, switching circuits, computability, recursive functions, Turing machines, automata, self-reproducing machines, formal and natural languages. Post canonical languages, phrase structure and transformational grammars. PROFESSOR BUNGE

189-329D. THEORY OF INTEREST AND LIFE INSURANCE. (6 Credits; *Prerequisites:* 189-201A, B, -202A, B.) Simple and compound interest, discount, annuities certain, sinking funds, bonds,

mortgage amortization, depreciation, calculation of life annuities, premiums and reserves on life insurance policies. PROFESSOR SOLIN

189-333A. ANALYSIS. (3 Credits; *Prerequisite:* 189-242A.) Riemann-Stieltjes integral; sequences and series of functions; metric spaces; connectedness; completeness and compactness; Weierstrass approximation theorem; Fourier series. PROFESSOR HERSCHORN

189-346B. NUMBER THEORY. (3 Credits.) Divisibility. Congruences. Quadratic reciprocity. Diophantine equations. Arithmetical functions. PROFESSOR ROSENTHALL

189-348A. TOPICS IN GEOMETRY. (3 Credits.) Isometry: symmetry and groups. Non-euclidean geometry. PROFESSOR MOSER

189-349B. TOPICS IN GEOMETRY. (3 Credits.) Convexity: isoperimetric and combinatorial-geometric problems. Rubber-sheet geometry: classification of surfaces, path problems, map-colour problems. PROFESSOR MOSER

189-356A. INTRODUCTION TO PROBABILITY. (3 Credits.) General foundations and applications. Combinatorial probability. The binomial, Poisson, hypergeometric distributions. Simple random walks. Continuous distribution functions. The uniform, exponential, normal distributions. Introduction to Markov processes. PROFESSOR SESHADRI

189-357B. INTRODUCTION TO STATISTICS. (3 Credits; *Prerequisite:* 189-356A or equivalent.) Data analysis. Measures of location and dispersion. Derived probability distributions. The t, chi-square, F-distributions. Estimation and hypothesis testing. Introduction to Bayesian and decision theory methods. Power of tests. The chi-square goodness of fit test. Introduction to regression analysis, and analysis of variance. PROFESSOR SESHADRI

189-360B. GROUPS AND THEIR REPRESENTATIONS. (3 Credits.) Elements of group theory. Symmetry groups. Unitary vector spaces, linear operators and their matrix representations, invariance of functions and operators, classification of eigenfunctions. Reducibility, Schur's lemmas, general orthogonality relations, character tables. Kronecker product and adjoint representations, Hermitian invariants, Clebsch-Gordon series. Characters of the symmetric group. PROFESSOR ROTH

189-369D. THEORY OF FINITE DIFERENCES AND LIFE CONTINGENCIES. (6 Credits; *Prerequisites:* 189-221A, B, 222A, B.) Finite differences, theory of interest and of single and multiple life functions. MR. GARDNER

189-371D. ALGEBRA II. (6 Credits; *Prerequisite:* 189-271D.) Commutative algebra (modules over a principal ideal domain, extensions of the rationals, unique factorization domains); field theory to include the fundamental theorem of Galois theory; group theory continued up to the Sylow theorems; the Jordan-Hoelder theorem. PROFESSOR SUSSMAN

189-372D. ANALYSIS II. (8 Credits; *Prerequisite:* 189-272D.) Metric spaces; Lebesgue-Stieltjes integration; series expansions of functions (including L_2 theory); power series; analytic functions; contour integration; Cauchy's theorem and a wide variety of consequences, normal families. PROFESSOR HERZ

189-373D. PROBLEM SEMINAR. (4 Credits; 2 hours conference; Not given in 1973-74.) Problems in related areas to suit the class.

189-374D. ORDINARY AND PARTIAL DIFFERENTIAL EQUATIONS. (6 Credits; *Prerequisites:* 189-245A, B and 189-272D; *Corequisite:* 189-372D.) Existence and uniqueness theorems; systems of equations; Sturm-Liouville equations; power series solutions and special functions; homogeneous equations, phase space. First and second order partial differential equations; the Laplace wave and heat equation; Fourier transforms, distributions, Hilbert space methods. PROFESSOR EVANS

189-377B. NUMBER THEORY. (3 Credits.) Partitions. Geometry of numbers. Dirichlet series. Primes in an arithmetic progression. Algebraic numbers and ideas. PROFESSOR BROWN

189-380D. GEOMETRY AND TOPOLOGY. (6 Credits; *Prerequisites:* 189-271D, 189-272D.) A study of curves and surfaces with a view to motivating basic notions of differential geometry, algebraic topology and differential topology. PROFESSOR RUSSELL

189-410D. MATHEMATICAL ANALYSIS OF SYSTEMS. (6 Credits; *Prerequisites:* 189-245A, B, -314A, B, -315A, B.) Further topics in linear algebra. Extrema of functions. Introduction to calculus of variations. Systems of differential equations. Generalized mechanics. Linear systems. Applications to physical and biological sciences. PROFESSOR ROTH

189-416A. COMBINATORICS. (3 Credits; *Prerequisites:* i) 189-222A, B, ii) one of 189-217A, -218B, -223A, -231A, B, -245A, B or equivalents.) An introductory half-course in combinatorics intended for Mathematics Majors students and others who lack the time or the prerequisites to enrol in 189-461D (Combinatorial Mathematics). The lectures of the two courses may coincide (for the First term); however, students of 189-416A will be examined at the end of the First term, while students in 189-461D will continue on in the Second term and be exposed to current research papers. (Honours credit is available only through registration in 189-461D.) PROFESSOR MOSER

189-417A. MATHEMATICAL PROGRAMMING. (3 Credits; *Prerequisites:* 189-245A, B, -314A, B or equivalent.) Linear programming; simplex method; duality theory. Nonlinear programming; Kuhn-Tucker optimality conditions. Numerical methods for solving unconstrained and constrained maximization problems. Applications to realistic problems. Computer programming knowledge is assumed. PROFESSOR ZLOBEC

189-423A. STATISTICAL METHODS I. (3 Credits; *Prerequisites:* 189-323A, B and -245A, B or equivalent.) Simple and multiple linear regression. Least squares estimators and their properties. Tests of hypotheses; the *F*-test. One- and two-way analysis of variance. The general linear model. Prediction and confidence intervals. Orthogonal and non-orthogonal designs. Weighted least squares. PROFESSOR MATHAI

189-424B. STATISTICAL METHODS II. (3 Credits; *Prerequisites:* 189-323A, B, -324-B or equivalent.) Tests of goodness of fit: Pearson's chi-square test for multinomial populations. Contingency tables. Sample distribution function. Nonparametric procedures including the Cramér-von Mises and Kolmogorov-Smirnov tests. Order statistics. Tests for normality. PROFESSOR SESHADRI

189-425A. SAMPLING SURVEY THEORY AND APPLICATIONS. (3 Credits; *Prerequisites:* 189-323A, B, -324A, B or equivalent.) Advantages of sampling compared to complete enumeration, with special reference to human populations and public opinion polls (greater speed in obtaining and analyzing results, smaller cost, greater accuracy of results). Requirements of a good sampling scheme. Main types of sampling and their properties. Use of adjustments based on supplementary information. PROFESSOR PAPAIOANNOU

189-447B. ELEMENTARY STOCHASTIC PROCESSES. (3 Credits; *Prerequisites:* 189-245A, B and 189-323A, B.) Random walk on the integers and gambler's ruin problem; the Galton-Watson branching process; Markov chains and their applications in the physical and social sciences; birth and death processes and their applications to biological growth problems. PROFESSOR ANDERSON

189-451A. COMPLEX ANALYSIS I. (3 Credits; Not given in 1973-74.) Maximum modulus theorem, Rouche's theorem, Weierstrass and Vitali's theorem on convergence of holomorphic functions, normal families. Conformal mapping, harmonic functions, entire and meromorphic functions.

189-452B. COMPLEX ANALYSIS II. (3 Credits; Not given in 1973-74.) Selected topics from the Theory of a Complex Variable.

189-455D. FLUID DYNAMICS. (6 Credits.) Kinematics. Dynamics of general fluids, inviscid fluids, Navier-Stokes equations. Exact solutions of the Navier-Stokes equations. Perturbation methods. Flow at small Reynolds number. Flow at high Reynolds number. Stability. PROFESSOR TAM

189-456D. MATHEMATICAL STATISTICS. (6 Credits.) Probability and distribution theory including discussion of some basic distributions in p-space. Regression and correlation theory. Laws of large numbers and central limit theorem. Sampling theory (including large-sample theory.) Likelihood functions and information matrices. Hypothesis testing, estimation theory and decision theory. Distribution-free procedures. PROFESSOR RUBEN

189-461D. COMBINATORIAL MATHEMATICS. (6 Credits; *Prerequisites:* 189-246A, B, -242A or equivalent. This course will be given in alternate years; Not given in 1973-74.) After a study of fundamentals (partitions and compositions, principle of inclusion and exclusion, etc.) students will be introduced to combinatorial aspects of several fields (graph theory, designs, set theory, group theory, geometry, number theory, etc.) from classical up to and including current research.

189-470A. OPTIMIZATION. (3 Credits; *Prerequisites:* 189-271D, -272D.) Classical calculus of variations, discrete dynamic programming (deterministic and stochastic), continuous processes of dynamic programming. PROFESSOR SANCHO

189-471D. DIFFERENTIAL GEOMETRY. (6 Credits; *Prerequisite:* 189-380D.) The geometry of differentiable manifolds. PROFESSOR OKUBO

189-472D. REAL AND COMPLEX ANALYSIS. (8 Credits; *Prerequisites:* 189-271D, -372D, -451A.) The theory of measure and integration, basic Hilbert and Banach space theory, complex analysis from a modern viewpoint. PROFESSOR CHOKSI

189-474A. ORDINARY DIFFERENTIAL EQUATIONS. (3 Credits; *Prerequisite:* 189-374D.) Topics to be selected from the following: existence and uniqueness theorems, dependence of solutions on parameter and initial data, stability theory, perturbation methods, singular points, periodic systems, two point boundary-value problems. PROFESSOR LANGFORD

189-475B. PARTIAL DIFFERENTIAL EQUATIONS. (3 Credits; *Prerequisite:* 189-374D.) A continuation of topics introduced in 189-374D. PROFESSOR LANGFORD

189-478A. NUMERICAL ANALYSIS. (3 Credits; *Prerequisite:* 189-372D.) Basic error analysis; numerical solutions of nonlinear equations; interpolation; numerical integration and numerical solutions of ordinary differential equations. PROFESSOR EVANS

189-479E. NUMERICAL ANALYSIS. (3 Credits; *Prerequisites:* 189-271D, -478A.) Numerical analysis in normed spaces. Finite and infinite systems of equations. Integral, ordinary and partial differential equations. Finite differences. Numerical realization of the Ritz-Galerkin methods. Convergence and stability of numerical algorithms. PROFESSOR ZLOBEC

189-481D. HIGHER ALGEBRA. (6 Credits.) The rudiments of category theory, including adjoint functors; noetherian, artinian and semi-simple rings; representations of finite groups; a continuation of commutative algebra, prime ideals, localisation and completion; some algebraic number theory and a deeper study of field extensions. PROFESSOR LABUTE

189-483A. TOPOLOGICAL SPACES. (3 Credits.) Bases, connectedness, convergence, product and quotient spaces, metrization, compactness, function spaces.
PROFESSOR GOWRISANKARAN

189-485A. METHODS OF APPLIED MATHEMATICS I. (3 Credits.) Introduction to the theory of Hilbert spaces with applications to integral equations and integral transforms.
PROFESSOR ROTH

189-486B. METHODS OF APPLIED MATHEMATICS II. (3 Credits.) Partial differential equations with applications to initial and boundary value problems. Theory of distributions and Green's functions. Methods of solution by complex variables, eigenfunction expansions and transform methods. PROFESSOR TURNER

189-487D. ADVANCED PROBABILITY THEORY. (6 Credits.) Distribution functions on R^1. Basic measure and integration theory, with special reference to probability measures on (R^1,B^1) and their correspondence with distribution functions. Random variables. Expectation, including basic inequalities. Independence. Conditional probability. Convergence concepts, laws of large numbers. Characteristic functions. Central limit theorem and its ramifications. Random walks.

189-488D. ALGEBRAIC TOPOLOGY. (6 Credits.) Introduction to homology and homotopy theory. PROFESSOR RATTRAY

189-489A. MATHEMATICAL LOGIC. (3 Credits.) Propositional calculus and first order predicate calculus; completeness, compactness, and normal form theorems; theorems of Herbrand, Craig, Beth, and Gentzen. PROFESSOR NEGREPONTIS

189-490B. MATHEMATICAL LOGIC. (3 Credits). Alternately either (1) an introduction to recursion theory, undecidability theorems of Godel and Church, recursively enumerable sets, degrees; or (2) an introduction to model theory, ultraproducts, saturated models, elimination of quantifiers, decidability. PROFESSOR NEGREPONTIS

METEOROLOGY (195)

Burnside Hall; Department Office, Room 722, Telephone, 392-4461.

Meteorology is the study of the earth's atmosphere from the ground up to the heights where it fades into interplanetary space. Most of this atmosphere (80 per cent by mass) is within about 40,000 feet of the surface, and it is here that much of the familiar "weather" occurs; above this height lies the stratosphere, where there still are winds and pressure-patterns, but clouds and up-and-down currents of air are scarce. The atmosphere can be studied as a large ocean of gas by the methods of fluid dynamics; winds, temperature fronts, and planetary waves are the ideas involved in such a program. Or it can be studied from the point of view of its detailed physics: how cloud droplets make rain, or how sunlight warms the ground, and the ground warms the air above it by radiation and convection.

Meteorology is not weather-forecasting, though forecasting is one of the objectives of meteorology. The point of view is always quantitative; meteorology is physics, and like other parts of physics it attempts to devise theoretical models of its complex subject, of the motion and composition of the air, and of its interaction with radiation and the solid or liquid surface.

Meteorology is a good subject when coupled with an approved sequence in mathematics and physics. The program may lead to a B.Sc. with a Major in Meteorology.

In the Honours program in Meteorology there are various options, depending on the student's particular interests. It is, in all cases, a rigorous and specialized study of the theory and practice of meteorology.

Graduates in Honours Meteorology and in Honours Physics, Mathematics, or equivalent courses, can become professional meteorologists through the training offered in

the M.Sc. program in Meteorology. Good facilities exist for Ph.D. studies in several areas of current meteorological research.

Graduates who have a Major in Meteorology often find employment in applied work.

Faculty Programs

For details, see Faculty Programs, page 169.

Major in Meteorology

Consult Professor Rogers, Room 817.

In view of the fact that meteorology is the physics and mathematics of the atmosphere, the Department will recognize a course of study as a "Major Program in Meteorology" if, in addition to the full sequence of general meteorology courses (195-210D, -320A, -321B, -410D and -420D), it contains the equivalent of the following program in Physics and Mathematics:

Mathematics 189-223A, -314B, -315B; Physics 198-231A, -232B, -233A, plus additional approved courses in such fields as Physics, Mathematics, Computer Science and Geography. In total, 54 credits are specified, of which 48 are compulsory. The details of the Program are available in the Department.

Honours in Meteorology

Consult Professor Derome, Room 711.

Prerequisite: High standing in Mathematics and Physics. An advanced program in Physics and Mathematics, with Meteorology courses from those listed below under "Course descriptions". There are three options: Dynamical, Physical and Climatological Meteorology. All of these require the same program in the U1 year (30 credits, of which 27 are compulsory and 3 are elective.) The U2 year is different in the three options but will, in all cases, have 26 credits in compulsory courses and 4 elective. In all options the U3 year will concentrate on the 600-level courses given in the Meteorology Department. U3 has 23 compulsory credits and 7 elective. The Honours option in Dynamic Meteorology is as follows:

U1: Mathematics 189-314A, -223A, -315B; Physics 198-250A, -259A, -260B, -269B; Meteorology 195-210D; 3 Credits elective.

U2: Mathematics 189-317A, -319A, -316B, -327B; Physics 198-351A, -353D; Meteorology 195-320A, -321B. 4 Credits elective.

U3: Mathematics 189-455D; Meteorology 195-652D, -654D, -655D, -656D. 7 Credits elective.

Course Descriptions

195-210D. GENERAL METEOROLOGY. (6 Credits; 1 lecture and tutorials.) History, instruments and data. Simple and complex climatic elements; world, regional and local climates. Physical properties of the atmosphere; thermodynamics; humidity, clouds and precipitation. Local and major wind systems. Fronts and air masses. Synoptic analysis and principles of weather forecasting. PROFESSOR ORVIG

195-220B. RADIATIVE TRANSFER IN THE ATMOSPHERE. (3 Credits; 3 hours.) Radiation laws, solar and terrestrial radiation, solar radiation and the earth's atmosphere. The atmosphere in radiative equilibrium. PROFESSORS ROGERS AND LEIGHTON

195-320A. THERMODYNAMICS OF THE ATMOSPHERE. (3 credits; 3 hours lectures; *Prerequisite:* Permission of instructor.) Classical thermodynamics applied to atmospheric air. Meteorological thermodynamic charts. Phase changes of water. Stability and convection. Diffusion and turbulent transfer of heat and particulates.
PROFESSOR ROGERS AND DR. ROBERTSON

195-321B. CLOUD PHYSICS. (3 Credits; 3 hours lectures; *Prerequisite:* Meteorology 195-320A.) Nucleation of water and ice. Growth of cloud droplets and the development of precipitation. Structure of clouds and rain; methods of observation.
PROFESSOR ROGERS AND DR. ROBERTSON

195-410D. INTRODUCTORY DYNAMIC METEOROLOGY. (6 Credits; 3 hours lectures and laboratory; *Prerequisites:* Mathematics 314A and 315B, Meteorology 320A, 321B or equivalents; Meteorology 420D should be taken concurrently.) The equations of motion; balanced flow. The vertical structure of wind and pressure systems. Circulation and vorticity; development theorems. Waves in the atmosphere; instability. Numerical forecasting. PROFESSOR DEROME

195-420D. INTRODUCTORY SYNOPTIC METEOROLOGY. (6 Credits; 1 hour lecture, 3 hours laboratory; *Prerequisite:* Meteorology 320A, 321B; *Corequisite:* Meteorology 410D or permission of instructor.) An introduction to meteorological analysis. Effects of boundary layer processes on large-scale energetics of the atmosphere. Diagnostic studies of the development of weather systems. The general circulation. Practical analysis of weather charts. Graphical and computer methods. PROFESSOR DIETRICH

195-651D. PHYSICAL METEOROLOGY. (6 Credits; 2 hours.) Thermodynamics of the atmosphere. Instability and convection. Cloud physics and storm structure. Radar applications. Solar and terrestrial radiation. Radiation calculations and diagrams. Energy budget of the atmosphere. PROFESSORS HITSCHFELD, ROGERS AND LEIGHTON

195-652D. DYNAMIC AND NUMERICAL METEOROLOGY. (6 Credits; 2 hours.) The equations of motion. Circulation and vorticity, development theorems. Linear perturbations, instability. Mathematical models of the atmosphere; application of difference equations and their numerical solution. PROFESSORS DEROME AND DIETRICH

195-653D. CLIMATOLOGY. (3 Credits; 1 hour.) The general circulation of the atmosphere and the ocean. Climatic classification. The heat and water balance, climatic change. PROFESSOR ORVIG

195-654D. SYNOPTIC METEOROLOGY. (6 Credits; 4 hours.) A laboratory course to complement Meteorology 651 to 653. Analysis of weather charts and diagrams, forecast techniques, diagnostic treatments of atmospheric dynamics and weather processes. Modern statistical and computer methods are used wherever suitable. PROFESSOR VOWINCKEL AND STAFF

195-655D. SEMINARS "TOPICS IN METEOROLOGY". (3 Credits; 1 hour.) One-hour discussions on special topics in meteorology, e.g. hurricanes; tornadoes; charge generation; ozone. STAFF

195-656D. DAILY WEATHER DISCUSSION. (2 Credits; 2½ hours.) One-half hour briefing on the current weather situation. PROFESSOR VOWINCKEL

MICROBIOLOGY AND IMMUNOLOGY (528)

Pathological Institute, 3775 University Street, Room 515,
Telephone, 842-1251, ext. 1771.

Microbiology is the study of minute forms of life, which are best examined using a light or electron microscope. It is one of the youngest sciences, despite the fact that the simplest microscope was invented over three hundred years ago, and the existence of microbes was suspected long before that. In its relatively short history, however, microbiology has had tremendous impact in such varied fields as medicine, agriculture, genetics, forestry and industry.

The main groups of microorganisms are the bacteria, protozoa, fungi and viruses, which are now included under the broad term "microbiology." These organisms, although so small as to be measured in thousandths of an inch, have characteristic structures and life habits. Many of their complex chemical, physical and genetic properties are shared with man and other higher organisms. Because of their rapid growth rate, they are widely used as "experimental animals" in studying cell processes. Microorganisms of all kinds are widespread in man's environment and are important in his everyday life in many ways. Some cause diseases of plants, animals or men; others are useful in bread-making, brewing, ripening of cheese, wine-making, manufacture of vaccines, antibiotics, and pure chemicals; some are the cause of food spoilage; and still others are of vital importance in maintaining soil fertility or in the control of forest insect pests.

Opportunities for careers in pure or applied microbiology are many and varied. For interested students, the following introductory reading is suggested:

De Kruif, *The Microbe Hunters* (Pocket Books of Canada)

Camus, *The Plague* (Penguin)

Sistrom, *Microbial Life* (Modern Biology Series).

Faculty Program

For details, see Faculty Programs, page 169.

Major Program

There are four options available within our Major program: Immunology, Microbial Physiology, Pathogenic Microorganisms and Virology. All four options require the Biology Core Curriculum (see page 179) plus Chemistry 180-222A, B and 180-204A.

Immunology Option, 65 Credits — U1: Chemistry, 180-214B; U2: Biology 177-302A, B, 177-310B, Microbiology 538-311A, 528-314B; U3: Microbiology 528-426A, 528-461D, 528-471D.

Microbial Physiology Option, 65 Credits — U2: Biology 177-302A, B, 177-310B, Microbiology 528-311A, 528-314B; U3: Microbiology 528-423A, 528-451B, 528-471D. 9 additional Credits selected in consultation with the Departmental Adviser in U2 or U3.

Pathogenic Microorganisms Option, 68 Credits — U2: Microbiology 528-311A, 528-314B, either 528-313B or 528-315B; U3: Microbiology 528-421A, 528-422B, 528-425B, 528-471D. 9 additional Credits selected in consultation with the Departmental Adviser in U2 or U3.

Virology Option, 68 Credits — U2: Biology 177-302B, 177-310B, Microbiology 528-311A, 528-314B; U3: 528-424A, 528-425B, 528-471D. 9 additional Credits selected in consultation with the Departmental Adviser.

Consult: Dr. P. M. Cooke, Room 508, Pathological Institute, 3775 University Street, Telephone 842-1251, ext. 1772.

Course Descriptions

528-311A. BIOLOGY OF MICROORGANISMS. (4 Credits; *Prerequisite:* Biology Core Curriculum, U1; *Corequisite:* Biology Core Curriculum, U2; 3 hours lectures, 3 hours laboratory.) A comprehensive treatment of introductory microbiology bearing specifically on the biological properties of microorganisms. The laboratory sessions introduce general techniques peculiar to the handling of microorganisms.

528-314B. IMMUNOBIOLOGY. (3 Credits; *Prerequisite:* Biology Core Curriculum, U1; *Corequisite:* Biology Core Curriculum, U2; 3 hours lectures, 3 hours laboratory every other week.) A comprehensive study of the fundamental principles of immunology.

528-315B. THE PATHOGENIC FUNGI. (3 Credits; *Prerequisite:* Biology Core Curriculum, U1 & U2; 2 hours lectures, 3 hours laboratory; alternate year, not offered in 1973-74). A study of the morphological, cultural and physiological characteristics of the pathogenic fungi, their pathogenic activities and the etiology and epidemiology of fungus diseases of importance in human and veterinary medicine.

528-313B. PARASITOLOGY. (3 Credits; *Prerequisite:* Biology Core Curriculum, U1 & U2; 2 hours lectures, 3 hours laboratory; alternate years, offered in 1973-74.) A study of the biology, bionomics, epidemiology, pathogenicity and diagnosis of the parasites of man.

528-421A. SYSTEMATIC BACTERIOLOGY. (3 Credits; *Prerequisite:* Microbiology 528-311A; 3 hours lectures, 3 hours laboratory.) A study of the taxonomy of bacteria with a review of classical systems and detailed coverage of modern methods. Classification of the bacteria with greater emphasis on the pathogenic groups.

528-422B. PATHOGENIC BACTERIA. (3 Credits; *Prerequisites:* Microbiology 528-314B, 528-421A; 3 hours lectures, 3 hours laboratory.) A study of selected pathogenic bacteria emphasizing virulence factors, modes of transmission, spread and control.

528-423A. MICROBIAL PHYSIOLOGY. (3 Credits; *Prerequisites:* Microbiology 528-311A, 528-312B; 3 hours lectures.) A broad introduction to the physiology of microorganisms. The chemical activities of microbes will be studied from a basic knowledge of microbiology and biochemistry.

528-451B. TECHNIQUES IN MICROBIAL PHYSIOLOGY. (3 Credits; *Prerequisite:* Microbiology 528-423A; 1 hour lecture, 6 hours laboratory.) An introductory course in experimental microbial physiology. The basic techniques of manipulation and instrumentation in the study of cellular forms will be covered. Experiments will be illustrative of the fundamental properties of microorganisms. Restricted to students in Microbial Physiology Major or by special permission of the Department.

528-424A. FUNDAMENTAL VIROLOGY. (3 Credits; *Prerequisite:* Biology Core Curriculum, U2; 2 hours lectures, 3 hours laboratory.) A study of the fundamental properties of viruses (bacterial, plant and animal) and their interaction with host cells. Emphasis will be on phenomena occurring at the cellular level.

528-425B. PATHOGENIC VIRUSES. (3 Credits; *Prerequisites:* Biology Core Curriculum, U2 & Microbiology 528-314B; 2 hours lectures, 3 hours laboratory.) A study of the properties and activities of the major groups of mammalian viruses and the epidemiology of viral infections.

528-426A. ADVANCED IMMUNOBIOLOGY. (3 Credits; *Prerequisites:* Biology Core Curriculum, U2 & Microbiology 528-314B; 3 hours lectures.) A discussion of recent advances and theories of humoral and cellular immunity. Applications of immunobiology to various fields of biology. (Including transplantation, cellular mechanisms, etc.)

528-461D. TECHNIQUES IN IMMUNOBIOLOGY. (6 Credits; *Prerequisites:* Biology Core Curriculum, U2 & Biology 177-302B; *Corequisite:* Microbiology 528-426A; 1 hour lecture, 6 hours laboratory.) A study of advanced methods as used in various areas of immunobiology. Restricted to students in the Immunology Major or by special permission of the Department.

528-471D. RESEARCH OR SEMINAR IN MICROBIOLOGY AND IMMUNOLOGY. (3 Credits.) Restricted to Major students in the Department and related to the student's specific option.

PHARMACOLOGY AND THERAPEUTICS (549)

549-461D. GENERAL PHARMACOLOGY. (6 Credits; *Prerequisite:* Suitable preparation in biochemistry and physiology and permission of the Department.) A course covering basic interactions between chemical agents and living processes.

PHYSICS (198)

Macdonald Physics Building, Room 105, 392-5130.

Physics is in many ways the parent of the other natural sciences and its discoveries and laws continually affect their development. Its range and scope extend in space and time from subnuclear particles to the universe itself. The subfields of physics such as mechanics, thermodynamics, electricity, atomic physics and quantum mechanics, to mention but a few, permeate all other scientific disciplines.

There are two main undergraduate programs in Physics at McGill: the Major and the Honours. The Major program is open to all holders of the DCS in Physical Science (see page 45). It offers a broad training in classical and modern physics and yet leaves room for the student to take a meaningful sequence of courses in two other areas. Flexibility and accessibility are two features of the Major program. The Honours program is more highly specialized and the courses are more demanding. High standing in collegial mathematics and physics is a requirement for admission. The Honours program is appropriate for students who wish to make an in-depth study of the subject in preparation for graduate work and an academic or professional career.

Many aspects of physics permeate other scientific fields and people trained in physics are employed in industry, government, and educational systems where they find many challenges as teachers, researchers, administrators and in the rapidly developing area of scientific business.

Program Information

COLLEGE EQUIVALENT STUDENTS

The Department offers a sequence of required courses in the E1 and E2 years in the Biological Sciences stream (-E10A, -E11B, -E20A, B) and in the Physical Sciences stream (-E15A, -E14B, -E21A, B). The E1 courses in these sequences are retained for 1973-74 in order to accommodate transfer students. The terminal course in the 'advanced' sequence (-E22A) is also retained as are the optional courses -E25B and -E27B.

Students with satisfactory grades in 198-E10A and -E11B may complete the physics requirements for both the Physical Sciences and Biological Sciences sequences by taking 198-E23A and -E21B in their E2 year in lieu of 198-E20B. Students in E2 Biological Sciences who have credit for one semester in Physics but who do not have the prerequisites for 198-E20B may remove this deficiency by taking 198-E26A.

UNIVERSITY STUDENTS

Students wishing to register in one of the undergraduate programs of the Department must consult with the Department and obtain the appropriate Study Plan Form. They will then be assigned an Academic Adviser from the staff of the Department.

HONOURS

Professor W. M. Martin (392-5129), Macdonald Physics Building, Room 106.

MAJOR AND FACULTY PROGRAMS

Professor M. P. Langleben (392-5127), Macdonald Physics Building, Room 60.

The Diploma of Collegial Studies in Physical Sciences is sufficient for admission to the Major and Faculty programs. High standing in Mathematics and Physics and satisfactory performance in the placement examination are required for admission to Honours. The placement examination is held about ten days after the commencement of lectures. Students may register in Honours after they have obtained provisional Honours forms from the Department. This registration will be confirmed if they succeed in the placement examination.

HONOURS PROGRAM

U1 1973-74

Mathematics 189-248A, -249B, -247A, -325B; Physics 198-251A, -252A, -259D, -261B, -262B. 25 Credits.

U2 1973-74

Physics 198-328A, -351A, -353B, -357D, -359B, -365A, one approved course 3 Credits. 25 Credits.

U3 1973-74

Physics 198-451A, -452D, -459D, three of Mathematics 189-360B, Physics 198-454B, -457A, -458A, -467B.

A student whose average in the *required* courses in any year falls below GPA 2.8, or whose mark in any individual *required* course falls below 55% may not register in the Honours program the following year except with the permission of the Department.

MAJOR PROGRAM

The Department's requirements for the program are:

A) A core of 38 Credits as follows: Mathematics 189-222A, -223A, -315A, B; Physics 198-231A, -232B, -233A, -235B, -328B, -346D, -432A, and either -439A or -449B. (The student may take *both* 198-439A and -449B if he wishes, for a total of 6 Credits.)

B) 15 Credits chosen from the following list: Mathematics 189-314A, -317A, -319B; Physics 198-214B, -219A, -237B, -314A, -331A, -334B, -341B, -431A, -434B, -437B, -438B, one approved course 3 credits, not listed above.

Mathematics 189-222A, -223A, -315A, B and Physics 198-235B must be completed in U1. While the other courses may be taken at any time subject to prerequisite conditions, it is strongly recommended that they be taken in the year indicated by the course number.

MAJOR IN PHYSIOLOGY AND PHYSICS

See Department of Physiology, page 221.

FACULTY PROGRAMS

For details, see Faculty Programs, page 169.

Medals

Attention is drawn to the Anne Molson Gold Medal in Mathematics and Natural Philosophy, and to the Horace Watson Gold Medal in Physics.

Course Descriptions

COLLEGE EQUIVALENT COURSES

198-E10A. GENERAL PHYSICS I. (3 Credits; 4 hours, including laboratory.) Mechanics and Waves: an introduction to the laws of mechanics, light and sound.
PROFESSORS de TAKACSY, MOORE, MR. LANDRY AND DR. LAFLEUR

198-E11B. GENERAL PHYSICS II. (3 Credits; 4 hours, including laboratory.) Energy and Modern Physics: heat and statistical physics.
PROFESSORS de TAKACSY, MOORE, MR. LANDRY AND DR. LAFLEUR

198-E14B. MECHANICS AND KINETIC THEORY. (3 Credits; 2 hours lectures; 3 hours laboratory and conferences.) PROFESSORS AUSTIN AND STANSBURY

198-E15A. WAVE MOTION: SOUND AND LIGHT. (3 Credits; 2 hours lectures; 3 hours laboratory and conferences.) PROFESSORS AUSTIN AND MARSHALL

198-E20A, B. ELECTROMAGNETISM. GENERAL PHYSICS III. (3 Credits; 4 hours, including Laboratory; *Prerequisites:* Physics E10A and E11B, or E26A.) Ampere and volt. Ohm's Law. D.C. circuits. Capacitance and inductance. RC and LC circuits. Oscilloscope. Electrical measurements. Transistors. Control systems. Feedback.
PROFESSOR de TAKACSY, MRS. GURR AND MR. LANDRY

198-E21A, B. ELECTRICITY AND MAGNETISM. (3 Credits; 3 hours lecture, 3 hours laboratory; *Prerequisites:* Physics E14B and E15A, Mathematics E14A and E15A, B.) D.C. circuits and measurements. Electric field and potential. Capacitance. Magnetic field and force. Induced e.m.f. A.C. circuits. PROFESSORS WALSH, HARRIS AND MARTIN

198-E22A. ELECTRICITY AND MAGNETISM. ADVANCED SECTION. (3 Credits; 3 hours lecture, 3 hours laboratory; *Prerequisites:* Physics E16A and E17B, or permission of the instructors.) DC and AC analysis, Electric Fields, Capacitance, Magnetic Fields, Inductance, Maxwell's Equations, Plane Waves. PROFESSORS POUNDER AND ADDISON

198-E23A. MECHANICS. (3 Credits; 3 hours; *Prerequisites:* 198-E10A, -E11B; *Corequisite:* 189-E15A. Description of Motion. Introduction to Vector Mechanics. Particle Kinematics. Relative Motion. Laws of Motion. Conservation Laws of Momentum and Energy. Motion in a Circle. Simple Harmonic Motion. Kinetic Theory of Matter. This course is not open to students with credit in 198-E14B. PROFESSOR LANGLEBEN

198-E25B. TOPICS IN CONTEMPORARY PHYSICS. (3 Credits; *Prerequisite:* Physics E22A.) Selected topics from electromagnetism, quantum physics, nuclear physics, particle physics and solid state. PROFESSOR MATHISON

198-E26A. MECHANICS. (3 Credits; 4 hours including laboratory.) A remedial course for E2 students in Biological Sciences who have one semester of physics but lack prerequisites for E20B. The course consists of selected topics and experiments from E10A and E11B dealing with introductory mechanics and the conservation laws.
PROFESSOR de TAKACSY AND MRS. GURR

198-E27B. MODERN PHYSICS. (3 Credits; *Prerequisite:* Physics E21A.) Photons and quanta. Black body radiation. Energy levels. Atoms and nuclei. Photoelectric effect. X-rays. Relativity. Wave-particle duality. Radioactivity. Nuclear energy. PROFESSOR SHARP

U1 COURSES

198-200A. PHYSICAL SCIENCE I. (3 Credits; 3 hours lectures.) This course and 180-200B (Department of Chemistry) are intended for non-Science students at any level. They are not open to students who have taken or are taking other courses in Physics or Chemistry. The two courses are intended to be taken sequentially, but either may be taken by itself. Basic astronomy and physics. Philosophical, social and moral aspects of physical science. Individual projects. Reading assignments, field trips, conferences. PROFESSOR AUSTIN

198-214B. ASTROPHYSICS. (3 Credits.) An introduction to astronomy and astrophysics with emphasis placed on methods of observations. Astronomy of time and position; solar system; stars; stellar structure and evolution; galaxies. PROFESSOR MORRIS

198-219A. STATISTICAL TREATMENT OF EXPERIMENTAL DATA. (3 Credits; 3 hours lectures.) Errors in physical measurement. Probability distributions. Fitting of experimental data. Design of experiments. PROFESSOR LANGLEBEN

198-224B. PHYSICS OF MUSIC. (3 Credits; 2 hours, conference 1 hour; Limited enrolment.) An introductory course requiring little mathematical background. Topics include harmonic motion, wave-forms and wave motion; vibrating strings and air columns; loudness, pitch and timbre; selected string, woodwind, brass, percussion and keyboard instruments; dissonance and scales; recording and reproduction of music; acoustics. PROFESSOR LANGLEBEN

198-231A, B. MECHANICS. (4 Credits; 3 hours lectures, laboratory alternate weeks; *Text* — Skinner, *Mechanics.)* Kinematics. Newton's Laws. Conservation Laws and Symmetry Principles. Two-body Problems. Motion of a Rigid Body. Oscillating Systems. Lagrange's Equations.
PROFESSOR MARK

198-232A, B. ELECTRICITY AND MAGNETISM. (4 Credits; 3 hours lectures, laboratory alternate weeks.) Electrical measurements; network theorems, resonant circuits, nonsinusoidal waves; semiconductors and modern devices. Electromagnetic theory, propagation of electromagnetic waves. PROFESSORS HEDGCOCK AND MUIR

198-233A. THERMAL PHYSICS. (4 Credits; 3 hours lectures, laboratory alternate weeks.) Temperature, heat, work, first law of thermodynamics, kinetic theory. The second law of thermodynamics, statistical mechanics, probability distributions. PROFESSOR MARTIN

198-235B. MATHEMATICAL PHYSICS. (3 Credits; 3 hours lectures; *Prerequisite:* Mathematics 189-223A; *Corequisite:* Mathematics 198-315B.) Harmonic motion of simple and continuous systems with examples from mechanics and from electrical circuits; the motion of "imperfect" or perturbed systems; linear response; the discussion of heat flow, fluid flow, and electrical conductivity in two dimensional systems. PROFESSOR HARRIS

198-237B. NUCLEAR ENERGY AND ITS APPLICATIONS. (3 Credits; 3 hours lectures.) Concepts of nuclear structure with emphasis towards the understanding of nuclear energy sources and radio isotopes. Comparison of various nuclear power systems. Uses of radio isotopes. Health aspects of radioactivity. Stress will be laid on the physical principles rather than on the mathematical background. PROFESSOR ROBSON

198-251A. CLASSICAL MECHANICS I. (3 Credits; 3 hours lectures.) Kinematics. Conservation of energy; heat. Conservation of momentum. Lagrange's equations. Angular motion. Oscillators. Special relativity. PROFESSOR ROBSON

198-252A. ELECTRICITY & MAGNETISM. (2 credits; 2 hours lectures.) Electric and magnetic fields; dielectrics and magnetic materials; work and field energy; Maxwell's equations. PROFESSOR STAIRS

198-259D. LABORATORY. (3 Credits.) PROFESSOR ROBSON

198-261B. CLASSICAL MECHANICS II. (2 Credits; 2 hours lectures.) Rigid bodies. Deformations. Generalized coordinates Lagrangian Mechanics. Principle of least action. Hamiltonians. PROFESSOR ROBSON

198-262B. ELECTRICITY & MAGNETISM. (3 Credits; 3 hours lectures.) Magnetism as a relativistic effect; electromagnetic waves; reflection of light waves; dipole radiation; Rayleigh Scattering; motion of charged particles in electric and magnetic fields; introduction to physical and geometrical optics. PROFESSOR STAIRS

U2 COURSES

198-309A. DESCRIPTIVE PHYSICAL OCEANOGRAPHY. (3 Credits; *Prerequisites:* Mathematics 189-E14A and -E15B.) Properties of sea water. Time and space distribution of ocean properties. Water masses and currents. PROFESSOR D'ANGLEJAN

198-314A. ASTROPHYSICS II. (3 Credits; 3 hours lectures; *Prerequisite:* Physics 198-214B.) Topics introduced in 198-214B are treated in more detail and depth. Stellar spectra and classification; Saha ionization formula; introduction to theory of stellar atmospheres; equations of stellar structure and the mass-luminosity relation; nuclear energy generation: the Hertzsprung-Russel diagram. PROFESSOR MORRIS

198-319B. INTRODUCTION TO DYNAMICAL OCEANOGRAPHY. (3 Credits; *Prerequisites:* Physics 198-231A, 309A; Mathematics 189-314A; *Corequisite:* Mathematics 189-315B.) Dynamics of ocean movements. Waves and tides. PROFESSOR INGRAM

198-328A, B. ELECTRONICS. (4 Credits; 3 hours lectures, 3 hours laboratory; *Prerequisite:* Physics 198-232A, B.) Introduction to solid state devices. Amplifiers, feedback, digital circuits. Examples from modern instrumentation. PROFESSOR TRISCHUK

198-331A. CLASSICAL MECHANICS. (3 Credits; 3 hours lectures; *Prerequisite:* Physics 198-231A, B.) Special relativity; Lorentz transformations, 4 vectors, 4 momenta, relativistic kinematics; mechanics, generalized coordinates, Lagrange equations, Hamiltonians, rigid bodies; small oscillations, coupled oscillators, waves. PROFESSOR de TAKACSY

198-334B. TOPICS IN APPLIED PHYSICS. (3 Credits; 3 hours lectures; *Prerequisites:* Physics 198-231A, B; -232A, B.) Waves and resonances in physical systems; superposition, interference and diffraction; examples from mechanics, electronics, geophysics. Information theory: band widths, signal to noise ratio; examples from communications. Plane wave transmission. Matter waves in solid earth, oceans and atmosphere; acoustic waves. PROFESSOR AUSTIN

198-339B. ELECTRONICS. (4 Credits; 3 hours lectures, 3 hours laboratory alternate weeks; *Prerequisite:* Physics 198-232A, B.) Semi-conductor diodes and transistors, transistor amplifiers; circuits with feedback. Pulse circuits, and pulse logic. PROFESSOR TRISCHUK

198-341B. STATISTICAL MECHANICS. (3 Credits; 3 hours lectures; *Prerequisites:* 198-231A, B, 233A.) Ideal gases, density of states, quantum statistics, Bose-Einstein gas, Fermi-Dirac gas, degeneracy, interacting gases, radiation, fluctuations. PROFESSOR DAS GUPTA

198-346D. QUANTUM PHYSICS. (4 Credits; 2 hours lectures; *Prerequisite:* Physics 198-231A,B.) Experimental origins of quantum mechanics. Basic postulates. Uncertainty principle; measurement. The Schroedinger equation, eigensolutions, the harmonic oscillator, angular momentum, matrix mechanics. Identical particles, the exclusion principle, spin, statistics. The hydrogen atom. PROFESSOR PATEL

198-351A. CLASSICAL MECHANICS. (3 Credits; 3 hours lectures.) Lagrangian mechanics; Variational methods and Hamiltonian mechanics; transformation theory and the Hamilton-Jacobi equation. Small vibrations treated first in matrix form as an eigenvalue problem. Group theory and symmetry classification of eigenvectors and eigenvalues.
PROFESSOR STRÖM-OLSEN

198-353B. THERMAL PHYSICS. (3 Credits; 3 hours lectures.) Topics in thermodynamics and statistical mechanics. The laws of thermodynamics; thermodynamical variables and relations. Entropy, free energy, enthalpy, partition functions. Phase changes, Clausius-Clapeyron equation. Applications to physical systems; free particles, ideal gas, Fermi gas, photons, phonons, bosons. PROFESSORS POUNDER AND ADDISON

198-355A. MATHEMATICAL PHYSICS I. (3 Credits; 3 hours; Not offered 1973-74.) Application of mathematical methods in physics. Vectors in 3-space; Fourier analysis; complex analysis; differential equations of mathematical physics; eigenvalue problems.

198-357D. QUANTUM PHYSICS. (6 Credits; 3 hours lectures.) Classical electron theory. Quantum Theory of the electron. One-electron problems. Several-electron problems. Radiation from an atom. PROFESSOR HENZI

198-359B. LABORATORY. (3 Credits; 4 hours.) A laboratory in general physics for Honours students. PROFESSOR STRÖM-OLSEN *et al.*

198-365A. MATHEMATICAL PHYSICS II. (3 Credits; 3 hours; *Prerequisite:* Mathematical Physics I.) Three dimensional waves, boundary conditions, use of special functions, Green's functions, applications to scattering, diffusion and heat conduction; stochastic processes, probability distributions, applications to radioactive decay, diffusion, energy distributions and fluctuations. PROFESSORS WALLACE AND LAM

U3 COURSES

198-431A. APPROXIMATE METHODS IN QUANTUM MECHANICS. (3 Credits; 3 hours lectures; *Prerequisite:* Physics 198-346D.) Approximate solutions of the Schrödinger equation. Applications. The Variational Method. Applications, spectral lines, selection rules and perturbation theory. PROFESSOR ZUCKERMANN

198-432A. THEORY AND APPLICATIONS OF ELECTROMAGNETISM. (3 Credits; 3 hours lectures; *Prerequisite:* Physics 198-232A, B, or E22A.) Laplace's equation in electricity and magnetism. Maxwell's equations and wave propagation. Application to transmission lines and antennae. PROFESSOR WALLACE

198-434B. PHYSICAL AND QUANTUM OPTICS. (3 Credits; 3 hours lectures.) Geometric optics. Polarization. Lasers, diffraction and coherence. Holography. Scattering. Optical properties of materials. PROFESSOR MORRIS

198-437B. NUCLEAR AND PARTICLE PHYSICS. (3 Credits; 3 hours lectures; *Corequisite:* Physics 198-346D.) Simple properties of nuclei and particles. Radioactivity and its applications. Particle interactions with application to astrophysics. Experimental high-energy physics. Accelerators and typical experiments. Quarks. PROFESSOR KITCHING

198-438B. SOLID STATE PHYSICS. (3 Credits; 3 hours lectures; *Corequisite:* Physics 198-346D.) Structure of solids. Thermal vibrations in crystals. Electrons in metals, semi-conductors and insulators. Selected topics from magnetism, semi-conducting devices, superconductivity, etc.
PROFESSOR WALLACE

198-439A. LABORATORY. (3 Credits; 4 hours laboratory; *Prerequisite:* Physics 198-328A, B.) Prescribed labortory work. PROFESSOR STRÖM-OLSEN *et al.*

198-449B. LABORATORY. (3 Credits; 4 hours laboratory; *Prerequisite:* Physics 198-328A, B.) Supervised project work. PROFESSOR STRÖM-OLSEN *et al.*

198-451A. QUANTUM THEORY. (3 Credits; 3 hours lectures.) General formulation, scattering theory, WKBJ approximation, time-dependent perturbation theory and applications, angular momentum, relativistic wave equations. PROFESSOR CONTOGOURIS

198-452D. ELECTROMAGNETIC THEORY. (6 Credits; 3 hours lectures.) Electrostatics, boundary value problems, magnetostatics, Maxwell's equations. Wave equations, waveguides, radiation, multipoles and vector spherical harmonics. PROFESSOR CRAWFORD

198-454B. OPTICS. (3 Credits; 3 hours lectures.) Geometrical optics, lenses, electromagnetism and physical optics, diffraction theory, image formation, holography. PROFESSOR MORRIS

198-457A. NUCLEAR PHYSICS. (3 Credits; 3 hours lectures.) General nuclear properties, nucleon-nucleon interaction and scattering theory, radioactivity, nuclear models, nuclear reactions. PROFESSOR KITCHING

198-458A. SOLID STATE PHYSICS. (3 Credits; 3 hours lectures.) Properties of crystals, lattice vibrations and thermal properties of insulators, free electron model and band structure, semiconductors, metals, optical properties. PROFESSOR HEDGCOCK

198-459D. LABORATORY. (6 Credits; 4 hours laboratory.) This laboratory will include experiments associated with electromagnetic theory, as well as the optional courses in U3.
PROFESSOR STRÖM-OLSEN *et al.*

198-465D. MATHEMATICAL PHYSICS FOR CHEMISTS. (4 Credits; 2 hours lectures; *Prerequisites:* Mathematics 189-314A and 315B.) Advanced dynamics, including theory of vibrations. Continuous systems. Eigenfunctions and eigenvalues. PROFESSOR DAS GUPTA

198-467B. PARTICLE PHYSICS. (3 Credits; 3 hours lectures.) Basic interactions and symmetries, kinematics, scattering theory, phase space, symmetry and statistics, boson and baryon spectra, experimental techniques. PROFESSOR CONTOGOURIS

PHYSIOLOGY (552)

McIntyre Medical Building, Room 1023, Telephone 392-3079.

Physiology has its roots in many of the basic sciences including biology, chemistry, mathematics, and physics. As one of the central biomedical sciences, physiology overlaps with other biomedical sciences such as anatomy, biochemistry, pathology and pharmacology, and with psychology and biomedical engineering, and is one of the prime contributors of basic scientific knowledge to the clinical medical sciences.

The Department of Physiology at McGill is engaged in studies ranging from the cell and molecular to the population level in a variety of invertebrates and vertebrates, including man. A wide range of interest and expertise in physiology is represented by the staff of the Department, including cardiovascular, respiratory, renal, exercise, neurophysiology, immunology and biophysics. A number of faculty members in the Department have formal or informal liaisons with basic science (mathematics, physics, electrical engineering, chemistry) and clinical departments (medicine, surgery, paediatrics, neurology, psychiatry, anaesthesia), reflecting and reinforcing the close ties which physiology maintains with other disciplines.

The options in the major program in physiology differ in their degree of orientation to biology, biochemistry, chemistry, mathematics and physics but they all contain a common, in depth, core of material covering cardiovascular, respiratory, renal, neurophysiology and immunology that is elaborated in a three-tiered system of courses from U1 to U3.

Graduates at the B.Sc. level have found rewarding career opportunities in secondary school science teaching, government service, and laboratory technical assistance, e.g. in pharmaceutical houses, hospitals, and institutions of higher learning. Further, physiology is an excellent background for medicine or dentistry or for other post-graduate work, e.g. in physiology, experimental medicine, pharmacology and physiological psychology.

Student Counsellors for Physiology Programs

200 and 300 level courses in Physiology: Professors C. Polosa and A. Wechsler, and Dr. P. Weldon.

Major programs and 400 level courses in Physiology: Professors R. I. Birks, D. R. Firth, M. M. Frojmovic and M. C. Mackey.

Graduate courses: Professors M. W. Cohen and W. S. Lapp.

Major Program

The following options are available:

MAJOR PHYSIOLOGY (58 Credits).

U1: Physiology 552-211D; Biology 177-201D, -205D, -206D; Mathematics 189-231A, B; Chemistry 180-222A, -204A.

U2: Physiology 552-311D; Biology 177-301A, B, -303A or -305A; Biology 177-309B or 177-373A or Mathematics 189-232A, B.

U3: 12 Credits from Physiology 400 and/or 600 series, with at least 6 Credits from the 400 series.

MAJOR PHYSIOLOGY: BIOCHEMISTRY ORIENTATION (64 Credits)

U1 and U2: as Optional Orientation but

U1/U2 = Chemistry 180-214B; Biochemistry 507-352D

U3: = Physiology 552-411A and 3 Credits from Physiology 400/600 series, 3 Credits from Biochemistry 400 series

Recommended: Chemistry 180-207A or 180-227A, 180-247A or 180-267A, -302A and -362B; Biology 177-302A, B.

MAJOR PHYSIOLOGY: CHEMISTRY ORIENTATION (65 Credits)

U1: 30 Credits: Physiology 552-211D; Chemistry 180-204A, -214B, -222A, -207A, -217A, B, -227B, -237B, -201A, B; Mathematics 189-222A, B; Physics 198-232A, B.

U2: 26 Credits: Physiology 552-311D; Biology 177-201D; Chemistry 180-253B, -273A, -352A, B, -353A; Mathematics 189-315A, B; Physics 198-339B.

U3: 9 Credits: Physiology 552-411A and 3 Credits from Physiology 400/600 courses; Biology 301A.

Recommended: Biochemistry 400 series; Physiology 552-417A, -418B.

Note that the U1/U2 sequence may be identical for a student registered in our program or a Chemistry Major program. The option for Chemistry Major or Physiology Major can be decided at the end of U2, subject to approval.

Joint Major

MAJOR IN PHYSIOLOGY AND PHYSICS (71-74 Credits)

U1: 26 Credits: Physiology 552-211D; Mathematics 189-222A, B, -223A, -315A, B; Physics 198-232A, B, -233A, -235B.

U2: 26 or 29 Credits: Physiology 552-311D, -413A and -415B or -411A; Mathematics 189-319B; Physics 198-328A, B or -339B, -231A; and 2 of Mathematics 189-317A, Physics 198-334B, -341B.

U3: 19 Credits: Physiology 552-417A, -418B; Physics 198-346D; 3 Credits in a Physiology course and 6 Credits in Physics to be selected in consultation with Physiology and Physics.

Course Descriptions

552-201A. PHYSIOLOGY OF MAN: ORGAN AND TISSUE PHYSIOLOGY. (3 Credits; 2 hours lecture, with a conference and/or demonstration, and/or laboratory on alternate weeks; *Prerequisites:* College courses in Biology or Anatomy, and in Chemistry and Physics; with Organic Chemistry (212 or equivalent) as a pre- or corequisite.) Physiology of blood and body fluids, nerve and muscle, heart and vessels, lungs and gas transport. (For students in the School of Physical and Occupational Therapy, the School of Nursing, and the Faculty of Education, and for students in the Faculty of Science who are not in the Biology Core Curriculum described on page 179.) PROFESSOR POLOSA AND STAFF

552-202B. PHYSIOLOGY OF MAN: METABOLIC AND REGULATORY PHYSIOLOGY. (3 Credits; 2 hours lectures, with a conference and/or demonstration and/or laboratory on alternate weeks; *Prerequisites:* College courses in Biology or Anatomy, Chemistry and Physics, with Organic Chemistry as a pre- or corequisite; or equivalent courses.) Physiology of excretion, digestion, organic metabolism and energy balance, endocrine control systems, reproduction, central nervous system and special senses. (For students in the School of Physical and Occu-

pational Therapy, the School for Graduate Nurses, and the Faculty of Education, and for students in the Faculty of Science who are not in the Biology Core Curriculum.)
PROFESSOR POLOSA AND STAFF

PHYSIOLOGY 201A AND 202B are companion courses and it is recommended that they be taken in that sequence, but they may be taken in separate years or in the reverse sequence.

552-211D. MAMMALIAN PHYSIOLOGY WITH EMPHASIS ON THE PHYSIOLOGY OF MAN. (6 Credits; First term, 3 hours lectures; Second term, 2 hours lectures; with 3 hours laboratory every second week in both terms; *Prerequisites:* As for Physiology 201A and 202B; Biology 201D if not already taken must be taken concurrently.) For students in the Faculty of Science, and for other students with permission of the Department.
PROFESSOR MacINTOSH, DR. WELDON AND STAFF

552-311D. INTERMEDIATE PHYSIOLOGY. (6 Credits; 3 hours of lectures, alternating with 2 hours of lectures and 3 hours laboratory, per week; *Prerequisite:* Physiology 211D.) The Physiology of: 1) the Nervous System, 2) the Immune System, 3) the Respiratory System, 4) the Cardiovascular System, and 5) the Renal System. PROFESSORS COHEN AND LAPP

552-312D. SELECTED TOPICS IN INTERMEDIATE PHYSIOLOGY. (3 Credits, with timetable to include one half the hours of Physiology 311D; *Prerequisite:* Physiology 211D.) Any combination of three of the topics listed in 311D except the Nervous System; or a combination of the Nervous System and one other topic. PROFESSORS COHEN AND LAPP

552-411A. MOLECULAR PHYSIOLOGY. (3 Credits; 3 hours per week and/or modular instruction; *Prerequisites:* Physiology 211D, 311D (or concurrently): Chemistry 222, 204, 214 and/or permission of the instructor.) Principles of molecular interactions in and at membranes and cells, including a discussion of experimental techniques; and their application to structure-function relationships in cell adhesion, blood clotting and thrombosis, immunophysiology and other selected areas. PROFESSOR FROJMOVIC

552-413A. PHYSIOLOGICAL TRANSPORT SYSTEMS. (3 Credits; *Prerequisites:* Physiology 211D, Physiology 311D (or concurrent enrolment); Mathematics 231A, B, Mathematics 232B or Mathematics 315A, B; or Biology 309B; and/or permission of the instructor.) This course will examine the general principles governing micro and macroscopic mass transport across cell membranes and tissue barriers. Topics to be covered are: the passive and active transmembrane movement of charged and neutral substances in the central nervous system, kidney, and G-I tract; the relationship of macroscopic tissue electrical properties to microscopic transmembrane ion movement in the CNS and kidney; gas exchange in the lungs; and fluid dynamics in the respiratory and cardiovascular system. PROFESSOR MACKEY

552-415B. DYNAMIC ANALYSIS AND CONTROL IN PHYSIOLOGICAL SYSTEMS. (3 Credits; *Prerequisite:* Physiology 211D and Physiology 311D (or concurrent enrolment); Mathematics 231A, B, Mathematics 232B or Mathematics 315A, B, or Biology 309B or Biology 373A; and/or permission of the instructor.) The use of dynamic and compartmental analyses, control system and information theory, in the understanding of the physiological processes of muscular movement, respiration, circulation, blood glucose regulation, pancreatic secretion, information processing by sensory systems. PROFESSORS FIRTH AND OUTERBRIDGE

552-417A, 418B. EXPERIMENTAL PHYSIOLOGY. (3 Credits.) Individual project work under Faculty supervision. Either A and/or B are open to selected students in Major Physiology programs.
STAFF AND GRADUATE STUDENTS

PSYCHOLOGY (204)

Stewart Biology Building, Room W/1, Telephone 392-4708

Psychology is the scientific study of man's mind and behaviour. It is both a social and biological science. As a social science, psychology studies man in his interactions with other members of his own species. As a biological science, it regards man as the product of evolution and so studies him in biological perspective, comparing and contrasting his behaviour with that of other species.

The data of psychology are collected within the psychological laboratory by the use of experimental methods in the study of behaviour, and outside the laboratory by systematic observation of the behaviour of man and lower animals. The combination of experimentation and observation results in a knowledge of man's behaviour as he perceives his world, learns, directs his behaviour towards certain goals, and reacts to stress, frustration, and other men. Experimentation, laboratory techniques, observational procedures, measurement, and statistical methods are important tools of the psychologist in the study of behaviour.

Psychology has many interdisciplinary aspects. The study of many psychological problems involves knowledge drawn from other disciplines such as biology, physiology, linguistics, sociology, philosophy, and mathematics. For this reason a student with varied interests can frequently find a place for these interests in psychology.

Psychology is a young science so that explanations of the processes underlying observed phenomena are often theoretical and speculative. The major objectives of psychological study are to reduce the discrepancy between theory and fact and to provide better answers about why man thinks and behaves as he does.

Although a number of undergraduate courses in psychology have applied implications, applied training is in no way the purpose of the undergraduate curriculum. The purpose of that curriculum is to introduce the student to an understanding of the basic core of psychological knowledge, theory, and method, regardless of questions of practical application.

The B.A. or B.Sc. with a Major or Honours degree in psychology is not a professional qualification. It does not qualify the individual to carry on professional work in psychology. In the Province of Quebec the minimum requirement for membership in the Corporation of Psychologists of the Province of Quebec, the professional association governing the work of psychologists in the Province, is an M.A. or M.Sc. degree, or other equivalent degree. Undergraduate courses in psychology may prove of considerable value to students planning careers in professional fields other than psychology, such as medicine, education, social work, communication disorders, or business and industry.

Students who are interested in psychology as a career must pursue graduate studies. Persons who hold graduate degrees in psychology, usually the Ph.D., may find employment in universities, research institutes, hospitals, community agencies, government departments, large corporations, or may act as self employed consultants. At the graduate level, psychology has many specialized branches including social psychology, physiological psychology, experiemental psychology, clinical psychology, child psychology, industrial psychology, community psychology, educational psychology, and others. Also at McGill at the undergraduate level, as indicated below, a student may pursue an undergraduate Major program in a wide variety of areas of specialization.

Although requirements for admission to graduate studies in psychology vary from one university to another, both the Honours and Major degrees in psychology may qualify the student for admission to many graduate schools, provided of course that sufficiently high marks are obtained.

The essential difference between the Honours and the Major program is that higher standards are required of Honours students. Honours students also have an opportunity to work in small groups closely with staff members.

Program Information

The Psychology Department offers 14 different options in its 54 credit programs. Except where otherwise stated, each of these programs may be taken as Major, Honours or Faculty programs. The differences between these three categories of programs are outlined below. The descriptions of the 10 options available in the B.Sc. program follow. See page 143 for descriptions of the options available only in the B.A. program.

PREREQUISITES

It is expected that most students who major in psychology will have taken introductory psychology and statistics at the collegial level. In the first year all major students must take general experimental psychology (204-210D) and psychological statistics (204-305A or B). Those students who have not taken a college level statistics course must also take psychology 204-204A or B in addition to the other courses in their program.

A student who has not taken an introductory psychology course at the collegial level may major in psychology by taking Psychology 204-200D in their U1 year and also the courses in psychological statistics 204-204A or B and 204-305A or B. Such students should take general experimental psychology 204-210D in their U2 year concurrently with other U2 courses.

MAJOR PROGRAM

The following options are available in the Major program in Psychology:

1. General Psychology
2. General Experimental Psychology
3. Basic Human Experimental Psychology
4. General Human Experimental Psychology
5. Cognition and Thinking
6. Child Psychology
7. Personality and Abnormal Psychology
8. Human Communications Disorders
9. Psychobiology
10. Quantitative Psychology

Call the main office of the Psychology Department (392-4708) or the Chief Adviser, Ms. Olga Favreau (392-4694) to be assigned to an adviser. In the First year of any of the above programs all Major students take Psychology 204-210D and 204-305B. Detailed descriptions of the programs will be found starting on page 225. Students majoring in psychology must obtain a minimum grade of C in all 54 credits required by their program. A grade lower than C may be made up by taking another equivalent course (if there is one), by successfully repeating the course, or by successfully writing a supplemental examination (if there is one).

HONOURS PROGRAM

Honours in psychology prepares students for graduate study, and so emphasizes practice in the research techniques which are used in graduate school and professionally later on. Honours students take Psychology 204-380D in the first year of their program (normally U2) and they take Psychology 204-480D and 204-481D in the second year (normally U3). These courses have limited enrolments, and admission to Honours is selective. There is normally room for 30-35 new Honours students each year. Students with a cumulative grade point average of 2.8 or better, are eligible to apply.

Students are normally accepted into Honours at the beginning of U2, and the two-year sequence of Honours courses continues through U3. Students who have had introductory psychology and statistics at the institution preceding McGill, *who have an exceptional academic record,* and who apply for admission to Honours in U1 will be considered for acceptance. Failure to be admitted to Honours in U1 will not prejudice application for admission in U2.

Applications can be obtained from the general office of the Department of Psychology, Room W8/1, Stewart Building. The applications must be completed and returned to the general office by 1 September of the year for which admission to Honours is sought. Candidates will be advised of the Department's decision by letter shortly after September 1. For information (other than application forms) about the Honours program, phone Professor Don Donderi, Honours Committee Chairman, at 392-4693.

FACULTY PROGRAMS

A Faculty Program in Psychology is a sequence of courses which represents a lesser degree of specialization than a Major or an Honours program. A Faculty Program may be made up of any of the Major programs with the substitution of 6 credits from U2 Psychology courses for Psychology 204-211D and 204-305A or B. The joint program in psychology and mathematics is also a Faculty Program. For further details see program information at beginning of the Science section (see page 169).

PROGRAM DESCRIPTIONS

The courses in the programs are ordered sequentially so that it will normally take three years to complete a program. The Major and Faculty Programs all include 18 credits in each of U1, U2, and U3. Students may, with the consent of their Academic Adviser, substitute up to 6 credits in a program. Any further changes must be approved by the Associate Dean of the Faculty.

When selecting optional program courses from other departments, it is the student's responsibility to see that she or he has taken the appropriate prerequisites and/or obtained permission of the department where necessary.

None of the B.A. or B.Sc. programs provides professional training. The credits to intended to give the student a general academic background in the interest D, 310D, cated by their titles. Those who are interested in practising psychology profe must obtain graduate degrees at least at the Master's level, and should pr continue on to the Ph.D. The Honours programs are most specifically designed t students who intend to go to graduate school. However, it is important to remer that admission to graduate studies is highly competitive, and that no degree guarant om entry to advanced study. Students with a Major in psychology may also, if they h A; chosen their courses appropriately and obtained high enough standing, be admitte to graduate studies, although they may sometimes be required to complete a qualifying year. Students in Faculty Programs who decide to go into graduate study in psychology will most probably have to complete a qualifying year first. Further information about advanced study in Psychology may be obtained from the American Psychological Association's Handbook on the topic. It is usually on sale in the University Bookstore.

Graduate Study

Students planning to work for a graduate degree in Psychology are advised to include Psychology 204-300A, -301B, -302A, -303B, -400D and -450D among their courses The adviser to Major students will, whenever possible, assist students in planning their courses to coincide with their professional aims. Most graduate schools require not only a record of high achievement, but also adequate performance on some entrance examinations such as the Graduate Record Examination and the Miller Analogies Test, as well as letters of recommendation.

Faculty Programs

For details, see Faculty Programs, page 169.

Major Programs

GENERAL PSYCHOLOGY OPTION

This option is intended to give maximum flexibility to the students in designing their own programs. In this 54 credit option at least 36 credits must be in psychology courses. These latter must include Psychology 204-210D and 204-305A or B as well as 12 credits in U3 Psychology courses. If fewer than 54 credits in psychology are taken, then the difference between that number and 54 must be made up by selecting certain courses in other departments from the following list (students are warned that the list may not be up to date in September 1973; the relevant department should be consulted before choosing).

Anatomy 504-421B; Anthropology 151-E21A, E22B, 205A, 206B, 228A, 303B, 310B, 312B, 314A, 316A, 321B, 404B, 428B; Biochemistry 507-455B; Biology 177-E10D, E27A, 201D, 205D, 303A, 305A, 325A, 326B, 349D, 352D, 370B, 372B, 385A, 386D, 391A, 392B, 394B, 471B, 488B, 493B; Computer Science 308-220A or B; Geography 183-214A, 215B, 217B, 300B; Linguistics 104-200A or B, 201D, 230A, 241B, 321B; Mathematics 189-217A, 218B, 223A, 245A, B, 314A, B, 317A, 318A, 323A, 324B, 327B, 328B, 417A, 423A, 424B; Philosophy 107-210A, 211B, 313D, 321A, 410D, 417D, 420D; Physiology 522-201A, 202B, 211D; Sociology 166-E21A or E22A or E23A and E42B or E44B or E45B, 222B, 223A, 227A, 247B, 309A, 404B, 407A, 439B.

GENERAL EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D, 305A, B; plus 9 Credits from U2 Psychology courses which are open to U1 students.

U2 Courses: Psychology 204-300A, 301B; plus 12 Credits to be selected from Psychology 204-302A, 303B, 304D, 308D, 309B, 310D, 330A, 331B, 335A, 336B.

U3 Courses: Psychology 204-400D plus 12 Credits to be selected from the list of U2 options above.

BASIC HUMAN EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B; plus 6 Credits from U2 Psychology courses which are open to U1 students.

MAJOR *urses:* Psychology 204-300A, 301B, 302A, 303B; plus 6 Credits to be selected
The follo ychology 204-307D, 310, 335A.
ourses: Psychology 204-400D, 401D; plus 6 credits to be selected from: Psy-
1/2 204-403B, 404B, 425A, 430B.

NERAL HUMAN EXPERIMENTAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B; plus 6 Credits from U2 Psy-
ology courses that are open to U1 students.

U2 Courses: Psychology 204-300A, 301B, 302A, 303B; plus 6 Credits chosen from among other U2 psychology courses.

U3 Courses: Psychology 204-400D; plus 6 or 9 Credits to be selected from: Psychology 204-401D, 403B, 404B, 415D, 425A, 430B. The balance of 18 Credits to be selected from among U2 and U3 courses.

COGNITION AND THINKING OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B; plus 6 Credits to be selected from: Mathematics 189-245A, B; Computer Science 308-200A, B, 210A, B; Philosophy 107-210A; Linguistics 104-200A, B.

U2 Courses: Psychology 204-302A, 303B, 340A; plus 9 Credits to be selected from: Psychology 204-335A, 336B, 304D, 301B, 310D; Anthropology 151-E22B; Mathematics 189-328B. Up to 6 credits from the optional U1 courses listed in this program if not already taken.

U3 Courses: Psychology 204-410D; plus 12 credits from: Psychology 204-400D, 403B, 404B, 410D, 425A, 431B, 451D, 452D, 456D, 450D; Linguistics 104-321B, 480A. Up to 6 credits from the optional courses of U1 or U2 listed in this program if not already taken.

CHILD PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B; plus 6 Credits to be selected from Sociology, Geography, Anthropology or Biology.

U2 Courses: Psychology 204-304D; plus 9 Credits to be selected from: Psychology 204-300A, 301B, 302A, 303B, 309B, 310D, 330A, 331B, 332A, 337A, 338B, 340A, 341B; plus 3 credits to be selected from courses in Biology, Geography, Anthropology or Sociology.

U3 Courses: Psychology 204-410D; plus 9 Credits to be selected from: Psychology 204-400D, 401D, 404B, 406B, 408A, 411D, 412A, 415D, 425A, 430B, 451D, 456D, 458D; plus 3 credits to be selected from courses in Anthropology, Geography, Biology or Sociology.

PERSONALITY AND ABNORMAL PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; 305A, B; plus 9 Credits to be selected from: Biology 177-205D; Sociology 166-E21A or E22A or E23A and 166-E42B or E44B or E45B, 166-217A; Geography 183-214A, 215B; Anthropology 151-314A, 206B, 228A, 310B, 312B; Psychology 204-211D.

U2 Courses: Psychology 204-337A, 338B; plus 12 Credits to be selected from: Psychology 204-300A, 301B, 302A, 303B, 340D, 308D, 309B, 332A, 404B; Biology 177-370B; Physiology 552-211D, 201A; Philosophy 107-301A, 302B; Sociology 166-309A, 227A, 228A, 247A.

U3 Courses: Psychology 204-491D, 408A; plus 9 Credits to be selected from: Psychology 204-310D, 400D, 405B, 412A, 433B, 458B, 456D.

HUMAN COMMUNICATION DISORDERS OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B, 214D.

U2 Courses: Linguistics 104-201D; Psychology 204-300A, 337A; plus 6 Credits to be selected from: Psychology 204-303B, 340A, 308D, 301B, 302A, 303B, 304D, 310D, 404B.

U3 Courses: Psychology 204-408A; Linguistics 104-350A, 351B; plus 9 Credits to be selected from: Psychology 204-303B, 340A, 308D, 301B, 302A, 303B, 304D, 310D, 404B.

PSYCHOBIOLOGY OPTION

U1 Courses: Psychology 204-210D, 211D, 305A, B; Biology 177-205D.

U2 Courses: Psychology 204-300A; 301B, 308D; plus 6 Credits to be selected from Psychology 204-302A, 303B, 309B; Biology 177-201D, 305A, 318B, 386B, 391A; Physiology 552-211D.

U3 Courses: Psychology 204-420D; plus 12 Credits selected from: Psychology 204-404B, 430B, 454D; Biology 177-302B, 487B, 488B, 493D; Pharmacology 549-461D.

QUANTITATIVE PSYCHOLOGY OPTION

U1 Courses: Psychology 204-210D; Mathematics 189-222A, B, 245A, B; Computing Science 308-200A, B or 220A, B.

U2 Courses: Psychology 204-302A, 303B; Mathematics 189-323A, 324B; plus 3 Credits to be selected from: Mathematics 189-314A, B, 317A, 327B, 328B; plus 6 Credits selected from Psychology non-statistics courses.

U3 Courses: Psychology 204-335A, 336B; Mathematics 189-423A, 424B; plus 3 Credits selected from the U2 mathematics optional course list or from: Mathematics 189-417A, 447B; plus 6 credits selected from Psychology non-statistics courses.

Course Descriptions

NOTE: *Prerequisites:* Psychology 204-200D or an equivalent introductory course is a prerequisite for all psychology courses with the exception of 204-204A and B, and 204-305A and B. All 200 and 300 courses are open to students other than Major and Honours students in psychology provided the prerequisites are met and unless otherwise specified.

For more detailed information about courses in psychology see *Handbook of Courses and Programs in Psychology* which is on sale at the Bookstore.

204-200D. INTRODUCTION TO PSYCHOLOGY. (6 Credits; 2 lectures, 1 conference.) *Text:* Hebb: *A Textbook of Psychology,* 3rd ed.
PROFESSORS MELZACK AND STERN

204-203A. EMOTION. (3 Credits; 2 lectures, 1 conference.) A review of the available knowledge bearing on the explanation of the behaviour and experience that characterize emotional states, such as anger, elation, anxiety and depression. Implications of current psychophysiological research on emotion for the problems of health, the arts, and social life will be explored. **NOTE:** This course has no prerequisites; it is designed for students in areas other than psychology. Students in psychology Honours and Major programs may take this course as an elective but may not use credit in this course towards meeting requirements of prescribed programs.
PROFESSOR ———

204-204A, B. INTRODUCTION TO PSYCHOLOGICAL STATISTICS. (3 Credits; 2 lectures, 1 conference. Required of all Majors in Psychology and students intending to enter Honours in Psychology.) The statistical analysis of psychological data; frequency distributions; graphic representation; measures of central tendency and variability; elementary probability theory; the normal probability curve; simple correlation methods; elementary sampling theory and tests of significance. *Text:* Ferguson: *Statistical Analysis in Psychology and Education,* 3rd ed. **NOTE:** This course is a prerequisite for Psychology 204-305A, B, 307D, 406B, 453D.
PROFESSOR FERGUSON

204-206B. MAN AND COMPUTER. (3 Credits; 2 lectures, 1 conference.) This course considers the basic structures of computers, computer-based psychological theories, the problem of artificial intelligence and the impact of computers on society and man's concept of himself. **NOTE:** This course has no prerequisites; it is designed for students in areas other than psychology. Students in psychology Honours and Major programs may take this course as an elective but may not use credit in this course towards meeting requirements of prescribed programs.
PROFESSOR BREGMAN

204-210D. GENERAL EXPERIMENTAL PSYCHOLOGY. (6 Credits; required of all Major students. Open to other students with permission of the course coordinator. This course is organized around self-instructional learning modules and one optional weekly lecture.) A comprehensive review of the problems, methods, and findings in various areas of psychology.
PROFESSOR CAMPBELL

204-211D. LABORATORY METHODS IN PSYCHOLOGY. (3 Credits; 1 lecture, 1 conference plus independent laboratory work. This course is recommended for students planning a career in psychology, and should be taken concurrently with Psychology 204-210D.) Training in laboratory methods is given by requiring students to prepare and present demonstrations of psychological experiments. *Text:* Johnson & Solso: *An Introduction to Experimental Design in Psychology: A Case Approach,* 1971. PROFESSOR DONDERI

204-214D. INTRODUCTION TO HUMAN COMMUNICATION DISORDERS. (6 Credits; 2 lectures, 1 conference.) An introductory survey of speech and language pathology, audiology, and aural rehabilitation, including diagnostic and rehabilitative procedures, theoretical bases, and current research findings. *Text:* Davis & Silverman: *Hearing and Deafness,* 3rd ed. PROFESSOR BARTHOLOMEUS

204-300A. MOTIVATION I. (3 Credits; 2 lectures, 1 conference.) Motivation is considered in terms of the internal and external factors which act to direct behaviour. Basic principles of motivation are developed, based on the behaviour of both animals and humans. Emphasis is on the evolutionary development of behaviour, and therefore the material considered is mainly from animals. *Texts:* Cofer: *Motivation and Emotion;* Bindra and Stewart: (Eds.) *Motivation.* **NOTE:** This course is prerequisite for Psychology 204-309B. PROFESSOR WHITE

204-301B. LEARNING. (3 Credits; 3 lectures.) The phenomena of learning, emphasizing human learning, from both the theoretical and practical points of view. *Texts:* Burger & Seaborne: *The Psychology of Learning;* Smith & Rohrman: *Human Learning.* PROFESSOR DONDERI

204-302A. PERCEPTION. (3 Credits; 2 lectures, 1 conference.) The organization of sensory input into a representation of the environment. Topics such as perception and the moving observer, pattern recognition, computers and perception, speech perception, sensory-motor rearrangement. PROFESSOR MARLEY

204-303B. THINKING. (3 Credits; 2 lectures, 1 conference.) An introduction to the study of higher mental processes. Topics such as: development of thought and language, problem solving, concept formation, imagery, artificial intelligence. PROFESSOR MARLEY

204-304D. CHILD PSYCHOLOGY. (6 Credits; 2 lectures, 1 conference.) A study of current theory and knowledge about psychological processes in children, with particular attention to the development of intelligence, language and social behaviour. **NOTE:** This course is a prerequisite for 204-410D and 412A. PROFESSOR RABINOVITCH

204-305A, B. PSYCHOLOGICAL STATISTICS. (3 Credits; 2 lectures, 1 conference. *Prerequisite:* Psychology 204-204A or B.) An introduction to the design and analysis of experiments, including analysis of variance, trend analysis, nonparametric statistics, and multiple regression. *Text:* Ferguson: *Statistical Analysis in Psychology and Education,* 3rd ed. **NOTE:** This course is prerequisite for Psychology 204-453D, 456D. PROFESSOR CORBALLIS

204-307D. MULTIVARIATE ANALYSIS OF PSYCHOLOGICAL DATA. (3 Credits; *Prerequisites:* Psychology 204-204A or B and permission of instructor; Not given in 1973-74.) Common multivariate statistical methods such as multiple regression and factor analysis, and an introduction to the use of the computer for data analysing employing these methods.

204-308D. PHYSIOLOGICAL PSYCHOLOGY. (6 Credits; 2 lectures, 1 conference.) The neural basis of motor and sensory functions, motivation, attention, and learning. *Text:* Milner: *Physiological Psychology.* PROFESSOR MILNER

204-309B. MOTIVATION II. (3 Credits; *Prerequisite:* Psychology 204-300A; 2 lectures, 1 conference.) The development of motivation in individual organisms is studied, with emphasis on the relationship between emotional and motivated behaviour. Human data are considered, including material from the personality theory and abnormal behaviour literature. Reading consists of assignments made during the course. PROFESSOR WHITE

204-310D. NATURE AND MEASUREMENT OF HUMAN ABILITIES. (6 Credits; 2 lectures, 1 conference.) An introduction to the description and theory of human ability, its correlates and the role of learning and heredity in its formation; factors producing changes in ability. Test construction and methods of measurement. *Text:* Tyler: *The Psychology of Human Differences.* PROFESSOR CORSON

204-311A. COMPARATIVE PSYCHOLOGY. (3 Credits; Not given in 1973-74.) The organization and development of ethologically significant behaviour; food gathering, hunting, aggression, territoriality, sexual and maternal responses are discussed in an evolutionary context with a view to the understanding of human behaviour.

204-312B. THE EVOLUTIONARY BASES OF HUMAN BEHAVIOUR. (3 Credits; Not given in 1973-74.) A consideration of man's behaviour from an evolutionary viewpoint, including discussions of archaeological findings relating to man's early development, evidence of biological evolution in post-cultural man, and field studies of contemporary sub-human primates.

204-330A. INTRODUCTION TO SOCIAL PSYCHOLOGY. (3 Credits; 2 lectures, 1 conference.) Introduction to basic concepts and theories in the area of social cognition, attitudes, and

interpersonal processes. **NOTE:** This course is prerequisite for 204-331B.
PROFESSOR TAYLOR

204-331B. SELECTED TOPICS IN SOCIAL PSYCHOLOGY. (3 Credits; *Prerequisite:* Psychology 204-330A. No lectures will be given.) An intensive study of selected research areas in social psychology. Topics will be selected each year that reflect the interests of the instructor and students. The course will emphasize independent study and student-led seminars in which students present and discuss papers which they have prepared. PROFESSOR TAYLOR

204-332A. INTRODUCTION TO PERSONALITY. (3 Credits; 2 lectures, 1 conference.) A broad survey of theories of personality. The student is introduced to most of the major theoretical positions. **NOTE:** This course is prerequisite for Psychology 204-433B.
PROFESSOR ————

204-335A. QUANTITATIVE PSYCHOLOGY I. (3 Credits; 2 lectures, 1 conference.) An introduction to mathematical theories in psychology, and to related experiments. The content of the course will be partially determined by the interests of the class. Topics such as: contemporary psychophysics, individual and group decision making, information processing and automaton-theoretic approaches to perception and cognition. PROFESSOR MARLEY

204-336B. QUANTITATIVE PSYCHOLOGY II. (3 Credits, 3 lectures.) Principles of scientific measurement, various specialized least squares models, multidimensional scaling, game theory, and information theory. *Text:* Coombs, Dawes and Tversky: *Mathematical Psychology.*
PROFESSOR ————

204-337A. INTRODUCTION TO ABNORMAL PSYCHOLOGY. (3 Credits; 2 lectures, 1 conference.) A survey of the genetic, physiological and environmental origins of intellectual and emotional disorders. **NOTE:** This course is prerequisite for 204-338B. PROFESSOR PIHL

204-338B. BEHAVIOUR PROBLEMS. (3 Credits; *Prerequisite:* Psychology 204-337A; 2 lectures and 1 conference.) An introduction to psychotic behaviour problems, character disorders, experimental methods of pathology and behaviour modification. **NOTE:** This course is prerequisite for Psychology 204-491D. PROFESSOR PIHL

204-340A. THE PSYCHOLOGY OF LANGUAGE. (3 Credits; *Prerequisite:* An introductory course in Psychology or Linguistics; 2 lectures, 1 conference.) The nature of the psychological processes involved in speech and language are considered in relation to maturational and environmental factors. *Text:* Slobin: *Psycholinguistics.* PROFESSOR TUCKER

204-341B. SELECTED TOPICS IN PSYCHOLINGUISTICS. (3 Credits; 2 lectures, 1 conference.) The course will discuss the psychological aspects of bilingualism in individual, school and society. PROFESSOR MACNAMARA

204-380D. SEMINAR ON EXPERIMENTAL PROBLEMS. (6 Credits; 3 hour seminar. For Honours students only.) Honours students present current literature reports in individual program areas, for discussion. Then each student starts an original investigation in collaboration with an individual staff member. STAFF

204-400D. CONTEMPORARY PSYCHOLOGICAL THEORY. (6 Credits; 2 lectures, 1 conference.) Recent progress towards the integration of psychological knowledge into a coherent framework is discussed with reference to theoretical ideas and experimental evidence in the areas of learning, motivation, perception, thinking, personality, and mental abnormality.
PROFESSOR ————

204-401D. COGNITIVE PROCESSES. (6 Credits; 2 lectures, 1 conference.) *Prerequisites:* Psychology 204-301B, 302A, 303B.) The study of the acquisition, storage, transformation and use of knowledge. Theories based on associationist, stimulus-response, Gestalt, computer and logical models of thought are evaluated. Application to processes of concept formation, problem solving, language and memory. PROFESSOR BREGMAN

204-403B. MODERN PSYCHOLOGY IN HISTORICAL PERSPECTIVE. (3 Credits; 2 lectures, 1 conference.) A survey of the social and idealogical influences on psychology from its philosophical beginnings through the period of the schools to its modern situation.
PROFESSOR ————

204-404B. ATTENTION AND MEMORY. (3 Credits; 2 lectures, 1 conference. This course is restricted to U3 students.) A critical examination of recent research on how man selects, codes, stores and retrieves information. Phenomena of visual and auditory storage, coding and rehearsal in memory, imagery, the nature of forgetting and mechanisms of retrieval are discussed in relation to information processing models. PROFESSOR CORBALLIS

204-405B. AGING. (3 Credits; *Prerequisite:* Psychology 204-210D and 204-304D or permission of instructor; 2 lectures, 1 conference.) A review and discussion of the available knowledge on how the process of aging affects the individual's intellectual and personality functioning with attention to the interacting processes. Research as related to intellectual and perceptual changes, memory and adaptive capacity will be assessed and problems related to research in this field considered. PROFESSOR WIGDOR

204-406B. PSYCHOLOGICAL TESTS AND MEASUREMENT. (3 Credits; *Prerequisite:* Psychology 204-204A or B or its equivalent. 2 lectures, 1 conference.) An introduction to the theory and practice of psychological and educational measurement. Special attention will be paid to the theoretical problems involved in the use of measurement techniques and statistics in psychology. A wide variety of tests will be discussed in the areas of clinical, social, educational, and personality psychology. PROFESSOR MACNAMARA

204-408A. PRINCIPLES OF BEHAVIOUR MODIFICATION. (3 Credits; *Prerequisites:* Psychology 204-337A and 204-300A or permission of instructor; 2 lectures, 1 conference.) An introduction to theory and research relevant to the modification of human behaviour. Emphasis will be on those studies in which specific behaviour — sub-optimal or maladaptive — is altered in accordance with contemporary principles of learning. Some opportunity for field work may be available. *Text:* Kanfer & Phillips: *Learning Foundations of Behavior Therapy.* PROFESSOR POSER

204-410D. ADVANCED CHILD PSYCHOLOGY. (6 Credits; *Prerequisite:* Psychology 204-304D. The course involves bi-weekly panel discussions of 1 hour and alternate week planning sessions of 1 hour as well as informal meetings with small groups of students.) An intensive study of selected areas of child psychology such as cognitive and perceptual development, language development, and social and personality development. PROFESSOR SHULTZ

204-411D. SELECTED TOPICS IN SOCIAL PSYCHOLOGY. (6 Credits; 3 lectures, 1 conference.) A broad coverage of various sources of influence that shape personalities and give structure to human behaviour. The attempts of social philosophers to explain man's social nature are contrasted with contemporary, more experimental approaches, e.g. cognitive, learning-theory, group process, and cultural. PROFESSOR LAMBERT

204-412A. DEVIATIONS IN CHILD DEVELOPMENT. (3 Credits; *Prerequisite:* Psychology 204-304D; 2 lectures, 1 conference.) This course will consider deviations in perceptual, cognitive, social and emotional development. Emphasis will be on research and theory which underline the complex interactions among constitutional and environmental factors which lead to such disorders as brain injury, psychosis, mental retardation, learning difficulties and behaviour problems. *Text:* Quay & Werry (Eds.) *Psychopathological Disorders of Childhood, 1972.* PROFESSOR S. CAMPBELL

204-415D. STUDY OF ADOLESCENTS. (6 Credits; 1 lecture, 1 conference, 3 hours field work; Not given in 1973-74.) The course deals with the adolescent's (a) bodily changes; (b) sex-related behaviour and interests; (c) peer and family relationships; (d) patterns of response to authority; (e) identity strivings; (f) learning, achievement, and vocational concerns; (g) patterns of motivated and emotional behaviours; (h) types of coping style. Students will work with troubled adolescents as tutors and advisors.

204-420D. ADVANCED PHYSIOLOGICAL PSYCHOLOGY. (6 Credits; *Prerequisite:* Psychology 204-308D or permission of instructor; 2 lectures.) The behaviour of animals at various phylogenetic levels, with particular emphasis on the relation between the nervous system and behaviour. *Text:* Milner: *Physiological Psychology.* PROFESSOR MILNER

204-425A. LANGUAGE AND THOUGHT. (3 Credits; *Prerequisite:* a course in psycholinguistics or in linguistics or in the philosophy of language; 2 lectures, 1 conference.) The meaning of meaning, the psychological nature of linguistic competence, the relations between language and thought, between language and logic, machine translation, the learning of language by infants — these are among the topics which will be discussed in the light of contemporary theory and research in psychology, linguistics and philosophy. The course is for students with a serious interest in language. PROFESSOR MACNAMARA

204-430B. CONSTITUTIONAL FACTORS IN BEHAVIOUR. (3 Credits; Seminar.) Individual differences in motivational and temperamental characteristics will be examined in relation to constitutional-experimental interactions with special reference to genetic factors, blood-chemistry variables, and environmental influences. PROFESSOR STERN

204-431B. PHILOSOPHICAL PROBLEMS IN PSYCHOLOGY. (Also Philosophy 107-493B. 3 Credits; 1 2-hour seminar, 1 conference; Not given in 1973-74.) The relationship of modern psychological theories and data to ethical problems will be studied. Particular examination will be made of the problems of freedom and responsibility.

204-433B. SELECTED TOPICS IN PERSONALITY. (3 Credits; *Prerequisite:* Psychology 204-332A; 2 lectures, 1 conference.) An intensive study of the behavioural approach to personality. The emphasis is on a functional analysis of personality. PROFESSOR ———

204-450D. EXPERIMENTAL PROBLEMS. (6 Credits; *Prerequisites:* Psychology 204-300A, 301B, or 302A and permission of instructor.) Practical experience in research methods. The class is divided into sections of 10-12 students which meet for 3 hours each week. Specific procedures may vary among sections, but in addition to class meetings students carry out one or more research projects and write a thesis based on one of them. Primarily for Major and Partial students who intend to proceed to graduate studies. **NOTE:** Students will be

admitted on the basis of a written application on forms available from the Department (Room W8/1). Applications must be submitted by September 1. STAFF

204-451D. STUDY OF THE INTELLECTUALLY AND EMOTIONALLY HANDICAPPED. (6 Credits; 1 lecture, 1 conference, 4 hours laboratory; *Prerequisite:* Permission of instructor.) The effects of environmental deprivation on intellectual, motivational and emotional development will be examined. Students will participate in a service and research project in community programs dealing with children from disadvantaged environments who have educational and emotional handicaps. PROFESSOR ———

204-452D. COGNITIVE DEVELOPMENT. (6 Credits; *Prerequisites:* Psychology 204-302A or 304D and permission of instructor.) Theories and research in early cognitive development with emphasis on Piaget's work. Topics covered include early experience, environmental stimulation and deprivation, and their effects on later development, the relation between cognitive and emotional growth and the role of pre-school education. As much as possible instruction will be offered in modular form: students will study a selected number of topics independently and at their own pace. Peer interaction and consultations with the instructor and assistant will complement the individual work. Wherever feasible field work will be integrated in the course work. PROFESSOR GOLDSCHMID

204-453D. PSYCHOLOGY AND CONTEMPORARY ISSUES. (6 Credits; *Prerequisites:* Psychology 204-204A or B, 305A or B and two other psychology courses. 1 seminar a week.) A student-directed course. Students select their own topics of study and work on them, under the direction of staff members, singly or in groups. Students also evaluate the work done — theoretical papers or research reports — on a pass-fail basis. STAFF

204-454D. LABORATORY METHODS IN PSYCHOBIOLOGY. (3 Credits; *Prerequisite:* permission of instructor; 1½ hour seminar.) Methods used in comparative and physiological studies are reviewed and evaluated with emphasis on the assumptions and principles underlying the major techniques. Laboratory demonstrations and exercises. *Text:* Skinner: *Neuroscience, A Laboratory Manual.* PROFESSOR CAMPBELL

204-455D. RESEARCH METHODS IN PSYCHOLINGUISTICS. (6 Credits; 3 hour seminar. Restricted to graduate and final year students in psychology and linguistics.) Various research approaches used by psychologists and linguists will be critically evaluated. Each student will select and conduct a major research project which he will discuss with other seminar members during the course of the year. The use of basic, relevant methodological tools will be reviewed and the effects of experimenter expectancy will be discussed. PROFESSOR TUCKER

204-456D. APPLICATION OF PSYCHOLOGICAL PRINCIPLES TO EDUCATIONAL PROBLEMS. (6 Credits; *Prerequisites:* Psychology 204-305A or B and permission of instructor; 2 lectures.) Psychological principles of learning, behavioural analysis, and individual differences as they relate to the problems of education and instruction. Students will design and conduct experiments. This course is not intended to meet the requirements for the course in Educational Psychology required as part of the training program for teachers. PROFESSOR PASCAL

204-458B. METHODS OF BEHAVIOUR CHANGE. (3 Credits; *Prerequisites:* Psychology 204-408A and permission of instructor; 1 lecture, 2 conferences.) Various techniques of behaviour change will be evaluated in the light of their practical efficacy. In the course of supervised field work, in hospitals and schools, students will have an opportunity to apply some of these techniques systematically. PROFESSOR POSER

204-480D. CONTEMPORARY PSYCHOLOGICAL THEORY. (6 Credits. For Honours students only. 2 lectures, 1 conference.) Recent progress towards the integration of psychological knowledge into a coherent framework is discussed with reference to theoretical ideas and experimental evidence in the areas of learning, motivation, perception, thinking, personality, and mental abnormality. PROFESSOR ———

204-481D. EXPERIMENTAL PROBLEMS. (6 Credits; 2 hours plus laboratory; for Honours students only.) A seminar on current problem areas. Supervised investigation of a special field. STAFF

204-491D. ADVANCED STUDY IN BEHAVIOURAL DISORDERS. (6 Credits; *Prerequisites:* Psychology 204-337A and 338B and permission of instructor; 3 hours lecture or tutorial.) A critical examination of the necessary conditions in behavioural problems. Emphasis will be on analysis of theoretical positions and experimental findings as they relate to both etiology and treatment. PROFESSOR PIPER

204-492A/204-493B. SEMINARS IN SPECIAL TOPICS. (3 Credits.) Each seminar under this title is given at the discretion of an individual instructor. A list of all seminars offered in a particular year, together with the description of topics and conditions of admission, will be published annually in the Department's Handbook of Courses and Programs. A student may not register in more than one of these seminars in any year. STAFF

COURSES IN THE FACULTY OF MANAGEMENT

The Faculty of Management offers the following courses in the Behavioural Sciences: 280-221A, Behavioural Science 1 (3 credits); 280-222B, Behavioural Science II (3 credits); 272-420A, Group Dynamics and Interpersonal Relations (3 credits); 272-421B, Strategies of Management and Organization Development (3 credits); 275-458A, Consumer Behaviour (3 credits); 275-495A, Marketing Research (3 credits).

Where appropriate to a student's program, and with the permission of the program adviser, one or more of these courses may be taken for credit by students enrolled in programs in psychology. Programs in such fields as personnel management, administrative behaviour, and consumer behaviour are also available to students through a cooperative arrangement between the Faculty of Management and the Department of Psychology.

11 ALPHABETICAL LIST OF STAFF

ABRAMOVITCH, H.	Microbiology and Immunology
ABRAMSON, H. D.	Computer Science
ADAMS, C. J.	Religious Studies
ADDISON, J. R.	Physics
ALI KHAN, Z.	Microbiology
AMASUNO, M.	Spanish Language and Literature
ANANTHANARAYANAN, K.	Computer Science
ANDERSON, H. S.	English
ANDERSON, W.	Mathematics
ANGENOT, M.	French Language and Literature
ARCAND, B.	Anthropology
ARNOLD, A.	Chairman, German Department
ARONSON, D. R.	African Studies Program; Anthropology
ASIMAKOPOULOS, A.	Economics
AUBERT, J. P.	French as a Second Language
AUCLAIR, A. N.	Biology
AUDERSET, C.	Mathematics
AUSTIN, G. L.	Physics
AUSTIN, P. M.	Russian and Slavic Studies
AVERY, M. E.	Physiology
BAIRSTOW, F.	Economics; Director, Industrial Relations Studies Program
BAMBA, N.	History
BARR, M.	Mathematics
BARRET, G.	French Language and Literature
BAUER, L.	Russian and Slavic Studies
BAYLEY, C. C.	German
BEACH, E. F.	Economics
BEATTY, H. A.	Philosophy
BECK, J.	Mathematics
BELL, R. E.	Principal and Vice-Chancellor; Physics
BELLEAU, B.	Chemistry
BENFEY, B. G.	Pharmacology and Therapeutics
BENNETT, G. C.	Anatomy
BERGMANN, R.	Art History
BERNARD, A.	Centre d'Etudes Canadiennes-Françaises
BERTOS, R.	Art History
BINDRA, D.	Psychology
BIRCHER, M.	German
BIRD, J. B.	Chairman, Geography Department
BIRKS, R. I.	Physiology
BIRMINGHAM, M. K.	Biochemistry
BIRNIE, J.	Chemistry
BLAISE, B.	English
BLIDSTEIN, B.	Psychology
BLIDSTEIN, G. J.	Jewish Studies Program
BLOCK, V. R.	German
BLOSTEIN, R.	Biochemistry
BOLKER, H.	Chemistry
BOLL, W. G.	Biology
BOORMAN, J. A.	Religious Studies
BOOTH, W. T.	English
BOOTHROYD, E. R.	Biology
BORBA, N.	Mathematics
BORGHI, G.	Mathematics
BOSCHENSTEIN, H.	German
BOUCHARD, D. F.	English
BOUCHER, J. P.	French Language and Literature
BOULLE, P. H.	History
BOYARSKY, A.	Mathematics
BOYES, J. W.	Biology
BRACKEN, H. M.	Jewish Studies Program; Philosophy

BRAHIM, F.	Anatomy
BRANDHORST, B. P.	Biology
BRAUN, P. E.	Biochemistry
BRAZEAU, M.	Microbiology and Immunology
BRECHER, I.	Economics
BRECHER, M.	Political Science
BREGMAN, A.	Psychology
BREITSPRECHER, S.	Mathematics
BRETTLER, E.	Mathematics
BRIANT, P.	Economics
BRISEBOIS, M.	Social Work
BRISTOL, M.	English
BROOKFIELD, H.	Geography
BROWN, J.	Mathematics
BROWN, R.	Chemistry
BROWN, W.	Mathematics
BRUCE, M.	English
BRUNEAU, T.	Political Science
BUITENHUIS, P.	English
BUNGE, M.	Mathematics
BUNGE, M.	Philosophy
BURCHILL, C. S.	History; Centre for East Asian Studies
BURGESS, J.	English
BURRAGE, D. J.	Computer Science
BUSSEY, A. H.	Biology
BUTAS, C. A.	Microbiology and Immunology
BUTLER, I. S.	Chemistry
BUTLER, J. W.	Computer Science
BUTLER, P.	Political Science
BUTLER, W.	Mathematics
CACOULLOS, T.	Mathematics
CAHEN, P.	Mathematics
CAHN, S.	Biology
CAMPBELL, J.	Psychology
CAMPBELL, S.	Psychology
CAPEK, R.	Pharmacology and Therapeutics
CARROLL, M. P.	Sociology
CARROLL, R. L.	Biology
CARSON, M. A.	Geography
CARTWRIGHT, M. T.	French Language and Literature
CAVE, G. C. B.	Chemistry
CECIL, C. D.	English
CHAMPIGNEUL, Y.	French Language and Literature
CHAN, E. C. S.	Microbiology and Immunology
CHAN, R.	Mathematics
CHAN, T. H.	Chemistry
CHANG, J.	East Asian Language and Literature
CHANG, T. M. S.	Physiology
CHARTERIS, J. N.	History

1.1 ADMINISTRATIVE OFFICERS

Robert E. Bell, C.C., B.A., M.A. (U.B.C.), Ph.D., D.Sc. (U.N.B.), LL.D. (Tor.), F.R.S., F.R.S.C.	Principal and Vice-Chancellor
Stanley B. Frost, B.D., M.Th. (London), Dr. Phil. (Marburg), D.D. (Vic., Tor.), D. Litt. (Mem.)	Vice-Principal (Administration and Professional Faculties)
Eigil Pederson, B.A. (SGWU), M.A. (McGill), D.Ed. (Harvard).	Vice-Principal (Academic)
Allan C. McColl, D.F.C., B.Com., C.A.	Director of Finance
Ernest R. Ambrose, D.D.S., F.I.C.D., F.A.C.D.	Dean of the Faculty
Kenneth C. Bentley, D.D.S., M.D., C.M., F.I.C.D.	Dental Surgeon-in-Chief, Montreal General Hospital
Lyman E. Francis, D.D.S., M.Sc., F.A.C.D., F.R.C.D.(C), F.I.C.D.	Assistant Dean (Graduate Studies and Research)
William D. Sanders, B.Sc., D.D.S.	Assistant Dean (Undergraduate)
John H. Holton, B.Com. (Tor.)	Secretary of the Board of Governors
Colin M. McDougall, D.S.O., B.A.	Registrar

2 GENERAL INFORMATION

2.1 REQUIREMENTS FOR ENTRANCE

The minimum requirement for admission to the study of dentistry is the satisfactory completion of EITHER the Collegiate program in the Province of Quebec OR two full years in a four year program leading to the B.A. or B.Sc. degree (or the equivalent thereof). In each instance the program *must* include one full year course in each of the following subjects:

English
Mathematics
Physics, with laboratory
Inorganic or General Chemistry, with laboratory
Organic Chemistry, with laboratory
General Biology or Zoology, with laboratory (half year of Botany and half year of Zoology will be accepted, but not one year of Botany alone)

On the successful completion of the second year of the Dental program, students who have entered this Faculty from the third year of the old curriculum of the Faculty of Arts or Science of McGill University are eligible to apply for their B.A. or B.Sc. degree. Students are advised to confirm their eligibility for this degree with the Faculty concerned.

Applicants who have completed the academic requirements may be required to take an aptitude test upon their admission to the study of dentistry.

Canadian applicants are requested to undertake the Canadian Dental Association Aptitude Test and have the results sent to the Faculty. Detailed information may be obtained from the Administrator, Dental Aptitude Test Program, The Canadian Dental Association, 234 St. George Street, Toronto 180, Ontario.

Candidates applying from the United States should take the American Dental Association Aptitude Test and have the results sent to the Faculty of Dentistry.

Application for admission to the Faculty of Dentistry must be made upon the regular application form which may be obtained from the Secretary of the Faculty. As the number of students in each class is limited, application should be made early and in any case not later than the *first of March.* Each application must be accompanied by a *non-returnable fee of $15.00* in the form of a cheque or money order payable to McGill University. Students registered at McGill are exempt from this fee.

A reservation fee of $50.00 is payable by the applicant within ten days of the receipt of notice that he has been accepted for admission. This fee will be credited towards the applicant's University fees, but *will not be returned* if he fails to register at the opening of the session.

2.2 PROFESSIONAL PRACTICE

Applicants are reminded that a University degree in dentistry does not in itself confer the right to practise the profession of dentistry. It is necessary to comply with the dental laws of the country, state, or province in which it is proposed to begin practice. *Students therefore are, advised to register their qualifications at the beginning of their University course with the licensing body in the area in which they intend to practise.*

2.2.1 PROVINCIAL REQUIREMENTS

2.2.1.1 Province of Quebec

In the case of those who intend to practise in the Province of Quebec, it is essential that the candidate register with the College of Dental Surgeons of the Province of Quebec upon commencing his dental studies. Further information may be obtained from the Registrar of the College of Dental Surgeons of the Province of Quebec, 801 Sherbrooke Street East, Montreal 132, Quebec.

Candidates who have successfully completed the regular program as given in the Faculty of Dentistry, McGill University, may be granted the licence; provincially, by the satisfactory completion of the College of Dental Surgeons of the Province of Quebec progress survey throughout the program; and nationally, by registering with the National Dental Examining Board prior to the completion of the final year of studies.

2.2.1.2 Other Provinces

The following is a list of the provincial Dental Boards in Canada. Students are advised to write to those listed below for information whenever they are in doubt as to the regulations of any province.

ALBERTA – Dr. G.E. Decker, 9901 – 108 Street, Edmonton.
BRITISH COLUMBIA – Mr. K. Croft, Managing Director, 325–925 West Georgia St., Vancouver 1.
MANITOBA – Dr. Ross McIntyre, 308 Kennedy St., Winnipeg 2.
NEW BRUNSWICK – Dr. H.H. Peters, 440 Champlain St., Saint John.
NEWFOUNDLAND – Dr. B.L. Bowden, 203 Lemarchant St., St. John's.
NOVA SCOTIA – Dr. S.G. Bagnall, P.O. Box 604, Halifax.
ONTARIO – Mr. I.E. Cato, Secretary, 230 St. George St., Toronto 180.
PRINCE EDWARD ISLAND – Dr. A.L. MacLean, 293 Water St., Summerside.
QUEBEC – Dr. M.B. Archambault, 801 Sherbrooke Street East, Montreal 132.
SASKATCHEWAN – Dr. F.R. Smith, 606 Canada Bldg, Saskatoon.

2.2.2 NATIONAL DENTAL EXAMINING BOARD OF CANADA

The National Dental Examining Board of Canada issues a certificate to successful candidates which may be registered with the Canadian provincial licensing boards for the purpose of securing a licence to practise. This privilege will be granted only on receipt of a proper application dated not later than March 30th of the year of graduation. Failure to apply by that date will entail the passing of an examination in order to receive the certificate.

Candidates must hold a degree in dentistry from a school of dentistry approved by the Council on Education of the Canadian Dental Association at the time of graduation; or be certified by the Dean or Registrar of a University as a bona-fide senior year student of an approved dental school.

Detailed information may be obtained from Dr. D.B. Proctor, Registrar, National Dental Examining Board of Canada, 287 MacLaren Street, Ottawa K2P OL9, Ontario.

2.2.3 NATIONAL DENTAL EXAMINING BOARD OF THE U.S.

Students intending to practise in the United States are advised to contact the Secretary, Council of the National Board of Dental Examiners, American Dental Association, 211 East Chicago Ave., Chicago, Illinois 60611. Information should also be obtained from the Secretary of the licensing board of the specific state in which the student intends to practise.

2.3 REGISTRATION

Registration for the 1973-74 session will be Tuesday, September 4. Information and forms for payment of fees will be forwarded in the summer. All lectures will begin on Wednesday, August 29, 1973 for first year students; and in the following week for upper years.

2.4 RESIDENCE

Students who wish to apply for residential accommodation must do so on special forms which may be obtained from the Registrar's Office.

2.5 FEES

The University reserves the right to make changes without notice in its published scale of fees if, in the opinion of the Board of Governors, circumstances so require. Fees are not refundable, except under special conditions as described in the General Announcement.

2.5.1 TUITION FEES

Annual undergraduate fee $690.00
(including Students' Society and *Dental Review* fees)
By instalments: Each of two instalments $345.00
(plus one half of the applicable equipment, supply and rental fees noted below)

2.5.2 REPEATING A YEAR

Students repeating a year pay $690.00

2.5.3 EQUIPMENT SUPPLIES AND RENTALS

In First year — Instrument & equipmental (rental) 75.00
In Second year — Handpiece (rental) 25.00
In Second year — Instrument & equipment (rental) 125.00
In Third year — Handpiece (rental) 25.00
In Third year — Clinic handpiece (rental) 85.00
In Third year — Instrument & equipment (rental) 150.00
In Fourth year — Handpiece (rental) 25.00
In Fourth year — Clinic handpiece (rental) 85.00

2.5.4 AD EUNDEM FEE

Transfer students entering any year above the first pay a special *ad eundem* fee of $10.00

2.5.5 GENERAL REGULATIONS

1. Students entering the University for the first time are required to pay their fees either by mail or in person at the Accounting Office.

The first instalment is due 10 days after registration, the second instalment before January 11, 1974.

A late payment fee of $10.00 is charged for payment within the first 30 days; and $25.00 thereafter.

2. Students who have completed one or more years and intend to register in the succeeding year must pay one half of the total sessional fee by mail or in person to the Accounting Office before August 24, 1973. Instructions for paying fees in advance will be mailed to all upper year students, either with their Reports of Sessional Standing or a short time later. Students who have been notified by the University of the award of a scholarship, bursary or student loan, and who require this for payment of the first instalment of fees, must obtain from the Student Aid Office, McGill University, a Permit to Delay Payment of Fees.

The second instalment is due January 11, 1974. A late payment fee of $10.00 is charged for payment within the first 30 days; and $25.00 thereafter.

3. Students registering late must pay their fees at the time of registration, failing which they become subject to the late payment fee and the provisions of the following paragraph:

As soon as possible after the prescribed dates for the payment of fees the Chief Accountant will send to the Dean of each Faculty a list of the registered students who have not paid their fees. The Deans will thereupon suspend them from attendance until such time as the fees are paid or a satisfactory arrangement is made with the Chief Accountant.

Note: *Special fees* are given in the *General Announcement.*

2.6 INSTRUMENTS

In additional to the rental fee, certain items of equipment and supplies are purchased by each student. Approximate cost of this equipment is as follows:

First year $275.00
Second year $100.00
Third year . . . . . $ 50.00

Books are not included in these amounts.

2.7 MEDALS, PRIZES AND AWARDS

FOURTH YEAR:

Medals will be awarded for first, second and third place overall standing in the four years of the course.

Prizes will be awarded for highest standing in the Basic Sciences and Oral Medicine; and in Preventive and Restorative Dentistry.

THIRD YEAR:

Prizes will be awarded for first and second place overall standing.

SECOND YEAR:

Prizes will be awarded for first and second place overall standing; and for highest standing in the Basic Sciences and in Dental Anatomy and Applied Sciences over the two-year period.

FIRST YEAR:

Prizes will be awarded for first and second place overall standing.

The details of these prizes are presently under review and further information will be available in the 1974-75 announcement.

2.7.1 SCHOLARSHIPS, BURSARIES AND LOANS

Details of University and other scholarships and bursaries are given in the *Scholarships Announcement,* which may be obtained from the Registrar's Office.

The University has a fund from which loans may be made to students of good academic standing.

The College of Dental Surgeons of the Province of Quebec has created a loan fund to assist students of the Faculty who are registered with the College. The W.K. Kellogg Foundation Loan Fund and the Dental Students' Society Dean D.P. Mowry Memorial Fund are available to assist any student registered in the Faculty.

Loans are made only to students in the upper years. Applications for all loans should be made to the Student Aid Office.

2.8 CLINICAL FACILITIES

The McGill University Dental Clinic is an integral part of the Department of Dentistry of the Montreal General Hospital. At the Clinic, under the guidance of the dental staff, students are taught to carry out all phases of clinical dentistry and related laboratory procedures.

The Third and Fourth year students attend this Clinic daily except for such time as may be taken up by lectures or other University work. Students entering the Third year must spend the period between the last of the regular May examinations and the middle of June in the Clinic.

An abundance of teaching material in all aspects of dentistry is always available. Integration with the Montreal General Hospital offers the facilities of all departments in the Hospital and allows the students to observe a wide variety of interesting and unusual cases under treatment.

Graduate students, interns, registered nurses, and dental assistants are in attendance.

2.9 LIBRARY

Undergraduate dental students are fortunate to have, for their use, a modern dental library on the 1st floor of the Strathcoma Anatomy and Dentistry Building. There is a wide selection of major textbook publications in all fields as well as a world-wide assortment of periodical literature. There is a full time librarian in charge as well as assistants to enable the staff and students to obtain the advice and help they require in the field of dentistry. The library is open daily and in the evenings for the use of the dental community.

3 PROGRAM FOR THE DEGREE OF D.D.S.

3.1 CURRICULUM

Candidates for the degree of Doctor of Dental Surgery must have completed the requirements for entrance as noted in Section 2.1, before entering upon the four-year program in this Faculty.

The dental curriculum is as follows:

FIRST YEAR
Anatomy, General
Biochemistry
Dental Anatomy and Applied Sciences
- Dental Materials
- Occlusion
- Operative Dentistry
- Prosthodontics (Fixed)
- Prosthodontics (Removable)

Histology, General
Histology, Oral
History, Dental
Orientation in Dentistry
Physiology
Statistics

THIRD YEAR
Anaesthesiology
Behavioural Science
Dental Pharmacology and Therapeutics
Endodontics
Epidemiology and Dental Health Care
Medicine
Occlusion
Operative Dentistry
Oral Diagnosis and Pathology
Oral Surgery
Orthodontics
Paedodontics
Periodontics
Practice Administration
Prosthodontics (Fixed)
Prosthodontics (Removable)
Radiology

SECOND YEAR
Anaesthesiology, Local
Microbiology and Immunology
Occlusion
Operative Dentistry
Orthodontics
Nutrition
Pathology, General
Pathology, Oral
Periodontics
Pharmacology, General
Preventive Dentistry
Prosthodontics (Fixed)
Prosthodontics (Removable)
Radiology

FOURTH YEAR
Endodontics
Essay
Jurisprudence
Occlusion
Oral Surgery
Operative Dentistry
Oral Medicine Seminar
Orthodontics
Paedodontics
Periodontics
Practice Administration
Prosthodontics (Fixed)
Prosthodontics (Removable)
Restorative Dentistry Seminar

590-425P Essay: Final year students must write an essay of approximately 4,000 words. The subject will be announced early in September.

* It should be understood that this curriculum is subject to change without notice.

3.2 ATTENDANCE

Students who have failed to attend at least seven-eights of the lectures, laboratory or clinical periods in any course may be refused the right to attempt the final examination in that course.

3.3 HEALTH INSURANCE

A compulsory health insurance plan for non-Canadian students is operable throughout the University. *All non-Canadian students will be required to participate.* The annual premium will be payable with the first instalment of fees.

3.4 REGULATIONS GOVERNING EXAMINATIONS AND ADVANCEMENT

Occasional oral and written examinations are held throughout the session to test the progress of the student. Final examinations in most subjects are held at the end of session.

A minimum of 60 per cent in each subject is required to pass and 80 per cent for Honours.

At the discretion of Faculty, the following regulations will apply.

All examinations in each year must be passed before a student is allowed to advance to the next.

Candidates who fail at the regular examinations in not more than two subjects may be allowed supplemental examinations before the beginning of the following session. These examinations are held during the week preceding the regular opening of the session.

Candidates who fail in three subjects at the regular examinations or who are unsuccessful in the supplemental examinations may be permitted to repeat the year.

Candidates who fail at the regular examinations in more than three subjects will be required to withdraw.

A student repeating a year must attain, at the regular examination, satisfactory standing in all courses. Failing this, the student will be required to withdraw.

A single grade D (60%) is considered a passing mark. In the presence of additional D or F grades, all D grades are considered failures.

A student who, in any year, fails in a subject in which practical or clinical work is necessary, may be required to fulfil prescribed additional clinical or laboratory work before presenting himself for supplemental examination. A fee may be attached to these requirements.

The Faculty reserves the right to require the withdrawal of any student at any time, if, in the opinion of his instructors, he displays unprofessional conduct or is incompetent.

The quality of the written language will be considered in evaluating examinations.

Applications for supplemental examinations must be made to the Dean's office at least 30 days before the date set for each examination, and must be accompanied by a fee of $10.00 for each examination.

Subjects comprising practical and theoretical components shall be reported as a single mark in final examinations.

3.5 QUALIFICATIONS FOR THE DEGREE

1. Candidates for the degree of Doctor of Dental Surgery shall have attended courses of instruction for four full sessions in the Faculty of Dentistry of this University.

2. Students of other universities who may be admitted to advanced standing in this University are required to pass a qualifying entrance examination and thereafter the same examinations as regular students of this University.

3. Candidates for the degree, admitted in advanced standing as noted above, shall have completed at least the final year of the course at this University.

4. Every candidate for the degree shall provide evidence of satisfactory completion of all of the required subjects which comprise the dental curriculum.

3.6 DENTAL INTERNSHIPS

3.6.1 GRADUATE INTERNS

a) Rotating Internships

The Faculty of Dentistry, through the McGill-Hospitals Dental Internship Committee, offers

eight rotating dental internships in Montreal hospitals beginning *July 1* each year. Applications for internships should be received prior to *December 31* in any year. Further details may be obtained by writing to the Chairman of the Internship Committee.

b) **First Year Residency in Paedodontics**
One candidate is selected each year for this one-year program beginning *July 1*. For further information apply to the Director of Dental Services, The Montreal Children's Hospital, 2300 Tupper Street, Montreal 108, P.Q.

c) **Residency Program in Oral Surgery**
One candidate is selected each year for this program beginning *July 1*. For further information apply to the Department of Oral Surgery, Faculty of Dentistry, McGill University, P.O. Box 6070, Montreal 101, P.Q.

d) **Straight Internship in Prosthodontics**
One candidate is selected each year for this program beginning *July 1*. For further information apply to the Department of Prosthodontics, Faculty of Dentistry, McGill University, P.O. Box 6070, Montreal 101, P.Q.

3.6.2 STUDENT INTERNS

In the senior year the student serves as a student intern for a period of two weeks. During this time he lives in the Montreal General Hospital with room, meals and uniforms provided. He serves each morning in the Oral Diagnosis and/or Screening Clinics and is on call with the resident intern for the remainder of the entire day for the diagnosis and dental treatment of hospitalized cases both on the wards and in the main hospital operating theatres with the attending oral surgeons. In this way the student is afforded an excellent opportunity to observe and to participate in dental services under hospital conditions. During this student internship, the student functions in a similar capacity for a few days at the Montreal Children's Hospital.

3.7 DENTAL OFFICER TRAINING PLAN

The Dental Officer Training Plan is offered by the Canadian Forces to undergraduates interested in a military career following graduation.

The plan is designed to assist dental students financially, in that it provides for payment of tuition, instruments, supplies and books; and in addition, pay in accordance with rank. The plan also provides training during the summer months for the undergraduate as an officer in the Armed Forces.

To be eligible a student must be able to meet the Canadian Forces standards for enrolment and be academically acceptable, without condition, to any one of the four professional years of the dental faculty.

Full details of the Dental Officer Training Plan may be obtained from Canadian Forces Recruitment and Selection Unit, 1254 Bishop Street, Montreal.

4 COURSES OF INSTRUCTION

Division of Community Dentistry

4.1 BEHAVIOURAL SCIENCE

Third Year (590-327P)
Lecturer – C. Yung

This course consists of lectures and seminars designed to introduce the student to the requirements for the better understanding of human beings, particularly dental patients. The

discussions will touch on such topics as the characteristics and behaviour patterns of cooperative and uncooperative patients; fear and anxiety and methods of patient management; motivation and learning, etc.

4.2 EPIDEMIOLOGY AND DENTAL HEALTH CARE

Professor – S. Lee, (Acting Chairman)
Associate Professor – L.F. Davignon
Assistant Professors – S. Ducic; G. Gibbs; F. Fenton; J. Manfreda; F. White; J. Stamm.

Third Year (513-311P)
This course consists of lectures and seminars designed to introduce students to the methods used in the assessment of health in a population. With this background in health evaluation, the student is introduced to modern approaches in the provision of community health services. Various facets of dental health care delivery are discussed.

4.3 HISTORY, DENTAL

Lecturer – M. Hebert
Guest Lecturer – C.C. Bourne

First Year (590-112P)
A consideration of the evolution of dentistry as a profession from *Zinjanthropus hominid* to the present, comparing primitive conditions and methods of the past with those of today with special attention to the contributions of outstanding personalities and events.

4.4 JURISPRUDENCE, DENTAL

Lecturer – P. Graham

Fourth Year (590-412P)
A discussion of the Dental Act, the Health Act, and other laws governing the practice of dentistry.

The responsibility of the dentist under the laws of the Province and his position as defendant in suits for damages, as plaintiff in suits for fees and as expert witness in cases between other parties are fully explained. Legal and taxation aspects of the business arrangements of dental practice are also considered. (Text – Harvey Sarner, *Dental Jurisprudence*).

4.5 NUTRITION

Lecturer – J.H. Geggie

Second Year (590-227P)
This course consists of lectures and seminars on nutrition and diet as they affect both systemic and oral health. The emphasis is on nutritional status assessment and diet counselling with particular reference to dental health.

4.6.1 PRACTICE ADMINISTRATION

Assistant Professor – A.J. Schutz (co-ordinator)
Lecturers – E.R. Ambrose; J.A. Claener; R.G. Laybourn; H.L. Mussells; Z.B. Nyeste; H.R. Swetland; D. Townsend; C. Yung.

Fourth Year (590-417P)
A study of the orderly arrangement and administration of all the useful facilities and services needed for a professional practice, based on needs, demands, regulations, system, analysis, psychology and common sense in dealing with people.

It is concerned with all the functions of the dental office which are not part of operative, technical or diagnostic procedures. (Texts — *Business of Dental Practice*: Professional Publishing Corp.; Neil B. Brahe, *Executive Dynamics in Dental Practice*; Robert K. Stinaff, *Dental Practice Administration*).

4.6.2 THIRD YEAR (590-317P)

An introduction to the spectrum of available dental equipment and supplies and how they are most effectively used in practice of general dentistry.

4.7 PREVENTIVE DENTISTRY

Associate Professors — E. Hosein; A. Ortiz; H. Warshawsky; G.H.G. Weinlander
Assistant Professors — G. Harasymowycz; J. Stamm
Lecturers — J. Claener; M. Finesilver

Second Year (590-228P)
This course consists of lectures to give a scientific understanding of the initiation and progression of the major dental diseases. In addition, the student is introduced to the most important techniques and agents which are used in the prevention of these diseases. Included is a look at the current and future research in this field.

4.8 STATISTICS

Assistant Professor — J.W. Stamm
First Year (590-126P)
This course consists of an introduction to the principles of descriptive and inferential statistics as applied to dental science. The course stresses the proper collection, tabulation and presentation of data. In addition, it is intended to familiarize the student with those statistical concepts which will help in the interpretation of the dental professional literature.

Division of Preventive and Restorative Dentistry

4.9 DENTAL ANATOMY AND APPLIED SCIENCES

Associate Professor — W.D. Sanders (Chairman)
Assistant Professors — J.F. Giacomelli; D.E. Laszlo
Lecturers — J.T. Elo; J.D. Fenwick; S.M. Kennedy; C.L. Moran; D.T. Shizgal, M.D. Shizgal
Demonstrators — S.S. Blum; J.A. Claener; G.M. Griffiths; C.L. Herscovitch; T.C. Postans; G. Poznak; I. Seltzer; A.F. Small; M. Szikman; A. Tekela; R.B. Van Winckle; Roxanne M. Whitehead.

4.9.1 DENTAL ANATOMY

First Year (590-114P)
Instruction in the form and function of normal teeth and supporting tissues, and the development of manual dexterity in the student through drawings and waxing procedures, and sectioning of natural teeth.

4.9.2 APPLIED SCIENCES (590-115P)

An introduction to the theory and practical application of procedures relating to prosthetic dentistry — both removable and fixed — and to operative dentistry.

4.9.3 OCCLUSION

Occlusal concepts are developed through an appreciation of the anatomy and physiology of the masticatory system. (Text — Wheeler, *Textbook of Dental Anatomy and Physiology*, 4th. ed.: Saunders)

4.10 DENTAL MATERIALS

Lecturer — W. Kowal; M. Pinchuk

First Year (590-115P)
Introduction to basic physical and chemical properties of materials followed by a discussion of materials used.

Second Year (590-215P)
Presentation in greater detail of the physical and mechanical properties as well as chemical and structural features of clinical dental materials. (Texts — E.W. Skinner, *The Science of Dental Materials*, 5th Edition; Peyton et al., *Restorative Dental Materials*).

4.11 ENDODONTICS

Assistant Professor — B. Sedlezky (Chairman)
Lecturers — R.J.C. David; D.J. Munro; B.H. Wiener
Demonstrator — P. Lawrence
Guest Lecturer — (Chosen each year)

Fourth Year (590-411P)
A concentrated course in the theory and clinical practice of endodontics, correlated with the teachings of the Departments of Microbiology and Immunology, Pathology, Histology, Oral Surgery and Dental Anatomy given midway through the junior year and followed by weekly clinical sessions until the end of the senior year. (Texts — L.I. Grossman, *Root Canal Therapy*; Sommer, Ostrander and Crowley, *Clinical Endodontics*; E. Nicholls, *Endodontics*; Ingle, *Endodontics*, Lea and Febiger; Bender and Seltzer, *The Pulp*, Lippincott).

4.12 OPERATIVE DENTISTRY

Professor — E.R. Ambrose (Chairman)
Associate Professors — Harry Rosen; W.D. Sanders; G.H.G. Weinlander
Assistant Professors — G. Harasymowycz; M. Shevell
Lecturers — J.R. FongChong; H. Greenwald; P. Hwang; W. Kowal; Z.B. Nyeste
Demonstrators — S. Blanshay; P. Guilbault; N.I. Hanna; A.S. Israel; G.M. Johnston; C.P. Jolin; F.A. Kay; J.E. Kehoe; B.L. Mendel; I.I. Silver; D. Solomon; J.W. Whitehead

Second Year (590-214P)
Third Year (590-314P)
Fourth Year (590-414P)
Students receive the basic, and where indicated some advanced, theoretical laboratory and clinical instruction in: diagnosis and treatment planning; prevention; the "biomechanical" treatment for diseased and/or traumatized tooth structure; the anatomical restoration of individual teeth in all age groups; to physiologic form and function; with the restorative

materials generally used by the dental practitioner. (Texts – Howard, *Atlas of Operative Dentistry*: Mosby; Bell and Grainger, *Basic Operative Dentistry Procedures*: Lea & Febiger; Gilmore, *Textbook of Operative Dentistry*: Mosby; Schultz, *Operative Dentistry*: Lea & Febiger; Ingraham and Koser, *An Atlas of Gold Foil and Rubber Dam Procedures*: West Orange County, California.)

4.13 ORTHODONTICS

Associate Professors – R.W. Faith (Chairman); M.D. Rennert
Lecturers – A.J. Colle; C.M. Solomon
Demonstrator – S.S. Miller
Guest Lecturer – H.T. Oliver

Second Year (590-215P)
Third Year (590-315P)
Fourth Year (590-415P)
Courses comprise lectures, technique exercises, treatment of selected cases and seminars.

The purpose of the course is to present as much theoretical background as possible and to make the student familiar with diagnostic procedures and with the preventive, interceptive and limited corrective procedures that can be undertaken in a general dental practice. (Texts – Graber, *Orthodontics*, 3rd ed.: W.B. Saunders Co., 1972; Moyers, *Handbook of Orthodontics*: The Year Book Publishers Inc., Ed. 2nd., 1963; Salzmann, *Practice of Orthodontics*: J.B. Lippincott Co., 1966; Sassouni, *Orthodontics in Dental Practice*: Mosby, 1971).

4.14 PAEDODONTICS

Associate Professor – Gerard H.G. Weinlander (Chairman)
Professor – Ernest R. Ambrose
Lecturers – Roberta Dundass; Wilfrid R. Robinson; P.R. Weinstein
Demonstrator – C.J. Teasdale

Third Year (590-316P)
Lecture course on child management, treatment planning, operative procedures, management of injuries to teeth and preventive dentistry for children.

A concentrated laboratory course covers routine cavity preparations, amalgam restorations and stainless steel crown adaptation on deciduous manikin teeth, and endodontic procedures on extracted deciduous teeth.

Clinical dentistry for children commences following the laboratory course.

Fourth Year (590-416P)
Clinical dentistry for children in the University Dental Clinic. (Texts – Finn, *Clinical Pedodontics*: Saunders; Ellis, *The Classification and Treatment of Injuries to the Teeth of Children*: Year Book Publishers; Law, Lewis, Davis, *An Atlas of Pedodontics*: Saunders; McDonald, *Dentistry for the Child and Adolescent*: Mosby).

4.15 PERIODONTOLOGY

Associate Professors – Robert F. Harvey (Chairman); Philip J. Gitnick
Assistant Professors – S. Galperin; F. I. Muroff
Lecturers – E.M. Hershenfield; E. Shore; M. Stutman; A. S. Wainberg
Guest Lecturer – W. Lovett

First Year (590-118P)
Twelve hours introductory lectures and clinic re: oral hygiene procedures, role of basic sciences. Five hours lectures related to Anatomy and Biochemistry.

Second Year (590-218P)
Fifty hours of introductory lectures, laboratory courses and demonstrations and introduction to clinical experiences.

Third Year (590-318P)
Forty–five hours of lectures and seminars and sixty hours of clinical demonstration and participation and assisting seniors.

Fourth Year (590-418P)
Thirty hours of lectures and seminars and two hours per week in clinical Periodontics.

In addition, demonstrators in the department are available or in attendance in Operative, Crown and Bridge, Prosthetic, Endodontic and multidiscipline clinics. (Texts – Goldman & Cohen, *Periodontal Therapy*, 4th. ed.: Glickman, *Clinical Periodontology*, 4th ed.; Grant, Stern & Everett, *Orban's Periodontics*, 4th ed.; *Occlusion*, 2nd ed.; Ramfjord & Ash: Reference – *Physiological Role of Dental Occlusion in the Masticatory System*, Vol. 1 & 2: R.G. Jones).

4.16 FIXED PROSTHODONTICS

Associate Professors – R.G. Jones (Chairman); W.H. Boyles;
Assistant Professors – G. Harasymowycz; R.T. Lamb; H. Ptack
Lecturers – J.D. Fenwick; J.R. Fong Chong; S.M. Kennedy
Demonstrators – J.M. Little; E. Ostro; M. Pinchuk; D. Taylor; R.B. Van Winckle
Visiting Lecturer – L.P. Lemay
Demonstrator in Ceramics – A. Wilson
Demonstrators in Dental Technology – R. Baillie; I. Blumberger; H. Heuvelink; N. Jones; A. Pickard.

First Year (590–121P)
Second Year (590-221P)
Third Year (590-321P)
Fourth Year (590-421P)
A detailed course in the theory and clinical practice of Fixed Prosthodontics. In the pre–clinical years, the student is introduced to the basics of Fixed Prosthodontics by lecture series, reading assignments and laboratory participation.

In the clinical years (3rd and 4th) the students fabricate fixed bridges for clinical patients. Lectures, seminars and reading assignments are used to increase the student knowledge and understanding of Fixed Prosthodontics. (Texts – Johnston, Phillips and Dykema, *Modern Practice in Crown and Bridge Prosthodontics*: Saunders, Skinner and Phillips. *The Science of Dental Materials*: Saunders; Wilson and Lang, *Practical Crown and Bridge Prosthodontics*: McGraw; Bassett, Ingraham and Koser, *An Atlas of Cast Gold Crowns*: West Orange County, California, Stanly D. Tylman, *Crown and Bridge Prosthesis:* Mosby; Victor O. Lucia, *Modern Gnathological Concepts:* Mosby; Kornfeld, Max, *Mouth Rehabilitation*, Volumes I and II: Mosby; Johnston, Mumford and Dykema, *Modern Practice in Dental Ceramics:* Saunders).

4.17 REMOVABLE PROSTHODONTICS

Associate Professor – D.W. Henry – (Acting Chairman)
Assistant Professors – J.F. Giacomelli; M. Shevell
Lecturers – A.F. Cameron; J.T. Elo; W. Kowal; L. Puchinger; W.B. Zimakas

Demonstrators — J.D. Badger; L.C. Barnes; R.G. Fletcher; S. Homayun; G. Konanec; L. Lazare; G. Poznak; P.C. Staples; F. Vosburg

Second Year (590-220P)
Third Year (590-320P)
Fourth Year (590-420P)
Instruction in the examination, diagnosis, treatment planning, construction and maintenance phases related to removable partial dentures and the abutment teeth, complete dentures. (Texts — O.C. Applegate, Essentials of *Removable Partial Denture Prosthesis*: W.B. Saunders; W.L. McCracken, *Partial Denture Construction*: C.V. Mosby; Swenson, *Complete Dentures*: C.V. Mosby; E.L. Miller, *Removable Partial Prosthodontics*; Sharry, *Complete Denture Prosthodontics*: McGraw–Hill; H.W. Preiskel, *Precision Attachments in Dentistry*: Mosby; Charles M. Heartwell, Jr., *Syllabus of Complete Dentures*; Lea & Febiger).

Division of Surgery and Oral Medicine

4.18 ANAESTHESIOLOGY LOCAL AND GENERAL

Offered under the direction of the Department of Oral Surgery.

Associate Professor — K.C. Bentley (Chairman)
Assistant Professor — D.S. Shapiro
Guest Lecturers — Malcolm Dunkley; Thomas McCaughey

4.18.1 LOCAL

(590-324P)
Second and Third Years
Anaesthetic drugs and solutions, the evaluation of new drugs and techniques, with a review of related anatomy are discussed. Demonstrations and clinical experience are provided.

4.18.2 GENERAL

Third Year
General principles and the physiology of anaesthesia with emphasis on factors of safety and the suitability of the agent used are discussed. Co-operation with the anaesthetist under hospital or office conditions and emergency resuscitative measures are stressed. (Texts — Niven and Bourgoyne, *Conduction, Infiltration and General Anaesthesia in Dentistry*; Archer, *Dental Anaesthesia*; Monheim, *Local Anaesthesia and Pain Control in Dental Practice*; Howe, Whitehead, *Local Anaesthesia in Dentistry*).

4.19 ANATOMY

Professors — C.P. Leblond (Chairman); Y. Clermont; R.S. Harris; D.G. Osmond
Associate Professors — B. Kopriwa; P.K. Lala; N.J. Nadler; H. Warshawsky
Assistant Professors — G. Bennett, S.C. Harvey; A. Herscovics; M. Weinstock; W.E. Wilson
Lecturers — J.R. Adams; F. Brahim; H. Cheng; E. Daniels; U.F. Lalli
Sessional Lecturer — A. Morton

4.19.1 GROSS ANATOMY

(504–111P)
First Year (3 terms)

A general survey of the body by means of lectures and demonstrations; dissection of head and neck with special lectures and demonstrations emphasizing points of dental interest. (Texts – A.J. Berger, *Elementary Human Anatomy*, Ist ed.: John Wiley and Sons, 1964; J.C.B. Grant, *A Method of Anatomy*, 7th ed.: Williams and Wilkins, 1965; D.A. Davies & F. Davies, *Gray's Anatomy*, 33rd ed.: Longmans, 1962).

4.19.2 HISTOLOGY

First year (504-112P)
The study of the cytology and structure of human tissues and organs. (Texts – A.W. Ham, Histology, 5th ed.: Lippincott, 1965; W. Bloom and D.W. Fawcett, *A Textbook of Histology*, 6th ed.: Saunders, 1962).

4.19.3 ORAL HISTOLOGY AND EMBRYOLOGY

First Year (504-117P)
A microscopic study of the delevopment of the teeth and their supporting structures, and of the adult oral tissues through their life cycle. (Text – D.V. Provenza, *Oral Histology, Inheritance and Development*: Lippincott, 1964).

4.20 BIOCHEMISTRY

Professors – A.F. Graham (Chairman); D. Rubinstein; S. Solomon; T.L. Sourkes; J.H. Spencer; L.S. Wolfe
Associate Professors – P. Braun; D.T. Denhardt; M.J. Fraser; E.A. Hosein; Rose M. Johnstone; A.R. Wasserman
Assistant Professors – E. Harpur; R.E. MacKenzie; E.A. Meighen; S. Millward
Lecturer – M.R. Reesal

First Year (507-113P)
An outline of the general subject of biochemistry with a more special knowledge of such aspects as bear particularly on the science and practice of dentistry. Two to four lectures and one laboratory per week from September to May; (Texts – Joseph C. Muhler, *Textbook of Biochemistry for Students of Dentistry* : C.V. Mosby; E.P. Lazzari, *Dental Chemistry*: Lea and Febiger).

4.21 DIAGNOSIS ORAL

Professors – A.G. Racey (Chairman); L.E. Francis
Associate Professors – T.P. McCrory; A. Ortiz
Demonstrators – R.P. Langlais; A.F. Sonin

Third Year (590-328P)
A continuation of the second year course in Oral Pathology in which the clinical and radiographic aspects of the various conditions are discussed with emphasis on differential diagnoses. The student internship program provides invaluable practical support for this course. (Text – Stafne, *Oral Roentgenographic Diagnosis*; Michell, Standish and Fast, *Oral Diagnosis/Oral Medicine*).

4.22 MEDICINE

Associate Professors – J.L. McCallum (Chairman), S.O. Freedman; D. Hillman
Assistant Professors – J.L. Hutchison; G. Joron; M.F. Mizgala

Lecturers — K. Cantor; R. LaFleur; O. Schlapner
Demonstrator — F. Aoki

Third Year (526-313P)
A review of the principles of medicine with particular attention to the relationship of good prenatal care and proper nutrition during infancy and childhood to dentition and the subsequent health of teeth and gums; oral manifestations of systemic disease and the importance of oral health in the successful treatment of certain medical conditions; and medical complications of dental surgery and their prophylaxis.

4.23 MICROBIOLOGY AND IMMUNOLOGY

Professors — S.I. Vas (Chairman); B.H. Matheson; J.S. Stevenson; W. Yaphe
Associate Professors — Z. Ali Khan; C.A. Butas; E.C.S. Chan; P.M. Cooke; J. de Vries; P. Gill; L. Kapica; G.K. Richards; H.G. Robson
Assistant Professors — H. Abramovitch; M. Brazeau; E. Mankiewicz, J. Mendelson; R. Siboo
Lecturers — W. Dion; S. Nommik; E. Wood
Demonstrator — C. Shaw
Teaching Assistants — D. Cristeanu; L. Therrien

Second Year (529-213P)
Elementary dental bacteriology and immunology. (30 lectures and 60 hours laboratory; Text — Jawetz, Melnick & Adelberg, *Review of Medical Microbiology*; Lange Medical Publication).

4.24 PATHOLOGY, GENERAL

Professors — R.H. More (Chairman); D.S. Kahn; G. Tremblay
Assistant Professors — G. Berry; W. Hauser; M. Kirk
Lecturer — I. Kerner

Second Year (546-216P)
A course in the general principles of pathological reactions and their application to disease states and correlation to oral pathology. (Two lectures per week with epidiascopic and microscopic demonstrations — 30 lectures; five small group seminars with gross and microscopic demonstrations, 10 hours. Text — Walter, Hamilton and Israel, *Principles of Pathology for Dental Students*: Churchill).

4.25 PATHOLOGY, ORAL

Professor — A. Gerald Racey (Chairman)
Associate Professors — T.P. McCrory; A. Ortiz
Assistant Professor — D.S. Shapiro

Second Year (590-217P)
A consideration of all conditions, both local and systemic, that affect the oral cavity, including dental caries and diseases of the pulp, developmental disturbances, tumours and cysts, infections and injuries, and the oral manifestations of metabolic disease. Laboratory periods supplement the lectures. (Texts — Shafer, Hine and Levy, *Oral Pathology; Color Atlas of Oral Pathology*: Lippincott; Scopp, *Oral Medicine*).

4.26 PHARMACOLOGY AND THERAPEUTICS

Professors — M. Nickerson (Chairman); J. Lowenthal; K.I. Melville
Associate Professors — B.G. Benfey; N.R. Eade; L.E. Francis; J.R. Ruedy; D.R. Varma
Assistant Professors — R. Capek; B. Collier; E.M. Kovacs; R.I. Ogilvie; R.E. Rangno; J.B. Richardson; M.C. Robertson; B.I. Sasyniuk; A. Tenenhouse; J.M. Trifaro; B. Zablocka–Esplin

Second Year (549-219P)
A course of 41 lectures, given twice weekly, concerned with the basic principles of the actions of drugs and applied therapeutics where indicated. (Texts — Sutherland, *A Synopsis of Pharmacology*; Andres Goth, *Medical Pharmacology*; Goodman and Gilman, *The Pharmachological Basis of Therapeutics*, 4th ed.).

4.27 PHARMACOLOGY AND THERAPEUTICS, DENTAL

Professor — L.E. Francis (Chairman)
Associate Professor — Joan de Vries
Assistant Professor — J.W. Stamm

Third Year (590-319P)
A study of those drugs that have special application to dental practice. Lectures and seminars reviewing various pathological conditions and possible therapy. (Texts — A.D.A. *Accepted Dental Remedies 1968*; Sutherland, *A Synopsis of Pharmacology; Compendium of Pharmaceuticals and Specialties*, 7th ed. 1972).

4.28 PHYSIOLOGY

Professors — J. Milic–Emili (Chairman); R.I. Birks; T.M.S. Chang; K. Krnjevič; F.C. MacIntosh; G. Melvill Jones
Associate Professors — R.F.P. Cronin; J.R. Dirks; D.R. Firth; P. Gold; C. Polosa; P. Sekelj
Assistant Professors — M.W. Cohen; M.M. Frojmovic; V. Klissouras; W.S. Lapp; M. Levy; M. Mackey; G. Mandl; J.S. Outerbridge; A. Wechsler; R.L. Williams
Lecturers — M. Hazucha; P. Weldon
Associate Members — M.E. Avery (Prof., Paediatrics); M.R. Becklake (Prof., Experimental Medicine); B.A. Cooper (Prof., Experimental Medicine); B.O. Dubrovsky (Assist. Prof., Psychiatry); P. Gloor (Prof., Experimental Neurophysiology); H.L. Goldsmith (Prof., Experimental Medicine); C.A. Goresky (Prof., Medicine); E.J. Hinchey (Assoc. Prof., Surgery); C.A. Laszlo (Assist. Prof., Biomedical Engineering); P.T. Macklem (Prof., Medicine); J.M. McKenzie (Prof., Experimental Medicine); L.D. McLean (Prof., Surgery); M.M. Morris (Assist. Prof., Anesthesia).

First Year (552-116P)
Selected topics in areas of human physiology of particular significance for dental practice. These will include the more detailed study of aspects of blood, the cardiovascular, respiratory, digestive, endocrinological and central nervous systems. (2 hours of lectures and 3 hours laboratory time per week, for 1 term only (During the 1973-74 session, this will be offered in the term beginning in January.)). *Prerequisite:* Physiology 211D at McGill, or a similar "college course" in Physiology. (For the 1973-74 session only, students who have not fulfilled this requirement will be asked to participate in a program of basic physiology lectures including those offered in the Physiology 211D course from September to mid-December). Textbook — No text specified. Recommended reading lists will be provided for each of the subjects studied.

4.29 RADIOLOGY

Professor — A. Gerald Racey (Chairman)
Associate Professor — K.C. Bentley
Demonstrators — R.P. Langlais; A.F. Sonin

Third Year (590-322P)
During a three—week period in the Summer Clinic a course of lectures and demonstrations is presented. These include Radiation Physics, Clinical Techniques, Interpretation and Film Processing. This course is presented to the incoming Third year.

During the year, two Third-year students are on duty each day to take and process all emergency radiographs as well as each taking two full mouth surveys of teaching cases.

Both bisecting-angle and long cone paralleling techniques are used in these demonstrations and exercises. (Texts — Stafne, *Oral Roentgenographic Diagnosis*; Weurhmann and Manson-Hing, *Dental Radiology*).

4.30 SURGERY, ORAL

Associate Professors — Kenneth C. Bentley (Chairman); John J. McCarthy; Eric P. Millar
Assistant Professors — D.S. Shapiro; Robert M. Wiener
Lecturers — Gary L. Freedman; Edward Slapcoff
Demonstrator — Mervyn Gornitsky

Third Year (590-323P)
Fourth Year (590-423P)
Courses are designed to develop with the student a foundation of professional knowledge coupled within surgical skill to enable him to diagnose and manage competently the oral surgery problems related to the practice of general dentistry. The student is also expected to acquire an academic appreciation of the advanced field of oral surgery, which involves the diagnosis, treatment, prescribing for and operating upon any disease, injury, malformation or deficiency of the human jaws or associated structures.

The course in anaesthesiology is offered under the direction of the Department of Oral Surgery. (Texts and Reference Books — Thoma, *Oral Surgery;* Archer, *Oral Surgery*; Nevin and Bourgoyne, *Conduction, Infiltration and General Anaesthesia in Dentistry*; Rowe and Killey, *Fractures of the Facial Skeleton*; Kazanjian and Converse, *The Surgical Treatment of Facial Injuries*; Schwartz, *Disorders of the Temporomandibular Joint*; H.G. Clark, *Practical Oral Surgery*; G. L. Howe, *The Extraction of Teeth*; G.O. Kruger, *Text-book of Oral Surgery*; Killey and Kay, *Benign Cystic Lesions of the Jaws).*

5 COURSES OFFERED IN THE FACULTY OF GRADUATE STUDIES AND RESEARCH

5.1 DIPLOMA IN RESTORATIVE DENTISTRY AND PROSTHODONTICS

Associate Professor — H. Rosen (Director)
Professors — E.R. Ambrose; L.E. Francis
Associate Professors — K.C. Bentley; R.F. Harvey; D.W. Henry; R.G. Jones; A. Ortiz; J.W. Stamm
Guest Lecturers — J. Fiset; D.C. Gordon; H.L. Mussells; F.E. Shamy; H. Skurnik; J. Valiquette; J. Vincelli
Members of the Departments of — Endodontics, Operative Dentistry, Oral Surgery, Orthodontics, Pathology & Diagnosis, Periodontics, Pharmacology & Therapeutics, Fixed and Removable Prosthodontics.

This course is tailored to the needs and interests of the candidate seeking training which is beyond the scope of a four-year undergraduate program.

Clinical cases requiring occlusal therapy will be treated by the participant under supervision.

A total patient, multi-disciplined approach will be emphasized for cases presenting with periodontal disease, wear, congenital defects and/or temporomandibular joint problems. The program includes experience in removable and maxillofacial prosthesis.

This supervised clinical experience will be enhanced by didactic lectures, seminars, practice teaching and office visits. Participation in a clinical research project is expected.

Duration — One academic year beginning in September, leading to a Diploma.

Further information may be obtained from the office of the Assistant-Dean (Graduate Studies and Research), c/o Faculty of Dentistry, McGill University, P.O. Box 6070, Montreal 101, P.Q.

Tuition: $575

5.2 MASTER OF SCIENCE (RESTORATIVE DENTISTRY AND PROSTHODONTICS)

Associate Professor — H. Rosen (Director)
Professor — E.R. Ambrose
Associate Professors — K.C. Bentley; R.F. Harvey; D.W. Henry; R.G. Jones; A. Ortiz
Guest Lecturers — J. Fiset; D.C. Gordon; H.L. Mussells; F.E. Shamy; H. Skurnik; J. Valiquette; J. Vincelli
Members of the Department of — Endodontics, Operative Dentistry, Oral Surgery, Orthodontics, Pathology and Diagnosis, Periodontics, Pharmacology and Therapeutics, Fixed and Removable Prosthodontics.

Admission is restricted to candidates who hold a D.D.S. or equivalent degree with good standing from an approved institution. Preference will be given to those applicants who have been in general practice or rotating internships for at least one year. The Master's course requires two academic years (20 months). Disciplines involved are: Advanced Operative Dentistry, Fixed Prosthodontics, Maxillofacial Prosthesis, Removable Prosthodontics as well as supportive and allied clinical sciences. The course will consist of didactic lectures, case presentation seminars, treatment of clinical cases under supervision, reports on clinical cases, teaching assistantship, selected office visits. Candidates will be required to attend pertinent basic science lectures. A research project must begin by the end of the first year and continue through the second year resulting in a Master's thesis.

Duration — Two academic years beginning in September.

Two candidates are accepted each year.

Tuition (approximate): $652.00 for the first year
$325.00 for the second year

5.3 MASTER OF SCIENCE (ORAL SURGERY)

Associate Professors — K.C. Bentley (Director); J.J. McCarthy; E.P. Millar
Assistant Professor — D.S. Shapiro
Lecturer — G.L. Freedman

A residency training program in Oral Surgery has been developed to provide students with a comprehensive background for the practice of Oral Surgery as a speciality.

During the three years of the program the candidate will serve as a first year resident, second year resident and third year resident. During this time he will be given increasing responsibility for the care of in-patients and out-patients, as well as being required to fulfill certain basic science courses and other assignments. Candidates for this program must possess a D.D.S. or D.M.D. degree or its equivalent, and be acceptable to the College of Dental Surgeons of the Province of Quebec as a training candidate in a hospital. A research project must be commenced in the second year of the program and continued throughout the third year, followed by a Master's thesis.

Duration — Three academic years commencing July 1.

Further information may be obtained by writing to Dr. K.C. Bentley, Dental Clinic, Montreal General Hospital, Montreal 109, P.Q.

The program is open to one candidate per year. Books and instruments are supplied.

Tuition (approximate): $652.00 for each of the first two years
$325.00 for each additional year

Information for financial support for these courses may be obtained by writing to the Director of the course.

6 CONTINUING DENTAL EDUCATION

Assistant Professors — A.J. Schutz (Co-ordinator); J.W. Stamm

CREDIT COURSES

At periodic intervals, the Faculty, along with other established bodies in the health field, sponsors courses in Continuing Dental Education which are recognized for Continuing Dental Education credits by dental licensing bodies.

Generally the Faculty offers a series of limited enrolment courses in various clinical and basic sciences related to dentistry. In most cases, the courses are designed to meet the needs of the general practitioner, to keep him abreast of current concepts and practices and to make him aware of recent advances in dental science.

Enquiries should be directed to:

CALENDAR FOR SESSION 1973-1974

1973

July 3, Tuesday to August 10, Friday	Summer Session
August 13, Monday to August 24, Friday	Supplemental Examinations
September 3, Monday	Labour Day
September 5, Wednesday	Registration in Diploma programs in Education Course Counselling all new B.Ed. students
September 6, Thursday	Course Counselling returning U2 students
September 7, Friday	Course Counselling returning U3 students
September 10, Monday	Diploma programs begin Registration all new B.Ed. students
September 11, Tuesday	Registration returning U2 students
September 12, Wednesday	Registration returning U3 students
September 18, Tuesday and 19, Wednesday	Registration E2 Education students
September 20, Thursday	Lectures begin in College Equivalent and Degree programs in Education Lectures begin in Masters and Doctoral programs in Education
September 21, Friday	Last day for Registration in the Faculty of Graduate Studies & Research
October 5, Friday	Last day for Education course changes
October 8, Monday	Thanksgiving
October 26, Friday	Deadline for withdrawing from 'A' courses
November 30, Friday	Deadline for withdrawing from 'D' courses
November 6, Tuesday	Fall Convocation
December 14, Friday	Last day of lectures in Diploma programs in Education
December 17, Monday to December 19, Wednesday	Examinations and mid-year evaluations in Diploma programs in Education
December 19, Wednesday	Last day of lectures in Degree programs in Education

1974

January 3, Thursday to January 18, Friday	Examinations in Degree programs in Education
January 7, Monday	Diploma programs resume
January 21, Monday	Degree programs resume Last Day for Education course changes (Diploma programs)
February 4, Monday	Last day for course changes (Degree programs)
February 22, Friday	Deadline for withdrawing from 'B' courses
March 1, Friday and March 2, Saturday	Mid-term weekend holiday. Lectures cancelled
April 12, Friday to April 15, Monday (incl.)	Easter. Lectures cancelled
April 19, Friday	Last day of lectures: Degree programs only
April 22, Monday to May 8, Wednesday	Examinations in Degree programs
April 26, Friday	Last day of lectures: Diploma programs
April 29, Monday to May 3, Friday	Examinations in Diploma programs in Education
May 20, Monday	Victoria Day. Administrative offices closed
June 5, Wednesday to June 8, Saturday	Convocations.

1 STAFF

ADMINISTRATIVE OFFICERS

Robert Edward Bell, C.C., B.A., M.A. (U.B.C.), Ph.D., D.Sc. (U.N.B.), LL.D. (Tor.), F.R.S., F.R.S.C. — *Principal and Vice-Chancellor*

C.W. Hall, M.A. (Bishop's) — *Dean*

D.A. Burgess, B.Sc., M.A. (Durham), F.R.G.S. — *Associate Dean*

The Rev. John P. Hilton, S.T.L. (Mtl.), M.A. (Cath. U. of America, Washington) — *Associate Dean*

John H. Holton, B.Com. (Tor.) — *Secretary to the Board of Governors*

Allan C. McColl, D.F.C., B.Com., C.A. — *Director of Finance*

Colin M. McDougall, D.S.O., B.A. — *Registrar*

INSTRUCTIONAL STAFF

Dennis Adams, B.A. (Calif.), M.S. (S.Cal.) Ph.D. (Wis.) — *Associate Professor of Education*

Morton J. Bain, B.A. (Mt. Allison), M.Ed. (Vermont) — *Associate Professor of Education*

Carolyn Barnes, M.A. (P.E.) (McGill) — *Lecturer in Education*

Gordon J. Bennett, Dip.Ed. (Southampton), Dip.R.Ed. (Reading U.), B.A. (SGWU), M.Ed. (Boston) — *Associate Professor of Education, Director of Student Teaching*

Faith H. Berthault, B.A. (London) — *Assistant Professor of Education*

Mary E. Bews, B.A. (Queen's) — *Assistant Professor of Education*

Lewis B. Birch, B.Sc., M.A. (Birm.) F.B.Ps.S. — *Professor of Education, Director, Graduate Programs, Macdonald Professor of Education*

Elton Crandall Bockus, B.A. (Bishop's), M.A. (McGill) — *Associate Professor of Education, Coordinator, One-Year Secondary Program*

Real Bouliannne, B.A. (SGWU), M.A. (Ottawa), Ph.D. (McGill) — *Associate Professor of Education, Director, College Level Programs*

Jon G. Bradley, B.A., M.A. (McGill) — *Lecturer in Education*

Donald A. Burgess, B.Sc., M.A. (Durham), F.R.G.S. — *Associate Professor of Education, Associate Dean*

Mildred L. Burns, B.Sc. (Nebraska), Ph.D. (Stanford) — *Associate Professor of Education*

Peter G. Burpee, B.Sc. (McGill) — *Assistant Professor of Education*

Magdelhayne Buteau, B.A., B.Ed., M.A., Lic.Sc.Soc. (Mtl.), Lic.Ped. (Mtl.), Ph.D. (McGill) — *Associate Professor of Education, Chairman, Department of Education in Second Languages*

Lynn Butler, B.Ed., M.Ed., McGill — *Lecturer in Education*

Margaret Cagney, B.S. (D'Youville), M.Ed. (SUNY) — *Assistant Professor of Education*

Nancy Carlman, B.A. (Rochester), M.A. (Wesleyan) — *Assistant Professor of Education*

Glenn F. Cartwright, B.A. (SGWU), M.A. (McGill) Ph.D. (Alta.) — *Assistant Professor of Education*

Wade Chambers — *Honorary Assistant Professor of Education*

John Chomay, B.Sc. (P.E.), (McGill), M.A. (Minn.) — *Associate Professor of Education*

Nicholas G. Coccalis, M.A. (Aberdeen), B.Ed., M.Ed., Ph.D. (Alberta) — *Assistant Professor of Education*

Roger B. Cook, B.S. (Frostburg), M.M. (W. Virginia) — *Assistant Professor of Education*

John M. Cram, B.A., B.Ed. (Alberta), M.Ed. (U.N.B.), Ed.D. (U.B.C.)
Associate Professor of Education

Ann Creaghan, B.A. (Marymount Col.), B.Ed. (Mtl.), M.A. (Columbia)
Associate Professor of Education

Heather Davis, Cert. in Ed. (Bristol), Adv.Dip.Prim.Ed. (Cambridge)
Assistant Professor of Education

Patrick Dias, B.A., M.A. (Karachi), B.Ed. (Mtl.) *Associate Professor of Education*

J. Leo Dowd, B.A. (Thomas More), B.Ed., M.A. (Mtl.), M.Ed. (McGill)
Associate Professor of Education

Florent Dumont, A.B. (Columbia College, N.Y.), M.S. (Southern Conn. College) Ed.D. (U. of Mass.)
Assistant Professor

Ruth M. Duncan, B.A. (Man.), B.Sc. (P.E.), (McGill), Associate of University of London, M.A. (Minnesota) *Associate Professor of Education, Chairman, Department of Elementary Education*

Reginald Edwards, B.Sc. (London), M.Ed. (Manchester)
Professor of Education (Sabbatical 1973-4)

Winston G. Emery, B.Ed., M.A.(Ed.), (McGill) *Assistant Professor of Education*

Wolfgang J. Floch, B.A. (U.B.C.), M.Ed., Ed.D. (Tor.), *Associate Professor of Education*

Pearl Francoeur, B.Sc. (SGWU), M.Sc. (McGill) *Assistant Professor of Education*

Thomas A. Francoeur, B.A. (Mtl.), M.A. (Ottawa), D.Ed. (Mtl.), Dipl.Past.Theol. (Lumen Vitae, Brussels) *Associate Professor of Education, Chairman, Department of Catholic Studies*

May B. Frith, B.A. (London), M.A. (Columbia) *Associate Professor of Education (on leave)*

J. Robert Gardner, B.Ed. (McGill), M.Ed. (Boston) *Assistant Professor of Education*

George L. Geis, B.A., M.A., Ph.D. (Columbia) *Associate Professor of Education, Associate Professor, Centre for Learning and Development*

Margaret Gillett, B.A. (Sydney), M.A. (Russell Sage), Ed.D. (Columbia) *Professor of Education*

Helen Vasos-Gougeon, B.A. (Marianopolis Col.), B.Ed. (Mtl.), M.A. (Ottawa)
Assistant Professor of Education

John B. Gradwell, B.A., M.A. (San Francisco State), Ph.D. (Iowa)
Associate Professor of Education

Frank P. Greene, B.A., M.A., Ph.D. (Mich.)
Associate Professor of Education, Director, Reading Centre

Michael C. Greenisen, B.S.(Ed.) (Northern Illinois), M.A. (Michigan State)
Assistant Professor of Education

C. Wayne Hall, M.A. (Bishop's), F.C.C.T. *Professor of Education, Dean*

John Hamwood, QLD. (Australia), Ph.D. (Toronto) *Assistant Professor of Education*

John K. Harley, M.A. (St. Andrews), Ed.M., Ed.D. (Harvard) *Associate Professor of Education*

Justine Harris, B.A. (Swarthmore Col.), M.Ed., Ed.D. (U.B.C.)
Assistant Professor of Education, Chairman, Department of Counsellor Education

Lorna H. Haworth, B.A. (SGWU), M.A. (McGill) *Assistant Professor of Education (on leave)*

E. Paddy Hearsey, Dip. in Ed. (Southampton), M.A. (SGWU) *Assistant Professor of Education*

Norman Henchey, B.A. (Loyola), B.Ed. (Mtl.), Lic.Ped. (Mtl.), Ph.D. (McGill)
Associate Professor of Education

The Rev. John P. Hilton, S.T.L. (Mtl.), M.A. (Cath. U. of America, Washington)
Associate Professor of Education, Associate Dean

Geoffrey Brian Isherwood, B.S. (Tufts), M.Ed. (U. of Del.), Ed.D. (Rutgers)
Assistant Professor of Education

Annie Elizabeth Jacques, Associate of the University of London
Associate Professor of Education, Chairman, Department of Education in Art

J. Keith Jobling, B.A. (Leeds), M.A. (McGill), Ph.D. (Ottawa)
Associate Professor of Education, Chairman, Department of Social Foundations of Education

Robert Jones, B.A., M.A. (SGWU), Bac.Ped. (Mtl.) *Assistant Professor of Education*

FACULTY OF EDUCATION

Vassilis Klissouras, Dip. (Athens), B.Sc., M.Sc., D.P.E. (Springfield)
Associate Professor of Education, Assistant Professor of Physiology (Fac. of Medicine)
(Sabbatical)

Peter C. Landry, B.Eng. (McGill), M.A. (Columbia), M.Sc. (McGill)
Associate Professor of Education, Honorary Lecturer, Department of Physics

Robert Lavers, B.A. (Bishop's), M.Sc., Ph.D. (McGill) *Assistant Professor of Education*

Robert Lavery, B.A. (Moncton), B.Ed., Lic.Ped. (Mtl.)
Associate Professor of Education, Chairman, Department of Educational Administration

William Lawlor, B.Comm. (Loyola), B.Ed. (Mtl.), M.A., Ph.D. (Ottawa)
Associate Professor of Education

Hugh M. Leard, B.A., B.Ed. (Sask.), M.A. (Minn.), Ed.D. (Arizona State)
Associate Professor of Education

John P. Lipkin, B.A. (Gettysburg), M.A.T. (Brown), Ph.D. (Mich.)
Associate Professor of Education

Jan Lobelle, Lic.Sc.Ec. (Ghent), M.A. (Middlebury) *Associate Professor of Education*

Enid Lofthouse, B.A. (Sask.), B.Ed. (Alta.), M.T.M. (SGWU) *Associate Professor of Education*

Barry Lucas, B.A. (UBC), M.Ed. (W. Washington), Ph.D. (Mich.)
Assistant Professor of Education

Christine Lucas *Assistant Professor of Education*

A. Daisy MacNeil, B.A. (U.B.C.), M.A. (Columbia), B.D. (McGill)
Associate Professor of Education

A. Kennedy Maconochie, M.A. (Edin.), F.R.S.G.S. *Associate Professor of Education*

Maisie MacRae, B.A. (SGWU), M.A. (McGill) *Assistant Professor of Education*

George Mager, A.B. (Franklin & Marshall) Ed.M., Ed.D. (Harvard)
Assistant Professor of Education

Roger P. Magnuson, B.A., M.A., Ph.D. (Mich.) *Associate Professor of Education*

Daniel Marisi, B.Ed., B.A., M.Sc. (Sask.), Ph.D. (California) *Assistant Professor of Education*

Theodore J. Maroun, B.S. (S.U.N.Y. Potsdam), M.S. (Canisius), M.Ed. (S.U.N.Y. Buffalo), Ed.D. (Indiana U.) *Associate Professor of Education*

L. Elaine McDonald, B.Mus. (Sam Houston State), M.A. (Columbia)
Associate Professor of Education, Chairman, Department of Education in Music

Gordon W.E. McElroy, B.A. (Queen's), M.A. (McGill)
Associate Professor of Education, Director of Summer Session,
Associate Director, McGill Centre for Continuing Education

Eileen McIlwaine, C.N.D., B.A., B.Ed. (Marianopolis), M.A. (Mtl.), Ph.D. (Ottawa)
Associate Professor of Education

Gerald H. McKay, B.A., M.A. (Dalhousie), M.A. (Yale), Ed.D. (Harvard) *Professor of Education*

Shirley W.C. McNicol, B.A. (McGill), M.A. (Columbia), Associate of the University of London
Associate Professor of Education

Dominic Modafferi, B.A. (Mtl.), M.A. (Wesleyan) *Associate Professor of Education*

Harry D. Morrison, B.A., M.Ed. (Bishop's)
Associate Professor of Education, Coordinator Undergraduate Degree Programs

Graham Neil, B.Ed.(P.E.), M.A. (McGill), Ph.D. (Oregon) *Assistant Professor of Education*

Stanley Nemiroff, B.Sc., M.A. (McGill) *Assistant Professor of Education*

Dorothy A. Nichol, B.Sc.(P.E.), (McGill), M.Sc.(P.E.), (Syracuse)
Associate Professor of Education

Martin O'Hara, B.A. (Thomas More), B.Ed. (Marianopolis), M.A. (Mtl.)
Associate Professor of Education, Chairman, Department of Education in English

Clifford Papke, B.A. (Mtl.), A.O.C.A. *Assistant Professor of Education*

James Park, B.Ed., M.Ed., Ph.D. (Alberta) *Assistant Professor of Education*

Charles E. Pascal, B.A., M.A., Ph.D. (Michigan) *Assistant Professor of Education,*
Assistant Professor, Centre for Learning & Development

Eigil Pedersen, B.A. (SGWU), M.A. (McGill), Ed.D. (Harvard)
Professor of Education, Vice-Principal (Academic)

Francis Pinto, B.A. (Madras), LL.B., M.A. (Bombay), L.Ph. (Gregorian Univ.)
Associate Professor of Education

Alwynn Pollard, B.Ed., M.A. (U.B.C.) *Lecturer in Education*

Robert N. Pollard, B.A., M.Ed. (U.B.C.)
Associate Professor of Education, Director of Educational Media Centre

André Provencher, Bacc. ès A. (Mtl.), Lic. ès Lett. (Lille) *Associate Professor of Education*

Salvatore Pupo, B.Ed. (Duquesne), M.Sc. (Notre Dame)
Associate Professor of Education (Sabbatical)

H. Oscar Purdy, B.A., M.A. (Acadia), M.A. (Bowdoin)
Associate Professor of Education, Chairman, Dept. of Education in Mathematics & Science

Peter Quily, B.Ed. (Alberta), M.Ed. (Oregon), Dip. Vocational Guidance (Alberta)
Assistant Professor of Education

Socrates Rapagna, B.A. (Don Bosco), B.Ph. (Turin), Lic.Ped. (Mtl.), M.A. (Mtl.)
Associate Professor of Education (on leave of absence)

Gregory D. Reid, B.Ed. (P.E.) (McGill), M.S. (U.C.L.A.) *Lecturer in Education*

Gillian Rejskind, B.A., M.A. (Sask.) *Assistant Professor of Education*

Howard Riggs, B.Ed. (Alta.), M.A. (Minn.) *Assistant Professor of Education*

Douglas Riley, B.Sc., M.Sc. (Springfield) *Assistant Professor of Education*

William Ryan, B.A. (St. Marys), B.Ed., M.A. (Mtl.), M.A. (McGill)
Associate Professor of Education

V. Ann Scott, B.S. (Purdue), M.S., Ed.S. (Indiana) *Assistant Professor of Education*

Gertrude Scott, B.A. (Marianopolis), B.Ed., Lic.Ped. (Mtl.) *Assistant Professor of Education*

William Edward Searles, B.Sc. (SGWU), M.Sc. (New Hampshire)
Associate Professor of Education (Sabbatical)

Hermione Shantz, B.A., M.A., Ph.D. (Michigan State) *Assistant Professor of Education*

Bruce M. Shore, B.Sc., M.A. (McGill), Ph.D. (Calgary)
Assistant Professor, Centre for Learning and Development, Assistant Professor of Education

David C. Smith, B.Ed., M.A. (McGill), Ph.D. (London)
Associate Professor of Education, Chairman, Department of Education in Social Sciences

Dorothy Sokolyk, B.A. (SGWU), M.A. (Columbia) *Associate Professor of Education*

Franga Stinson, B.A. (SGWU), M.A. (McGill), Ed.D. (Syracuse), Associate of the University of London *Associate Professor of Education, Coordinator of One-Year Elementary Program*

R. Lynn Studham, N.D.D., C.S.G.A., C.S.A. *Assistant Professor of Education*

Howard A. Stutt, B.A. (Queen's), B.Ed., M.Ed. (Mtl.)
Associate Professor of Education, Chairman, Department of Educational Psychology and Sociology

Ronald H. Tali, A.B., M.A., Ph.D. (The University of Michigan)
Associate Professor of Education

William Martin Talley, A.B. (Kentuky Christian College), A.B. (Morehead State), M.A., Ph.D. (Ohio State) *Associate Professor of Education*

Georges Terroux, B.A. (Loyola), M.A. (Essex), Ph.D. (Montreal)
Associate Professor of Education

Catherine Waddell, B.A. (SGWU), Dip.Ed. (Glasgow) *Assistant Professor of Education*

Margaret C. Walker, B.P.H.E. (Toronto), M.A. (Iowa) *Assistant Professor of Education*

Albert E. Wall, B.Ed.(P.E.), M.A. (McGill) *Assistant Professor of Education (Sabbatical)*

Jennifer A.T. Wall, London Univ. Inst. of Ed. Cert. (Chelsea Coll. of P.E.), Art of Movement Studio Cert., M.A. (McGill) *Assistant Professor of Education*

James Watling, A.T.C. (Leeds) *Associate Professor of Education*

Elisabeth L. Watters, B.A. (McGill), M.Ed. (Boston) *Assistant Professor of Education*

FACULTY OF EDUCATION

Boyd E. White, B.A. (SGWU), M.F.A. (Inst. Allende of U. of Guanajuato)
Assistant Professor of Education

Joan White, B.A. (Hons.) Dublin, C.E.S. (Aix-en-Provence), M.A. (McGill)
Assistant Professor of Education

Richard Whitwell, B.Sc. (London), M.A. (McGill), F.C.C.T. *Associate Professor of Education*

Robert E. Wilkinson, B.Sc. (P.E.), M.A. (Columbia), D.P.E. (Springfield)
Professor of Education, Chairman, Department of Physical Education

Lila F. Wolfe, B.Sc. (McGill)
Lecturer in Education

F. Jack Young, B.Ed. (U.B.C.), M.A. (Kent State, Ohio) *Associate Professor of Education*

John E.M. Young, B.A. (McMaster), B.Ed., M.Ed. (Sask.), Ph.D. (Toronto)
Professor of Education

2 PROGRAMS OFFERED

FULL-TIME STUDENTS

The Faculty of Education offers a wide variety of programs which are designed to prepare students for professional careers in the fields of elementary and secondary education. These include three-year programs for CEGEP graduates which lead to an undergraduate degree (Bachelor of Education), one-year programs for University graduates leading to the McGill Diploma in Education, and, on a limited basis, one-year certificate programs for CEGEP graduates.

DEGREE PROGRAMS OFFERED

MAJOR PROGRAMS leading to teacher certification at both the elementary and secondary school levels:

ART EDUCATION (see page 15)
PHYSICAL EDUCATION (see page 16)
RELIGIOUS STUDIES (Catholic or Protestant) (see page 17)

MAJOR PROGRAMS leading to teacher certification at the secondary school level (one subject):

BIOLOGY, CHEMISTRY, ENGLISH, ENGLISH OR FRENCH (Second Language), GEOGRAPHY, HISTORY, HOME ECONOMICS, LATIN, MATHEMATICS, MODERN LANGUAGES (GERMAN, ITALIAN OR SPANISH), AND PHYSICS. (see page 18).

MAJOR PROGRAM leading to certification at the elementary school level:

FRENCH-SECOND LANGUAGE (see page 19)

GENERAL PROGRAMS leading to teacher certification at the secondary school level (two subjects):

BIOLOGY, CHEMISTRY, ENGLISH, ENGLISH OR FRENCH (second language), GEOGRAPHY, HISTORY, LATIN, MATHEMATICS, MODERN LANGUAGES (GERMAN, ITALIAN OR SPANISH), PHYSICAL EDUCATION, PHYSICS AND RELIGIOUS STUDIES (Catholic or Protestant). (see page 19)

GENERAL PROGRAMS leading to teacher certification at pre-school and elementary school levels:

PRE-SCHOOL (children of ages 3-5) (see page 20)
EARLY CHILDHOOD (children of ages 5-8) (see page 21)
LATER CHILDHOOD (children of ages 8-11) (see page 22)

DIPLOMA PROGRAMS OFFERED

DIPLOMA PROGRAMS leading to teacher certification at the elementary, secondary, or combined elementary-secondary school levels:

Elementary Level

EARLY CHILDHOOD (ages 5-8) (see page 24)
LATER CHILDHOOD (ages 8-11) (see page 24)
FRENCH (SECOND LANGUAGE) (ages 5-11) (see page 25)

Secondary Level (one or two teaching areas)

Preparation in one or two of the following teaching areas:
ART, BIOLOGY, CHEMISTRY, ENGLISH, GENERAL SCIENCE, GEOGRAPHY, HISTORY, MATHEMATICS, PHYSICS, RELIGION (Catholic or Protestant), SECOND LANGUAGES (ENGLISH, FRENCH, GERMAN, ITALIAN, LATIN OR SPANISH), SOCIAL STUDIES. (see page 23)

Secondary Level (one teaching area only)

HOME ECONOMICS, TECHNICAL-VOCATIONAL or BUSINESS EDUCATION (see page 24)

Combined Elementary-Secondary Levels

MUSIC (see page 24)

NOTE: In conjunction with the School of Physical and Occupational Therapy, a one-year program leading to the McGill Diploma in Education is offered to qualified Physical Therapists who aspire to a teaching career in a recognized school of Physical Therapy. For further information on admissions, program and course requirements, write to The School of Physical and Occupational Therapy, 3654 Drummond Street, Montreal 109.

CERTIFICATE PROGRAMS OFFERED

Programs leading to certification at the elementary or secondary school levels:

Elementary Level

EARLY CHILDHOOD (to terminate June 1974) (see page 24)
LATER CHILDHOOD (to terminate June 1974) (see page 24)
FRENCH (SECOND LANGUAGE) (see page 25)

Secondary Level

TECHNICAL-VOCATIONAL SUBJECTS (see page 24)
BUSINESS EDUCATION (see page 24)

PART-TIME STUDENTS

During the summer months as well as in the evenings of the fall and spring terms the Faculty of Education offers a selected number of programs designed for certified teachers who are interested in pursuing further studies in elementary education or who wish to prepare for a career in the areas of Technical-Vocational* and Business Education*.

Candidates admitted to studies in elementary education may elect to enrol in either a 90 credit program leading to a Bachelor of Education degree or a 30 credit program leading to a Teaching Diploma issued by the Province of Quebec. All of these programs meet provincial standards in regard to the up-grading of teacher classification (Regulation # 5).

For general information on courses, admission procedures, fees, etc. write to:

Centre for Continuing Education
772 Sherbrooke Street West
Montreal, Quebec

— OR —

McGill Summer Session
P.O. Box 6070,
Montreal, Quebec 110.

*Certification not a pre-requisite for these programs.

DEGREE PROGRAMS

Bachelor of Education degree program with concentration in:

EARLY CHILDHOOD EDUCATION
READING
SPECIAL EDUCATION
EDUCATIONAL MEDIA

DIPLOMA PROGRAMS

Diploma programs, derived from the concentrations offered in the degree programs (above):

KINDERGARTEN

— includes courses in CHILD DEVELOPMENT, ART, MUSIC, CREATIVE MOVEMENT AND DRAMATICS, TEACHING METHODS AND MATERIALS for children of the 5-8 age group.

READING

— designed to train practicing teachers in more effective developmental and corrective teaching of reading.

NOTE: for detailed information, write to Prof. Frank Greene, Faculty of Education, 3700 McTavish Street, MONTREAL 112, Quebec.

SPECIAL EDUCATION

— designed for teachers wishing to qualify for work with children who have learning and/or behaviour problems. Useful for any teacher interested in problems of learning, their diagnosis and assessment.

NOTE: For detailed information, write to Prof. H. Stutt, Faculty of Education, 3700 McTavish Street, MONTREAL 112, Quebec.

EDUCATIONAL MEDIA

– intended to train teachers in more effective classroom communication and to prepare school or district media specialists.

NOTE: For detailed information, write to Director, Educational Media Centre, Faculty of Education, 3700 McTavish Street, MONTREAL 112, Quebec.

TECHNICAL-VOCATIONAL EDUCATION

– includes courses in basic educational theory and practice; concentrations in WOODWORK, METALWORK, TECHNICAL DRAWING, AUTOMOTIVE TECHNOLOGY, ELECTRICITY AND ELECTRONICS TECHNOLOGY, ETC.

BUSINESS EDUCATION

– in addition to courses in basic educational theory and practice, includes concentrations in ACCOUNTING, DATA PROCESSING, TYPEWRITING, BUSINESS MACHINES, SHORTHAND, BUSINESS MATHEMATICS, ETC.

NOTE: For detailed information, write to Prof. F. Jack Young, Faculty of Education, 3700 McTavish Street, MONTREAL 112, Quebec.

GRADUATE PROGRAMS

Through the Faculty of Graduate Studies, the University offers graduate degrees in Education – the Master of Arts, the Master of Education, and the Doctor of Education. Any of these programs may be taken through full-time study or through part-time study in the evenings and Saturday mornings, and/or during the six week Summer Session.

The following Masters' degrees are at present offered in the Faculty of Education:

M.A. degrees in
- Comparative Education
- Counsellor Education
- Educational Administration
- Educational Psychology
- History of Education
- Philosophy of Education
- Physical Education.

M.Ed. degrees in
- Counsellor Education
- Educational Administration
- Special Education
- Teaching of Reading
- Teaching Subjects.

Only one doctoral program is at present available, the Doctor of Education in Counsellor Education. It is, however, possible for well qualified candidates to enter special doctoral programs in education under the sponsorship of the Faculty of Graduate Studies and Research.

For complete detail on programs, admission requirements, fees, etc. consult the calendar of the Faculty of Graduate Studies and Research which may be obtained by a written request to Prof. L.B. Birch, Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec.

PROGRAMS UNDER DEVELOPMENT

Programs are now being developed in the areas of Collegial Education and Jewish Studies. The former to meet the expanding needs of the Quebec CEGEPS, the latter for those who aspire to a teaching position in Jewish Day Schools. Inquiries may be addressed to Associate Dean, (Academic), Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec.

3 PROGRAM PROFILES

DEGREE PROGRAMS

All the programs leading to the Bachelor of Education degree are of recent origin (introduced in 1971) and are designed primarily to accommodate the graduates of Quebec's new and still developing Colleges (CEGEP's) who aspire to a career in the teaching profession.

While requiring an academic and professional concentration which is essential for the candidate's basic preparation as a teacher in a given subject area and/or level of education, these programs also provide for the selection of a broad range of optional courses. This flexibility is intended to satisfy the diverse needs and interests of each student as these are perceived by the Faculty (staff adviser) or by the students themselves.

Each program, therefore, requires the completion of at least ninety (90) course credits in academic and professional studies chosen in consultation with a staff adviser (see 1 below) according to the following general pattern.

1) A minimum of thirty (30) course credits in an **ACADEMIC CONCENTRATION** (see 2 below);

2) A minimum of thirty (30) course credits in two semesters of **PROFESSIONAL CONCENTRATION** (see 3 below);

3) A maximum of fifteen (15) course credits which are determined by **DEPARTMENTAL SELECTION** (see 4 below);

4) A maximum of fifteen (15) course credits which each candidate may choose as **FREE ELECTIVES** (see 5 below).

GUIDELINES FOR COURSE SELECTIONS

1) ADVISERS

Before registration, each first year student will be introduced to a staff adviser with whom he will consult concerning program and course selection. Second and third year students will have an opportunity to make their selections in the month of April preceding registration in September. All new students (whatever year) will have the opportunity for pre-registration counselling (See Calendar dates). At registration, each student must present a copy of the **Study Plan Form** which was completed and signed by the staff adviser at the pre-registration meeting.

2) ACADEMIC CONCENTRATION

Academic concentration refers to those courses which provide content material related to the school subject(s) for which the teacher candidate is preparing, for example, English Literature, Canadian History, Chemistry, etc. . .

For those who select a **MAJOR PROGRAM**, all courses of the **ACADEMIC CONCENTRATION** must be in a single subject area (for example, Geography) or directly related to the subject (for example, Mathematics for Physics).

For candidates who select a **GENERAL PROGRAM** (SECONDARY EDUCATION), all courses of the **ACADEMIC CONCENTRATION** (36 credits in this program) must be equally divided between **OPTION I** (first subject) and **OPTION II** (second subject).

For candidates who select a program in **ELEMENTARY EDUCATION**, the courses of the **ACADEMIC CONCENTRATION** must be selected from the following subject areas taught in the elementary school: Art, English, French, Mathematics, Music, Physical Education, Science, Social Studies, and Religion. These five subject areas are selected as **OPTIONS** in the following pattern:

OPTION I which requires a total of twelve (12) course credits continued throughout the program;

OPTION II which requires a total of nine (9) course credits continued throughout the program;

OPTION III – three (3) course credits;

OPTION IV – three (3) course credits;

OPTION V – three (3) course credits.

NOTE: For the selection of available courses in the **ACADEMIC CONCENTRATION**, students are referred to the Calendars and timetables of the Faculties of Arts, Science, Music and Religious Studies. For academic courses offered by the Faculty of Education see Section 7 of this booklet.

3) PROFESSIONAL CONCENTRATION

Professional concentration refers to those courses which deal with educational theory and practice. These courses are grouped together in two semesters which are known as the **BASIC EDUCATION SEMESTER (BES)** and the **FIELD EXPERIENCE SEMESTER (FES)**. During these semesters a student may not enrol in an academic course without the approval of the Associate Dean (Academic).*

The courses offered during the **BES** or **FES** fall into three separate categories:

a) a general theory course which is required of all students (448-305 — INTEGRATED STUDY OF TEACHING & LEARNING):

b) field experience and curriculum courses which are specific to the teaching area and/or level of each candidate;

c) courses known as **EDUCATION ELECTIVES**. These are courses which offer the opportunity for study in greater depth of one or another aspect of the educational theory touched upon in the general course. For available selections, see **EDUCATION ELECTIVES** below.

*Students who already possess a Quebec Teaching Permit (or equivalent qualification) are exempt from this requirement.

4) DEPARTMENTAL COURSE SELECTION

Departmental course selection refers to those courses which are determined for each student or group of students by the Department responsible for the teaching area and/or level for which each student is preparing (example: for English, Secondary level, Department of Education in English; for elementary schools, early childhood, Department of Elementary Education, etc.). Although the courses chosen may be either academic or professional in content, they are not included among the requirements of the education semesters or the academic concentration. Thereby, the Department is able to supplement basic program requirements with others judged most likely to lead to a well-balanced profile relative to both the individual needs of each student and the teaching competencies demanded by the profession.

5) FREE ELECTIVE

Free elective refers to those courses, either academic or professional, which may be chosen by the student in order to fulfill perceived needs or to pursue areas of scholarly interest. Thus, the student is free to enrol in any course offered by the University within the limits established by timetables, pre-requisites, faculty jurisdictions, etc.

Before making selections, students are urged to discuss the matter with Departmental advisers or other competent counsellors. Although not required, it is recommended that the student use the opportunity provided by these electives to plan a coherent package of course selections which complement the basic program according to individual needs.

SUGGESTIONS

a) to prepare for graduate study in a subject discipline, additional courses in the **ACADEMIC CONCENTRATION**;

b) to prepare for graduate study in Education, a group of courses from a selected area (for example, Educational Psychology, Foundations of Education);

c) to support the minimum requirements of a General Secondary program, a choice of additional academic and curriculum courses in the areas of concentration;

d) to supplement preparation in elementary education, appropriate courses offered in Psychology, curriculum, or related academics;

e) to provide background for those who intend to teach in Catholic schools, selected courses in Catholic studies;

f) to enhance basic teaching techniques, courses available in Educational Media.

For a full range of course offerings which might serve this purpose, consult the announcements of other faculties, especially those of Arts and Science. Courses available as **FREE ELECTIVES** in the Faculty of Education may be selected from the List of Course Offerings (section 7) in consultation with a Faculty adviser.

EDUCATION ELECTIVES

The courses listed below are those education courses which are available to the student during the **Basic Education** or **Field Experience Semesters.** If scheduling permits, they are otherwise available as courses which the student may choose as **FREE ELECTIVES.**

Before making a selection, the student is urged to consult a staff adviser. This consultation should not take place until the student has decided on an area and/or level of teaching concentration (program profile).

Although the electives are specified for first, second and third years, crossover selections are permitted if approved by the Associate Dean (Academic).

Because of enrolment limits, first selections are not guaranteed. When registering, the student should be prepared to make a second or third choice.

FIRST YEAR ELECTIVES*

413-404	THE RISE OF PUBLIC EDUCATION IN THE 19TH CENTURY
413-408	HUMAN VALUES AND EDUCATION
414-201	NATURE AND CONDITIONS OF SCHOOL LEARNING
414-203	EDUCATION AND SOCIETY *pre-requisite: 414-205*
414-208	THE DEVELOPMENT OF PERSONALITY AND SOCIAL BEHAVIOUR IN THE SCHOOL-AGE CHILD
414-249	CREATIVITY AND ITS CULTIVATION
415-398	PHILOSOPHY OF CATHOLIC EDUCATION

SECOND YEAR ELECTIVES*

411-394	ADMINISTRATION OF EDUCATION IN QUEBEC
412-304	GROUP PROCESSES
413-404	THE RISE OF PUBLIC EDUCATION IN THE 19TH CENTURY
413-408	HUMAN VALUES AND EDUCATION
414-201	NATURE AND CONDITIONS OF SCHOOL LEARNING
414-203	EDUCATION AND SOCIETY *pre-requisite: 414-205*
414-205	SOCIOLOGY OF EDUCATION
414-304	MEASUREMENT AND EVALUATION IN EDUCATION
414-308	SOCIOLOGY OF THE CLASSROOM
414-377	ADOLESCENCE AND THE PROCESS OF EDUCATION
414-394	COGNITIVE DEVELOPMENT IN THE SCHOOL-AGE CHILD AND ADOLESCENT (not open to those who have taken 414-396) *pre-requisites: 414-340; 414-341*
414-396	THE NATURE OF INTELLIGENCE (not open to those who have taken 414-394) *pre-requisites: 414-340; 414-341*
415-398	THE PHILOSOPHY OF CATHOLIC EDUCATION
415-399	CATHOLIC SCHOOL OF THE FUTURE
431-301	LINGUISTICS APPLIED TO SECOND LANGUAGE TEACHING *pre-requisite: permission of instructor*
432-204	INTRODUCTION TO EDUCATIONAL MEDIA

THIRD YEAR ELECTIVES*

411-394	ADMINISTRATION OF EDUCATION IN QUEBEC
412-304	GROUP PROCESSES
413-404	THE RISE OF PUBLIC EDUCATION IN THE 19TH CENTURY
413-405	THE CRITICAL SPIRIT AND EDUCATION
413-406	INTRODUCTION TO COMPARATIVE EDUCATION
413-408	HUMAN VALUES AND EDUCATION
414-304	MEASUREMENT AND EVALUATION IN EDUCATION
414-308	SOCIOLOGY OF THE CLASSROOM
414-340	EDUCATION OF EXCEPTIONAL CHILDREN
414-341	GENERAL METHODS IN SPECIAL EDUCATION
415-398	PHILOSOPHY OF CATHOLIC EDUCATION
415-399	CATHOLIC SCHOOL OF THE FUTURE

427-343 ADVANCED READING INSTRUCTION – ELEMENTARY SCHOOL
pre-requisite: 427-228 or 427-238

430-333 COMPARATIVE SOCIAL STUDIES
pre-requisite: 430-332

432-404 CONTEMPORARY DEVELOPMENTS IN EDUCATIONAL MEDIA
pre-requisite: 432-204

*For detailed course descriptions see **Course Offerings**, (section 7).

MAJOR PROGRAMS

Candidates admitted to Major programs must meet the following course requirements:

30 credits in a single academic concentration from courses chosen in consultation with a Departmental adviser;

33 credits in a professional concentration in which are included:

9 credits in Basic Education (448-204 and 448-305)

15 credits in Field Experience and Curriculum courses specific to the area of academic concentration;

9 credits chosen from list of Education Electives.

12 credits determined by the Departmental adviser (to complement the academic or professional concentration);

15 credits chosen as FREE ELECTIVES.

ART EDUCATION (ELEMENTARY – SECONDARY)
(For course selections, see Guidelines)

FIRST YEAR

ACADEMIC CONCENTRATION 18 credits

Student must take 426-204A DRAWING, 426-296A BASIC DESIGN. Other courses (12 credits) may be selected from the following 3 credit courses:

205B PAINTING II (See Note 2 below)
206A or B INTRODUCTION TO GRAPHICS
207B STUDY IN FURTHER GRAPHIC MEDIA
208A or B INTRODUCTION TO CERAMICS
209B CERAMIC II
297B DESIGN II
398A EARLY CANADIAN ART HISTORY
399B CANADIAN ART

DEPARTMENTAL COURSE SELECTIONS 6 credits

In the first semester student must take 448-204. In the second semester, 427-305 or 432-204 or another course approved by the Department.

FREE ELECTIVES 6 credits

SECOND YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION 12 credits

Student may choose to pursue **two** areas of concentration

PAINTING (426-304 and 305A)
or
GRAPHICS (426-394 and 395A)
or
DESIGN (426-396A and 397A)
or
CERAMICS (426-300A and 309A)

FREE ELECTIVE 3 credits

SECOND YEAR – SECOND SEMESTER (BES)

448-305B INTEGRATED STUDY OF TEACHING & LEARNING 6 credits
435-245B FIELD EXPERIENCE – ELEMENTARY & SECONDARY 3 credits
CURRICULUM COURSE (426-322) 3 credits

FACULTY OF EDUCATION

EDUCATION ELECTIVE — 3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-496 FIELD EXPERIENCE – ELEMENTARY & SECONDARY — 9 credits

EDUCATION ELECTIVES — 6 credits

THIRD YEAR – SECOND SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 9 credits
Student must take two courses (6 credits) in one of the two areas of academic concentration selected in second year (See Note 1 below)

FREE ELECTIVES — 6 credits

NOTE 1 – Students are required to present an exhibition of their work at the end of the third year.

NOTE 2 – Sketching School – A ten day resident sketching school (Labour Day week-end through early September) is offered to students who have completed Painting II (426-205). This will be considered an optional part of Painting V (426-404) but may be taken in the first summer. Students will be expected to pay transportation, room and board (cost will be kept to a minimum).

PHYSICAL EDUCATION (ELEMENTARY – SECONDARY)
(For course selections, see Guidelines)

FIRST YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION (See note 2 below) — 12 credits
Students must take 434-205, 207, 241, and either 434-204 or 291 (for details, see page 59)

DEPARTMENTAL COURSE SELECTION — 3 credits
Students must take 448-204A. Introduction to Education.

FIRST YEAR – SECOND SEMESTER (BES)

448-305 INTEGRATED STUDY OF TEACHING & LEARNING — 6 credits
435-245 DIRECTED OBSERVATION – ELEMENTARY — 3 credits
434-242 ELEMENTARY P.E. METHODS — 3 credits

EDUCATION ELECTIVE — 3 credits

SECOND YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 6 credits
Students must take 552-201 and 434-301.

FREE ELECTIVES — 9 credits

SECOND YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 6 credits
Students must take 434-391B and 434-302.

DEPARTMENTAL COURSE SELECTION — 3 credits

FREE ELECTIVES — 6 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-496A FIELD EXPERIENCE ELEMENTARY AND SECONDARY — 9 credits

EDUCATION ELECTIVES — 6 credits

THIRD YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 6 credits
Students must take 434-402 and 434-492.

DEPARTMENTAL COURSE SELECTIONS — 9 credits
Students must take three of 434-493, 494, 495, 496 and 497.

NOTE 1. Costume & Equipment: All students pursuing a major program in Physical Education are required to wear a costume appropriate to the activity as approved by the instructor. Students are also responsible for providing some items of personal sports equipment such as skis, skates, tennis racquets, etc.

NOTE 2. All students in the physical education major program must complete a minimum of 18 semester credits in activity courses before graduation. Nine of these credits are required, the remaining nine credits are to be chosen from the optional list. Registration in an advanced activity course requires at least a "C" grade in the introductory course and permission of the instructor. Not all elective activity courses will be offered each year. It should be possible, however, for a candidate to elect for any of these options sometime during the three year program. (see page 60).

RELIGIOUS EDUCATION – CATHOLIC (ELEMENTARY – SECONDARY)

(For course selections, see Guidelines)

FIRST YEAR

ACADEMIC CONCENTRATION — 18 credits
Recommended courses are 415-200, 204, 290, 206, 207 and 208 (for details, see Course Offerings, section 7).

DEPARTMENTAL COURSE SELECTIONS — 6 credits
Students must take 448-204 in the first semester. In the second semester, 427-305 or 432-204 unless another course is approved by the Department.

FREE ELECTIVES — 6 credits

SECOND YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 12 credits
Recommended courses are 415-391, 394, 395 and 396. (See Course Offerings for details).

FREE ELECTIVE — 3 credits

SECOND YEAR – SECOND SEMESTER (BES)

448-305 INTEGRATED STUDY OF TEACHING & LEARNING — 6 credits
435-495 DIRECTED OBSERVATION — 3 credits
CURRICULUM COURSE (415-341 or 392) — 3 credits
EDUCATION ELECTIVE — 3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-496 FIELD EXPERIENCE – ELEMENTARY & SECONDARY — 9 credits
EDUCATION ELECTIVES — 6 credits

THIRD YEAR – SECOND SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 9 credits

FREE ELECTIVES — 6 credits

NOTE: Students who prefer to combine a Religious Studies option (Secondary level only) with another subject are referred to p. 19).

RELIGIOUS EDUCATION – PROTESTANT (ELEMENTARY – SECONDARY)

(For course selections, see Guidelines)

FIRST YEAR

ACADEMIC CONCENTRATION (See Note 1 below) — 18 credits
Recommended Courses are 260-E140, 200, 300, 310 and 340 (for details on these and other available courses, see Calendar of Faculty of Religious Studies).

DEPARTMENTAL COURSE SELECTIONS — 6 credits
Students must take 448-204 in the first semester. In the second semester, 427-305 or 432-204 unless another course is approved by Departmental adviser.

FREE ELECTIVES — 6 credits

SECOND YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 12 credits
Recommended courses are 421-301, 260-345, 370 and 440 or other offerings listed among "Related Courses" in the Calendar of the Faculty of Religious Studies.

FREE ELECTIVE — 3 credits

SECOND YEAR – SECOND SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-495	DIRECTED OBSERVATION	3 credits
	CURRICULUM COURSE (421-542 or 572)	3 credits
	EDUCATION ELECTIVE	3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-496	FIELD EXPERIENCE – ELEMENTARY & SECONDARY	9 credits
	EDUCATION ELECTIVES	6 credits

THIRD YEAR – SECOND SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 9 credits
Students will take 412-304 and any other courses approved by Departmental adviser.

FREE ELECTIVES — 6 credits

NOTE 1. Students who choose this option are referred to Prof. D. MacNeill (Room 365) for advice and consultation.
NOTE 2. Those who prefer to combine a Religious Studies option (Secondary level only) with another subject are referred to p. 19).

SECONDARY EDUCATION – MAJOR PROGRAMS*
(For course selections, see Guidelines)

FIRST YEAR

ACADEMIC CONCENTRATION — 18 credits
Courses in the Academic Concentration should be selected from the offerings available in the Faculty of Arts or the Faculty of Science in consultation with a departmental adviser.

DEPARTMENTAL COURSE SELECTIONS — 6 credits
Students must take 448-204 in the first semester. In the second, they may take 427-305 or 432-204 or another course approved by the Department.

FREE ELECTIVES — 6 credits

SECOND YEAR – FIRST SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-375	DIRECTED OBSERVATION – SECONDARY	3 credits
	Curriculum Course (Major Subject)	3 credits
	EDUCATION ELECTIVE	3 credits

SECOND YEAR – SECOND SEMESTER (FES)

435-376	FIELD EXPERIENCE – SECONDARY SCHOOL	9 credits
	EDUCATION ELECTIVES	6 credits

THIRD YEAR

ACADEMIC CONCENTRATION — 18 credits
See Calendar, Faculty of Arts, Faculty of Science.

DEPARTMENTAL COURSE SELECTIONS — 3 credits

FREE ELECTIVES — 9 credits

*For available options, see p. 9.

HOME ECONOMICS

Students who elect to follow a Major program in Home Economics are required to enrol in the courses offered in the School of Food Science for the first four semesters. During that period they are required to complete 60 course credits of which at least 30 must be in the Academic Concentration. Students then enrol for 30 course credits in professional subjects at the Faculty of Education.

THIRD YEAR – FIRST SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-375	DIRECTED OBSERVATION SECONDARY	3 credits
Curriculum Course (Major Subject)		3 credits
EDUCATION ELECTIVE		3 credits

THIRD YEAR – SECOND SEMESTER (FES)

435-376	9 credits
EDUCATION ELECTIVES	6 credits

FRENCH SECOND LANGUAGE (ELEMENTARY)

FIRST YEAR

ACADEMIC CONCENTRATION — 18 credits

To be selected from the following:

126-225D	104-200A	157-200A
126-229D	104-200B	157-203D
126-245D	104-201D	157-226A
126-247D	104-230A	
126-264D	104-241B	
126-275D		

(for details see Calendar, Faculty of Arts)

DEPARTMENTAL COURSE SELECTIONS — 6 credits

Students must take 448-204 in the first semester. In the second, either 427-305 or 432-204 or another course approved by the Department.

FREE ELECTIVES — 6 credits

SECOND YEAR – FIRST SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-375	DIRECTED OBSERVATION – SECONDARY SCHOOL	3 credits
Curriculum Course (431-342)		3 credits
EDUCATION ELECTIVE		3 credits

SECOND YEAR – SECOND SEMESTER (FES)

435-346	FIELD EXPERIENCE – ELEMENTARY SCHOOL	9 credits
EDUCATION ELECTIVES		6 credits

THIRD YEAR

ACADEMIC CONCENTRATION — 12 credits

To be selected from the following:

126-317A	104-321B	157-316A
126-329D	104-410B	157-336B
126-333A	104-425A	157-370D
126-334B		157-406B
126-342D		157-480B
126-345D		
126-442D		

DEPARTMENTAL COURSE SELECTIONS — 9 credits

Student may take three of the following: 431-304, 431-345, 432-205, 432-306, 433-322 or any other course approved by the Department.

FREE ELECTIVES — 9 credits

SECONDARY EDUCATION – GENERAL PROGRAMS*

(For course selections, see Guidelines)

FIRST YEAR

ACADEMIC CONCENTRATION — 18 credits

- Option I (9 credits)
- Option II (9 credits)

*For available options, see p. 9.

DEPARTMENTAL COURSE SELECTIONS — 6 credits
Student must take 448-204 in the first semester. In the second, they may take 427-305 or 432-204 or another course approved by the Department Chairman.

FREE ELECTIVES — 6 credits

SECOND YEAR – FIRST SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-375	DIRECTED OBSERVATION – SECONDARY	6 credits
	Curriculum Course (Option I)	3 credits
	Curriculum Course (Option II)	3 credits

SECOND YEAR – SECOND SEMESTER (FES)

435-376	FIELD EXPERIENCE – SECONDARY SCHOOL	9 credits

EDUCATION ELECTIVES — 6 credits

THIRD YEAR

ACADEMIC CONCENTRATION — 18 credits
– Option I (9 credits)
– Option II (9 credits)

DEPARTMENTAL COURSE SELECTIONS — 3 credits

FREE ELECTIVES — 9 credits

ELEMENTARY EDUCATION – NURSERY & KINDERGARTEN

(For course selections, see Guidelines)

FIRST YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 12 credits
– Option I (6 credits) to be continued in 2nd, 3rd years
– Option II (3 credits) to be continued in 2nd, 3rd years
– Option III (3 credits)
*Students must include Art, Music, & Physical Movement among the options chosen.

DEPARTMENTAL COURSE SELECTIONS — 3 credits
Students must take 448-204 Introduction to Education.

FIRST YEAR – SECOND SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-145	DIRECTED OBSERVATION	3 credits
414-208	THE DEVELOPMENT OF PERSONALITY	3 credits

EDUCATION ELECTIVE — 3 credits

SECOND YEAR – FIRST SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 12 credits
Students must take 427-305, 433-305, 433-322, 417-312 or any other course approved by the Department.

FREE ELECTIVE — 3 credits

SECOND YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 12 credits
– Option I (3 credits) to be continued in 3rd year
– Option II (3 credits) to be continued in 3rd year
– Option IV (3 credits)
– Option V (3 credits)

FREE ELECTIVE — 3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-411	FIELD EXPERIENCE – NURSERY & KINDERGARTEN	6 credits
433-411	PRE-SCHOOL CURRICULUM	3 credits

EDUCATION ELECTIVES — 6 credits

THIRD YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 6 credits
- Option I (3 credits)
- Option II (3 credits)

FREE ELECTIVES — 9 credits

ELEMENTARY EDUCATION – EARLY CHILDHOOD

(For course selections, see Guidelines)

FIRST YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 12 credits
- Option I (6 credits) to be continued in 2nd, 3rd years
- Option II (3 credits) to be continued in 2nd, 3rd years
- Option III (3 credits)

DEPARTMENTAL COURSE SELECTIONS — 3 credits
Students must take 448-204.

FIRST YEAR – SECOND SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-245	DIRECTED OBSERVATION – ELEMENTARY	3 credits
Curriculum Course (427-228 or 428-322)		3 credits
EDUCATION ELECTIVE		3 credits

SECOND YEAR – FIRST SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 12 credits
Students must take 427-228 or 428-322 (whichever was not taken in first year) and three courses (9 credits) among the following:

415-341	RELIGIOUS RESPONSE (CATHOLIC SCHOOLS)
417-442	CURRICULUM & INSTRUCTION IN ELEMENTARY SCIENCE
421-342	HUMAN AND RELIGIOUS VALUES (PROTESTANT SCHOOLS)
426-322	ART CURRICULUM & INSTRUCTION
427-305	EXPERIENCES IN COMMUNICATION
427-343	ADVANCED READING INSTRUCTION – ELEMENTARY SCHOOL
429-422	MUSIC CURRICULUM & INSTRUCTION
430-322	SOCIAL STUDIES CURRICULUM & INSTRUCTION
431-322	FRENCH – SECOND LANGUAGE
431-347	ENGLISH – SECOND LANGUAGE
434-421	MOVEMENT EDUCATION

NOTE: Students who have chosen subjects other than English or Mathematics as Academic Option I or II must elect curriculum courses which relate to those options (for example, if Option I is French then 431-322 Teaching French as a Second Language must be chosen.

FREE ELECTIVE — 3 credits

SECOND YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 12 credits
- Option I (3 credits) to be continued in 3rd Year
- Option II (3 credits) to be continued in 3rd Year
- Option IV (3 credits)
- Option V (3 credits)

FREE ELECTIVE — 3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-421	FIELD EXPERIENCE – EARLY CHILDHOOD	6 credits
433-421	ELEMENTARY CURRICULUM – EARLY CHILDHOOD	3 credits
EDUCATION ELECTIVES		6 credits

THIRD YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 6 credits
- Option I (3 credits)
- Option II (3 credits)

FREE ELECTIVES — 9 credits

ELEMENTARY EDUCATION – LATER CHILDHOOD
(For course selections, see Guidelines)

FIRST YEAR – FIRST SEMESTER

ACADEMIC CONCENTRATION — 12 credits
- Option I (6 credits) to be continued in 2nd, 3rd Years
- Option II (3 credits) to be continued in 2nd, 3rd Years
- Option III (3 credits)

DEPARTMENTAL COURSE SELECTIONS — 3 credits
Students must take 448-204.

FIRST YEAR – SECOND SEMESTER (BES)

448-305	INTEGRATED STUDY OF TEACHING & LEARNING	6 credits
435-245	DIRECTED OBSERVATION – ELEMENTARY	3 credits
Curriculum Course (427-238 or 428-332)		3 credits
EDUCATION ELECTIVES		3 credits

SECOND YEAR – FIRST SEMESTER

DEPARTMENTAL COURSE SELECTIONS — 12 credits
Students must take 427-238 or 428-332 (whichever was not taken in first year) and three courses (9 credits) among the following:

415-341	RELIGIOUS RESPONSE (CATHOLIC STUDIES)
417-442	ELEMENTARY SCIENCE
421-342	HUMAN & RELIGIOUS VALUES
426-332	ART CURRICULUM & INSTRUCTION – LATER CHILDHOOD
427-305	EXPERIENCES IN COMMUNICATIONS
427-343	ADVANCED READING INSTRUCTION – ELEMENTARY SCHOOL
429-432	MUSIC CURRICULUM & INSTRUCTION
430-332	LOCAL & COMMUNITY STUDIES
431-332	FRENCH AS SECOND LANGUAGE
431-347	ENGLISH AS SECOND LANGUAGE
434-421	MOVEMENT EDUCATION

NOTE: Students who have chosen subjects other than English or Mathematics as Academic Option I or II must elect curriculum courses which relate to those options (for example, if Option I is French then 431-332 Teaching French as a Second Language must be chosen).

FREE ELECTIVES — 3 credits

SECOND YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 12 credits
- Option I (3 credits) to be continued in 3rd Year
- Option II (3 credits) to be continued in 3rd Year
- Option IV (3 credits)
- Option V (3 credits)

FREE ELECTIVES — 3 credits

THIRD YEAR – FIRST SEMESTER (FES)

435-431	FIELD EXPERIENCE – LATER CHILDHOOD	6 credits
433-431	ELEMENTARY CURRICULUM – LATER CHILDHOOD	3 credits
EDUCATION ELECTIVES		6 credits

THIRD YEAR – SECOND SEMESTER

ACADEMIC CONCENTRATION — 6 credits
- Option I (3 credits)
- Option II (3 credits)

FREE ELECTIVES — 9 credits

DIPLOMA PROGRAMS

At the beginning of the fall session each student will be assigned a Faculty adviser who will assist the student in selecting courses and arranging a suitable timetable. In particular he will offer counselling in connection with the academic and student teaching programs.

In association with Education 446-504D, Orientation to Teaching, the Advisory Program also provides students with the opportunity to meet periodically with practicing teachers and administrators and with representatives of teachers' associations and school boards.

SECONDARY EDUCATION

Candidates will be admitted to prepare in either one or two teaching areas.

REQUIRED COURSES

(ALL CANDIDATES)

411-592 School Law
413-500 History and Philosophy of Education
or
415-594-595 Philosophy of Catholic Education
427-505 Language and Other Media
414-500 Educational Psychology
435-574† Classroom Student Teaching
446-504 Orientation to Teaching

†Students in the Secondary Diploma Program are required to complete two periods of student teaching comprising three weeks in the first semester and five weeks in the second, in selected high schools. During these periods, students are expected to commit themselves exclusively to the teaching programs arranged by the Faculty in cooperation with the schools.

From the following list, the candidate preparing in a single teaching subject **CHOOSES ONE**, the candidate preparing in two teaching subjects **CHOOSES TWO**:

ART	426-572D	PHYSICS	417-578D
BIOLOGY	417-576D	RELIGION (Catholic)	415-571D
CHEMISTRY	417-577D	RELIGION (Protestant)	421-301A & 572B
ENGLISH	427-572D	FRENCH	431-572D
ENGLISH (Second Language)	431-558D	LATIN	431-578D
GENERAL SCIENCE*	417-575D	GERMAN	431-579D
GEOGRAPHY	430-572D	ITALIAN	431-579D
HOME ECONOMICS**	418-572A & 573B	SPANISH	431-579D
HISTORY	430-575D	SOCIAL STUDIES*	430-579D
MATHEMATICS	428-572D		

*Not available as a single subject.
**Available as a single subject only.

ELECTIVE COURSES

The candidate preparing in a single teaching subject must take an additional advanced course in the teaching subject (List A) and one other course (List B).

LIST A

415-503	RELIGIOUS RESPONSE, SECONDARY ADVANCED, CATHOLIC STUDIES
417-573A	SCIENCE CURRICULUM AND INSTRUCTION, ADVANCED
418-574	HOME ECONOMICS, CURRICULUM AND INSTRUCTION, ADVANCED
421-301A	LIVING WITH QUESTIONS (RELIGIOUS EDUCATION, PROTESTANT)
426-573A	ART, SECONDARY ADVANCED, CURRICULUM AND INSTRUCTION
427-573B	ENGLISH, SECONDARY ADVANCED, CURRICULUM AND INSTRUCTION
428-573B	MATHEMATICS, ADVANCED, CURRICULUM AND INSTRUCTION
430-573B	GEOGRAPHY, SECONDARY ADVANCED, CURRICULUM AND INSTRUCTION
430-576B	HISTORY, SECONDARY ADVANCED, CURRICULUM AND INSTRUCTION
431-573A	SECOND LANGUAGE, SECONDARY ADVANCED, CURRICULUM AND INSTRUCTION

LIST B

411-575	SECONDARY SCHOOL CURRICULUM
415-573A	LIVING WITH INSIGHT (Dept. of Catholic Studies)
421-572B	HUMAN AND RELIGIOUS VALUES IN THE SECONDARY SCHOOL (Protestant)

426-532A or B ART CURRICULUM AND INSTRUCTION – LATER CHILDHOOD
427-576A or B READING IN THE HIGH SCHOOL
431-501A or B or D LINGUISTICS APPLIED TO SECOND LANGUAGE TEACHING
431-504A or B or D QUEBEC CULTURAL CONTENT OF SECOND LANGUAGE PROGRAMS
432-204A or B INTRODUCTION TO EDUCATIONAL MEDIA

NOTE: Additional courses normally available in the B.Ed. Program may be open to 1G students who are following a single teaching elective. Admission to these courses is subject to the recommendation of the student's department and the permission of the instructor. Information as to available courses may be obtained from the student's department or the office of the Coordinator of the Secondary Diploma Program.

TECHNICAL/VOCATIONAL AND BUSINESS EDUCATION CONCENTRATIONS

REQUIRED COURSES

ALL CANDIDATES
411-592 SCHOOL LAW
413-500 HISTORY AND PHILOSOPHY OF EDUCATION
OR
415-594-595 PHILOSOPHY OF CATHOLIC EDUCATION
414-500 EDUCATIONAL PSYCHOLOGY
427-505 LANGUAGE AND OTHER MEDIA
435-574 CLASSROOM STUDENT TEACHING

Technical/Vocational Concentration only:
436-572 METHODS IN TEACHING TECHNICAL/VOCATIONAL SUBJECTS
436-574 ORGANIZATION AND ADMINISTRATION IN TECHNICAL/VOCATIONAL SUBJECTS

Business Education Concentration only:
436-562 TEACHING METHODS IN BUSINESS EDUCATION
436-564 ORGANIZATION AND ADMINISTRATION IN BUSINESS EDUCATION

OPTIONAL COURSE(S)

Students in the Technical/Vocational and Business Education concentrations will take the following courses:
436-575 CURRICULUM DEVELOPMENT IN TECHNICAL/VOCATIONAL EDUCATION
436-576 EDUCATIONAL EVALUATION IN TECHNICAL/VOCATIONAL EDUCATION
OR
the equivalent of one full course from options available in the Faculty of Education or in other faculties.

ELEMENTARY AND SECONDARY EDUCATION – MUSIC

Candidates with an acceptable degree in school music (or equivalent) will be admitted to a program which provides preparation for the teaching of music at both the elementary and secondary school levels. Students will take all of the REQUIRED COURSES listed in the previous section together with the following:
429-542A ELEMENTARY MUSIC CURRICULUM AND INSTRUCTION
429-572B SECONDARY MUSIC CURRICULUM AND INSTRUCTION

ELEMENTARY EDUCATION – EARLY OR LATER CHILDHOOD

Candidates will be admitted to prepare for teaching at the Early or Later Childhood levels.

REQUIRED COURSES

ALL CANDIDATES
411-592A or B SCHOOL LAW
413-502A or B SOCIAL FOUNDATIONS OF EDUCATION
or
415-594A or 595B PHILOSOPHY OF CATHOLIC EDUCATION
414-500D EDUCATIONAL PSYCHOLOGY
435-544D CLASSROOM STUDENT TEACHING
446-504D ORIENTATION TO TEACHING

The integration of theoretical and practical dimensions of the various courses is provided through an internship. This requires, in addition to a program of study at the Faculty, that students teach in classrooms for part of each week throughout the year. A Faculty member will serve as adviser to a group of students. The adviser will work cooperatively with students and school personnel in the preparation and evaluation of teaching assignments.

EARLY CHILDHOOD

426-522A, B	ART
427-522D	READING & LANGUAGE ARTS
428-522A or B	MATHEMATICS
429-522A or B	MUSIC

one of the following:

415-547A or B	RELIGIOUS RESPONSE
417-522A or B	SCIENCE
421-542A or B	HUMAN & RELIGIOUS VALUES
430-522A or B	SOCIAL STUDIES
431-522B	FRENCH CURRICULUM & INSTRUCTION
431-547A	TEACHING ENGLISH AS A SECOND LANGUAGE
433-512A or B	KINDERGARTEN
434-521A or B	MOVEMENT EDUCATION

LATER CHILDHOOD

427-532D	READING & LANGUAGE ARTS
428-532A or B	MATHEMATICS
430-532A or B	LOCAL & COMMUNITY STUDIES

Two of the following:

415-547A or B	RELIGIOUS RESPONSE
417-532A or B	SCIENCE
421-542A or B	HUMAN & RELIGIOUS VALUES
426-532A or B	ART
427-594B	CREATIVE DRAMA FOR THE CLASSROOM
429-532A or B	MUSIC
430-533B	COMPARATIVE SOCIAL STUDIES
431-532A or B	FRENCH
431-547A or B	TEACHING ENGLISH AS A SECOND LANGUAGE
432-204A or B	EDUCATIONAL MEDIA
434-531A or B	PHYSICAL EDUCATION

ELEMENTARY EDUCATION – FRENCH (SECOND LANGUAGE)

411-592A or B	SCHOOL LAW
413-502A or B	SOCIAL FOUNDATIONS OF EDUCATION, or
415-594A or 595B	PHILOSOPHY OF CATHOLIC EDUCATION
414-500D	EDUCATIONAL PSYCHOLOGY
431-501A	LINGUISTICS APPLIED TO SECOND LANGUAGE TEACHING
431-544D	TEACHING FRENCH AS A SECOND LANGUAGE
431-545B	THE BILINGUAL CLASS
431-540A	ANIMATION TECHNIQUES
435-544D	CLASSROOM STUDENT TEACHING
446-504D	ORIENTATION TO TEACHING

Two of any Early or Later Childhood electives except French and Reading and Language Arts (See above).

CERTIFICATE PROGRAMS

Candidates will follow the profile specified above for Diploma programs.

ELEMENTARY – EARLY CHILDHOOD
ELEMENTARY – LATER CHILDHOOD
FRENCH – SECOND LANGUAGE
TECHNICAL-VOCATIONAL
BUSINESS EDUCATION

4 ADMISSIONS

GENERAL REQUIREMENTS

(These regulations are correct at the time of going to press but are subject to change either by the University or by the Quebec Department of Education)

BACHELOR OF EDUCATION

(three-year, 90 credit, University-level program)

Quebec applicants must possess a Diploma of Collegial Studies as awarded by a CEGEP, or its equivalent. There are no specified pre-requisite courses required for admission but candidates are advised to include Introductory Psychology & Sociology and other courses relevant to their teaching areas. For example, a prospective teacher of Mathematics would be advised to have a concentration in Mathematics courses; courses in Biology and Chemistry are strongly advised for Physical Education applicants; courses in Art and Music would be appropriate for Early Childhood applicants. Generally speaking, CEGEP candidates are advised to concentrate on those subjects which are taught in the Elementary and Secondary Schools of the Province of Quebec.

Ontario Grade XIII candidates may enter the 90 credit program if they have an average of 70% in five appropriate Grade XIII subjects.

Students from other Provinces of Canada are eligible to enter a 120 credit program, if they have an average of 70% in Grade XII. Grade XII students from the United States are also eligible to apply for a 120 credit program.

Overseas students are eligible to apply if they possess certificates equivalent to those outlined above. Such applicants should refer to the "General Announcement" and are advised to write the Admissions Office for an evaluation of their qualifications.

NOTE: 1. Candidates applying for B.Ed. programs in Physical Education, French, and Foreign Languages will be required to arrange interviews with the department concerned prior to admission.

NOTE: 2. Applicants who possess a first Bachelor's degree and who wish to study, for example, in the field of Physical Education or Art, should apply for admission to the B.Ed. degree with advanced standing.

NOTE: 3. Any candidate enrolled in the McGill B.Ed. as a second degree, will be required to take a minimum of 60 McGill credits in order to graduate.

McGILL DIPLOMA IN EDUCATION

(one-year program for University graduates)

All candidates for this Diploma must possess a university degree, or its equivalent, prior to admission. Candidates must normally have at least a 2nd class average in their degree and either a major (six full courses) in one subject taught in the elementary or secondary schools of the Province of Quebec or two minors (three full courses) in two such subjects.

In addition to these minimum requirements, certain subject areas have further requirements as outlined below:—

SECONDARY ART

Candidates must possess a degree of Bachelor of Fine Arts, an Art School equivalent plus a university degree, or a Degree with Art Major in which studio work formed the major part of the program. Candidates are required to present a portfolio of their work and to arrange for an interview with a member of the Department usually during the month of April prior to admission.

SECONDARY ENGLISH

Candidates should normally have taken six full university courses in the range offered in Departments of English, or three courses in English and three courses in another teaching subject; courses in linguistics, drama, and film are also recognized. For candidates who have

graduated from a four-year B.A. degree program, a required first-year course in English may not be included in order to achieve the requisite number of courses. Candidates with special experience in English outside academic course work should apply to the Department of Education in English of the Faculty of Education if they are otherwise short of requirements.

SECONDARY SOCIAL SCIENCES

a) Geography: The normal requirement of six university courses in geography, or three courses in geography and three courses in another teaching subject is applicable. Candidates should have courses in both physical and human geography and, preferably, one course in Cartography.

b) History: The normal requirement applies as for geography above, but candidates should have at least one course in Canadian history and one course in European history. Candidates without these courses may be required to undertake a reading program.

c) Social Studies: Candidates may elect Social Studies as one of their teaching options but, in addition, they must have the qualifications to be admitted into a second teaching area. Their Degree must show an acceptable sequence of courses in at least one social science discipline, e.g. political science, economics, anthropology, or sociology.

SECONDARY MATHEMATICS

Candidates seeking to teach only mathematics at secondary level must possess the normal requirement of 6 full courses in university-level mathematics provided that there has been no undue emphasis in one particular area, e.g. four courses in statistics.

SECONDARY SCIENCE

Candidates preparing to teach only science at secondary level should have a minimum of six full courses in science with at least three courses in one science subject taught in the high school. To teach science as a second subject, the minimum of three university courses would be required providing they are in subjects taught in the high school.

SECONDARY THEOLOGY

Applicants who wish to teach Religious and Moral Formation must have a minimum of six full courses in theology. Those planning to teach another subject as well as religion, require a minimum of three courses in theology.

MUSIC

Candidates must possess a Bachelor of Music Degree in School Music or its equivalent. Students in this program are required to do student teaching and course work at both elementary and secondary levels.

SECONDARY SECOND LANGUAGES

French as a Second Language, English as a Second Language, Modern Languages (German, Italian and Spanish).

In addition to meeting the minimum admission requirements, candidates for these options will be assessed on their oral and written competence. Assessment sessions will be held in the spring prior to admission. Those interested in these options should contact the Chairman, Department of Education in Second Languages, Faculty of Education.

SECONDARY LATIN

Candidates interested in this option should contact the Chairman of the Department of Education in Second Languages of the Faculty of Education before submitting an application.

SECONDARY HOME ECONOMICS

Candidates must possess a University degree in Home Economics or an acceptable equivalent.

The candidate's transcript should show a sufficient number of courses in at least three of the areas of the secondary school curriculum in Home Economics and a minimum of courses in the remaining areas. The Quebec Secondary School Curriculum in Home Economics has the following areas – Foods and Nutrition, Family Living, Housing and Design, Consumer Education and Clothing and Textiles.

SECONDARY TECHNICAL-VOCATIONAL OR BUSINESS EDUCATION

The candidate must possess a university degree, or its equivalent, in appropriate subjects. Each candidate's credentials will be individually evaluated to ensure they meet the requirements with respect to academic background and work experience. This will be followed by an interview to further determine the candidate's suitability for admission to this program. All interested applicants should contact Professor F. Jack Young, Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec.

ELEMENTARY PROGRAM

Candidates should possess the normal requirements of a 2nd class average in their degree and either a major (six full courses) in one subject taught in the schools or two minors (three full courses) in two such subjects. Candidates whose degrees do not contain the exact concentration of courses as outlined above may be considered for admission on the basis of the appropriateness for elementary school teaching of the courses taken in their degree, the standing achieved, letters of reference, etc.

ELEMENTARY FRENCH

In addition to the requirements for all Elementary candidates as outlined above, all applicants will be assessed on their oral and written competence in the French language.

PHYSICAL THERAPY

In conjunction with the School of Physical and Occupational Therapy, a one-year program leading to the McGill Diploma in Education is offered to qualified Physical Therapists who aspire to a teaching career in a recognized school of Physical Therapy. For further information write to The School of Physical and Occupational Therapy, 3654 Drummond Street, Montreal 109, Quebec, Canada.

CERTIFICATE PROGRAMS

(One-year programs leading to a Quebec Teaching Permit)

Quebec applicants must possess a Diploma of Collegial Studies as awarded by a CEGEP or its equivalent. Non-Quebec applicants with equivalent qualifications are also eligible to apply. The admission requirements are similar to those for admission to the 90 credit B.Ed. Degree program and are outlined on page 26.

The specific program requirements are as follows:—

ELEMENTARY

There are no specific pre-requisites but candidates are advised to have a background of courses appropriate for teaching in the elementary school.

(It is intended that this Program will be withdrawn at the end of the 73-74 academic year).

ELEMENTARY FRENCH

In addition to the normal admission requirements, all applicants will be assessed on their oral and written competence in the French language.

TECHNICAL-VOCATIONAL OR BUSINESS EDUCATION

The candidate must have the equivalent of thirteen (13) years of scholarity. This would normally mean Quebec Grade XI High School Leaving Certificate, or equivalent. In addition a candidate must:

a) be a graduate of a recognized professional training institution (CEGEP, Business College, Technical or Professional Institute, Trade School), in appropriate subjects.

or

b) possess journeyman's papers and have satisfactory work experience.

or

c) in occupations where journeyman's papers are not provided, have at least six (6) years relative experience in industry or business.

Each candidate's credentials will be individually evaluated to ensure they meet the requirements with respect to academic background and work experience. This will be followed by an interview to further determine the candidate's suitability for admission to the program. All interested applicants should contact Prof. F. Jack Young, Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec.

NOTE: It should be emphasized that meeting minimum academic admission requirements does not automatically guarantee admission. Letters of references are required of all candidates and interviews may also be required.

Fluency in one of the two official languages (English or French) is a requirement for all candidates seeking Quebec Teacher Certification (See Section 5 Quebec Teacher Certification). Applicants whose mother tongue is a language other than English or French are strongly advised to have their oral and written ability evaluated before submitting an application. (Tests may be arranged by contacting the Dept. of English or the Dept. of Second Languages at the Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec, Canada).

GRADUATE PROGRAMS (M.A., M.Ed., D.Ed., Ph.D.)

M.A., and M.Ed. DEGREES

Candidates must normally possess an undergraduate degree from a recognized university, with second class standing in at least one continuation subject, and also a Permanent Teaching Diploma valid in the Province of Quebec, or its equivalent. Candidates for the degree of M.Ed. in Counsellor Education are required to take, in addition, a battery of standardized tests, while those considering the M.Ed. degree in a Teaching subject must furnish evidence of competence in practical teaching.

D.Ed. (COUNSELLOR EDUCATION)

Candidates must hold the degree of M.Ed. in Counsellor Education of McGill University, or its equivalent, and have maintained a good second class standing in the degree. In addition, applicants must supply certain personal and educational data, take certain tests and submit to an interview procedure. For candidates who do not meet all of the above requirements, courses of qualifying study may be prescribed.

Ph.D.

At present the Faculty of Education does not offer a formal program leading to a Ph.D. However, under the Regulation set out in the Calendar of the Faculty of Graduate Studies and Research, it is possible for exceptionally well-qualified candidates to proceed to the degree of Ph.D. by making direct application to the Dean of the Faculty of Graduate Study and Research. Such candidates should have a very clear idea at the outset of the area of their prospective research.

Further specific requirements for particular degrees, and other information, should be sought from the Director of Graduate Studies, Faculty of Education, 3700 McTavish Street, Montreal 112, before application to enter a program is made.

ADMISSION PROCEDURES

B.Ed. DEGREE PROGRAMS / McGILL DIPLOMA IN EDUCATION PROGRAMS / CERTIFICATE PROGRAMS

Apply before 1st March to
Admissions Office,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec, Canada.

NOTE 1. In certain circumstances, it may be possible for B.Ed. applicants to be admitted in January or July. Applicants interested in these possibilities should contact the Director of Admissions in the first instance.

NOTE 2. Students already attending McGill University and wishing to transfer from another Faculty into the B.Ed. or Certificate Programs, and candidates who have previously been admitted to the Faculty of Education and are now wishing to return as full-time students, should apply before 1st July to Associate Dean's Office, Faculty of Education, 3700 McTavish Street, Montreal 112, Quebec, Canada.

PHYSICAL THERAPY (McGILL DIPLOMA IN EDUCATION)

Apply before 1st March to:
The School of Physical & Occupational Therapy,
3654 Drummond Street,
Montreal 109, Quebec, Canada.

HOME ECONOMICS (B.Ed. DEGREE)

Apply before 1st March to:
School of Food Science,
Macdonald College 800, Quebec, Canada.

B. ED. (ELEMENTARY EDUCATION) FOR PART-TIME STUDENTS

Admission is possible in September, January and July. Apply to:
Admissions Office,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec, Canada.

DIPLOMA IN KINDERGARTEN

Apply by 15th May to:
Summer Session Office,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec, Canada.

DIPLOMA IN SPECIAL EDUCATION / DIPLOMA IN READING

For Summer Session:
Apply by 15th May to:
Summer Session Office,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec, Canada.

For Winter Session*
Course Registration in person during first week of September at:
Centre for Continuing Education,
772 Sherbrooke Street West,
Montreal 101, Quebec, Canada.

TECHNICAL-VOCATIONAL AND BUSINESS EDUCATION DIPLOMA PROGRAM (SUMMER SESSION)

Apply before 1st May (preferably earlier) to:
Prof. F.J. Young,
Faculty of Education,
3700 McTavish Street,
Montreal 112, Quebec, Canada.

GRADUATE DEGREE PROGRAMS

Apply to:
Director of Graduate Studies,
Faculty of Education,
3700 McTavish Street,
Montreal 112, Quebec, Canada.

NOTE 1. Summer Session and Winter Session candidates in Counsellor Education, Educational Administration and programs in Social Foundations of Education and French as a Second Language, are required to apply by March 1. Other candidates applying for admission for the first time and wishing to start in the Summer Session must apply before April 1, and those wishing to commence their studies in the Fall must apply by July 3.

NOTE 2. Admission to the Faculty of Graduate Studies and Research for graduate programs in Education is made by the Dean of the Graduate Faculty on the basis of undergraduate record and satisfactory professional training. Admission to the appropriate courses is made by the individual departments of the Faculty of Education, and, where appropriate, by the departments concerned in other Faculties in consultation with the Faculty of Education.

* For Off-Campus courses
Apply to officer responsible for coordinating Continuing Education at the Regional School Board Offices.

*NOTE 1. Applications for Diploma in Special Education program must be approved, before Registration, by the Chairman, Dept. of Educational Psychology & Sociology, 3700 McTavish Street, Montreal 112.

*NOTE 2. Applications for the Diploma in Reading program must be approved, before Registration, by the Director, Reading Centre, 3700 McTavish Street, Montreal 112.

5 ACADEMIC REGULATIONS

ATTENDANCE

a) The pattern of attendance necessary to satisfy the requirements of course work will vary according to the nature of different subjects and the professors' approaches to them. A course constitutes a contractual and social obligation between the professor and the student. It is, therefore, the responsibility of the professor to make students aware of the unique requirements of a course and the manner in which they may be fulfilled, and the responsibility of the student to meet these requirements.

(The intention of the foregoing is to avoid the imposition of arbitrary and artificial attendance regulations. The removal of restrictions implies confidence in the maintenance of a state of good will, mutual trust and common sense among the parties concerned.)

b) Students in programs involving Student Teaching, Internship or Field Experiences must inform the Student Teaching Office immediately if, for any reason, they are unable to attend their school.

c) Students wishing to withdraw or transfer from the Faculty must complete the official Withdrawal or Transfer Forms available from their Coordinator or the Associate Dean's Office.

STANDING AND PROMOTION

BACHELOR OF EDUCATION PROGRAMS

Each course is assigned a credit rating based on the number of hours per week the student has contact with the course.

GRADE POINT AVERAGE

Courses are graded either by letter grades or in percent, with the following correspondences: A (80-100%), B (65-79%), C (55-64%), D (45-54%), F (0-44%). Grades A, B, and C are termed satisfactory passes, D is a conditional pass, and F is a failure.

Ratings of 4, 3, 2, 1, and 0 are attached to the grades of A, B, C, D, & F respectively and the earned grade point for each course is the product of the credit rating of the course and the grade rating attained. Standing will be determined on the basis of a grade point average (GPA) computed by dividing the sum of the grade points earned by the total course credits attempted.

The cumulative grade point average (CGPA) will be the grade point average calculated using the student's entire record in the program. The original mark of a failed course will continue to be used in the calculation of the CGPA even after the course is repeated and passed, or if a supplemental examination is taken and passed. Under certain conditions (See 'Course Load' below) a student may be permitted to take more courses than would normally be carried. All such courses will be included in the CGPA.

STANDING

There are three categories of standing: Satisfactory, Probationary, and Unsatisfactory.

A student normally enters the Faculty in Satisfactory standing and remains in this standing until his GPA drops below 2.0.

A student whose GPA drops to between 1.5 and 1.99 (1.2 and 1.99 for his entering year) goes into Probationary standing.

A GPA of less than 1.5 (less than 1.2 in the entering year) places a student in Unsatisfactory standing.

A student in Probationary standing must return to Satisfactory standing within one year by obtaining a GPA of 2.5 or attaining a CGPA of 2.0; otherwise he will be placed in Unsatisfactory standing.

A full-time student must remain in a position to complete his degree requirements within five years of admission to a 90-credit program, otherwise he reverts to Unsatisfactory standing.

COURSE FAILURE

If a student is judged a failure in the field experiences of his program, he will be required to withdraw from the Faculty. A request for subsequent re-admission may be made to the Committee on Admission, Standing and Promotion. If a student fails a course other than in field experiences, he may be permitted to sit a supplemental, repeat the course, or substitute another course at the discretion of the Committee on Admission, Standing, and Promotion.

Students in Unsatisfactory standing must withdraw from the Faculty. They may be re-admitted after appeal to the Committee on Admission, Standing and Promotion and subsequently considered to be on Probationary standing. A student in Unsatisfactory standing for the second time will be required to withdraw permanently.

COURSE LOAD

Full-time students in Satisfactory standing take between 13 and 17 credits per term. A higher load may be permitted students whose GPA is above 3.0. Full-time students on Probationary standing take between 10 and 12 credits per term, and may add to this load a repeated course in which a grade of D was originally obtained.

DEGREE REQUIREMENTS

To be eligible for a degree, a student must have accumulated 90 course credits (i.e. passed courses whose credit total is 90), obtained a C grade or better in his teaching option(s) and related method(s) courses, and have a CGPA of at least 2.0.

CREDIT FOR CEGEP OR COLLEGE-EQUIVALENT COURSES

A student may include up to 18 credits of CEGEP or college-equivalent courses (provided these have not been used as part of the requirements for the Diploma of Collegial Studies) towards the 90 credits required for the B.Ed. degree.

McGILL DIPLOMA IN EDUCATION AND CERTIFICATE PROGRAMS

TO OBTAIN A CLEAR PASS

(i) Students must have a satisfactory standing in student teaching.

(ii) Students in the secondary school option are permitted one D grade (exclusive of student teaching).

(iii) Students in the elementary option are permitted two D grades (exclusive of student teaching).

(iv) Students are not permitted any F grades.

FAILED STANDING

A student who fails more than two courses (either full or half course), fails the year. When a student's record includes one or more failures and one or more D's, so that the total number of failures and D's is more than two, the Committee on Admission, Standing and Promotion may recommend that such a student fails the year.

SUPPLEMENTAL PRIVILEGES

A student may be permitted to write a maximum of two supplemental examinations (either full or half course) in order to meet the criteria for a clear pass. In courses not evaluated by examination, a supplemental examination is not usually available. In such cases, it may be necessary for the student to repeat the course or to meet such other requirements as the Committee on Admission, Standing and Promotion may propose.

SUPPLEMENTAL EXAMINATIONS

If a student fails a course or obtains a conditional pass (45-54%), he may be permitted to sit a supplemental, repeat the course or substitute another course. It should be emphasized that these privileges are within the discretion of the Committee on Admission, Standing and Promotion. If permission is granted, the student must normally clear the failure or conditional pass within 16 months of terminating the original course.

(It should be noted that supplemental examinations are not necessarily available in all courses and that in fact no supplemental examinations are offered in Art, Music, Second Languages and Student Teaching. It is therefore the students' responsibility to check with individual instructors to ascertain whether or not supplementals will be available.)

Supplemental examinations, if available, are normally offered during the month of August. Students with permission to write such examinations must apply on the prescribed Form (before July 2) and pay the prescribed Supplemental Examination Fee.

DEFERRED EXAMINATIONS

A student who, for reasons such as illness or family affliction, has been unable to write one or more final examinations, may receive permission to write supplemental examinations in their stead. An 'L' will appear on the Report of Standing in place of a grade in such courses, and will be replaced by the grade obtained in the deferred examination after it has been written.

INCOMPLETE COURSES

If, in the instructor's opinion, there is sufficient and valid reason to permit a delay in the submission of required term work, an extension of deadline may be granted the student. In this case, the Report of Standing will show a 'K' (incomplete) until either the final grade has been submitted by the instructor or the deadline date has passed. In this latter case, 'K' will be replaced by 'F' (Fail).

CHANGE OF COURSE AND WITHDRAWAL FROM COURSES

Permission to change courses or withdraw with approval from courses must be obtained from the student's Advisor and/or Coordinator. The deadline dates for these changes are shown in the Calendar of Dates on page 2.

TRANSFER CREDITS

BACHELOR OF EDUCATION PROGRAMS

Credit may be granted by the Faculty of Education for courses taken at recognized universities other than McGill but not more than 30 credits of this type will be allowed towards the B.Ed. degree. Students seeking advanced standing upon admission should clearly indicate on their Application Forms which courses they wish to have considered for this purpose. Students already enrolled in the program must obtain approval from the Associate Dean (Student Affairs) before embarking on such courses. Normally, such transfer credits should be taken in the early part of the degree program.

McGILL DIPLOMA IN EDUCATION AND CERTIFICATE PROGRAMS

Transfer credit in these programs is not normally possible because of the Provincial requirement to complete a full-year of studies for scholarity purposes. However, students who can show proof of having taken equivalent courses over and above the requirements for their Degree or Diploma of Collegial Studies, should apply for credit transfer in the first instance to the Associate Dean (Student Affairs).

B.Ed. (ELEMENTARY EDUCATION) FOR PART-TIME STUDENTS

Teachers enrolled in this program may transfer up to 30 credits from a recognized university

other than McGill. In general, the same regulations apply as for the full-time B.Ed. degree program. A maximum of 45 Education course credits may be applied to the Degree from the Diploma programs in Kindergarten, Reading and Special Education. A maximum of 30 credits may be applied to the Degree from the McGill post-CEGEP Certificate in Education Elementary programs.

NOTE: The above Faculty Regulations lie within the jurisdiction of the Faculty Committee on Admission, Standing and Promotion. Inquiries concerning their meaning or application should be addressed to the Chairman of that Committee.

"ACADEMIC CREDIT TRANSFER AGREEMENT"

Under the terms of an agreement between McGill University, Sir George Williams University, the Université de Montréal and the Université du Québec, it is possible for students at any one of these universities to take courses for transfer credit at any other of the participating universities without payment of additional fees provided that appropriate arrangements are made in advance through the office of the Associate Dean (Student Affairs). Further details of this arrangement may be found in the "General Announcement".

QUEBEC TEACHER CERTIFICATION

(The following is provided for general information purposes only. To the best of our knowledge the information was correct as at press time but is subject to change. For comprehensive and further information please refer to the relevant Statutes and Orders-in-Council of the Province of Quebec).

Teacher Certification in Canada is a Provincial responsibility. McGill University offers approved programs which the Government of Quebec accepts for initial Teacher Certification. These programs are:

McGill Diploma in Education
Certificate in Education
Bachelor of Education.

Upon satisfactory completion of one of the approved programs, the Government issues a "Permit to Teach" showing the level and area of concentration. This "Permit to Teach" is normally valid for five years. If the holder of such a Permit requires a permanent Quebec Teaching Diploma he must complete two years of satisfactory teaching in Quebec during the validity of the Permit. If the holder of such a Permit or of a permanent Diploma wishes to teach in another Province or in another Country he must apply directly to the competent Teacher Certification Agency in the relevant Province or Country. Similarly, teachers from other Provinces or Countries who wish to teach in Quebec must apply to the competent authorities in Quebec:

Teacher Certification & Probation Service,
Complex 'G', 20th Floor
Parliament Buildings,
Quebec City, Canada.

In order to be eligible for a "Permit to Teach" candidates must be either Canadian Citizens, or Landed Immigrants, or must possess a Work Permit. To be eligible for a permanent Quebec Diploma it is necessary to be a Canadian Citizen.

In addition to meeting these requirements, candidates for Teacher Certification must be recommended by McGill University in each of the following areas:—

1. Adjustment of the personality for teaching
2. Command of the language of instruction
3. Academic competency in the area of concentration
4. Theoretical knowledge in the field of psycho-pedagogy
5. Aptitude as a classroom practitioner
6. Understanding of the Quebec educational system.

Regulation No. 4 of the Quebec Department of Education "Respecting the Permit and the Licence to Teach" was approved by Order-in-Council Number 592, March 30, 1966, and is reproduced below:

FACULTY OF EDUCATION

1. Authorization to teach at the levels of study governed by the regulations of the Minister of Education shall be awarded by the Minister and shall first be in the form of a permit to teach and later in the form of a licence to teach.

2. The permit to teach shall be awarded to every candidate who, after a thirteenth year of study or its equivalent. has successfully completed an approved training program at a recognized institution.

The duration and the nature of this program shall vary according to the level and the area of teaching selected by the candidate.

However, this program shall include, at the minimum, one year or the equivalent of, psychology, teaching methods and classroom practice.

3. The permit shall be valid for a period of five years. It shall confer the right to teach during any two of these five years in an institution recognized for the purposes of the present regulation. Under exceptional circumstances, this right may be extended for one year.

4. The licence to teach shall be awarded to the holder of a permit who, having taught for two years in accordance with section 3, is deemed competent.

5. For the application of the present regulation, the Minister of Education shall appoint a Teacher Education Committee which he shall consult regarding the matters enumerated in section 6.

The members of the committee shall be appointed for a definite period. One-third of the members shall be appointed after consultation with the most representative of teachers' associations or organizations; one-third shall be appointed after consultation with institutions at which approved teacher-education programs are provided.

6. Subject to the provisions of section 28 of the Superior Council of Education Act, the Teacher Education Committee shall be responsible for recommending to the Minister criteria relative to the following matters:

a) The recognition of institutions at which the holder of a permit may teach;

b) The supervision of the teaching performance of the holder of a permit to teach;

c) The competence which the holder of a permit must demonstrate in order to obtain a licence to teach and the manner of evaluation of this competence;

d) The suspension or revalidation of a licence to teach;

e) The approval of teacher-education programs;

f) The recognition of institutions at which teacher-education programs are provided;

g) Refresher courses for teachers and the upgrading of their qualifications.

The committee shall also be responsible for making recommendations concerning the nomenclature and terminology of permits and licences to teach.

7. The holder of a teaching diploma granted under former regulations shall retain the rights conferred by such diploma.

8. The present regulation shall come into force, in whole or in part, on the dates to be determined by the Minister.

6 GENERAL INFORMATION

FEES AND OTHER EXPENSES

The University reserves the right to make changes without notice in its published scale of tuition, board and rooms and other fees. Fees are not refundable except under special conditions.

Application Fee: $15.00

TUITION FEES

(These fees include all the regular charges for registration, laboratories, libraries, Health Service and student activities)

McGill Diploma in Education	$500.00
Certificate in Education	500.00
B.Ed. Years 1, 2, 3	638.00
B.Ed. (Physical Education) Years 1, 2, 3	658.00
B.Ed. (Home Economics) Years 1, 2	560.00
Year 3	638.00
Graduate Programs: See Calendar of Faculty of Graduate Studies & Research	
Diploma in Kindergarten, Reading, Special Education: per 3 credit course	$60.00
Diploma in Technical-Vocational or Business Education	$225.00 per Summer Session

SUPPLEMENTARY EXAMINATION FEE: $10.00

SPECIAL FEES AND PENALTIES: See "General Announcement"

BOARD AND RESIDENCE: See "General Announcement"

BOOKS

Students should expect to spend about $75.00 a session for prescribed textbooks and for classroom and laboratory supplies, all of which may be purchased from the Book Store.

TRAVELLING EXPENSES

Students enrolled in programs leading to Quebec Teacher Certification are required to participate in student-teaching and/or internship in the schools. Although every effort will be made to place a student within reasonable travelling distance, this cannot be guaranteed in every case. Students are responsible for any travelling expenses which may be incurred.

PHYSICAL EDUCATION

An additional fee is charged Physical Education students to cover part of the costs of the Outdoor Education Course. Those students who elect curling or skiing are also required to pay a separate fee.

SCHOLARSHIPS & FINANCIAL AID

The Student Counselling – Student Aid Office is equipped to handle all matters related to financial assistance (scholarships, bursaries and loans) whether university, provincial or federal. Students who are Canadian citizens or Landed Immigrants with one year's residence are usually eligible for Provincial loan or bursary assistance on the basis of financial need. Students

domiciled in Quebec or Ontario should apply in the first instance to the:

Student Counselling – Student Aid Office,
Room 110, Administration Building,
McGill University,
P.O. Box 6070,
Montreal 101, Quebec.
